### **COMPUTER MIGRATION PROJECT**

This request provides funds for costs related to the Legislature's Computer Migration Project which is designed to redevelop database applications that currently reside on a Wang legacy system so that they operate on the Legislature's client/server network. The majority of these funds are needed to contract for services related to the bill drafting/bill status systems, as well as chamber support. The Migration Project must be completed before chamber information can be effectively extended to members of the Legislature at their desks.
