ANNOUNCEMENTS AND REMARKS

ADJOURNMENT

LYNN RANDALL
LAW AND LEGISLATIVE
REFERENCE LIBRARY

TO: All Legislative Offices

March 31, 2000

The Museum plans to remove all of the flags from the flag cases in the Hall of Flags to protect them from the stress of the renovations in the West Wing this summer. Museum staff are going to do a "test run" next Monday morning, April 3, and remove one flag. They will begin this process at 7:30 a.m. and expect to have completed it by 9:00. The rest of the flags will be removed the week of April 17.

Senate President Lawrence, in his capacity as Chair of the Legislative Council, is in the process of appointing a committee to work with Museum staff to develop a plan for the display of historic flags once the renovations have been completed

We wanted you to know what was going on!

Subject: Comparison of Automated Chamber Support Options

In response to the Legislative Council's request of March 30, 2000 for a comparison of Compaq's and International Roll Call's (IRC) Automated Chamber Support systems, the following is provided:

1. Attached is a comparison of the two vendor offerings. The Compaq Chamber function is in two segments a base module and an optional module.
2. The functional components of an Automated Chamber Support system used in the comparison were developed by OIS. Due to a lack of time, we were not able to validate these components with the Senate or House.
3. The comparison is limited to descriptive information provided by Compaq.
4. **Council Members should not assume that any process or function contained in Compaq's proposal (example - bill stamping) meets the requirements of the Maine State Legislature.**
5. Compaq has not met with the Senate or House to define or review the requirements for the Automated Chamber component.
6. IRC is aware of the user's functional requirements.
7. Compaq's proposed cost for providing an Automated Chamber Support system is \$655,300. (base cost \$300,000 & optional module \$355,300)
8. IRC's proposed cost for providing an Automated Chamber Support system is \$809,500.

INFORMATION REGARDING COMPAQ SYSTEM
IN ALABAMA

Yesterday afternoon I met with Ralph Pears and asked for information on the Compaq system. Ralph reported that he has not seen the system from top to bottom and could not tell me what components are in the system. He indicated that he would contact others from Compaq and ask them to contact me with the system component information that we are seeking. (As of 11:20 a.m. Friday, March 31st I have not been called). This morning I had a conversation with the Assistant Secretary of the Senate in Alabama in an attempt to learn about the system that Compaq designed and installed for them. The attached spreadsheet is an attempt to compare the Compaq system with the International Roll Call system currently in place here in Maine.

The Alabama system is the first and only legislative system in operation by Compaq. Mr. Avant said the system was custom designed "from the ground up" to meet the needs of their Legislature. He also said it would not work anywhere else because when "you all" talk about calendars, we don't do them. (Alabama does a listing of bills as they come out of committee and bills are taken off that list in the chamber "on the fly" as members wish. There is no defined agenda or order of business such as we follow.

Mr. Avant also stated that the business process review took a period of 6 weeks to conduct and cost about a half million dollars which was part of the total \$3 million price tag. Hardware cost an additional \$2 million to support the Compaq system. (This price does not include the cost of laptops). He also indicated that they have very little information out on the internet and at this time his leadership wants it that way. He also stated that Compaq would not have finished the project for \$3 million is they had not had a performance bond in place. They have what he termed as an insurance policy by contract with Compaq with an arrangement that Compaq would service the system for \$275 per hour on an "as needed" basis.

This is the third year they have used the system and are pleased

Submitted by Millicent M. MacFarland, Assistant Clerk of the House

INTERNATIONAL ROLL-CALL® CORPORATION

8346 OLD RICHFOOD ROAD
MECHANICSVILLE, VIRGINIA 23116

E-mail: lrc@us.net Webpage: www.roll-call.com

MAINE LEGISLATIVE MANAGEMENT PROPOSAL

The International Roll-Call® Corp. Legislative Management System is a unique system created through years of experience in the Legislative process. There is no other equivalent product available in today's market place which conveniently locates all pertinent data for the Voting, Front Desk Automation (Journal & Calendar), Bill Preparation, Bill Introduction, Messages between the Chambers, Bill Status (Using Internet Web Browser), Committees and Chamber Automation on (Using Internet Web Browser) on the same platform. The system has several modular components and is written in the popular Visual Basic language so future maintenance is economical and simple.

Design Work	\$ 77,000.00	
Existing System Modifications to Generate Web Pages	\$ 12,000.00	
Web Work	\$ 38,500.00	
SQL Database, Automated Calendar/ Journal/Indexes/Bill Status & Tracking	\$599,500.00	
Committee Automation Module	\$150,000.00	
Chamber Automation Module	\$182,500.00	(2-24-2000)
Documentation and User Training	<u>\$ 60,000.00</u>	82,500 (2-24-2000)
GRAND TOTAL	\$1,119,500.00	-(150,000 + 192,500) = 765,000 -22,500

Please advise if you wish to move forward with the project.

Sincerely,

David A. Ward
President

3/31/2000

HOUSE AND SENATE CHAMBERS			
COMPONENT	IRC	Compaq/AL	
Vote Indicator Board(s)	Yes	No	AL has a Daktronics LED Board that display motions, not votes.
LED Message Display Board	Yes	No	
Desk Voting Switches	Yes	No	
House Calendar downloads	Yes	No	No Calendar functions are built into AL's system. AL does not do a calendar. AL simply does listing of bills, changes are captured only when bills come out of committee.
Vote Automation	Yes	No	Staff in AL calls role and manually enters information into their system.
Vote Data Upload	Yes	No	AL does not put rollcall or vote information on Internet.
Page Boards	Yes	No	Page Call System only in House.
Bill Stamping	Yes	Yes	AL bill stamping is not as detailed as ME. AL captures and publishes stamping information only for bill which pass.
Journal	Yes	Yes	AL has Oracle system . LMS is SQL Server.
Short Titling of Bills	Yes	Yes	
Request To Speak	Yes	No	
Interface with Sound System	Yes	No	Microphone Control
Report Writer	Yes	No	
NOTE:	AL Senate uses systems built in-house. They have integrated their systems with Compaq system.		
GENERAL SERVICES/EQUIPMENT			
Messaging System	Yes	Yes	ME passes actual paper because of required concurrence. AL system will pass only "messages".
Laptop integration	Yes	Yes	AL system pushes info to members laptops on desks. ME has taken this function into account through the mainframe migration project.
Legislative Record	Yes	No	AL does not capture a verbatim record.
Internet access to bill/amendment text	Yes	No	AL bill information is done by in-house staff. Information includes bill status and history.
Budget system	No	Yes	AL's budget system is under their fiscal office. System tracks appropriations, produced spreadsheets, fiscal notes, and budgets. This was a custom-built application by Compaq for AL..
Journal Indexing	Yes	Yes	AL's system does some indexing. Human intervention needed to complete and clean.
NOTE: Business process review	AL/Compaq took 6		

SARAH C. TUBBESING
EXECUTIVE DIRECTOR
OF THE LEGISLATIVE COUNCIL

MAINE STATE LEGISLATURE

OFFICE OF THE EXECUTIVE DIRECTOR
LEGISLATIVE COUNCIL

March 29, 2000

TO: Members of the Legislative Council
FROM: Sally 
SUBJECT: Information Related to Renovations

Stan and I have worked with Bruce Hilfrank and Rick Burt to put together the information you requested at Monday's Council meeting. The enclosed package includes the following items:

- Analysis of Construction Costs Beyond Funding
- State House Renovations: Summary of Estimated Construction Costs
- Balance to Complete Construction: Analysis
- Summary of Legislative Council Actions related to the South Wing
- Summary of Fees paid to Architect to Date
- The motion regarding assignment of Space that you tabled on Monday

President Lawrence asked what percentage of the 2000 costs may be attributed to any delayed decisions and consequent delays in design. Stan and Bruce estimate that these delays increase the total cost by approximately 1/2% of the total construction cost **per week**.

Representative Campbell had also asked for line item estimates for both the West and North Wings. Bruce and Stan agree that now that you have approved the assignment of space, the architect can now proceed to complete construction documents. Sound line item estimates can then be developed.

Stan is available to go over this information with you if you wish; and we will all be at the meeting tomorrow to go over these materials with you.

Enclosures

Revised 3/28/00

**LEGISLATIVE COUNCIL
SUMMARY OF ACTIONS RELATED TO 1999 RENOVATIONS**

Action	Date Approved	
Demolish Press Corps building; relocate Press Corps to SOB and house in portable unit until December, 2000	04/05/99	7-3
Scope of Work for South Wing (Attachment # 1)	04/05/99	unanimous (10-0)
Approval of design for Appropriations Committee Room and assignment of space on 2 nd floor	08/31/99	unanimous (9-0)
Final approval of assignment of space in South Wing: added Room 225 to Governor's assigned space and assigned Engrossing to Room 121	09/22/99	6-1
Approval of Guaranteed Maximum Price for Construction in South Wing	09/22/99	unanimous (8-0)
Approve preliminary design for space in SOB for OPLA	10/25/99	6-1
Approval of plan to reinstall Dioramas at the base of the entrance to the West Wing	11/18/99	7-1

The Committee was directed to include the following in all relevant discussions:

Kay Rand, Chief of Staff to the Governor
Mal Leary, on behalf of the Press
Others as required

Senator Rand asked Ms. Tubbesing what the process for allocating space in the State Office Building had been and who had been involved. Ms. Tubbesing responded that the amendment to the Governmental Facilities Authority Act specifically assigned 33,000 square feet -- the equivalent of one floor in the State Office Building -- to the Legislature and that this had been negotiated with the leadership of the 118th Legislature. Senate President Lawrence suggested that the Council pursue negotiations with the Governor.

Motion: That the Legislative Council approve the proposed scope of work for renovations in the south wing of the State House and authorize the architect and construction manager to proceed with the development of construction documents for the following:

- General Upgrade of Systems and Finishes Throughout the South Wing.
 - a) Replacement of all exterior windows and reconditioning of wood frames;
 - b) Installation of mechanical and electrical systems including sprinkler system, upgrade of electrical systems, heating, ventilation and air conditioning in a manner that both achieves compliance with all relevant codes and preserves the historical and architectural character of the building;
 - c) Renovation of all bathrooms in this wing and relocation of women's bathroom on the first floor;
 - d) Installation of security devices in accordance with a plan to be finally approved by the Council by April 30;
- Renovation of the Senate Chamber, in a manner consistent with the scope of work comparable to that completed in the House Chamber last summer, including:
 - a) Renovation of the front dais area to accommodate technology and to support enhanced work flow in a manner that is consistent with accessibility requirements;
 - b) Replacement of members' desks, chairs, and carpet;
 - c) A comprehensive treatment of all finishes (plaster, paint, and wood surfaces);
 - d) Integration of the sound system and the electronic voting/request to speak system.
- Construction of two hearing rooms and a new locker area for legislators at the south end of the first floor, in accordance with schematic designs dated March, 1999, and removal of the Klir Beck cases from this area;

- Complete refurbishing of all other rooms in the south wing in a manner that is consistent with their assigned use, with assignments to be confirmed by April 30, 1999;
- Relocation of all legislators, legislative employees, and the State House Press Corps, who currently occupy space in the south wing, to portable classrooms for the period of construction.

Before the vote was taken Speaker Rowe clarified that the motion would include the renovation of rooms currently occupied by the Governor, but that it defers all decisions about where people will go. Joy O' Brien, Secretary of the Senate, inquired whether the renovation of the Senate Chamber should be included in the motion, and Ms. Tubbesing replied that because these renovations would be funded through the Governmental Facilities Authority, it did require Council approval in accordance with the law. (Motion by Senator Bennett; second by Senator Rand; unanimous).

NEW BUSINESS

Item #1: Request to Review Smoking Policy (Letter from Rep. Watson)

The Chair, Senate President Lawrence, drew members' attention to a letter from Representative Watson requesting that the Council revise the current smoking policy to ban all smoking on the second floor portico. He recognized Rep. Watson, who was present and invited her to present her request. Rep. Watson stated that the current policy essentially puts the second floor portico off limits for non-smokers who are concerned about second hand smoke, and she noted that smoke comes into the State House when the doors are open. She added that she thought the current policy is inconsistent with the law the Legislature had recently passed that bans smoking in restaurants and that it sends a negative message to the many school children who visit the State House.

The Chair, Senate President Lawrence, then recognized Representative Rines, who described himself as a smoker who uses the portico. Rep. Rines said that it is difficult to hear the bells out on the porch and further stated that if the policy is going to be changed, it should be done between legislative bienniums so that smokers would know the policy before they decided to run.

In response to a question from Senator Pingree, Sally Tubbesing summarized the current smoking policy, which prohibits smoking in all areas in the State House, within 20 feet of any entrance to the building, and on the third floor balcony.

Discussion: Speaker Rowe stated that he does not like smoke, but that he does have concerns that as the session advances, the number of roll calls will increase, and that it takes time to get members back into the chamber. Senator Bennett, noting that the Council has to come to some sort of workable solution, stated that he cannot open the window in his office without being overtaken by the odor of smoke that rises from the second floor portico. He pointed out that the current policy, which prohibits smoking within 20 feet of an entrance, may still put the smoker under an open window. Secretary of the Senate O'Brien suggested that the definition of entrance be modified

Payments to Weinrich + Burt

Payments include Architect's fees, as well as fees and reimbursable expenses for consultants listed on the enclosed. Fees are based on fee schedule developed by the Bureau of General Services (last revised in 1986) and are currently 11% of construction costs, based on approved GMP.
