PRIVATE AND SPECIAL LAWS
OF THE
STATE OF MAINE

AS PASSED BY THE
One Hundred and Fifth Legislature

AT THE
SPECIAL SESSION

January 24, 1972

to

March 10, 1972

of the Legislature shall receive a compensation of ~~\$650~~ \$1,500 for such attendance and travel at each legislative session for 20 trips to and from his place of abode at the same rate as state employees receive, and allowance for meals and housing expenses as any other member of the Senate and House of Representatives for 20 days' attendance at each legislative session.

Sec. 5. Appropriation. There is appropriated from the General Fund to the Legislative Account the sum of \$186,400 for the fiscal year ending June 30, 1973 to carry out the purposes of sections 2 and 3 of this Act.

Sec. 6. Effective date. Sections 2, 3, 4, 4-A, 4-B and 5 of this Act shall take effect on the first Wednesday of January, 1973.

Effective June 9, 1972 except as otherwise indicated

CHAPTER 179

AN ACT to Appropriate Moneys for the Expenditures of State Government and Other Purposes for the Fiscal Years Ending June 30, 1972 and June 30, 1973.

Emergency preamble. Whereas, Acts and resolves passed by the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

Whereas, the said 90-day period may not terminate until after the beginning of the next fiscal year; and

Whereas, certain obligations and expenses incident to the operation of departments and institutions will become due and payable prior to July 1, 1972; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine, and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

Be it enacted by the People of the State of Maine, as follows:

Appropriations for necessary expenditures of government. In order to provide for necessary expenditures of government and other purposes for the 2 fiscal years — from July 1, 1971 to June 30, 1972 and from July 1, 1972 to June 30, 1973 — the following sums or as much thereof as shall severally be found necessary, as designated in the following tabulations, are appropriated out of any moneys in the General Fund not otherwise appropriated. Upon receipt of allotments duly approved by the Governor and Council based upon work programs submitted to the State Budget Officer, the State Controller shall authorize expenditures of these appropriations and revenues accruing thereto, together with expenditures for other purposes necessary to the conduct of State Government on the basis of such allotments and not otherwise.

Allotments for personal services, capital expenditures and amounts for all other departmental expenses shall not exceed the amounts shown in the budget document or as they may be revised by the Committee on Appropriations and Financial Affairs unless recommended by the State Budget Officer and approved by the Governor and Council.

The figures in parentheses shown just before each dollar amount provided for Personal Services in this Act, or as adjusted by legislative action, shall represent the total number of persons employable on a permanent basis at any one time. The appropriations made for Personal Services are made with the provision that the total number of permanent positions in any account shall not be increased during either year of the biennium over the total numbers shown in parentheses and used by the Legislature in computing the total dollars to be made available for Personal Services. Savings accruing within appropriations made for permanent positions may be used for other nonrecurring personal services when recommended by the department head and the State Budget Officer, and approved by the Governor and Council. To provide some degree of flexibility, each department, institution or agency may apply to the Personnel Board for an exchange between job classifications, and such action may be approved if by so doing the total amount determined to be made available for Personal Services, in such account, for any one year is not exceeded and also providing that certification is made, in writing, that such action will not result in an increased request for Personal Service moneys from the next Legislature. Copies of all Personnel Board action relating to such changes shall be furnished to the Legislative Finance Officer.

Personnel employed by programs partially funded by federal funds shall be considered limited appointment employees, notwithstanding the figures in parentheses representing numbers of employees, should federal funds be withdrawn or reduced.

The Budget Office, during this biennium, shall continually review with all departments the status of their personnel with the purpose of determining that all departments are expending Personal Service moneys within the intent of the Legislature, and shall report any expenditures contrary to such intent to the Governor and Council and the Legislative Finance Officer.

The Personnel Board is directed to require merit ratings on each individual who is recommended for a salary increase on a form prescribed by the board. Department heads are directed that the granting of merit increases be scrutinized and documented carefully. It is the intent of the Legislature that in instances where merit increases are not earned and warranted they should be denied.

The Governor and the State Budget Officer when next preparing a Budget Document may at their discretion adjust the figures in parentheses, representing numbers of permanent employees, to reflect the number of employees which in their opinion is necessary to the proper operation of each department, institution or agency.

The Governor and Executive Council shall not approve any allocation of funds for a department by which funds are transferred from one quarter to another, when the transfer will result in a request for a deficiency appropriation at a special or regular session of the Legislature.

No state department, institution or agency shall establish new programs or expand existing programs beyond the scope of those programs already established, recognized and approved by the Legislature, until such program and the method of financing shall be submitted to the Department of Finance and Administration — Budget Office — for evaluation and recommendation to the Legislature, and until funds are made available therefor by the Legislature.

The State Purchasing Agent is directed to require that requisitions for replacement motor vehicles include the age and total mileage of the motor vehicles being replaced. For the purposes of this paragraph, motor vehicles are defined as passenger cars, panel and pickup trucks, excluding those vehicles operated by the State Police. It is the intent of the Legislature that motor vehicles shall have been in service for at least 5 years or 50,000 miles before they are replaced. This policy shall also be adopted by the State Budget Officer when next preparing a Budget Document. Exceptions to the established replacement policy shall require the prior approval of the Governor and Council.

It is the intent of the Legislature that out-of-state travel be limited. Any State employee who travels out-of-state on State business (such as law enforcement, collecting, bidding, industrial development, loans, etc.) may continue to do so.

However, the Legislature is concerned about the increase in out-of-state travel and because of the State's financial circumstances, the Legislature directs that Department Heads hold down cost of all travel where it is not absolutely needed.

The Budget Office shall inform the Committee on Appropriations and Financial Affairs through the Legislative Finance Office of significant action recommended by it in the performance of the budget responsibilities hereby assigned.

It is the intent of the Legislature that in the event matching federal funds are not available as anticipated for programs in this Act, there is no obligation to provide state funds in excess of the appropriations listed in this Act.

The Commissioner of Finance and Administration through the State Purchasing Agent or such other agent as he may choose, shall conduct a thorough review of all types of equipment, owned, leased or otherwise available to the several departments and agencies of the State, regardless of the source of supporting funds, with the intent of combining their use, providing centralized facilities, or of eliminating existing equipment and facilities, as he believes to be in the most economical, most efficient and best interests of the State.

Whenever it appears to the Commissioner of Finance and Administration that the anticipated income of the State will not be sufficient to meet the expenditures authorized by the Legislature, he shall so report to the Governor and Council and they may temporarily curtail allotments equitably so that expenditures will not exceed the anticipated income.

There shall be paid from the General Highway Fund the cost of accounting, auditing, purchasing and legal services furnished from the General Fund appropriations. This revenue shall be credited to the General Fund.

At the end of each fiscal year of the biennium, all unencumbered appropriation balances representing state moneys, except those that carry forward as provided by law, shall be lapsed to Unappropriated Surplus as provided by the Revised Statutes of 1964, Title 5, section 1544. At the end of each fiscal year of the biennium, all encumbered appropriation balances shall be carried forward to the next fiscal year, but in no event shall encumbered appropriation balances be carried more than once.

It is further provided that the Controller is authorized to close his books as soon as practicable after the close of the fiscal years ending June 30, 1972 and June 30, 1973. Any bills presented after those dates may be paid from appropriations for the ensuing year on recommendation of the Controller if within the amounts of approved allotments.

It is intended that the language in this section shall apply to all other appropriation measures enacted by the Legislature.

CHAPTER 180

AN ACT to Provide Funds to Assist County Attorneys in the Administration of the Court System.

Emergency preamble. Whereas, Acts of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

Whereas, appropriate assistance is necessary to alleviate the heavy case loads of county attorneys throughout the State; and

Whereas, it is imperative that action be taken at the earliest possible moment to avoid further overloading and the miscarriage of justice; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

Be it enacted by the People of the State of Maine, as follows:

Appropriation. There is appropriated from the Unappropriated Surplus of the General Fund to the Department of the Attorney General the sum of \$50,000 to provide upon request of a county attorney services of assistant attorneys general to prosecute criminal cases throughout the State. Any unexpended balance remaining at June 30, 1972 shall carry forward to June 30, 1973 to be expended for the same purposes.

Emergency clause. In view of the emergency cited in the preamble, this Act shall take effect when approved.

Effective March 13, 1972
