Whereas, the Treasurer of State cannot sell any bonds not yet issued from the \$30,000,000 pollution abatement bond issue authorized by the voters in 1977 unless the Legislature reauthorizes the issuance of those bonds; and

Whereas, the Department of Environmental Protection cannot meet its existing contractual obligations with municipalities and quasi-municipal corporations unless the bonds not yet issued are reauthorized; and

Findings; expiration. Resolved: That the Legislature finds that the authorization for the \$30,000,000 bond issue approved by the electorate in

November 1976, for the planning, construction and equipment of pollution abatement facilities has expired; and be it further

Resolved: That the Legislature further finds that unless the bond issue is reauthorized the progress in cleaning up the State's waters by municipal dischargers will be seriously hindered and the State will not be able to meet its existing contract obligations with municipalities and quasi-municipal corporations; and be it further

Reauthorization authorized. Resolved: That it is the intent of the Legislature to reauthorize bonds not yet issued from the \$30,000,000 bond issue for the planning, construction and equipment of pollution abatement facilities for an additional 5-year period from the effective date of this resolve.
