CHAPTER 122

AN ACT to Permit the State Board of Education to Reimburse the City of Portland for School Construction.

Emergency preamble. Whereas, Acts of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

Whereas, if enacted as a regular Act of the Legislature the school department of the City of Portland would not be able to apply to the State Board of Education for school subsidy for the fiscal year 1971-1972 until much later in this year; and

Whereas, in the judgment of the Legislature, this would work a financial hardship upon the school system and citizens of Portland; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

Be it enacted by the People of the State of Maine, as follows:

City of Portland; reimbursed for school construction. Notwithstanding either the provisions of the Revised Statutes, Title 20, section 3457, which provides that any school administrative unit, which begins construction on a school construction aid project before such a project has been finally approved by the State Board of Education, becomes ineligible for school construction aid on that particular project or any other provision of law relating to the timing of such application, its approval and payments thereunder, the State Board of Education is hereby authorized to accept the application of the superintending school committee of the City of Portland for school construction aid for the projects described below on which construction was begun prior to the granting of final approval by the State Board of Education:

- West School — remodel library area
- North School — replace window frames and sashes
- Cummings School — new electric panels and feeders
- Deering High School — installation of electrical outlets
- Lincoln Jr. High School — replace window frames and sashes
- Morrill School — new electrical service
- Burglar alarm installations in various schools

Fire safety alterations for all public schools in the City of Portland; and, if the State Board of Education finds that the application of the superintending school committee of the City of Portland otherwise meets the requirements established by law, it shall waive any requirements relating to the timing of such application, its approval and payments thereunder, and it shall approve the said projects for state aid, issue an appropriate certificate of approval and authorize payment of such aid to the City of Portland.

Emergency clause. In view of the emergency cited in the preamble, this Act shall take effect when approved.
