PREFACE

The 1995 edition of the Laws of Maine is the official publication of the Session Laws of the State of Maine enacted by the 117th Legislature and is compiled and published under the authority of the Maine Revised Statutes, Title 3, section 163-A. The Laws of Maine has been in continuous publication since 1820, when the Acts and Resolves adopted by the First Legislature were published by the Secretary of State under the authority of Resolve 1820, chapter 25.

Volume 1 of this edition contains the public laws enacted at the First Regular Session of the 117th Legislature.

Volume 2 contains the private and special laws, resolves and constitutional resolutions enacted at the First Regular Session of the 117th Legislature, followed by a selection of significant addresses, joint resolutions and memorials. An index to the materials in both volumes is located at the end of volume 2.

Additional volumes of the 1995 Laws of Maine will contain those measures adopted in the Second Regular Session and any special session of the 117th Legislature.

The following conventions are used throughout the series.

1. At the top of each page is a heading that indicates the individual classification of each law, the year and session of passage and its chapter number.
2. A table of contents that locates major divisions and contents by page reference is located at the beginning of each volume.
3. An individual subject index of the documents contained in this volume, arranged alphabetically by subject headings with corresponding chapter numbers, is located at the end of volume 2.
4. A session cross-reference table is also provided at the end of volume 2 to show how unallocated public laws, laws exempted in previous revisions, and Titles and sections of the Maine Revised Statutes of 1964 have been affected by the laws included in this publication.
5. When a word or phrase is deleted from the statutes, it is shown stricken through. When an entire section or larger segment is repealed, the text that is repealed is not shown stricken but its repeal is indicated by express language.
6. When new words or sections are added to the statutes, they are underlined.
7. Citations to a Legislative Document are printed beneath the chapter number heading to assist in locating the original source of each chapter.
8. The effective date for Maine laws is provided in the Constitution of Maine, Article IV, Part Third, Section 16, which specifies that, except for certain emergency legislation, an act or resolve enacted into law takes effect 90 days after the adjournment of the session in which it passed. The general effective date of nonemergency laws passed at the First Regular Session of the 117th Legislature is September 29, 1995. The effective dates of emergency legislation vary and are provided at the end of the chapters that were enacted as emergencies.

This edition of the Laws of Maine and its predecessors have been prepared for the convenience of the people of the State of Maine and any comments or suggestions for improvements in subsequent editions would be appreciated.

PUBLIC LAWS OF THE STATE OF MAINE
AS PASSED AT
THE FIRST REGULAR SESSION OF THE
ONE HUNDRED AND SEVENTEENTH LEGISLATURE
1995

CHAPTER 1

H.P. 59 - L.D. 57

**An Act to Extend the Reporting Date
of the Committee to Study
Organizational and Tax Issues in
Public Schools**

Emergency preamble. Whereas, Acts of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

Whereas, the Committee to Study Organizational and Tax Issues in Public Schools has completed its study and reached consensus but needs additional time to draft and review its final comprehensive report; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

Be it enacted by the People of the State of Maine as follows:

Sec. 1. PL 1993, c. 684, §5 is amended to read:

5. Report. The committee shall report its findings and recommendations to the Governor and to the joint standing committee of the Legislature having jurisdiction over education matters by ~~January 15, 1995~~ February 13, 1995.

Sec. 2. Retroactivity. This Act applies retroactively to January 15, 1995.

Emergency clause. In view of the emergency cited in the preamble, this Act takes effect when approved.

Effective January 13, 1995.

CHAPTER 2

H.P. 10 - L.D. 4

**An Act to Continue the Fee on the
Handling of Milk**

Emergency preamble. Whereas, Acts of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

Whereas, the recent decision in Cumberland Farms, Inc. v. LaFaver terminated the collection of revenue from the handling of milk by invalidating the Maine Dairy Farm Stabilization Tax; and

Whereas, the tax provided an average of more than \$2,000,000 per year in revenues to the State at a time when the State and its citizens are experiencing economic difficulties and significant fiscal problems; and

Whereas, such revenues are necessary to the State's ability to address such difficulties and problems; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

Be it enacted by the People of the State of Maine as follows:

Sec. 1. 7 MRSA §2954, sub-§1, as repealed and replaced by PL 1991, c. 824, Pt. A, §8, is amended to read:

1. Commission empowered to establish prices; public hearing. The commission is vested with the power to establish and change, after investigation and public hearing, the minimum wholesale and retail prices to be paid to producers, dealers and stores for milk received, purchased, stored, manufactured, processed, distributed or otherwise handled within the State. The commission shall hold a public hearing prior to the establishing or changing of such minimum prices. The commission may proceed, however, under the emergency rule-making provisions of Title 5, section 8054 without making findings of

emergency when the only changes to be made in the minimum prices are to conform with the orders of any federal or other agency duly authorized by law to establish or negotiate producer prices or are to respond to other conditions affecting prevailing Class I, Class II and Class III prices in southern New England, or reflect the ~~Maine Dairy Farm Stabilization Milk Handling Tax~~ as determined by Title 36, chapter ~~708-A~~ 716. Title 5, section 8054, subsection 3, the 2nd sentence, does not apply to minimum prices adopted under the previous sentence. Due notice of the public hearing must be given by publishing notice as provided in Title 5, chapter 375. The commission shall hold such a public hearing not less frequently than once every 12 months to determine whether the minimum wholesale and retail prices then established should be changed. In addition to the data received through the implementation of the information gathering procedures of its rules as a basis for its determinations, the commission shall solicit and seek to receive oral and written testimony at hearings to determine whether the minimum wholesale and retail prices then established should be changed and whether the proposed minimum wholesale and retail prices are just and reasonable.

Sec. 2. 7 MRSA §2954, sub-§2, ¶B, as amended by PL 1991, c. 526, §2, is further amended to read:

B. The minimum wholesale prices paid to dealers must be established to reflect the lowest prices at which milk purchased from producers in this State at minimum prices in the State can be received, processed, packaged and distributed within the State at a just and reasonable return, and in addition must include the amount of any tax determined by Title 36, chapter ~~708-A~~ 716.

Sec. 3. 7 MRSA §2954, sub-§13, as enacted by PL 1991, c. 526, §3, is amended to read:

13. Report to State Tax Assessor. The Maine Milk Commission shall report before the first of each month to the State Tax Assessor the basic price of milk established for that month as defined in Title 36, chapter ~~708-A~~ 716.

Sec. 4. 36 MRSA c. 708-A, as amended, is repealed.

Sec. 5. 36 MRSA c. 716 is enacted to read:

CHAPTER 716

MILK HANDLING TAX

§4771. Definitions

As used in this chapter, unless the context otherwise indicates, the following terms have the following meanings.

1. Basic price. "Basic price" means the minimum Class I price of milk established pursuant to Title 7, chapter 603 including that part of the Class I price that exceeds the applicable Class I price established pursuant to the New England Milk Marketing Order, except that part of the Class I price established by the Maine Milk Commission to reflect the cost factors provided in Title 7, section 2954, subsection 2 or the increased costs of production pursuant to Title 7, section 2954, subsection 2, paragraph A.

2. Handler. "Handler," with respect to a particular container of packaged milk, means the wholesale handler or, if none, the retail handler.

3. Milk. "Milk" has the same meaning as in Title 7, section 2951, subsection 6.

4. Packaged milk. "Packaged milk" means milk that has been processed and placed in containers for ultimate sale to consumers.

5. Person. "Person" means any individual, partnership, firm, corporation, association or other unit and the State and all political subdivisions or agencies of the State.

6. Retail handler. "Retail handler" means any person who handles packaged milk in this State that is next sold in this State subject to the retail minimum prices established pursuant to Title 7, chapter 603.

7. Tax period. "Tax period" means the period beginning on the Sunday closest to the first day of the month and continuing through the Saturday prior to the Sunday closest to the first day of the subsequent month.

8. Wholesale handler. "Wholesale handler" means any person who handles packaged milk in this State that is next sold in this State subject to the minimum wholesale prices paid to dealers established pursuant to Title 7, chapter 603.

§4772. Milk Handling Tax

1. Tax. An excise tax is levied and imposed at the rate established in subsection 2 on the handling in this State of packaged milk for sale in this State. With respect to the handling in this State of a particular container of packaged milk for sale in this State, the tax must be paid by the wholesale handler or, if there is no wholesale handler with respect to that container of packaged milk, by the retail handler. There is no tax on the handling in this State of packaged milk for

sale in containers that are less than one quart or 20 or more quarts in volume, or packaged milk that is sold to an institution that is owned and operated by the State or Federal Government.

2. Rate. The rate of the tax levied under this chapter is established for each tax period on the basis of the basic price of milk in effect on the Sunday following the first Sunday of the tax period in accordance with the following chart:

<u>Basic Price</u>	<u>Rate of Milk Handling Tax</u>
\$16.50 per hundredweight and above	0¢ per quart
\$16.00 to \$16.49 per hundredweight	1¢ per quart
\$15.50 to \$15.99 per hundredweight	2¢ per quart
\$15.00 to \$15.49 per hundredweight	3¢ per quart
\$14.50 to \$14.99 per hundredweight	4¢ per quart
\$14.00 to \$14.49 per hundredweight	5¢ per quart
below \$14.00 per hundredweight	6¢ per quart

For any container other than a quart, the tax is computed on a quart-equivalent basis.

3. Calculation of tax. Handlers shall pay the tax for each tax period on all milk subject to the tax, sold during the tax period, and either:

A. Subject to the minimum wholesale prices paid to dealers established by the Maine Milk Commission pursuant to Title 7, chapter 603; or

B. Not subject to minimum wholesale prices paid to dealers but subject to minimum retail prices established by the Maine Milk Commission pursuant to Title 7, chapter 603.

In calculating the amount of packaged milk handled for sale in this State each tax period, the handler shall deduct any packaged milk returned to the handler during that tax period.

4. Tax as additional. Any tax imposed and collected under this chapter is in addition to any other taxes imposed or collected under any other law of the State.

5. Records, reports and administration. Every handler subject to the tax imposed under subsection 1 shall register with the State Tax Assessor within 5 business days of becoming subject to the tax

and annually thereafter on forms provided by the State Tax Assessor. The list of handlers so registered is available to the public. By the 25th day of each calendar month, every handler subject to the tax imposed under subsection 1 shall report to the State Tax Assessor the quantity of packaged milk handled in this State for sale in this State during the preceding tax period, the quantity of packaged milk handled that was subject to the Milk Handling Tax and any other information the State Tax Assessor determines necessary or useful in the administration of this chapter and enforcement of the Milk Handling Tax.

6. Due dates. Handlers shall pay to the State Tax Assessor the tax due for the preceding tax period not later than the 25th day of each calendar month and submit any information required by the State Tax Assessor on the forms provided.

7. Presumption. In any proceeding against a retail handler for collection of the tax with respect to any particular container of packaged milk, there is a rebuttable presumption that that retail handler did not purchase that container in a transaction subject to the minimum wholesale prices paid to dealers established pursuant to Title 7, chapter 603. The burden is on the retail handler to show that the retail handler purchased that container of packaged milk in a transaction subject to minimum wholesale prices paid to dealers established pursuant to Title 7, chapter 603.

8. General Fund. The State Tax Assessor shall immediately pay all funds received from the Milk Handling Tax to the Treasurer of State to be deposited in the General Fund.

§4773. Repeal

This chapter is repealed on August 1, 1996.

CHAPTER 4

H.P. 230 - L.D. 309

An Act to Encourage Major Business Expansion in Maine

Emergency preamble. Whereas, Acts of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

Whereas, there is a need to provide incentives to retain jobs and encourage major business expansions within the State in order to create new employment opportunities, provide a broader tax base and improve the economy of the State; and

Whereas, access to financing for major projects at reduced interest rates provides a substantial incentive to businesses to relocate to Maine or expand Maine activities; and

Whereas, this legislation will serve an important public purpose; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

Be it enacted by the People of the State of Maine as follows:

Sec. 1. 10 MRSA §963-A, sub-§10, ¶M, as amended by PL 1993, c. 712, §3, is further amended to read:

M. Any aboveground oil replacement or upgrade project, including equipment installed to meet requirements for gasoline service station vapor control and petroleum liquids transfer vapor recovery; ~~or~~

Sec. 2. 10 MRSA §963-A, sub-§10, ¶N, as enacted by PL 1993, c. 712, §4, is amended to read:

N. Any electric rate stabilization project; ~~or~~

Sec. 3. 10 MRSA §963-A, sub-§10, ¶O is enacted to read:

O. Any major business expansion project.

Sec. 4. 10 MRSA §963-A, sub-§31-A is enacted to read:

31-A. Major business expansion project. "Major business expansion project" means any building, structure, machinery, equipment or facility proposed to be constructed, rehabilitated, expanded, modernized or acquired in the State by a business entity, that has a projected cost of \$5,000,000 or more, that is projected to result in a net gain of at least 100 job opportunities within the State or the retention of at least 100 jobs and that benefits from financing assistance from the authority including use of a capital reserve fund pursuant to section 1053. A major

business expansion project does not include electric rate stabilization projects or projects primarily involved in the provision of housing or retail sales to consumers.

Sec. 5. 10 MRSA §1043, sub-§2, ¶F, as amended by PL 1985, c. 344, §63, is further amended to read:

F. In the case of projects ~~which~~ that are primarily pollution-control facilities:

- (1) The proposed users of the facilities make a contribution to the economy of the State;
- (2) A public benefit will result from including the facilities in the project; and
- (3) It is unlikely that public facilities meeting the needs of the users and securing comparable public benefit will become available in the reasonably foreseeable future; ~~and~~

Sec. 6. 10 MRSA §1043, sub-§2, ¶I, as repealed and replaced by PL 1987, c. 697, §10, is amended to read:

I. The project will, to the extent possible, cooperate with representatives of the Department of Labor and the Department of Human Services regarding employment opportunities for recipients of the services of those departments; and

Sec. 7. 10 MRSA §1043, sub-§2, ¶J is enacted to read:

J. In the case of major business expansion projects, the applicant is creditworthy and there is a strong likelihood that the revenue obligation securities will be repaid through the revenues of the project and any other sources of revenues and collateral pledged to the repayment of those securities. In order to make this determination, the authority shall consider such factors as it considers necessary to measure and evaluate the sufficiency of the pledged revenues to repay the obligations, including:

- (1) Whether individuals or entities obligated to repay the obligations have demonstrated sufficient revenues from the project or from other sources to repay the obligations, and a strong probability that those revenues will continue to be available for the term of the revenue obligation securities;
- (2) Whether the applicant demonstrates a strong probability that the project will continue to operate and provide the public

benefits projected to be created for the term of the revenue obligation securities;

(3) Whether the applicant demonstrates that the benefits projected to be created by the project are enhanced through the use of financing assistance from the authority;

(4) Whether the applicant's creditworthiness is demonstrated by such factors as historical financial performance, management ability, its plan for marketing its product or service and its ability to access conventional financing;

(5) Whether the applicant meets or exceeds industry average financial performance ratios commonly accepted in determining creditworthiness in that industry;

(6) Whether the applicant demonstrates that the need for authority assistance is due to the reduced cost and increased flexibility of the financing for the project that result from authority assistance and not from an inability to obtain necessary financing without the capital reserve fund security provided by the authority; and

(7) Whether collateral securing the repayment obligation is reasonably sufficient under the circumstances.

Financing assistance for any one major business expansion project may not exceed \$25,000,000 in loan amount. The authority may establish, pursuant to rules adopted in accordance with Title 5, chapter 375, subchapter II, application procedures, approval criteria and reasonable fees for major business expansion projects.

Sec. 8. 10 MRSA §1053, sub-§6, as amended by PL 1993, c. 712, §5, is further amended to read:

6. Securities outstanding. The authority may not have at any one time outstanding revenue obligation securities to which subsection 5 is stated in the trust agreement or other document to apply in principal amount exceeding an amount equal to \$150,000,000 less the aggregate outstanding balance of mortgage loans secured by capital reserve funds pursuant to section 1032. Notwithstanding any other provision of this subsection, the authority may additionally have outstanding at any one time up to \$120,000,000 of bonds under this subchapter relating to loans for electric rate stabilization projects and \$120,000,000 of bonds under this subchapter relating to loans for major business expansion projects, in each case consisting of not more than \$100,000,000 for loans and up to \$20,000,000 for use of bond proceeds

to fund capital reserve funds. The amount of revenue obligation securities issued to refund securities previously issued may not be taken into account in determining the principal amount of securities outstanding, provided that proceeds of the refunding securities are applied as promptly as possible to the refunding of the previously issued securities. In computing the total amount of revenue obligation securities of the authority that may at any time be outstanding for any purpose, the amounts of the outstanding revenue obligation securities that have been issued as capital appreciation bonds or as similar instruments are valued as of any date of calculation at their then current accreted value rather than their face value.

Sec. 9. 10 MRSA §1054, as amended by PL 1987, c. 393, §12, is further amended to read:

§1054. Taxable bond option

With respect to all or any portion of any issue of any bonds or any series of bonds ~~which that~~ the authority may issue in accordance with the limitations and restrictions of this subchapter, the authority may covenant and consent that the interest on the bonds ~~shall be~~ is includable, under the United States Internal Revenue Code of ~~1954~~ 1986 or any subsequent corresponding internal revenue law of the United States, in the gross income of the holders of the bonds to the same extent and in the same manner that the interest on bills, bonds, notes or other obligations of the United States is includable in the gross income of the holders under the United States Internal Revenue Code or any subsequent law. Bonds issued pursuant to this section ~~shall are~~ not be subject to any limitations or restrictions of any law ~~which that~~ may limit the authority's power to issue those bonds or to the procedures set forth in section 1043 or in section 1044, subsections 1, 11 and 12; except that the procedures set forth in section 1043 do apply with respect to major business expansion projects. The foregoing grant of power ~~shall~~ may not be construed as limiting the inherent power of the State or its agencies under any other provision of law to issue debt, the interest on which is includable in the gross income of the holders of the interest under the United States Internal Revenue Code or any subsequent law. Any action or proceeding in any court to contest the issuance of the securities, the approval by the authority of a project to benefit from issuance of the securities or the approval by the authority of mortgage insurance or the provision of a capital reserve fund for the securities for any reason must be started within 30 days after the date on which the members of the authority adopt a formal resolution approving issuance of the securities and otherwise must be governed by Title 5, chapter 375, subchapter VII. Once the authority has adopted a resolution to approve the issuance of securities pursuant to this section, any

action by the authority to amend, alter or revise the resolution may not commence a new period of time within which any such action or proceeding may be commenced. Notwithstanding the provisions of section 969-A, subsection 11 and Title 5, chapter 375, subchapter VII, including, but not limited to, Title 5, sections 11002 and 11003, any such action or proceeding may be commenced only by first serving the petition for review upon the authority, in hand, within that 30-day period. After the expiration of the 30-day period of limitation, no right of action or defense founded upon the invalidity of the resolution or contesting any provision of the resolution, any amendment to the resolution or the issuance of the securities may be started or asserted nor may the resolution or the issuance of the securities be open to question in any court upon any grounds.

Sec. 10. Loans authorized. The Finance Authority of Maine may make loans for major business expansion projects, as defined in the Maine Revised Statutes, Title 10, section 963-A, from up to \$100,000,000 of the proceeds of revenue obligation securities secured by capital reserve funds pursuant to Title 10, section 1053. Any revenue obligation securities for major business expansion projects secured by capital reserve funds pursuant to Title 10, section 1053 are limited obligations of the Finance Authority of Maine payable from revenues from borrowers and any capital reserve funds pledged for those securities as those funds are administered under Title 10, chapter 110, subchapter III and are not payable from any other assets or funds of the Finance Authority of Maine.

Emergency clause. In view of the emergency cited in the preamble, this Act takes effect when approved.

Effective February 1, 1995.

CHAPTER 6

S.P. 242 - L.D. 639

An Act to Modify the Motor Vehicle Emission Inspection Requirement for Vehicle Registration

Emergency preamble. Whereas, Acts of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

Whereas, current law requires that citizens of Maine present either a certificate of compliance or a certificate of waiver issued under the motor vehicle emission inspection program in order to register a motor vehicle; and

Whereas, the United States Environmental Protection Agency has advised the State that the agency is changing its interpretations of the requirements for state compliance with the Clean Air Act, including what elements will be necessary for an acceptable inspection and maintenance program; and

Whereas, it would be an unfair burden upon the State and its citizens to require presentation of these compliance and waiver certificates for the brief time period from March 1st to May 1st if the United States Environmental Protection Agency significantly changes its interpretation of the inspection and maintenance program; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

Be it enacted by the People of the State of Maine as follows:

Sec. 1. 29-A MRSA §403, sub-§1, as enacted by PL 1993, c. 683, Pt. A, §2 and affected by Pt. B, §5, is amended to read:

1. Requirement. ~~The~~ After May 1, 1995, the owner of a motor vehicle registered in any area designated by the Federal Government pursuant to 40 Code of Federal Regulations, Part 81 as nonattainment for ozone and classified as a moderate or a more severe nonattainment area must present a certificate of compliance or waiver, as defined by Title 38, section 2401, at the time of registration. A certificate of compliance or waiver is not required for motor vehicles exempted by Title 38, section 2402.

Emergency clause. In view of the emergency cited in the preamble, this Act takes effect when approved.

Effective February 28, 1995.

CHAPTER 7

S.P. 254 - L.D. 692

An Act to Extend the Reporting Deadlines of the Commission on Governmental Ethics and Election Practices and the Interim Advisory Committee on Alternative Dispute Resolution in the Public Sector

Emergency preamble. Whereas, Acts of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

Whereas, the Interim Advisory Committee on Alternative Dispute Resolution in the Public Sector and the Commission on Governmental Ethics and Election Practices each require additional time in order to complete in a comprehensive and meaningful manner the tasks assigned to them by law by the 116th Legislature; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

Be it enacted by the People of the State of Maine as follows:

Sec. 1. PL 1993, c. 401, §4, sub-§4 is amended to read:

4. Reports; legislation. The committee shall submit a progress report to the Joint Standing Committee on Judiciary by January 1, 1994. The committee may recommend legislation at any time. The committee shall present a summary of its activities and findings, together with any recommended legislation, to the First Regular Session of the 117th Legislature by ~~January 31, 1995~~ March 3, 1995.

Sec. 2. PL 1993, c. 583, §3 is amended to read:

Sec. 3. Study by the Commission on Governmental Ethics and Election Practices; jurisdiction. The Commission on Governmental Ethics and Election Practices shall review its current duties prescribed by law and shall identify issues that the commission has been asked to investigate and has not clearly had the authority to investigate. The commission shall make recommendations, along with any proposed legislation, to clarify and, if necessary, to expand the commission's jurisdiction and duties to the joint standing committee of the Legislature having jurisdiction over legal affairs no later than ~~January 30, 1995~~ March 30, 1995.

Sec. 3. Retroactivity. This Act applies retroactively to January 30, 1995.

Emergency clause. In view of the emergency cited in the preamble, this Act takes effect when approved.

Effective March 7, 1995.

CHAPTER 8

H.P. 632 - L.D. 857

An Act to Postpone the Date by Which Withdrawal from the Tree Growth Tax Laws Must Occur

Emergency preamble. Whereas, Acts of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

Whereas, the changes in the tree growth tax laws raise several significant and complicated issues; and

Whereas, the joint standing committee of the Legislature having jurisdiction over taxation matters is currently addressing these issues in a thoughtful and comprehensive manner; and

Whereas, unless this legislation is enacted as an emergency measure, the April 1, 1995 deadline for withdrawal from the tree growth tax laws precludes reaching a meaningful and durable solution to the issues raised and may present problems of notice and fairness to certain landowners; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

Be it enacted by the People of the State of Maine as follows:

Sec. 1. 36 MRSA §574-B, sub-§1, as amended by PL 1993, c. 576, §1, is further amended to read:

1. Forest management and harvest plan. A forest management and harvest plan has been prepared for the parcel and updated every 10 years. The landowner shall file a sworn statement with the municipal assessor in a municipality or the State Tax Assessor for parcels in the unorganized territory that a management plan has been prepared for the parcel. A landowner with a parcel taxed pursuant to this subchapter on September 30, 1989 has until April 1,

1999 to comply with this requirement and until the plan is prepared or April 1, 1999, whichever is earlier, is subject to the applicability provisions under this section as it existed on April 1, 1982.

A landowner with a parcel taxed pursuant to this subchapter for a property tax year beginning before April 1, ~~1995~~ 1996 when the parcel was less than 100 acres and the sole use of the land was harvesting of trees for personal use shall:

A. By April 1, 1996, file a sworn statement that a revised management plan has been prepared for the parcel of forest land;

B. Apply for classification under the open space laws pursuant to section 1106-A; or

C. Notwithstanding section 581, withdraw from tree growth classification pursuant to this paragraph for the ~~1995~~ 1996 tax year.

For withdrawal from tree growth classification under this paragraph, the entire parcel subject to that classification in 1993 must be withdrawn from classification for the ~~1995~~ 1996 tax year. Persons electing to withdraw under this paragraph shall notify the assessor before April 1, ~~1995~~ 1996 and pay a penalty equal to the taxes that would have been assessed on the first day of April for the 5 tax years, or any lesser number of tax years starting with the year in which the property was first classified, preceding that withdrawal had the real estate been assessed in each of those years at its fair market value on the date of withdrawal less all taxes paid on that real estate over the preceding 5 years and interest at the legal rate from the date or dates on which those amounts would have been payable. The procedure for withdrawal provided in this paragraph is intended to be an alternative to the procedure in section 581;

Emergency clause. In view of the emergency cited in the preamble, this Act takes effect when approved.

Effective March 21, 1995.

CHAPTER 9

S.P. 303 - L.D. 842

An Act to Preserve the Solvency of the Unemployment Compensation Fund

Emergency preamble. Whereas, Acts of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

Whereas, the Unemployment Compensation Fund is a countercyclical program by which the reserves of the fund are built up during periods of low unemployment so that funds will be available for the payment of benefits during periods of high unemployment; and

Whereas, the reserves in the fund are relatively low and there exists a long-term solvency issue with the fund; and

Whereas, the years ahead are a period during which fund reserves should be accumulated; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

Be it enacted by the People of the State of Maine as follows:

Sec. 1. 26 MRSA §1043, sub-§3-A, as amended by PL 1993, c. 22, §1, is further amended to read:

3-A. Alternate base period. For benefit years effective on or after September 27, 1992 ~~and prior to March 26, 1995,~~ for any individual who fails to meet the eligibility requirements of section 1192, subsection 5, in the base period as defined in subsection 3, the Department of Labor shall make a redetermination of eligibility based on a base period that consists of the last 4 completed calendar quarters immediately preceding the first day of the individual's benefit year. This base period is known as the "alternate base period." If wage information for the most recent quarter of the alternate base period is not available to the department from regular quarterly reports of wage information that is systematically accessible, the department shall gather the necessary data in accordance with rules established for this purpose.

If the department receives information from the employer that causes a revised monetary determination under this subsection, benefits received prior to that revision may not constitute an overpayment of benefits provided the claimant did not knowingly misrepresent information requested by the department.

Wages that fall within the base period of claims established under this subsection are not available for reuse in qualifying for any subsequent benefit years under section 1192.

In the case of a combined-wage claim pursuant to the arrangement approved by the United States Secretary of Labor in accordance with section 1082, subsection 12, the base period is that base period applicable under

the unemployment compensation law of the paying state.

Sec. 2. 26 MRSA §1191, sub-§2, as amended by PL 1993, c. 528, §1, is further amended to read:

2. Weekly benefit amount for total unemployment. Each eligible individual establishing a benefit year on ~~and~~ or after October 1, 1983, who is totally unemployed in any week must be paid with respect to that week, benefits equal to 1/22 of the wages, rounded to the nearest lower full dollar amount, paid to that individual in the high quarter of the base period, but not less than \$12. The maximum weekly benefit amount for claimants requesting insured status determination beginning October 1, 1983, and thereafter from June 1st of a calendar year to May 31st of the next calendar year may not exceed 52% of the annual average weekly wage, rounded to the nearest lower full dollar amount, paid in the calendar year preceding June 1st of that calendar year. No increase in the maximum weekly benefit amount may occur for the period from June 1, 1992 to October 28, 1995. For the period from October 29, 1995 to May 31, 1997, the maximum weekly benefit amount is limited to 94% of the amount calculated previously in this subsection, rounded to the nearest lower full dollar amount. For claimants requesting insured status determination on or after April 1, 1993 and before January 1, 1995, the weekly benefit amount must be the amount determined by this subsection minus \$6. For claimants requesting insured status determination on or after April 1, 1995 and before January 1, 1998, the weekly benefit amount must be the amount determined by this subsection minus \$3.

Sec. 3. 26 MRSA §1196, sub-§3, as amended by PL 1993, c. 22, §4, is repealed.

Sec. 4. 26 MRSA §1196, sub-§4, as amended by PL 1993, c. 22, §5, is repealed.

Sec. 5. 26 MRSA §1221, sub-§2, ¶C, as enacted by PL 1993, c. 22, §6 and affected by §8, is amended to read:

C. Each employer subject to this chapter, other than those liable for payments in lieu of contributions, shall pay, in addition to the contribution rate as prescribed in subsection 4, 7/10 of 1% of the wages paid by the employer with respect to employment during the calendar year 1993 ~~and~~ 8/10 of 1% of the wages paid by the employer with respect to employment during the calendar year 1994 ~~and~~ 4/10 of 1% of the wages paid by the employer with respect to employment during calendar years 1995, 1996 and 1997.

PART D

Sec. D-1. Productivity initiatives. The intent of the productivity initiative is to expedite and facilitate the implementation of improvements in State Government operations through the realization of cost savings from increased productivity of state employees, more efficient delivery of services and the elimination of waste, duplication and unnecessary programs. The initiative is designed to provide incentives to state agencies and employees to participate through the sharing of any savings realized

among the General Fund, state department budgets and employees according to a predetermined formula. The intent of this Part is to develop a mechanism so as to achieve \$45,346,780 in savings to the General Fund in the 1996-97 biennium as identified in the 1996-97 General Fund current services budget Act.

Sec. D-2. Productivity Realization Task Force.

1. Task force established. The Productivity Realization Task Force, referred to in this Part as the "task force," is established to advise and assist the Governor and the Legislature in the design and implementation of changes in State Government operations intended to improve the productivity of the work force and the efficiency of state services. The task force is solely an advisory group and has no independent authority.

2. Membership; chair. The task force consists of 13 members. The Governor shall appoint 6 members, to include 2 members from the Governor's cabinet, one member representing the business sector, one member representing employee unions and one state employee; the Speaker of the House shall appoint 3 members, to include at least one Representative and one member representing the public sector; the President of the Senate shall appoint 3 members, to include one Senator and one member representing the private sector; and the Chief Justice of the Supreme Judicial Court or the chief justice's designee is a member. The Governor, the President of the Senate and the Speaker of the House shall jointly select a chair of the task force from among the 13 members.

3. Appointment deadline; first meeting. Task force members must be appointed within 48 hours of the effective date of this Part. The first meeting of the task force must be called by the chair within 16 days after the effective date of this Part.

4. Expenses. Members of the task force may not receive any compensation or reimbursement for expenses. The Legislative Council shall absorb the costs of the legislative members of the task force within existing resources.

5. Staff. Upon request of the task force, the Legislative Council, the Administrative Office of the Courts, the Bureau of the Budget and the State Planning Office and other bureaus within the Department of Administrative and Financial Services shall provide assistance and staff to the task force, within existing resources.

Sec. D-3. Task force authorization.

1. Scope of study. The task force shall consider all reasonable productivity improvements throughout State Government, including, but not limited to:

- A. Position reductions through attrition to the extent feasible;
- B. Administration;
- C. Changes in supervisory and management roles and responsibilities including span of control;
- D. Redundant tasks and functions;
- E. Position enlargements and restructuring;
- F. Use of technology;
- G. Changes in agency and program missions and objectives and the relevance of programs to enabling legislation;
- H. Program restructuring; and
- I. Alternative systems of service delivery including the potential, when applicable, for privatization.

Within the scope of its work, the task force shall utilize all concepts, approaches and methodologies accepted by State Government for the implementation of strategic performance budgeting and receive and consider the recommendations of any task force or commission authorized by law to guide and implement performance-based budgeting in State Government.

2. Recommendations to Executive and Legislature. The task force shall recommend that the Governor reduce, eliminate or otherwise alter current state programs and operations in order to achieve the deappropriations to be authorized in fiscal year 1995-96 and fiscal year 1996-97. The task force is authorized to recommend that the Legislature eliminate positions in State Government or reduce, eliminate or otherwise alter state programs and operations in order to make permanent the Governor's implementation of task force recommendations pursuant to authorized deappropriation levels during the prior fiscal year, or to implement other task force recommendations.

3. Reports. The task force shall report its findings, recommendations and accomplishments to the Governor, to the Joint Standing Committee on Appropriations and Financial Affairs and the Joint Standing Committee on State and Local Government no later than December 31st of each fiscal year. The task force report must be submitted to the Governor for review and comment prior to submission to the legislative committees. The Governor shall prepare and submit legislation necessary to implement any accepted findings and recommendations of the task force. The task force also shall provide a monthly report to the Governor, the Joint Standing Committee on Appropriations and Financial Affairs and the Joint

Standing Committee on State and Local Government recommending position reductions with cost-saving estimates for each fiscal year of the biennium by position and department, and recommend measures to reduce, eliminate or otherwise alter state programs and operations in order to meet the deappropriation to be authorized in fiscal year 1995-96 and fiscal year 1996-97.

Sec. D-4. Implementation of task force recommendations by Governor. The Governor shall review the recommendations of the task force as presented throughout the fiscal year. Nothing in this Part may be construed to constrain the Governor's authority to exercise the powers granted by the Constitution of Maine or statutes to execute the laws of the State.

Any recommendation of the task force that requires a change to the Maine Revised Statutes, a Public Law or a Private and Special Law enacted by the Legislature, except as expressly authorized by section 5 of this Part, and that the Governor seeks to implement requires the following.

1. The Governor shall immediately notify the Legislature of the specific recommendation or recommendations that require legislation to implement; the departments, programs and positions to be affected; and the projected savings and deappropriations required in fiscal year 1995-96 and fiscal year 1996-97.

2. After having provided at least 2 weeks' notice to the President of the Senate and the Speaker of the House, the Governor shall convene the Legislature into special session to address legislation to implement the specific recommendation or recommendations identified by the Governor in subsection 1. Should the Legislature be in regular session, the Governor shall immediately submit legislation to implement the specific recommendation or recommendations identified by the Governor in subsection 1.

3. Once that legislation has been submitted to the Office of the Revisor of Statutes, the Legislature has 3 calendar days, excluding holidays and weekends, to enact legislation that achieves the same amount of projected savings and deappropriations in fiscal year 1995-96 and fiscal year 1996-97 as those identified by the Governor in subsection 1. Those savings and deappropriations may not be achieved by increasing revenue. If the Legislature fails to enact legislation that achieves the same amount of projected savings or deappropriations in fiscal year 1995-96 and fiscal year 1996-97 as those identified by the Governor in subsection 1, the Governor is authorized to achieve the savings through use of the temporary curtailment of allotment power specified in the Maine Revised Statutes, Title 5, section 1668, in addition to

the temporary powers granted by section 5 of this Part, provided that the Governor may not curtail allotments under this section in the General Purpose Aid for Local Schools Program and the Local Government Fund.

4. Notwithstanding the Maine Revised Statutes, Title 3, section 2, 6th paragraph, the members of the Senate and House of Representatives must each be compensated \$55 for every day's attendance, expenses and mileage pursuant to Title 3, section 2, 10th paragraph.

Sec. D-5. Appropriation and position transfers. Notwithstanding any other provision of law, the Governor is authorized by financial order to transfer positions authorized by the Legislature between General Fund accounts and between departments and to transfer the available balances of any General Fund appropriation between line categories, accounts and departments in order to achieve the savings necessary to meet the lump-sum deappropriations to be authorized in fiscal year 1995-96 and fiscal year 1996-97. When the Governor determines that the transfer of a position is necessary, any incumbent in the transferred position at the time of transfer must be transferred along with the position. In exercising the Governor's delegated authority under this section, the Governor shall ensure that the Governor's actions are designed to achieve the goals set forth in section 1 of this Part and conform to the following standards:

1. Improvement of the effectiveness with which General Fund dollars available in the biennium are spent;

2. Reduction of the ratio of management, administrative, clerical and supervisory personnel of a department or agency to the front-line personnel;

3. Consolidation or restructuring of redundant State Government services, programs and operations where possible;

4. Integration of the effective use of technology into state departments, agencies, programs and operations; and

5. Achievement of the most effective delivery of services to Maine citizens.

Sec. 1. 14 MRSA §6203-A, first ¶, as amended by PL 1993, c. 277, §1 and affected by §5, is further amended to read:

Any holder of a mortgage on real estate that is granted by a corporation, partnership, including a limited partnership, limited liability company or trustee of a trust and that contains a power of sale, or a person authorized by the power of sale, or an attorney duly authorized by a writing under seal, or a person acting in the name of the holder of such mortgage or any such authorized person, may, upon breach of condition and without action, do all the acts authorized or required by the power; except that a sale under the power is not effectual to foreclose a mortgage unless, previous to the sale, notice has been published once in each of 3 successive weeks, the first publication to be not less than 21 days before the day of the sale in a newspaper of general circulation in the town where the land lies. This provision is implied in every power of sale mortgage in which it is not expressly set forth. For mortgage deeds executed on or after October 1, 1993, the power of sale may be used only if the mortgage deed states that it is given primarily for a business, commercial or agricultural purpose. A copy of the notice must be served on the mortgagor or its representative in interest, or may be sent by registered mail addressed to it or the representative at its last known address, or to the person and to the address as may be agreed upon in the mortgage, at least 21 days before the date of the sale under the power in the mortgage. Any power of sale incorporated into a mortgage is not affected by the subsequent transfer of the mortgaged premises from the corporation, partnership, including a limited partnership, limited liability company or trustee of the trust to any other type of organization or to an individual or individuals. The power of sale may not be used to foreclose a mortgage deed granted by a trustee of a trust if at the time the mortgage deed is given the real estate is used exclusively for residential purposes, the real estate has 4 or fewer residential units and one of the units is the principal residence of the owner of at least 1/2 of the beneficial interest in the trust. If the mortgage deed contains a statement that at the time the mortgage deed is given the real estate is used exclusively for residential purposes, that the real estate has more than 4 residential units or that none of the residential units is the principal residence of the owner of at least 1/2 of the beneficial interest in the trust, the statement conclusively establishes these facts and the mortgage deed may be foreclosed by the power of sale. The method of foreclosure of real estate mortgages provided by this section is specifically subject to the order of priorities set out in section 6205.

Sec. 2. 33 MRSA §501-A, first ¶, as amended by PL 1993, c. 277, §3 and affected by §5, is further amended to read:

The following "power" is known as "The Statutory Power of Sale" and may be included in any mortgage or incorporated by reference in any mortgage granted by a corporation, partnership, including a limited partnership, limited liability company or trustee of a trust. The power of sale may not be used to foreclose a mortgage deed granted by a trustee of a trust if at the time the mortgage deed is given the real estate is used exclusively for residential purposes, the real estate has 4 or fewer residential units and one of the units is the principal residence of the owner of at least 1/2 of the beneficial interest in the trust. If the mortgage deed contains a statement that at the time the mortgage deed is given the real estate is used exclusively for residential purposes, that the real estate has more than 4 residential units or that none of the residential units is the principal residence of the owner of at least 1/2 of the beneficial interest in the trust, the statement conclusively establishes these facts and the mortgage deed may be foreclosed by the power of sale.

Each recipient of a loan designated for teachers pursuing graduate study or continuing education or for students pursuing postbaccalaureate teacher certification may cancel the total amount of the loan by completing ~~2 years~~ one year of return service for each year a loan is received in the public schools or private schools approved for tuition purposes in the State. The ~~repayment period~~ return service requirement is one year of return service for 2 loans received if return service is performed in underserved subject areas or in ~~geographically isolated teacher shortage areas as determined by the commissioner.~~ Return service may also cancel the loan on a proportional basis, reducing the total amount of the debt by 50% for each year of return service. Failure to fulfill the return service option will necessitate repayment to the authority as follows.

1. Debt calculation. The debt must include the total amount of the loan less the amount, if any, that has been canceled by return service.

2. Time for repayment. The total debt must be repaid to the authority within 3 years of graduation from the institution of higher education or courses for which the funds were given or within 3 years of repayment of any other loans made pursuant to this chapter. If the chief executive officer grants a deferment, the time period may be extended up to the period of the deferment. A repayment schedule including due dates must be set by the chief executive officer.

3. Deferment. A recipient of a loan may seek a deferment of the annual payments for a period or periods as established by the chief executive officer who shall make a determination on a case-by-case basis. The chief executive officer may grant a deferment in the event that a recipient of a loan evidences intent to teach and inability to secure employment necessary to obtain forgiveness of the loan at the time the deferment is sought. The chief executive officer shall require certification of ~~such~~ the intent annually and ~~shall~~ grant a one-year deferment for each successful request for deferment. A recipient may not receive ~~no~~ more than 5 one-year deferments. The decision of the chief executive officer is final.

1. Definitions. As used in this section, unless the context otherwise indicates, the following terms have the following meanings.

A. "Campground" means a recreational camping park where fees are charged for the recreational use of the park and that can accommodate 10 or more temporary living quarters, including but not limited to tents, recreational vehicles, trailers, vans, pickup campers and motor homes.

B. "Submeter user" means any person using a campground site on which a campground owner or operator has installed a submeter.

2. Charges. A campground owner or operator may charge a submeter user only for kilowatt hours used by that submeter user. The charge that a campground owner or operator may charge a submeter user for electric service may not exceed the kilowatt usage of the submeter user multiplied by the rate per kilowatt hour that the campground owner or operator is charged by the electric utility.

3. Nontaxable event. The collection of charges under this section for submetered electric service is not a sale for the purposes of taxation.

4. Interpretation; not resale. A submeter user is not a customer of the electric utility providing service to the master-metered campground owner or operator. For purposes of this Title, a submeter user is not a customer of the campground owner or operator. Nothing in this section permits the resale of electricity by a campground owner or operator.

An Act to Amend the Laws Regarding the Procedures for Emergency Admissions to a Mental Hospital

Emergency preamble. Whereas, Acts of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

Whereas, current laws do not authorize a law enforcement officer to transfer custody of a person for whom emergency admittance to a mental health institution is sought to the chief administrative officer of a nonstate mental health institution or to the chief administrative officer's designee; and

Whereas, this deficiency in the laws is a tremendous burden on law enforcement agencies as it forces law enforcement personnel to wait many hours at mental health institutions for emergency admittances, resulting in the waste of precious law enforcement resources and jeopardizing the protection that law enforcement agencies provide; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preserva-

tion of the public peace, health and safety; now, therefore,

Be it enacted by the People of the State of Maine as follows:

Sec. 1. 34-B MRSA §3863, sub-§2-A, as enacted by PL 1993, c. 592, §1, is amended to read:

Any agreement must be written and signed by and filed with all participating parties. Whereas, failure to prosecute this type of offender may result in a greater number of operating-under-the-influence motor vehicle accidents that cause death and serious personal injury; and

Whereas, highway safety will be significantly diminished if the law is allowed to expire; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

CHAPTER 150

H.P. 207 - L.D. 266

An Act to Revise the Security Deposit and Reinsurance Requirements for Individual Self-insurers

Emergency preamble. Whereas, Acts of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

Whereas, the 90-day period may not terminate in time to allow the Superintendent of Insurance to exercise the powers granted to the Superintendent of Insurance through this legislation in matters involving certain self-insurance applications; and

Whereas, current law may deny the Superintendent of Insurance the discretion contemplated by

this legislation with regard to the posting of bonds by self-insurers under certain circumstances; and

Whereas, the posting of bonds may involve considerable expense that might otherwise be avoided under the limited circumstances contemplated by this legislation; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

Be it enacted by the People of the State of Maine as follows:

Sec. 1. 39-A MRSA §403, sub-§8, ¶A, as amended by PL 1993, c. 491, §1, is further amended to read:

A. The bond or security deposit required of an individual self-insurer must be at least an amount determined by the following formula or \$50,000, whichever is larger. The bond or security deposit must be in an amount equal to the loss and loss adjustment expense portion of the annual standard premium for the prospective fiscal coverage period or the outstanding loss reserves minus recoveries from all excess carriers and subrogation reduced to net collections plus 25% of annual standard premiums for the prospective fiscal coverage period, whichever is larger. The percentage factor used to determine the portion of annual standard premium allocated for loss and loss adjustment expenses must be acceptable to the Superintendent of Insurance. For the purposes of this paragraph, "annual standard premium" is as defined in section 404, subsection 4.

For individual self-insurers who have a net worth equal to or in excess of \$10,000,000; who have had positive net earnings demonstrated by certified statements of financial condition audited by a certified public accountant for at least 3 of the 5 latest fiscal years, including one of the 2 most recent years; and whose mean annual earnings for the 5 latest fiscal years are at least equal to the normal annual premium for the prospective fiscal coverage period, the minimum security deposit or bond must be an amount determined by the formula in this paragraph or as adjusted for applicable levels of working capital funds.

An employer meeting the standards of this paragraph may deduct from the penal value of its surety bond or from the market value of securities deposited an amount not exceeding demonstrated working capital in such current statement

of financial condition; the bond or deposit must be at least \$100,000.

Self-insurers that are unable to meet the preceding standards shall deposit acceptable funds or a surety bond in that amount produced by the formula described in this paragraph written by a corporate surety that meets the qualifications prescribed by rules adopted by the superintendent. The minimum security deposit or bond amount may be adjusted for applicable levels of working capital funds if the self-insurer was eligible to make an alternative election, under Statement of Financial Accounting Standard No. 106, Employers' Accounting for Postretirement Benefits Other Than Pensions, that would have otherwise caused the self-insurer to have both positive net earnings for at least 3 of the 5 latest fiscal years, including one of the 2 most recent years, and mean annual earnings for the 5 latest fiscal years equal to the normal annual premium for the prospective fiscal coverage period.

Within 30 days after notice by the superintendent, the self-insurer shall post the deposit indicated. This deadline may be extended by the superintendent for good cause, but in no event may exceed one year from the deadline for compliance as stated in the notice given to the self-insurer.

A bond or security deposit in excess of the amount prescribed by this subsection may be required if the superintendent determines that the self-insurer has experienced a deterioration in financial condition that adversely affects the self-insurer's ability to pay expected losses.

No judgment creditor other than claimants for benefits under this Act has a right to levy upon the self-insurer's assets held in deposit pursuant to this paragraph.

Emergency clause. In view of the emergency cited in the preamble, this Act takes effect when approved.

Effective May 25, 1995.

Whereas, the work environment along the State's highways is dangerous and the protection of employees who must work in this environment is paramount; and

Whereas, speed is a major factor in accidents in construction and maintenance zones; and

Whereas, the construction and maintenance season begins in the early summer; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

Be it enacted by the People of the State of Maine as follows:

Sec. 1. 22 MRSA §1822-A, as enacted by PL 1993, c. 410, Pt. FF, §8, is amended to read:

§1822-A. Notice to nursing facility applicants

If an applicant to a nursing facility has not received a preadmission assessment in accordance with section 3174-I, the nursing facility shall provide to the applicant and any relative or friend assisting the applicant a notice prepared by the department regarding ~~the availability of~~ preadmission assessment. The notice must indicate that preadmission assessment is available, ~~that all applicants are urged to have a preadmission assessment, that prospective Medicaid recipients are required to have a preadmission assessment required~~ and that, if the applicant depletes the applicant's resources and applies for Medicaid in the future, the applicant may need to leave the nursing facility if an assessment conducted at that time finds that the applicant is not medically eligible for nursing facility services.

Sec. 2. 22 MRSA §3174-I, sub-§1, as amended by PL 1993, c. 410, Pt. FF, §10 and affected by §19, is further amended to read:

1. Needs assessment. In order to determine the most cost-effective and clinically appropriate level of long-term care services, the department or its designee shall assess the medical and social needs of each applicant to a nursing facility ~~who is reasonably expected to become financially eligible for Medicaid benefits within 180 days of admission to the nursing facility~~. If the department chooses a designee to carry out assessments under this section, it shall ensure that the ~~designee does not have a pecuniary interest in the outcome of the assessment~~ assessments are comprehensive and objective.

A. The assessment must be completed prior to admission or, if necessary for reasons of the person's health or safety, as soon after admission as possible.

B. The department shall determine whether the services provided by the facility are medically and socially necessary and appropriate for the applicant and, if not, what other services, such as home and community-based services, would be more clinically appropriate and cost effective.

B-1. For persons with severe cognitive impairments who have been assessed and found ineligible for nursing facility level care, the department, through the Bureau of Elder and Adult Services, community options unit, shall review the assessment and provide case management to assist consumers and caregivers to receive appropriate services.

C. The department shall inform both the applicant and the administrator of the nursing facility of the department's determination of the services needed by the applicant and shall provide information and assistance to the applicant in accordance with subsection 1-A.

~~D. Until such time as the applicant becomes financially eligible to receive Medicaid benefits, the department's determination is advisory only. If the advisory determination is that the applicant is not medically eligible for Medicaid reimbursement for nursing facility services, the applicant must be advised that the applicant may be required to leave the nursing facility when the applicant no longer has the resources to pay for the services and an appropriate placement has been identified.~~

E. The department shall perform a reassessment of the individual's medical needs when the individual becomes financially eligible for Medicaid benefits.

(1) If the individual, at both the admission assessment and any reassessment ~~within 180 days of admission~~, is determined not to be medically eligible for the services provided by the nursing facility, and is determined not to be medically eligible at the time of the determination of financial eligibility, the nursing facility is responsible for providing services at no cost to the individual until such time as a placement at the appropriate level of care becomes available. After a placement becomes available at an appropriate level of care, the nursing facility may resume billing the individual for the cost of services.

(2) If the individual is initially assessed as needing the nursing facility's services, but reassessed as not needing them at the time the individual is found financially eligible, then Medicaid shall reimburse the nursing

facility for services it provides to the individual in accordance with the Maine Medical Assistance Manual, chapter II, section 50 67.

F. Prior to performing assessments under this section, the department shall develop and disseminate to all nursing facilities and the public the specific standards the department will use to determine the medical eligibility of an applicant for admission to the nursing facility. A copy of the standards must be provided to each person for whom an assessment is conducted. In designing and phasing in the preadmission assessment under this section, the department shall collaborate with interested parties, including but not limited to consumers, nursing facility operators, hospital operators and home and community-based care providers.

1-A. Information and assistance. If the assessment performed pursuant to subsection 1 finds the level of nursing facility care clinically appropriate, the department shall determine whether the applicant also could live appropriately and cost-effectively at home or in some other community-based setting if home-based or community-based services were available to the applicant. If the department determines that a home or other community-based setting is clinically appropriate and cost-effective, the department shall:

A. Advise the applicant that a home or other community-based setting is appropriate;

B. Provide a proposed care plan and inform the applicant regarding the degree to which the services in the care plan are available at home or in some other community-based setting and explain the relative cost to the applicant of choosing community-based care rather than nursing facility care; and

The department may provide the services described in this subsection directly or through private agencies.

**An Act to Reduce the Number of
Days a Tenant May Be in Arrears for
Rent Payments**

Be it enacted by the People of the State of Maine as follows:

Sec. 1. 14 MRSA §6002, as amended by PL 1993, c. 211, §2, is further amended to read:

§6002. Tenancy at will; buildings on land of another

Tenancies at will must be terminated by either party by a minimum of 30 days' notice, except as provided in subsection 1, in writing for that purpose given to the other party, but if the landlord or the landlord's agent has made at least 3 good faith efforts to serve the tenant, that service may be accomplished by both mailing the notice by first class mail to the tenant's last known address and by leaving the notice at the tenant's last and usual place of abode. In cases ~~where~~ when the tenant, if liable to pay rent, is not in arrears at the expiration of the notice, the 30 days' notice must be made to expire upon the date rent is due. Either party may waive in writing the 30 days' notice at the time the notice is given, and at no other time prior to the giving of the notice. ~~The~~ A termination based on a 30-day notice is not affected by the receipt of money, whether previously owed or for current use and occupation, until the date a writ of possession is issued against the tenant during the period of actual occupancy after receipt of the notice. When the tenancy is terminated, the tenant is liable to the process of forcible entry and detainer without further notice and without proof of any relation of landlord and tenant unless the tenant has paid, after service of the notice, rent that accrued after the termination of the tenancy. These provisions apply to tenancies of buildings erected on land of another party. Termination of the tenancy is deemed to occur at the expiration of the time fixed in the notice.

1. Causes for 7-day notice of termination of tenancy. Notwithstanding any other provisions of this chapter, in the event that the landlord can show, by affirmative proof, that the tenant, the tenant's family or an invitee of the tenant has caused substantial damage to the demised premises ~~which~~ that the tenant has not repaired or caused to be repaired before the giving of the notice provided in this subsection, has caused or permitted a nuisance within the premises, has caused or permitted an invitee to cause the dwelling unit to become unfit for human habitation or has violated or permitted a violation of the law regarding the tenancy, or when the tenant is ~~14~~ 7 days or more in arrears in

the payment of his rent, the tenancy may be terminated by the landlord by 7 days' notice in writing for that purpose given to the tenant, and in the event that the landlord or ~~his~~ the landlord's agent has made at least 3 good faith efforts to serve the tenant, that service may be accomplished by both mailing the notice by first class mail to the tenant's last known address and by leaving the notice at the tenant's last and usual place of abode. If a tenant, who is ~~14~~ 7 days or more in arrears in the payment of ~~his~~ rent, pays the full amount of rent due before the expiration of the ~~7 days'~~ 7-day notice in writing, that notice ~~shall be~~ is void. Thereafter, in all residential tenancies, if the tenant pays all rental arrears, all rent due as of the date of payment and any filing fees and service of process fees actually expended by the landlord before the issuance of the writ of possession as provided by section 6005, then the tenancy must be reinstated and no writ of possession may issue. Payment or written assurance of payment through the general assistance program, as authorized by the State or a municipality pursuant to Title 22, chapter ~~1254~~ 1161, ~~shall be given~~ has the same effect as payment in cash.

2. Ground for termination notice. ~~Any~~ A notice of termination issued pursuant to subsection 1 must indicate the specific ground claimed for issuing the notice. If a ground claimed is rent arrearage of ~~14~~ 7 days or more, the notice must also include a statement indicating the amount of the rent that is ~~14~~ 7 days or more in arrears as of the date of the notice ~~and that the tenant can negate the effect of the notice of termination as it applies to rent arrearage if the tenant pays the full amount of rent arrearage before the expiration of the notice.~~ A termination notice issued on the ground of rent arrearage must also state the following: "If you pay the amount of rent due as of the date of this notice before this notice expires, then this notice as it applies to rent arrearage is void." For all residential tenancies, a termination notice issued on the ground of rent arrearage must also state: "After this notice expires, if you pay all rental arrears, all rent due as of the date of payment and any filing fees and service of process fees actually paid by the landlord before the writ of possession issues at the completion of the eviction process, then your tenancy will be reinstated." If the notice states an incorrect rent arrearage the notice can not be held invalid if the landlord can show the error was unintentional.

3. Breach of warranty of habitability as an affirmative defense. In an action brought by a landlord to terminate a rental agreement on the ground that the tenant is in arrears in the payment of ~~his~~ rent, the tenant may raise as a defense any alleged violation of the implied warranty and covenant of habitability, provided that the landlord or the landlord's agent has received actual or constructive notice of the alleged violation, and has unreasonably failed under the circumstances to take prompt, effective steps to repair

or remedy the condition and the condition was not caused by the tenant or another person acting under the tenant's control. Upon finding that the dwelling unit is not fit for human habitation, the court shall permit the tenant either to terminate the rental agreement without prejudice or to reaffirm the rental agreement, with the court assessing against the tenant an amount equal to the reduced fair rental value of the property for the period during which rent is owed. The reduced amount of rent thus owed ~~shall~~ must be paid on a pro rata basis, unless the parties agree otherwise, and payments ~~shall~~ become due at the same intervals as rent for the current rental period. The landlord may not charge the tenant for the full rental value of the property until such time as it is fit for human habitation.

Sec. 2. 14 MRSA §6005, first ¶, as amended by PL 1979, c. 327, §1, is further amended to read:

When the defendant is defaulted or fails to show sufficient cause, judgment ~~shall~~ must be rendered against ~~him~~ the defendant by the District Court for possession of the premises and a writ of possession be issued to remove ~~him~~ the defendant, which may be served by a constable. A writ of possession may not issue in any case in which the ground for termination of the tenancy was rent arrearage and the defendant paid the amount necessary to reinstate the tenancy as provided by section 6002.

CHAPTER 261

H.P. 1096 - L.D. 1540

An Act Concerning Potato Blight Eradication and the Disposal of Cull Potatoes

Emergency preamble. Whereas, Acts of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

Whereas, the practice of maintaining potato cull piles has created a threat to the potato industry in that the disease may grow and be spread to nearby potato crops; and

Whereas, the discovery of the A2 strain of late blight has raised the possibility of devastating economic losses due to this disease; and

Whereas, these potential losses could negatively affect the health, safety and welfare of the citizens of this State and the potato industry unless action is taken to remove the potato culls and potato cull piles; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preserva-

tion of the public peace, health and safety; now, therefore,

Be it enacted by the People of the State of Maine as follows:

Sec. 1. 7 MRSA §1007 is repealed.

Sec. 2. 7 MRSA §1007-A is enacted to read:

§1007-A. Penalty for maintaining potato cull piles

1. Purpose. The Legislature hereby declares that the A2 strain of late blight and other potato diseases constitute a clear and present danger to the production of potatoes in the State and to a substantial portion of the economy of the State. Control of the A2 strain of late blight and other potato diseases through the control of potato cull piles could result in the saving of potato crops and improvement in the economy. In the exercise of the police power of the State, the Legislature finds that it is necessary to require the proper disposal of cull potatoes and potato cull piles and to provide a procedure for disposal of those potatoes by the department by implementing best management practices pursuant to Title 17, section 2805 when the owner or lessee of the property on which those potatoes were grown, stored or disposed of fails to comply with the requirements of this section.

2. Disposal of cull potatoes required. The owner or lessee of any real property in this State on which potato plants are grown or on which potato cull piles are maintained or disposed of shall properly dispose of potato cull piles for the purpose of killing the A2 strain of late blight and other potato diseases. The disposal must take place no later than June 10th of each year unless the commissioner designates otherwise. In addition, a person may not maintain a cull potato pile between June 10th and October 1st of each year, or between such other dates as the commissioner may designate. A person who fails to dispose properly of cull potatoes and cull potato piles as required by this section commits a civil violation for which a forfeiture not to exceed \$1,000 for each violation and not more than \$200 for each succeeding day that the violation fails to be in compliance with the requirements of this section may be adjudged.

3. Rules. The commissioner is authorized to adopt any rules necessary to implement this section in accordance with the provisions of the Maine Administrative Procedure Act, except that the commissioner may suspend the notice requirements to the extent necessary and may adopt rules without making the findings required for emergency rules under Title 5, section 8054. In adopting any rules necessary to implement this section, the commissioner shall consult with the Maine Potato Board. The commissioner may determine best management practices for the handling

of cull potatoes in accordance with Title 17, section 2805.

4. Authorization. The commissioner may properly dispose of potato culls and potato cull piles that constitute a violation of subsection 2 for the purpose of potato disease control. The commissioner or the commissioner's designee may enter on private property to effectuate the disposal and to inspect the disposal to determine whether proper disposal has been made. The commissioner has a cause of action against the owner or lessee of any real property of this State to recover the actual costs of removing and disposing of cull potatoes and cull potato piles. The commissioner or the commissioner's designee must be held harmless for any such entry on private property if the entry is related to the inspection and disposal of cull potatoes and cull potato piles.

Employees and agents of the department may enter at reasonable hours any farm where potatoes are grown or other premises where potatoes are stored, packed, loaded for shipment or handled and enter any building with the consent of the property owner, lessee, occupant or agent or, pursuant to an administrative search warrant, to inspect the farm or other premises to determine compliance with subsection 2. Notwithstanding the provisions of the Maine Rules of Civil Procedure, Rule 80E, paragraph (b), the commissioner may obtain an administrative inspection warrant pursuant to this subsection by describing the farm or other premises to be inspected and the purpose of the inspection and demonstrating that the inspection sought is reasonable and represents a minimal intrusion in furtherance of a legitimate governmental obligation of the department. This demonstration is deemed to be a demonstration of probable cause.

5. Potato Cull Removal Fund. The Potato Cull Removal Fund is established and may be used by the commissioner to enforce the provisions of this section and to pay the expenses of potato cull removal. The commissioner may receive funds from any source to be deposited into this fund, which does not lapse. If at any time the balance of the fund falls below \$15,000, any penalties collected under this section must be deposited into the fund. Whenever the balance of the fund exceeds \$15,000, any penalties collected must be deposited to the General Fund.

Sec. 3. Allocation. The following funds are allocated from Other Special Revenue to carry out the purposes of this Act.

Whereas, it is necessary to support and maintain the businesses that make up the State's economy; and

CHAPTER 271

H.P. 919 - L.D. 1295

**An Act to Conform Maine Law with
the Provisions of the Federal Clean
Air Act and the Internal Revenue
Code Pertaining to the Use of Dyed
Fuel on Highways**

Emergency preamble. Whereas, Acts of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

Whereas, recent changes in federal law require that certain high-sulphur diesel fuel be color-dyed in order to help reduce air pollution by identifying fuel not suitable for highway use and to help increase tax compliance by identifying fuel on which taxes have not been paid; and

Whereas, reducing the sulphur content of highway fuel is beneficial to the health and safety of the people of this State; and

Whereas, fuel tax revenues are an important source of revenues for the Highway Fund; and

Whereas, the tax laws of this State do not currently contain any disincentives to the operation of vehicles using high-sulphur diesel fuel on the public ways, which are needed if truckers operating illegally are to be prevented from placing other Maine businesses at an extreme competitive disadvantage; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

Be it enacted by the People of the State of Maine as follows:

Sec. 1. 36 MRSA §3202, sub-§2-A is enacted to read:

2-A. Dyed fuel. "Dyed fuel" means a distillate that is dyed pursuant to the requirements of the Federal Government.

Sec. 2. 36 MRSA §3202, sub-§4, as enacted by PL 1983, c. 94, Pt. D, §6, is repealed and the following enacted in its place:

4. Motor vehicle. "Motor vehicle" means any vehicle, engine, machine or mechanical contrivance that is propelled by an internal combustion engine or motor.

Sec. 3. 36 MRSA §3202, sub-§5, as enacted by PL 1983, c. 94, Pt. D, §6, is repealed.

Sec. 4. 36 MRSA §3202, sub-§5-A is enacted to read:

5-A. Public way. "Public way" has the same meaning as provided in Title 29-A, section 101.

Sec. 5. 36 MRSA §3203, as amended by PL 1991, c. 592, Pt. D, §5, is repealed and the following enacted in its place:

§3203. Tax levied; consignment sales; credited to Highway Fund

Except as provided in section 3204-A, an excise tax is levied and imposed on all suppliers of special fuel sold and on all users of special fuel used in this State for each gallon of distillate at the rate of 20¢ per gallon and for each gallon of low-energy fuel at the rate of 18¢ per gallon. When special fuel is delivered by a supplier on a consignment basis to a consumer or to a retail outlet, whether or not the retail outlet is wholly owned by the supplier, it is considered to have been "sold" within the meaning of this Act. All taxes and fines collected under this chapter must be credited to the Highway Fund.

Sec. 6. 36 MRSA §3203-A, as amended by PL 1991, c. 592, Pt. D, §6, is repealed.

Sec. 7. 36 MRSA §§3204-A and 3204-B are enacted to read:

§3204-A. Exemptions; affidavit of exempt use

The following fuels are exempt from the tax imposed by section 3203:

1. Single lot. Special fuel purchased in a single lot of no more than 275 gallons and used solely for heating or cooking purposes;

2. Delivered into tank. Special fuel delivered into a tank used solely for heating or cooking purposes, sold for resale to a licensed or registered supplier;

3. Political subdivision. Special fuel sold to this State or any political subdivision of this State;

4. Precludes collection of tax. Special fuel sold or used in such form or under such circumstances as precludes the collection of tax by reasons of federal law;

5. Exportation. Special fuel sold only for exportation from this State;

6. Generation. Special fuel sold to a person for the generation of power for resale or manufacturing; and

7. Retail sale. Kerosene delivered into a separate tank for retail sale, in which case the excise tax must be remitted by licensed users pursuant to section 3207, rather than by the supplier.

The purchaser of special fuel that qualifies for one of the above exemptions must sign and provide to the seller a sworn statement indicating that the fuel will be used for the exempt purpose. The State Tax Assessor shall make forms available to suppliers for this purpose. The signed form must be retained by the supplier for at least 3 years.

§3204-B. Dyed fuel; prohibition on highway use

1. Generally. Except as provided in subsection 2, a person may not operate a motor vehicle on the public ways of this State if the fuel supply tanks of the vehicle contain dyed fuel or other fuel on which the tax imposed by section 3203 has not been paid.

2. Exceptions. The following motor vehicles are not subject to the prohibition provided in subsection 1:

A. Motor vehicles owned and operated by this State or any political subdivision of this State; and

B. Motor vehicles authorized to use dyed fuel on the public ways of this State under the provisions of the Code, section 4082 or rules adopted under the Code.

3. Penalty. A person who violates the prohibition provided in subsection 1 commits a Class D crime and is subject to a fine of not less than \$1,000, which may not be reduced. Refusal to permit inspection pursuant to section 3219-A in order to enforce the provisions of this section constitutes prima facie evidence that the tank or container in question contains dyed fuel.

Sec. 8. 36 MRSA §3208, as amended by PL 1985, c. 127, §1, is further amended to read:

§3208. Credit; users

Every user subject to the tax imposed by section 3203 ~~shall be~~ is entitled to a credit on the tax equivalent to the existing rate of taxation per gallon on all fuels purchased by that user from a supplier licensed in accordance with section 3204 upon which fuel the tax is imposed by section 3203 has been paid by that user. Evidence of the payment of that tax, in such form as may be required by or is satisfactory to the State Tax Assessor, ~~shall~~ must be furnished by each user claiming the credit allowed. When the amount of

the credit to which any user is entitled for any quarter exceeds the amount of the tax for which that user is liable for the same quarter, the excess may, under rules of the State Tax Assessor, be allowed as a credit on the tax for which that user would be otherwise liable for another quarter or quarters, or upon application within 3 months from the end of any quarter, duly verified and presented in accordance with ~~regulations promulgated~~ rules adopted by the State Tax Assessor and supported by such evidence as may be satisfactory to the State Tax Assessor, such excess may be refunded if it ~~shall appear~~ appears that the applicant has paid to another state or province under a lawful requirement of such jurisdiction a tax similar in effect to the tax levied in section 3203, on the use or consumption of the same fuel ~~without~~ outside the State, at the same rate per gallon that such tax was paid in this State on that number of gallons used in and a tax paid on in such other jurisdiction, but in no case to exceed the rate per gallon of the then current Maine state fuel tax. Upon receipt of the application, the State Tax Assessor, if satisfied after investigation that a refund is justified, shall so certify to the State Controller and it ~~shall~~ must be paid out of the Highway Fund. This credit ~~shall lapse~~ lapses at the end of the last quarter of the year following that in which the credit arose.

For those accounts in good standing, a monthly refund application, on a form prescribed by the State Tax Assessor, may be filed at the close of any month to claim credits described in this section. That application ~~shall~~ must be processed and approved for payment promptly. Interest ~~shall be~~ is paid at the same rate as is computed under section 186, calculated from the date of receipt of the monthly claim for all proper claims not paid within 30 days of receipt of the claim. ~~Nothing in this~~ This paragraph may not be construed to relieve the applicant from filing quarterly substantiating information as prescribed by this section.

Sec. 9. 36 MRSA §3216, as amended by PL 1995, c. 65, Pt. A, §148 and affected by Pt. A, §153 and Pt. C, §15, is repealed.

Sec. 10. 36 MRSA §3217, as amended by PL 1991, c. 592, Pt. D, §8, is repealed.

Sec. 11. 36 MRSA §3219-A is enacted to read:

§3219-A. Enforcement; penalties

1. Enforcement. The State Tax Assessor shall notify the Secretary of State and the Bureau of State Police of any carrier who has failed to comply with the provisions of this chapter. In order to enforce the provisions of this chapter, any duly authorized and designated agent or officer of the assessor, the

Secretary of State or the Commissioner of Public Safety may:

A. Inspect any fuel tank or container that can or may be used for the production, storage or transportation of special fuel;

B. Inspect any equipment that can or may be used for, or in connection with, the production, storage or transportation of special fuel;

D. Detain any motor vehicle for the purpose of inspecting its fuel tanks. Detainment may continue for a reasonable period of time as necessary to determine the amount and composition of the fuel. Designated agents and officers may take and remove samples of fuel in reasonable quantities in order to determine compliance with the provisions of this chapter;

E. Suspend vehicle registrations in the name of any carrier that has violated the provisions of this chapter and the right to operate as provided in Title 29-A, section 2458; and

F. Refuse to issue or reissue authority required by Title 29-A, section 552.

2. Penalties. A person who commits one of the following acts is guilty of a Class E crime and is subject to a fine of not less than \$250, which may not be reduced:

A. If the person is a supplier, selling special fuel without collecting tax on the fuel when the supplier knows or has reason to believe that the fuel will not be used for an exempt purpose;

B. Refusing or failing to make any statement, report, payment or return required by this chapter;

C. Refusing or failing to pay interest or penalties arising from the nonpayment of taxes required by this chapter;

D. Knowingly collecting or attempting to collect, directly or indirectly, a refund of tax without being entitled to that refund;

E. Knowingly making, or aiding or assisting any other person in making, a materially false statement in any return or report submitted to the State Tax Assessor, in any application for refund of tax, in any other application or affidavit submitted to the State Tax Assessor pursuant to this chapter or in any affidavit of exempt use submitted to a supplier pursuant to section 3204-A;

F. Refusing or failing to permit an inspection pursuant to subsection 1; or

G. If the person is a user or an agent or employee of a user, consuming special fuel in a registered motor vehicle when the user does not have a valid license issued pursuant to section 3207. Each day or part of a day during which this paragraph is violated constitutes a separate violation within the meaning of this section.

The fine provided by this subsection is in addition to any other applicable penalty or tax.

Sec. 12. 36 MRSA §3234, sub-§2, as enacted by PL 1983, c. 94, Pt. D, §7, is amended to read:

2. Supplier, distributor or importer; definition. For the purposes of this section, the term supplier, distributor or importer includes, ~~in addition to the persons described in section 3202, subsection 5,~~ any officer, director, member, agent or employee of any supplier, distributor or importer who, in that capacity, is responsible for the control or management of the funds or finances of that supplier, distributor or importer or responsible for either the collection or payment of that supplier, distributor or importer's taxes.

CHAPTER 284**H.P. 1023 - L.D. 1438****An Act to Create Wet-weather Water Quality Standards****Be it enacted by the People of the State of Maine as follows:**

Sec. 1. 38 MRSA §464, sub-§2-B is enacted to read:

2-B. Temporary removal of designated uses; use attainability analysis and creation of subcategory of uses for combined sewer overflows. When designated uses are not being met as a result of combined sewer overflow discharges, the board may, consistent with this subsection and 40 Code of Federal Regulations, Part 131, temporarily remove designated uses that are not existing uses and create a temporary combined sewer overflow subcategory referred to as a CSO subcategory. Notwithstanding this subsection, it remains the goal of the State to fully maintain and restore water quality and eliminate or control combined sewer overflows as soon as practicable.

A. The board may create temporary CSO subcategories in classes B, C and SB and SC waters only when, due to the age, condition and design of an existing sewer system, technical or financial limitations prevent the timely attainment of all designated uses. In a CSO subcategory, uses are suspended only in the smallest area possible, for the shortest duration practicable and include only those designated uses and areas determined by the board to have the least potential for public benefit.

B. Notwithstanding subsections 2 and 2-A, CSO subcategories may be created by the board upon application by a municipality or quasi-municipality having licensed combined sewer overflow discharges, if the following standards are met.

(1) The applicant submits to the department for approval, with or without conditions, a study and plan, including an implementation schedule, for combined sewer overflow abatement, referred to as the CSO plan. In order for the board to create a CSO subcategory, the CSO plan must:

(a) Place high priority on abatement of combined sewer overflows that affect waters having the greatest potential for public use or benefit and plan to relocate any remaining discharges to areas where minimal impacts or losses of uses would occur; and

(b) Provide for the implementation as soon as practical of technology-based control methods to achieve best practicable treatment or ensure that cost-effective best management practices are being implemented.

(2) The board finds that attainment of a designated use is not feasible and such determination must be supported by demonstration that the conditions of 40 Code of Federal Regulations, Part 131.10(g) are met.

(3) The board finds that the uses to be affected are not existing uses as defined in subsection 4, paragraph F, subparagraph (1).

(4) The board finds that discharges from combined sewer overflows are not affecting uses that, in the board's judgment, constitute high value or important resources. In determining if a resource is high value or important the board shall consider its economic, recreational and ecological significance, the likelihood that removal of a combined sewer overflow will lead to utilization of that resource and the effects of other discharges or conditions on that resource.

C. Prior to creating any CSO subcategory, the board shall adopt rules regarding required studies, best practicable treatment, abatement options and related issues for combined sewer overflows. CSO subcategories may be created only after completion of the following.

(1) Either during or following development of combined sewer abatement plans, licensees shall conduct public hearings in the area that would be affected by a CSO subcategory. Notices and records of hearings must be kept and included as part of an application made to the board.

(2) Combined sewer overflow abatement plans must be submitted to the department for technical review and approval.

(3) Licensees proposing CSO subcategories shall submit formal applications to the board. Information in the application must include: description of the areas and uses to be affected, the time and duration of effects, comments received at public hearings, a description of continuing efforts to abate impacts and proposals for periodic review and update of abatement plans.

(4) The board shall provide public notice of applications for CSO subcategories and solicit public comments. The board shall also consult with agencies, public officials and other persons identified as having interest in the area to be affected. Based on the results of public hearings held by the applicant, the comments received and the nature of the application, the board may hold a public hearing.

(5) The board may approve, approve with conditions or deny applications for CSO subcategories. In cases when a water body is affected by combined sewer overflows from more than one licensee, the board shall, to the maximum extent possible, consider regional impacts and seek to establish common goals and uses for those waters.

(6) In a manner prescribed by the board, applicants receiving approval of CSO subcategories shall provide notice to the public in the area affected, describing the limitations on use of the water body.

D. Upon creation of a CSO subcategory and removal of a designated use, the board may temporarily suspend or modify water quality criteria associated with that use as appropriate, but only to the extent and duration that those criteria are affected by the licensee for whom the assignment is made. Action by the board under this subsection does not relieve other discharge sources from any requirement to provide necessary treatment or best management practices or to comply with water quality criteria.

E. Either independently or in conjunction with the requirements of subsection 3 and upon renewal of individual waste discharge licenses, the department shall periodically review all CSO subcategories. Reviews of CSO subcategories must take into consideration water quality criteria and uses, combined sewer overflow abatement technology, monitoring data, financial information and regulatory requirements affecting CSO subcategories.

Upon petition by the department or any person or on its own motion, the board may, at its discretion, and following notice and opportunity for hearing, revise or revoke a CSO subcategory when it finds any change in the conditions under which the existing designation was made. The failure to comply with the measures specified in an approved combined sewer overflow abatement plan is cause for revocation of a CSO subcategory.

Sec. 2. 38 MRSA §466, sub-§2-B is enacted to read:

2-B. Combined sewer overflow. "Combined sewer overflow" means a discharge of excess wastewater from a municipal or quasi-municipal sewerage system that conveys both sanitary wastes and storm water in a single pipe system and that is in direct response to a storm event or snowmelt. Combined sewer overflow discharges do not include dry weather discharges that occur as a result of nonstorm events or are caused solely by groundwater infiltration.

CHAPTER 286

H.P. 955 - L.D. 1344

An Act to Make Certain Changes to Postconviction Review

Be it enacted by the People of the State of Maine as follows:

Sec. 1. 15 MRSA §103, as amended by PL 1981, c. 493, §2, is further amended to read:

§103. Commitment of persons acquitted on basis of mental disease or defect

When a respondent is ~~acquitted~~, found not criminally responsible by reason of mental disease or mental defect ~~excluding responsibility~~, the verdict and judgment ~~shall~~ must so state. In such case the court shall order such person committed to the custody of the Commissioner of Mental Health and Mental Retardation to be placed in an appropriate institution for the mentally ill or the mentally retarded for care and treatment. Upon placement in such appropriate institution and in the event of transfer from one such institution to another of persons committed under this section, notice thereof ~~shall~~ must be given by the commissioner to the committing court.

Sec. 2. 15 MRSA §2121, sub-§1, as enacted by PL 1979, c. 701, §15, is amended to read:

1. Criminal judgment. "Criminal judgment" means a judgment of conviction of a crime ~~or~~ the orders of adjudication and disposition in a juvenile case and a judgment of not criminally responsible by reason of mental disease or defect.

Sec. 3. 15 MRSA §2124, sub-§1-A is enacted to read:

1-A. Present or future restraint by commitment to the Commissioner of Mental Health and Mental Retardation. Present restraint or impediment as a direct result of commitment to the custody of the Commissioner of Mental Health and Mental Retardation pursuant to section 103 imposed as a result of being found not criminally responsible by reason of mental disease or defect, that is challenged, or future restraint or impediment as a result of such an order of commitment that is challenged when a sentence involving imprisonment is or will be served first.

A claim for postconviction review is not allowed under this subsection relative to any court proceeding or administrative action that affects release or discharge pursuant to section 104-A;

Sec. 4. 15 MRSA §2128, sub-§5, as enacted by PL 1979, c. 701, §15, is repealed and the following enacted in its place:

5. Delay; application of equitable doctrine of laches. A petition may be dismissed if it appears that by delay in its filing the State has been prejudiced in its ability to respond to the petition or to retry the petitioner, unless the petitioner shows that it is based on grounds of which the petitioner could not have had knowledge by the exercise of reasonable diligence before the circumstances prejudicial to the State occurred. If the delay is more than 5 years following the final disposition of any direct appeal to the Maine Law Court or if an appeal is not taken within 5 years

following the running of the period within which that appeal must have been initiated, prejudice is presumed, although this presumption is rebuttable by the petitioner. For purposes of this subsection, "final disposition" means that point in time when the mandate of the Law Court is entered in the docket of the trial court and "presumption" has the same meaning as under Rule 301(a) of the Maine Rules of Evidence.

See title page for effective date.

CHAPTER 287

S.P. 525 - L.D. 1423

An Act to Amend the Laws Pertaining to the Regulation of Borrow Pits

Emergency preamble. Whereas, Acts of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

Whereas, deadlines have expired for the owners or operators of medium-sized gravel pits to participate in the procedures for performance standards for medium borrow pits; and

Whereas, standards are needed for rock quarries 2 acres or less in size to allow quarry owners or operators to provide the Department of Transportation with the necessary aggregate to perform road projects during the upcoming construction season; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

Be it enacted by the People of the State of Maine as follows:

Sec. 1. 38 MRSA §484, sub-§1, as repealed and replaced by PL 1987, c. 812, §§10 and 18, is amended to read:

1. Financial capacity. The developer has the financial capacity and technical ability to develop the project in a manner consistent with state environmental standards and with the provisions of this article. The commissioner may issue a permit under this article that conditions any site alterations upon a developer providing the commissioner with evidence that the developer has been granted a line of credit or a loan by a financial institution authorized to do business in this State as defined in Title 9-B, section 131, subsection 17-A or with evidence of any other

form of financial assurance the board determines by rule to be adequate.

Sec. 2. 38 MRSA §484, sub-§3, ¶¶D and E are enacted to read:

D. The department may issue a permit under this article for operation of a borrow pit conditioned upon the owner or operator of a borrow pit complying with rules pertaining to noise within 30 days after the commencing of processing operations.

E. Calcium chloride may be used to control dust on roads, providing the calcium chloride is applied according to the manufacturer's labeling guidelines.

Sec. 3. 38 MRSA §484-A, sub-§1, ¶¶A and B, as enacted by PL 1993, c. 350, §4, are amended to read:

A. April 1, ~~1994~~ 1995, for pits having reclaimed or unreclaimed areas that drain externally or having reclaimed or unreclaimed areas where internal drainage is achieved with berms or other structures; or

B. October 1, ~~1994~~ 1995, for pits where all reclaimed and unreclaimed lands are naturally internally drained; and

Sec. 4. 38 MRSA §484-A, sub-§2, as enacted by PL 1993, c. 350, §4, is amended to read:

2. Adherence to compliance schedule. By October 1, ~~1995~~ 1996:

A. All reclaimed and unreclaimed areas that were not naturally internally drained on October 1, 1993 are stabilized or reclaimed;

B. All other conditions existing on October 1, 1993 comply with the performance standards under article 7; and

C. All activities conducted after filing a notice of intent to comply are conducted in compliance with article 7.

Sec. 5. 38 MRSA §488, sub-§16 is enacted to read:

16. Small road quarry. A quarry regulated by the department under article 8 is exempt from review under this article.

Sec. 6. 38 MRSA §490-A, sub-§5, as enacted by PL 1993, c. 350, §5, is repealed and the following enacted in its place:

5. Public drinking water source of supply. "Public drinking water source of supply" means any groundwater well or any surface water source that directly or indirectly serves a water distribution system that has at least 15 service connections or regularly services an average of at least 25 individuals daily at least 30 days out of the year.

Sec. 7. 38 MRSA §490-C, sub-§2, as enacted by PL 1993, c. 350, §5, is amended to read:

2. Map and site plan. A location map and site plan drawn to scale showing property boundaries, stockpile areas, existing reclaimed and unreclaimed lands, proposed maximum acreage of all affected lands, all applicable private drinking water supplies or public drinking water source of supplies and all existing or proposed solid waste disposal areas;

Sec. 8. 38 MRSA §490-D, sub-§§2 and 3, as enacted by PL 1993, c. 350, §5, are amended to read:

2. Solid waste. Solid waste, including stumps, wood waste and land-clearing debris generated on the affected land must be disposed of in accordance with ~~section 421 and~~ chapter 13, including any rules adopted to implement those laws. The department may not grant a variance from the provisions of this subsection.

3. Groundwater protection. Excavation may not occur within 5 feet of the seasonal high water table. A benchmark sufficient to verify the location of the seasonal high water table must be established and at least one test pit or monitoring well must be established on each 5 acres of unreclaimed land. To further ensure adequate groundwater protection:

A. ~~A 300-foot~~ 200-foot separation must be maintained between any ~~area used to store oils~~ excavation and any private drinking water supply that is a point-driven or dug well and was in existence prior to that excavation;

B. ~~A 200-foot~~ 100-foot separation must be maintained between any excavation and any private drinking water supply that is drilled into saturated bedrock and was in existence prior to that excavation; and

C. ~~A 1,000-foot separation must be maintained between any excavation and any public drinking water supply;~~ Separation must be maintained between any excavation and any public drinking water source of supply as follows:

(1) For systems serving a population of 500 persons or less, the minimum separation must be 300 feet;

(2) For systems serving a population of 501 persons up to 1,000 persons, the separation must be 500 feet;

(3) For systems serving a population of more than 1,000 persons, the separation must be 1,000 feet; and

(4) For any system that holds a valid filtration waiver in accordance with the federal Safe Drinking Water Act, the separation must be 1,000 feet.

The department may grant a variance from the provisions of this paragraph upon consultation with the public water supply affected by the excavation. The department may not grant a waiver from the provisions of paragraph A, B or D; and

D. Refueling operations, oil changes and other maintenance activities requiring the handling of fuels, petroleum products, hydraulic fluids, and other on-site activity involving the storage or use of products ~~which that~~, if spilled, may contaminate groundwater, must be conducted in accordance with the department's spill prevention, control and countermeasures plan. Petroleum products and other substances that may contaminate groundwater must be stored and handled over impervious surfaces that are designed to contain spills. The spill prevention, control and countermeasures plan must be posted at the site.

~~The department may not grant a variance from the provisions of paragraphs A to D.~~

The separation distance requirements described in paragraphs A, B and C do not apply when the private or public water supply is owned by the owner of the excavation site.

The department may grant a variance allowing excavation between 2 and 5 feet of the seasonal high water table. The department may grant a variance allowing reclamation as a pond, provided the pond resulted from excavation below the seasonal high water table prior to October 1, 1993.

Sec. 9. 38 MRSA §490-D, sub-§3-A is enacted to read:

3-A. Medium borrow pits unlicensed on October 1, 1993. Notwithstanding subsection 3, the following provisions apply to a medium borrow pit that on October 1, 1993 was not licensed under article 6 and on which gravel had been extracted to a level less than 5 feet above the seasonal high water table.

A. The department may not require the medium borrow pit owner or operator to elevate the me-

dium borrow pit floor to 5 feet or more above the seasonal high water table as a condition of operation.

B. The department may permit excavation between 5 feet and 2 feet of the seasonal high water table, providing sufficiently detailed information is submitted to allow the department to determine that groundwater will not be adversely affected.

C. The medium borrow pit owner or operator may reclaim as a pond that area of the medium borrow pit less than 5 feet above the seasonal high water table.

Sec. 10. 38 MRSA §490-D, sub-§5, as enacted by PL 1993, c. 350, §5, is repealed.

Sec. 11. 38 MRSA §490-D, sub-§5-A is enacted to read:

5-A. Protected natural resources. A natural buffer strip must be maintained between the working edge of an excavation and a river, stream, brook, great pond, freshwater wetland or coastal wetland as defined in section 480-B. Any excavation activities conducted within 100 feet of a protected natural resource requires a permit under article 5-A. The width requirements for natural buffer strips are as follows.

A. A natural buffer strip at least 100 feet wide must be maintained between the working edge of the excavation and the normal high water line of a great pond classified as GPA or a river flowing to a great pond classified as GPA.

B. A natural buffer strip at least 75 feet wide must be maintained between the working edge of the excavation and any other water body, stream, brook or Class I or Class II wetland, as defined in 06-096-CMR 310.

C. A natural buffer strip at least 25 feet wide must be maintained between the working edge of the excavation and a Class III wetland, as defined in 06-096-CMR 310.

For purposes of this subsection, the width of a natural buffer strip is measured from the upland edge of floodplain wetlands; if no floodplain wetlands are present, the width of the natural buffer strip is measured from the normal high water mark of a great pond, river, stream, brook or upland edge of a wetland.

Sec. 12. 38 MRSA §490-D, sub-§6, as enacted by PL 1993, c. 350, §5, is repealed.

Sec. 13. 38 MRSA §490-D, sub-§6-A is enacted to read:

6-A. Public and private roads. A natural buffer strip must be maintained between the working edge of an excavation and a road as follows.

A. A natural buffer strip at least 150 feet wide must be maintained between the working edge of an excavation and a road designated as a scenic highway by the Department of Transportation.

B. A natural buffer strip at least 100 feet wide must be maintained between the working edge of an excavation and any public road not designated as a scenic highway by the Department of Transportation.

C. A natural buffer strip at least 50 feet wide must be maintained between the working edge of an excavation and any private road or right-of-way. The width of the natural buffer strip adjacent to a private road may be reduced if the applicant receives written permission from the person or persons having a right-of-way over the private road.

Except for paragraph B, the department may not grant a variance from the provisions of this subsection. The department may grant a variance from paragraph B, provided that the variance will not result in the natural buffer strip being reduced to less than 50 feet between the working edge of the excavation and any road and provided that the owner or operator installs visual screening and safety measures as required by the department.

This distance is measured from the outside edge of the shoulder of the road.

Sec. 14. 38 MRSA §490-D, sub-§7, as enacted by PL 1993, c. 350, §5, is amended to read:

7. Property boundary. A natural buffer strip at least ~~450~~ 50 feet wide must be maintained between any excavation and a property boundary, ~~including a road right of way~~. This distance may be reduced to not less than 10 feet with the written permission of the affected ~~abutting~~ property owner or owners, except that the distance may not be reduced to less than 25 feet from the boundary of a cemetery or burial ground. The ~~distance~~ buffer strip between borrow pits owned by abutting owners may be ~~reduced to not less than 50 feet~~ eliminated with the abutter's written permission, provided the elimination of this buffer strip does not increase the runoff from either excavation across the property boundary. All property boundaries must be identified in the field by markings such as metal posts, stakes, flagging or blazed trees. The department may not grant a variance from the provisions of this ~~section~~ subsection.

Sec. 15. 38 MRSA §490-D, sub-§§11, 13 and 14, as enacted by PL 1993, c. 350, §5, are amended to read:

11. Traffic. Entrances and exits of the borrow pit must be located, posted and constructed in accordance with standards for ~~commercial or industrial entrances of the Department of Transportation roadways in rules adopted by the board.~~ Adequate sight distances for entering, exiting and stopping must be maintained in accordance with these standards. The department may not grant a variance from the provisions of this subsection.

13. Dust. Dust generated by activities at the borrow pit, including dust associated with traffic to and from the borrow pit, must be controlled by sweeping, paving, watering or other best management practices for control of fugitive emissions. Dust control methods may include the application of calcium chloride, providing the manufacturer's labeling guidelines are followed. The department may not grant a variance from the provisions of this subsection.

14. Reclamation. The affected land must be restored to a condition that is similar to or compatible with the conditions that existed before excavation. Reclamation should be conducted in accordance with the department's best management practices for erosion and sediment control, and must include:

A. Regrading side slopes to a slope no steeper than 2 1/2 horizontal feet for each vertical foot;

B. Establishing a vegetative cover by seeding within one year of the completion of excavation. Vegetative cover is acceptable if, within one year of seeding:

(1) The planting of trees and shrubs results in a permanent stand or a stand capable of regeneration and succession, sufficient to ensure a 75% survival rate; and

(2) The planting of all materials results in permanent 90% ground coverage;

C. Removing all structures and, once no longer in productive use, reclaiming all access roads, haul roads and other support roads; and

D. Reclaiming all affected lands within 2 years after final grading.

Except for paragraph A, the department may not grant a variance from the provisions of this subsection. The department may grant a variance from paragraph A, provided that ~~the variance will not result in a reclaimed slope steeper than 2 horizontal feet for each vertical foot~~ slopes exhibit substantial vegetation and

are stable. The department may not assess a fee for a request for a variance from paragraph A.

Sec. 16. 38 MRSA §490-F, first ¶, as enacted by PL 1993, c. 350, §5, is amended to read:

Before expanding a borrow pit beyond an area that exceeds a total of 10 acres of reclaimed and unreclaimed land, and before expanding a borrow pit beyond an area that exceeds a total of 20 acres of reclaimed and unreclaimed land, the owner or operator shall notify the regulator of an intent to expand and must request an inspection. In the same manner as prescribed in section 344-B, the department shall publish a timetable for responding to inspection requests and shall inspect the site within that time period to determine the pit's compliance with this article and other applicable laws administered by the department. The department may defer an inspection for a reasonable period when winter conditions at the site prevent the department from evaluating an expansion request. The department shall notify the owner or operator of a deferral under this section. Mining activities at the pit may continue after the filing of a notice of an intent to expand. The failure of a regulator to conduct a site visit within a published time period is not sufficient basis for a stop-work order under section 490-H, subsection 1.

Sec. 17. 38 MRSA §§490-K and 490-L are enacted to read:

§490-K. Transfer of ownership or operation

A person who purchases a borrow pit that operates under a notice of intent to comply or who obtains operating authority of a pit that operates under a notice of intent to comply must file within 2 weeks after the purchase or the obtaining of operating authority a notice of intent to comply on a form developed by the department. The new owner or operator may operate the borrow pit during this 2-week period without having filed a notice of intent to comply, providing the new owner or operator complies with all standards under this article.

§490-L. Exemption from common scheme of development

A borrow pit covered under this article is not part of a common scheme of development when a period of 5 years or more elapses between the ownership or operation of an existing borrow pit and the ownership or operation of an adjacent borrow pit, the acquisition of adjacent property to be used for operation of a borrow pit or the development of a borrow pit on adjacent property.

Sec. 18. 38 MRSA c. 3, sub-c. I, art. 8 is enacted to read:

ARTICLE 8**PERFORMANCE STANDARDS FOR SMALL ROAD QUARRIES****§490-P. Definitions**

As used in this article, unless the context otherwise indicates, the following terms have the following meanings.

A. "Affected land" means all reclaimed and un-reclaimed land, land that has or will have the overburden removed, land on which stumps, spoil or other solid waste has or will be deposited and a storage area or other land, except a natural buffer strip, that will be or has been used in connection with a quarry.

B. "Airblast" means an atmospheric compression wave resulting from the detonation of explosives, whether resulting from the motion of blasted materials or the expansion of gases from the explosion.

C. "Blast site" means the area where explosive material is handled during the loading of drilled blastholes, including the perimeter formed by the loaded blastholes and 50 feet in all directions from loaded blastholes.

D. "Blaster" means a person qualified to be in charge or responsible for the loading and firing of a blast.

E. "Blasting" means the use of explosives to break up or otherwise aid in the extraction or removal of a rock, ore or other consolidated natural formation, or in construction or demolition work.

F. "Matting" means a covering placed over load holes and adjacent areas in order to minimize generation of flyrock and limit airblast effects.

G. "Natural buffer strip" means an undisturbed area or belt of land that is covered with trees or other vegetation.

H. "Private drinking water supply" means a surface water supply, dug well or a spring or a hole drilled, driven or bored into the earth that is used to extract drinking water for human consumption and that is not part of a drinking water supply.

I. "Public drinking water source of supply" means a groundwater well or a surface water source that directly or indirectly serves a water distribution system that has at least 15 service connections or regularly services an average of at

least 25 individuals daily at least 30 days out of the year.

J. "Quarry" means a place where rock is excavated.

K. "Rock" means a hard, nonmetallic material that requires cutting, blasting or similar methods of forced extraction.

L. "Stemming" means inert material used in a blasthole to confine the gaseous products of detonation.

§490-Q. Applicability

This article applies to quarries that are of 2 acres or less including reclaimed and unreclaimed areas, if products from the quarry are used solely to supply aggregate for Department of Transportation projects.

This article does not apply to projects subject to quarry regulations under article 6 or a quarry within the jurisdiction of the Maine Land Use Regulation Commission. A person with a valid permit for a quarry under article 6 must operate that quarry in compliance with the terms and conditions of that permit.

§490-R. Notice of intent to comply

Except as provided in section 484-A, a person intending to operate a quarry under this article must file a notice of intent to comply before extracting or removing more than 1,000 cubic yards of rock or overburden from the earth within 12 successive calendar months. A notice filed under this section must be complete, submitted on forms approved by the department and mailed to the municipality where the quarry is located, the department, the Maine Historic Preservation Commission and each abutting property owner. The notice that is mailed to the department must be sent by certified mail, return receipt requested. Upon receiving the postal receipt, the owner or operator may commence operation of the quarry.

A notice of intent to comply is not complete unless it includes all of the following:

1. Name, address and phone number. The name, mailing address and telephone number of the owner of the quarry and if different from the owner, the operator of the quarry;

2. Map and site plan. A location map and site plan drawn to scale showing property boundaries, stockpile areas, existing reclaimed and unreclaimed lands, proposed maximum acreage of all affected lands, all applicable private or public drinking water source of supplies and all existing or proposed solid waste disposal areas;

5. Information on abutters. The name and address of abutting property owners;

6. Signed statement. A statement signed and dated by the owner or operator certifying the quarry will be operated in compliance with this article; and

7. Fees. A fee of \$250 paid to the department.

If the department determines that a notice filed under this section is not complete, the department must notify the owner or operator no later than 45 days after receiving notice.

§490-S. Performance standards for quarries

1. Significant wildlife habitat. Affected land may not be located in a significant wildlife habitat as defined in section 480-B, subsection 10 or in an area listed under the Natural Areas Program, Title 5, chapter 383, subchapter III, article 2-A.

2. Solid waste. Solid waste, including stumps, wood waste and land-clearing debris generated on the affected land must be disposed of in accordance with chapter 13, including any rules adopted to implement those laws.

3. Groundwater protection. To ensure adequate groundwater protection the following setbacks must be met:

A. A 200-foot separation must be maintained between an excavation and a private drinking water supply that is point driven or dug and was in existence prior to the excavation;

B. A 100-foot separation must be maintained between an excavation and a private drinking water supply that is drilled into saturated bedrock and was in existence prior to the excavation;

C. Separation must be maintained between an excavation and a public drinking water source of supply as follows:

(1) For systems serving a population of 500 persons or less, the minimum separation must be 300 feet;

(2) For systems serving a population of 501 persons up to 1,000 persons, the separation must be 500 feet;

(3) For systems serving a population of more than 1,000 persons, the separation must be 1,000 feet; and

(4) For any system that holds a valid filtration waiver in accordance with the federal Safe Drinking Water Act, the separation must be 1,000 feet; and

D. Refueling operations, oil changes, other maintenance activities requiring the handling of fuels, petroleum products and hydraulic fluids and other on-site activity involving storage or use of products that, if spilled, may contaminate groundwater must be conducted in accordance with the department's spill prevention, control and countermeasures plan. Petroleum products and other substances that may contaminate groundwater must be stored and handled over impervious surfaces that are designed to contain spills. The spill prevention, control and countermeasures plan must be posted at the site.

4. Natural buffer strip. Existing vegetation within a natural buffer strip may not be removed. If vegetation within the natural buffer strip has been removed or disturbed by activities related to operation of the quarry before submission of a notice of intent to comply, that vegetation must be reestablished as soon as practicable after filing the notice of intent to comply.

5. Protected natural resources. A natural buffer strip must be maintained between the working edge of an excavation and a river, stream, brook, great pond, freshwater wetland or coastal wetland as defined in section 480-B as follows.

A. A natural buffer strip at least 100 feet wide must be maintained between the working edge of the excavation and the normal high water line of a great pond classified GPA or a river flowing to a great pond classified GPA.

B. A natural buffer strip at least 75 feet wide must be maintained between the working edge of the excavation and a river, stream or brook or Class I or Class II wetland as defined in department rules.

C. A natural buffer strip at least 25 feet wide must be maintained between the working edge of the excavation and a Class III wetland as defined in department rules.

Any excavation activity conducted within 100 feet of a protected natural resource requires a permit under article 5-A.

For purposes of this subsection, the width of a natural buffer strip is measured from the upland edge of a

floodplain wetland. If no floodplain wetlands are present, the width is measured from the normal high water mark of the river, stream or brook. The width is measured from the normal high water mark of a great pond and upland edge of a freshwater or coastal wetland.

6. Roads. A natural buffer strip must be maintained between the working edge of an excavation and a road as follows.

A. A natural buffer strip at least 150 feet wide must be maintained between the working edge of an excavation and a road designated as a scenic highway by the Department of Transportation.

B. A natural buffer strip at least 100 feet wide must be maintained between the working edge of the excavation and any other public road.

C. A natural buffer strip at least 50 feet wide must be maintained between the working edge of an excavation, a private road or a right-of-way. The width of the natural buffer strip adjacent to a private road may be reduced if the applicant receives written permission from the persons having a right-of-way over the private road.

7. Property boundary. A natural buffer strip at least 100 feet wide must be maintained between the excavation and a property boundary. This distance may be reduced to 10 feet with the written permission of the affected abutting property owner or owners, except that the distance may not be reduced to less than 25 feet from the boundary of a cemetery or burial ground.

8. Erosion and sedimentation control. All reclaimed and unreclaimed areas, except for access roads, must be naturally internally drained at all times. Berms or structures may not be constructed to create or maintain internal drainage. Stockpiles consisting of topsoil to be used for reclamation must be seeded, mulched or otherwise temporarily stabilized.

9. Surface water protection and storm water management. Surface water discharges from areas not required to be naturally internally drained may not be increased as a result of storm water runoff from storms up to a level of a 25-year, 24-hour storm. Structures such as detention ponds, retention ponds and undersized culverts may not be used to meet this standard. Sediment may not leave the parcel or enter a protected natural resource.

Removal of accumulated water from precipitation must be put into sheet flow and the discharge point must be directed to an undistributed natural buffer strip. The discharge point must be at least 250 feet away from a protected natural resource. The slope of the discharge area may not exceed 5%.

Grubbed areas not internally drained must be stabilized. Erosion and sedimentation control for access roads must be conducted in accordance with the department's best management practices for erosion and sedimentation control.

Grading or other construction activity on the site may not alter natural drainageways so that the drainage, other than that which occurred before development, adversely affects adjacent parcels of land, or that the drainageways flowing from adjacent parcels of land to the parcel are impeded.

10. Traffic. Entrances and exits of the quarry must be located, posted and constructed in accordance with standards for roadways in rules adopted by the board. Adequate sight distances for entering, exiting and stopping must be maintained in accordance with these standards.

11. Noise. Noise levels may not exceed applicable noise limits in rules adopted by the board.

12. Dust. Dust generated by activities at the quarry, including dust associated with traffic to and from the quarry, must be controlled by sweeping, paving, watering or other best management practices for control of fugitive emissions. Dust control methods may include calcium chloride as long as the manufacturer's labeling guidelines are followed.

13. Reclamation. The affected land must be restored to a condition that is similar to or compatible with the conditions that existed before excavation. Reclamation must be conducted in accordance with the department's best management practices for erosion and sedimentation control and must include the following.

A. Highwalls, or quarry faces, must be treated in such a manner as to leave them in a condition that minimizes the possibility of rock falls, slope failures and collapse. A highwall that is loose must be controlled by the use of blasting or scaling, the use of benches that have a minimum width of 25 feet, the use of flatter slopes or reduced face heights, or the use of benching near the top of the face or rounding the edge of the face.

B. A vegetative cover must be established by seeding within one year of the completion of excavation. Vegetative cover must be established on all affected land, including safety benches, except for quarry walls and flooded areas. Topsoil must be placed, seeded and mulched within 30 days of final grading. Vegetative cover is acceptable, if within one year of seeding:

(1) The planting of trees and shrubs results in a permanent stand or a stand capable of

regeneration and succession, sufficient to ensure a 75% survival rate; and

(2) The planting of all material results in permanent 90% ground cover.

Vegetative cover used in reclamation must consist of grasses, legumes, herbaceous or woody plants, shrubs, trees or a mixture thereof.

C. All structures, once no longer in productive use, and all access roads, haul roads and other support roads must be reclaimed.

D. All affected lands must be reclaimed within 2 years after final grading.

E. Topsoil that is stripped or removed must be stockpiled for use in reclaiming disturbed land areas.

14. **Blasting.** The applicant must ensure the blasting is conducted in accordance with Title 25, section 2441.

A. The owner or operator shall use sufficient stemming, matting or natural protective cover to prevent flyrock from leaving property owned or under control of the owner or operator, or from entering protected natural resources or natural buffer strips.

B. The maximum allowable airblast at any inhabited building not owned or controlled by the developer may not exceed 129 decibels peak when measured by an instrument having a flat response (+ or - 3 decibels) over the range of 5 to 300 hertz;

C. The maximum allowable airblast at an uninhabited building not owned or controlled by the developer may not exceed 140 decibels peak when measured by an instrument having a flat response (+ or - 3 decibels) over the range of 5 to 300 hertz.

D. The blast site must be at least 2,000 feet away from the nearest building not owned or controlled by the developer.

E. The peak particle velocity may not exceed one inch per second.

The department may not grant a variance for the performance standards of this section.

§490-T. Inspections

The department may periodically inspect a site, examine relevant records of the owner or operator of the quarry, take samples and perform tests necessary

to determine compliance with the provisions of this article.

§480-U. Enforcement and penalties

The department shall administer and enforce the provisions of this article.

1. **Stop-work order.** The department may order the owner or operator of a quarry that is not operating in compliance with this article to cease operations until the noncompliance is corrected or until the owner or operator of the quarry obtains a permit under article 6.

2. **Penalty.** A person who violates a provision of this article commits a civil violation and is subject to the penalties established under section 349. Penalties assessed for enforcement actions taken by the State are payable to the State.

§490-V. Repeal

This article is repealed December 31, 1995.

Emergency clause. In view of the emergency cited in the preamble, this Act takes effect when approved.

Effective June 23, 1995.

CIVIL RECOVERY FOR RETAIL THEFT

§8301. Short title

This chapter may be known and cited as the "Maine Civil Recovery for Retail Theft Act."

§8302. Civil recovery

1. Liability. Any person who unlawfully takes or attempts to take merchandise from a merchant is liable to the merchant in accordance with provisions of this chapter.

2. No limitation. The provisions of this chapter may not be construed to prohibit or limit any other cause of action that a merchant may have against a person who unlawfully takes merchandise from the merchant.

3. Civil recovery. Any person who unlawfully takes or attempts to take merchandise from a merchant is civilly liable to the merchant in an amount consisting of:

B. A civil penalty equal to 3 times the retail price of the merchandise, but not less than \$50 or more than \$500.

4. Written demand. The fact that an action may be brought against an individual as provided in this chapter does not limit the right of a merchant to make a written demand that a person who is liable for damages and penalties under this chapter remit the damages and penalties prior to the commencement of any legal action.

CHAPTER 289

S.P. 594 - L.D. 1578

An Act to Create the Workers' Compensation Residual Market Deficit Resolution and Recovery Act

Emergency preamble. Whereas, Acts of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

Whereas, by October 1987, virtually all insurers filed and had approved applications to withdraw from the Maine workers' compensation market, and the market faced complete collapse; and

Whereas, the Legislature convened a special session in October 1987, which ultimately resulted in the enactment of emergency legislation that overhauled the Maine workers' compensation system and included the so-called "Fresh Start" law, the Maine Revised Statutes, Title 24-A, sections 2386 and 2386-A and their predecessor statutes, sections 2366 and 2367. In response to the enactment of the Fresh Start law a core group of major insurers had formally rescinded their withdrawals from the Maine workers' compensation market; and

Whereas, due to various forces beyond the Legislature's control, the Fresh Start law did not resolve many of the major problems at which the statute was aimed; and

Whereas, the Legislature created the Maine Employers Mutual Insurance Company, or "MEMIC," to oversee and operate the workers' compensation

residual market in the State as of January 1, 1993, and workers' compensation rates in this State have decreased in each of the last 2 years, largely due to MEMIC's effectiveness; and

Whereas, the "Fresh Start" statute requires the Superintendent of Insurance to adopt rules establishing a plan of operation for the residual market mechanism to govern the operation of the State's workers' compensation insurance residual market; and

Whereas, the Superintendent of Insurance in bureau rules promulgated the "Plan of Operation for the Workers' Compensation Residual Market Mechanism," pursuant to which a residual market pool was created to collect funds and pay obligations of the residual market mechanism; and

Whereas, the residual market mechanism wrote workers' compensation insurance policies through participating insurers during the period January 1, 1988 to December 31, 1992, ceased writing new business as of December 31, 1992, and now conducts only operations limited to running off business written during that period; and

Whereas, the workers' compensation residual market in the State has generated substantial funding deficits and is projected to experience cash inadequacies that could render the residual market pool incapable of satisfying its obligations as they become due; and

Whereas, disputes concerning the operation of the residual market mechanism and the funding of residual market pool deficits have resulted in extensive and protracted litigation involving the Bureau of Insurance, employer representative groups, the Board of Governors of the residual market pool and many significant workers' compensation insurers in the State; and

Whereas, the current and continued operation of the residual market mechanism under existing law will hamper economic growth and development in the State by placing a substantial and undue financial burden on Maine employers, the residual market pool, the Bureau of Insurance and the former and current workers' compensation insurers, thereby fostering and perpetuating litigation and attendant uncertainty within the State; and

Whereas, a new funding scheme is necessary to enable the residual market pool to satisfy outstanding, ongoing and future obligations and to remove the financial burden and uncertainty attributable to the current and continued operation of the residual market mechanism; and

Whereas, the residual market mechanism must be modified in certain respects to provide for more efficient and cost-effective operations; and

Whereas, under certain circumstances it may be appropriate and beneficial that the workers' compensation residual market mechanism receive assistance in borrowing to meet its obligations; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

Be it enacted by the People of the State of Maine as follows:

Sec. 1. 10 MRSA §963-A, sub-§10, ¶N, as amended by PL 1995, c. 4, §1, is further amended to read:

N. Any electric rate stabilization project; ~~or~~

Sec. 2. 10 MRSA §963-A, sub-§10, ¶O, as enacted by PL 1995, c. 4, §1, is amended to read:

O. Any major business expansion project; ~~or~~

Sec. 3. 10 MRSA §963-A, sub-§10, ¶P is enacted to read:

P. Any workers' compensation residual market mechanism project.

Sec. 4. 10 MRSA §963-A, sub-§52-A is enacted to read:

52-A. Workers' compensation residual market mechanism project. "Workers' compensation residual market mechanism project" means a loan or loans requested by the Board of Governors of the Maine Workers' Compensation Residual Market Pool pursuant to Title 24-A, section 2395, subsection 5.

Sec. 5. 10 MRSA §1041, sub-§19 is enacted to read:

19. Workers' compensation residual market mechanism projects. Provide loans for workers' compensation residual market mechanism projects, if the authority determines that the financing requested by the workers' compensation residual market pool is a reasonable and prudent extension of credit. Revenue obligation securities secured by capital reserve funds pursuant to section 1053 relating to any loan authorized by this section are limited obligations of the authority payable from revenues from the workers' compensation residual market pool and any capital reserve funds pledged for those securities and are not

payable from any other assets or funds of the authority.

Sec. 6. 10 MRSA §1053, sub-§6, as amended by PL 1995, c. 120, §1, is repealed and the following enacted in its place:

6. Securities outstanding. The authority may not have at any one time outstanding revenue obligation securities to which subsection 5 is stated in the trust agreement or other document to apply in principal amount exceeding an amount equal to \$150,000,000 less the aggregate outstanding balance of mortgage loans secured by capital reserve funds pursuant to section 1032. Notwithstanding any other provision of this subsection, the authority may additionally have outstanding at any one time:

A. Bonds under this subchapter relating to loans for electric rate stabilization projects, in the amount of \$264,000,000 consisting of not more than \$220,000,000 for loans and up to \$44,000,000 for use of bond proceeds to fund capital reserve funds;

B. Bonds under this subchapter relating to loans for major business expansion projects, in the amount of \$120,000,000 consisting of not more than \$100,000,000 for loans and up to \$20,000,000 for use of bond proceeds to fund capital reserve funds; and

C. Bonds under this subchapter relating to workers' compensation residual market mechanism projects, in the amount of \$57,000,000 consisting of not more than \$45,000,000 for loans and up to \$12,000,000 for use of bond proceeds to fund capital reserve funds.

The amount of revenue obligation securities issued to refund securities previously issued may not be taken into account in determining the principal amount of securities outstanding, provided that proceeds of the refunding securities are applied as promptly as possible to the refunding of the previously issued securities. In computing the total amount of revenue obligation securities of the authority that may at any time be outstanding for any purpose, the amounts of the outstanding revenue obligation securities that have been issued as capital appreciation bonds or as similar instruments are valued as of any date of calculation at their then current accreted value rather than their face value.

Sec. 7. 24-A MRSA §2386, sub-§2, as enacted by PL 1991, c. 885, Pt. B, §12 and affected by §13, is repealed.

Sec. 8. 24-A MRSA §2386, sub-§5, as amended by PL 1993, c. 364, §1, is further amended to read:

5. Plan of operation. The superintendent shall adopt rules pursuant to Title 5, chapter 375, subchapter II, establishing a plan of operation for the residual market mechanism. ~~The plan of operation must contain those terms that the superintendent in the superintendent's discretion determines necessary.~~

A. The plan must include an experience rating system and merit rating plan providing that the premium of each employer in the account is modified either prospectively or retrospectively. An experience modification may only be applied to the manual rate of the plan. The sensitivity of a rating system may vary by size of the risk involved.

B. The plan must include a procedure to handle appeals filed pursuant to former Title 39, section 106, subsection 2, paragraph B.

C. The plan must provide for premium surcharges for employers in the Accident Prevention Account based on their specific loss experience within a specified period or other factors that are reasonably related to their risk of loss.

(1) No premium surcharge may be applied to a risk whose threshold loss ratio is less than 1.0. The threshold loss ratio is based on the ratio of "L" to "P" where:

(a) "L" is the actual incurred losses of a risk during the previous 3-year experience period as reported, except that the largest single loss during the 3-year period is limited to the amount of premium charged for the year in which the loss occurred; and

(b) "P" is the premium charged to a risk during that 3-year period.

(2) Premium surcharges apply to a premium that is experience or merit rating modified.

(3) Premium surcharges are based on an insured's adverse deviation from expected incurred losses in the State. The surcharge is based on the ratio of "A" to "B" where:

(a) "A" is the actual incurred losses of a risk during the previous 3-year experience period as reported; and

(b) "B" is the expected incurred losses of a risk during that period as calculated under the uniform experience or merit rating plan multiplied by

the risk's current experience or merit rating modification factor.

(4) The premium surcharge is as follows:

Ratio of "A" to "B"	Surcharge
Less than 1.20	None
1.20 or greater, but less than 1.30	5%
1.30 or greater, but less than 1.40	10%
1.40 or greater, but less than 1.50	15%
1.50 or greater	20%

D. Commissions under a plan must be established at a level that is neither an incentive nor a disincentive to place an employer in the residual market.

E. In addition to factors in paragraphs A to C, any servicing contract must be approved on the basis of acceptable price and performance.

F. If after notice and hearing the superintendent determines that insurers are unwilling to provide services that are reasonably necessary for the operation of the plan, the superintendent may award service contracts within various areas of the State on the basis of acceptable price and performance. If the superintendent chooses to award such contracts, the specifications must give special consideration to loss control, safety engineering and any other factor that affects safety.

G. Beginning July 1, 1993, the plan must provide for a board of governors, which shall control the affairs and business of the residual market mechanism. The board of governors must be composed of 9 members, 5 of whom represent the business community of the State and 4 of whom represent insurers that are members of the residual market mechanism. The superintendent shall adopt rules to carry out the purposes of this paragraph.

(1) The representatives of insurers on the board of governors are elected by the membership at the annual meeting of the residual market mechanism for staggered terms of 3 years, with the first appointments of one member for one year, one member for 2 years and 2 members for 3 years. An insurer or a group of insurers under common ownership, management or control may not be represented by more than one person on the board of governors.

~~(2) The business community members of the board of governors are appointed by the superintendent for staggered terms of 3 years, with the first appointments of one member for one year, 2 members for 2 years and 2 members for 3 years.~~

Sec. 9. 24-A MRSA §2386, sub-§§10, 11, 12 and 15, as enacted by PL 1991, c. 885, Pt. B, §12 and affected by §13, are repealed.

Sec. 10. 24-A MRSA §2386-A, as corrected by RR 1993, c. 1, §59, is repealed.

Sec. 11. 24-A MRSA c. 26 is enacted to read:

The plan renewal date for a member of a group self-insurer is the group's plan renewal date; the plan approval date for a new member joining an established group is the effective date of group membership. The plan year may be less than 12 months as a result of changes in plan accounting periods, midyear entry into a group self-insurance plan or termination of self-insurance authorization.

18. Policy year. "Policy year" means the following:

A. With respect to a particular calendar year, all policies issued or renewed in that calendar year and all subsequent events occurring in later years relating to those policies, including premium adjustments, audit results and claims experience under those policies; and

20. Residual market. "Residual market" means the instrument to provide coverage to employers not able to obtain coverage in the voluntary market.

21. Self-insured employer. "Self-insured employer" means an employer that, on or after July 1, 1995, secures or continues to secure workers' compensation through a self-insured program under the Workers' Compensation Act as approved by the superintendent pursuant to the provisions of Title 39-A, section 403, subsection 3.

22. Self-insured group or groups. "Self-insured group or groups" means a self-insured group approved by the superintendent pursuant to chapter 250, section 3.

23. Superintendent. "Superintendent" means the Superintendent of Insurance.

24. Surchargeable premium. "Surchargeable premium" means:

A. For insured employers, the manual workers' compensation premium applicable to the insured employer, as adjusted by any applicable experience modification factor, premium discount, expense constant and any other debits or credits to a lawfully received premium. In calculating the surchargeable premium for retrospectively rated policies and large deductible policies, "surchargeable premium" means the discounted workers' compensation standard premium, which is the manual premium that would apply to the insured employer absent the retrospectively rated or large deductible nature of the policy, as adjusted by any applicable experience modification factor, premium discount and expense constant. For retrospectively rated and large deductible policies, the insurer shall calculate a discounted standard premium amount utilizing estimated payrolls at policy inception, subject to the final determination upon audit, applying the insurer's manual rates, the insured's experience modification factor, any premium discount, expense constant and other debits or credits to a lawfully received premium. When calculating the discounted standard premium for policies with large deductibles, the maximum credit for the deductible option may not be greater than the amount approved by the superintendent in the most recent advisory loss cost filing for a \$5,000 indemnity deductible.

B. For self-insured employers, the manual workers' compensation premium adjusted by the experience modification factor applicable to the self-insured employer, and any applicable premium discount and expense constant. For purposes of this definition, "manual premium" means the workers' compensation premium that would have been applicable to the individual self-insured employer if calculated using the advisory loss costs in effect at the time the surcharge is due multiplied by 1.2, applying the rating rules, excluding any premium discount, and experience rating procedure approved by the superintendent for the designated workers' compensation advisory organization pursuant to section 2382-B, to the exposure and experience of the individual self-insured employer. For a self-insured employer who is a member of a self-

insurance group, "surchargeable premium" means the actual amount of workers' compensation premium that is paid to the self-insurance group including experience modification, premium discount and expense constant in accordance with the requirements of chapter 250, but excluding any surplus distributions credited against or applied to reduce premiums.

25. Timely pay; timely paid; timely payment. "Timely pay," "timely paid" or "timely payment" means payment by the party responsible for the payments on or before the due date specified in this chapter.

26. Voluntary market. "Voluntary market" means the workers' compensation insurance market in which insurance companies voluntarily offer coverage to applicants who meet the insurers' underwriting standards or guidelines.

27. Workers' Compensation Act. "Workers' Compensation Act" means and refers to the Maine Workers' Compensation Act of 1992, as amended.

28. Worker's compensation residual market mechanism. "Worker's compensation residual market mechanism" or "residual market mechanism" means the workers' compensation residual market mechanism described in and governed by Chapter 440.

§2393. Initial funding of pool

1. Payments by insurers. Insurers shall pay to the pool on or before January 1, 1996 the amount of \$65,000,000, as follows.

A. Major insurers shall pay to the pool 90% of the \$65,000,000 payment, which is \$58,500,000. Each major insurer shall pay to the pool that major insurer's allocated share of the payment required by this paragraph as determined in accordance with the following:

(1) If the major insurer's percentage of the total net direct written premium in the voluntary workers' compensation market in the State for the calendar years 1989 and 1990 was less than 3.4% according to data compiled by the National Council on Compensation Insurance, then the major insurer must pay to the pool \$4,906,000;

(2) If the major insurer's percentage of the total net direct written premium in the voluntary workers' compensation market in the State for the calendar years 1989 and 1990 was equal to or greater than 3.4%, according to data compiled by the National Council on Compensation Insurance, then

the major insurer must pay \$4,906,000 less one of the following credits:

(a) If the major insurer's percentage of total net direct written premium in the voluntary market exceeded 25% for each of the calendar years 1989 and 1990, then \$1,811,000;

(b) If the major insurer's percentage of total net direct written premium in the voluntary market exceeded 10% for each of the calendar years 1989 and 1990, then \$1,772,000;

(c) If the major insurer's percentage of total net direct written premium in the voluntary market exceeded 10% for either calendar year 1989 or 1990, then \$807,000;

(d) If the major insurer's percentage of total net direct written premium in the voluntary market exceeded 7.5% for each of the calendar years 1989 and 1990, then \$596,000; or

(e) For any other major insurer that qualifies for credit under this subparagraph, \$289,000;

(3) One or more major insurers may agree in writing to pay more or less than the amount of their allocated share under subparagraph (1) or (2); except that:

(a) A major insurer may not pay less than the allocated share under subparagraph (1) or (2), unless the written agreement is executed by all major insurers that have timely paid or agreed in writing to timely pay in full at least their allocated share;

(b) The total amount of timely payments to the pool by major insurers is equal to or greater than \$58,500,000;

(c) The pool is made a 3rd-party beneficiary to a written agreement among certain major insurers that provides for:

(i) Timely payments to the pool by major insurers that are equal to \$58,500,000; and

(ii) An express right of the pool to enforce the payments required by that agreement; and

(d) Timely payment of any share agreed upon in writing pursuant to this subparagraph in an amount less than the allocated share under subparagraph (1) or (2) constitutes timely payment in full of an allocated share for purposes only of subsection 1, paragraph C or section 2396, subsection 1.

(4) If the total amount paid according to the requirements of subparagraphs (1), (2) and (3) exceeds \$58,500,000, the pool must disburse within 30 days the excess amount by refunding to each major insurer that has timely paid in full at least its allocated share under subparagraph (1) or (2) in direct proportion to the amount that each major insurer paid to the pool as part of the total major insurers' payment required by this paragraph.

B. Minor insurers shall pay to the pool 10% of the \$65,000,000 payment, which is \$6,500,000. Each minor insurer shall pay to the pool an allocated share of the payment required by this paragraph as determined in accordance with the following.

(1) Except as provided in subparagraph (2), an allocated share equal to the sum of the amounts described in divisions (a) to (c) must be paid to the pool.

(a) Minor insurers authorized to provide workers' compensation insurance in the State at any time during 1989 pay 59% of the \$6,500,000 payment, with each minor insurer paying a per capita share.

(b) Minor insurers authorized to provide workers' compensation insurance in the State at any time during 1990 pay 38% of the \$6,500,000 payment, with each minor insurer paying a per capita share.

(c) Minor insurers authorized to provide workers' compensation insurance in the State at any time during 1991 pay 3% of the \$6,500,000 payment, with each minor insurer paying a per capita share.

(2) A minor insurer that qualifies for a partial exemption under this subparagraph shall pay to the pool the greater of \$10,000 or 2% of the minor insurer's average annual after-tax adjusted earnings for the 3 calendar years immediately prior to enactment of

this chapter as reported in the minor insurer's annual statement filed with the superintendent. A minor insurer qualifies for a partial exemption from the per capita share payment required by this paragraph if, for the 3 calendar years immediately prior to enactment of this chapter, as reported in the minor insurer's annual statement filed with the superintendent, the minor insurer's:

(a) Average annual after-tax adjusted earnings were less than \$2,000,000; and

(b) Surplus as to policyholders did not exceed \$12,500,000.

(3) A minor insurer that has not received a partial exemption under subparagraph (2) is entitled to participation credits determined as follows.

(a) For any policy year beginning on or after January 1, 1989, the share for each minor insurer authorized to write workers' compensation insurance in the year to which the calculation in this division pertains is reduced by .05% for each .10% that its participation ratio for the year to which the assessment relates exceeds its participation ratio for the base period as calculated by dividing the minor insurer's net direct written premium for the base period by the total minor insurer's net direct written premium for the base period. For purposes of this division, "base period" means the calendar years 1983 to 1986. The participation ratio for the year to which the assessment relates is calculated by dividing the minor insurer's net direct written premium in that calendar year by the total net direct written premium of minor insurers that were authorized at any time during that year;

(b) Credits earned by a minor insurer may not result in a minor insurer's participation ratio being adjusted to less than 1/2 of its otherwise allocated share;

(c) For a minor insurer not authorized to write workers' compensation insurance in 1986, its adjusted participation ratio is 1/2 of its participation ratio in the year to which the calculation applies;

(d) Any deficiency must be distributed among all minor insurers in proportion to the adjusted participation ratio, after credit adjustments; and

(e) For purposes of this subparagraph, "adjusted participation ratio" means a minor insurer's participation ratio as calculated in accordance with this subparagraph and after application of any credits. For purposes of this subparagraph, net direct written premium does not include premiums for residual market risks reinsured by the pool or retrospective rating plan adjustments on policies effective prior to January 1, 1988.

(4) The total amount of the differences between the following must be paid by those minor insurers that actually paid their allocated share as of January 1, 1996 by allocating the difference to those minor insurers in the same proportion as each such minor insurer's payment bears to the total aggregate amount actually paid by minor insurers as of January 1, 1996:

(a) The otherwise allocated share payments under subparagraph (1); and

(b) The payments made by minor insurers that qualify for a partial exemption as provided in subparagraph (2) and any participation credits under subparagraph (3).

(5) In the event a minor insurer for any reason fails to pay its allocated share, as described in this paragraph, by January 1, 1996, then the pool may charge the deficiency resulting from those uncollected amounts to all minor insurers that actually pay their allocated share as of January 1, 1996 by allocating that deficiency to those minor insurers in the same proportion as each such minor insurer's payment bears to the total aggregate amount actually paid by minor insurers as of January 1, 1996. Those minor insurers are subrogated to the pool's right to collect such amounts from the delinquent minor insurer.

(6) One or more minor insurers may agree in writing to pay more or less than the amount of their allocated share under subparagraphs (1) to (4), except that:

(a) A minor insurer may not pay less than the allocated shares under subparagraphs (1) to (4) unless the writ-

ten agreement is executed by all minor insurers that have timely paid or agreed in writing to timely pay in full at least their allocated share;

(b) The total amount of timely payments to the pool by minor insurers is equal to or greater than \$6,500,000;

(c) The pool is made a 3rd-party beneficiary to a written agreement among certain minor insurers that provides for:

(i) Timely payments to the pool by minor insurers that are equal to \$6,500,000; and

(ii) An express right of the pool to enforce the payments required by that agreement; and

(d) Timely payment of any share agreed upon in writing pursuant to this subparagraph in an amount less than the allocated share under subparagraphs (1) to (4) constitutes timely payment in full of an allocated share for purposes only of subsection 1, paragraph C or section 2396, subsection 1.

(7) If the total amount paid according to the requirements of subparagraphs (1) to (6) exceeds \$6,500,000, the pool must disburse within 30 days the excess amount by refunding to each minor insurer that has timely paid in full at least its allocated share under subparagraphs (1) to (4) in direct proportion to the amount that each minor insurer paid to the pool as part of the total minor insurers' payment required by this paragraph.

C. The pool shall bill and collect from each insurer the allocated share established by paragraphs A and B. If an insurer has not timely paid its allocated share in full to the pool on or before January 1, 1996, then the insurer is considered delinquent and the following applies.

(1) The pool has all the rights, powers and authority to take all necessary and appropriate action, as determined in the pool's discretion, against the delinquent insurer to collect any amounts not paid as and when due, and any deficiency is assessed interest at the rate of 10% per annum from January 1, 1996 until full payment from the insurer is received by the pool. The pool is entitled to an award of and reimbursement from any

delinquent insurer of the costs of enforcement and collection of any amounts not paid as and when due, including all costs and expenses, reasonable attorney's and paralegal's fees and any other professional fees and expenses associated with the pool's enforcement and collection efforts.

(2) If the pool has received \$58,500,000 from major insurers or \$6,500,000 from minor insurers, valued as of January 1, 1996, the pool shall provide prompt written notice of this fact to insurers in the same category, either major or minor. Within 90 days following a request, the pool shall assign all such rights, powers and authority, including the entitlement to costs and expenses, to any insurers in the same category of the delinquent insurer that have requested an assignment and timely paid in full at least the allocated share established by paragraphs A and B.

(3) The pool has the right to set off any amounts due under this chapter to the pool from a delinquent insurer against any sums credited by or due from the pool to the delinquent insurer and against any other property of the delinquent insurer in the possession or under the control of the pool.

(4) Regardless of whether any action is taken pursuant to subparagraphs (1) to (3), the superintendent is authorized to exercise all authority as may be provided by and in accordance with law to take appropriate action against any delinquent insurer. In addition to any other authority the superintendent may possess under law, the superintendent upon notice and hearing may suspend a delinquent insurer's authority to transact the business of insurance in the State for so long as the insurer remains delinquent. The authority granted to the superintendent under this paragraph and jurisdiction vested in the bureau are concurrent with other actions by other parties authorized in this paragraph.

(5) Any collection by or on behalf of the pool, or amounts obtained by setoff with respect to a delinquent insurer, are retained by the pool, until the insurers in the same category as the delinquent insurer have paid the total amount required for that category, plus interest pursuant to subparagraph (1) and costs and expenses of the pool for collection in an amount not to exceed the delinquent share, valued as of January 1, 1996, to the pool. Any excess must be dis-

tributed within 90 days among the insurers in the same category as the delinquent insurer that have timely paid in full at least the allocated share established by paragraphs A and B in direct proportion to that insurer's payment to the pool as part of the total payments required by paragraph A or B, except that any collection on behalf of the pool as the result of an assignment pursuant to subparagraph (2) must be distributed as agreed among the insurers that receive the assignment from the pool.

(6) No defense or substantive argument that could have been raised or asserted related to an insurer's status as a major insurer or minor insurer or any purported contractual rights under prior or existing law is extinguished or otherwise abridged in any proceeding against a delinquent insurer instituted under subparagraphs (1) to (5).

2. Payments by employers. Employers shall pay to the pool the following amounts.

A. Employers shall pay initial surcharges, in the manner described in this subsection, in an aggregate amount equal to \$110,000,000, calculated on a net present value basis using January 1, 1995 as the valuation date, a discount rate of 5% and the midpoint of each calendar quarter as the date of actual receipt of surcharge proceeds remitted to the pool for each calendar quarter. Proceeds included in determining when the \$110,000,000 initial surcharge is fully paid consist of:

(1) All proceeds from surcharges under this chapter on policies with effective dates on or after July 1, 1995 and surcharges under this chapter on self-insured employers with plan years commencing on or after July 1, 1995; and

(2) All proceeds from surcharges actually received in immediately available funds by the pool after 5:00 p.m., September 30, 1995, whether the proceeds result from a surcharge under this chapter or under laws existing prior to enactment of this chapter.

B. Proceeds from surcharges under existing laws actually received in immediately available funds by the pool on or before 5:00 p.m., September 30, 1995 may not be credited against the initial surcharge requirement.

C. The pool shall maintain records reflecting actual dates of receipt of proceeds from surcharges sufficient to enable the net present value calculation.

D. The initial surcharges must be paid in accordance with the following provisions.

(1) Beginning July 1, 1995 every insurer writing workers' compensation insurance in the State shall collect from workers' compensation insurance policyholders and pay to the pool a surcharge on all surchargeable premiums received by the insurer for those policies. During the initial surcharge period, the surcharge is at a fixed rate of 6.32% of the surchargeable premium. The surcharge may be applied only to policies with an effective date on or after 12:01 a.m., July 1, 1995. All surcharges received by each insurer during the preceding calendar quarter must be remitted to the pool within 15 days following the end of each calendar quarter, except that servicing carriers shall remit on February 15th, May 15th, August 15th and November 15th of each year. Any surcharge proceeds not remitted on a timely basis accrue interest at the rate of 10% per annum from the due date until paid in full. The pool is entitled to reimbursement from any insurer failing to remit surcharge proceeds on a timely basis for the pool's costs of collection of those amounts, including all collection costs and fees, reasonable attorney's and paralegal's fees and any other professional fees and expenses associated with the pool's collection efforts. The surcharges described in this subparagraph do not apply to reinsurance recognized by the superintendent pursuant to chapter 250, section 2, paragraph G or section 3, paragraph G, procured by an individual self-insured employer or a self-insured employer group.

(2) Self-insured employers that secured their obligation to provide workers' compensation benefits under the Workers' Compensation Act through issuance or renewal at any point during the fresh start period of an insurance policy for any portion of any of the policy years 1988 to 1992 are subject to a surcharge as provided in the following.

(a) During the initial surcharge period the rate of surcharge is 6.32% of the surchargeable premium as adjusted pursuant to this paragraph for the self-insured employer's current plan year utilizing estimated payroll as submitted with the self-insured employer's renewal application for authority to self-insure, in accordance with Chapter 250, section 2, paragraph C, sub-

paragraph 1, division c or Chapter 250, section 3, paragraph C, subparagraph 1, division g as applicable, subject to audit pursuant to division (d), subdivision (iii). If the plan year in which a surcharge is collected or a credit is distributed is shorter than 12 months, due to a change in accounting period or termination of self-insurance authorization, the surcharge or credit for that plan year must be based upon the final audited payroll for the short plan year.

(b) All surcharges must be collected or distributed on a plan year basis. In each plan year, the percentage of the surchargeable premium to be surcharged is the same percentage as is applied to an insured employer whose policy period coincided with the plan year.

(c) Each self-insured employer shall pay surcharges relating to only that portion of the policy years 1988 to 1992 in which the self-insured employer insured its workers' compensation obligations. The surcharge factor, as determined by the board under this chapter, must be adjusted to take into consideration the policy years or portions of policy years 1988 to 1992 in which a self-insured employer was self-insured.

The adjustment is determined as follows. The surcharge factor must be multiplied by the factor attributed to each of the years 1988 to 1992, as set forth in the table below. If a self-insured employer was insured only during a portion of a policy year, then the factor for that year is prorated based on the ratio of the number of days in the policy year during which the self-insured employer was insured to 365 days.

<u>Policy Year</u>	<u>Factor</u>
<u>1988</u>	<u>28.48%</u>
<u>1989</u>	<u>30.70%</u>
<u>1990</u>	<u>23.26%</u>
<u>1991</u>	<u>11.55%</u>
<u>1992</u>	<u>6.01%</u>

(d) The board shall administer the surcharges on self-insured employers as follows.

(i) The board shall issue surcharge billings to self-insured employers, pursue collection of all invoiced surcharges, initiate legal proceedings as necessary to collect surcharges and maintain records adequate to administer the surcharge process. The records of the board and of the bureau form the basis for identifying self-insured employers who are subject to this paragraph.

(ii) Annual surcharges may be paid in a single lump sum within 30 days of the receipt of the pool's invoice or in quarterly installments at the self-insured employer's option. The board shall issue a yearly invoice as soon as practicable after the self-insured employer's plan approval or renewal date and receipt of all necessary supporting information from the superintendent. Each invoice must contain a schedule of dates when quarterly installments are due and clearly state the policy year or years for which the surcharge is imposed, the surcharge percentage multiplied by the factor applicable to each policy year and the amount of the surchargeable premium.

(iii) Each individual self-insured employer shall report final audited payrolls to the pool not later than 60 days after the end of each plan year and each self-insured employer that is a member of a self-insured group or the group's administrator, as the group may select, shall report final audited payrolls to the pool not later than 120 days after the end of each plan year and shall remit with the audit information any additional surcharges resulting from the audit.

(e) Self-insured employers have the following obligations with respect to the surcharge process.

(i) As a condition of continuing authorization to self-insure, each self-insured employer and each group self-insurance administra-

tor shall assist the board and the superintendent in the calculation, billing and collection of any applicable surcharge. The required assistance includes maintaining and providing, upon request of the board or the superintendent, actual premium history and all payroll and experience information necessary to calculate self-insured employer premiums, as specified in this subparagraph. Information provided by the self-insured employer is subject to audit by the pool and the superintendent at any time and self-insured employers shall provide to the pool, or its designee, and to the superintendent full and complete access to all books and records relating in any way to the audit. Group self-insurance administrators shall give prompt notice to the superintendent of any changes in group membership.

(ii) Information provided by self-insured employers to the board pursuant to this paragraph is confidential. The board shall protect the confidentiality of all self-insured employer information in its possession, whether the information is obtained directly from the self-insured employer or from the superintendent or a group administrator.

(iii) A self-insurance group may act as the collection agent for its members. Any group so electing shall notify the board. The board shall bill the group on a consolidated basis. The group shall remit its entire quarterly payment to the board within 30 days after receiving the invoice, whether or not any members remain in default and notify the board and the superintendent of any delinquency.

(iv) Each self-insured employer shall make provisions for possible surcharges in the normal course of operations and pay the full amount of any surcharge in-

stallment within 30 days after receiving an invoice from the board or the self-insured employer's self-insurance group. Late payments are subject to interest at the rate of 10% per annum.

(v) The failure of any self-insured employer or self-insurance group to comply with its duties under this paragraph constitutes grounds for suspension, revocation, termination of the option to self-insure, expulsion from a self-insurance group or other appropriate sanctions authorized under section 12-A, in addition to all procedures for the collection of past-due accounts otherwise available by law to the board or the governing body of the self-insurance group.

(f) The superintendent has the following responsibilities with respect to the surcharge process.

(i) The superintendent shall furnish to the board, on a monthly basis, a list of all self-insurance plan approvals, renewals and anniversaries that have occurred since the last report or for any other reason were not included in any previous report, including all approvals, terminations and membership changes for group self-insurers. For each employer listed, the superintendent shall provide all available information necessary for the board's imputed calculations under this paragraph, including: the date the new plan year began; the self-insurance group, if any, to which the self-insured employer belongs; the dates of coverage under each policy issued or renewed in policy years 1988 to 1992; the rating information for the current plan year, including estimated payroll by classification, premium rate for each classification, experience modification and other applicable rating adjustments; information relating to changes of ownership or control, changes of operations, changes

of name or organizational structure; and other information necessary to determine successorship.

(ii) The superintendent shall supplement promptly the initial report as necessary, including any revision to the self-insured employer's rating information on audit, any other additions or corrections to incomplete or inaccurate information provided in the initial report and the length of the plan year, if shorter than 12 months.

(g) Self-insured employers include any successor entity to a self-insured employer subject to the surcharge imposed by this subparagraph. A successor entity includes entities purchasing all or a portion of the assets of a self-insured employer subject to the surcharge or the surviving entity in any other merger, consolidation, reorganization or restructuring involving a self-insured employer subject to the surcharge imposed by this subparagraph. If business operations that were insured under a single workers' compensation insurance policy during any portion of the fresh start period are subsequently separately owned by virtue of any sale of assets, merger, consolidation, reorganization, dissolution, reincorporation, restructuring or other transaction or series of transactions, for purposes of this subparagraph each business is treated as a distinct employer, subject to surcharge as either an insured employer or a self-insured employer.

(h) A self-insured employer that secured its obligation to provide workers' compensation benefits under the Workers' Compensation Act through a self-insurance program approved by the superintendent for the entirety of that self-insured employer's policy years 1988 to 1992, in which the self-insured employer actually had an obligation to secure benefits under the Workers' Compensation Act is not subject to the surcharge.

(i) Self-insured employers that commence operations in the State on or after July 1, 1995 are

subject to surcharge under this subparagraph on the same basis as self-insured employers that secured compensation under the Workers' Compensation Act by the purchase of an insurance policy throughout the entire fresh start period.

(3) An employer may, as specified in this subparagraph, prepay all of its surcharges for a period of 10 consecutive policy years or plan years. The 10-year period starts with the employer's first renewal date or plan year following July 1, 1995. Within 30 days after the inception of the first plan year or first policy renewal date following July 1, 1995, if the employer intends to exercise this option, the employer must file with the pool written notice electing to make a lump-sum payment of surcharges and shall include with the notice the employer's full lump-sum payment. If the election is not made within 30 days after the first day of the first plan year or policy year following July 1, 1995, the option expires and is no longer available. The pool shall implement such procedures for administering this option as the board determines necessary. An employer that elects this option shall reimburse the pool for its expenses of administering this option for that employer, including the cost of individually allocating those costs to individual employers, in accordance with billing procedures developed and implemented by the board. This subparagraph does not eliminate or limit the employer's liability to pay adjusted surcharges or supplemental surcharges pursuant to paragraph E or section 2394.

For purposes of this subparagraph, "lump-sum payment" is the surcharge for the first year multiplied by 10 and discounted to net present value using:

- (a) A 5% discount rate;
- (b) The first day of the first plan year or policy year starting on or after July 1, 1995; and
- (c) An assumption that the surcharge for each of the 10 plan years or policy years would have been paid on the first day of each subsequent plan year or policy year.

E. The initial surcharge percentage may be adjusted by the pool in accordance with the following provisions.

(1) Each July 1st beginning in 2003, the board shall establish a surcharge percentage to be imposed on all workers' compensation insurance policies issued or renewed on or after that date until the effective date of any subsequent adjustment in the surcharge percentage established by the board; except that, if supplemental surcharges and assessments have commenced under section 2394, no further adjustments may be made under this subparagraph. The surcharge must be at a level determined by the board to be sufficient to produce cash receipts over the ensuing 24 months that, together with all other funds reasonably anticipated by the board to be available on a cash basis over that period, produce an amount not less than the pool's projected cash requirements to meet its obligations over that period. In making that determination, the board shall employ and rely upon the advice of professional and consulting services, including services available through the pool's internal staff, as the board determines necessary.

(2) If the surcharge percentage established under this subparagraph exceeds 6.32%, then a prepaid employer shall pay surcharges for that future assessment period at the same rate as those employers who paid annually, based upon the employer's surchargeable premium for the policy year or plan year to which the increased surcharge percentage applies. A prepaid employer may take a credit for the surcharges prepaid for that assessment period pursuant to section 2393, subsection 2, paragraph D, subparagraph (3) in an amount equal to the net present value calculated on a basis consistent with paragraph D, subparagraph (2), division (d), subdivision (ii). If the surcharge percentage is less than 6.32% for that future assessment period, then the pool shall refund to a prepaid employer an amount equal to the difference between the value of the lump-sum surcharge paid for the future assessment period calculated on a basis consistent with paragraph D, subparagraph (2), division (d), subdivision (ii) and the amount of surcharge due based upon the adjusted surcharge percentage and applicable surchargeable premium. For purposes of this subparagraph, "prepaid employer" means an employer who has elected to pay surcharges on a lump-sum basis pursuant to paragraph D, subparagraph (3).

(3) The board has authority to make interim adjustments in the surcharge percent-

age on or after July 1, 2003, to be effective on dates other than July 1st as specified by the board, to the extent considered necessary by the board to produce sufficient cash receipts from surcharges over the ensuing 24 months that, together with all other funds reasonably anticipated by the board to be available on a cash basis to the pool over the ensuing 24 months, will be sufficient to meet the pool's anticipated cash requirements over that period.

(4) In projecting the pool's anticipated cash requirements, the board shall maintain a reserve equal to 25% of the cash expenditures of the pool over the immediately preceding 12-month period.

F. The surcharges required by this subsection are considered premium for cancellation and nonrenewal purposes only and are not subject to premium tax, Maine Insurance Guaranty Association assessments, agents' commissions or other payments required on insurance policy premiums.

G. Employer surcharges required by this chapter are suspended if:

(1) The board determines that the pool's assets are adequate to satisfy all remaining obligations, including any necessary repayment to insurers that satisfy the requirements of subparagraph (2); and

(2) The insurers and employers have been repaid by the pool in amounts necessary to produce a ratio of actual surcharges under this subsection paid by employers calculated on a net present value basis using January 1, 1995 as a valuation date and a discount rate of 5% to actual payments by insurers to the pool under subsection 1, valued as of January 1, 1996, not including employer surcharges remitted to the pool by insurers, that is the same as 11 to 6.5, for employers and insurers respectively.

H. If the board suspends initial surcharges and the pool subsequently requires additional assets to satisfy remaining obligations, the board shall order additional initial surcharges consistent with this subsection. The board shall review the relationship between the pool's assets and liabilities as often as determined necessary by the board, but at least annually. Projections of assets and liabilities contained in any quarterly or annual statements of operation prepared by or at the direction of the board do not constitute a determination under this subsection.

3. Payments by Maine Insurance Guaranty Association. The association shall pay to the pool \$1,538,039 on or before February 15th, May 15th, August 15th, and November 15th of each year for 40 consecutive calendar quarters beginning August 15, 1996.

A. Each payment made by the association to the pool under this subsection is treated as a covered claim pursuant to section 4435, subsection 4, except that any provision or authority for the association to seek reimbursement or recoupment from any source other than by assessments to association member insurers does not apply. This section does not limit or impair a member insurer's right to recoupment under section 4447.

B. The quarterly payments by the association to the pool as required by this subsection must be made regardless of the financial condition or actual or projected cash requirements of the pool.

§2394. Funding subsequent cash deficiencies

If the insurers have made payments to the pool totalling \$65,000,000 valued as of January 1, 1996 pursuant to section 2393, subsection 1 and the employers have paid surcharges totalling \$110,000,000 calculated on a net present value basis using January 1, 1995 as a valuation date and a discount rate of 5%, pursuant to section 2393, subsection 2, on each July 1st following the full payment date, or more often if the board considers it necessary:

1. Determine cash requirements. The board shall determine the amount of cash receipts that will be required over the ensuing 24 months, in addition to all other funds reasonably anticipated by the board to be available on a cash basis over that period, to produce an amount not less than the pool's projected cash requirements to meet its obligations over that period. In making this determination, the board shall employ and may rely upon professional and consulting services, including such services as may be available through its internal staff, as the board considers necessary. If cash requirements determinations under this subsection commence, any cash requirements determinations and initial surcharge percentage adjustments under section 2393, subsection 2, paragraph E cease. In projecting the pool's anticipated cash requirements, the board shall maintain a reserve equal to 25% of the cash expenditures of the pool over the immediately preceding 12 months; and

2. Establish supplemental surcharges and assessments. The pool shall establish, bill and collect supplemental surcharges from employers and assessments from insurers in an aggregate amount determined by the board to be sufficient to satisfy the

pool's cash requirements, determined under subsection 1, in accordance with the following provisions.

A. Liability for funding cash requirements determined under subsection 1 is allocated 70% to employers and 30% to insurers.

B. The pool shall establish a surcharge on employers, reflected as a percentage of surchargeable premium, that the board reasonably expects will be sufficient to generate cash receipts over the ensuing 24-month period equal to 70% of the pool's cash requirements for such period as determined pursuant to subsection 1. The resulting employer surcharges are billed and collected in the same manner as provided in section 2393, subsection 2, paragraph D.

C. The pool shall establish, bill and collect from insurers assessments equal to the remaining 30% of the pool's cash requirements. Major insurers are responsible for 90% and minor insurers are responsible for 10% of these assessments.

(1) Assessments under this paragraph must be determined and billed quarterly by the pool in an amount equal to 42.9% of the cash receipts actually received by the pool from employer supplemental surcharges during the immediately preceding calendar quarter and must be allocated among existing insurers in the same category in direct proportion to amounts paid by or otherwise collected from those insurers by or on behalf of the pool under section 2393, subsection 1. Assessments billed by the pool must be paid within 30 days of the billing date.

(2) The enforcement provisions established by section 2393, subsection 1, paragraph C apply to assessments on insurers under this paragraph.

D. For purposes of establishing the surcharge upon employers, the pool's cash requirements may not include any amounts necessary to compensate the pool for any failure by insurers to pay the full amount of the assessments charged to insurers under this subsection.

For the purposes of this section, "full payment date" means the date on which insurers have paid the entire amount required pursuant to section 2393, subsection 1 and on which employers have paid the entire amount required pursuant to section 2393, subsection 2.

§2395. Revisions to residual market mechanism plan of operation

1. Plan manager. The board shall appoint a plan manager who reports to and serves at the pleasure, direction and control of the board. The board has the exclusive right to retain any individual or organization as plan manager and to terminate the plan manager. The board is exclusively responsible for establishing the terms and conditions, including compensation, under which the plan manager serves.

2. Appointment of employer representatives. The 5 members of the board of governors serving as representatives of the business community of the State are appointed by the Governor for staggered 3-year terms, with at least one member appointed each year. All members whose terms have not expired on or before July 3, 1995 continue on the board until their terms expire.

3. Staff and consultants. The board may employ, or otherwise retain, staff and consultants as the board considers necessary or appropriate to effect the purposes of this chapter and chapter 440 and to otherwise administer pool operations. The board or its designee is exclusively responsible for establishing the responsibilities and compensation of all staff employed by the pool and are exclusively responsible for establishing the terms and conditions, including compensation, of all consultants retained by the pool.

4. Transfer of policies. An insurer may transfer any rights, obligations and liabilities of a workers' compensation insurance policy issued pursuant to the residual market mechanism.

5. Authority to borrow money. The pool may, when directed by the board, borrow money and enter into financing transactions in the name of and on behalf of the pool and issue evidences of indebtedness in connection with those transactions. To secure the payment of any indebtedness incurred pursuant to this subsection, the pool may pledge and create a lien upon any or all of its receivables or revenues or grant such other security interests in its property as the board determines reasonable and proper for the security of the holders of indebtedness. The terms and conditions of any borrowing, including, but not limited to, dates, maturities, interest and rates, must be established by the board.

§2396. Coordination of law

1. Causes of action extinguished; exception. Notwithstanding Title 1, section 302, a cause of action or administrative proceeding that could have been asserted or instituted, whether or not pending, prior to or on the effective date of this Act arising out of or relating to sections 2386 and 2386-A and their predecessor statutes, sections 2366 and 2367 or due to

an insurer's performance as a servicing carrier or other participation in the residual market mechanism may not exist or be brought against the pool, the board or an insurer that has timely paid to the pool in full at least the allocated share pursuant to section 2393, subsection 1. 2. Repeal of chapter 720. The Bureau of Insurance Rules, chapter 720, is repealed effective July 1, 1995. The collection procedures set forth in section 2393, subsection 2, paragraph D, subparagraph (2) apply to surcharges assessed under chapter 720 prior to the effective date of this chapter.

3. Vacation of orders. All orders of the superintendent relating to surcharges and assessments arising out of section 2386-A are vacated except to the extent that they establish the amount and method of calculation of surcharges paid or to be paid by employers on policies issued or renewed with effective dates on or before June 30, 1995, and self-insurance plan years beginning on or before June 30, 1995. All other decisions, orders and rules issued and adopted by the superintendent relating to workers' compensation insurance are invalid to the extent that they are inconsistent with this chapter.

Sec. 12. 24-A MRSA §4435, sub-§4, as amended by PL 1989, c. 751, §3, is further amended to read:

4. Covered claim. Each payment made under this paragraph must be treated as the payment of a covered claim except that the association may not seek reimbursement or recoupment from any source other than by assessments to member insurers. Member insurers are allowed to recognize assessments made pursuant to this paragraph in rates and premiums as provided in section 4447;

Sec. 15. 24-A MRSA §4438, sub-§1, ¶C, as amended by PL 1989, c. 67, §5, is further amended to read:

H.P. 1068 - L.D. 1503

An Act to Protect Consumers in High-cost Mortgages and Reverse Mortgages

Be it enacted by the People of the State of Maine as follows:

Sec. 1. 9-A MRSA §1-301, sub-§17, as amended by PL 1987, c. 129, §23, is further amended to read:

17. "Creditor" means a person who both:

- A. Regularly extends credit in consumer credit transactions; and

B. Is the person to whom the debt arising from the consumer credit transactions is initially payable on the face of the evidence of indebtedness or, if there is no such evidence of indebtedness, by agreement. Notwithstanding the previous sentence, a person who regularly arranges for the extension of consumer credit from persons who are not creditors is a creditor and, in the case of an open-end credit plan involving a credit card, the card issuer and any person who honors the credit card and offers a discount ~~which~~ that is a finance charge are creditors.

For the purposes of the requirements imposed under section 8-205, subsection 1, paragraphs E, F, G, and subsection 2, paragraphs A, B, C, D, I, K, and Article VIII, Parts 3 and 4, the term "creditor" also includes card issuers whether or not the amount due is payable by agreement in more than 4 installments or the payment of a finance charge is or may be required, and the administrator shall, by regulation, apply these requirements to those card issuers, to the extent appropriate, even though the requirements are by their terms applicable only to creditors offering open-end credit plans.

A person regularly extends consumer credit only if ~~he~~ that person extended credit more than 25 times, or more than 5 times for transactions secured by a dwelling, in the preceding calendar year. If a person did not meet these numerical standards in the preceding calendar year, the numerical standards ~~shall~~ must be applied to the current calendar year.

Notwithstanding the provisions of this section, any person who originates 2 or more high-rate, high-fee mortgages as defined in section 8-103, subsection F-1 in any 12-month period or any person who originates one or more such mortgages through a credit services organization as defined in Article X of this Act in any 12-month period is considered a creditor.

Sec. 2. 9-A MRSA §8-103, sub-§1, ¶F-1 is enacted to read:

F-1. "High-rate, high-fee mortgage" means a consumer credit transaction that is secured by the consumer's principal dwelling, other than a residential mortgage transaction, a reverse mortgage transaction or a transaction under an open-end credit plan, if:

(1) The annual percentage rate at consummation of the transaction exceeds by more than 10 percentage points the yield on treasury securities having comparable periods of maturity on the 15th day of the month immediately preceding the month in which the application for the extension of credit is received by the creditor; or

(2) The total of the points and fees payable by the consumer at or before closing exceeds the greater of 8% of the total loan amount or \$400.

For purposes of this subparagraph, points and fees include:

(a) All items included in the finance charge, except interest and the time-price differential;

(b) All compensation paid to mortgage brokers;

(c) Each of the charges listed in section 1-301, subsection 19, paragraph B or section 8-105, subsection 5 except an escrow for future payment of taxes, unless the:

(i) Charge is reasonable;

(ii) Creditor receives no direct or indirect compensation; and

(iii) Charge is paid to a 3rd party unaffiliated with the creditor; and

(d) Any other charges the administrator determines appropriate.

Sec. 3. 9-A MRSA §8-103, sub-§1, ¶H-1 is enacted to read:

H-1. "Reverse mortgage transaction" means a nonrecourse transaction in which a mortgage, deed of trust or equivalent consensual security interest is created against the consumer's principal dwelling to secure one or more advances and with respect to which the payment of any principal, interest and shared appreciation or equity is due and payable, other than in the case of default, only after the transfer of the dwelling, the consumer ceases to occupy the dwelling as a principal dwelling or the death of the consumer.

Sec. 4. 9-A MRSA §8-106-A is enacted to read:

§8-106-A. Number of percentage points

1. Beginning 2 years after the effective date of the regulations adopted under the federal Riegle Community Development and Regulatory Improvement Act of 1994, Public Law No. 103-325, Section 155, 108 Stat. 2160, 2197 (1994) and no more often than biennially after the first increase or decrease in the number of percentage points under this section, the administrator may by rule increase or decrease the number of percentage points specified in section

8-103, subsection 1, paragraph F-1, subparagraph (1) if the administrator determines that the increase or decrease is:

A. Consistent with the consumer protection against abusive lending provided by amendments made by the federal Riegle Community Development and Regulatory Improvement Act of 1994, Title I, subtitle B, Public Law No. 103-325, 108 Stat. 2160, 2190 (1994); and

B. Warranted by the need for credit.

2. An increase or decrease under subsection 1 may not result in the number of percentage points referred to in subsection 1 being less than 8 percentage points or greater than 12 percentage points.

3. In determining whether to increase or decrease the number of percentage points referred to in subsection 1, the administrator shall consult with representatives of consumers, including low-income consumers, and lenders.

The dollar amount specified in section 8-103, subsection 1, paragraph F-1, subparagraph (2) must be adjusted annually on January 1st by the annual percentage change in the Consumer Price Index, as reported on June 1st of the year preceding the adjustment.

This section may not be construed to limit the rate of interest or the finance charge that a person may charge a consumer for an extension of credit.

Sec. 5. 9-A MRSA §§8-206-A and 8-206-B are enacted to read:

§8-206-A. High-rate, high-fee mortgages

1. In addition to other disclosures required under this article, for each high-rate, high-fee mortgage the creditor shall provide to the consumer the following disclosures in conspicuous type size.

A. "You are not required to complete this agreement merely because you have received these disclosures or have signed a loan application."

B. "If you obtain this loan, the lender will have a mortgage on your home. You could lose your home and any money you have put into it if you do not meet your obligations under the loan."

2. In addition to the disclosures required under subsection 1, the creditor shall disclose:

A. For a credit transaction with a fixed rate of interest, the annual percentage rate and the amount of the regular monthly payment; or

B. For any other credit transaction, the annual percentage rate of the loan, the amount of the regular monthly payment, a statement that the interest rate and monthly payment may increase and the amount of the maximum monthly payment based on the maximum interest rate allowed pursuant to the federal Competitive Equality Banking Act of 1987, Public Law No. 100-86, Section 1204, 101 Stat. 552, 662 (1987).

3. The disclosures required by this section must be given to the consumer at least 3 business days prior to the consummation of the transaction.

4. After providing the disclosures required by this section, a creditor may not change the terms of the extension of credit if the changes make the disclosures inaccurate, unless new disclosures are provided that meet the requirements of this section.

A. A creditor may provide new disclosures by telephone under the following terms:

(1) The change is initiated by the consumer; and

(2) At the consummation of the transaction under which the credit is extended, the creditor provides to the consumer the new disclosures in writing and the creditor and the consumer certify in writing that those new disclosures were provided by telephone at least 3 days prior to the date of consummation of the transaction.

5. Upon determining that a modification of the disclosure process is necessary to permit consumers to meet bona fide personal financial emergencies, the administrator may adopt rules authorizing the modification or waiver of the rights of disclosure created under subsections 3 and 4 to the extent allowed under the regulations.

6. A high-rate, high-fee mortgage may not contain terms under which a consumer must pay a prepayment penalty for paying all or part of the principal before the date on which the principal is due.

A. For purposes of this subsection and subsection 7, any method of computing a refund of unearned scheduled interest is a prepayment penalty if it is less favorable to the consumer than the actuarial method, as that term is defined in the federal Housing and Community Development Act of 1992, Public Law No. 102-550, Section 933(d), 106 Stat. 3672, 3892 (1992).

7. Notwithstanding subsection 6, a high-rate, high-fee mortgage may contain a prepayment penalty, including terms calculating a refund by a method that is not prohibited under the federal Housing and

Community Development Act of 1992, Public Law No. 102-550, Section 933(b), 106 Stat. 3672, 3892 (1992), for the transaction in question if:

A. At the time the mortgage is consummated:

(1) The consumer is not liable for an amount of monthly indebtedness payments, including the amount of credit extended or to be extended under the transaction, that is greater than 50% of the monthly gross income of the consumer; and

(2) The income and expenses of the consumer are verified by a financial statement signed by the consumer, by a credit report and, in the case of employment income, by payment records or by verification from the employer of the consumer, which may be in the form of a copy of a pay stub or other payment record supplied by the consumer;

B. The penalty applies only to a prepayment made with amounts obtained by the consumer by means other than a refinancing by the creditor under the mortgage or an affiliate of that creditor;

C. The penalty does not apply after the end of the 5-year period beginning on the date the mortgage is consummated; and

D. The penalty is not prohibited under other applicable law.

8. A high-rate, high-fee mortgage may not provide for an interest rate applicable after default that is higher than the interest rate that applies before default. If the date of maturity of such a mortgage is accelerated due to default and the consumer is entitled to a rebate of interest, that rebate must be computed by a method that is not less favorable than the actuarial method, as that term is defined in the federal Housing and Community Development Act of 1992, Public Law No. 102-550, Section 933(d) 106 Stat. 3672, 3892 (1992).

9. A high-rate, high-fee mortgage that has a term of less than 5 years may not include terms under which the aggregate amount of the regular periodic payments will not fully amortize the outstanding principal balance.

10. A high-rate, high-fee mortgage may not include terms under which the outstanding principal balance will increase at any time over the course of the loan because the regular periodic payments do not cover the full amount of interest due.

11. A high-rate, high-fee mortgage may not include terms under which more than 2 periodic

payments required under the loan are consolidated and paid in advance from the loan proceeds provided to the consumer.

12. A creditor may not engage in a pattern or practice of extending credit to a consumer under a high-rate, high-fee mortgage based on the consumer's collateral without regard to the consumer's repayment ability, including the consumer's current and expected income, current obligations and employment.

13. A creditor may not make a payment to a contractor under a home improvement contract from amounts extended as credit under a high-rate, high-fee mortgage, except:

A. In the form of an instrument that is payable to the consumer or jointly to the consumer and the contractor; or

B. At the election of the consumer, by a 3rd-party escrow agent in accordance with terms established in a written agreement signed by the consumer, the creditor and the contractor before the date of payment.

14. A mortgage that contains a provision prohibited by this section is deemed a failure to deliver the material disclosures required under this article for the purpose of section 8-204.

15. The administrator may, by rule or order, exempt specific mortgage products or categories of mortgages from any of the prohibitions specified in subsections 6 to 13 if the administrator finds that the exemption:

A. Is in the interest of the borrowing public; and

B. Applies only to products that maintain and strengthen home ownership and equity protection.

16. The administrator, by regulation or order, shall prohibit acts or practices in connection with:

A. Mortgage loans that the administrator finds unfair, deceptive or designed to evade the provisions of this section; and

B. Refinancing of mortgage loans that the administrator finds are associated with abusive lending practices or that are otherwise not in the interest of the borrowing public.

17. For purposes of this section, the term "affiliate" has the same meaning as in the federal Bank Holding Company Act of 1956, 12 United States Code, Section 1841, subsection (K).

§8-206-B. Reverse mortgages

1. In addition to the disclosures required under this article, for each reverse mortgage the creditor shall provide to the consumer, at least 3 days prior to the consummation of the transaction, a disclosure in conspicuous type of a good faith estimate of the projected total cost of the mortgage to the consumer expressed as a table of annual interest rates. Each annual interest rate must be based on a projected total future credit extension balance under a projected appreciation rate for the dwelling and a term for the mortgage. The disclosure must include:

A. Statements of the annual interest rates for at least 3 projected appreciation rates and at least 3 credit transaction periods, as determined by the administrator, including:

- (1) A short-term reverse mortgage;
- (2) A term equaling the actuarial life expectancy of the consumer; and
- (3) Any longer term the administrator determines appropriate; and

B. A statement that the consumer is not obligated to complete the reverse mortgage transaction merely because the consumer has received the disclosure required under this section or has signed an application for the reverse mortgage.

2. In determining the projected total cost of the mortgage to be disclosed to the consumer under subsection 1, the creditor shall take into account:

A. Any shared appreciation or equity that the lender is, by contract, entitled to receive;

B. All costs and charges to the consumer, including the costs of any associated annuity that the consumer elects or is required to purchase as part of the reverse mortgage transaction;

C. All payments to and for the benefit of the consumer including, when an associated annuity is purchased and whether or not that purchase is required by the lender as a condition of making the reverse mortgage, the annuity payments received by the consumer and financed from the proceeds of the loan, instead of the proceeds used to finance the annuity; and

D. Any limitation on the liability of the consumer under reverse mortgage transactions such as nonrecourse limits and equity conservation agreements.

2. Demand for utility records; cause. The Attorney General, a deputy attorney general or a district attorney may demand, in writing, all the records or information in the possession of the public utility relating to the furnishing of public utility services to a person or a location if the attorney has reasonable grounds to believe that the services furnished to a person or to a location by a public utility are being or may be used for, or to further, an unlawful purpose. CHAPTER 333

S.P. 383 - L.D. 1060

An Act to Correct Errors and Inconsistencies with Regard to the Restructuring of Maine Government to Conform with the Provisions of the Texas Compact

Emergency preamble. Whereas, Acts of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

Whereas, this legislation corrects inadvertent errors and inconsistencies in legislation previously enacted to streamline the regulatory functions of the State and alter the regulation of radioactive waste in the State; and

Whereas, the changes would be beneficial to the State if made immediately; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

Be it enacted by the People of the State of Maine as follows:

Sec. 1. 22 MRSA §679-B, sub-§2, as enacted by PL 1993, c. 664, §10, is amended to read:

2. Service fee; ceiling. Except for waste that is exempt in accordance with subsection 4, the department shall assess annually by September 1st each low-level radioactive waste generator a service fee on all low-level radioactive waste generated in this State that is shipped to a low-level radioactive waste disposal facility, stored awaiting disposal at such a facility or stored for any other purpose. The service fee must be based 50% on the volume and 50% on the radioactivity of the waste disposed in a disposal facility in the previous calendar year or placed in storage in the previous calendar year if the State did not have access to a disposal facility for that year, but each generator must be assessed a minimum of \$100 annually. Each generator must pay this service fee within 30 days, except that any generator may choose to make quarterly payments instead. Any radioactive waste for which a service fee was assessed and collected under this section can not be reassessed for the purposes of this section. The radiation control program within the Division of Health Engineering shall adopt rules in accordance with the Maine Administrative Procedure Act concerning the calculation of the fee and the exemptions to the fee, consistent with this section. The revenue from this service fee each year must amount to ~~\$260,000~~ \$135,000 and must be credited to the fund established in subsection 1 and used to carry out the purposes of this section and of Title 38, section 1453-A. If the Advisory Commission on Radioactive Waste, as established in Title 38, section 1453-A is dissolved, the service fee ceiling must be lowered by the amount of the budget of that commission.

Sec. 2. 22 MRSA §679-B, sub-§5, as enacted by PL 1993, c. 664, §10, is amended to read:

5. Allocation from fund. this section. These amounts become available in accordance with Title 5, chapters 141 to 155.

The department may receive and expend federal grants and payments for the purpose of carrying out its duties set out in section 679-A, subsection 2. ~~The money received by the department from federal sources may not be counted toward the ceiling established in subsection 2.~~

Sec. 6. 38 MRSA §§1546 to 1550 are enacted to read:

§1546. Policy and findings

The Legislature declares and finds that there are numerous facilities in the State that generate low-level radioactive waste for commercial, research, medical, educational and defense purposes and that these facilities currently do not have access to a commercial low-level radioactive waste disposal facility. The Legislature further finds that loss of disposal capacity will present economic, environmental and public health and safety risks when existing generators of low-level radioactive waste exhaust on-site storage capacity. It is the purpose of this chapter to:

1. Comply with federal law. Comply with the federal Low-Level Radioactive Waste Policy Amendments Act of 1985, authorizing states to combine in the formation of an interstate compact to provide for the disposal of low-level radioactive waste generated within their borders;

2. Comply with legislative intent. Fulfill the intent of section 1474;

3. Enact an interstate compact. Enact an interstate compact for the disposal of all low-level radioactive waste generated in the State that is not a federal responsibility under the federal Low-Level Radioactive Waste Policy Amendments Act of 1985; and

4. Ensure equitable funding. Ensure that the funding of the compact enacted by this chapter is borne by the generators of this waste.

§1547. Member of commission

The Governor shall appoint a person to represent the State on the commission established by Article III of the Texas Low-Level Radioactive Waste Disposal Compact, referred to in this chapter as the "compact." The Governor may appoint an alternate for the commission member appointed under this section.

§1548. Term of commission member

The commission member serves for a term of 6 years and until a successor is appointed and qualified. If there is a vacancy in the commission member's office, the Governor shall appoint a replacement to fill the unexpired term.

§1549. Compensation of commission member

The commission member is entitled to compensation at the rate established for legislative per diem in Title 5, section 12002 and for reimbursement for actual and necessary expenses incurred in the performance of the commission member's duties. If a state employee is appointed as a commission member, that state employee is not entitled to the legislative per diem.

§1550. Nondiscrimination in access

A generator of low-level radioactive waste in this State that existed on the effective date of this chapter, including any nuclear plant, may not be discriminated against with respect to access to disposal capacity at the compact facility.

Sec. 7. Transition. The Department of Environmental Protection shall transfer to the Department of Human Services all personal property, equipment and files, account balances and any other liabilities and obligations consistent with the support of the Radioactive Waste Advisory Commission. The Department of Environmental Protection must be reimbursed or otherwise made whole by the Radioactive Waste Advisory Commission Fund for any costs associated with the transfer of staffing responsibilities, including but not limited to costs associated with the layoff of staff, the termination of leases and the resolution of any other obligations.

The commissioner shall revoke for a period of 3 years the guide's license of a guide who is convicted of violating a provision of this Part punishable by a mandatory fine of not less than \$1,000 and at least 3 days in jail. The commissioner shall provide notice of revocation as provided in section 7077, subsection 7 section 7077-C. A person whose license has been revoked under this subsection may, within 30 days of the effective date of the revocation, petition the commissioner for a hearing to show cause why the license should not have been revoked. If, after the hearing, the commissioner finds that the person has not been convicted or that the conditions of this subsection do not apply, the revocation is rescinded. If the commissioner finds that the person has been convicted and that the conditions of this subsection apply, the revocation remains in effect.

Sec. 16. 12 MRSA §7907, as enacted by PL 1979, c. 420, §1, is repealed and the following enacted in its place:

§7907. Seizure of fish, wildlife and equipment

1. Seizure; filing libel. All fish or wildlife hunted, trapped, fished, bought, sold, carried, transported or found in possession of any person in violation of chapters 701 to 721, and all equipment, including firearms, possessed or used in violation of chapters 701 to 721 are contraband and subject to seizure by any officer authorized to enforce chapters 701 to 721. Except for property exempted from libel under subsection 2, an officer making such a seizure shall file, within a reasonable time, with the court a libel against that property. The libel must describe the property seized and the date and place of that seizure, cite the provision of law that is alleged to have been violated and request a decree of forfeiture. The libel proceedings and disposal of property are governed by section 7909.

2. Exemption from libel proceedings. The following property may be lawfully seized under this section but is not subject to the libel requirements of this section:

A. Unless reasonable doubt exists as to ownership, property having a value less than \$10;

B. Any firearm seized in connection with a violation of:

(1) Section 7406, subsection 5;

(2) Section 7077, subsection 1-A; or

(3) Section 7077-A;

C. Any fishing equipment that is contraband under this section and is seized in connection with a violation of section 7077, subsection 1-B; and

D. Any fish or wildlife that is contraband under this section and is seized in connection with any violation of chapters 701 to 721.

Property seized by the commissioner that is exempt from libel under this subsection must be retained by the commissioner pending disposition of criminal proceedings and is forfeited to the State upon conviction.

Property forfeited to the State under this section may be disposed of by the commissioner in any manner considered appropriate by the commissioner.

Sec. 17. Application. This Act does not apply to violations that occurred prior to the effective date of this Act.

See title page for effective date.

CHAPTER 347

S.P. 347 - L.D. 952

**An Act to Ensure Consistency
Between State and Federal
Environmental Requirements**

Be it enacted by the People of the State of Maine as follows:

Sec. 1. 38 MRSA §341-D, sub-§1, as amended by PL 1993, c. 328, §1, is further amended to read:

1. Rulemaking. Subject to the Maine Administrative Procedure Act, the board shall adopt, amend or repeal reasonable rules and emergency rules necessary for the interpretation, implementation and enforcement of any provision of law that the department is charged with administering. The board shall also adopt, amend and repeal rules as necessary for the conduct of its business.

The department shall identify in its regulatory agenda, ~~where~~ when feasible, a proposed rule or provision of a proposed rule that is anticipated to be more stringent than the federal ~~standard statute or regulation~~, if an applicable federal ~~standard statute or regulation~~ exists.

During the consideration of any proposed rule by the board, ~~where~~ when feasible, and using information available to it, the department shall identify provisions of the proposed rule that the department believes would impose a regulatory burden more stringent than the burden imposed by the corresponding federal

standard statute or regulation, if such a federal standard statute or regulation exists, and shall explain in a separate section of the basis statement the justification for the difference between the agency rule and the federal standard statute or regulation.

This subsection is repealed January 1, 1998.

Sec. 2. 38 MRSA §341-D, sub-§§1-A and 1-B are enacted to read:

1-A. Stay. Except to the extent the department determines that a proposed rule implements a state law that is more stringent than the corresponding federal statute or regulation, any provision of the proposed rule that is determined by the department to be more stringent than the corresponding federal statute or regulation must be stayed for 60 days following adoption. During this 60-day period, interested persons may petition the board to have the Legislature review those provisions of the proposed rule that have been determined to be more stringent. The filing with the board of petitions from 5 or more interested persons stays the effective date of those provisions of the rule until 60 days after the filing, if the Legislature is then in session. If the Legislature is not then in session and is not scheduled to convene within the next 60 days, then those provisions of the rule that have been determined to be more stringent are stayed for 60 days after filing of the petitions to permit consultation between the legislative committee of jurisdiction, the department and other interested persons. Copies of the petitions that are filed, along with a statement from the department outlining the provisions of the rule that have been determined to be more stringent and the accompanying basis statement, must be submitted by the department to the Executive Director of the Legislative Council pursuant to Title 5, section 8053-A, subsection 3 upon receipt of the petitions. This subsection applies to new rules that are adopted by the board after the effective date of this subsection.

This subsection is repealed January 1, 1998.

1-B. Rulemaking. Subject to the Maine Administrative Procedure Act, the board shall adopt, amend or repeal reasonable rules and emergency rules necessary for the interpretation, implementation and enforcement of any provision of law that the department is charged with administering. The board shall also adopt, amend and repeal rules as necessary for the conduct of its business.

The department shall identify in its regulatory agenda, when feasible, a proposed rule or provision of a proposed rule that is anticipated to be more stringent than the federal standard, if an applicable federal standard exists.

During the consideration of any proposed rule by the board, when feasible, and using information available to it, the department shall identify provisions of the proposed rule that the department believes would impose a regulatory burden more stringent than the burden imposed by the federal standard, if such a federal standard exists, and shall explain in a separate section of the basis statement the justification for the difference between the agency rule and the federal standard.

This subsection takes effect January 1, 1998.

Sec. 3. 38 MRSA §480-H, first ¶, as repealed and replaced by PL 1991, c. 66, Pt. A, §16, is amended to read:

In fulfilling its responsibilities to adopt rules pursuant to section 341-D, ~~subsection 1~~, the board, to the extent practicable, shall adopt performance and use standards for activities regulated by this article. These standards at a minimum must include:

CHAPTER 348

H.P. 894 - L.D. 1247

An Act to Create the Overhead High-voltage Line Safety Act

Be it enacted by the People of the State of Maine as follows:

Sec. 1. 35-A MRSA c. 7-A is enacted to read:

CHAPTER 7-A

OVERHEAD HIGH-VOLTAGE LINE SAFETY ACT

§751. Short title

This Act may be known and cited as the "Overhead High-voltage Line Safety Act."

§752. Definitions

As used in this chapter, unless the context otherwise indicates, the following terms have the following meanings.

1. Covered equipment or items. "Covered equipment or items" means any mechanical equipment, hoisting equipment, antenna or boat mast or rigging, any part of which is capable of vertical, lateral or swinging motion that causes any portion of the equipment or item to come within 10 feet of an overhead high-voltage line during erection, construc-

tion, operation or maintenance, including, but not limited to, equipment such as cranes, derricks, power shovels, backhoes, dump trucks, drilling rigs, pile drivers, excavating equipment, hay loaders, hay stackers, combines, portable grain augers or elevators and items such as ladders, scaffolds, boat masts and outriggers, houses or other structures in transport and gutters, siding and other construction materials.

2. Overhead high-voltage line. "Overhead high-voltage line" means all above-ground bare or insulated electrical conductors of voltage in excess of 600 volts, measured between conductors or measured between a conductor and the ground, that are owned or operated by an electric utility, except those conductors that are:

A. Enclosed in a rigid metallic conduit or flexible armored conduit; or

B. On the premises of mines that are subject to the provisions of the Federal Mine Safety and Health Act of 1977, 30 United States Code, Section 801 and regulations adopted pursuant to that Act by the federal Mine Safety and Health Administration.

3. Person. "Person" means natural person, firm, business association, company, partnership, corporation or other legal entity.

4. Person responsible. "Person responsible" means the person performing or controlling the job or activity that necessitates the precautionary safety measures required by this chapter.

5. Warning sign. "Warning sign" means a weather-resistant sign of not less than 5 inches by 7 inches with at least 2 panels: a signal panel and a message panel. The signal panel must contain the signal word "WARNING" in black lettering and a safety alert symbol consisting of a black triangle with an orange exclamation point, all on an orange background. The message panel must contain the following words, either in black letters on a white background or white letters on a black background: "UNLAWFUL TO OPERATE THIS EQUIPMENT WITHIN 10 FEET OF OVERHEAD HIGH-VOLTAGE LINES - Contact with power lines may result in death or serious burns." A symbol or pictorial panel may also be added. The warning sign language, lettering, style, colors, size and format must meet the requirements of the American National Standard Institute, Standard Z535.4-1991, Product Safety Signs and Labels, or its successors.

§753. Duty and responsibility

It is the duty and responsibility of employers of persons and individuals who use any covered equipment or items, for the benefit of themselves or

others, to acquaint themselves and their employees or agents using the equipment or items or engaged in the work operations or other activities with the provisions of this chapter and the rules prescribed and adopted pursuant to it.

§754. Prohibited activities

The following activities are prohibited until the requirements of sections 756 and 757 are met.

1. Perform work. A person may not individually or through an agent or as an agent or employee perform any work or activity on any land, building, highway or other premises that may cause:

A. A person to be placed within 10 feet of an overhead high-voltage line; or

B. A tool or material used by a person to be brought within 10 feet of an overhead high-voltage line.

2. Erect; construct; operate; maintain; transport; store. A person may not, individually or through an agent or employee or as an agent or employee, erect, construct, operate, maintain, transport or store any covered equipment or item within 10 feet of an overhead high-voltage line, except as allowed in this subsection. The clearance from an overhead high-voltage line may be less than 10 feet but not less than 4 feet for the following covered equipment or items in the following circumstances:

A. A sail boat on high water;

B. Covered equipment lawfully driven or transported on public streets and highways in compliance with the height restriction applicable to that street or highway; or

C. Refuse collection equipment wherever operated.

3. Operate airplane or helicopter. A person may not, individually or through an agent or employee or as an agent or employee, operate or cause to be operated an airplane or helicopter within 20 feet of an overhead high-voltage line, except that no clearance is specified for licensed aerial spray applicators that may incidentally pass within the 20-foot limitation during normal operation.

4. Store. A person may not, individually or through an agent or employee or as an agent or employee, store or cause to be stored, underneath or in proximity to an overhead high-voltage line, any materials that are expected to be moved or handled by covered equipment in a manner that could bring the materials or the covered equipment within 10 feet of an overhead high-voltage line.

5. Provide additional clearance. A person may not, individually or through an agent or employee or as an agent or employee, provide or cause to be provided additional clearance by:

A. Raising, moving or displacing an overhead utility line of any type or nature, including high-voltage, low-voltage, telephone, cable television, fire alarm or other line; or

B. Pulling or pushing a pole, guy or other structural appurtenance.

§755. Clearance reduced

If the overhead high-voltage line is covered with a mechanical barrier, in accordance with section 758, the required clearance under section 754, subsections 1 and 2 may be reduced to the designed working dimensions of the mechanical barrier. If the line is de-energized and grounded, in accordance with section 758, subsection 5, the required clearance under section 754, subsections 1 and 2 is reduced from 10 feet to 2 feet. Under no circumstances may the overhead high-voltage line or its covering be contacted. If the overhead high-voltage lines are temporarily raised or moved to accommodate the expected work or other activity, without also being insulated or de-energized and grounded, the required clearance under section 754, subsections 1 and 2 may not be reduced.

§756. Warning signs

A person may not, individually or through an agent or employee or as an agent or employee, operate covered equipment in the proximity of an overhead high-voltage line unless there are posted and maintained warning signs as follows:

1. In covered equipment. A sign must be located in the covered equipment and readily visible and legible to the operator of the covered equipment when at the controls of the covered equipment; and

2. Outside covered equipment. Signs must be located on the outside of covered equipment in numbers and locations that are readily visible and legible at a distance of 12 feet by people engaged in the work operations.

§757. Notification

1. Notification. When a person is going to carry on any work or activity in closer proximity to an overhead high-voltage line than permitted by this chapter, the person responsible for the work or activity must notify the owner or operator of the overhead high-voltage line prior to the time the work or activity is to be commenced. Notification must be at least 72 hours in advance of the work or activity, excluding Saturday, Sunday and legal state and federal holidays,

except in emergency situations that include police, fire and rescue emergencies, in which case notification must be made as soon as possible. When the person responsible for the work activity is under contract or agreement with a government entity and the government entity and the owner or operator of the overhead high-voltage lines have already made satisfactory mutual arrangements, further arrangements for that particular activity are not required.

2. Information. A notice served by a person on an owner or operator of an overhead high-voltage line pursuant to this section must contain the following information:

A. The name of the individual serving the notice;

B. The location of the proposed work or activity;

C. The name, address and telephone number of the person responsible for the work or activity;

D. The field telephone number at the site of the work or activity, if one is available;

E. The type and extent of the proposed work or activity;

F. The name of the person for whom the proposed work or activity is being performed;

G. The time and date of the notice; and

H. The date and time when the work or activity is to begin.

3. Telephone notification. If the notification required by this section is made by telephone, a record of the notification must be maintained by the owner or operator of the overhead high-voltage line and by the person giving the notice to document compliance with the requirements of this section.

4. Address and telephone. To facilitate the notification required by this section, every owner or operator of overhead high-voltage lines that does not participate in an association for mutual receipt of notification of activities close to overhead high-voltage lines shall file with the commission the addresses and telephone numbers of the contact persons or offices of the owner or operator of overhead high-voltage lines in the State to whom all notifications concerning proposed work in the service territory of the owner or operator is directed. The information must be maintained by the commission in a manner determined by the commission.

5. Form association. Owners or operators of overhead high-voltage lines may form and operate an association providing for mutual receipt of notification

of activities close to overhead high-voltage lines in a specified area. In areas where an association is formed, the following must occur:

A. Notification of work activities to the association must be effected as set forth in this section;

B. Owners or operators of overhead high-voltage lines in the area:

(1) May become members of the association;

(2) May participate in and receive the services furnished by the association; and

(3) Shall pay their proportionate share of the cost for the services furnished;

C. The association whose members or participants have overhead high-voltage lines within the State shall file a list containing the name, address and telephone number of each owner or operator of overhead high-voltage lines within the area of an association with the commission; and

D. If notification is made by telephone, record must be maintained by the association to document compliance with the requirements of this section.

§758. Precautionary safety arrangements

1. Precautionary safety arrangements. Installation or performance of precautionary safety arrangements must be performed by the owner or operator of overhead high-voltage lines only after mutually satisfactory arrangements are negotiated between the owner or the operator of the overhead high-voltage lines and the person responsible for the work or activity to be done. The negotiations must proceed promptly and in good faith with the goal of accommodating the work or activity consistent with the owner's or operator's service needs and the intent to protect the public from the danger of contact with overhead high-voltage lines.

2. Appropriate for work. The precautionary safety measures must be appropriate for the work or activity for which the owner or operator of overhead high-voltage lines has received notification. During negotiations, the person responsible for the work or activity may change the notification of intended activities to include different or limited work or activities so as to reduce the precautionary safety measures required to accommodate the work or activities. The precautionary safety measures may not violate the requirements of the National Electrical Safety Code.

3. Agreement for payment. Agreements for payments of the costs of precautionary safety measures are governed by the following provisions.

A. If the owner or operator of the overhead high-voltage line has standard rates that apply to the provision of precautionary safety arrangements, the owner or operator of the overhead high-voltage line is not required to provide precautionary safety measures until payment has been made by the person requesting the safety measures or an agreement for payment has been reached.

B. If the owner or operator of the overhead high-voltage line does not have standard rates, the owner or operator of the overhead high-voltage lines is not required to provide the precautionary safety arrangements until an agreement for payment has been made, except that, if there is a dispute over the amount to be charged by the owner or operator of the overhead high-voltage lines for providing the arrangements, the owner or operator shall commence providing precautionary safety measures as if an agreement had been reached. If an agreement for payment has not been reached within 14 days from the completion of precautionary safety measures, the owner or operator and the person or business entity responsible for the work activities shall resolve the dispute by arbitration or other legal means.

4. Initiate; timely fashion. Unless otherwise agreed, the owner or operator of the overhead high-voltage lines shall initiate the agreed upon precautionary safety arrangements within 3 working days after the date of agreement for payment, if required, has been reached or within 5 working days of notice that the work activity is being done without an agreement. Once initiated, the owner or operator of the overhead high-voltage lines shall complete the work promptly and without interruption, consistent with the owner's or operator's service needs. If the owner or operator of the overhead high-voltage lines fails to provide the agreed upon precautionary safety arrangements within the period agreed upon, the owner or operator of the overhead high-voltage lines is liable for costs or loss of production of the person or business entity requesting the precautionary safety arrangements in order to work in proximity to overhead high-voltage lines, except that no liability exists during times of emergency, such as storm repair.

5. Inclusion. Precautionary safety arrangements may include:

A. Placement of temporary mechanical barriers separating and preventing contact between ma-

terial, equipment or persons and overhead high-voltage lines;

B. Temporary de-energization and grounding;

C. Temporary relocation or raising of the overhead high-voltage lines; or

D. Any other measures that are appropriate in the judgment of the owner or operator of the overhead high-voltage lines.

6. Expense. The actual expense incurred by an owner or operator of overhead high-voltage lines in taking precautionary measures, including wages of its workers involved in making safety arrangements, must be paid by the person responsible for the work or activity to be done except when:

A. Prior arrangements for payment are made between a government entity for whom the work is to be done and the owner or operator of the overhead high-voltage line; or

B. The owner or operator of the overhead high-voltage line has not installed the overhead high-voltage line in conformance with the applicable edition of the National Electrical Safety Code. If the overhead high-voltage line is not installed in conformance with the applicable edition of the National Electrical Safety Code, the liability of the person responsible for the work or activity is limited to the amount required to accommodate the work or activity minus the amount required to bring the installation into compliance with the National Electrical Safety Code.

§759. Enforcement

The provisions of this chapter are considered safety and health standards of the State. A person who causes, permits or allows work or other activity in violation of the provisions of this chapter may be assessed a civil penalty not exceeding \$1,000 for each day the violation continues.

Civil penalties may be recovered in a civil action in the name of the State brought in the Superior Court for the county where the violation is alleged to have occurred or where the violator resides or has its principal office. Interest accrues on the penalties at a rate of 1 1/2% per month except that the interest is suspended during the pendency of an appeal.

§760. Indemnification

A person is liable to the owner or operator of the overhead high-voltage line and 3rd parties, if any, for all damages to facilities, injuries to persons and all costs, expenses and liabilities incurred by the owner or operator of the overhead high-voltage lines and 3rd parties, if any, as a result of any contact with an

overhead high-voltage line if the person causes, permits or allows any work or activity in violation of a provision of this chapter and, as a result, a physical or electrical contact with an overhead high-voltage line occurs.

§761. Exemptions

1. Overhead electrical; communication circuits; conductors. This chapter does not apply to any person while engaged in the construction, reconstruction, operation and maintenance of overhead electrical or communication circuits or conductors and their supporting structures and associated equipment, if the person is an employee of the owner or operator of the overhead electrical or communication circuits or conductors or an independent contractor engaged on behalf of the owner or operator of the overhead electrical or communication circuits or conductors, including, but not limited to, employees of and independent contractors working for the following:

A. Any business operating rail transportation systems;

B. Any business operating electrical generating, transmission or distribution systems;

C. Any business operating communication systems; or

D. Any business operating cable television systems.

2. Agricultural activities. The provisions of sections 756 and 757 do not apply to a person operating agricultural equipment for agricultural purposes. If the equipment is likely to be routinely brought within 10 feet of an overhead high-voltage line, the owner or operator of the equipment must in each calendar year, prior to using the equipment, provide the owner or operator of the high-voltage line with the information required in section 757, subsection 2.

3. Water and sewer system operators. This chapter does not apply to any employee or independent contractor engaged on behalf of:

A. A water utility;

B. A sewer district or sanitary district; or

C. A municipal sewer department.

See title page for effective date.

CHAPTER 349

H.P. 997 - L.D. 1407

**An Act to Establish Safety Standards
for All Utility Facilities**

Be it enacted by the People of the State of Maine as follows:

Sec. 1. 35-A MRSA §2305, sub-§1, as enacted by PL 1987, c. 141, Pt. A, §6, is repealed.

Sec. 2. 35-A MRSA §2305, last ¶, as enacted by PL 1993, c. 18, §2, is amended to read:

An electric utility may not provide electricity for any line in, upon, along or under roads, streets and public ways maintained by a municipality if the lines or poles were constructed by a person other than an electric utility, unless the electric utility is provided with certified copies of the findings by the applicable licensing authority of compliance with ~~subsections 4 and~~ subsection 2 and the commission's findings pursuant to subsection 3.

Sec. 3. 35-A MRSA §2305-A is enacted to read:

§2305-A. Electric utilities, telephone utilities and cable television companies to conform to standards

1. Definitions. As used in this section, unless the context otherwise indicates, the following terms have the following meanings.

A. "Cable television company" has the same meaning as in Title 30-A, section 2001.

B. "Most recent edition of the Standard" means the 1993 edition or any subsequent edition of the Standard adopted by the commission pursuant to this section.

C. "Standard" means the National Electrical Safety Code (NESC)-ANSI-C2.

2. Applicable national standard. Except as otherwise provided in this section or by rule of the commission adopted pursuant to this section, every electric utility, telephone utility and cable television company shall design, construct, operate and maintain its lines and equipment in conformance with the applicable provisions of the most recent edition of the Standard.

3. Review of standards by commission. Whenever a new or revised edition of the Standard is published, an electric utility, telephone utility or cable television company may request the commission to

hold a hearing on whether the new or revised Standard should be adopted.

A. If a hearing is requested within 120 days of the publication of the new or revised Standard, the commission shall hold a hearing and shall either adopt the new or revised Standard or, pursuant to subsection 4, amend or reject the new or revised Standard. If a hearing is requested and held under this paragraph, the new or revised Standard does not go into effect in any form except as expressly provided by the commission in its order.

B. If a hearing is not requested within 120 days of the publication of the new or revised Standard, the commission is deemed to have adopted the new or revised Standard effective on the 180th day after publication. Existing facilities that meet the requirements of the previously applicable Standard but which do not meet the requirements of the new or revised Standard may remain in noncompliance only if grandfathered under the new edition.

4. Modifications, deletions and waivers to Standard. The commission may, at its discretion and after appropriate hearing, modify, delete or waive individual requirements of the Standard. The commission may make a modification or deletion or grant a waiver of a national standard of practice contained in the Standard only if it finds one of the following:

A. Other measures achieving equivalent levels of safety will be substituted for the modified, deleted or waived national standard; or

B. The national standard is not applicable or is unduly burdensome for the level of safety achieved under local conditions.

Modifications, deletions or waivers of individual requirements of the Standard remain in force until the next edition of the Standard is adopted by the commission pursuant to subsection 3 or the modification, deletion or waiver is repealed by the commission, whichever occurs first.

Pursuant to subsection 3, paragraph A, an electric utility, telephone utility or cable television company may petition the commission to continue approved modifications, deletions or waivers under a new or revised Standard. Unless the commission reaffirms a modification, deletion or waiver in its order adopting a new or revised Standard, a modification, deletion or waiver is deemed repealed on adoption of the new or revised Standard.

5. Additional safety measures. The commission may, at its discretion and after appropriate

hearing, require safety measures in addition to those required by the Standard. An additional requirement remains in force for 10 years from its effective date unless the commission:

A. Repeals the requirement; or

B. Reaffirms the requirement by order. Each reaffirmation must occur within 10 years of the original effective date of the requirement or within 10 years of the last affirmation.

See title page for effective date.

CHAPTER 350

H.P. 287 - L.D. 391

An Act to Increase Access to Chiropractor Care under Health Maintenance Organization Managed Care Plans

**Be it enacted by the People of the State of
Maine as follows:**

Sec. 1. 24-A MRSA §4236, sub-§3 is enacted to read:

3. Self-referrals for chiropractic care. A health maintenance organization must provide benefits to an enrollee who utilizes the services of a chiropractic provider by self-referral under the following conditions.

A. An enrollee may utilize the services of a participating chiropractic provider within the enrollee's health maintenance organization for 3 weeks or a maximum of 12 visits, whichever occurs first, of acute care treatment without the prior approval of a primary care provider of the health maintenance organization. For purposes of this subsection, "acute care treatment" means treatment for accidental bodily injury or sudden, severe pain that affects the ability of the enrollee to engage in the normal activities, duties or responsibilities of daily living.

B. Within 3 working days of the first consultation, the participating chiropractic provider shall send to the primary care provider a report containing the enrollee's complaint, related history, examination, initial diagnosis and treatment plan. If the chiropractic provider fails to send a report to the primary care provider within 3 working days, the health maintenance organization is not obligated to provide benefits for chiropractic care and the enrollee is not liable to the chiropractic provider for any unpaid fees.

C. If the enrollee and the participating chiropractic provider determine that the condition of the enrollee has not improved after 3 weeks of treatment or a maximum of 12 visits the participating chiropractic provider shall discontinue treatment and refer the enrollee to the primary care provider.

D. If the chiropractic provider recommends treatment beyond 3 weeks or a maximum of 12 visits, the participating chiropractic provider shall send to the primary care provider a report containing information on the enrollee's progress and outlining a treatment plan for extended chiropractic care of up to 5 more weeks or a maximum of 12 more visits, whichever occurs first.

E. Without the approval of the primary care provider, an enrollee may not receive benefits for more than 36 visits to a participating chiropractic provider in a 12-month period. After a maximum of 36 visits, an enrollee's continuing chiropractic treatment must be authorized by the primary care provider.

In the provision of chiropractic services under this subsection, a participating chiropractic provider is liable for a professional diagnosis of a mental or physical condition that has resulted or may result in the chiropractic provider performing duties in a manner that endangers the health or safety of an enrollee.

The provisions of this subsection apply to all health maintenance organization contracts, except a contract between a health maintenance organization and the State Employee Health Insurance Program.

This subsection takes effect January 1, 1996 and is repealed March 1, 1998.

See title page for effective date.

CHAPTER 351

H.P. 1019 - L.D. 1434

Maine as follows:**

Sec. 1. 7 MRSA §3907, sub-§22-B is enacted to read:

22-B. Pet. "Pet" means a dog, cat or other domesticated animal commonly kept in a household, but does not include tamed animals that are ordinarily considered wild animals.

Sec. 2. 7 MRSA §3962-A, as enacted by PL 1993, c. 468, §19, is repealed and the following enacted in its place:

§3962-A. Penalty for damage to livestock or pets by dogs

1. Violation. Except as provided in subsection 3, the owner or keeper of a dog that kills or injures livestock, poultry, domestic rabbits or pets commits a civil violation for which a forfeiture not to exceed \$100 may be adjudged in addition to costs.

2. Additional remedy. A person who suffers damage as a result of a violation of subsection 1 may also pursue a civil action against the owner or keeper of the dog pursuant to section 3961.

3. Exception. If the owner or keeper of a dog that kills or injures another dog establishes that the dog that was killed or injured provoked the killing or injury or that the dog that committed the killing or injury was leashed or controlled on the owner's or keeper's property at the time of the killing or injury, then the owner or keeper is not liable under this section or section 3961.

Sec. 3. 7 MRSA §3963, as enacted by PL 1987, c. 383, §3, is amended to read:

A law enforcement officer making a warrantless arrest under Title 17-A, section 15 may, without fee, take the personal recognizance of any defendant for appearance on a charge of a Class D or Class E crime. If authorized, a law enforcement officer may, without fee, take the personal recognizance with deposit in accordance with Title 12, section 675; Title 12, section 7053, subsection 2, paragraph C; and Title 12, section 9707. The law enforcement officer's authority under this section continues as long as the arrestee remains in the officer's custody.

Sec. 5. 15 MRSA §1026, sub-§7 is enacted to read:

7. Applicability of conditions of release. A condition of release takes effect and is fully enforceable as of the time the judicial officer sets the condition, unless the bail order expressly excludes it from immediate applicability.

Sec. 6. 15 MRSA §1027, sub-§§2 and 3, as enacted by PL 1987, c. 758, §20, are amended to read:

2. Harnish bail proceeding. A Harnish bail proceeding ~~shall~~ must be held within 5 court days of the State's request unless the court, for good cause shown and at the request of either the defendant or the

attorney for the State, grants a continuance. Evidence presented at a Harnish bail proceeding may include testimony, affidavits and other reliable hearsay evidence as permitted by the court. If, after the hearing, the court finds probable cause to believe that the defendant has committed a formerly capital offense, it shall issue an order under subsection 3. If, after the hearing, the court does not find probable cause to believe that the defendant's alleged criminal conduct was formerly a capital offense, it shall issue an order under section 1026 and may amend its bail order as provided under section 1026, subsection 3, paragraph C.

3. When conditional right has been extinguished at Harnish bail proceeding. The court's finding that probable cause exists to believe that the defendant committed a formerly capital offense extinguishes the defendant's right to have bail set. The court shall make a determination as to whether or not the setting of bail is appropriate as a matter of discretion. The court may set bail unless the State establishes by clear and convincing evidence that:

- A. There is a substantial risk that the capital defendant will not appear as required or will otherwise pose a substantial risk to the integrity of the judicial process; or
- B. There is a substantial risk that the capital defendant will pose a danger to another or to the community.

In exercising its discretion, the court shall consider the factors listed in section 1026 and any prior history of dangerousness. The court may amend any bail order as provided under section 1026, subsection 3, paragraph C. If the court has issued a bail order on the basis of its discretionary authority to set bail in a case involving a formerly capital offense, the court having jurisdiction of the case may modify or deny bail at any time upon motion by the attorney for the State or the defendant or upon its own initiative and upon a showing of changed circumstances or the discovery of new and significant information.

The judge or justice may enter an order for bail pending appeal before a notice of appeal is filed, but conditioned upon its timely filing.

Every order for post-conviction release of a defendant ~~shall~~ must include a waiver of extradition by the defendant as well as a condition of bail that the defendant refrain from criminal conduct.

Sec. 9. 15 MRSA §1051, sub-§3, as enacted by PL 1987, c. 758, §20, is amended to read:

3. Conditions of release. Except as provided in subsection 4, the judge or justice may impose, in lieu of or in addition to an appearance or bail bond, any condition considered reasonably necessary to mini-

mize the risk of flight or danger that the defendant may fail to appear as required, may compromise the integrity of the judicial process or may constitute a danger to another person or the community.

§1073. Termination of surety or cash bail agreement

~~Any A~~ person who has agreed either to act as surety or to deposit cash bail for a defendant who has been admitted to preconviction bail may terminate the agreement by appearing before the clerk of the court having jurisdiction over the offense with which the defendant is charged and executing a statement under oath terminating the ~~surety~~ agreement. The statement ~~shall must~~ include a certification by the ~~surety~~ person that the ~~surety~~ person has notified the defendant or the defendant's attorney of the ~~surety's~~ person's intention to terminate the ~~surety~~ agreement. It is an affirmative defense that the violation resulted from just cause.

Sec. 18. 15 MRSA §1093, as amended by PL 1991, c. 393, §3, is repealed.

Sec. 19. 15 MRSA c. 105-A, sub-c. V, art. 2 and 3 are enacted to read:

ARTICLE 2

REVOCATION OF PRECONVICTION BAIL

§1095. Proceedings for revocation of preconviction bail

1. In general. The attorney for the State, or the court on its own motion, may move for the revocation of a defendant's preconviction bail based upon probable cause to believe that the defendant has failed to appear as required, has violated a condition of preconviction bail or has been charged with a crime allegedly committed while released on preconviction bail. The motion must set forth the essential facts underlying the alleged violation. If the defendant has not already been arrested pursuant to subsection 2, the clerk of the court shall issue, upon the request of the attorney for the State or by direction of the court, a warrant for the defendant's arrest or, in lieu of a warrant if so directed, a summons ordering the defendant to appear for a court hearing on the alleged violation. The summons must include the signature of the attorney for the State or the court, the time and place of the alleged violation and the time, place and date the person is to appear in court. If the defendant can not be located with due diligence, a hearing on the motion for revocation must be heard in the defendant's absence.

2. Arrest. A law enforcement officer may arrest with a warrant, or without a warrant pursuant to Title 17-A, section 15, any defendant who the law enforcement officer has probable cause to believe has failed to appear as required, has violated a condition of preconviction bail or has been charged with a crime allegedly committed while released on preconviction bail. If the defendant is charged with new criminal conduct, a bail commissioner is authorized only to set bail for the new crimes in accordance with this chapter. A defendant under arrest pursuant to subsection 1 or this subsection must be brought before any judge or justice of the appropriate court. The judge or justice shall determine without hearing whether the existing preconviction bail order should be modified or whether the defendant should be committed without bail pending the bail revocation

hearing. A copy of the motion for revocation must be furnished to the defendant prior to the hearing on the alleged violation, unless the hearing must be conducted in the absence of the defendant.

§1096. Grounds for revocation of preconviction bail

An order of preconviction bail entered by a judge or justice may be revoked by the judge or justice or, if that judge or justice is not available, by another judge or justice of the same court, upon a determination made after notice and opportunity for hearing that:

1. Probable cause. Probable cause exists to believe that the defendant has committed a new crime following the setting of preconviction bail; or

2. Clear and convincing evidence. Clear and convincing evidence exists that the defendant has failed to appear as required or has violated any other condition of the preconviction bail.

§1097. Disposition after revocation of preconviction bail

1. Setting of new bail. If, after considering the factors in subsection 2, the judge or justice finds that there are conditions of release that will reasonably ensure the defendant's appearance when required and will otherwise reasonably ensure the integrity of the judicial process, the judge or justice shall issue an order under section 1026.

2. Denial of bail. In deciding whether to hold the defendant without bail, the judge or justice shall consider whether there are conditions of release that reasonably ensure the defendant's appearance when required and otherwise reasonably ensure the integrity of the judicial process. In this weighing process, the commission of a new crime, in the event that it is not found to otherwise increase the risk posed by the defendant to the integrity of the judicial process, must be treated by the judge or justice as increasing the risk that the defendant will fail to appear when required. The judge or justice shall also consider whether there is an unreasonable risk that the defendant may fail to comply with any condition of release.

3. Appeal. A defendant in custody as a result of an order issued under this section by the District Court may appeal to the Superior Court and a defendant in custody as a result of an order issued under this section by the Superior Court may appeal to a single Justice of the Supreme Judicial Court. The appeal must be in accordance with the procedures set forth in section 1028, as far as applicable, except that the review is limited to a review of the record to determine whether the order was rationally supported by the evidence.

4. No new bail consideration when bail has been revoked and denied in District Court. When a District Court judge has, after revocation, ordered the defendant held without bail, the defendant is not entitled to have bail set when charges are brought by indictment for the same underlying conduct. If the defendant has not previously appealed the District Court bail revocation, the Superior Court may, upon request of the defendant, entertain the appeal at the defendant's arraignment.

ARTICLE 3

REVOCATION OF POST-CONVICTION BAIL

§1098. Proceedings for revocation of post-conviction bail

1. In general. The attorney for the State, or the court on its own motion, may move for the revocation of a defendant's post-conviction bail based upon probable cause to believe that the defendant has failed to appear as required, has violated a condition of post-conviction bail or has been charged with a crime allegedly committed while released on post-conviction bail. The motion must set forth the essential facts underlying the alleged violation. If the defendant has not already been arrested pursuant to subsection 2, the clerk of the court shall issue, upon the request of the attorney for the State or by the direction of the court, a warrant for the defendant's arrest or, in lieu of a warrant if so directed, a summons ordering the defendant to appear for a court hearing on the alleged violation. The summons must include the signature of the attorney for the State or the court, the time and place of the alleged violation and the time, place and date the person is to appear in court. If the defendant can not be located with due diligence, a hearing on the motion for revocation must be heard in the defendant's absence.

2. Arrest. A law enforcement officer may arrest with a warrant, or without a warrant pursuant to Title 17-A, section 15, any defendant who the law enforcement officer has probable cause to believe has failed to appear as required, violated a condition of post-conviction bail or been charged with a crime allegedly committed while released on post-conviction bail. If the defendant is charged with new criminal conduct, a bail commissioner is authorized only to set bail for the new crimes in accordance with this chapter. A defendant under arrest pursuant to this subsection must be brought before a judge or justice of the appropriate court. The judge or justice shall determine without hearing whether the existing post-conviction bail order should be modified or the defendant should be committed without bail pending the bail revocation hearing. A copy of the motion for revocation must be furnished to the defendant prior to

the hearing on the alleged violation, unless the hearing must be conducted in the absence of the defendant.

§1099. Grounds for revocation of post-conviction bail

An order of post-conviction bail entered by a judge or justice may be revoked by the judge or justice or, if that judge or justice is not available, by another judge or justice of the same court, upon determination made after notice and opportunity for hearing that:

1. Crime charged. The defendant has in fact been charged with a crime allegedly committed after post-conviction bail was set;

2. Failure to appear. The defendant has failed to appear as required or has violated a condition of post-conviction bail as demonstrated by a preponderance of the evidence; or

3. Appeal for purposes of delay. The defendant's appeal has been taken for the purpose of delay as demonstrated by a preponderance of the evidence.

§1099-A. Disposition after revocation of post-conviction bail

1. Held without bail. The judge or justice shall order the defendant held without bail unless the judge or justice finds that under the facts of the case it would be unreasonable to do so, in which event the judge or justice shall issue an order under section 1051.

2. Appeal. A defendant in custody as a result of an order issued under this section may appeal to a single Justice of the Supreme Judicial Court who shall review the revocation pursuant to the procedures set forth in section 1051, subsection 5.

Sec. 20. 17-A MRSA §15, sub-§1, ¶A, as amended by PL 1993, c. 475, §3, is further amended to read:

A. Any person who the officer has probable cause to believe has committed or is committing:

- (1) Murder;
- (2) Any Class A, Class B or Class C crime;
- (3) Assault while hunting;
- (4) Any offense defined in chapter 45;
- (5) Assault, criminal threatening or terrorizing, if the officer reasonably believes that the person may cause injury to others unless immediately arrested;

members, as defined in Title 15, section 321;

(6) Theft as defined in section 357, when the value of the services is \$1,000 or less, if the officer reasonably believes that the person will not be apprehended unless immediately arrested;

(8) Negotiating a worthless instrument, if the officer reasonably believes that the person will not be apprehended unless immediately arrested;

(9) A violation of a condition of probation when requested by an official of the Division of Probation and Parole;

(10) Violation of a condition of release in violation of Title 15, section 1026, subsection 3; Title 15, section 1027, subsection 3; Title 15, section 1051, ~~subsections 2 and 9~~ subsection 2; and Title 15, section 1092;

(11) Theft involving a detention under Title 17, section 3521;

The commission may certify transactions as not requiring authorization, either by rule or order.

Sec. 2. 35-A MRSA §1304, sub-§6 is enacted to read:

6. Commission authorized to waive public hearing. Unless one or more parties request a public hearing, the commission may waive the requirement for a public hearing under any provision of this Title.

The commission may also waive the 2-month notice required in subsection 2. If the commission does not respond to a request for waiver within 30 days, the request is deemed to have been granted. The commission shall prescribe by rule the content of a request for waiver and procedures for the expeditious processing of the request in certain circumstances.~~

Sec. 5. 35-A MRSA §3133, sub-§11 is enacted to read:

The commission may waive the notice and approval requirements of this section on its own motion or upon request of any party except that the commission may not waive the approval requirements if the purchase or fuel conversion involves generating capacity that exceeds either 5% of the installed capacity of the utility or 30 megawatts of capacity. The commission shall rule on a request for a waiver within 60 days. Prior to considering a waiver, the commission shall ensure that notice by mail has been sent, and an opportunity to be heard permitted, to persons who

The commission may also waive the 2-month notice requirement in subsection 1. If the commission does not respond to a request for waiver within 30 days, the request is deemed to have been granted. Constitution of Maine, Article IV, Part First, Section 2; Article IV, Part Second, Section 2; Article IV, Part Third, Section 1-A; and this section. When reapportioning districts, where possible, the Legislative Apportionment Commission shall attempt to form functionally contiguous and compact territories. For purposes of this section, a "functionally contiguous and compact territory" is one that facilitates representation by minimizing impediments to travel within the district. Impediments to travel include, but are not limited to, physical features such as mountains, rivers, oceans and discontinued roads or lack of roads. The commission shall recognize that all political subdivision boundaries are not of equal importance and give weight to the interests of local communities when making district boundary decisions.

When the Supreme Judicial Court is required to make the apportionment, it is bound by this section.

~~B. An applicant is in substantial compliance when the commissioner finds, considering all the relevant circumstances, including but not limited to all reasons for noncompliance submitted by the applicant pursuant to paragraph A, that the following requirements are substantially met:~~

~~(1) The compliance schedule, in section 563 A, for nonconforming facilities except that those facilities or tanks required to be removed by October 1, 1989, have until October 1, 1990, to be removed before they are considered out of compliance;~~

~~(d) Monitoring of cathodic protection systems;~~

~~(e) Testing requirements for tanks and piping on evidence of a leak;~~

~~(f) Maintenance of a leak detection system; and~~

~~(g) Reporting leaks.~~

~~The burden of proof is on the department to show a lack of substantial compliance. The commissioner shall make written findings of fact when making a determination under this paragraph. These findings are subject to appeal to the Fund Insurance Review Board as provided in subsection 3 A.~~

~~The requirements in subparagraphs (1) to (6) do not apply to owners or operators of aboveground oil storage facilities. The Fund Insurance Review Board shall develop, in consultation with the State Fire Marshal, the documentation requirements for claims submitted by owners of aboveground oil storage facilities.~~

~~A finding of lack of substantial compliance does not render an applicant ineligible for coverage by the fund for any future occurrence, if the applicant is in substantial compliance at the time of the future application.~~

B-1. An applicant is not eligible for coverage for any discharge discovered on or before April 1, 1990.

C. The facility for which the applicant is applying for coverage is not ~~An applicant is not eligible for coverage for any discharge from a facility owned or operated by the Federal Government.~~

F. Within 15 working days of receipt of a request under paragraph A, the commissioner in the case of an underground oil storage facility or the State Fire Marshal in the case of an above-ground oil storage facility shall determine whether the request is complete. Failure to inform the applicant of the determination of completeness within 15 working days constitutes acceptance as complete. If the application is not accepted, the commissioner or State Fire Marshal shall return the application to the applicant with the reasons for nonacceptance specified in writing. Within 90 days of receipt of an applicant's completed request for coverage by the fund submitted pursuant to this subsection, the commissioner or State Fire Marshal shall issue an order determining eligibility and, if the applicant is eligible, specifying the amount of the deductible under subsection 2. Failure to issue an order within this period constitutes a determination that the applicant is eligible, subject to the deductibles in subsection 2, paragraph A.

G. When the commissioner determines that a site previously remediated to the commissioner's satisfaction requires further remediation, the owner or operator of the site may apply for coverage of eligible clean-up costs and 3rd-party damage claims from the fund, notwithstanding the person's failure to meet the 180-day deadline described in paragraph A.

H. The Fund Insurance Review Board shall develop, in consultation with the State Fire Marshal, the documentation requirements for claims submitted under this section by owners of aboveground oil storage facilities.

CHAPTER 363

H.P. 147 - L.D. 195

An Act to Protect the Rights of Maine State Retirement System Employees

Emergency preamble. Whereas, Acts of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

Whereas, the employment status and rights of employees of the Maine State Retirement System who were transferred to the Maine State Retirement System as a public instrumentality under the provisions of Public Law 1993, chapter 410, Part L, section 47, are due to change as of the end of the transfer period on June 30, 1995; and

Whereas, an extension of certain rights beyond the transfer period meets the needs and interests of these employees; and

Whereas, the obligation of the Maine State Retirement System to fund for the actuarial liabilities associated with these employees as state employees and as employees of the system as a public instrumentality needs to be addressed; and

Whereas, the clarification set out in this legislation must be effective upon the expiration of the transfer period of June 30, 1995; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

Be it enacted by the People of the State of Maine as follows:

Sec. 1. 5 MRSA §18253, sub-§1, ¶D, as enacted by PL 1993, c. 410, Pt. L, §43, is amended to read:

D. For the purposes of this subsection, an employee of the Maine State Retirement System who is a member on January 1, 1994 is considered to be reemployed with a new employer. If an employee returns to state service ~~within 2 years of January 1, 1994~~ during the period that begins on July 1, 1995 and ends 180 days after the date upon which the initial collective bargaining agreement between the Maine State Retirement System and the collective bargaining agent that represents the employees of the system becomes effective, all funds transferred to the account of the Maine State Retirement System as the new employer on behalf of the employee from the State's account must be returned to the State's account. For the purpose of service, breaks in service and benefit accruals, the employee must be treated as if the employee had remained in state service throughout the period in question. For purposes of this paragraph, "becomes effective" means that the collective

bargaining agreement has been signed and ratified by both parties and approved by the Legislature as provided by section 17103, subsection 14.

Sec. 2. PL 1993, c. 410, Pt. L, §47, sub-§5-A is enacted to read:

5-A. Transferred employees' rights with respect to return to state service after transfer period ends. Beginning July 1, 1995 and continuing until 180 days after the date upon which the initial collective bargaining agreement between the Maine State Retirement System and the collective bargaining agent that represents the employees of the system becomes effective, those employees of the system on the effective date of this subsection who were employed at the system on July 1, 1993 and were transferred under the provisions of subsection 5 are entitled to apply and be considered for positions in state service as if they were state employees and they retain all applicable seniority rights and privileges and all other rights and privileges with respect to seeking and returning to employment in state service. For purposes of this subsection, "becomes effective" means that the collective bargaining agreement has been signed and ratified by both parties and approved by the Legislature as provided by the Maine Revised Statutes, Title 5, section 17103, subsection 14. Upon reemployment with the State, these employees must be treated as if they had remained in state service from June 30, 1993 to the date of reemployment. The period from June 30, 1993 to the date of reemployment does not constitute a break in service and counts as state service for purposes of seniority. Membership in the Maine State Retirement System for employees who return to state service in accordance with this section is governed by Title 5, section 18253, subsection 1, paragraph D.

Emergency clause. In view of the emergency cited in the preamble, this Act takes effect July 1, 1995.

Effective July 1, 1995.

CHAPTER 365

H.P. 1036 - L.D. 1455

An Act Requiring Mobile Home Park Operators to Notify Lienholders Prior to Eviction

Be it enacted by the People of the State of Maine as follows:

Sec. 1. 10 MRSA §9093, sub-§4 is enacted to read:

4. Rental payments. A mobile home park owner or operator may establish a park rule to require that all rental payments and other fees due to the mobile home park owner or operator be paid in full before the home is removed from the park, sold or occupied by a new tenant or owner. If the owner or occupant is a lienholder who has informed the mobile home park owner or operator of its lien on the home pursuant to section 9097, subsection 2-A, the terms of that subsection apply.

Sec. 2. 10 MRSA §9097, sub-§2-A is enacted to read:

2-A. Notice to lienholders. At least 20 days prior to the termination of a tenancy in a mobile home park, the mobile home park owner or operator shall give written notice to any holder of a lien on the mobile home, provided that the lienholder previously gave the mobile home park owner or operator written notice of the lien. The written notice to the lienholder must specify the amount of any unpaid rent, fees or assessments owed by the tenant to the mobile home park owner or operator. The total amount may not exceed the rent and other recurring monthly charges applicable to all lots, including but not limited to water, sewer and trash collection charges, due for the 3 months immediately prior to the notice. Failure to notify a lienholder who met the notification requirements prohibits eviction of the tenant pursuant to section 9093 but does not constitute a basis for liability of the mobile home park owner or operator to the lienholder.

If the lienholder pays the total amount specified in the notice plus rent and other charges that come due subsequent to the notice, the lienholder may:

A. Foreclose on the mobile home; and

B. Assume the tenant's right to sell the mobile home in the mobile home park, provided that the lienholder continues to satisfy the obligations of tenancy. The sale is subject to the laws and rules governing the sale of mobile homes located in a mobile home park, including, but not limited to, section 9094.

H.P. 1066 - L.D. 1501

An Act to Include Child Care Centers in the Property Tax Exemptions and to Amend the Review Schedule for Property Tax Exemptions

Be it enacted by the People of the State of Maine as follows:

Sec. 1. 36 MRSA §652, sub-§1, ¶A, as amended by PL 1993, c. 286, §1 and affected by §2, is further amended to read:

A. The real estate and personal property owned and occupied or used solely for their own purposes by benevolent and charitable institutions incorporated by this State, and none of these may be deprived of the right of exemption by reason of the source from which its funds are derived or by reason of limitation in the classes of persons for whose benefit such funds are applied.

(1) Any such institution that is in fact conducted or operated principally for the benefit of persons who are not residents of Maine is entitled to an exemption not to exceed \$50,000 of current just value only when the total amount of any stipends or charges that it makes or takes during any tax year, as defined by section 502, for its services, benefits or advantages divided by the total number of persons receiving such services, benefits or advantages during the same tax year does not result in an average rate in excess of \$30 per week when said weekly rate is computed by dividing the average yearly charge per person by the total number of weeks in a tax year during which such institution is in fact conducted or operated principally for the benefit of

persons who are not residents of Maine. No such institution that is in fact conducted or operated principally for the benefit of persons who are not residents of Maine and makes charges that result in an average weekly rate per person, as computed under this subparagraph, in excess of \$30 may be entitled to tax exemption. This subparagraph does not apply to institutions incorporated as nonprofit corporations for the sole purpose of conducting medical research.

For the purposes of this paragraph, "benevolent and charitable institutions" include, but are not limited to, nonprofit nursing homes and nonprofit boarding homes and boarding care facilities licensed by the Department of Human Services pursuant to Title 22, chapter 1665 or its successor ~~and~~ nonprofit community mental health service facilities licensed by the Commissioner of Mental Health and Mental Retardation, pursuant to Title 34-B, chapter 3 and nonprofit child care centers incorporated by this State as benevolent and charitable institutions. For the purposes of this paragraph, "nonprofit" means a facility exempt from taxation under Section 501(c)(3) of the Code;

An Act to Extend the Deadline for a Maine State Police Officer to Choose a Certain Retirement Option

Emergency preamble. Whereas, Acts of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

Whereas, Public Law 1993, chapter 626 provides an early retirement option to state police officers, provided the officers notify the Maine State Retirement System of their intent to exercise the option and pay the actuarial cost of the new benefit; and

Whereas, state police officers exercising the option must notify the Maine State Retirement System of their decision to do so by July 1, 1995; and

Whereas, the Maine State Retirement System is directed to develop a methodology for calculating the actuarial costs of exercising the option in order to make that information available to state police officers contemplating exercising the option; and

Whereas, completion of the calculations and dissemination of the required information to all state police officers will not be completed before expiration of the July 1, 1995 notification deadline; and

Whereas, legislation is necessary to extend the notification deadline so that state police officers have complete information available to them before making their decision; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

Be it enacted by the People of the State of Maine as follows:

Sec. 1. 5 MRSA §17852, sub-§4, as amended by PL 1993, c. 626, §1, is further amended by amending the last paragraph to read:

A person first hired as a ~~State Police~~ state police officer after July 1, 1995 must make the election no later than 30 days after the date of first employment. A person already employed as a ~~State Police~~ state police officer on July 1, 1995 must make the election no later than ~~90 days after July 1, 1995~~ January 1, 1997.

Emergency clause. In view of the emergency cited in the preamble, this Act takes effect when approved.

H.P. 516 - L.D. 706

An Act Making Unified Appropriations and Allocations for the Expenditures of State Government, General Fund and Other Funds, and Changing Certain Provisions of the Law Necessary to the Proper Operations of State Government for the Fiscal Years Ending June 30, 1996 and June 30, 1997

Mandate preamble. This measure requires one or more local units of government to expand or modify activities so as to necessitate additional expenditures from local revenues but does not provide

funding for at least 90% of those expenditures. Pursuant to the Constitution of Maine, Article IX, Section 21, two thirds of all of the members elected to each House have determined it necessary to enact this measure.

Emergency preamble. **Whereas**, Acts of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

Whereas, the 90-day period may not terminate until after the beginning of the next fiscal year; and

Whereas, certain obligations and expenses incident to the operation of state departments and institutions will become due and payable immediately; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

Be it enacted by the People of the State of Maine as follows:

PART A

Sec. A-1. Appropriations and allocations.

In order to provide for necessary expenditures of State Government and other purposes for the fiscal years ending June 30, 1996 and June 30, 1997, the following sums as designated in the following tabulations are appropriated or allocated out of any money not otherwise appropriated or allocated.

Sec. A-2. Allotments required. Upon receipt of allotments duly approved by the Governor based upon work programs submitted to the State Budget Officer, the State Controller shall authorize expenditures of these funds, together with expenditures for other purposes necessary to the conduct of State Government, on the basis of these allotments and not otherwise. Allotments for Personal Services and Capital Expenditures, and amounts for All Other departmental expenses may not exceed the amounts shown in the budget document or as they may be revised by the joint standing committee of the Legislature having jurisdiction over these appropriations and allocations, unless recommended by the State Budget Officer and approved by the Governor in accordance with established law.

Sec. A-3. Personal Services funding. The amounts provided for Personal Services in appropriated and allocated accounts are subject to the provision that the total number of positions and the costs of those positions in any account may not vary during any fiscal year from either the positions included in

computing the total dollars appropriated or allocated for Personal Services or in the specific cost of each position upon which the appropriations and allocations are based. The State Budget Officer shall take the action necessary to ensure compliance with this section except as provided for in section 6 of this Part and as follows.

An appointing authority shall comply with the Civil Service Law, rules and regulations and collective bargaining agreements pertaining to the hiring, promoting, demoting and bumping of state employees. The Legislature shall act upon any recommendation for additional appropriations or allocations in order to fund additional requirements created by complying with this paragraph.

Savings accruing from unused funding of employee benefits may not be used to increase services provided by employees. Accrued salary savings generated from vacant positions within an appropriation or allocation for Personal Services may be used for the payment of nonrecurring Personal Services costs within the account where the savings exist. Costs related to acting-capacity appointments and emergency, unbudgeted overtime for which it is impractical to budget in advance may be used with the approval of the appointing authority. Other actions such as retroactive compensation for reclassifications or reallocations and retroactive or one-time settlements related to arbitrator or court decisions must be recommended by the department or agency head and approved by the State Budget Officer. Salary and employee benefits savings may not be used to fund recurring Personal Services actions either in the account where the savings exist or in another account.

The amounts appropriated or allocated for Personal Services include funds for the State's share of state employees' retirement. The State Controller shall transfer the State's share to the Maine State Retirement System as soon as practicable after each payroll is paid.

Sec. A-4. Workers' compensation positions. Limited-period positions may be established for former regular employees of the State who are presently receiving workers' compensation payments from the State when those positions enable those employees to return to productive employment with the State. The positions may be established, providing funds are available, only until those employees can be returned to regular positions.

Notwithstanding any other restriction on funds appropriated or allocated, the State Budget Officer may, after determining that funds are available, either approve the use of the funds or recommend appropriate action to the Governor when the Governor's approval is required.

Available funds may include amounts appropriated or allocated for Personal Services, including funds in any salary account or special account for state employee salary increases, All Other, Capital Expenditures and unallocated.

Sec. A-5. Personal Services policy and review. The Bureau of the Budget, during this biennium, shall continually review with all departments the status of their workforce levels and staffing patterns for the purpose of determining whether funds and positions are being utilized and managed in the most economical and efficient manner to accomplish the intent of the Legislature. Permanent positions for which funds are appropriated or allocated must be classified positions unless specifically designated otherwise by the Legislature. It is the responsibility of the Director of Human Resources to ensure that classified and unclassified positions are assigned to the proper pay grade and it is the responsibility of the State Budget Officer to ensure that the positions are within authorized headcount and funds.

Sec. A-6. Personal Services flexibility. Any classification or reclassification of a position and any allocation or reallocation of a position within the compensation plan made by the Director of Human Resources pursuant to the Civil Service Law and rules become effective on the first day of the fiscal year following approval by the State Budget Officer and the appropriation or allocation of funds for those programs, except that the State Budget Officer may, if the officer determines that sufficient funds exist, authorize an effective date prior to the first day of the ensuing fiscal year. Copies of all actions and certifications must be furnished to the Director of the Office of Fiscal and Program Review.

Sec. A-7. Number of necessary employees. The Governor and the State Budget Officer, when next preparing budget proposals for the Legislature, may at their discretion adjust the figures in parentheses, representing numbers of positions, to reflect the number of positions that in their opinion are necessary to the proper operation of each department, institution or agency.

Sec. A-8. New or expanded programs. A department may not establish new programs or expand existing programs beyond the scope of those programs already established, recognized and approved by the Legislature until the program and the method of financing are submitted to the Bureau of the Budget for evaluation and recommendation to the Legislature and until the funds are made available for those programs by the Legislature.

Sec. A-9. Seasonal or temporary employees. All appointing authorities are required by chapter 12, section 4C8(c) of the Civil Service Rules, as

amended on June 17, 1991, to inform all seasonal or temporary employees of the approximate date of termination of employment at the time of hire. The notice must be given to all employees who are appointed to time-limited positions or appointments.

Sec. A-10. Federally funded programs. It is the intent of the Legislature that, if federal funds are not available as anticipated for programs in this Act, there is no obligation to provide state funds in excess of those listed in this Act. Positions entirely or partially funded by federal or nonstate sources of funds are considered limited-period positions.

Sec. A-11. Travel limitations. It is the intent of the Legislature that out-of-state travel be limited. Any state employee who travels out of state on state business, such as law enforcement, collecting, bidding, industrial development or loans, may continue to do so. The Legislature directs that department heads limit the cost of all travel when it is not absolutely needed. A state employee may not be reimbursed for noon meals, unless the expense is incurred while traveling on state business and lodging is required. Any state employee who attends a seminar or other program that includes the cost of a noon meal as part of the tuition or registration fee is not required to reimburse the State for the meal.

Sec. A-12. Equipment to be reviewed. The Commissioner of Administrative and Financial Services may choose a designee to conduct a thorough review of all types of equipment, including automobiles, pickups and vans, owned, leased or otherwise available to the departments and agencies of the State, regardless of the source of supporting funds, and make recommendations via the budgetary process for combining their use, providing centralized facilities or eliminating existing equipment and facilities as believed to be in the most economical and efficient interests of the State. The Commissioner of Administrative and Financial Services may also develop and institute review and control mechanisms considered necessary to ensure that capital equipment purchases authorized by the Legislature are consistent with the intent for which funds were recommended and made available.

Sec. A-13. Motor vehicle replacement policy. The Director of the Bureau of General Services is directed to require that requisitions for replacement motor vehicles include the age and total mileage of the motor vehicle being replaced. For the purposes of this section, motor vehicles are defined as passenger cars and panel and pickup trucks, excluding those vehicles authorized and assigned for pursuit purposes. Under no circumstances are any state vehicles to be used for commuting purposes. It is the intent of the Legislature that motor vehicles be in service for at least 5 years or 75,000 miles before they

are replaced. This policy must also be adopted by the State Budget Officer when next preparing a budget document. Exceptions to the established replacement policy require the prior approval of the Commissioner of Administrative and Financial Services. The Commissioner of Administrative and Financial Services may also set appropriate standards with regard to motor vehicle type, size and equipment and direct that all motor vehicles be purchased in accordance with a commodity calendar established by the Director of the Bureau of General Services.

Sec. A-14. Significant action recommended by the State Budget Officer. The Bureau of the Budget shall inform the joint standing committee of the Legislature having jurisdiction over appropriations and financial affairs, through the Office of Fiscal and Program Review, of significant action recommended by the bureau in the performance of the budget responsibilities assigned.

Sec. A-15. State Cost Allocation Program. The State Cost Allocation Program shall annually identify the kind and cost of central services furnished to each state agency from General Fund appropriations. The non-General Fund portion of each agency must be assessed for these services as determined by the State Cost Allocation Program procedures to the extent that payments are not expressly prohibited by state or federal law or by the terms of a gift or donation made to the State from private sources. These payments must be credited to the General Fund as undedicated revenue. The State Budget Officer may adjust this assessment to any individual account.

Non-General Fund resources that contribute to funding costs related to general departmentwide functions, such as accounting, personnel administration, maintenance of property records and general purchasing, that have been made available to an account by legislative action may be consolidated into one or more administrative accounts, unless that a consolidation is expressly prohibited by state or federal law. All resources and costs affected by that consolidation must be properly identified and included in the budget process in accordance with the Maine Revised Statutes, Title 5, chapter 149. When the Legislature is not in session and upon recommendation of the State Budget Officer, the Governor may approve necessary adjustments to these consolidations for a period not to exceed the end of the fiscal year. The Director of Fiscal and Program Review must be notified of any such action. The unencumbered balance of each administrative account established pursuant to this section must be carried forward at the end of each fiscal year and the budgeted transfers to the administrative account for the ensuing year must be proportionally reduced by the amount of that carried balance.

Sec. A-16. Unified state budget. The Governor, when submitting the budget to the Legislature, shall submit the budget document and the General Fund and Highway Fund bills in a manner that will identify the gross amount of resources for each program. The gross unified budget bills and budget document encompass resources from all funds, including, but not limited to: General Fund, Highway Fund, federal funds, Federal Block Grant Fund and Other Special Revenue funds. Separate gross unified budget bills must be submitted for the General Fund and the Highway Fund.

Sec. A-17. Line category amounts of General Fund and Highway Fund. The amounts included in the unified state budget by line category are the amounts included immediately under the appropriations and allocations section of the individual pages in the budget document for the General Fund and the Highway Fund. These amounts, as adjusted by the Legislature, must be used when preparing work programs by fund for each fiscal year of the biennium.

Sec. A-18. Multiple accounts certification. If any amounts identified to a fund in the source of funds section are to be distributed to more than one account within that fund, the department or agency head responsible for those funds shall certify to the State Budget Officer the amounts included in each account by line category and certify that the sum of the accounts by fund, by line category, equals the approved totals of the program within the Act.

Sec. A-19. Year-end closing. The State Controller may close the books as soon as practicable after the close of the fiscal years ending June 30, 1996 and June 30, 1997. Any bills presented after those dates may be paid from appropriations or allocations for the ensuing year on recommendation of the State Controller if within the amounts of approved allotments.

Sec. A-20. Appropriation and allocation balances at year-end. At the end of each fiscal year, all unencumbered appropriation and allocation balances lapse into the fund or the account balance and are not available unless authorized by law. At the end of each fiscal year, all encumbered balances may not be carried more than once.

Sec. A-21. Reorganization of departments. A department or agency may not transfer Positions, Personal Services, All Other or Capital Expenditures funding between accounts when the expenditures of the fund will allow an action to take place that will cause an increased appropriation or allocation request in the Part I current services budget for any account. Any such reorganization must be

submitted in the Part II new or expanded services budget or separate legislation.

Sec. A-22. Appropriation or allocation of funds. Any funds appearing in this Act that are specifically appropriated or allocated in another Act are included in this Act for informational purposes only, as are enterprise accounts exclusive of the state Alcoholic Beverage Fund and the State Lottery Fund, trust fund accounts and agency fund accounts. Governmental funds not specifically appropriated or allocated in another Act are appropriated or allocated in accordance with section 1 of this Part.

Sec. A-23. Other appropriation and allocation measures. It is intended that the language in this Act, except for section 22 of this Part, applies to all other appropriation and allocation measures enacted by the Legislature.

Sec. A-24. Allotments in excess of legislatively authorized allocations. Allotments in Other Special Revenue and internal service fund accounts may exceed current year allocations and the unused balance of allocations authorized to carry forward by law under the following conditions provided that Other Special Revenue and internal service fund accounts are expended in accordance with the statutes that establish them and for no other purpose:

1. Sufficient cash is available from Other Special Revenue, the internal service fund or the unencumbered balance authorized to carry forward by law;
2. Allotment is required to provide for the costs of approved collective bargaining agreements;
3. Failure to allot these available funds could have a significant detrimental impact on current programs;
4. Allotment of these available funds is recommended by the State Budget Officer and approved by the Governor by financial order as an allotment increase in the annual work program;
5. Allotment of these available funds is subject to review by the joint standing committee of the Legislature having jurisdiction over appropriations and financial affairs; and
6. Allotment of these funds does not take effect until 30 days after approval by the Governor.

In case of extraordinary emergency situations, the 30-day waiting period beyond approval by the Governor may be waived by vote of the joint standing committee of the Legislature having jurisdiction over appropriations and financial affairs upon written

recommendation of the State Budget Officer. Dedicated revenue and internal service fund accounts authorized by law to carry unused allocations forward will not be subject to the above provided that the request for allotment increase is within the legislatively authorized allocations as defined in this section. It is the intent of the Legislature that authority for unused allocations to carry forward in Other Special Revenue and internal service fund accounts be limited to only specific, extraordinary circumstances.
