**An Act to Protect the Future of the
United States Naval Shipyard at
Kittery and the United States Naval

Emergency preamble. Whereas, Acts of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

Whereas, the United States Naval Shipyard at Kittery and the United States Naval Air Station at Brunswick are major sources of revenue for the State and employers of the State's citizens; and

Whereas, under the federal Base Closure Act of 1990, decisions on the closure of military facilities will be made during 1995; and

Whereas, closure of the United States Naval Shipyard at Kittery or the United States Naval Air Station at Brunswick and the resulting loss of jobs would create a substantial loss of revenue to the State and hardship to many of the State's families; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

Be it enacted by the People of the State of Maine as follows:

Sec. 1. Appropriation. The following funds are appropriated from the General Fund to carry out the purposes of this Act.

1994-95

**ECONOMIC AND

CHAPTER 2

**An Act Amending the Charter of the
Mutual Fire Insurance Company**

Emergency preamble. Whereas, Acts of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

Whereas, the Mutual Fire Insurance Company of Saco was chartered through a Private and Special Law of the Maine Legislature in 1827; and

Whereas, the company is required to file a statement of financial condition with insurance regulators on or before March 1, 1995; and

Whereas, the Superintendent of Insurance has approved a plan that provides for a corporate restructuring and recapitalization through the issuance of guaranty capital shares; and

Whereas, the Legislature must amend the Mutual Fire Insurance Company's charter to allow the restructuring and recapitalization plan prior to the March 1, 1995 filing date; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

Be it enacted by the People of the State of Maine as follows:

Sec. 1. P&SL 1827, c. 485, §§11 and 12 are enacted to read:

Sec. 12. Amendments. That all amendments to the charter do not require legislative action, but may be made in accordance with the Maine Insurance Code, or its successor.

Whereas, the Legislature must approve the retrocession by the United States Department of the Air Force of Loring Air Force Base, Loring Water System and Loring Family Housing Annex; and

Whereas, the removal of military personnel from Loring Air Force Base creates the need to accommodate nonmilitary uses and to allow for local law enforcement jurisdiction by approving the retrocession; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

Be it enacted by the People of the State of Maine as follows:

Sec. 1. Loring Air Force Base, Loring Water System and Loring Family Housing Annex; approval of transfer of legislative jurisdiction. The United States Department of the Air Force having filed with the Governor by letter dated August 26, 1994 its notice of intention to relinquish and retrocede to the State all of its exclusive legislative jurisdiction and to retain only a proprietary interest over all the lands comprising the Loring Air Force Base, the Loring Water System and the Loring Family Housing Annex in which the United States presently holds exclusive legislative jurisdiction, pursuant to the Maine Revised Statutes, Title 1, section 8, the State hereby approves the transfer of legislative jurisdiction as proposed in the notice of intention.

- (2) "Do you favor revision of the charter of the Presque Isle Water District to expand the territory of the district to the existing territorial boundary lines of the City of Presque Isle?"

The voters shall indicate by a cross or check mark placed against the word "Yes" or "No" their opinion of the same.

Section 1 of this Act takes effect for all purposes immediately upon the acceptance of the question of extension of the sewer district boundaries by a majority of the legal voters of the City of Presque Isle voting at the election, but only if the total number of votes cast for and against the acceptance of this Act in the special election equals or exceeds 10% of the registered voters of the city. In the event acceptance does not occur solely due to the failure of the necessary threshold percentage of voters participating in the special election, such failure does not prevent subsequent elections.

Section 2 of this Act takes effect for all purposes immediately upon the acceptance of the question of extension of the water district boundaries by a majority of the legal voters of the City of Presque Isle voting at the election, but only if the total number of votes cast for and against the acceptance of this Act in the special election equals or exceeds 10% of the registered voters of the city. In the event acceptance does not occur solely due to the failure of the necessary threshold percentage of voters participating in the special election, such failure does not prevent subsequent elections.

The results of the elections must be declared by the municipal officers of the city and due certificates thereof must be filed by the City Clerk with the Secretary of State.

Effective pending referendum.

CHAPTER 13

S.P. 355 - L.D. 983

An Act to Authorize the Towns of Mechanic Falls, Minot and Poland to Form a Community School District

Mandate preamble. This measure requires one or more local units of government to expand or modify activities so as to necessitate additional expenditures from local revenues but does not provide funding for at least 90% of those expenditures. Pursuant to the Constitution of Maine, Article IX, Section 21, two thirds of all of the members elected to each House have determined it necessary to enact this measure.

Emergency preamble. Whereas, Acts of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

Whereas, the school committees of the towns of Mechanic Falls, Minot and Poland have indicated a desire to form, in 1995, a community school district for the 3 towns for grades 7 to 12; and

Whereas, the current schools in the towns of Mechanic Falls, Minot and Poland are in need of additions; and

Whereas, it is in the interest of the 3 towns, which are currently providing education for grades 9 to 12 in Poland and Minot and grades 10 to 12 in Mechanic Falls, through tuition agreements that have been terminated by the receiving school starting the fall of 1996 and non-renewed, to have adequate planning and preparatory time to create a community school district; and

Whereas, the operational school year for the community school district, unless otherwise provided for, will begin July 1st after the organization of the community school district as required by the Maine Revised Statutes, Title 20-A, section 1604; and

Whereas, it is necessary to put into operation a new community school district with a new school and to ensure an orderly transition consistent with school-year and fiscal-year requirements and statutory time limits for the conducting of local referenda and elections; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

Be it enacted by the People of the State of Maine as follows:

Sec. 1. Authorization. The inhabitants of the towns of Mechanic Falls, Minot and Poland are authorized to form a community school district in accordance with the Maine Revised Statutes, Title 20-A, chapter 105 and upon the terms of this Act.

Sec. 2. Continued existence. School Union 29 and the municipal entities of Mechanic Falls, Minot and Poland continue to consist of the inhabitants of the towns of Mechanic Falls, Minot and Poland for the purpose of owning and operating elementary schools for students in kindergarten and grades one to 6. The Commissioner of Education shall issue an amended certificate of organization for School Union 29, effective July 1st of the first operational year of the community school district provided for in this Act, which is conclusive evidence of the lawful reorganization of School Union 29. The towns of Mechanic Falls, Minot and Poland continue as school units to operate schools for kindergarten and grades one to 6 and those operations are unaffected by the terms of this Act.

Sec. 3. Rights and privileges. The Mechanic Falls, Minot and Poland Community School District, referred to in this Act as the "district," has all the rights and privileges of community school districts and municipal school units, respectively, formed under the provisions of the Maine Revised Statutes, Title 20-A, and are governed by all of the applicable provisions of Title 20-A to the extent that the laws do not conflict with the terms of this Act.

Sec. 4. Emergency project. Approval of this Act by the Legislature and the majority of the legal voters voting in the towns of Mechanic Falls, Minot and Poland authorizes a building project to house the students of the 3 towns in grades 7 to 12 as an emergency project. The project authorized by this Act must be given priority status for State Board of Education approval and immediate approval for funding under chapter 61 of the State Board of Education's Rules for School Construction Projects.

Pursuant to the 3-town building project, this Act authorizes inclusion of certain costs not currently covered by the State Board of Education's Rules for School Construction Projects as an adjustment to the general purpose aid subsidies paid to the community school district in the first operational year. These costs relate to the purchase of library books at a rate of 15 volumes per student, basic reference and audio visual materials and software, as well as textbooks, for those grades not previously educated in the Towns of Mechanic Falls, Minot and Poland.

The adjustment is not included in the state share of the foundation allocation or debt service allocation.

The adjustment must be repaid by the community school districts to the Department of Education through reductions in the state share foundation allocation for the 5 years following the first operational year. The total amount to be repaid is the total amount of the adjustment multiplied by the community school district's state share percentage for operating costs during the first operational year.

Sec. 5. Initial organization and budget. Notwithstanding any law to the contrary, the district is organized upon the issuance of the certificate of organization by the Commissioner of Education. The school committees of the towns of Mechanic Falls, Minot and Poland, acting as a committee-of-the-whole, are responsible for preparing and submitting a budget to the voters, as authorized by the Maine Revised Statutes, Title 20-A, section 1701, prior to June 30th for each fiscal year beginning July 1st, for fiscal years 1995-96, 1996-97 and 1997-98. The school committees of Mechanic Falls, Minot and Poland, acting as a committee-of-the-whole, voting in proportion to population, as does the existing School Union 29 committee, have the authority to act as the governing body of the district until the election of the district school committee. The combined district school committees have the authority to submit an application to the State Board of Education for school construction approval. The members of the district school committee must be elected by the individual towns no later than July 1, 1997 and take office July 1, 1997.

Sec. 6. Transition period and first operational year. The district has a transition period beginning July 1, 1995. The district school committee is authorized to employ personnel, to make expenditures and to do all other acts of a community school district, except the assumption of the control and operation of grades 7 to 12, during the transition period. The Commissioner of Education shall issue a certificate of organization to the district consistent with the terms of this Act. The community school district may not receive a school subsidy from the Department of Education's general purpose aid to local schools program during the transition period. The transition period ends and the district school committee assumes control and operation of grades 7 to 12 in the district on July 1st of the year of the scheduled occupation of new school facilities owned by the district. For purposes of this Act, "occupation" means that the building is being used to provide instruction to all grades 7 to 12 resident pupils of the 3 towns.

Sec. 7. Selection of representatives of the district school committee. The district school committee consists of the representatives of the towns of Mechanic Falls, Minot and Poland, who must be directly elected. The representation of each of the

towns of Mechanic Falls, Minot and Poland must be approximately the same ratio to the total membership of the district school committee as each town's latest Federal Decennial Census is to the latest Federal Decennial Census of all the member municipalities. Federal Estimated Census figures must be used if they are more recent than the Federal Decennial Census figures; except that a municipal member may not have less than one representative on the district school committee. The representatives elected from the towns of Mechanic Falls, Minot and Poland have 3-year terms and the terms must be staggered for member municipalities with more than one representative. Municipal representatives must be elected in the same manner, and at the same time, as municipal officials provided for in the Maine Revised Statutes, Title 30-A and local ordinances or charters.

Sec. 8. Alternate representatives. The school boards for the towns of Mechanic Falls, Minot and Poland may each appoint from their membership one alternate representative who may attend the meetings of the district school committee and who acts as a liaison between the respective school committees and the district school committee. If a district school committee representative is absent from a meeting, the appointed alternate representative is allowed all the rights and privileges of the absent representative.

Sec. 9. Vacancies. Vacancies on the district school committee are filled as follows.

1. Towns of Mechanic Falls, Minot and Poland. A vacancy in a representative's term from the towns of Mechanic Falls, Minot and Poland must be filled by an appointment by the school board of the municipality in which the vacancy occurs until the next general election.

Sec. 10. Operational cost-sharing formula approval.

1. Formula approval. The district shall share its costs among the member municipalities beginning July 1, 1995 on the basis of a formula approved by the voters of each of the member municipalities on or before May 3, 1995. The vote must be conducted by secret ballot in accordance with the Maine Revised Statutes, Title 30-A, sections 2528 to 2532. The formula proposal or proposals must be prepared by a cost-sharing committee on which each member municipality is represented by 2 representatives chosen by its municipal officers and one member of each municipality's school committee chosen by the school committee members from that municipality. The proposals for the formula for sharing costs must first be approved by the cost-sharing committee by a vote of a majority of those present and voting. The cost-sharing committee shall make its first proposal after conducting at least 3 public meetings on or

before April 21, 1995. Each municipality shall hold a referendum vote and shall pay for the costs of voting. The meeting must be called, advertised and conducted according to the laws relating to municipal elections. The boards of voter registration must be in session on the secular day next preceding the meeting. The town clerks of the towns shall prepare the required ballots on which the town clerks shall reduce the subject matter of this Act to the following question:

"Do you approve the formula for sharing costs among the member municipalities of the community school district as proposed by the cost-sharing committee?"

The voters shall indicate by a cross or check mark placed against the word "Yes" or "No" their opinion of the same.

The Act takes effect for all purposes after its acceptance by a majority of the legal voters voting on the questions of the formation of a community school district for the member towns and the cost-sharing formula in each of the member towns, and after the declaration of the State Board of Education.

All provisions of the Maine Revised Statutes, Title 20-A, section 1704 apply.

Sec. 11. Budget approval. The procedure for preparing a budget must be in accordance with the Maine Revised Statutes, Title 20-A, section 1701.

1. Preparation. The district school committee shall prepare annually a budget for the operation and capital expenditures of the district.

2. Articles. The district school committee shall prepare appropriate articles to authorize budget expenditures and to determine the sums of money assessed for each member municipality.

3. Public hearings. The district school committee shall hold one or more public hearings within the district at least 7 days apart and at least 10 days prior to the final preparation of the budget articles to be voted on in each municipality. At least 7 days before the date set for each public hearing, the district school committee shall give notice of the public hearing by having a copy of the proposed articles, together with a time and place of the hearing, posted in the same manner required for the posting of a warrant for a town meeting under the Maine Revised Statutes, Title 30-A, section 2523. Notices of the hearing must be posted in each municipality of the district.

4. Local vote. The district school committee shall prepare warrants for the district budget. The vote must be conducted in accordance with the Maine Revised Statutes, Title 20-A, section 1701. The

district school committee shall post warrants in each of the member municipalities calling for an annual budget meeting.

5. Summary articles. The warrant must provide for the summarization of the action taken on the budget for the purposes of determining the district's state and local allocation with the articles prescribed in the Maine Revised Statutes, Title 20-A, chapter one.

6. Majority vote. Approval by a majority of the voters voting at the district annual meeting is necessary for the approval of the annual budget.

7. Special budget meeting. The district school committee may call a special budget meeting when an article in the school budget warrant fails to pass by a majority vote or when, in the district school committee's judgment, a financial emergency exists. A special budget meeting must be conducted in accordance with the Maine Revised Statutes, Title 20-A, section 1701.

8. Educational continuity and coordination. The district school committee and its superintendent and administration shall consult and work with the municipal school committees to establish and implement policies to achieve educational continuity and coordination in the district for kindergarten and grades one to 12.

9. Transfer of assets. All real property that is currently used for grades 7 and 8 remains with the existing towns and may not be transferred to the district. All school supplies and equipment, except school buses, purchased for and in use primarily by grades 7 and 8 and owned by each town encompassed by the district must be transferred to the district, as determined by each school committee on July 1st of the first operational year. The Commissioner of Education or the commissioner's designee is authorized to settle any dispute that may arise in the division and transfer of assets. The commissioner's decision is final and binding.

10. Transfer of contracts. Contracts of the municipalities within the district and School Union 29 with all principals, assistant principals, teachers, teacher assistants and all other employees of School Union 29 directly associated with the operation of grades 7 to 12, except for contracts with superintendents, are proportionately assigned to the district on July 1st of the first operational year except for the last 4 to 5 payments due on contracts for the preceding school year. The district is responsible for assigning teachers and all other employees to their duties and making payments on their contracts beginning July 1st of the first operational year, except for the last 4 to 5 payments due on contracts for the preceding school year. The Commissioner of Education or the com-

missioner's designee is authorized to settle any dispute relating to the assignment of contracts. The commissioner's decision is final and binding.

Sec. 12. Name. Within 2 years of the issuance of the certificate of organization, the district school committee shall petition the State Board of Education to accept a name for the district after consulting with and considering the recommendations of the school committees for each municipality, and after considering the recommendations of the administrators, teachers and students in the district. The State Board of Education shall authorize the use of the name unless it finds that the name is similar to the name authorized for use by another administrative unit and that the similarity could cause public confusion. Upon approval by the State Board of Education, the Commissioner of Education shall issue an amended certificate of organization for the district using the approved name, which certificate is conclusive evidence of the lawful organization of the district. Until the name has been approved, the district is known as the Mechanic Falls, Minot and Poland Community School District.

Sec. 13. District school committee to act as district board of trustees. The school district committee shall perform the functions of the district board of trustees as provided for in the Maine Revised Statutes, Title 20-A, section 1651.

Sec. 14. Certificate of organization. Each municipal clerk shall file a return of the votes cast to the Commissioner of Education, who shall determine immediately if a majority of those voting in each municipality favored the article forming the district and who shall so declare and issue to the district a certificate of organization that is conclusive evidence of its lawful organization.

Sec. 15. Controlling law. If the provisions of this Act conflict with the provisions of the Maine Revised Statutes, Title 20-A, the provisions of another private and special law or the provisions of a municipal ordinance, then the provisions of this Act control.

Sec. 16. Alternative authorization. The inhabitants of the towns of Mechanic Falls, Minot and Poland are authorized to form a community school district in accordance with the Maine Revised Statutes, Title 20-A, chapter 105 and, upon the terms of this Act, if the voters of one town do not vote to form a community school district on or before June 23, 1995, this Act does not apply to the town that does not approve the formation of the district.

Sec. 17. Emergency clause; referendum; effective date. In view of the emergency cited in the preamble, this Act takes effect when approved only for the purpose of permitting its submission to the legal voters of the towns of Mechanic Falls, Minot and

Poland. A meeting must be called and held in each municipality for the purpose of voting on May 6, 1995. The meeting must be called, advertised and conducted according to the laws related to municipal elections, except that any state or local election provision that would delay the meeting beyond May 6, 1995 does not apply. The boards of voter registration must be in session on the secular day next preceding the meeting. The town clerks of the towns shall prepare the required ballots on which the town clerks shall reduce the subject matter of this Act to the following question:

"Do you favor joining the community school district for grades 7-12 as provided for in the Act to Authorize the Towns of Mechanic Falls, Minot and Poland to Form a Community School District with any combination of at least 2 towns passed by the 117th Legislature?"

The voters shall indicate by a cross or check mark placed against the word "Yes" or "No" their opinion of the same.

This Act takes effect for all purposes after its acceptance by a majority of the legal voters voting on the question in each of the member towns and the declaration of the Commissioner of Education.

Effective pending referendum.

Upon approval of this Act by the voters of the Town of Franklin, the town shall convey by deed or other appropriate means of conveyance its title to all property previously used by the town for water and sewer utility purposes.

Sec. 3. Authorized to lay mains, pipes, conduits and other water and sewer conveyances through public ways and across private lands. The district may lay in and through the streets, roads, ways, highways and bridges in the Town of Franklin and across private lands in the Town of Franklin and maintain, repair and replace all such pipes, mains, conduits, aqueducts and fixtures and appurtenances as may be necessary and convenient for its corporate purposes and, whenever the district lays any pipes, mains, conduits, aqueducts and fixtures or appurtenances in any street, road, way or highway, it shall cause the same to be done with as little obstruction as practicable to the public travel and, at its own expense, without unnecessary delay, shall cause the earth and pavement removed by it to be replaced in proper condition.

Sec. 4. Authorized to erect dams and reservoirs; to cross navigable waters; to supply water to utilities. The district, for the purposes of its incorporation, may erect and maintain all dams, reservoirs and structures necessary and convenient for its corporate purposes. The district may lay, construct and maintain its pipes and fixtures in, over and under navigable waters and build and maintain structures for the pipes and fixtures, subject to the laws of the United States. The district may supply water to any public utility now supplying water in Hancock County, subject to the consent of the Public Utilities Commission.

Sec. 5. Eminent domain. The district, for the purposes of its incorporation, may take and hold within the area covered by the district for public uses real estate, personal property and any interest necessary for these purposes, by purchase, lease or otherwise. The district is authorized to acquire for these purposes any lands, interest in lands or water rights necessary for erecting and maintaining plants and works for flowage, pumping and supplying water through its mains; for forming basins and reservoirs;

for preserving the purity of the water; for laying and maintaining mains, aqueducts and other structures used for taking, distributing, discharging and disposing of water; for erection of buildings for pumping works; for laying pipes and maintaining them; for laying and maintaining conduits for carrying, collecting and discharging water; for filtration, rectification and treatment plants, works and facilities; for such other objects necessary, convenient and proper for the purposes of its incorporation; and for rights-of-way for roadways to its sources of supply and reservoirs, and for mains, aqueducts, structures, plants, works facilities, distribution facilities and for lands.

This Act may not be construed as authorizing the district to take by right of eminent domain any of the property or facilities of any other public utility, district or cooperative or district used or acquired for future use by the owner in the performance of a public duty, unless expressly authorized by subsequent Act of the Legislature. This Act may not be construed to empower the district to take by eminent domain any dam, building or other improvement or the real estate on which any dam, building or other improvement is situated.

The district may, for the purposes outlined in this section, do any and all things necessary in providing a water supply and a system of sewage treatment and collection and drainage for public purposes and for the health, comfort and convenience of the inhabitants of the district.

Sec. 6. Procedure in exercising right of eminent domain; assessment of damage; appeal procedure. Notwithstanding the Maine Revised Statutes, Title 35-A, chapters 65 and 67, the district may exercise the right of eminent domain under this Act in accordance with this section and section 5 of this Act. In exercising any right of eminent domain in the taking of lands, interests in lands or water rights, the district shall file in the office of the County Commissioners of Hancock County and record in the Hancock County Registry of Deeds, plans of the location of all property to be taken, with an appropriate description and the names of the owners, if known. Notice of the filing must be sent by mail to owners at the address appearing on the tax records of the municipality in which the land is located. When for any reason the district fails to acquire the property that it is authorized to take and that is described in the location, or if the location recorded is defective or uncertain, it may, at any time, correct and perfect that location and file a new description and in that case the district is liable for damages only for property for which the owner had not previously been paid, to be assessed as of the time of the original taking, and the district is not liable for any acts that would have been justified if the original

taking had been lawful. Entry may not be made on any private lands, except to make surveys, until the expiration of 10 days from that filing, at which time possession may be had of all lands, interests in land or water rights so taken, but title does not vest in the district until payment is made.

If any person sustaining damages by any taking does not agree with the trustees of the district upon the sum to be paid, either party, upon petition to the county commissioners of Hancock County, may have damages assessed by the county commissioners. The procedure and all subsequent proceedings and the rights of appeal are under the same restrictions, conditions and limitations as are or may be by law prescribed in the case of damages by the laying out of highways.

Sec. 7. Procedure if public utility must be crossed. In case of any crossing of any public utility, unless consent is given by the company, district or cooperative owning or operating the public utility as to place, manner and conditions of the crossing within 30 days after the consent is requested by the district, the Public Utilities Commission, upon petition by the district, shall determine the place, manner and conditions of the crossing. All work on the property of the public utility must be done under the supervision and to the satisfaction of the public utility or as prescribed by the Public Utilities Commission, but at the expense of the district.

Sec. 8. Trustees; how elected; first board meeting; officers. All of the affairs of the district must be managed by a board of trustees composed of 5 members, all of whom must be residents of the district and, after selection of the first board, elected as provided in the Maine Revised Statutes, Title 35-A, chapter 63 and this section.

1. First board. Within 90 days after the acceptance of this Act, the municipal officers of the Town of Franklin, who are especially appointed for this purpose, shall appoint 5 trustees. One trustee serves for a term of one year, 2 trustees serve for a term of 2 years and 2 trustees serve for a term of 3 years. At the first meeting, the initial trustees shall determine by agreement or, failing agreement, by lot the term of office of each trustee. After the selection of the first board, the only eligibility requirements for the office of trustee of the district are residence within the district and eligibility to vote, and all subsequent trustees are elected by the residents of the district as provided in subsection 3.

2. Organization; conduct of business. Organization and powers of the board of trustees must be in accordance with the Maine Revised Statutes, Title 35-A, chapter 63.

3. Vacancy. Whenever the term of office of a trustee expires, the trustee's successor must be elected at large by a plurality vote by the inhabitants of the district. For the purpose of election, an election must be called and held on the 2nd Saturday of June or on such other date in June as the trustees establish, the election to be called by the trustees of the district in the same manner as town meetings are called and for this purpose the trustees are vested with the powers of municipal officers of towns. The trustee so elected shall serve the full term of 3 years. If any vacancy arises in the membership of the board of trustees, it must be filled in like manner for the unexpired term by a special election to be called by the trustees of the district. When any trustee ceases to be a resident of the district, the trustee shall vacate the office of trustee and the vacancy must be filled as provided in this section. All trustees are eligible for reelection, but a person who is a municipal officer in the Town of Franklin is not eligible for nomination or election as trustee.

The trustees may procure an office and incur such expenses as may be necessary.

The trustees shall appoint a registrar of voters for the district, who may also be the registrar of voters for the Town of Franklin, and fix the registrar's salary. It is the registrar's duty to make and keep a complete list of all the eligible voters of the district. The list prepared by the registrar, as provided by the laws of the State, governs the eligibility of any voter. In determining the eligible voters of the district, the registrar of voters shall exclude from that list and from all checklists the legal voters who are resident outside the territorial limits of the district as defined in this Act. All warrants issued for elections by the trustees must be varied accordingly to show that only the voters resident within the territorial limits of the district are entitled to vote.

All decisions of the board of trustees must be by a majority of those present and voting. A quorum of the board of trustees is 3 trustees.

Trustees are entitled to compensation in accordance with the Maine Revised Statutes, Title 35-A, chapter 63.

Sec. 9. Annual meeting of district. After the acceptance of this Act and the organization of the first board, the district shall hold annual meetings within the district for the election of trustees, at a time and place designated by resolution of the board of trustees. The trustees shall give 7 days' notice to the voters of the district of the time and place of the meeting.

The trustees may establish bylaws as are necessary for their own convenience and the proper management of the affairs of the district. The trustees

may procure an office and incur such expenses as may be necessary. The treasurer shall furnish bond in such sum and with such sureties as trustees may approve. Members of the board are eligible for any office under the board.

Sec. 10. District and town authorized to make contracts. The district, through its trustees, may contract with persons and corporations, including the Town of Franklin, and the Town of Franklin may contract with the trustees for the supply of water for municipal purposes and for the use of sewerage and drainage facilities.

All valid contracts between the Town of Franklin and other towns, persons or corporations for supplying water or sewerage services within the Town of Franklin that are in effect on the date of transfer by the Town of Franklin to the district of the town's plant, properties, rights and privileges used or useful in providing a water supply and sewerage system in the Town of Franklin must be assumed and carried out by the Franklin Utility District.

Sec. 11. Authorized to borrow money, to issue bonds and notes. For accomplishing the purposes of this Act, and for such other expenses as may be necessary for the carrying out of the purposes, the district, through its trustees, may accept state, federal or municipal grants and may borrow money temporarily and issue its negotiable notes. For the purpose of renewing and refunding the indebtedness so created, paying any necessary expenses and liabilities incurred under this Act, including organizational and other necessary expenses and liabilities, whether incurred by the district or the Town of Franklin, the district being authorized to reimburse the town for any expenses incurred by them and in acquiring properties; paying damages; laying pipes, mains, aqueducts and conduits; constructing, maintaining and operating a water or sewer plant or water or sewer system and making renewals, additions, extensions and improvements to them and to cover interest payments during the period of construction; the district, through its trustees, may also issue from time to time bonds, in one series or in separate series, in such amount or amounts, bearing interest at such rate or rates and having such terms and provisions as the trustees determine. The issuance of any bonds for water projects must be in accordance with the Maine Revised Statutes, Title 35-A, chapter 63.

The bonds, notes and evidences of indebtedness may be issued for water and sewer purposes, and may be made to mature serially or made to run for such periods as the trustees determine, but none of them may run for a longer period than 40 years from the date of original issue. Bonds, notes or evidences of indebtedness may be issued with or without provision for calling the same prior to maturity, and, if callable,

may be made callable at par or at such premium as the trustees determine. All bonds, notes or other evidences of indebtedness must have inscribed upon their face the words "Franklin Utility District," and be signed by the treasurer and countersigned by the chair of the board of trustees of the district. If coupon bonds are issued, the interest coupons attached to the coupon bonds must bear the facsimile signature of the treasurer.

All bonds, notes and evidences of indebtedness issued by the district are legal obligations of the district, which is declared to be a quasi-municipal corporation within the meaning of the Maine Revised Statutes, Title 30-A, section 5701 and all provisions of that section are applicable. The district may refund and reissue from time to time in one or in separate series its bonds, notes and other evidences of indebtedness and each authorized issue constitutes a separate loan. All bonds, notes and evidences of indebtedness issued by the district are legal investments for savings banks in the State and are tax exempt.

Sec. 12. Rates; application of revenue; sinking fund. The rates established pursuant to this section must be sufficient to provide revenue for the purposes of this Act and for all other purposes of the district, without the need for any financial assistance from the Town of Franklin, other than the normal payment of water and sewer charges for services rendered. Individuals, firms and corporations, whether private, public or municipal, shall pay to the treasurer or other designated officer of the district the rates established by the board of trustees for the water and sewer service used by them. The water rates must be established in accordance with the Maine Revised Statutes, Title 35-A, chapter 61, to provide for the purposes set forth in that chapter. Sewer rates must be established in accordance with the Maine Revised Statutes, Title 38, section 1202.

Sec. 13. Existing laws not affected; rights conferred subject to law. This Act is not intended to repeal or may not be construed as repealing the whole or any part of any existing law, and all the rights and duties mentioned in this Act must be exercised and performed in accordance with all the applicable provisions of the Maine Revised Statutes, Title 35-A, to the extent that Title affects the water operations of the district.

Sec. 14. Separability clause. If any section or part of a section of this Act is held invalid by a court of competent jurisdiction, the holding does not affect the remainder of this Act, it being the intention that the remaining portions of this Act stand, notwithstanding the unconstitutionality or invalidity of any section, sentence, clause or phrase.

Sec. 15. Emergency clause; referendum; effective date. In view of the emergency cited in the preamble, this Act takes effect when approved but only for the purpose of permitting its submission to the legal voters of the district at an election called for that purpose and held not later than December 1, 1995. The election must be called, advertised and conducted according to the law related to municipal elections, except that the registrar of voters is not required to prepare or the clerk to post a new list of voters. The registrar of voters must be in session the 3 secular days preceding the election, of which the first 2 days must be devoted to registration of the voters and the last day to verification of the list and completion of the records of these sessions by the registrar. The subject matter of this Act is reduced to the following question.

"Do you favor the creation of the Franklin Utility District?"

The voters shall indicate by a cross or check mark placed against the words "Yes" or "No" their opinion of the same.

The results must be declared by the municipal officers of the Town of Franklin and due certificate of the results filed by the clerk with the Secretary of State.

This Act takes effect for all purposes upon its acceptance by a majority of the legal voters within the district voting at the special election. Failure of the approval by the necessary majority of voters at the election does not prevent a subsequent election or elections from being held for that purpose.

Effective pending referendum.

Sec. 2. Additional powers of district. The district, for the purposes specified in section 1, may take, collect, store, flow, use, divert, distribute and convey to the district, or any part of the district, water from any surface or underground source, natural or artificial, within the district on the effective date of this Act. It may also locate, construct and maintain aqueducts, pipes, conduits, dams, wells, reservoirs, standpipes, hydrants, pumping stations and other necessary structures and equipment therefor, and do anything necessary to furnish water for public purposes and for the public health, comfort and convenience of the inhabitants and others of the district, or to contract to do any and all of the foregoing things.

All incidental powers, rights and privileges granted to the Sabattus Water District and necessary to the accomplishment of the objectives set forth in this Act are granted to the district.

Notwithstanding section 1 and other provisions of this section, the district may not provide service to any person or business within the territory served by the Sabattus Water District, or its successors, unless the provision of service is approved by the Public Utilities Commission pursuant to section 13 of this Act and approved by the voters pursuant to section 18 of this Act.

Sec. 3. Authorized to lay mains, pipes, conduits and other water conveyances through public ways and across private lands. The district may lay in, along, under and through the streets, roads, ways, highways, bridges, tidal waters, lakes, ponds, rivers and water courses in the territory of the district and across private lands in the territory of the district and maintain, repair and replace pipes, mains, conduits, aqueducts and fixtures and appurtenances as necessary and convenient for the purposes specified in section 1 and, whenever the district lays any pipes, mains, conduits, aqueducts and fixtures or appurtenances in any street, road, way or highway, it shall cause the same to be done with as little obstruction as practicable to the public travel and at the district's own expense, without unnecessary delay, shall cause the earth and pavement removed by the district to be replaced in proper condition.

Sec. 4. Authorized to erect dams and reservoirs; to cross navigable waters; to supply water to utilities. The district, for the purposes specified in section 1, may erect and maintain all dams, reservoirs and structures necessary and convenient for those purposes. The district may lay, construct and maintain its pipes and fixtures in, over and under navigable waters and build and maintain structures for the pipes and fixtures, subject to the laws of the United States. The district may supply water to any public utility now supplying water in Androscoggin County, subject to the consent of the Public Utilities Commission.

Sec. 5. Procedure if public utility must be crossed. In case of crossing of any public utility, unless consent is given by the company owning and operating the public utility as to place, manner and conditions of the crossing within 30 days after consent is requested by the district, the Public Utilities Commission, upon petition by the district, shall determine the place, manner and conditions of the crossing, and all work on the property of the public utility must be done under the supervision and to the satisfaction of the public utility or as prescribed by the Public Utilities Commission, but at the expense of the district.

Sec. 6. Authority to acquire property; rights of eminent domain. In addition to the district's eminent domain powers granted under the Maine Revised Statutes, Title 38, chapter 11, the

district is granted the right of eminent domain for the purposes of this Act pursuant to Title 35-A, chapters 65 and 67.

This section may not be construed as authorizing the district to take by right of eminent domain any of the property or facilities of any other public utility used, or acquired for future use by the owner of that property or those facilities, in the performance of a public duty, unless expressly authorized to do so by this Act or by subsequent Act of the Legislature.

Sec. 7. Annual report. The trustees of the district shall make and publish an annual report concerning the operations of the district pursuant to this Act, including a report of the treasurer.

Sec. 8. District and towns authorized to make and assume contracts. The district, through its trustees, in order to carry out the objectives set forth in this Act, may contract with persons, districts, municipalities, utilities or corporations. The district may contract with the Town of Sabattus and the town may contract with the district for the supply of water for municipal purposes.

Sec. 9. Authorized to receive government aid; borrow money; issue bonds and notes. For accomplishing the purposes of this Act, the district, through its trustees, without vote of the inhabitants, may receive state and federal aid or grants, borrow money temporarily and issue for the money its negotiable notes for the purpose of renewing and refunding the indebtedness so created, for paying any necessary expenses and liabilities incurred under this Act, including organizational and other necessary expenses and liabilities, whether incurred by the district or the Town of Sabattus, the district being authorized to reimburse the Town of Sabattus for any such expense incurred by the town and in acquiring properties, paying damages, laying pipes, mains, aqueducts and conduits, constructing, maintaining and operating a water plant or system and making renewals, additions, extensions and improvements to the water plant or system and to cover associated interest payments. The district, through its trustees, may also issue, from time to time, in accordance with the Maine Revised Statutes, Title 35-A, chapter 63, bonds, notes or other evidences of indebtedness of the district in such amount or amounts, bearing interest at such rate or rates, selling at par or at a discount or a premium, to be sold in such manner, at public or private sale, and having such other terms and provisions as the trustees determine, except that loans running for one year or less do not require the approval of the Public Utilities Commission.

Bonds, notes and evidences of indebtedness of the district may be issued to mature serially or made to run for a term of years as the trustees determine.

Bonds, notes or evidences of indebtedness may be issued with or without provisions for calling the bonds, notes or evidences of indebtedness prior to maturity and, if callable, may be made callable at par or at such premium as the trustees determine. All bonds, notes or other evidences of indebtedness must have inscribed upon their face the words "Sabattus Sanitary District" and be signed by the treasurer and countersigned by the chair of the board of trustees of the district. If coupon bonds are issued, the interest coupon attached to the coupon bonds must bear the facsimile signature of the treasurer.

All bonds, notes and evidences of indebtedness so issued by the district, which is declared to be a quasi-municipal corporation, are legal obligations of the district within the meaning of the Maine Revised Statutes, Title 30-A, section 5701.

The district may refund and reissue, from time to time, in one or in separate series, its bonds, notes and other evidences of indebtedness, and each authorized issue constitutes a separate loan. All bonds, notes and evidences of indebtedness issued by the district are legal investments for savings banks in the State and are exempt from state income tax.

Sec. 10. Rates. The rates established pursuant to this section must be sufficient to provide revenue for the purposes of this Act, without the need for any financial assistance from the Town of Sabattus other than the normal payment of water charges for services rendered and the loan or loans for initial funds as set forth in section 9. Individuals, firms and corporations, whether private, public or municipal, shall pay to the treasurer or other designated officer of the district the rates established by the board of trustees for the water used by them. The rates must be established in accordance with the Maine Revised Statutes, Title 35-A, chapter 61, to provide for the purposes set forth therein.

Sec. 11. Sabattus Sanitary District's acquisition of property of Sabattus Water District. The Sabattus Sanitary District acquires, under the terms contained in this Act, all, and not less than all, of the plant, properties, assets, franchises, rights and privileges owned by the Sabattus Water District including, without limitation, lands, buildings, waters, water rights, springs, wells, reservoirs, tanks, standpipes, mains, pumps, pipes, machinery, fixtures, hydrants, meters, services, tools, equipment and appliances used or useful in supplying water for domestic, sanitary, commercial, industrial and municipal purposes. The consideration paid for them is the assumption by the Sabattus Sanitary District of all of the outstanding debts, obligations and liabilities of the Sabattus Water District including, without limitation, the assumption by the Sabattus Sanitary District of any outstanding notes or bonds of the

Sabattus Water District that are due on or after the date of transfer.

Sec. 12. Sabattus Water District required to sell property to the Sabattus Sanitary District. The Sabattus Water District, a quasi-municipal corporation organized and existing pursuant to Private and Special Law 1967, chapter 196, under the terms contained in this Act, shall sell, transfer and convey to the Sabattus Sanitary District by appropriate instruments of conveyance all, and not less than all, of its plants, properties, assets, franchises, rights and privileges including, without limitation, lands, buildings, waters, water rights, springs, wells, reservoirs, tanks, standpipes, mains, pumps, pipes, machinery, fixtures, hydrants, meters, services, tools, equipment and appliances used or useful in supplying water for domestic, commercial, industrial and municipal purposes, in consideration of the assumption by the Sabattus Sanitary District of all of the outstanding debts, obligations and liabilities of the Sabattus Water District including, without limitation, the assumption of any outstanding notes or bonds of the Sabattus Water District that are due on or after the date of the transfer.

Sec. 13. Approval of Public Utilities Commission. The sale and transfer by the Sabattus Water District to the Sabattus Sanitary District of its plant, properties, assets, franchises, rights and privileges and the assumption by the Sabattus Sanitary District of all of the outstanding debts, obligations and liabilities of the Sabattus Water District pursuant to sections 11 and 12 and the subsequent use of the plants, properties, assets, franchises, rights and privileges by the Sabattus Sanitary District within the limits of the Sabattus Sanitary District are subject to the approval of the Public Utilities Commission as may be required by the Maine Revised Statutes, Title 35-A, Part 1.

Sec. 14. Contracts of Sabattus Water District assumed by the Sabattus Sanitary District. All contracts between the Sabattus Water District and any person, firm or corporation relating to supplying water that are in effect on the date of the transfer by the Sabattus Water District to the Sabattus Sanitary District are assumed and carried out by the Sabattus Sanitary District.

Sec. 15. Dissolution and termination of Sabattus Water District; pledge of revenues. If and when all debts, obligations and other liabilities of the Sabattus Water District have been paid in full and discharged or the holders or owners of all debts, obligations and other liabilities that have not been paid in full and discharged have assented to the assumption thereof by the Sabattus Water District and to the novation and substitution of the Sabattus Sanitary District as obligor in respect thereto in place of the

Sabattus Water District and, when the transfer of property pursuant to section 12 is complete, the clerk of the Sabattus Water District shall file a certificate to that effect with the Secretary of State and the corporate existence of the Sabattus Water District terminates. After filing the certificate with the Secretary of State, the clerk of the Sabattus Water District shall submit legislation to repeal Private and Special Law 1967, chapter 196. Until the corporate existence of the Sabattus Water District is terminated pursuant to this section, the gross revenues derived by the Sabattus Sanitary District from the sale of water within the area comprising the former limits of the district must be applied first to the payment of expenses and 2nd to payments of debts, obligations and other liabilities of the Sabattus Water District assumed by the Sabattus Sanitary District pursuant to this Act.

Sec. 16. Property tax exemption. Notwithstanding the Maine Revised Statutes, Title 38, section 1064, the property of the district acquired pursuant to this Act and used for the purposes of this Act is exempt from taxation to the extent provided in Title 36, section 651.

Sec. 17. Existing laws not affected; rights conferred subject to provisions of law; preservation of powers. Nothing contained in this Act is intended to repeal, or may be construed as repealing, the whole or any part of any existing law, and all the rights and duties mentioned in this Act must be exercised and performed in accordance with all the applicable provisions of and amendatory acts to the Maine Revised Statutes, Title 35-A to the extent that title and its amendments affect the operations of the district. Powers granted in this Act are in addition to powers granted to the district under the provisions of Title 38, chapter 11, and nothing in this Act may be construed as limiting the authority of the district in carrying out the purposes of the district as provided in Title 38, section 1063.

Sec. 18. Referendum; effective date. The municipal officers of the Town of Sabattus shall submit this Act to the legal voters of the Town of Sabattus voting at a regular or special election called and held within 6 months after passage of this Act. If the municipal officers choose to so submit this Act the election must be called, advertised and conducted according to the law relating to municipal elections, except that the municipal officers are not required to prepare or the town clerk to post a new list of voters. For the purpose of registration of voters the registrar is required to be in session the 3 secular days next preceding the election, of which the first 2 days must be devoted to registration of the voters and the last day to verification of the list and completion of the records of these sessions. The subject matter of this Act is reduced to the following question:

"Do you favor the dissolution of the Sabattus Water District and the acquisition of the assets and liabilities of the Sabattus Water District by the Sabattus Sanitary District?"

This Act also must be submitted to the Trustees of the Sabattus Water District for a ratification vote at any trustees' meeting.

This Act takes effect for all purposes immediately upon its acceptance by the Trustees of the Sabattus Water District and by a majority of the legal voters of Sabattus voting at the election.

The results of the election must be declared by the municipal officers of the Town of Sabattus and due certificate thereof filed by the town clerk with the Secretary of State. The trustees of the Sabattus Water District shall certify the results of their vote and file the certification with the Secretary of State.

Effective pending referendum.

CHAPTER 30**S.P. 588 - L.D. 1573****An Act to Further Extend the
Workers' Compensation Deficit
Evaluation Proceeding**

Emergency preamble. Whereas, Acts of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

Whereas, the Superintendent of Insurance is required to determine, by June 1st of each year, the incurred deficit of the Maine Workers' Compensation Residual Market Pool and to establish the level of premium surcharges on employers and assessments on pool member insurers for the repayment of that deficit; and

Whereas, the Governor has appointed a committee to make recommendations concerning replacement of the present system for funding that deficit; and

Whereas, the Legislature may take action that will cause substantial changes to the Maine Insurance Code that will have a direct and immediate effect on the appropriate amounts for the surcharges and assessments, but these effects can not be taken into account under the current applicable law in the pending deficit evaluation proceeding; and

Whereas, the June 1st deadline was extended to June 19, 1995, and that extension may be insufficient to permit adequate time for deliberation by the Legislature on the proposed law changes; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

Be it enacted by the People of the State of Maine as follows:

Sec. 1. Extension of time. Notwithstanding the required reporting date of June 1st, as specified in the Maine Revised Statutes, Title 24-A, section 2386-A, first paragraph, the Superintendent of Insurance is not required to evaluate the incurred deficit of the Maine Workers' Compensation Residual Market Pool and to establish the level of premium surcharges on employers and assessments on pool member insurers as required by section 2386-A until the adjournment sine die of the First Regular Session of the 117th Legislature. The extension of time applies only to that report due on June 1, 1995, and

deferred to June 19, 1995 pursuant to Private and Special Law 1995, chapter 25.

Emergency clause. In view of the emergency cited in the preamble, this Act takes effect when approved.

Effective June 19, 1995.

This measure requires one or more local units of government to expand or modify activities so as to necessitate additional expenditures from local revenues but does not provide funding for at least 90% of those expenditures. Pursuant to the Constitution of Maine, Article IX, Section 21, two thirds of all of the members elected to each House have determined it necessary to enact this measure.

Emergency preamble. Whereas, Acts of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

Whereas, the provisions of this Act are immediately necessary to ensure an orderly transition in the board of trustees of the Kennebec Water District; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

CHAPTER 32

H.P. 1092 - L.D. 1535

An Act Regarding School Construction in School Administrative District No. 49

Mandate preamble. This measure requires one or more local units of government to expand or modify activities so as to necessitate additional expenditures from local revenues but does not provide funding for at least 90% of those expenditures. Pursuant to the Constitution of Maine, Article IX, Section 21, two thirds of all of the members elected to each House have determined it necessary to enact this measure.

Emergency preamble. Whereas, Acts of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

Whereas, Maine School Administrative District No. 49 is a school unit duly organized and existing under the laws of the State; and

Whereas, the Town of Fairfield is a municipal corporation duly organized and existing under the laws of the State; and

Whereas, the Town of Fairfield was named as a beneficiary of a bequest made by the will of Burt R. Williamson dated October 31, 1951; and

Whereas, the bequest, referred to as the "Williamson Fund," was made for the specific purpose of constructing a school building and its equipment above the foundation; and

Whereas, after the date Mr. Williamson executed his will, the Town of Fairfield joined with the towns of Albion, Benton and Clinton to form Maine School Administrative District No. 49; and

Whereas, the Superior Court, in an action brought by the Town of Fairfield to construe Mr. Williamson's will, determined that the Town of Fairfield has authority to expend sums from the principal and accumulated interest for costs, including payment of debt service, related to the erection of, or addition to, a school building located in Fairfield to be owned, operated and maintained by Maine School Administrative District No. 49; and

Whereas, certain of the constraints normally placed upon school construction projects by statutory provisions operate in this case to limit the flexibility of Maine School Administrative District No. 49 to build an auditorium and supporting facilities with money from the Williamson Fund at no cost to the taxpayers; and

Whereas, fluctuating market conditions are favorable in the immediate future to allow Maine School Administrative District No. 49 to enter into a design-build construction contract or other alternative construction arrangements for construction of an auditorium and supporting facilities with money from the Williamson Fund at no cost to the taxpayers; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

Be it enacted by the People of the State of Maine as follows:

Sec. 1. Authority to enter into alternative construction arrangements to build auditorium and supporting facilities. Subject to approval by the voters of the towns comprising Maine School Administrative District No. 49, the Board of Directors of Maine School Administrative District No. 49 is authorized to enter into a design-build contract or other alternative construction arrangements for construction of a new auditorium and supporting facilities to be located on the existing school lot on School Street in the Town of Fairfield, which is the site of the Lawrence Junior-Senior High School complex. Notwithstanding the provisions of the Maine Revised Statutes, Title 20-A, sections 15903, 15905-A, 15908 and 15910, this project is not subject to approval by the Commissioner of Education. This Act may not be construed as waiving any building construction standards related to health or safety that apply to school construction projects and the State Fire Marshal's Office and the Department of Human Services shall approve the plans and specifications for the project.

The cost of this construction project is funded with money from a local trust fund designated by the Town of Fairfield as the Williamson Fund. There may be no increase in local taxes to pay for the construction nor may the project receive any state funds.

Sec. 2. Two-year limit. The authority conferred by this Act expires if Maine School Administrative District No. 49 does not enter into a design-build contract or other alternative construction arrangements within 2 years of the effective date of this Act.

Sec. 3. Voter approval. The project must be submitted to the voters for approval at a referendum in accordance with section 5.

Sec. 4. Operating costs exempted from state subsidy. The annual costs of operating the auditorium and supporting facilities will be exempt

from state subsidy. Maine School Administrative District No. 49 is required to identify those costs to the Department of Education and ensure that no subsidy is claimed for the operating costs.

Sec. 5. Emergency clause; referendum; effective date. In view of the emergency cited in the preamble, this Act takes effect when approved only for the purpose of permitting Maine School Administrative District No. 49 to negotiate, but not enter into, a design-build contract or other alternative construction arrangements and to submit a proposal for construction of an auditorium and supporting facilities to the legal voters of Maine School Administrative District No. 49 by referendum at a regular or special district meeting. The referendum must be called, advertised and conducted in accordance with the Maine Revised Statutes, Title 20-A, sections 1351 to 1354 and section 15904. The board of directors shall prepare the required ballots on which the board of directors shall reduce the subject matter of this Act to the following question:

Do you favor authorizing the school directors of Maine School Administrative District No. 49 to accept conditional and unconditional gifts and grants, including up to \$3,300,000 from the Town of Fairfield's Williamson Fund, and an additional \$300,000 from fund-raising efforts, the amount obtained by this district from gifts and grants and earnings thereon up to a maximum of \$3,600,000, for the purpose of constructing and equipping an arts and technology center to be located on the existing school lot on School Street in the Town of Fairfield, which is the site of the Lawrence Junior-Senior High School Complex?"

The voters shall indicate by a cross or a check mark placed against the word "Yes" or "No" their opinion of the same.

This Act takes effect for all purposes after its acceptance by a majority of the legal voters voting on the question.

Sec. 6. Additional disclosures. The following disclosures must accompany the question on the ballot:

1. The entire additional operating costs of the new project during its first 2 years must be supported entirely by revenues raised by the school administrative unit through fund-raising efforts with no tax burden placed on the voters of Maine School Administrative District No. 49;

2. The estimated amount of the additional operating costs during the first 2 years is \$35,000 in the first year and \$38,000 in the 2nd year. These costs will be paid from an endowment established through

fund raising, with no tax burden on the voters of Maine School Administrative District No. 49; and

3. Maine School Administrative District No. 49 is responsible for the local share of debt service allocation as calculated in accordance with state law. In this case, however, there will be no debt service on the project since it is to be funded entirely from gifts and grants to the district and earnings thereon.

Effective pending referendum.

CHAPTER 33

S.P. 566 - L.D. 1536

An Act to Clarify the Municipal Bounds of the Town of Eliot

Emergency preamble. Whereas, Acts of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

Whereas, the current jurisdictional boundary for the Town of Eliot along the Piscataqua River and its tributaries remains uncertain; and

Whereas, the uncertainty of the location of the Town of Eliot's southern bounds along the Piscataqua River and its tributaries interferes with the orderly administration, operation and policing of the Town of Eliot and its harbors and waters; and

CHAPTER 37**H.P. 909 - L.D. 1285****An Act to Clarify and Expand the Powers and Duties of Lake Arrowhead Community, Incorporated**

Emergency preamble. Whereas, Acts of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

Whereas, Lake Arrowhead Community, Inc., the property owners' association providing common services to residents of Lake Arrowhead Community, formerly known as Lake Arrowhead Estates, in the Town of Waterboro and the Town of Limerick, is in serious financial difficulty and may no longer be able to provide such services; and

Whereas, the municipalities of Limerick and Waterboro are also unable to provide these services; and

Whereas, the residents of Lake Arrowhead Community are unable to finance these services on a voluntary basis; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

Be it enacted by the People of the State of Maine as follows:

Sec. 1. Corporation confirmed. Lake Arrowhead Community, Inc., incorporated October 17, 1975, is confirmed as a Maine nonprofit corporation.

Sec. 2. Territory of Lake Arrowhead Community, Inc. defined. The territory of the Town of Limerick and the Town of Waterboro in the County of York, as is bounded and described as follows: that real estate shown on plans of Lake Arrowhead Estates recorded in the York County Registry of Deeds in Book 50, Page 12, index 1 on December 30, 1969; Book 62, Page 2, recorded in the registry on February 13, 1973; Book 61, Page 41, recorded in the registry on February 13, 1973; Book 61, Page 27, recorded in the registry on January 18, 1973; Book 65, Page 25, recorded in the registry on January 18, 1973; Book 57, Page 33, recorded in the registry on June 23, 1972; Book 63, Page 1, recorded in the registry on February 13, 1973; Book 52, Page 48, recorded in the registry on November 5, 1970; Book 62, Page 32, recorded in the registry on

Sec. 3. General powers of corporation. The corporation has the power, within its territory, to construct, maintain and repair roads, streets, ways and sidewalks; to maintain, improve and expand the water system, to provide or procure sewer and refuse disposal facilities and to contract with others to provide power and light services; to provide security and fire protection; to build, repair and maintain docks, boat ramps, wharves, landings, the corporation's buildings, tennis courts and swimming pools; to purchase, construct, maintain and repair such buildings and equipment as may be necessary or desirable; and to adopt budgets, establish membership fees, make membership fee assessments and borrow money necessary to effectuate the purposes described in this section. The corporation has the powers granted to condominium unit owners' associations by the Maine Revised Statutes, Title 33, section 1603-102.

Sec. 4. Officers; duties and powers. The officers of the corporation must be members of the corporation and consist of 9 trustees, a treasurer and a clerk and such other officers as may be provided for in the bylaws of the corporation. A trustee may also serve as the clerk or treasurer. The trustees shall appoint the clerk, the treasurer and any other officers for one-year terms. The clerk of the corporation shall provide the clerk's current mailing address to the Secretary of State by June 30th of each year. The treasurer of the corporation shall give a bond to the corporation in such a sum as the trustees may direct, and the bond must be approved by the trustees and recorded by the clerk. Trustees serve without compensation and must be sworn by the clerk or any person authorized by law to administer oaths of office.

The directors of Lake Arrowhead Community, Inc., shall, within 60 days of the effective date of this Act, select the initial trustees according to the following: three to serve terms of one year or until the first annual meeting of the corporation, whichever comes first; 3 to serve terms of 2 years or until the 2nd annual meeting of the corporation, whichever comes first; and 3 to serve terms of 3 years or until the 3rd annual meeting of the corporation, whichever comes first. The members of the corporation shall, at the annual meeting of the corporation, fill any vacancy created by the expiration of a trustee's term of office by electing trustees for a term of 3 years. A vacancy in the office of trustee occurring during a trustee's

term of office must be filled for the remainder of the unexpired term by vote of the remaining trustees. One trustee, chosen by vote of all trustees, serves as chair of all meetings of the trustees and of the corporation. Between the time of the effective date of this Act and the time the directors select the initial trustees, the directors shall serve as trustees in accordance with this Act. In selecting the initial trustees, the directors may choose among themselves.

The trustees have all powers necessary to conduct the corporation's business and execute its rights and responsibilities, including the adoption of an annual budget and, as may be necessary, supplemental budgets, adequate for the corporation to carry out its rights and obligations; to determine the amount of money to be raised through membership fees in accordance with sections 9 and 10 of this Act; and to adopt rules and regulations consistent with the bylaws of the corporation and any votes of the corporation on any matter.

The trustees shall, at least annually, cause an audit of the corporation's financial affairs to be made.

Sec. 5. Bylaws. The corporation may adopt and amend bylaws, consistent with the laws of this State and the Constitution of Maine and applicable ordinances and regulations of the Town of Limerick and the Town of Waterboro, necessary for the regulation of the affairs of the corporation.

Sec. 6. Meetings of the corporation; members. The annual meeting of the corporation must be held on the first Saturday in August of each year. Notice of annual meetings and any special meetings must be made by the trustees by a warrant that states the time, date, place and subject matters to be considered at the meeting and that warrant must be posted in 2 conspicuous public places within the corporate limits of the corporation 7 days prior to the meeting.

In addition, a copy of the warrant must be mailed by first class mail, postage prepaid, to each member as shown on the clerk's list of members at the member's last known address at least 30 days before the annual meeting or any special meeting. Failure of a member to receive notice does not affect the validity of any action taken at a meeting.

A list of the members must be prepared by the clerk and posted by the trustees at the place of the annual meeting and any special meeting.

Every person 18 years of age or older who is the owner of a lot of record within the territory of the corporation as shown on the tax assessment records of the Town of Limerick and the Town of Waterboro is a member of the corporation and subject to its charter, bylaws, rules and regulations and a member having

the right to vote at meetings of the corporation. If a lot is owned by 2 or more persons, only one may be considered a member for the purpose of voting and those persons may agree in a written notice filed with the trustees which one of the owners is to be the voter at a meeting of the corporation. In the absence of such an agreement, the clerk shall decide which person may vote. Regardless of the number of lots owned by a member, no member has more than one vote.

Special meetings of the corporation may be held at the call of the chair of the trustees or of a majority of the trustees.

The trustees of the corporation shall determine the persons who are entitled to vote at any meeting and shall direct the clerk to prepare the list of all members at least 7 days prior to every meeting. A vote may be by voice or by a show of hands, except that a vote upon any proposition at any meeting must be taken and checked against the voting list upon the demand of 7 members.

At all meetings of the corporation a quorum consists of 50 members. Members voting by absentee ballot must be counted toward the quorum requirement. Except as otherwise provided, all propositions adopted by the corporation must be by a majority of those voting in person or by absentee ballot.

Sec. 7. Power to raise money; debt. The corporation through its trustees is authorized and vested with the power to exercise the powers described in section 3 of this Act; to purchase, construct, maintain and repair buildings and equipment as may be necessary or desirable; to acquire by purchase, gift or grant and by deed, will, lease or otherwise, title to real estate and tangible and intangible personal property for the benefit of the corporation; to manage, operate, mortgage, sell, lease and exchange real estate and personal property for the benefit of the corporation; to employ or otherwise contract with any individual, firm, association or corporation to accomplish the purposes described in this section; and to pay the salaries and expenses of the corporation.

For the sole purpose of being eligible to purchase surplus property and to apply for grants and loans the corporation is deemed to be a municipality.

The corporation is further authorized and vested with the power to authorize the borrowing of money and the issuing of bonds, notes or other evidences of indebtedness in such amounts as the members of the corporation determine necessary for the purposes set forth in this section. The trustees of the corporation may determine the rates of interest and the terms and conditions of any such indebtedness. Notwithstanding any other provision of this Act or any other provision of law, the total outstanding indebtedness of the corporation may not exceed the sum of \$100,000,

except to the extent the corporation authorizes the trustees to exceed that limit by a vote of 2/3 of the members voting in person or by absentee ballot at any meeting.

Sec. 8. Reserve fund. The corporation may establish a reserve fund not to exceed \$500,000, except to the extent the corporation authorizes the trustees to exceed that limit by a vote of 2/3 of the members voting in person or by absentee ballot at any meeting.

Sec. 9. Membership fee levied. For all purposes of assessment of fees under this Act, the person or persons shown on tax assessment records of the Town of Limerick and the Town of Waterboro as being the owner of any lot of land within the limits of the corporation is deemed the owner.

Regular membership fees and surcharges and supplemental membership fees and surcharges as may be necessary must be established each year by the trustees so that the total fees assessed are adequate to fund the corporation's expenses, including the payment of debt, contribution to the reserve fund and the establishment of a reasonable surplus. The corporation by a vote of its members shall establish the structure and formula by which the trustees may calculate the amount of the membership fee to be assessed to any member or members of the corporation. The corporation shall provide for a fair and reasonable structure and formula for fee assessment and establish classes of fee assessment and may make a distinction between lots that are developed and those that are not developed. The membership fee for each class must be assessed in the same amount for each person in that class.

All money that is raised by the corporation at its annual or special meeting for purposes for which the corporation may lawfully raise money and all money that the trustees vote to raise at their meetings, except any rates or charges fixed by the trustees for the use of water, sewer or refuse disposal facilities, must be assessed by regular or special assessment upon the buildings and lands within the corporation's territory by the clerk of the corporation in the same manner as is provided by law for the assessment of town and county taxes.

In addition to the assessment provided in this section, the trustees may fix rates or charges that are reasonable and expedient based on the use of water, sewer or refuse disposal facilities. The rates or charges for use of water, sewer or refuse disposal facilities are payable by the person shown on the tax assessment records of the Town of Limerick and the Town of Waterboro as being the owner of the lot benefiting from those facilities. Any charges not paid are considered assessments under all of the provisions

of this section and section 10 of this Act and must be collected pursuant to the provisions of section 10 of this Act.

Sec. 10. Membership fee assessment and collection. After a certificate is filed by the trustee with the clerk of the corporation of the amount of money voted to be raised at any meeting of the trustees or any meeting of the corporation, the clerk shall, within 30 days of the filing of the trustees' certificate, assess membership fees upon the buildings and lands within the corporation's territory and certify and deliver the lists of the membership fee assessments to the treasurer. The treasurer shall collect the membership fee assessments. The treasurer shall receive all money belonging to the corporation, keep a regular account of all money received and paid out and exhibit the account to the trustees and the members whenever requested to do so.

The corporation has the same power of collecting membership fee assessments that a condominium unit owners' association has. The corporation has the same right to recover by suit membership fees assessed under this Act as a condominium unit owners' association has pursuant to the Maine Revised Statutes, Title 33, section 1603-116, as amended from time to time. The trustees have the power to waive any membership fee assessment for good cause shown.

The rights and powers of the corporation and its treasurer to collect membership fee assessments and any liens are at all times subordinate to the rights and powers, assessments, liens or attachments of the Town of Limerick and the Town of Waterboro in the collection of their respective taxes, assessments or other lawful charges. The rights and powers of the corporation and its treasurer to collect membership fee assessments and liens are also subordinate to the rights of any mortgagees, judgment creditors and other lienholders on land or buildings within the corporation's territory that are existing and recorded in the York County Registry of Deeds at the time of the effective date of this Act.

Sec. 11. Property of corporation not tax exempt. Property of the corporation or its members is not exempt from taxation by reason of this Act or the laws of this State.

Sec. 12. Records and proceedings of the corporation. The records and other documents of the corporation must be available to all members of the corporation and the meetings of the trustees must be open to attendance by all members of the corporation. The trustees may meet in executive session to discuss pending or threatened litigation and personnel matters. Documents relating to pending or threatened litigation or the personnel file of an employee are not

available to any person except the trustees and officers of the corporation and, in the case of a personnel file, the employee to whom the file refers.

Sec. 13. Membership fee assessments.

The provisions of this Act governing membership fee assessments by the corporation apply to all members. They replace any existing provisions for assessments. However, any assessments or other charges owed before the effective date of this Act remain valid debts and are enforceable pursuant to the provisions of this Act. For the purposes of this section, assessments or other charges are considered owed if and to the extent that at the time of assessment a member's deed contained provision for the assessment or was subject to a condition for the assessment and the corporation has not in writing waived application of the provision or condition.

Sec. 14. Inconsistent provisions of existing articles and bylaws. The provisions of any existing articles of incorporation, bylaws or rules and regulations and the provisions of any contracts, deeds or covenants of Lake Arrowhead Community, Inc., that are inconsistent with the provisions of this Act are abrogated to the extent of that inconsistency.

Sec. 15. Acceptance of provisions. Before the provisions of this Act may be implemented by the corporation, the Act must be accepted by a majority of the members voting in person or by absentee ballot at an annual or special meeting of the corporation. Except as provided in this section, notice and conduct of the meeting must be as provided in this Act and the corporation's bylaws. Written notice of the meeting must include a copy of this Act and an absentee ballot, with a return envelope addressed to the president of the corporation, containing a statement to be signed by an absentee voter verifying that the absentee voter has cast a vote. The corporation must bear any costs related to the meeting. If a special meeting is called to approve the provisions of this Act, that meeting must be called by the current directors of the corporation. The ballot question must be:

"Do you favor acceptance of 'An Act to Clarify and Expand the Powers and Duties of Lake Arrowhead Community, Incorporated,' as passed by the First Regular Session of the 117th Legislature?"

If a majority of all the voters voting at the meeting or by absentee ballot votes in favor of accepting the Act, then it takes effect upon filing of a certification of the results by the president of the corporation with the Secretary of State. The provisions of this Act may be submitted to the members for approval under this section no more than once in any calendar year. Approval under this section must be attained before September 1, 1996.

Emergency clause. In view of the emergency cited in the preamble, this Act takes effect when approved for the purpose of calling a meeting of Lake Arrowhead Community, Inc., for voting upon the acceptance of this Act. If this Act is accepted by a majority of the members voting at a legal meeting called for that purpose, then the Act takes effect in its entirety upon filing of the certification of the results of the voting with the Secretary of State.

Effective June 27, 1995, unless otherwise indicated.

CHAPTER 38

H.P. 1078 - L.D. 1520

An Act to Amend the Earnings Limitations under the Disability Plan

Emergency preamble. Whereas, Acts of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

Whereas, the enactment of Maine State Retirement System Rule, Chapter 508 became effective on March 22, 1994; and

Whereas, the enactment of this rule was necessary to bring the administration of the "Section 1122" disability plan into compliance with the governing law; and

Whereas, the law and rule create hardship for many "Section 1122" disability recipients by severely limiting the amount of money these disability recipients can earn without a reduction in their disability retirement benefits; and

Whereas, other disability plans administered by the Maine State Retirement System by law have more generous earnings limitations than the "Section 1122" disability plan; and

Whereas, enactment of this Act will amend the Maine State Retirement System laws to provide similar earnings limitations in all disability plans; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

Be it enacted by the People of the State of Maine as follows:

Sec. 1. Review for capacity to engage in gainful occupation. If the executive director of the

Maine State Retirement System, when determining the retirement allowance for a person who has been awarded and continues to receive disability benefits under the Maine Revised Statutes, Title 5, former section 1122 and for a participating local district that did not adopt the disability retirement plans established by Public Law 1989, chapter 409 or Public Law 1975, chapter 622, finds that a disability beneficiary is engaged in or is able to engage in a gainful occupation paying more than the difference between the disability beneficiary's retirement allowance and the disability beneficiary's average final compensation at retirement, then the disability beneficiary's allowance must be reduced to an amount that, together with the amount earnable by the disability beneficiary, equals the disability beneficiary's average final compensation at retirement. If the executive director finds that the disability beneficiary's earning capacity is later changed, then the executive director may modify the disability beneficiary's retirement allowance. The modified retirement allowance may not exceed the amount of the retirement allowance originally granted plus any cost-of-living adjustments the disability beneficiary would have been eligible to receive had the beneficiary continued to receive the full allowance from the date it was first awarded. For the purpose of this section, "retirement allowance" means the allowance payable without optional modification as provided in Title 5, section 17803 or section 18404.

Sec. 2. Review for annual earnings. The Maine State Retirement System shall review the annual earnings of a person who is the recipient of disability retirement benefits who receives compensation in any year from engaging in a gainful activity. If the Maine State Retirement System finds that the compensation exceeds the greater of \$10,000 or the difference between the recipient's disability retirement benefit for that year and the recipient's average final compensation at the time that the person became a recipient of a disability retirement benefit, then the retirement system must:

1. Reduce the disability or service retirement benefits by the excess for the next calendar year; and
2. Prorate the reduction on a monthly basis in an equitable manner prescribed by the Board of Trustees of the Maine State Retirement System over the year or part of the year during which the benefits are received.

The beneficiary shall reimburse the Maine State Retirement System for any excess not deducted by the retirement system.

Sec. 3. Methodology. The Maine State Retirement System is directed to devise a proposed methodology and plan that would consolidate the Section 1122, Article 3 and Article 3-A disability plans currently administered by the Maine State

Retirement System into a single pooled plan modeled after the Article 3-A plan. The proposed plan must include transition provisions for participating local districts that have not yet adopted Article 3 or Article 3-A disability plans. This new methodology and unified plan must be presented to the joint standing committee of the Legislature having jurisdiction over labor matters before adjournment of the 2nd Regular Session of the 117th Legislature and must contain proposed legislation to accomplish the consolidation of the 3 disability plans into one pooled plan.

Emergency clause. In view of the emergency cited in the preamble, this Act takes effect when approved.

Effective June 27, 1995.

CHAPTER 39

The area within the territorial limits is defined for the purpose of this Act as Hebron Village.

Sec. 2. Powers of district. The district, for the purposes of its incorporation, may take, collect, store, flow, use, divert, distribute and convey to the district, or any part of the district, water from any source approved by the Department of Human Services, natural or artificial, within the area of Hebron Village and from any other source from which the Hebron Water Company may take water under its charter, Private and Special Law 1899, chapter 49, section 2. It may also locate, construct and maintain aqueducts, pipes, conduits, dams, wells, reservoirs, standpipes, hydrants, pumping stations and other necessary structures and equipment for those purposes and do anything necessary to furnish water for public purposes and for the public health, comfort and convenience of the inhabitants and others of the district, or to contract to do any and all of the foregoing things.

All incidental powers, rights and privileges necessary to the accomplishment of the objectives set forth in this Act are granted to the district created by this Act.

Notwithstanding section 1 and other provisions of this section, the district may not provide service to any person or business within the territory served by the Hebron Water Company unless the district acquires, pursuant to section 13 of this Act, the plant, properties, franchises, rights and privileges owned by the Hebron Water Company or unless the provision of service is approved by the Public Utilities Commission pursuant to the Maine Revised Statutes, Title 35-A, section 2102.

Sec. 3. Authorized to lay mains, pipes, conduits and other water conveyances through public ways and across private lands. The district may lay in, along, under and through the streets, roads, ways, highways, bridges, lakes, ponds, rivers and water courses in the Town of Hebron and the Town of Paris and across private lands in those towns and maintain, repair and replace all such pipes, mains, conduits, aqueducts and fixtures and appurtenances as may be necessary and convenient for its corporate purposes and, whenever the district lays any pipes, mains, conduits, aqueducts and fixtures or appurtenances in any street, road, way or highway, it shall cause the same to be done with as little obstruction as practicable to the public travel and at its own

expense, without unnecessary delay, shall cause the earth and pavement removed by it to be replaced in proper condition.

Sec. 4. Authorized to erect dams and reservoirs; to cross navigable waters; to supply water to utilities. The district, for the purposes of its incorporation, may erect and maintain all dams, reservoirs and structures necessary and convenient for its corporate purposes. The district may lay, construct and maintain its pipes and fixtures in, over and under navigable waters and build and maintain structures for the pipes and fixtures, subject to the laws of the United States. The district may supply water to any public utility now supplying water in Oxford County, subject to the consent of the Public Utilities Commission.

Sec. 5. Procedure if public utility must be crossed. In case of the crossing of any public utility, unless consent is given by the company owning and operating the public utility as to place, manner and conditions of the crossing within 30 days after consent is requested by the district, the Public Utilities Commission, upon petition by the district, shall determine the place, manner and conditions of the crossing, and all work on the property of the public utility must be done under the supervision and to the satisfaction of the public utility or as prescribed by the Public Utilities Commission, but at the expense of the district.

Sec. 6. Authority to acquire property; rights of eminent domain. The district, for the purposes of its incorporation, may take and hold, for public uses, real estate and personal estate and any interest in real estate and personal estate necessary or convenient for those purposes, by purchase, lease or otherwise and may exercise the right of eminent domain as provided in this Act, to acquire for those purposes any land or interest in land or water rights necessary for erecting and maintaining dams, plants and works, for flowage, power, pumping and supplying water through its mains; for reservoirs, preserving the purity of the water and watershed; for laying and maintaining aqueducts and other structures; for taking, distributing, discharging and disposing of water; and for rights-of-way or roadways to its sources of supply, dams, power stations, reservoirs, mains, aqueducts, structures and lands.

This section may not be construed as authorizing the district to take by right of eminent domain any of the property or facilities of any other public utility used, or acquired for future use by the owner of that property or those facilities, in the performance of a public duty, unless expressly authorized to do so by subsequent act of the Legislature.

Sec. 7. Procedure in exercising of eminent domain. The district may exercise the right of eminent domain granted under section 6 in accordance with this section. The district, in exercising, from time to time, any right of eminent domain in the taking of land, interests in the land or water rights, shall file in the office of the county commissioners of Oxford County and record in the Oxford County Registry of Deeds plans of the location of all such property to be taken, with an appropriate description and the names of the owners, if known. Notice of the filing must be sent by mail to the owners at the address appearing on the tax records of the municipality in which the land is located. When for any reason the district fails to acquire the property it is authorized to take, and which is described in that location, or if the location recorded is defective or uncertain, it may, at any time, correct and perfect that location and file a new description, and in such case the district is liable for damages only for property for which the owner had not previously been paid, to be assessed as of the time of the original taking, and the district is not liable for any acts that would have been justified if the original taking had been lawful. Entry may not be made on any private lands, except to make surveys, until the expiration of 10 days from that filing, at which time possession may be had of all lands, interests in the lands or water rights so taken, but title does not vest in the district until payment has been made.

Sec. 8. Adjustment of damages; procedure as in laying out of highways. If any person sustaining damages by any taking pursuant to the right of eminent domain does not agree with the district upon the sum to be paid for the taking, either party, upon petition to the county commissioners of Oxford County, may have the damages assessed by them. The procedure and all subsequent proceedings and right of appeal are under the same restrictions, conditions and limitations as are or may be by law prescribed in the case of damages by the laying out of highways.

Sec. 9. Trustees; how elected; first board; meeting; officers. All of the affairs of the district must be managed by a board of trustees composed of 3 members, all of whom must be residents of the district and, after selection of the first board, elected as provided in the Maine Revised Statutes, Title 35-A, chapter 63, except as specifically provided in subsection 4 of this section.

1. First board. The municipal officers of the Town of Hebron shall appoint the first board of trustees. One trustee serves for a term of one year, one trustee serves for a term of 2 years and one trustee serves for a term of 3 years. At the first meeting the initial trustees shall determine by agreement, or failing to agree they shall determine by lot, the term of office of each trustee. Vacancies are filled pursuant to subsection 4 of this section.

2. Organization; conduct of business. Organization and powers of the board of trustees must be in accordance with the Maine Revised Statutes, Title 35-A, chapter 63.

All decisions of the board of trustees must be by a majority of those present and voting. A quorum of the board of trustees is 2 trustees.

Trustees are entitled to compensation in accordance with Title 35-A, chapter 63.

3. Bylaws. The trustees may adopt and establish such bylaws as are necessary for the proper management of the affairs of the district.

4. Vacancy. Whenever the term of office of a trustee expires, the trustee's successor must be elected at large by a plurality vote by the inhabitants of the district. For the purpose of election, a special election must be called and held on the same date as the annual municipal election, the election to be called by the trustees of the district in the same manner as town meetings are called and for this purpose the trustees are vested with the powers of municipal officers of towns. The trustee so elected shall serve the full term of 3 years. If any vacancy arises in the membership of the board of trustees, it must be filled in like manner for the unexpired term by a special election to be called by the trustees of the district. When any trustee ceases to be a resident of the district, the trustee shall vacate the office of trustee and the vacancy must be filled as provided in this section. All trustees are eligible for reelection, but a person who is a municipal officer in the Town of Hebron is not eligible for nomination or election as trustee.

The trustees shall appoint a registrar of voters for the district, who may also be the registrar of voters for the Town of Hebron, and fix the registrar's salary. It is the registrar's duty to make and keep a complete list of all the eligible voters of the district. The list prepared by the registrar, as provided by the laws of the State, governs the eligibility of any voter. In determining the eligible voters of the district, the registrar of voters shall exclude from that list and from all checklists the legal voters who are resident outside the territorial limits of the district as defined in this Act. All warrants issued for elections by the trustees must be varied accordingly to show that only the voters resident within the territorial limits of the district are entitled to vote.

Sec. 10. Annual report. The trustees or their designated representative shall make and publish an annual report, including a report of the treasurer. The report may be included in and published as part of the annual town report of the Town of Hebron.

Sec. 11. District and towns authorized to make and assume contracts. The district, through

its trustees, in order to carry out the objectives set forth in this Act, may contract with persons, districts, municipalities, utilities or corporations. The district may contract with the Town of Hebron and the town may contract with the district for the supply of water for municipal purposes.

Sec. 12. Authorized to receive government aid; borrow money; issue bonds and notes. For accomplishing the purposes of this Act, the district, through its trustees, without vote of the inhabitants, may receive state and federal aid or grants, borrow money temporarily and issue for the money its negotiable notes for the purpose of renewing and refunding the indebtedness so created, for paying any necessary expenses and liabilities incurred under this Act, including organizational and other necessary expenses and liabilities, whether incurred by the district or the Town of Hebron, the district being authorized to reimburse the Town of Hebron for any such expense incurred by the town and in acquiring properties, paying damages, laying pipes, mains, aqueducts and conduits, constructing, maintaining and operating a water plant or system and making renewals, additions, extensions and improvements to the water plant or system and to cover associated interest payments. The district, through its trustees, may also issue, from time to time, in accordance with the Maine Revised Statutes, Title 35-A, bonds, notes or other evidences of indebtedness of the district in such amount or amounts, bearing interest at such rate or rates, selling at par or at a discount or a premium, to be sold in such manner, at public or private sale, and having such other terms and provisions as the trustees determine, except that loans running for one year or less do not require the approval of the Public Utilities Commission.

Except as otherwise provided in this paragraph but notwithstanding any other provision of law, in the event that the trustees vote to authorize bonds or notes that, singly or in the aggregate in any one financing, exceed \$300,000, the debt may not be incurred until approved by a majority of the legal voters within the district voting in a special election. The special election must be called by the trustees within 30 days after their vote to authorize the issuance of the bonds or notes. The election must be called in the same manner as elections of trustees are called, pursuant to section 9, subsection 4 of this Act, except that the election is not required to be held on the same day as the annual municipal election. The requirements of this paragraph do not apply to bonds or notes issued for purposes of renewing or refinancing existing indebtedness of the district.

Bonds, notes and evidences of indebtedness of the district may be issued to mature serially or made to

run for a term of years as the trustees determine. Bonds, notes or evidences of indebtedness may be issued with or without provisions for calling the bonds, notes or evidences of indebtedness prior to maturity and, if callable, may be made callable at par or at such premium as the trustees determine. All bonds, notes or other evidences of indebtedness must have inscribed upon their face the words "Hebron Village Water District" and be signed by the treasurer and countersigned by the chair of the board of trustees of the district. If coupon bonds are issued, the interest coupon attached to the coupon bonds must bear the facsimile signature of the treasurer.

All bonds, notes and evidences of indebtedness so issued by the district, which is declared to be a quasi-municipal corporation, are legal obligations of the district within the meaning of the Maine Revised Statutes, Title 30-A, section 5701.

The district may refund and reissue, from time to time, in one or in separate series, its bonds, notes and other evidences of indebtedness, and each authorized issue constitutes a separate loan. All bonds, notes and evidences of indebtedness issued by the district are legal investments for savings banks in the State and are exempt from state income tax.

Sec. 13. Authorized to acquire property and franchises of Hebron Water Company. The district, through its trustees, may acquire by purchase or conveyance or lease, all or part of the plant, property, franchises, rights and privileges owned by the Hebron Water Company located within the Town of Paris or the Town of Hebron, including all lands, waters, water rights, reservoirs, pipes, machinery, fixtures, hydrants, tools and all apparatus and appliances used or usable in supplying water in the area of the district. Any transfer or conveyance by Hebron Water Company under this section is subject to the approval of the Public Utilities Commission required by applicable provisions of the Maine Revised Statutes, Title 35-A.

Sec. 14. Rates. The rates established pursuant to this section must be sufficient to provide revenue for the purposes of this Act and for all other purposes of the district, without the need for any financial assistance from the Town of Hebron, other than the normal payment of water charges for services rendered and the loan or loans for initial funds as set forth in section 12. Individuals, firms and corporations, whether private, public or municipal, shall pay to the treasurer or other designated officer of the district the rates established by the board of trustees for the water service provided to them. The rates must be established in accordance with the Maine Revised Statutes, Title 35-A.

Sec. 15. Existing laws not affected; rights conferred subject to provisions of law. Nothing contained in this Act is intended to repeal, or may be construed as repealing, the whole or any part of any existing law, and all the rights and duties mentioned in this Act must be exercised and performed in accordance with all the applicable provisions of and amendatory acts to the Maine Revised Statutes, Title 35-A to the extent that Title 35-A and its amendments affect the operations of the district.

Sec. 16. Separability clause. If any section or part of a section of this Act is held invalid by a court of competent jurisdiction, the holding does not affect the remainder of this Act, it being the intention that the remaining portions of this Act stand, notwithstanding the unconstitutionality or invalidity of any section, sentence, clause or phrase.

Sec. 17. Referendum; effective date. This Act takes effect 90 days after the adjournment of the First Regular Session of the 117th Legislature but only for the purposes of permitting its submission to the legal voters within the district at an election called for that purpose and held by December 31, 1996. Nothing in this section requires an election to be held. If an election is held, the election must be called, advertised and conducted according to the law relating to municipal elections, except that the registrar of voters is not required to prepare or the clerk to post a new list of voters. For the purpose of registering voters, the registrar of voters must be in session the secular day preceding the election. The subject matter of this Act is reduced to the following question:

"Do you favor creating the Hebron Village Water District?"

The voters shall indicate by a cross or check mark placed against the words "Yes" or "No" their opinion of the same.

The results must be declared by the municipal officers of the Town of Hebron and the due certificate of the results filed by the clerk with the Secretary of State.

This Act takes effect for all purposes immediately upon its acceptance by a majority of the legal voters within the district voting at the special election. Failure of the approval by the necessary majority of voters at any such election does not prevent a subsequent election or elections from being held for that purpose, provided the elections are held no later than December 31, 1996.

Effective pending referendum.

CHAPTER 40

H.P. 937 - L.D. 1326

An Act Concerning the Kennebec Water District

Mandate preamble. This measure requires one or more local units of government to expand or modify activities so as to necessitate additional expenditures from local revenues but does not provide funding for at least 90% of those expenditures. Pursuant to the Constitution of Maine, Article IX, Section 21, two thirds of all of the members elected to each House have determined it necessary to enact this measure.

Emergency preamble. Whereas, Acts of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

Whereas, a review of the Kennebec Water District's rates has already begun at the Public Utilities Commission and in order to ensure that the directives in this Act become effective before that review has concluded this Act needs to be an emergency; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

Be it enacted by the People of the State of Maine as follows:

Sec. 1. P&SL 1899, c. 200, §5, as amended by P&SL 1995, c. 31, §1, is repealed and the following enacted in its place:

Sec. 5. Trustees; how elected. All of the affairs of the district are managed by a board of trustees composed of 10 members, 4 of whom are elected by a plurality of voters of the City of Waterville, 2 of whom are elected by a plurality of voters of the Town of Winslow, 2 of whom are elected by a plurality of voters of the Town of Fairfield, one of whom is elected by a plurality of voters of the Town of Benton and one of whom is elected by a plurality of voters of the Town of Vassalboro. Trustees must be residents of the towns in which they are elected. Nominations and elections must be conducted in accordance with the Maine Revised Statutes, Title 35-A, chapter 63, except as specifically provided in subsection 3 of this section.

1. Organization; conduct of business. As soon as convenient after the election of trustees, the trustees

shall hold a meeting in the city rooms in the City of Waterville and organize by the election of a president and clerk, adopt a corporate seal and, when necessary, may choose a treasurer and all other necessary officers and agents for the proper conduct and management of the affairs of the district.

All decisions of the board of trustees must be by a majority of those present and voting. A quorum of the board of trustees is 7 trustees.

Trustees are entitled to compensation in accordance with Title 35-A, chapter 63.

2. Bylaws. The trustees may adopt and establish such bylaws as are necessary for the proper management of the affairs of the district.

3. Election; vacancy. Whenever the term of office of a trustee expires, the trustee's successor must be elected as provided in this section. For the purpose of election, a special election must be called and held between October 1st and November 30th prior to the expiration of the trustee's term, the election to be called by the municipal officers of the appropriate city or town. The term of the trustee so elected begins on the first Wednesday of January following the election. The trustee so elected shall serve the full term of 3 years.

If any vacancy arises in the membership of the board of trustees, it must be filled by appointment for the unexpired term by the municipal officers of the town from which the trustee was elected.

All elections held pursuant to this section must be paid for by the district. When any trustee ceases to be a resident of the town or city from which the trustee was elected, the trustee shall vacate the office of trustee and the vacancy must be filled as provided in this section. All trustees are eligible for reelection, except that a person who is serving as a municipal officer in Waterville, Winslow, Fairfield, Benton or Vassalboro is not eligible for nomination or election as trustee and no trustee may serve more than 2 consecutive terms.

Sec. 2. Transition. The terms of trustees of the Kennebec Water District, serving on the effective date of this section, which would otherwise terminate prior to January 1, 1997, are extended until January 1, 1997 or until the trustees' successors are elected and qualified pursuant to this section. The terms of all other trustees terminate upon the election and qualification of successors pursuant to this section.

The first elected board of trustees of the district must be elected by special election held in the City of Waterville and the towns of Winslow, Fairfield, Benton and Vassalboro on the same date as the general election in November, 1996. The elected

board of trustees must be composed as follows: 4 trustees must be elected by a plurality of voters of the City of Waterville, 2 trustees must be elected by a plurality of voters of the Town of Winslow, 2 trustees must be elected by a plurality of voters of the Town of Fairfield, one trustee must be elected by a plurality of voters of the Town of Benton and one trustee must be elected by a plurality of voters of the Town of Vassalboro. Trustees must be residents of the towns in which they are elected. The nominations and the elections must be conducted in accordance with the laws relating to municipal elections.

The terms of trustees elected pursuant to this section begin on January 1, 1997 and are further qualified as follows: 2 trustees from the City of Waterville, one trustee from Winslow, one trustee from Fairfield and the trustee from Vassalboro serve for 2 years or until their successors are elected and qualified; 2 trustees from the City of Waterville, one trustee from Winslow, one trustee from Fairfield and the trustee from Benton serve for 3 years or until their successors are elected and qualified. The determination of which trustees from Waterville, Winslow and Fairfield serve a 2-year term and which a 3-year term must be determined by agreement among those trustees and, failing agreement, by lot. Notice of the determination must be given to the public and to municipal officers of Waterville, Winslow and Fairfield.

Successors are elected as provided in section 1 of this Act.

Sec. 3. Examination. In its proceedings in Docket #95-091, the Public Utilities Commission shall examine the management decisions of the Kennebec Water District, including, but not limited to, decisions regarding the selection, sizing, construction and operation of the filtration system, the impact of those decisions on the reasonableness of current and proposed rates and remedies, if any, for improper management decisions resulting in increased rates. Nothing in this section may be construed to be a legislative finding of fact that any improper act or omission has occurred on the part of the Kennebec Water District.

Sec. 4. Emergency clause; referendum; effective dates. In view of the emergency cited in the preamble, this Act takes effect when approved except that section 1 and section 2 of this Act take effect only for the purpose of permitting their submission to the legal voters within the City of Waterville and the towns of Winslow, Fairfield, Benton and Vassalboro at an election called for that purpose and held by December 31, 1995. The election must be called, advertised and conducted according to the law relating to municipal elections, except that the registrars of voters are not required to prepare or the

clerks to post a new list of voters. For the purpose of registration of voters, the registrars of voters must be in session the secular day preceding the election. The subject matter of section 1 and section 2 is reduced to the following question:

"Do you favor amending the charter of the Kennebec Water District to cause the number of trustees of the district to be increased from 7 to 10, composed of 4 from Waterville, 2 from Fairfield, 2 from Winslow, one from Benton and one from Vassalboro, and to cause these trustees to be elected by the voters rather than appointed by the municipal officers of the respective towns?"

The voters shall indicate by a cross or check mark placed against the words "Yes" or "No" their opinion of the same.

The results must be declared by the municipal officers of the towns of Winslow, Fairfield, Benton and Vassalboro and the City of Waterville and due certificate of the results filed by the clerks with the Secretary of State.

If approved by a majority of the legal voters voting at the special election in each of the towns of Winslow, Fairfield, Benton and Vassalboro and the City of Waterville, section 1 and section 2 of this Act take effect as follows: section 2 takes effect February 1, 1996; and section 1 takes effect on January 1, 1997.

Effective June 30, 1995, except where pending referendum.

An Act Making Unified Appropriations and Allocations for the Expenditures of State Government, Highway Fund, and Changing Certain Provisions of the Law Necessary to the Proper Operations of State Government for the Fiscal Years Ending June 30, 1996 and June 30, 1997

Emergency preamble. Whereas, Acts of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

Whereas, the 90-day period may not terminate until after the beginning of the next fiscal year; and

Whereas, certain obligations and expenses incident to the operation of state departments and institutions will become due and payable immediately; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

Be it enacted by the People of the State of Maine as follows:

PART A

Sec. A-1. Appropriations and allocations.

In order to provide for necessary expenditures of State Government and other purposes for the fiscal years ending June 30, 1996 and June 30, 1997, the following sums as designated in the following tabulations are appropriated or allocated out of any money not otherwise appropriated or allocated.

CHAPTER 42

H.P. 1127 - L.D. 1572

**An Act to Amend the Charter of the
Corinna Water District**

Mandate preamble. This measure requires one or more local units of government to expand or modify activities so as to necessitate additional expenditures from local revenues but does not provide funding for at least 90% of those expenditures. Pursuant to the Constitution of Maine, Article IX, Section 21, two thirds of all of the members elected to each House have determined it necessary to enact this measure.

Emergency preamble. Whereas, Acts of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

Whereas, the Corinna Water District needs to undertake an expansion of its water lines immediately; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

**Be it enacted by the People of the State of
Maine as follows:**

Sec. 1. P&SL 1947, c. 86, §1, as amended by P&SL 1969, c. 82, §1, is further amended by repealing the last paragraph.

Sec. 2. P&SL 1947, c. 86, §11, first sentence, as amended by P&SL 1969, c. 82, §2, is further amended to read:

For accomplishing the purposes of this Act, ~~said~~ the district, through its trustees, is authorized to borrow money from time to time, not to exceed ~~\$500,000~~ \$1,000,000, and to issue ~~therefor~~ for that purpose the interest bearing negotiable notes of the district, maturing serially or otherwise, and to make subsequent renewals of the same in whole or in part, and for ~~said those~~ purposes and for the purpose of refunding any notes, bonds or other lawful indebtedness and to establish a fund therefor, of obtaining or providing money to pay or to meet any necessary expenses and liabilities under the provisions of this Act, including expenses in the creation of this district, in securing sources of supply, taking water and land, paying damages, laying pipes, constructing, maintaining and operating a water plant system and making extensions, additions and improvements to the same, the ~~said~~ district, through its trustees, may from time to time issue bonds of the district ~~to~~ in an amount necessary in the judgment of the trustees therefor, maturing at one time or in uniform or varying installments, with or without call provisions and at or without any premium.

Sec. 3. P&SL 1947, c. 86, §13 is repealed and the following enacted in its place:

Sec. 13. Rates. The rates established pursuant to this section must be sufficient to provide revenue for the purposes of this Act and for all other purposes of the district, without the need for any financial assistance from the Town of Corinna other than the normal payment of water charges for services rendered and the loan or loans for initial funds as set forth in section 11. Individuals, firms and corporations, whether private, public or municipal, shall pay to the treasurer or other designated officer of the district the rates established by the board of trustees for the water service provided to them. The rates must be established in accordance with the Maine Revised Statutes, Title 35-A, chapter 61.

Sec. 4. P&SL 1947, c. 86, §17 is enacted to read:

Sec. 17. State funds exempt from investigation. The management and allocation by the Corinna Water District of a contribution of funds by the State under the Maine Revised Statutes, Title 38, section 568, subsection 2 and the income from those funds are not subject to investigation or review by the Public Utilities Commission under Title 35-A,

section 310, 1302 or 1303, except upon request by the Department of Environmental Protection.

Sec. 5. Emergency clause; referendum; effective date. In view of the emergency cited in the preamble, this Act takes effect when approved except that section 2 takes effect only for the purpose permitting its submission to the legal voters within the Corinna Water District at an election called for that purpose and held by December 31, 1996. The election must be called, advertised and conducted according to the law relating to municipal elections, except that the registrar of voters is not required to prepare or the clerk to post a new list of voters. The registrar of voters must be in session the secular day preceding the election for the purposes of registering voters. The subject matter of section 2 of this Act is reduced to the following question:

"Do you favor increasing the debt limit of the Corinna Water District from \$500,000 to \$1,000,000?"

The voters shall indicate by a cross or check mark placed against the words "Yes" or "No" their opinion of the same.

The results must be declared by the municipal officers of the Town of Corinna and the due certificate of the results filed by the clerk with the Secretary of State.

Section 2 of this Act takes effect for all purposes immediately upon its acceptance by a majority of the legal voters within the district voting at the special election. Failure of the approval by the necessary majority of voters at any such election does not prevent a subsequent election or elections from being held for that purpose, provided the election is held no later than December 31, 1996.

Resolve, to Establish a Paper Industry Council

Emergency preamble. Whereas, Acts and resolves of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

Whereas, the Commission on the Future of Maine's Paper Industry believes any study benefits by a follow-up on its recommendations; and

Whereas, the commission found that nowhere in State Government is there an entity charged specifically with the welfare of the industry such as exists for blueberries, lobsters, potatoes and tourism; and

Whereas, the commission would like implementation of its recommendations to receive early attention because of immediate need for some of them to be implemented, in order to take advantage of the attention that the commission's actions has focused on the subject and in order to be part of the emerging priorities of a new Governor and a new Legislature; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore, be it

The appointing authorities shall notify the Executive Director of the Legislative Council upon making their appointments. 1. The initial priority is to oversee implementation of the recommendations of the Commission on the Future of Maine's Paper Industry, which was created by Resolve 1993, chapter 75.

2. The council's long-term task is to recommend to all interested parties ways in which the future of the paper industry may be enhanced, while concurrently enhancing employment, the environment and the state budget. Whereas, a key to economic development in this State, more so than in most states, lies in access to global markets; and

Whereas, studies have shown that on a national basis it is small businesses that are least apt to take advantage of export financing assistance and Maine is a state of small businesses; and

Whereas, it is important to identify any gaps or weaknesses and build upon any strengths in the current export financing programs available to Maine firms; and

Whereas, it is important to identify and correct any weaknesses in the State's current export financing program; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore, be it

The majority of the group must be comprised of representatives of private businesses; and be it further

Sec. 3. Programs to be studied. Resolved: That the study group shall research the existing export finance programs in Maine, including, but not limited to, those offered by the Department of Economic and Community Development, the Finance Authority of Maine, the Small Business Administration and the Export-Import Bank of the United States; and be it further

Sec. 4. User survey. Resolved: That the study group shall survey banks and businesses, particularly small businesses, to determine their awareness and use of the currently available export financing programs and services; and be it further

Resolved: That the study group shall submit a written report of its findings and recommendations, together with any implementing legislation on how to improve the availability of, and access to, export finance programs in Maine, to the joint standing committee of the Legislature having jurisdiction over business and economic development matters by January 1, 1996 and shall make an oral report to that committee by February 1, 1996.

The written report must include numerical objectives, costs and an evaluation plan for the program presented. It must also include a provision for assigning and enforcing accountability for those who may receive state funds as part of the program. The report must prioritize the recommended programs within the State's overall economic development goals

and strategy, as determined by the Commissioner of Economic and Community Development.

Emergency clause. In view of the emergency cited in the preamble, this resolve takes effect when approved.

Effective June 9, 1995.

CHAPTER 18

H.P. 1030 - L.D. 1449

Resolve, Authorizing the Town of Dennysville to Transfer a Certain Parcel of Property

Preamble. Whereas, the 109th Legislature in 1979 authorized the Director of the Bureau of Public Lands to transfer to the Town of Dennysville a parcel of land and the structure on that land located in the unorganized township of Edmunds, Washington County; and

Whereas, Resolve 1979, chapter 1, which authorized the transfer, imposed a condition that, if the unorganized township of Edmunds became organized as a plantation or town, the Town of Dennysville was required to transfer the property to the Municipality of Edmunds; and

Whereas, the unorganized township of Edmunds has not become organized; and

Whereas, the Town of Dennysville desires to sell the property but is hindered in doing so because of the requirement of the conditional transfer to Edmunds; now, therefore, be it

H.P. 947 - L.D. 1336

Resolve, to Direct the Land and Water Resources Council to Develop Alternatives to the Site Location of Development Laws That Protect the Environment and Improve the Effectiveness and Efficiency of the State's Land Use Laws

Emergency preamble. Whereas, Acts and resolves of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

Whereas, this resolve requires the Land and Water Resources Council to study alternatives to the site location of development law; and

Whereas, the council is required to submit a report to the Legislature not later than February 1, 1996; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore, be it

Sec. 1. Land and Water Resources Council duties. Resolved: That no later than February 1, 1996, the Land and Water Resources Council, as established in the Maine Revised Statutes, Title 5, section 3331, subsection 1, shall prepare and submit a report to the Joint Standing Committee on Natural Resources that recommends one or more alternatives to the site location of development law, Title 38, chapter 3, subchapter I, article 6. Any alternative recommended must specifically take into account the goals of the growth management program under Title 30-A, chapter 187. The report must consider alternatives that would, when possible, accomplish the following objectives:

1. Maintain present standards of environmental protection with attention to both individual and cumulative impacts;
2. Coordinate state land use programs so that they function more efficiently as integrated parts of a system and complement local and interlocal land use planning; and
3. Ensure that high quality natural resources data and information are collected and maintained.

The council is authorized to submit legislation to implement its recommendations to the Second Regular

Session of the 117th Legislature not later than February 1, 1996; and be it further

Sec. 2. Institutional approaches. Resolved: That in considering institutional approaches that accomplish the objectives outlined in section 1, the Land and Water Resources Council shall consider distribution of jurisdiction over standards for noise, flooding, infrastructure, soils and financial capacity under the following broad guidelines.

1. If a municipality is of a certain size or has a basic level of planning and enforcement capacity, and if that municipality has certain ordinances in effect consistent with the growth management program, then jurisdiction over the standards may be held by the municipality unless the project being reviewed is of statewide or regional significance as described in subsection 3.

2. If a municipality is below a certain size or lacks planning capacity or enforcement capacity, then jurisdiction of some or all of these standards may remain with the State.

3. With regard to some or all of these standards, the State should consider retaining review authority for projects of statewide or regional significance, with review triggered upon the State's initiative or through petition by the public.

4. The review of the impact on traffic must be governed principally by the Maine Department of Transportation in coordination with its regional and statewide planning efforts and consistent with the growth management program. The council should evaluate a mechanism to assess a transportation impact fee for projects with proceeds distributed at the state, regional and local levels for transportation improvements; and be it further

Sec. 3. Work groups. Resolved: That the Land and Water Resources Council shall convene 5 work groups with members from conservation and development interests, state agencies, local government and consultants to advise the council and make recommendations for alternatives to the site location of development law on each of the following issues:

1. Surface water quality, specifically storm water, erosion and phosphorus;
2. Traffic and access management;
3. Groundwater;
4. Wildlife habitat, fisheries, unusual natural areas, archaeological and historic sites; and
5. Appropriate mechanisms to regulate mining activities, exclusive of metallic mineral mining.

In developing the alternatives for consideration by the council, the work groups shall consider ways in which the alternatives may be coordinated with and further the goals of the growth management program, must be guided by the objectives listed in section 1 and the institutional mechanisms in section 2, and shall include administrative mechanisms and funding needs and options; and be it further

Whereas, the predominant complaint made to the commission about environmental standards concerned duplicate review and permitting; and

Whereas, the issues of standards and permitting are very important and immediate for the paper industry; and

Whereas, the predominant complaint made about environmental regulation, in general, concerned permit processing time; and

Whereas, the Commission on the Future of Maine's Paper Industry identified the public input as the time-consuming aspect of the permitting process; and

Whereas, the cycle in which the paper industry now finds itself is opportunistic for capital investment; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore, be it

In exploring this issue, the task force shall determine the number of public hearings,

the number of witnesses at hearings and the expenditures by environmental and industry lobbying organizations; and be it further

Sec. 6. Staffing. Resolved: That the Department of Economic and Community Development shall provide staffing and clerical support to the task force; and be it further

S.P. 534 - L.D. 1472

Resolve, Directing the Board of Osteopathic Licensure and the Board of Licensure in Medicine to Review Maine State Licensing Requirements for Medical Professionals Performing Medical Procedures for Maine Residents

Sec. 1. Review of state licensure requirements. Resolved: That the Board of Osteopathic Licensure and the Board of Licensure in Medicine shall jointly review licensure laws to determine whether those laws provide for proper licensing of out-of-state physicians who may wish to provide services to residents of the State by utilizing courier services, mobile imaging or laboratory facilities, or telecommunications. In conducting this review, the boards may study issues, including but not limited to: state licensure for physicians who provide teleradiological and telemedicine services, credentialing of physicians in accordance with professional bylaws, adequate medical liability

coverage, quality control issues such as access, security and confidentiality of patient information, and appropriate use of teleradiology and telemedicine; and be it further

Sec. 2. Report. Resolved: That the Board of Osteopathic Licensure and the Board of Licensure in Medicine shall jointly submit a written report to the Joint Standing Committee on Business and Economic Development on or before January 1, 1996 regarding status of the review required under section 1 of this resolve.

CHAPTER 25

S.P. 507 - L.D. 1366

Resolve, to Provide Clear Title for the Maine Judicial Center

Emergency preamble. Whereas, Acts and resolves of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

Whereas, the Judicial Department of the State of Maine has been given a house and adjoining grounds located at 65 Stone Street in the City of Augusta for use as chambers for the Chief Justice, as a meeting center for the Judicial Department and as offices for Judicial Department staff; and

Whereas, the right to use the property for those purposes may be limited by a deed restriction dating from 1936 that limits the property to residential uses; and

Whereas, most of the neighboring owners have consented to waive this restriction, but a few have refused to permit the proposed use; and

Whereas, the Judicial Department requires the authority to clear the title to the property and to use the gift in accordance with the purposes of the donor and in the interests of the State; and

Whereas, the Legislature finds that these facts create a public exigency, requiring the authority to purchase or take the limiting restriction; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore, be it

Sec. 1. Authority to acquire interest in property. Resolved: That the State Court Administrator may acquire by purchase, gift, negotiated agreement or eminent domain any legal right or interest in property that grants the explicit or implied right to enforce a restriction limiting the use of the Judicial Department's property at 65 Stone Street in Augusta to residential use; and that this authority extends to holders of interest in property within the area depicted on a plan entitled "Preliminary Grading Plan for the Residential Development of the Kling Estate" as approved for filing on July 16, 1936 and recorded in the Kennebec County Registry of Deeds in Plan Book 11, pages 2 and 3; and be it further

Sec. 2. Procedure for compensation. Resolved: That if any legal right or interest in property is taken by eminent domain under the authority granted by this resolve, then the State Court Administrator shall have that right or interest appraised and offer to the owner just compensation for the right or interest acquired. The appraisal and award proceedings are governed by the procedures established in the Maine Revised Statutes, Title 12, section 602, subsection 21. References to "the bureau" contained in that section are deemed to mean the State Court Administrator. The consent of the Governor is not required to proceed under the authority granted by this resolve.

Emergency clause. In view of the emergency cited in the preamble, this resolve takes effect when approved.

Effective June 26, 1995.

CHAPTER 26

S.P. 494 - L.D. 1353

Resolve, to Determine the Effectiveness of Economic Development Incentives in Maine

Emergency preamble. Whereas, Acts and resolves of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

Whereas, tax credits and incentives and other economic development incentives have been used in the past and are currently used in the State; and

Whereas, there do not currently exist adequate mechanisms to ensure accountability to the public or to ensure that businesses meet their obligations to provide specified public benefits in return for their tax credits or other incentives; and

Whereas, the agencies cited in this resolve must complete their work and submit their report by February 16, 1996; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

Sec. 1. Study required. Resolved: That the Department of Economic and Community Development and the Finance Authority of Maine shall jointly conduct a study of all state-sponsored loans, loan guarantees, grants, tax incentives and other financial incentives designed to encourage the growth and development of business in the State, analyzing for each such incentive the public policy goals expressed in the enabling legislation, the performance of each incentive in meeting the public policy goals, the mechanisms for ensuring that the public is receiving an appropriate return on each incentive investment and any recommendations for legislative changes to improve the effectiveness and return on investment of any such incentives. In undertaking the study, the Department of Economic and Community Development and the Finance Authority of Maine shall request and consider the comments and recommendations of the Maine Economic Growth Council, as well as representatives of business, lenders and labor, economic development professionals and other interested parties, and shall include in their report an analysis of the comments and recommendations received. The Department of Economic and Community Development and the Finance Authority of Maine shall submit their report to the Second Regular Session of the 117th Legislature on or before February 16, 1996.

Emergency clause. In view of the emergency cited in the preamble, this resolve takes effect when approved.

Effective June 26, 1995.

CHAPTER 39

S.P. 563 - L.D. 1531

Resolve, Establishing a Moratorium on Implementation of the Law Requiring Public Employers to Pay the Costs of Early Retirement Incentives

Mandate preamble. This measure requires one or more local units of government to expand or modify activities so as to necessitate additional expenditures from local revenues but does not provide funding for at least 90% of those expenditures. Pursuant to the Constitution of Maine, Article IX, Section 21, two thirds of all of the members elected to each House have determined it necessary to enact this measure.

Emergency preamble. Whereas, Acts and resolves of the Legislature do not become effective

until 90 days after adjournment unless enacted as emergencies; and

Whereas, although early retirement incentives can provide employers immediate savings in benefit costs, the full long-term costs of such incentives are frequently very high; and

Whereas, effective July 1, 1993, State law was changed to make certain public employers responsible for paying the actuarial and administrative costs of early retirement incentives offered to their employees; and

Whereas, because the costs of early retirement may be very high, the implementation of the new law is expected to have a major financial impact on certain public employers who may not have been fully aware of the costs when they offered early retirement incentives; and

Whereas, reliable data on the number of incentives offered, the number of employers and employees affected, and the costs involved is not currently available; and

Whereas, lacking that information, the Legislature is unable to equitably determine how the costs of early retirement incentives should be apportioned; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore, be it

Sec. 1. Moratorium on implementation of Maine Revised Statutes, Title 5, section 17154, subsection 10. In any subsequent action to collect the costs of early retirement incentives from employers under Title 5, section 17154, subsection 10, the board may not charge interest for the period from the effective date of this resolve to March 15, 1996; and be it further

Sec. 2. Collection of data. Resolved: That the Maine State Retirement System shall collect from school administrative units data regarding the type and number of early retirement incentives offered to members of the Maine State Retirement System since July 1, 1993 and relevant information about members

who have retired or intend to retire with early retirement incentives after that date. Not later than September 15, 1995, each school administrative unit shall provide to the Maine State Retirement System:

1. The name of each employee of that unit who was or is a member of the Maine State Retirement System and who on or after July 1, 1993 retired or gave notice of intent to retire before normal retirement age, with all information about each employee and the application of a retirement incentive to that employee that is relevant to determine the costs specified in the Maine Revised Statutes, Title 5, section 17154, subsection 10 and to carry out the purposes of this resolve. The retirement system may develop a standardized format for the collection of employee information under this subsection;

2. Copies of the collective bargaining agreement or agreements covering members of the Maine State Retirement System that were in effect in that unit on or after July 1, 1993, including any memoranda of agreement, side agreement or other addendum to a collective bargaining agreement that affects payments to an employee at the time of retirement. Sec. 3. Report. Resolved: That the Maine State Retirement System shall compile the information collected pursuant to this resolve, calculate the additional actuarial and administrative costs of early retirement incentives offered to members of the Maine State Retirement System in accordance with the Maine Revised Statutes, Title 5, section 17154, subsection 10 and report the costs to the Joint Standing Committee on Labor not later than February 15, 1996. Resolve, Urging Efforts to Enhance Opportunities for Businesses that Use Recycled Materials as Raw Materials

Emergency preamble. Whereas, Acts and resolves of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

Whereas, legislation has been proposed to eliminate the Maine Waste Management Agency; and

Whereas, the Maine Waste Management Agency was responsible for promoting and facilitating recycling of solid waste in the State; and

Whereas, it is anticipated that an existing state agency will assume certain of the agency's recycling programs; and

Whereas, matching businesses that need recycled materials as raw materials with producers of recyclable materials may be beneficial both to businesses and waste producers; and

Whereas, staff resources at the successor agency are limited, making it inadvisable to impose additional duties on that staff; and

Whereas, the successor agency is likely, when it first assumes recycling duties, to review staff assignments and goals and that review process provides an opportunity to determine how the staff can facilitate recycling; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore, be it

Sec. 1. Provision of assistance to businesses. Resolved: That in structuring its operations and establishing goals and assigning duties to its staff, the successor agency to the Maine Waste Management Agency shall include as a goal the provision of assistance to businesses that use recycled products as raw materials; and be it further

Sec. 2. Pursuit of goals. Resolved: That in pursuing that goal the successor agency is urged within available resources to:

2. Convene task forces to coordinate policy on a case-by-case basis when businesses or recycling programs identify shortages or lack capacity to produce sufficient raw materials;

3. Review existing marketing and brokering services to determine adequacy in meeting the needs of businesses dependent upon recycled materials for raw materials; and

4. Determine and recommend to the Legislature whether to include newspapers or any other materials as mandatory items under Title 38, section 2138 to ensure adequate flow of raw materials to businesses dependent upon recycled materials.

CHAPTER 45

H.P. 867 - L.D. 1217

Resolve, Establishing the Study Commission on Property Rights and the Public Health, Safety and Welfare

Emergency preamble. Whereas, Acts and resolves of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

Whereas, Article 1, Section 21 of the Constitution of Maine and the Fifth Amendment of the Constitution of the United States provide that private property may not be taken for public use without just compensation; and

Whereas, every property owner holds property with the responsibility that it not be used to injure the health, safety, welfare, communities and environment of the people of the State; and

Whereas, Maine and United States Supreme Court decisions state that governmental actions including rules, that do not formally invoke the condemnation power, may result in a taking for which compensation is required; and

Whereas, under the Constitution of Maine and the Constitution of the United States, courts currently determine whether a law or regulation amounts to an unconstitutional "taking" of property requiring government compensation based on the facts of each case; and

Whereas, any change in the takings laws of the State may have far reaching effects on the public treasury of the State and municipalities; and

Whereas, there is an issue regarding resolution of claims for property owners seeking compensation under the Constitution of Maine and the Constitution of the United States; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore, be it

Sec. 1. Commission established. Resolved: That the Study Commission on Property Rights and the Public Health, Safety and Welfare, referred to as the commission, is established; and be it further

Sec. 2. Membership. Resolved: That the commission consists of 24 members appointed as follows:

1. The Governor or the Governor's designee;
2. The Attorney General, or the Attorney General's designee;
3. Two representatives of municipal government, appointed by the Governor. The Governor shall consider recommendations made by the Maine Municipal Association;
4. Three representatives of conservation interests, appointed by the Speaker of the House of Representatives. The Speaker of the House of Representatives may consider recommendations made by conservation commissions and organizations, lake associations and watershed districts;
5. Three members representing private property owners, appointed by the President of the Senate. The President of the Senate may consider recommendations made by the Maine Farm Bureau Association, the Maine Forest Products Council and the Maine Association of Realtors;
6. One member representing the business community, appointed by the Governor. The Governor may consider recommendations made by the Maine Alliance and the Maine Chamber of Commerce and Industry.
7. Five members of the Joint Standing Committee on Judiciary, appointed jointly by the Senate Chair and the House Chair. The 5 members of the Judiciary Committee shall choose from one of its members to serve as chair of the commission; and
8. Two members of the Joint Standing Committee on Natural Resources, 2 members of the Joint Standing Committee on Agriculture, Conservation and Forestry, 2 members of the Joint Standing Committee on State and Local Government and 2 members of the Joint Standing Committee on Inland Fisheries and Wildlife, appointed jointly by the President of the Senate and the Speaker of the House of Representatives; and be it further

Sec. 3. Appointments. Resolved: That all appointments must be made no later than 10 days following the effective date of this resolve. The appointing authorities shall notify the Executive Director of the Legislative Council upon making their appointments. When the appointment of all members is complete, the chair of the commission shall call and convene the first meeting of the commission no later than August 15, 1995; and be it further

Sec. 4. Duties. Resolved: That the commission shall study constitutional private property rights protections and examine the following questions and issues:

1. Is there credible evidence that state and municipal governments have engaged in takings in a manner that violates the Constitution of Maine or the Constitution of the United States;
2. Do specific state or local laws, rules or regulations pose an unconstitutional burden on property owners in the context of the government's responsibility to protect public health, safety and welfare;
3. Do issues of ripeness, exhaustion of administrative remedies and statutes of limitations unreasonably delay the adjudication of legitimate claims for compensation;
4. Should a statutory cause of action, beyond the requirements of current statutory and constitutional law, be created for property owners who are subject to diminution in property value as the result of governmental action;
5. Can pursuit of takings claims under the Constitution of Maine and the Constitution of the United States be made less costly and more expeditious for property owners by establishing an alternative dispute resolution or other procedure that may resolve property owners' claims without having to file an action in court in the first instance;
6. Do the original legislative documents 170 and 1217 from the First Regular Session of the 117th Legislature violate the constitutional principle of equal protection due to enforcement of a law against one property owner while not enforcing the same law against a similarly situated property owner. If constitutional, would the proposed bills violate principles of sound and just public policy because of the disparate treatment;
7. If the State is to create a cause of action for property owners against governmental entities that incrementally decrease property values, should the law, as a matter of sound and just public policy, also create an identical cause of action for property owners against nongovernmental entities that incrementally decrease property values. If not, why not; and
8. How would the proposed takings laws affect the court system and delivery of justice to our citizens; and be it further

Sec. 5. Public participation; activities. Resolved: That the commission shall hold at least 2 public hearings in different geographic areas of the State and give public notice of the hearings in order to

solicit public participation and comment. The commission may undertake other hearings, presentations or analyses it determines useful; and be it further

Sec. 6. Recommendations. Resolved:

That the commission shall submit a report of its findings and recommendations with accompanying legislation, if any, to the Second Regular Session of the 117th Legislature and to the Joint Standing Committee on Judiciary by December 1, 1995. The commission's report must represent the consensus of the members to the greatest extent possible. The report must include:

1. An explanation of the current process in the State that property owners must follow to make a claim for compensation based on the Constitution of Maine and of the Constitution of the United States;
2. An explanation of any recommendation for legislation or further examination of specific laws, rules or regulations;
3. The fiscal impact on the State and its municipalities of any proposed legislation; and
4. An explanation of why legislation or further examination of specific laws, rules and regulations is not needed, if that recommendation is made; and be it further

Sec. 7. Staff assistance. Resolved: That the commission shall request staffing and clerical assistance from the Legislative Council; and be it further

Sec. 8. Compensation; funding. Resolved: That the members of the commission who are Legislators are entitled to receive the legislative per diem for each day's attendance at meetings of the commission. The commission may seek, receive and expend funds from sources other than the General Fund. The Executive Director of the Legislative Council shall administer the commission's budget; and be it further

Sec. 9. Appropriation. Resolved: That the following funds are appropriated from the General Fund to carry out the purposes of this resolve.

Resolve, to Implement the Recommendations of the Healthy Start Task Force

Sec. 1. Healthy Start Pilot Project. Resolved: That the Healthy Start Pilot Project is established in the Department of Human Services to provide in 3 geographically diverse locations a community-based home visitation program that is

preventative, comprehensive, family-focused and universally available within the project areas.

The Department of Human Services shall undertake a planning process for the Healthy Start Pilot Project that must involve consumers and providers of social services in the different regions of the State and that must include consideration of the resources that exist and that would need to be developed in different pilot project areas and the feasibility of charging for services.

The Department of Human Services shall administer a contract program under which 3 pilot projects are funded. The following are required elements of the contracts: consistent program design; comprehensive and uniform training of personnel; and systematic evaluation. The pilot projects must collaborate with other entities in the community providing services to families in order to expand on existing services.

All pilot projects must adopt the following Maine Healthy Start Critical Elements.

1. Pilot projects must offer services on a voluntary basis to families in the projects areas.
2. First-tier supportive services must be available to all new parents and include:
 - A. Community-level, home-based nursing services to attend to the newborn infant care issues;
 - B. Outreach that provides periodic child health and development information and encourages families to seek out help as needed; and
 - C. Use of any other existing family support outreach services in Maine communities.
3. Second-tier home visitor services must be offered to parents who need them and must be continued with frequency that matches the needs of the family.
4. Identification of needs must be done using a family stress checklist.
5. Pilot projects must accept families prenatally until children are 6 months of age and continue those services until the child is 5 years of age.
6. To encourage acceptance of 2nd-tier services when needed, outreach must continue for at least 3 months.
7. Services must be family-focused, promote healthy child development and assist the family toward self-sufficiency and full partnership with other families in enhancing family and community well-being.

8. Families must be linked to primary health care providers.

9. Pilot projects must complement existing community services, whether federally or state supported.

10. Home visitors must receive ongoing professional supervision and have limited caseloads.

All pilot projects are for 4 years' duration, with the first contracts for each program to last 2 years. Administrative costs for each program are limited to 10% of the program cost for general administration. The cost of the evaluation is limited to 15% of the program cost. The Department of Human Services shall oversee all 3 projects and shall evaluate the projects and shall develop an evaluation plan for the projects prior to implementation.

All pilot projects must match 25% of the contract amount with community-based funding, which may be a combination of cash and in-kind contributions of space, equipment, supplies, staff time or services.

All pilot projects shall meet regularly with the other projects and the Department of Human Services to share experiences, coordinate efforts, plan for statewide expansion and coordinate searches for outside funding to supplement any General Fund appropriations for the last 2 years of their duration; and be it further

Sec. 2. Report. Resolved: That the Department of Human Services shall submit an interim report to the joint standing committee of the Legislature having jurisdiction over human resources matters and to the Executive Director of the Legislative Council by July 1, 1997 and a complete report by July 1, 1998.

Emergency preamble. Whereas, Acts and resolves of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

Whereas, nonprofit agencies need a variety of services from municipal governments; and

Whereas, most nonprofit agencies are not required to pay service fees or make payments in lieu of taxes; and

Whereas, municipal budgets are being strained by continued growth in tax-exempt property without concomitant growth in service fees or payments in lieu of taxes or without the capacity for any local revenue options; and

Resolve, Requiring a Study of How the State Should Regulate Naturopaths

Emergency preamble. Whereas, Acts and resolves of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

Whereas, unregulated practitioners currently practice naturopathy in the State; and

Whereas, unqualified and incompetent practitioners may discourage the public from seeking treatment from qualified and competent health care providers; and

Whereas, the citizens of this State currently have little guidance in determining the credentials of practitioners of naturopathy; and

Whereas, the law in this State currently prohibits naturopaths from performing all those functions for which they consider themselves qualified; and

Whereas, this may limit access of consumers in this State to this profession; and

Whereas, the issues to be resolved to determine what the scope of practice should be involve many interest groups and are technically complex; and

Whereas, to adequately study these issues prior to the next legislative session requires that this resolve be passed as emergency legislation; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore, be it

Sec. 1. Creation and charge. Resolved: That the Task Force on Naturopathy, referred to in this resolve as the "task force," is established and charged with determining the method by which the State should regulate naturopaths and making recommendations to the Legislature; and be it further

If the first meeting is not called within the assigned time, the Governor shall call the first meeting for a date no later than 10 days after the initially required date. 10. Reciprocity with other states.

The task force shall provide specific answers to these issues. The task force may not leave any of these issues to the determination of the regulatory board. In arriving at its answers, the task force shall review the answers to the sunrise questions provided to the Joint Standing Committee on Business and Economic Development by the naturopathic practitioners who supported the licensure before that committee. The task force shall also prepare its own answers to the sunrise questions required by the Maine Revised Statutes, Title 5, section 12015, subsection 3, taking into consideration the answers submitted by the naturopathic practitioners.

In examining these issues, the task force may hold 5 meetings, including the initial organizational meeting. The task force shall hold its last meeting no later than November 15, 1995; and be it further

Emergency preamble. Whereas, Acts and resolves of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

Whereas, pursuant to Public Law 1993, chapter 707, Part O, the 116th Legislature authorized the establishment of York County Technical College; and

Whereas, pursuant to Public Law 1993, chapter 707, Part O, the 116th Legislature appropriated funds to the Maine Technical College System to establish York County Technical College and recommended that funds be appropriated by future Legislatures to provide for York County Technical College; and

Whereas, the Maine Technical College System is authorized to rent facilities to allow the operation of York County Technical College beginning in the fall of 1995; and

Whereas, it is financially desirable and feasible within existing financial resources for the Maine Technical College System, through a lease-purchase, to acquire ownership of appropriate buildings and equipment to allow establishment of York County Technical College in permanent facilities beginning in fiscal year 1997; and

Whereas, construction needs to begin on such buildings during fiscal year 1996 in order to allow completion of such buildings during fiscal year 1997; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore, be it

Sec. 1. Authorization of lease-purchase of buildings and equipment for York County Technical College. Resolved: That, in compliance with the Maine Revised Statutes, the Maine Technical College System is authorized to enter into financing arrangements to lease-purchase buildings and equipment to establish York County Technical College. The principal amount of the financing may not exceed \$6,895,000. The rate of interest is estimated to be 5.746% over a 20-year period, resulting in a total interest cost of approximately \$3,648,211, if the lease-purchase is carried to its entire term. The Maine Technical College System is authorized to encumber, mortgage or otherwise give security for the buildings and equipment that are the subject of the lease-purchase in order to allow consummation of the lease-purchase, and is authorized to transfer interests in real estate in order to provide for permanent access roads, utility easements and other requirements for constructing the college on an adequate site. No state funds beyond those already anticipated to be authorized by the Legislature for the annual operation of York County Technical College are required for the lease-purchase and payments of principal of and interest on the lease-purchase must be derived in the first instance from nonstate funds such as tuition revenues. Any lease-purchase effected pursuant to this authorization must state that the Maine Technical College System may discontinue the lease-purchase in the event that annual appropriations of state funds become necessary to pay off the lease-purchase and are discontinued by the Legislature.

Emergency clause. In view of the emergency cited in the preamble, this resolve takes effect when approved.

Constitution, Art. IV, Part Third, §2-A is enacted to read:

Section 2-A. Line-item veto of dollar amounts appearing in appropriation or allocation sections of legislative documents. The Governor has power to disapprove any dollar amount appearing in an appropriation section or allocation section, or both, of an enacted legislative document. Unless the Governor exercises the line-item veto power authorized in this section no later than one day after receiving for signature the enacted legislation, the powers of the Governor as set out in section 2 apply to the entire enacted legislation. For any disapproved dollar amount, the Governor shall replace the dollar amount with one that does not result in an increase in an appropriation or allocation or a decrease in a deappropriation or deallocation. When disapproving a dollar amount pursuant to this section, the Governor may not propose an increase in an appropriation or allocation elsewhere in the legislative document. The Governor shall specify the distinct dollar amounts that are revised, and the part or parts of the legislative document not specifically revised become law. The dollar amounts in an appropriation or allocation that have been disapproved become law as revised by the Governor, unless passed over the Governor's veto by the Legislature as the dollar amounts originally appeared in the enacted bill as presented to the Governor; except that, notwithstanding any other provision of this Constitution for dollar amounts vetoed pursuant to this section, a majority of all the elected members in each House is sufficient to override the veto, and each dollar amount vetoed must be voted on separately to override the veto. Except as provided in this section, the Governor may not disapprove, omit or modify any language allocated to

such a ballot counted or tabulated.

B. This section may not be construed to prevent
or prohibit a person from standing or campaign-
ing for any elective office by means of a write-in
campaign.

Such rates, rents, fees and charges must be fixed and adjusted in respect of the aggregate of rates, rents, fees and charges from such project so as to provide funds sufficient with other revenues or money available for

the project, if any, to pay the cost of maintaining, repairing and operating the project and each and every portion of the project, to the extent that the payment of such cost has not otherwise been adequately provided for, to pay the principal of and the interest on outstanding bonds or notes of the authority issued in respect of such project as the same become due and payable, and to create and maintain reserves required or provided for in a resolution authorizing, or trust agreement securing, such bonds or notes of the authority. Such rates, rents, fees and charges are not subject to supervision or regulation by a department, commission, board, body, bureau or agency of this State other than the authority. A sufficient amount of the revenues derived in respect of a project, except such part of such revenues as may be necessary to pay the cost of maintenance, repair and operation and to provide reserves and for renewals, replacements, extensions, enlargements and improvements as may be provided for in the resolution authorizing the issuance of bonds or notes of the authority or in the trust agreement securing the same, must be set aside at such regular intervals as may be provided in such resolution or trust agreement in a sinking or other similar fund that is pledged to, and charged with, the payment of the principal of and the interest on such bonds or notes as the same become due, and the redemption price or the purchase price of bonds retired by call or purchase as therein provided. Neither the resolution nor a trust agreement nor ~~a~~ any other agreement nor any lease by which a pledge is created need be filed or recorded except in the records of the authority. The use and disposition of money to the credit of such sinking or other similar fund are subject to the resolution authorizing the issuance of such bonds or notes or of such trust agreement. Except as may otherwise be provided in such resolution or such trust agreement, such sinking or other similar fund may be a fund for all such bonds or notes issued to finance projects at a particular participating health care facility or participating institution for higher education without distinction or priority of one over another, provided the authority in any such resolution or trust agreement may provide that such sinking or other similar fund is the fund for a particular project at a participating health care facility or participating institution for higher education and for the bonds issued to finance a particular project and may, additionally, permit and provide for the issuance of bonds having a subordinate lien in respect of the

WHEREAS, many federal mandates may be in direct violation of the Tenth Amendment to the United States Constitution; and

WHEREAS, the United States Supreme Court has ruled in New York v. United States, 112 S. Ct. 2408 (1992) that Congress may not simply commandeer the legislative and regulatory processes of the states; and

WHEREAS, a number of proposals from previous administrations and some now pending from the present administration and from Congress may further violate the United States Constitution; and

WHEREAS, the Congress of the United States has also passed numerous laws that have protected individual freedom and liberty and promoted the general welfare of all Americans, including, but not limited to, the Civil Rights Act and the Voting Rights Act; now, therefore, be it

RESOLVED: That We, your Memorialists, on behalf of the people of the State of Maine, claim sovereignty under the Tenth Amendment to the United States Constitution over all powers not otherwise enumerated and granted to the Federal Government by the Constitution; and be it further

RESOLVED: That this memorial serve as notice and demand to the Federal Government, as our agent, to cease and desist, effective immediately, mandates that are beyond the scope of its constitutionally delegated powers; and be it further

RESOLVED: That nothing in this resolution may be construed to demonstrate lack of support for federal legislation protecting individual freedom and liberty and promoting the general welfare of all Americans, including, but not limited to, the Civil Rights Act and the Voting Rights Act; and be it further

RESOLVED: That suitable copies of this Memorial, duly authenticated by the Secretary of State, be transmitted to the Honorable William J. Clinton, President of the United States, the President of the Senate and the Speaker of the House of Representatives of the Congress of the United States, and the Majority leader of the United States Senate.

ENVIRONMENTAL PROTECTION
AGENCY TO REMOVE FROM

THE STATE THAT QUALIFY**

H.P. 1132

WE, your Memorialists, the Members of the One Hundred and Seventeenth Legislature of the State of Maine, now assembled in the First Regular Session, most respectfully present and petition the Honorable Angus S. King, Jr., Governor of the State of Maine, as follows:

WHEREAS, the federal Clean Air Act imposes stringent and costly ozone control requirements on stationary and mobile sources of ozone precursors throughout the Ozone Transport Region, or OTR, including areas that attain the ozone standard or would attain the ozone standard but for ozone created by upwind states; and

WHEREAS, it is well known that the majority of ground-level ozone and ozone precursors in the State are transported into the State from upwind, out-of-state sources; and

WHEREAS, the imposition of costly OTR ozone control requirements on the citizens and

businesses of this State will not significantly contribute to solving ozone problems anywhere in the OTR; and

WHEREAS, in recognition that such a situation may exist, the United States Congress specifically provided in the federal Clean Air Act that the Governor of any state in the OTR may petition the United States Environmental Protection Agency, or EPA, to remove some or all of a state from the OTR; and

WHEREAS, the federal Clean Air Act also establishes a process for redesignating qualifying areas to attainment or to rural transport areas, thereby eliminating certain ozone control requirements in those areas; and

WHEREAS, the Honorable Angus S. King, Jr., Governor of the State, has indicated his intention to request removal from the OTR of any areas of the State that qualify and to request redesignation of all counties of the State that qualify; now, therefore, be it

RESOLVED: That We, your Memorialists, on behalf of the people of the State of Maine urge, encourage and support the Governor to take all steps available under the federal Clean Air Act to remove all areas of the State from the OTR that may qualify for removal and to redesignate all areas of the State to attainment or rural transport areas that may qualify for redesignation; and be it further

RESOLVED: That We, your Memorialists, support the Governor undertaking these efforts in such a manner that those areas for which data and information are more readily available to support redesignation or removal petitions may be the subject of immediate petitions to the United States Environmental Protection Agency, and those areas for which data or information is not readily available may be the subject of subsequent petitions; and be it further

RESOLVED: That suitable copies of this Memorial, duly authenticated by the Secretary of State, be transmitted to the Honorable Angus S. WHEREAS, September 1995 marks the 50th anniversary of the end of World War II, the greatest armed conflict the world has ever known, in which the victory of the Allied united nations made possible the promise of peace, dignity and freedom for all peoples; and

WHEREAS, in that conflict some 250,000 Americans served in the United States Merchant Marine, which carried goods, grain, armaments, food, personnel and material to Allied forces in both the Pacific and the Atlantic theaters, in the great ocean convoys President Roosevelt called the "American bridge of ships"; and

WHEREAS, in that conflict Mainers built and launched almost 270 Liberty ships at the Todd-Bath East and West Yards in South Portland, Maine and sent thousands of officers and enlisted personnel into the United States Merchant Marine, continuing the proud Maine tradition of "those that go down to the sea in ships"; now, therefore, be it

RESOLVED: That We, your Memorialists, respectfully recommend and urge the Congress of the United States to provide that certain service of members of the United States Merchant Marine during World War II constitutes active military service as proposed in bipartisan bills S-254 and H-44, now before the 104th Congress, as just and due recognition of the United States merchant mariners' selflessness, sacrifice and service to their country and the Allied cause; and be it further

**BUDGET ADDRESS
OF
GOVERNOR ANGUS S. KING, JR.
February 1, 1995**

Mr. President, Mr. Speaker, members of the House and Senate, and citizens of Maine.

Less than a month ago, in the video that accompanied my inaugural address, I said that for Maine, our geography is our destiny. That our location and natural resources have largely determined our economy, our history, and our character as a state.

When it comes to government, there is another similar phrase that can sum things up--and cut through the welter of bills, laws, regulations, speeches, and proclamations that so often fill the air of this place.

That phrase is "budgets are policy"--for when you strip away all the talk, it's how we allocate our financial resources--how we spend the money--that is the best indication of our priorities and the best guide to our principles and policies.

It's not a perfect guide, of course, especially the first budget of a new chief executive who's been on the job less than four weeks. In fact, the budget I present tonight is of necessity built upon all that has gone before--programs and agency structures assembled incrementally over the last twenty years, prior expenditure levels, and practices and people I have inherited from the past. But it is a guide, nonetheless.

It is a guide not because of particular spending--or cutting--decisions, but because it sets an overall direction for Maine State government. And that direction is unmistakably toward a smaller, leaner, more productive, more efficient, more honest government.

This budget is driven by what we need rather than what we want.

This budget aims toward a government that makes choices and sets priorities, that treats our people like preferred customers instead of just taxpayers, and that finally understands that government--like every family in Maine--must live within its means.

Here's the big picture:

1. The budget I am presenting here tonight is in balance--a balance achieved without raising a dime in new taxes: No new fees, no new taxes, no new shifts to the property taxpayers of our towns and cities.

2. This budget is in balance without any new gimmicks, gets rid of the worst ones from the past, and starts the process of unwinding those that remain.

3. This budget is in balance but nonetheless includes for the first time in four years a commitment to the capital maintenance of the public buildings and facilities of this state.

4. This budget is in balance and even contains an automatic savings provision so that when good times return--as they surely will--we don't repeat the mistake of the Eighties and spend the cupboard dry when we should be retiring debt and saving for the hard times that will also come again.

5. This budget is in balance without insulting state employees or the people of Maine with furlough and shut-down days, a shortened work week, and delayed payroll payments.

6. This budget is in balance but still increases school aid to our cities and towns by more than \$40 million, the first significant increase in this account in four years.

7. This budget is in balance and holds overall general fund spending to an increase of slightly more than 3% in 1996, and under 3% in 1997--a far cry from the double digit increases of the Eighties and no mean feat when you consider both the cost of fixing past gimmicks and the Departments' initial requests.

Were it not for the funds necessary to get rid of the gimmicks, this would be essentially a flat-funded budget. We have more than held the line on spending.

8. And yes, this budget is in balance while putting the money for the Loon plates back in the wildlife fund where it belongs.

The decisions necessary to make this happen have not been easy. They have involved agonizing trade-offs among programs with merit and considerable support. Some of these decisions will put me at odds with some of my new friends in this room tonight. But all of them--taken together--are necessary to make the numbers add up--to make the whole package work.

And that larger vision is critically important, for if we look at the budget only as a collection of individual programs, reining in spending and getting

this financial monster under control will literally be impossible. You, our legislators, represent not only your party, not only those whose particular interests you pledged to support, and not only your local district.

Like me, you were elected to restore responsible government to the state of Maine. And tonight, and for the days of budget deliberations which lie ahead, I invite you to join me in keeping our focus on that primary responsibility--and on the big picture.

For no matter how worthy or important a particular program is--for your town or for your closest supporters--there is no more important priority than showing the people of Maine that we--you and me--understand the basic and unmistakable message of 1994--that we have gone to the bottom of the well on taxes and reached the end of our peoples' patience with gimmicks.

So what have we done to build this budget barely 90 days from that glorious day in November--when the people spoke and sent each of us here to do their bidding?

The process started almost a year ago, when all of us were still candidates, marching in parades, shaking hands, and meeting supporters in living rooms across the state--engaged in the sometimes silly but always sacred rituals of democracy.

In those quiet summer days, the departments of Maine's government gathered the numbers and put together their requests for what they estimated would be necessary to carry out their programs for the two years starting this July--to keep the doors open. And those requests totaled \$3.8 billion. Then the departments developed their requests for new or expanded programs which added \$465 million to the bottom line. Total projected expenditures? \$4.3 billion.

At the same time, estimates were being prepared of available revenues--How much would Maine people earn and what would their income tax payments be? How much sales tax would sales of cars, VCRs and all of the other products sold in Maine generate? How much would our economy grow or shrink in the next two years? And the answer came back that growth would be slow and that when all was said and done, we would have \$3.5 billion to spend.

Anyone see a problem here? That's right--nearly \$800 million worth of problem--a big number by any standards and especially for the State of Maine.

We were faced with a \$759 million difference between departmental requests and available revenues and an additional \$31 million problem because the state had been counting revenues before they were

received--an accounting practice that I call a "pull"--that the bond markets--and common sense--cannot forgive forever.

In tackling this problem, we were further limited by the fact that some agencies--most notably in the natural resource area--have already suffered a disproportionate share of cuts in past budgets and simply cannot carry the burden of further deep cuts this time around. In fact, the reality is--and we must remind both ourselves and our friends at home--that more than 80% of the state budget falls into just two categories: education and human services. So it is impossible to solve a significant budget shortfall without these two areas on the table.

And across the board cuts, my friends, simply avoid the real decisions, avoid the setting of priorities, and make a mockery of the job the people sent us here to do.

And so, shortly after the election, we began to climb the budget mountain. I divide what we have done into four categories and I want to speak with you about each of them tonight: "Squaring the books", "sharing the pain", "rightsizing government", and "preparing for the future."

Under squaring the books, otherwise known as the Gimmick Watch, we have:

1. Ended furlough days, shut down days, payroll pushes, and the shortened work week. This long overdue step will cost \$25 million over the next two years, but, it had to be done if we were going to be honest with our employees and the citizens of Maine. This gimmick is gone, dead, kaput.
2. We have funded the state's TQM program and Quality Centers "on the books" instead of through the back door which has been the practice in the past.
3. We have repaid the Federal Government for their share of employee savings "borrowed" from the retirement fund.
4. We have begun to move the funding of the State Police back to the General Fund from a too-great reliance on the Highway Fund.
5. We have begun a four-year commitment to the elimination of the "accounting pull" I mentioned above.
6. And, as I stated at the outset, we are returning the Loon Plate money to the wildlife fund where it belongs.

Is every single gimmick completely eliminated in this budget? No. As I have said often over the last several weeks, the road out of the woods is usually as long as the road in. But the largest have been

eliminated and we've set a credible course toward the elimination of the rest.

Have we even found every single gimmick? Almost certainly not. I expect and hope that the Appropriations Committee will find the ones we have missed and that we will work together to deal with them just as we did on the Supplemental Budget.

Which brings me to an important point: I don't consider this process a contest between myself and the Appropriations Committee or the Legislature as a whole. I'm going to repeat that--I don't consider this process a contest. I don't claim perfection for this document; we will differ on some items and we will work them out--that's the way the process is supposed to work. Nobody here is winning or losing.

By the way, as long as we are working on the details--whether a particular cut is preferable to another, how to fund a new program, the timing of cuts or other changes, you'll find me reasonable and receptive--the nicest guy in town.

But if the process starts to stray toward tax increases and new gimmicks, you'll find me stubborn, unreasonable, and altogether difficult to do business with. Some of you may even question my ancestry in one form or another.

I emphasize the point that this is not some kind of contest because I think it's important to change the whole way we think around here. For the past half-dozen years or so, an automatic assumption has grown up that the Legislature and the Governor are some kind of natural enemies--like dogs and cats or Macintosh and DOS users. We've got to break out of this way of thinking if we want to get anything done.

Because you know what? The people out there don't care who wins in these halls. They don't think of us as Senators or Representatives, Republicans or Democrats, Governor or Legislature. To someone who wants his taxes cut, her drivers license issued with a minimum of hassle, or a pothole filled, we're all the "gummint" as my father used to say. And the gummint doesn't have too many more chances to get it right.

So nobody out there should be keeping score--and if we can remember that, we all--including the people of Maine--will win.

Unfortunately, part of that winning will involve sharing some pain. And I want to turn to that now.

With an \$800 million difference between departmental requests and available revenues, we had to make some painful choices. Because of this shortfall, and because I don't have the benefit of having my own cabinet and departmental advisors in place, I have taken a tough stand against nearly all

requests for new or expanded programs--the so-called Part II budget. Given the hole we are in, we simply cannot afford the \$465 million wish list that the departments collectively put forward--and you will not find these items in the budget I am submitting to you. However, I have made one exception: to continue state funding for the Loring Development Authority.

Second, I propose that we discontinue the funding of the math and science magnet school at Limestone. I have carefully weighed the case made by its proponents, but simply cannot justify the expenditure of \$3.7 million for this purpose while we are holding increases in general school aid and assistance to higher education to relatively low levels.

I know that among some residents of The County, this is viewed as some kind of litmus issue--that failure to support this project indicates a lack of concern for their communities. All I can say is that my feeling about this project would be no different were it located in southern Maine, or indeed in my own home town.

Third, I am proposing that we delay the start-up of the York County Technical College by one year due to the especially tight situation in FY1996.

Fourth, I propose that we postpone the effective date of the environmental tax credit designed principally to benefit the paper industry. I am extremely sensitive to the important role the paper industry plays in the Maine economy and the importance of encouraging new investment, but, as with other cuts in this budget, we just can't afford it right now.

And besides, if we can straighten out our permitting process, the industry will save more than the tax credit promised--just in legal fees alone.

Fifth, funding to meet our legal obligations under the AMHI Consent Decree and under two other community consent decrees must come from within existing resources of the Department of Mental Health and Mental Retardation. I have directed the Department to focus its priorities and to create new efficiencies to meet the needs of the Consent Decree members.

This department restructuring will not be easy and it will strain services to other constituents, but I'm convinced that our mental health dollars can be better focused to meet the changing needs of all service populations.

We rank fifth in the nation in per capita spending on mental health services. We are not shirking this responsibility, but I am convinced that we are not spending these resources effectively.

Sixth, several accounts in the Department of Human Services will see declining support due to improved economic conditions and better program management. The number of Maine families on AFDC has declined by 6% in each of the past two years. This trend is expected to continue. We anticipate saving \$4.6 million over the biennium in this account, but we intend to transfer \$1.5 million of these savings to the ASPIRE program to continue to support the transition from welfare to work.

We will also be initiating several proposals to reform welfare policies resulting in an additional \$4.3 million in savings over the biennium. These are not easy cuts to make but I believe they are necessary to create a set of welfare policies targeted to the neediest of our citizens.

In the area of corrections, we are proposing that one housing unit at the Bolduc Correctional Facility be closed.

And finally, there are the hospitals and something called Tax and Match. Conceived in the days when budgets were tight and we thought the Federal Government would remain stupid forever, Tax and Match was a scheme to tax hospitals, get the revenues more than matched by Federal Medicaid money, and then send the hospitals back more than they had paid in with the state keeping a chunk for good measure.

It worked great for a while and the hospitals actually gained nearly \$58 million in the process. But last year the gravy train began to slow down and it's been projected that if no changes are made, the hospitals may pay in \$110 million more than they get back over the next two years. So what do we do?

Some argue that this tax should be eliminated right now--placing the full burden squarely on an already strained budget. At the other end of the scale, we could ignore the problem entirely and have the loss absorbed into our statewide health care bill.

I have chosen a third option which rests upon determining the exact nature and scope of the problem--what is the actual shortfall, when does it hit, which hospitals does it hit hardest, and what alternatives do we have that won't result in a direct charge to the taxpayers of Maine?

Over the coming months, my staff and I will work with legislators, hospitals, state and Federal officials and others concerned about this problem to find a responsible solution. I hope to submit a proposal to this session of the Legislature that will minimize the impact to our hospitals and avoid significant shifts in insurance costs and tax burdens.

And in light of the scarcity of resources at our disposal and the desire of everyone in this room to provide the people of Maine with some kind of broad-based tax relief, I would caution my colleagues who want to deal with this issue right away to keep their powder dry, at least until we see if there are other ways to skin this cat--for every dollar devoted to this purpose now is a dollar not available to cut property, sales, or income taxes later this year or next.

Which brings me to rightsizing government. This means particular cuts and the elimination of some programs, but it also means laying the ground work for a more far-reaching and systematic reduction in the role and cost of government in our society. The times--and our constituents--demand that we start this process now.

And here goes:

1. I propose dismantling the Maine Waste Management Agency and distributing its functions to existing agencies where they can be handled without additional administration and another layer of regulation.

2. I propose that once and for all, we get the State of Maine out of the liquor business.

3. I propose that we streamline the Maine Drug Enforcement Agency within the Department of Public Safety--taking full advantage of the opportunity to simplify the administration of this agency while still achieving its fundamental purpose.

4. And perhaps most importantly, we are proposing an innovative approach which will reduce the size of Maine State government. To accomplish this goal, we will work together with state employees:

- to recognize those employees who have developed highly productive programs and to find ways to share these successes in other parts of state government; in a high performance work organization, workers are viewed--and treated--as assets, not liabilities.

- to use technology to do our jobs more effectively,

- to identify those programs which are no longer necessary, which need a change in direction, or which can be delivered more efficiently if combined with other activities,

- and to ferret out those areas of inefficiency and waste which spoil the public's view of all state government.

But the key thing is to provide the discipline to be sure we stay this course. And so the hiring freeze that I announced at my inaugural will stay in effect,

and this budget reflects the de-funding of more than 500 positions over the next two years--with the savings applied to collective bargaining and improving technology throughout the government as well as to decreasing general fund appropriations.

These personnel reduction will be achieved mostly through attrition, but at the end of the day, Maine state government will be smaller.

Is this all that can be done to make state government more efficient, effective, and affordable? Is this all the programs that should be considered for cuts or consolidation? Certainly not. And as we get our people into the agencies and enlist the line workers--who know where the savings are better than any of us--more opportunities will undoubtedly be found and greater improvement achieved.

The ship of state won't stop on a dime, but let no one doubt that as of today, we've changed the course.

My focus in making these cuts and those to come will be primarily on administration--the centralized bureaucracy as opposed to direct services to our people.

By the way, I met a Governor this past weekend who told me what his state had done in circumstances similar to ours. They authorized a pay increase for state workers...but didn't fund it. Instead, the workers were challenged to find the saving themselves to pay for the raise--and they did it with room to spare. Everybody--including the taxpayers--won.

So this is not the final word--I view this budget as a first step in a number of areas, but one that is in balance and buys us the time to find further efficiencies. It is my hope, though not a promise, that this time next year, I will return to you with a supplemental budget that will allow us to deliver a meaningful tax cut to our people. And I think we can do it.

And finally--Mary says I say finally too much, that it just gets people's hopes up--we have to look further ahead than two years or even four. We have to recognize longer-term economic trends and change the way we do business, so that Maine will be in a position to compete as we move into the twenty-first Century.

This budget does this in several ways.

1. First, I am proposing a Budget Stabilization Mechanism whereby revenues in excess of an index of real economic growth will be put aside into a separate fund to be used only during periods of economic downturn. In this way, we can avoid the swings that pushed us so high in the Eighties and brought us so low in the Nineties.

2. I am proposing that the Governor be given the Line-Item veto, an effective weapon against excessive spending in 43 of our sister states and likely to be adopted on the Federal level in the near future.

3. We will begin in 1997 a program to phase out the property tax on machinery and equipment without impacting local budgets--one of the most serious impediments to the development of manufacturing jobs in our state over the long term.

4. I propose that starting in the next biennium, our budget process require that only 98% of projected revenues be budgeted for expenditure and that the two percent thus saved go into the budget stabilization fund.

5. I propose that Maine face the ever increasing costs of kids that come to school at age 5 or 6 who are not ready to learn, and in too many cases are damaged beyond repair. I have become completely convinced that the single most important investment we, as a people can make, is in our youngest children and in prevention of problems before they blossom into low achievement and enormous social costs.

And so, I am proposing that we commit ourselves to giving Maine children a Healthy Start--through coordinated services organized and led on the local level.

Based upon programs already in effect, and showing remarkable results in Hawaii, North Carolina, and New Jersey, Maine's Healthy Start will be not so much a new program, as it will be a new focusing of available, but often fragmented resources, and a calling forth of the tremendous untapped potential of volunteers in our communities.

But after all of this, there is a ghost haunting our deliberations here tonight, a specter who is laughing at us as we struggle to balance this budget. He is laughing because if we don't address him--and expel him from these halls--all our efforts this winter and spring will be for naught--and every two years from now on, we'll be sitting here facing a new budget gap.

What I refer to is the sea change taking place in Washington that all but guarantees a significant decline in Federal revenues. I call this ghost "Newt" just for ease of identification.

Federal funding is now 28% of our total budget. One of the things that shocked me as I dove into the numbers last month was the tremendous dependency we have developed on Federal money. For too long, these funds have been thought of as "free" and a job moved from the general fund to Federal sources was viewed as a neat savings.

Well, it isn't free and they aren't savings...and what's more, this money is going away just as surely as Sam Shapiro up there has lapel pins in his pocket. We must begin the process today to get off this track as fast as possible--for those states which do so will be ahead of the curve over the next five years.

I'm not saying we should arbitrarily turn down Federal largesse; but I am saying we should look this particular gift horse directly in the mouth to see what strings are attached and whether a dependency is being created that we won't be able to easily break.

As we now begin the debate necessary to enact and sign a budget, I will stand on three principles essential to my campaign, subscribed to by the citizens of Maine, and shared by the majority of legislators in this room.

First, I will not sign a budget that increases the tax burden on Maine citizens or that relies on new gimmicks; second, unacceptable demands on our state employees--shutdown days, furlough days, and payroll pushes--are part of our past and have no place in our future. And finally, this budget should be the last that is simply based upon spending levels that have gone before. We must move to performance based budgeting with benchmarks, measurement of results, and real accountability .

And so, budgets are policy and this one speaks for me. It is not the only or the final answer, but it takes a major step toward fiscal responsibility...and a brighter future for Maine and her people.

And it allows me to say that here in this building, just as is happening all across the state--at Shape in Biddeford, at Madison Paper, at Great Northern, at L.L. Bean--the attitude has changed, the approach has changed, the mood has changed, and yes, the people have changed.

Maine, my friends, is on the move.

THE STATE OF THE JUDICIARY ADDRESS
OF
CHIEF JUSTICE DANIEL E. WATHEN
February 23, 1995

Mr. Speaker, Mr. President:

I appreciate this opportunity to appear before the 117th Maine Legislature. I consider this an historic occasion. Next month, on March 15th, our state celebrates its 175th anniversary. In all those years only 101 people have served on the Supreme Judicial Court. We are a small group, but every person in today's Judicial Branch takes pride in Maine's record of providing that most essential government service -- individual justice. For 175 years, the three branches have worked together to provide the protection and the stability guaranteed by our Constitution. The rule of law hangs by a very slender thread in any society, and an independent and effective judiciary has been a vital part of Maine's government.

I believe that we are at a pivotal time in history. This is evidenced by the fact that Russia, some of the former Soviet Republics, Haiti, and many other nations throughout the world are trying to copy our form of government. The question they ask is -- how do you make the law work? The answer is simple -- we have the rule of law, and an independent judiciary to enforce it.

Why is the rule of law suddenly important? Because you can't do business in a global economy without stability, certainty, and efficiency in legal relationships. Most of these countries have impressive constitutions, but they never had an effective and independent judiciary to enforce them. That is why we have been visited by judges from the Karelian Republic wanting to learn how we conduct jury trials and how we educate our judges. That is why my colleague Justice Roberts lectured on judicial ethics in Estonia this past fall, that is why Kathryn Ainsworth, the former Director of the Commission on the Future of Maine's Courts, now works full time in Latvia.

The world has come to understand the critical function of an independent judiciary in a constitutional government.

It is ironic that at the same time here in Maine, we are experiencing an unprecedented crisis in funding our courts. We have piled on responsibilities without resources. We have cut juror's fees to \$10 a day, and yet we charge civil litigants \$300 for the privilege of having a jury trial that is rarely scheduled. Justice has become a commodity to be paid for. Our court system, which is small and underfunded by any comparative standard, has deteriorated to the point

that our judges and staff are discouraged and frustrated, and sometimes people's needs for protection have to be delayed and possibly never met.

I know I can speak frankly and candidly with you. Many of you have sat behind the bench with judges in your local community, and all of you will be invited to do so. In a word: we are stretched too thin, trying to do too much with too little. In a successful democracy you cannot ration justice. For some years now we have been doing just that.

Therefore, for me, today is more than just a speech -- I hope that it marks the beginning of a dialogue between all three branches of government concerning the delivery of justice in Maine. The future is in our hands. We cannot continue to allow court services to be degraded. The goal for the next century is clear; the people of Maine must have courts that are fair, fast, affordable, and effective.

Many of you have your own thoughts on the future of Maine's courts, but let me share some of my thinking with you. Obviously, we have to begin with funding that is adequate to keep the courthouse doors open. I won't recount the painful history of chronic underfunding in recent times.

At least three authoritative studies have been conducted in the last twenty years, the Brennan Commission on the State Funded Court System in the 1970's, the Commission on Governmental Reorganization in the late 80's, and the Futures Commission in the 90's. They all came to the same conclusion: the law should require the Governor to include the judicial budget in his budget without revision. The purse string belongs to the Legislature, and you should consider the full needs of an independent and co-equal branch of government without first being forced to cut the budget elsewhere.

Unfortunately, that recommendation has never been enacted into law, but something important happened a couple of weeks ago. For the first time in at least the last twenty years, the Governor put most of the ordinary operating costs of the courts in the budget he sent to this Legislature. Being funded at existing levels may not sound like a very historic development, but it really is, and I commend Governor King for his action. He didn't have to do it. He did it because it was the right thing to do. I urge you to support this portion of his budget.

This budget includes nothing extra, nothing new, no "so called" part two. But it does mean that for the first time in years, the Appropriations Committee won't have to search for cuts in other areas in order to keep the courts at our present level and enable us to meet the basic needs of the third branch.

At this point you might think that I should sit down. What else does the judiciary want? Don't they understand the budget problem? Yes, we do. But we need to talk with each one of you about the future of the third branch and the people you represent and every program that you support. The judiciary is only one of the three spokes in the governmental wheel, but when it buckles, the wheel stops. Law will hold our society together only so long as it is enforced.

What should we talk about? First and foremost, not all of our Part II requests can be dismissed as a wish list. We have legal and enforceable obligations to people with disabilities under both state and federal law whether they are litigants, jurors, witnesses, employees, or judges. We should talk about that. I am certain we all agree that any organization that handles twenty-three million dollars a year should have a full audit. We should talk about that. Maybe it is wishful thinking in these times to ask for both additional staff and computers, but we have to talk about the impossible situation created by the explosion of increasingly complex paper work in the District Court, most of it mandated by state and federal law, and the sharp rise in the number of people who are forced to go to court without an attorney. If it were not for the folks in the clerks' offices and help provided by Pine Tree Legal Assistance, Legal Services for the Elderly, the Volunteer Lawyers Project, and the Law School Clinic, I don't know what people without funds would do. If courts are to take up the front line in social services, and that is the course established by this Legislature in recent years, we can't uphold the law if we are denied both staff and technology.

Similarly, there are many pressures on the criminal docket. For example, the Federal Crime Bill has already produced 88 new police officers for Maine, and promises 400 more, and nothing for the courts in which they will work. In response to the commendable efforts of Parents Against Tired Truckers, the State Police obtained a \$350,000 grant for overtime and issued 4500 additional trucking violations in the last four months. Those charges are filed in a court system that has no funds for clerical overtime, and is not scheduled to have any for the next two years. We need to talk about that.

Our ability to cover a growing criminal docket by neglecting and delaying civil litigation is beginning to affect our economic well being. No part of our society is more sensitive to delay and uncertainty than

the business community that provides jobs and paychecks, and yet the way we are forced to schedule business litigation and regulatory proceedings in Maine is a crime. We need to talk about how much longer we can meet the needs of one segment of our people by taking from another. These are all subjects of critical importance, and they are all addressed in our Part II requests and in other legislation we will propose for your consideration.

Is there any purpose to be served by our talking? I think so. Let me touch on three subjects. I have spoken a lot about computers in the past year and the unparalleled opportunity they offer to revolutionize the way courts work for people. Some of you who are new may not realize that with the exception of traffic tickets and the criminal docket in the District Court, most clerical functions in the courts are manual. No desk top computers, no electronic data base, only typewriters, paper, and files. Can you imagine what would happen in these legislative halls or within the executive agencies if all recordkeeping was still handled manually?

We know what needs to be done. We have prepared a detailed technology plan. All that is missing is the money. That is a pretty big all. But we can make this plan work this year. There are two federal funding sources that are promising; equipment grants for a criminal record system under the Brady Bill, and equipment grants and reimbursements available under the Child Support Enforcement Act.

Sometimes disadvantages become advantages. We are one of five states with the worst equipped criminal recordkeeping system in the nation. Ordinarily we would not brag about that, but it places us high on the list for money under the Brady Bill. Both of these sources are limited in terms of coverage. But with your cooperation, a little flexibility, and a relatively small appropriation, something less than what we requested, you can leave this session knowing that you have modernized Maine's courts.

I would also like to talk about creating a Court Improvement Fund. Whether it is raised from a surcharge on fines or a set-aside of court revenues is unimportant, but it is critical that we segregate a sum of money annually that we can plan on and use to improve court services. We have to invest systematically in our courts. Possible projects could include delay reduction programs, creation of a true family court, children's centers, improved expense reimbursement for jurors, differentiated case management for complex civil litigation, electronic information kiosks, the list is endless, but it is time we made a start.

I know that dedicated funds are not favored, but because we now collect, in addition to the twenty

million+ for the General Fund, an average of three million dollars a year for nine other agencies of government in separate dedicated funds, the addition of one more fund neither shocks nor offends me. Currently, we collect for the "Keep Maine Scenic Fund," the "Fish and Game Fund," the "Watercraft Fund," "the Victim's Compensation Fund," which incidentally is a small but tremendously important program, "the Transportation Safety Fund," "the Highway Fund," "the Employment Security Fund," "the Government Operations Surcharge Funds," and "the Violations of Local Ordinances Fund." When you throw in a surcharge for drug testing, a surcharge for probation supervision, and a jail reimbursement fee, you can understand why the most complex task that a judge performs is to calculate a fine, explain that calculation to a criminal defendant, and then try to collect it. No one wants another surcharge, but honestly, one way or another, isn't it time that we invested something in the goose that lays the golden eggs.

I also have to talk with you about judicial morale and compensation. Ask any knowledgeable person, and I am sure they will tell you that morale in the trial courts is very low. There are a number of contributing factors. In the District Court you have the stress on judges produced by crowded schedules overburdened with cases involving unrepresented parties in matters of domestic violence, child protection, and petitions for protection from abuse and harassment.

In the Superior Court you have the press of civil and criminal trials, together with increasingly complex cases involving review of state and municipal regulatory action. Just walk into any Superior Court clerk's office and look at the thick files and the boxes of records, and you can see how litigation has changed.

Judging in the trial courts is an isolating and lonely job, and in the last three years a practice has developed with regard to judicial compensation that has seriously eroded morale.

In your own business you would never promise a small group of your employees a cost of living adjustment in lieu of a raise, and then annually break that promise just days before it was to go into effect, particularly if you had given the rest of your employees a raise. That has happened to the judges over the last three years, and the effects have been felt. Judges are the only employees in state government who have been denied any wage adjustment since July of 1991.

It is a complicated tale, but let me sketch it out. The last major change in judicial compensation began in 1982 when the state set out to reach pay parity with the then lowest paid federal judge. The increase was

phased in over five years but by then the lowest paid federal judge had leaped ahead an additional thirty thousand dollars, and they have since gone out of sight. Abandoning parity in 1988, the Legislature enacted an annual cost of living adjustment with a cap of 4%, to begin July 1, 1991. In 1991 the adjustment was made, but for the next three years, in the closing days of each session, this Legislature has deappropriated the funds budgeted for the adjustment. In the meantime, every other state employee, including many professional employees who earn significantly higher wages than judges received raises.

It bears emphasis that we are not the highest paid state employees, only the most visible. Nationally, the compensation for our Supreme Court Justices ranks seventh from the bottom. Last spring I came over for a visit and spoke with the then President of the Senate and the Speaker of the House and asked them in the interest of morale to consider a small token payment in lieu of the two adjustments that had been withdrawn. Unfortunately, when the books were balanced late at night, no money was set aside for retroactive payment and, in fact, to my surprise and dismay the cost of living adjustment was deappropriated for yet another year. I ask you not to let that happen this July. Let the small adjustment that is already included in the budget go into effect for next year. Dedicated and effective employees must be treated fairly and given some recognition and reward.

We have also submitted legislation calling for the appointment of a three member Commission on Judicial Compensation. One of the members would be appointed by the Speaker, one by the President, and one by the Governor. The Commission would be charged with preparing and presenting a biennial report to the Legislature on the subject of judicial compensation. This mechanism works successfully in a number of other states. It guarantees no judicial wage increases, but it addresses the need to insure that basic fairness applies in fixing adequate compensation for an independent judiciary. In exercising our constitutional powers, we are occasionally required to enter the political thicket and rule on matters such as legislative reapportionment and term limits. We frequently decide cases that have profound effects on the budget or public policy. That is the judiciary's role in our system of checks and balances, and never should it appear that the power of the purse is exercised in such a way as to attempt to influence the decisions of the judiciary.

Finally, I want to say a few words about law and order in our state. Fortunately we do not have the gang activity and the racial strife that we see on television. But there are disturbing trends: increased violence among our youth, serious social effects of drugs, particularly alcohol, domestic violence and sexual assaults hitting new highs, the growing number

of property crimes and other crimes of violence. Crime in Maine is different than what we see elsewhere, but we have serious criminal activity and many of the people who are most vulnerable are insecure in their person and in their homes.

We are witnessing a national debate on the causes of crime and the solutions. Some argue for more prisons, some for boot camps, some for electronic surveillance, and some for improved supervision with education and job training. I am sure that debate will also take place in these halls. I don't have the answers, but I can tell you one thing--no criminal sanction will work until we speed up the trial process, and make the threat of punishment, whatever it is, immediate and real.

Recently, the newspapers reported on a criminal case involving a Maine Guide and a moose hunting violation. The crime occurred in 1991, he came to trial in 1993, and his appeal was finally decided in 1995.

This is not a typical time line, but four years is far too long and far too common. Nothing would please me more as Chief Justice, and nothing would more effectively address crime than to issue an order requiring that all criminal cases be brought to trial within ninety days. I could enter such an order. And that is the national standard. But we couldn't even come close to meeting it.

We must take the delay out of the ordinary administration of criminal justice. Efforts to get tough on crime by threatening a heavy sentence someday in the distant future are not effective. Tougher punishment or different types of punishment will work only if we modernize Maine's courts and impose a speedy trial. This is not a new thought. It has been in our Constitution since 1820. Justice delayed really is justice denied, and in this case, it is the people of Maine who are victimized by an underfunded and understaffed court system.

Today, people seem more concerned with what someone says rather than with what they think. I have attempted to share my thinking with you on some of the issues that are crucial to the judiciary. You may not agree with me. The issues are complex, and I have barely scratched the surface, but I doubt that we disagree about the importance of a vital and independent judiciary to the well being of our tripartite form of government. We in the judiciary understand your budget problems and we can appreciate the cry for less government, but I have talked to a lot of people in the last year and I know you have as well. I am willing to bet that no one said they wanted less justice.

The question I leave with you today is simple and heartfelt -- can we talk about the future of Maine's courts? Do you have time during this session to give

me a call and sit down to talk? I don't care who you are or what committees you serve on. I'm ready to talk. I have posed that same question to Governor King, leaders and members of Maine's business community, and groups as diverse as Parents Against Tired Truckers, the police, family crisis groups, and Editorial Boards. In every case the answer has been yes and the resulting discussions have been positive.

Judges and legislators have to work together because we are partners. When a young mother goes into the busy District Court in Lewiston to get an order that will protect her and her children from an abusive mate, she doesn't distinguish between the law enacted by this Legislature, the judge, and the adequacy of the courts. In her view, it is one system. Either the law works and she is protected, or the law doesn't work, and she and her children remain in danger.

We hear a lot of talk about the fact that government has fallen into disfavor. I don't know whether that is true here in Maine or not, but I offer one very old solution. Alexander Hamilton wrote in the Federalist Papers: "The ordinary administration of criminal and civil justice contributes more than any other circumstance, to impressing on the minds of the people, esteem towards government." Donna Morgan, one of the Parents Against Tired Truckers, said it quite well in the newspaper when she suggested that underfunded courts and lax enforcement should not put people's lives in jeopardy. She said, "If the system in place is not adequate, it should be improved." I agree. You are going to enact hundreds of new laws this session, and yet at the same time laws as basic and simple as those regulating the safe operation of a truck require a special overtime project, and even then effective enforcement is compromised and undermined by a court system bogged down in paperwork. The three branches of government have one job -- to make sure that the law continues to work for Maine people. To do that, we need to talk.

Thank you.
