An Act To Improve Regulation of Door-to-door Marketing of Retail Energy Supply

Be it enacted by the People of the State of Maine as follows:

Sec. 1. 35-A MRSA §102, sub-§4-C is enacted to read:

4-C. Door-to-door sales. "Door-to-door sales" means the practice by which a representative of a competitive electricity provider, including a 3rd-party sales agent, solicits or sells electric services to residential or small commercial consumers by means of personal visits to consumers at locations other than the representative's place of business. "Door-to-door sales" does not include sales conducted entirely by mail, telephone or other electronic means; sales conducted during a scheduled appointment at a consumer's residence or place of business; or sales conducted following an initial contact that was solicited by the consumer.

Sec. 2. 35-A MRSA §102, sub-§19-A is enacted to read:

19-A. Third-party sales agent. "Third-party sales agent" means a person or entity that has a business relationship with a competitive electricity provider in which the person or entity conducts or arranges to conduct residential or small commercial consumer sales of electricity to the public at retail on behalf of the competitive electricity provider through door-to-door sales. "Third-party sales agent" does not include an employee of a competitive electricity provider.

Sec. 3. 35-A MRSA §1508-A, sub-§1, ¶B-1 is enacted to read:

B-1. In addition to any penalty imposed on a competitive electricity provider under paragraph A or B, the commission may:

(1) For a willful violation of this Title by any 3rd-party sales agent undertaking the retail sale or marketing of electricity on behalf of a competitive electricity provider, impose an additional administrative penalty on the competitive electricity provider in an amount that does not exceed \$5,000 or .25% of the annual gross revenue that the 3rd-party sales agent received from sales and commissions in the State. Each day a violation continues constitutes a separate offense. The maximum administrative penalty for any related series of violations may not exceed \$500,000 or 5% of the annual gross revenue that 3rd-party sales agent received from sales and commissions in the State, whichever amount is lower; and

(2) For a violation in which a 3rd-party sales agent was explicitly notified by the commission that it was not in compliance with the requirements of this Title, a commission rule or a commission order and that failure to comply could result in the imposition of administrative penalties or the termination of the 3rd-party sales agent's registration, impose an administrative penalty that does not exceed \$500,000 and may terminate the registration of the 3rd-party sales agent.

Sec. 4. 35-A MRSA §1508-A, sub-§1, ¶C, as amended by PL 2011, c. 623, Pt. B, §5, is further amended to read:

C. The commission may impose an administrative penalty in an amount that does not exceed \$1,000 on any person that is not a public utility, voice service provider, dark fiber provider, wholesale competitive local exchange carrier ~~or a~~ competitive electricity provider or 3rd-party sales agent undertaking the retail sale or marketing of electricity on behalf of a competitive electricity provider and that violates this Title, a commission rule or a commission order. Each day a violation continues constitutes a separate offense. The administrative penalty may not exceed \$25,000 for any related series of violations.

Sec. 5. 35-A MRSA §3203, as amended by PL 2017, c. 74, §1, is further amended to read:

§3203. Licensing of competitive electricity providers; consumer protections; enforcement

1. Authority. In order to provide effective competition in the market for the generation and sale of electricity in the State ~~and to provide an orderly transition from the current form of regulation to retail access~~, the commission shall license competitive electricity providers in accordance with this section.

2. Requirements. A competitive electricity provider may not undertake the sale of electricity at retail in this State without first receiving a license from the commission. Before approving a license application, the commission must receive from the applicant:

- A. Evidence of financial capability sufficient to refund deposits to retail customers in the case of bankruptcy or nonperformance or for any other reason;
- B. Evidence of the ability to enter into binding interconnection arrangements with transmission and distribution utilities;
- C. Disclosure of all pending legal actions and customer complaints filed against the competitive electricity provider at a regulatory body other than the commission in the 12 months prior to the date of license application;

- E. Disclosure of the names and corporate addresses of all affiliates of the applicant; ~~and~~
- F. Evidence that the applicant is registered with the State Tax Assessor as a seller of tangible personal property pursuant to Title 36, section 1754-B, together with a statement that the applicant agrees to be responsible for the collection and remission of

taxes in accordance with Title 36, Part 3 on all taxable sales of electricity made by the applicant to consumers located in this State;

G. Disclosure of the names and corporate addresses of all 3rd-party sales agents proposed to be used by the applicant, in a form to be prescribed by the commission. The disclosure must include:

- (1) A sworn statement by each proposed 3rd-party sales agent attesting to the 3rd-party sales agent's understanding of its compliance obligations with the State's door-to-door sales law, the Maine Unfair Trade Practices Act and the applicable commission rules;

A 3rd-party sales agent undertaking the retail sale or marketing of electricity in the State may not engage in any sales or marketing activity unless the 3rd-party sales agent has been registered by the commission as part of the licensing process of a competitive electricity provider in accordance with this subsection. The commission shall provide a registration number to a 3rd-party sales agent proposed to be used by a competitive electricity provider in the competitive electricity provider's application for a license.

The commission shall consider the need for requiring and, if it determines there is a need, may require a competitive electricity provider to file a bond with the commission as evidence of financial ability to withstand market disturbances or other events that may increase the cost of providing service or to provide for uninterrupted service to its customers if a competitive electricity provider stops service.

3. Informational Filings; public information. The commission shall establish by rule information disclosure and filing requirements for competitive electricity providers. The rules must require a competitive electricity provider to submit updated disclosures of 3rd-party sales agents prior to any agent undertaking any activities on behalf of the provider in order

to maintain the accuracy of the information required pursuant to subsection 2, paragraphs G and H and to require the registration of a 3rd-party sales agent not already registered by the commission. The rules must require generation providers to file their generally available rates, terms and conditions with the commission. The commission, subject to appropriate protective orders, may require the submission of individual service contracts or any other confidential information from a competitive electricity provider.

The commission by rule shall establish standards for making available, through any means considered appropriate, information that enhances consumers' ability to effectively make choices in a competitive electricity market.

Rules adopted under this subsection are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A.

- E. May not impose an early termination fee for any contract for generation service that was renewed without express consent from the residential consumer.

If a residential consumer does not provide the express consent required by paragraphs C and D, the residential consumer must be transferred to standard-offer service.

The commission shall adopt rules governing the procedures for issuing or revoking a license under this section and related matters.

6. Consumer protection standards; rules. The commission shall establish by rule consumer protection standards and standards to protect and promote market competition in order to protect retail consumers of electricity from fraud and other unfair and deceptive business practices. The commission shall prohibit, by rule, a competitive electricity provider or a 3rd-party sales agent from representing itself as an alternative to or affiliated in any way with a transmission and distribution utility. Notwithstanding Title 32, chapter 69, subchapter 5 or Title 32, section 14716, the commission may provide by rule that a competitive electricity provider or a 3rd-party sales agent may satisfy the requirements of subsection 4-A, paragraph A by obtaining from the customer oral authorization obtained by an independent 3rd party.

7. Penalties. The commission may impose administrative penalties upon a competitive electricity provider or a 3rd-party sales agent in accordance with chapter 15.

8. Dispute resolution. The commission shall resolve disputes between competitive electricity providers, including 3rd-party sales agents undertaking the retail sale or marketing of electricity on behalf of a provider, and retail consumers of electricity concerning standards or requirements established by or pursuant to subsection 4, 4-A, 4-B or 6.

9. Additional actions. The commission may impose by rule any additional requirements necessary to carry out the purposes of this chapter, except that this section may not be construed to permit the commission to regulate the rates of any competitive electricity provider.

10. Cease and desist orders. The commission may issue a cease and desist order:

- A. Following an adjudicatory hearing held in conformance with Title 5, chapter 375, subchapter ~~4~~ 4, if the commission finds that ~~any~~ a competitive electricity provider or transmission and distribution

utility has engaged or is engaging in any act or practice in violation of any law or rule administered or enforced by the commission or any lawful order issued by the commission. A cease and desist order is effective when issued unless the order specifies a later effective date or is stayed pursuant to Title 5, section 11004; or

B. In an emergency, without hearing or notice, if the commission receives a written, verified complaint or affidavit showing that a competitive electricity provider or a transmission and distribution utility is selling electricity to retail consumers without being duly licensed or is engaging in conduct that creates an immediate danger to the public safety or is reasonably expected to cause significant, imminent and irreparable public injury. An emergency cease and desist order is effective immediately and continues in force and effect until further order of the commission or until stayed by a court of competent jurisdiction. The commission through its own counsel or through the Attorney General may apply to the Superior Court of any county of the State to enforce any lawful order made or action taken by the commission pursuant to this section. The court may issue such orders, preliminary or final, as it considers proper under the facts established before it.

13. Notice to Attorney General. If the commission has reason to believe that ~~any a~~ competitive electricity provider, 3rd-party sales agent or transmission and distribution utility has violated any provision of law for which criminal prosecution is provided and would be in order or any antitrust law of this State or the United States, the commission shall notify the Attorney General. The Attorney General shall promptly institute any actions or proceedings the Attorney General considers appropriate.

13-A. Investigation. The commission may investigate any matter relating to the provision of service by a competitive electricity provider or the actions of a 3rd-party sales agent undertaking the retail sale or marketing of electricity on behalf of a provider pursuant to this chapter. 15. Standard billing. The commission shall consider requiring standard billing information on bills for electric power service. If standard billing information is required, the commission shall investigate the possibility of adopting standards consistent with other New England states. The commission may not prohibit transmission and distribution utilities from contracting with generation service providers to include both entities' charges on a single bill. The commission may not preclude the inclusion of other information on bills for electric power service.

16. Access to load data. Upon request from a competitive electricity provider, the commission shall provide load data on a class basis that is in the possession of a transmission and distribution utility, subject to reasonable protective orders to protect confidentiality, if considered necessary by the commission.
