## CHAPTER 462

### H.P. 1175 - L.D. 1632

#### An Act Regarding Criminal Procedure with Respect to Allowable Defenses

Be it enacted by the People of the State of Maine as follows:

**Sec. 1. 17-A MRSA §38**, as enacted by PL 1981, c. 324, §14, is amended by adding at the end a new paragraph to read:

An actor does not suffer from an abnormal condition of the mind based solely on the discovery of knowledge about or potential disclosure of the victim's actual or perceived gender, gender identity, gender expression or sexual orientation, including under circumstances in which the victim made an unwanted nonforcible romantic or sexual advance toward the actor or in which the actor and victim dated or had a romantic or sexual relationship.

**Sec. 2. 17-A MRSA §108, sub-§3** is enacted to read:

**3.** A person is not justified in using force against another based solely on the discovery of, knowledge about or potential disclosure of the victim's actual or perceived gender, gender identity, gender expression or sexual orientation, including under circumstances in which the victim made an unwanted nonforcible romantic or sexual advance toward the person or in which the person and victim dated or had a romantic or sexual relationship.

**Sec. 3. 17-A MRSA §201, sub-§4**, as amended by PL 2001, c. 383, §8 and affected by §156, is further amended to read:

**4.** For purposes of subsection 3, provocation is adequate if:

- A. It is not induced by the person; and
- B. It is reasonable for the person to react to the provocation with extreme anger or extreme fear,

provided that evidence demonstrating only that the person has a tendency towards extreme anger or extreme fear is not sufficient, in and of itself, to establish the reasonableness of the person's reaction.

For purposes of determining whether extreme anger or extreme fear was brought about by adequate provocation, the provocation was not adequate if it resulted solely from the discovery of, knowledge about or potential disclosure of the victim's actual or perceived gender, gender identity, gender expression or sexual orientation, including under circumstances in which the victim made an unwanted nonforcible romantic or sexual advance toward the person or in which the person and victim dated or had a romantic or sexual relationship.

#### An Act To Protect Sustenance Fishing

Be it enacted by the People of the State of Maine as follows:

**Sec. 1. 38 MRSA §420, sub-§1-B, ¶A**, as enacted by PL 2001, c. 418, §3, is amended to read:

A. The ambient criteria for mercury are as follows:

(1) Ambient water quality criteria for aquatic life:

- (a) Freshwater acute: 1.7 micrograms per liter;
- (b) Freshwater chronic: 0.91 micrograms per liter;
- (c) Saltwater acute: 2.1 micrograms per liter; and
- (d) Saltwater chronic: 1.1 micrograms per liter; and

(2) Fish tissue residue criterion for human health: 0.2 milligrams per kilogram in the edible portion of fish for all waters, except for those water body segments subject to a sustenance fishing designated use pursuant to article 4-A, which must have a fish tissue residue criterion for human health of 0.03 milligrams per kilogram in the edible portion of fish.

**Sec. 2. 38 MRSA §465-A, sub-§1, ¶C**, as amended by PL 2013, c. 193, §4, is further amended to read:

C. There may be no new direct discharge of pollutants into Class GPA waters. The Notwithstanding paragraph D, section 466-A or any other provision of law to the contrary, the following are exempt from this provision:

- (1) Chemical discharges for the purpose of restoring water quality approved by the department;
- (2) Aquatic pesticide or chemical discharges approved by the department and conducted by the department, the Department of Inland Fisheries and Wildlife or an agent of either agency for the purpose of restoring biological communities affected by an invasive species;
- (3) Storm water discharges that are in compliance with state and local requirements;
- (4) Discharges of aquatic pesticides approved by the department for the control of mosquito-borne diseases in the interest of public health and safety using materials and methods that provide for protection of non-target species. When the department issues a license for the discharge of aquatic pesticides authorized under this subparagraph, the department shall notify the municipality in which the application is licensed to occur and post the notice on the department's publicly accessible website; and
- (5) Discharges of pesticides approved by the department that are:
  - (a) Unintended and an incidental result of the spraying of pesticides;
  - (b) Applied in compliance with federal labeling restrictions; and
  - (c) Applied in compliance with statute, Board of Pesticides Control rules and best management practices.

Discharges into these waters licensed prior to January 1, 1986 are allowed to continue only until practical alternatives exist. Materials may not be placed on or removed from the shores or banks of a Class GPA water body in such a manner that materials may fall or be washed into the water or that contaminated drainage may flow or leach into those waters, except as permitted pursuant to section 480-C. A change of land use in the watershed of a Class GPA water body may not, by itself or in combination with other activities, cause water quality degradation that impairs the characteristics and designated uses of downstream GPA waters or causes an increase in the trophic state of those GPA waters.

**Sec. 3. 38 MRSA §465-A, sub-§1, ¶D** is enacted to read:

D. The following waters are subject to a sustenance fishing designated use pursuant to section 466-A: Conroy Lake in Monticello; Grand Lake Matagamon in Trout Brook Township and T.6 R.8 W.E.L.S.; Mattamiscontis Lake in T.3 R.9 N.W.P. and T.2 R.9 N.W.P.; Grand Falls Flowage, Berry Brook Flowage, George Brook Flowage, Huntley Brook Flowage, Lewey Lake, The Basin, The Narrows, Long Lake and Big Lake, adjacent to Indian Township; and Sysladobsis Lake in T.5 N.D.

**Sec. 5. 38 MRSA §466-A** is enacted to read:

**§466-A. Sustenance fishing designated use**

**2. Criteria deemed protective.** For all purposes, the sustenance fishing designated use established under this article is deemed protected through the water quality criteria for human health calculated and established by the department for the water body segments subject to a sustenance fishing designated use under this article.

**3. Limitation; construction.** Nothing in this section and nothing in the designation in this article of a sustenance fishing designated use may be construed to:

A. Create any other right or protection, including a right to any particular quantity or quality of fish;
