## Chapter 154

**AN ACT to Appropriate Moneys for the Expenditures of State Government and for Other Purposes for the Fiscal Years Ending June 30, 1968 and June 30, 1969.**

**Emergency preamble.** Whereas, Acts and resolves passed by the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

Whereas, the said 90-day period will not terminate until after the beginning of the next fiscal year; and

Whereas, certain obligations and expenses incident to the operation of departments and institutions will become due and payable on or immediately after July 1, 1967; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

*Be it enacted by the People of the State of Maine, as follows:*

**Appropriations for necessary expenditures of government.** In order to provide for the necessary expenditures of government and for other purposes for the next two fiscal years — from July 1, 1967 to June 30, 1968 and from July 1, 1968 to June 30, 1969 — the following sums or as much thereof as shall severally be found necessary, as designated in the following tabulations, are appropriated out of any moneys in the General Fund not otherwise appropriated. Upon receipt of allotments duly approved by the Governor and Council based upon work programs submitted to the State Budget Officer, the State Controller shall authorize expenditures of these appropriations and revenues accruing thereto, together with expenditures for other purposes necessary to the conduct of State Government on the basis of such allotments and not otherwise.

Allotments for personal services, capital expenditures and amounts for all other departmental expenses shall not exceed the amounts shown in the budget document or as they may be revised by the Committee on Appropriations and Financial Affairs unless recommended by the State Budget Officer and approved by the Governor and Council.

There is hereby established within the Department of Mental Health and Corrections a fund to be known as the Institutional Reserve Fund which is defined as a vehicle to provide relief, when need exists, and on a commodity basis only, to those institutions where actual average population in a fiscal year exceeds the basic estimates of population upon which the budget was approved and where such relief cannot be absorbed within regular legislative appropriations. The detailed breakdown of such fund shall be on file in the Budget Office. Transfers to the various institutions from this fund shall not exceed the total amount available to this account. Funds provided in this Reserve Fund are not to be transferred between Line Categories.

The figures in parentheses shown just before each dollar amount provided for Personal Services in this Act, or as adjusted by other legislative action, shall represent the total number of authorized permanent positions in such account, and the maximum number of persons employable on a permanent basis at any one time. The appropriations made for Personal Services are made with the provision that the total number of permanent positions in any account shall not be increased during either year of the biennium over the total numbers shown in parentheses and used by the Legislature in computing the total dollars to be made available for Personal Services. Savings accruing within appropriations made, for permanent positions, may be used for other personal services when recommended by the department head and the Budget Officer, and approved by

the Governor and Council. To provide some degree of flexibility, each department, institution or agency may apply to the Personnel Board for an exchange between job classifications, and such action may be approved if by so doing the total amount determined to be available for Personal Services, in such account, for any one year is not exceeded, and also providing that certification is made, in writing, that such action will not result in an increased request for Personal Service moneys from the Legislature.

The Budget Office, during the next biennium, shall continually review with all departments the status of their personnel with the purpose of determining that all departments are expending Personal Service moneys within the intent of the Legislature, and shall report any expenditures contrary to such intent to the Governor and Council.

The Governor and the Budget Officer when next preparing a Budget Document may at their discretion adjust the figures in parentheses, representing numbers of employees, to reflect the number of employees which in their opinion is necessary to the proper operation of each department, institution or agency.

The Personnel Board is directed to require merit ratings on each individual who is recommended for a salary increase on a form prescribed by the board. Department heads are directed that the granting of merit increases be scrutinized and documented carefully. It is the intent of the Legislature that in instances where merit increases are not earned and warranted they should be denied.

No state department, institution or agency shall establish new programs or expand existing programs beyond the scope of the programs already established, recognized and approved by the Legislature, until such program and the method of financing shall be submitted to the Department of Finance and Administration — Budget Office — for evaluation and recommendation to the Legislature, and until funds are made available therefor by the Legislature.

The Budget Office shall inform the Committee on Appropriations and Financial Affairs through the Legislative Finance Office of significant action recommended by it in the performance of the budget responsibilities hereby assigned.

It is further provided that the Controller is authorized to close his books as soon as practicable after the close of the fiscal years ending June 30, 1968 and June 30, 1969. Any bills presented after those dates may be paid from appropriations for the ensuing year on recommendation of the Controller if within the amounts of approved allotments.

Whenever it appears to the Commissioner of Finance and Administration that the anticipated income of the State will not be sufficient to meet the expenditures authorized by the Legislature, he shall so report to the Governor and Council and they may temporarily curtail allotments equitably so that expenditures will not exceed the anticipated income.

At the end of each fiscal year of the biennium, all unencumbered appropriation balances representing state moneys, except those that carry forward as provided by law, shall be lapsed to Unappropriated Surplus as provided by the Revised Statutes of 1964, Title 5, section 1544. At the end of each fiscal year of the biennium, all encumbered appropriation balances shall be carried forward

to the next fiscal year, but in no event shall encumbered appropriation balances be carried more than once.

There shall be paid from the General Highway Fund the cost of accounting, auditing, purchasing and legal services furnished from the General Fund appropriations. This revenue shall be credited to the General Fund.

It is intended that the language in this section shall apply to all other appropriation measures enacted by the Legislature.
