PRIVATE AND SPECIAL LAWS
OF THE
STATE OF MAINE

AS PASSED BY THE
One Hundred and Sixth Legislature

AT THE
SPECIAL SESSION

January 2, 1974

to

March 29, 1974

of not more than one year and any such temporary notes may be renewed from time to time by the issue of other temporary notes, provided the period from the date of issue of the original note to the date of maturity of the last renewal thereof shall not be more than one year. Notes in anticipation of revenue which are not paid at the end of one year may be renewed for an additional year and there shall be included in that year's budget as an expenditure an amount sufficient to pay said notes, which amounts shall be assessed and collected as provided in section 9. Notwithstanding any provision in section 9 to the contrary, said amount shall not be reduced.

Sec. 4. P. & S. L., 1967, c. 58, § 13, additional. Chapter 58 of the private and special laws of 1967, as amended, is further amended by adding a new section 13, to read as follows:

Sec. 13. Other purposes. In addition to the purposes of the district provided in section 1, the district may provide a professional building at a location adjacent or convenient to its hospital and may lease all or any portion of said professional building to private persons engaged in the practice of medicine, surgery, dentistry or osteopathy, to registered apothecaries and to volunteer or non-profit groups which offer or provide a public, medically related service. It is hereby found and determined by the Legislature that such a professional building is necessary to better provide for the medical needs of patients of the hospital and for the health and welfare of inhabitants of the district and that such a facility cannot reasonably be provided by private means.

Sec. 5. Bonds and notes. In addition to the powers provided by its charter, Chapter 58 of the Private and Special Laws of 1967, Hospital Administrative District No. 1, in Penobscot County is hereby authorized, by vote of a majority of its board of directors and without action by the voters of the district, to issue bonds or notes of the district to refund and renew outstanding temporary notes in the amount of \$300,000, which notes were originally issued to raise funds for capital and start-up expenses of the district. Such bonds or notes shall be issued as provided in section 3 of said Chapter 58, as amended, but shall not be included in the limitation of indebtedness contained therein.

Emergency clause. In view of the emergency cited in the preamble, this Act shall take effect when approved.

Effective March 5, 1974

CHAPTER 202

AN ACT Making Current Service Appropriations from the General Fund and Allocating Money from the Federal Revenue Sharing Fund for the Fiscal Year Ending June 30, 1975.

Emergency preamble. Whereas, Acts and resolves passed by the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

Whereas, the 90-day period may not terminate until after the beginning of the next fiscal year; and

Whereas, certain obligations and expenses incident to the operation of departments and institutions will become due and payable on or immediately after July 1, 1974; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine, and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

Be it enacted by the People of the State of Maine, as follows:

Sec. 1. Appropriations from General Fund. In order to provide for necessary expenditures of government and other purposes for the fiscal year — July 1, 1974 to June 30, 1975 — the following sums or as much thereof as shall severally be found necessary, as designated in the following tabulations, are appropriated out of any moneys in the General Fund not otherwise appropriated.

Sec. 2. Allotments required. Upon receipt of allotments duly approved by the Governor and Council based upon work programs submitted to the State Budget Officer, the State Controller shall authorize expenditures of these appropriations, together with expenditures for other purposes necessary to the conduct of State Government on the basis of such allotments and not otherwise. Allotments for personal services, capital expenditures and amounts for all other departmental expenses shall not exceed the amounts shown in the budget document or as they may be revised by the Committee on Appropriations and Financial Affairs unless recommended by the State Budget Officer and approved by the Governor and Council.

Sec. 3. Temporary curtailment of allotments. Whenever it appears to the Commissioner of Finance and Administration that the anticipated income and other available funds of the State will not be sufficient to meet the expenditures authorized by the Legislature, he shall so report to the Governor and Council and they may temporarily curtail allotments equitably so that expenditures will not exceed the anticipated income and other available funds.

Sec. 4. Transfers limited. The Governor and Executive Council shall not approve any allotment revision for a department by which funds are transferred from one quarter to another, when the transfer will result in a request for a deficiency appropriation at a special or regular session of the Legislature.

Sec. 5. Personal Services appropriation. The figures in parentheses shown just before each dollar amount provided for Personal Services in this Act, or as adjusted by legislative action, shall represent the total number of permanent positions at any one time. The appropriations made for Personal Services are made with the provision that the total number of permanent positions in any account shall not be increased during either year of the biennium over the total numbers shown in parentheses and used by the Legislature in computing the total dollars to be made available for Personal Services. The amounts appropriated for Personal Services include funds for the State's share of state employees retirement. The State Controller shall transfer the State's share to the Maine State Retirement System as soon as practicable after each payroll is paid.

Sec. 6. Personal Services review. The Budget Office, during this biennium, shall continually review with all departments the status of their

personnel with the purpose of determining that all departments are expending Personal Service moneys within the intent of the Legislature, and shall report any expenditures contrary to such intent to the Governor and Council and the Legislative Finance Officer.

Sec. 7. Personal Services savings and flexibility. Savings accruing within appropriations made for permanent positions may be used for nonrecurring personal services or retirement costs when recommended by the department head and the State Budget Officer, and approved by the Governor and Council. To provide some degree of flexibility, each department may apply to the Personnel Board for an exchange between job classifications, and such action may be approved if by so doing the total amount determined to be made available for Personal Services, in each department, for any one year is not exceeded and also providing that certification is made, in writing, that such action will not result in an increased request for Personal Service moneys from any future Legislature. Copies of all Personnel Board action relating to such changes shall be furnished to the Legislative Finance Officer and the State Budget Officer.

Sec. 8. Merit ratings required. The Personnel Board is directed to require merit ratings on each individual who is recommended for a salary increase on a form prescribed by the board. Department heads are directed that the granting of merit increases be scrutinized and documented carefully. It is the intent of the Legislature that in instances where merit increases are not earned and warranted they shall be denied.

Sec. 9. Number of necessary employees. The Governor and the State Budget Officer when next preparing a Budget Document may at their discretion adjust the figures in parentheses, representing numbers of permanent employees, to reflect the number of employees which in their opinion is necessary to the proper operation of each department, institution or agency.

Sec. 10. New or expanded programs. No department shall establish new programs or expand existing programs beyond the scope of those programs already established, recognized and approved by the Legislature, until such program and the method of financing shall be submitted to the Budget Office for evaluation and recommendation to the Legislature, and until funds are made available therefor by the Legislature.

Sec. 11. Federally funded programs. It is the intent of the Legislature that in the event matching federal funds are not available as anticipated for programs in this Act, there is no obligation to provide state funds in excess of the appropriations listed in this Act. Positions entirely or partially funded by Federal or other than State sources of funds shall be considered as limited positions, notwithstanding the figures in parentheses representing numbers of employees, should such funds be withdrawn or reduced.

Sec. 12. Travel limitations. It is the intent of the Legislature that out-of-state travel be limited. Any State employee who travels out-of-state on state business, such as law enforcement, collecting, bidding, industrial development, loans, etc., may continue to do so. The Legislature directs that department heads hold down cost of all travel where it is not absolutely needed.

Sec. 13. Equipment to be reviewed. The Commissioner of Finance and Administration through the State Purchasing Agent or such other agent as

he may choose, shall conduct a thorough review of all types of equipment, owned, leased or otherwise available to the several departments and agencies of the State, regardless of the source of supporting funds, with the intent of combining their use, providing centralized facilities, or of eliminating existing equipment and facilities, as he believes to be in the most economical, most efficient and best interests of the State.

Sec. 14. Motor vehicle replacement policy. The State Purchasing Agent is directed to require that requisitions for replacement motor vehicles include the age and total mileage of the motor vehicle being replaced. For the purposes of this paragraph, motor vehicles are defined as passenger cars, panel and pickup trucks, excluding those vehicles operated by the State Police. It is the intent of the Legislature that motor vehicles shall have been in service for at least 5 years or 50,000 miles before they are replaced. This policy shall also be adopted by the State Budget Officer when next preparing a Budget Document. Exceptions to the established replacement policy shall require the prior approval of the Governor and Council.

Sec. 15. Significant action recommended by Budget Office. The Budget Office shall inform the Committee on Appropriations and Financial Affairs through the Legislative Finance Office of significant action recommended by it in the performance of the budget responsibilities hereby assigned.

Sec. 16. Highway Fund payments. There shall be paid from the General Highway Fund the cost of accounting, auditing, purchasing and legal services furnished from the General Fund appropriations. This revenue shall be credited to the General Fund.

Sec. 17. Year end closing. The Controller is authorized to close the books as soon as practicable after the close of the fiscal year ending June 30, 1975. Any bills presented after those dates may be paid from appropriations for the ensuing year on recommendation of the Controller if within the amounts of approved allotments.

Sec. 18. Appropriation balances at year end. At the end of each fiscal year, all unencumbered appropriation balances representing state moneys, except those that carry forward as provided by law, shall lapse to Unappropriated Surplus as provided by the Revised Statutes of 1964, Title 5, section 1544. At the end of each fiscal year, all encumbered appropriation balances shall be carried forward to the next fiscal year. Encumbered appropriation balances shall not be carried more than once except in those accounts which carry forward from year to year by law.

Sec. 19. Other appropriation measures. It is intended that the language in the preceding sections of this Act shall apply to all other appropriation measures enacted by the Legislature.
