LAWS

OF THE

STATE OF MAINE

AS PASSED BY THE

ONE HUNDRED AND TWENTY-SECOND LEGISLATURE

SECOND SPECIAL SESSION
July 29, 2005

SECOND REGULAR SESSION
January 4, 2006 to May 24, 2006

THE GENERAL EFFECTIVE DATE FOR
SECOND SPECIAL SESSION
NON-EMERGENCY LAWS IS
OCTOBER 28, 2005

THE GENERAL EFFECTIVE DATE FOR
SECOND REGULAR SESSION
NON-EMERGENCY LAWS IS
AUGUST 23, 2006

PUBLISHED BY THE REVISOR OF STATUTES
IN ACCORDANCE WITH MAINE REVISED STATUTES ANNOTATED,
TITLE 3, SECTION 163-A, SUBSECTION 4.

Penmor Lithographers
Lewiston, Maine
2006

4. Fees. Beginning April 1, 2006, each manufacturer of prescription drugs that are provided to Maine residents through the MaineCare program under section 3174-G or the elderly low-cost drug program under section 254 shall pay a fee of $1,000 per calendar year to the ~~department~~ State. Fees collected under this subsection must be used to cover the cost of overseeing implementation of this section, including but not limited to maintaining links to publicly accessible websites to which manufacturers are posting clinical trial information under subsection 3 and other relevant sites, assessing whether and the extent to which Maine residents have been harmed by the use of a particular drug and undertaking the public education initiative under subsection 5. Revenues received under this subsection must be deposited into an Other Special Revenue Funds account to be used for the purposes of this subsection.

See title page for effective date.

CHAPTER 590

S.P. 787 - L.D. 2043

An Act To Further Reduce Mercury Use and Emissions

Be it enacted by the People of the State of Maine as follows:

Sec. 1. 38 MRSA §585-B, sub-§5, as enacted by PL 1997, c. 722, §3, is amended to read:

5. Standards for mercury. Notwithstanding subsection 1, an air emission source may not emit mercury in excess of 45.4 kilograms, or 100 pounds, per year after January 1, 2000 ~~and~~; 22.7 kilograms, or 50 pounds, per year after January 1, 2004; 15.9 kilograms, or 35 pounds, after January 1, 2007; and 11.4 kilograms, or 25 pounds, after January 1, 2010. Compliance with these limits must be specified in the license of the air emission source. The board shall establish by rule testing protocols and measurement methods for emissions sources for which the board has not established such protocols and methods for determining compliance with the emission standard for mercury. These rules are routine technical rules under Title 5, chapter 375, subchapter ~~II-A~~ 2-A.

An air emission source may apply to the board for an extension or modification of the ~~22.7 kilogram, or 50-pound~~ 11.4-kilogram, or 25-pound, limit as follows.

A. An emission source may submit an application to the board no later than January 1, ~~2003~~ 2009 for a 6-month extension of the January 1, ~~2004~~ 2010 deadline to meet the ~~22.7-kilogram, or 50-pound~~ 11.4-kilogram, or 25-pound, limit. The board shall grant the extension if the board determines, based on information presented by the source, that compliance with the limit is not achievable by the deadline due to engineering constraints, availability of equipment or other justifiable technical reasons.

B. An emission source may submit an application to the board no later than January 1, ~~2003~~ 2009 for a license modification establishing an alternative emission limit for mercury. The board shall grant the license modification if the board finds that the proposed mercury emission limit meets the most stringent emission limitation that is achievable and compatible with that class of source, considering economic feasibility.

Pending a decision on an application for an extension or a license modification under this subsection, the ~~45.4-kilogram, or 100-pound~~ 15.9-kilogram, or 35-pound, limit applies to the emission source.

Notwithstanding the January 1, 2000 compliance date in this subsection, a resource recovery facility that is subject to an emissions limit for mercury adopted by rule by the board before January 1, 2000 shall comply with the 45.4-kilogram, or 100-pound, mercury emissions limit after December 19, 2000.

Sec. 2. 38 MRSA §585-B, sub-§6 is enacted to read:

6. Mercury reduction plans. Any air emission source emitting mercury in excess of 10 pounds per year after January 1, 2007 must develop a mercury reduction plan. The mercury reduction plan must be submitted to the department no later than September 1, 2008. The mercury reduction plan must contain:

A. Identification, characterization and accounting of the mercury used or released at the emission source; and

B. Identification, analysis and evaluation of any appropriate technologies, procedures, processes, equipment or production changes that may be utilized by the emission source to reduce the amount of mercury used or released by that emission source, including a financial analysis of the costs and benefits of reducing the amount of mercury used or released.

C. The department may keep information submitted to the department under this subsection confidential as provided under section 1310-B.

The department shall submit a report to the joint standing committee of the Legislature having jurisdiction over natural resources matters no later than March 1, 2009 summarizing the mercury emissions and mercury reduction potential from those emission sources subject to this subsection. In addition, the

department shall include an evaluation of the appropriateness of the 25-pound mercury standard established in subsection 5. The evaluation must address, but is not limited to, the technological feasibility, cost and schedule of achieving the standards established in subsection 5. The joint standing committee of the Legislature having jurisdiction over natural resources matters is authorized to report out to the 124th Legislature legislation relating to the evaluation.

Sec. 3. 38 MRSA §1310-B, sub-§2, as amended by PL 2003, c. 661, §1 and c. 689, Pt. B, §6, is further amended to read:

2. Hazardous waste information and information on mercury-added products and electronic devices and mercury reduction plans. Information relating to hazardous waste submitted to the department under this subchapter, information relating to mercury-added products submitted to the department under chapter 16-B ~~or,~~ information relating to electronic devices submitted to the department under section 1609, subsection 6, paragraph B or information relating to mercury reduction plans submitted to the department under section 585-B, subsection 6 may be designated by the person submitting it as being only for the confidential use of the department, its agents and employees, the Department of Agriculture, Food and Rural Resources and the Department of Health and Human Services and their agents and employees, other agencies of State Government, as authorized by the Governor, employees of the United States Environmental Protection Agency and the Attorney General and, for waste information, employees of the municipality in which the waste is located. The designation must be clearly indicated on each page or other portion of information. The commissioner shall establish procedures to ~~insure~~ ensure that information so designated is segregated from public records of the department. The department's public records must include the indication that information so designated has been submitted to the department, giving the name of the person submitting the information and the general nature of the information. Upon a request for information, the scope of which includes information so designated, the commissioner shall notify the submittor. Within 15 days after receipt of the notice, the submittor shall demonstrate to the satisfaction of the department that the designated information should not be disclosed because the information is a trade secret~~,~~ or production, commercial or financial information, the disclosure of which would impair the competitive position of the submittor and would make available information not otherwise publicly available. Unless such a demonstration is made, the information must be disclosed and becomes a public record. The department may grant or deny disclosure for the whole or any part of the designated information requested and within 15 days shall give written notice of the decision to the submittor and the person requesting the designated information. A person aggrieved by a decision of the department may appeal only to the Superior Court in accordance with the provisions of section 346. All information provided by the department to the municipality under this subsection must be confidential and not a public record under Title 1, chapter 13. In the event a request for such information is submitted to the municipality, the municipality shall submit that request to the commissioner to be processed by the department as provided in this subsection.

See title page for effective date.

CHAPTER 591

H.P. 1422 - L.D. 2021

An Act To Clarify the Uninsured Motorist Laws

Be it enacted by the People of the State of Maine as follows:

Sec. 1. 24-A MRSA §2902, sub-§1, as amended by PL 1975, c. 437, §1, is further amended to read:

1. ~~No~~ A policy insuring against liability arising out of the ownership, maintenance or use of any motor vehicle ~~shall~~ may not be delivered or issued for delivery in this State with respect to any such vehicle registered or principally garaged in this State, unless coverage is provided ~~therein~~ in the policy or supplemental ~~thereto~~ to the policy for the protection of persons insured ~~thereunder~~ under the policy who are legally entitled to recover damages from owners or operators of uninsured, underinsured or hit-and-run motor vehicles, for bodily injury, sickness or disease, including death, sustained by an insured person resulting from the ownership, maintenance or use of such uninsured, underinsured or hit-and-run motor vehicle. The coverage ~~herein~~ required by this section may be referred to as "uninsured vehicle coverage." For the purposes of this section, "underinsured motor vehicle" means a motor vehicle for which coverage is provided, but in amounts less than the minimum limits for bodily injury liability insurance provided for under the motorist's financial responsibility laws of this State or less than the limits of the injured party's uninsured vehicle coverage.

See title page for effective date.
