CHAPTER 379

BOARDS, COMMISSIONS, COMMITTEES

AND SIMILAR ORGANIZATIONS

SUBCHAPTER I

COMPENSATION

Sec. 3. 5 MRSA §12003-A, sub-§10 is enacted to read:

10. Advisory boards. Members of any board which serves exclusively as an advisory board, particularly those boards described in section 12004-I, shall be deemed not to be officers of the State within the meaning of the Constitution of Maine and shall not be required to be commissioned or certified by the Secretary of State as provided in section 84.

Sec. 4. 5 MRSA §12004, as amended, is repealed and the following enacted in its place:

§12004. Classifications and definitions of boards

Boards established or authorized by this chapter shall be classified according to the similarities of the powers and duties of the several boards. Members of boards shall be eligible for the rate of compensation specified for each board, except when compensation is not authorized. A reference to the statutory description of each board shall also be provided. For the purposes of sections 12004-G to 12004-J, the term "field" does not designate the state agency or department with which a board is associated or affiliated, but only refers to the generic subject matter before the board.

The definitions of responsibilities and authority of each classification of boards may not necessarily apply in total to each board within each classification. Each board may possess some but not all of the responsibilities and authority as defined for the classification in which the board is included. The primary function of each board complies with the primary responsibilities and authority of the classification in which the board is included.

Sec. 5. 5 MRSA §§12004-A to 12004-L are enacted to read:

§12004-A. Occupational and professional licensing boards

The primary responsibilities of occupational and professional licensing boards include the examination of applicants, issuance of licenses or certificates, registration of licenses and rules of licensees with respect to the practice of a particular occupation or profession. The

primary powers of these boards include the authority to hold hearings, adopt rules, establish standards and procedures, issue licenses and initiate action for the revocation or suspension of occupational or professional licenses.

For purposes of any occupational or professional licensing boards which have a public member or members, "public member" means a person who has no financial interest in the profession regulated by the board to which that member has been appointed and who has never been licensed, certified or given a permit in the occupation or profession for which that member is appointed to regulate.
