CHAPTER 67

H.P. 1193 - L.D. 1590

Resolve, to Direct the Department of Environmental Protection to Collect, Review and Develop Information for Use in Implementing the Clean Air Act

Emergency preamble. **Whereas,** Acts and resolves of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

Whereas, the United States Congress created the Ozone Transport Region in an attempt to address the problem of ozone air quality violations in the northeast and placed the 12 states from Maryland to Maine, and the District of Columbia, in the Ozone Transport Region; and

Whereas, the deadlines for engineering, purchasing and installing controls are fast approaching; and

Whereas, Maine's companies and businesses should not be required to install emissions controls in the absence of an adequate scientific demonstration that the controls will help reduce ozone, in any meaningful way, in the nonattainment areas of the State; and

Whereas, there does not yet exist such a scientific demonstration; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore, be it

Sec. 1. Information request; collection. Resolved: That, not later than June 1, 1994, the Department of Environmental Protection shall submit a written request to the United States Environmental Protection Agency to provide to the department written guidance regarding the information that must be submitted by the State to the Environmental Protection Agency to demonstrate whether the control of emissions in Maine or in any region of the State will significantly contribute to attainment of the federal ozone ambient air quality standard pursuant to the federal Clean Air Act, 42 United States Code, Section 7506a(a)(2).

The Department of Environmental Protection shall collect and review available information, assess on-going efforts to develop information and develop additional information as may be required by the United States Environmental Protection Agency to determine whether emissions controls in the State or in any region of the State will significantly contribute to attainment of the federal ozone ambient air quality standard pursuant to the federal Clean Air Act.

By January 15, 1995, the department shall submit to the joint standing committee of the Legislature having jurisdiction over energy and natural resource matters a progress report that describes its efforts and those of the United States Environmental Protection Agency to carry out the activities required in this section.
