LAWS
OF THE
STATE OF MAINE

THIS VOLUME CONTAINS

**Cumulative
Subject Index
and
Cross Reference Tables**

1964 through 1988

J.S. McCarthy Company
Augusta, Maine
1990

TABLE OF CONTENTS

Preface	V
Cumulative Subject Index	1
Cumulative Cross Reference Table I	311
Cumulative Cross Reference Table II	781
Cumulative Cross Reference Table III	787

PREFACE

The Cumulative Index provides access to the Laws of Maine, as well as selected Joint Resolutions, Memorials and Proclamations for the years 1964 through 1988, encompassing the work of the 102nd through the 113th Legislatures.

This volume provides two types of access to the Laws of Maine: a subject index, which incorporates both key words and legal concepts, and cumulative cross reference tables, which provide access to the Laws through title and section.

This edition of the Cumulative Index will be the **final** publication of the Index for the years 1964 through 1988, and will serve as the permanent Index for those years. Beginning with the 114th Legislature in December 1988, a new Cumulative Index was initiated.

HOW TO USE THE CUMULATIVE INDEX

The Subject Index uses a hierarchical structure, which includes major, minor and detailed subject listings. This hierarchical format guides the user from the general subject to various aspects of that subject: the minor and detailed terms are designed to narrow the general subject until they focus the user on the topic(s) actually covered in a particular bill. There are usually multiple entries for each chaptered law.

In addition to the major, minor and detail entries, cross references provide additional guides to lead users to the information they need.

- **“See”** references are used to lead users from terms which are not used for indexing to the closest synonym which is an authorized index term (e.g., Disabled Persons — See Handicapped Persons).
- **“See Also”** references direct the user to additional terms which are closely-related or where there may be more information on a topic (e.g., Insurance — See Also Life Insurance).

The Index employs several conventions designed to help users conduct their searches efficiently. Because the Index has been generated through a computerized sorting process, the alphabetization of the entries is affected: abbreviated words such as “St” (Saint), are alphabetized as the word actually appears rather than it would be if it were written out in full. Sometimes, terms are inverted in order to group similar subjects together. For example, instead of using “Civil Procedure” and “Criminal Procedure” the index uses the subject headings “Court Procedure, Civil” and “Court Procedure, Criminal,” which sort together in the alphabet. In general, the word “Maine” at the beginning of the names of state agencies or acts is either dropped or changed to “State;” however, it is retained in the names of private organizations. Similarly, the words “Department” and “Commission” appear at the end of the index term even when that is not the natural word order. Finally, to conserve space, the Index uses the ampersand (&) instead of “and,” and no space is left after commas.

The Cross Reference Tables summarize the changes to both allocated and unallocated laws, as well as to laws that are not included in the Maine Revised Statutes Annotated, as a result of the laws enacted between 1964 and 1988.

The Tables employ the following abbreviations:

Abbreviation	Definition
AMD	Amended by
IB	Initiated Bill
NEW	New Section
PL	Public Law
P&S	Private and Special Law
RAL	Reallocated By
REN	Reenacted By
RP	Repealed By
RPR	Repealed and Replaced By

The Cumulative Subject Index and Cross Reference Tables is published under the auspices of the Legislative Council. This final edition for the period 1964–1988 represents the concerted efforts of several members of the non-partisan legislative staff.
