PART

Introduction

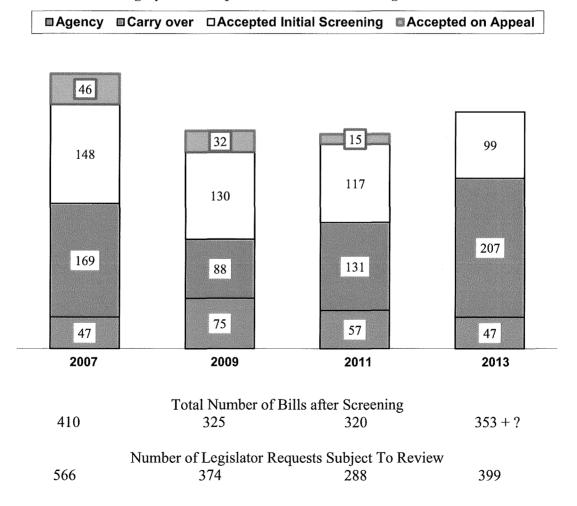

- 7. Appealed Bill Requests Notices and Ballots (Alphabetical by Prime Sponsor)
- 8. Appealed Bill Requests Titles and Comments (by Broad Subject)
- 9. Accepted Bill Requests Titles and Comments (by Broad Subject)
- 10. Accepted Bill Requests Titles only (Alphabetically by Prime Sponsor)

INTRODUCTION

This volume contains the titles and summaries of the 101 bill requests filed before cloture, rejected at the Legislative Council's October 30th meeting and appealed by the appeal deadline on November 6th. The council accepted 99 of 399 requests at its October 30th meeting. Part 7 contains a record of the vote for the requests and is sorted by sponsors' names in alphabetical order. Each sponsor's appeal notice is reproduced as received followed immediately by the ballot for the appealed request. Part 8 contains a list of appealed bills by broad subject. Part 9 contains a list of bill requests accepted by broad subject. Part 10 contains a list of accepted bill requests in order alphabetically by sponsor.

The graph below shows categories of bill requests for this session and the past three second regular sessions.

Re: Appeal of L.R. 2416

Dear Speaker Eves,

I would like to appeal the decision of the Legislative Council that rejected my bill, L.R. 2416, "An Act To Change the Terms of the County Commissioners for Androscoggin County."

House of Representatives 2 STATE HOUSE STATION AUGUSTA, MAINE 04333-0002

TTY: (207) 287-4469

(207) 287-1400

I was asked to submit this bill by the Androscoggin County Commissioners. It is a technical change to the reapportionment law passed by the Legislature in the First Regular Session. As it was explained to me, the terms of the Androscoggin County Commissioners were listed incorrectly in the new law. Districts 1, 3, 5 and 7 should be listed as 4 year terms and districts 2, 4 and 6 should be listed as 2 year terms in order to conform to the County's charter.

It is important that this change occur as soon as possible so as not to interfere with County elections occurring in June 2014. When interested individuals take out papers to run for a commissioner's seat, they are currently unsure of the term length, due to this discrepancy. The nonconformity has also caused initial confusion because two of the three current commissioners have terms expiring in 2016. The County is wondering if they will need to hold a special election, costing them thousands of dollars.

I would appreciate your support for this bill. Thank you for your consideration.

Khall Ballicer

Speaker Mark W. Eves, Chair Room 303, State House 2 State House Station Augusta, Maine 04333-0002

November 6, 2013

Dear Speaker Eves:

Please accept my appeal to the Legislative Council of its rejection of LR 2485, An Act to Amend the Insurance Laws Regarding Pilot Projects.

Maine needs to rein in the exploding costs of health care.

The bill will provide employers with the potential to better serve the health care needs of their employees, create more seamless access to health care, deliver such care with immediacy and promote administrative efficiencies.

There is an opportunity now – but it could be gone tomorrow. The health care landscape is changing almost daily. We have already seen ACA based penalties deferred until 2015, exchanges bogged down and other changes being proposed. The notion of result based health care is gaining ground. Other changes are coming.

Maine should ride the crest of this wave of change, not get caught up in the undertow.

Sincerely,

Henry Beck

State Representative

Comment

This bill would require the Public Utilities Commission, in consultation with the Department of Environmental Protection, to adopt rules to allocate benefits from electric ratepayer-supported investments to limit adverse effects of geomagnetically induced currents into transmission and distribution systems. This bill would also allow the commission to require the installation of equipment monitoring devices for the purpose of tracking changes in reliability of power flow.

APPEAL OF LD 2671, An Act to Facilitate Equitable Rebates for Improvements in the Reliability of Electrical Power Transmission

Dear Senator Alfond:

LD 131 was enacted in June 2013 as Emergency Legislation to assure reliability of electric power to Maine residents and businesses. Legislative hearings established that an ongoing upgrade of the Maine Electric Reliability Program included ongoing build-out of parallel high voltage long distance transmission lines doubles the antennae-like introduction of Geomagnetically Induced Currents (GICs) into the Maine electric transmission system, thereby doubling the vulnerability of critical grid equipment that is not hardware-protected to withstand electromagnetic pulses, whether naturally occurring or man-made. Without prompt action, Maine's risks from solar geomagnetic storms (capable of taking down the grid for months or years) will nearly double over the next several years.

Early installation of GIC monitors at critical Maine transmission equipment sites could allow mapping of solar storm risks, pinpoint locational needs for hardware-protective equipment within the State of Maine, and estimate the allocation of both reliability improvements and financial benefits of installing hardware-protective equipment.

If installation of GIC monitoring equipment were accelerated, during the current period in which transmission build-out increases risks to grid-critical equipment, GIC "hot spots" within Maine could be promptly identified, installation of protective equipment could be accelerated, and the financial beneficiaries of these reductions in grid congestion, and vulnerability of transmission systems could be estimated. This, in turn, could enable rebates to Maine electric ratepayer who are otherwise funding transmission reliability upgrades that benefit the wider New England electric grid. The Maine Public Utilities Commission investigation (Docket 2013-00415, October 2013) indicates that GIC Monitoring equipment has become commercially available at unit prices of \$10,000 per GIC monitoring set, one twentieth the price earlier estimated by a Maine transmission company.

These geomagnetic storm monitoring and reporting systems are needed to demonstrate which equipment upgrades are essential, which protective investments cause reliability enhancements, and which utilities and utility customers derive financial benefits from reliability improvements. The risks of electric blackouts are rising, and without risk monitoring and risk mitigation, the rising vulnerability of the Maine electric grid constitutes an emergency hazard to life and property in Maine.

LD 2671 should be heard as emergency legislation to support completion of the emergency PUC study, which includes examination of benefits and costs of various options.

Subject:

Appeal letter LR 2569 from Rep. Sheryl Briggs

November 5, 2013

President Justin Alfond Legislative Council Chair State House Station Augusta, ME 04333

Dear President Alfond,

I would like to appeal the Legislative Council's decision regarding the denial of request for the second regular session. It is regarding the following LR number:

LR: 2569 Resolve, To Require State Government To Work in Concert To Further Maine's Plan To End and Prevent Homelessness

The rationale for my appeal is that it is imperative to pass legislation as soon as possible to "save lives." There is so much homelessness in the state of Maine that people are dying on the streets of Maine. This legislation will saves lives rather than continuing on the current path of our state in that we need to be much more aggressive and proactive in combating homelessness. By passing legislation now and not waiting another approximately 18 months will strongly help in that effort.

I respectfully ask that you reconsider your previous decision of denial on LR 2569 and allow this into the legislative process.

Respectfully submitted,

Sheryl Briggs

Subject: Appeal to Legislative Council

Importance: High

November 1, 2013

Rep. Mark W. Eves, Chairman; cc: Members of Maine Legislative Council:

Speaker Eves:

Please let this letter serve as my request for an appeal of the Legislative Council's rejection on Oct. 30 by a 5-to-5 vote, my resolve - LR 2440 – that will authorize a pilot project on preservation and accessibility of oral testimony in Legislative Committee public hearings.

It has come to my attention that at least one of the Council members was not aware of the purpose of the Resolve. Had he been aware, he said he would have voted in favor. Given the closeness of the vote, one more Council member in favor would have allowed the bill in the Second Session of the 126th Legislature.

As youi know, the proposal is to creat a link between the Legislature's IT Department and the Maine State Library, providing the storage capacity needed to capture and preserve oral testimony from Legislative Committee public hearings. Currently, printed testimony can be scanned into the system and made accessible. But comments made and testimony given without written copies is lost.

The Maine State Library recently received a sizable federal grant to archive state documents. Under this grant, the funds are available to pursue this endeavor with the Legislative IT Department, which falls under Executive Director David Bolter. The Library contract is under the leadership of Linda Lord, Maine State Librarian.

I worked with Director Bolter and Librarian Lord to draft this resolve. To my knowledge, the project will not have a fiscal note and can be completed by the end of the Second Session of the 126th.

I am circulating this request to all members of the Council and others who worked with me on the informal study committee to brief each of the intent of the Resolve and its current status.

I will not be able to attend the Appeals meeting of the Legislative Council on Nov. 18. By that time in the Holiday Season, I will be under contract to provide Santa Claus at the Bangor Mall daily until Dec. 24. Please allow this note to speak for me at the meeting!

Thank you (and all members of the Legislative Council) for this opportunity for you to take another look at the Resolve.

Sincerely:

Rep. Joe Brooks House District 42

November 5, 2013

The Honorable Mark Eves Chair of the Legislative Council 115 State House Station Augusta, ME 04333-0115

Dear Speaker Eves:

I respectfully request to appeal the Legislative Council's decision on the following bill: LR 2578, "An Act To Maintain the Togue Stocking Program in Millimagassett Lake."

This bill would require the Department of Inland Fisheries and Wildlife to reverse a recent "rule" to discontinue the long standing stocking program in Millimagassett Lake. This change is in direct conflict with recommendations of the professional fisheries biologists and most of the sports fishermen that frequent that lake. The program has been very successful and stopping the "stocking" will decrease the opportunities for those that open water and ice fish on the lake. It may also cause harm to the brook trout population.

This long-standing program has brought essential economic resources to that area. Ice fishing, especially, draws many anglers and their families to this lake during the winter months when the area economy most needs it. Some fishermen have fished there for more than 60 years and testify that the togue stocking is essential for the balance of this lake. I believe this bill is necessary in a "second session" as the termination of the stocking program will interrupt a needed fisheries program for that region.

A local fisherman, Roddie McLellan, provided to me the following information:

In the 80's the brook trout were plentiful, but in poor condition. A 19" trout weighed about 2 pounds. You couldn't fish several locations on the lake because the yellow perch (tiger trout) would take your bait within minutes. When I found the togue areas, I had great action, averaging 7.5 togue per day.

Over time, the perch and smelt numbers were reduced due to the togue. Thanks to the togue, the trout slowly started to increase in size. For the past five years, the trout have been in excellent condition with a huge number of 16" fish and a good number of 3-6 pounders. I believe that if you eliminate the togue stocking program, the perch and smelt numbers will explode which will obviously impact the trout in a negative way.

I appreciate the Council's consideration of this appeal. As always, do not hesitate to contact me if you have any questions.

Sincerely,

State Senator

November 5, 2013

The Honorable Mark Eves Chair of the Legislative Council 115 State House Station Augusta, ME 04333-0115

Dear Speaker Eves:

I respectfully request to appeal the Legislative Council's decision on the following bill: LR 2660, "An Act To Enhance Maine's Stalking Law To Include Illegal Stalking of Groups or Members of an Organization."

This bill would make it illegal for a person to "stalk" a group of people or members of an organization, such as cheerleaders, other athletic teams, or extracurricular groups. This bill is of an emergency nature as there is no statute to prevent this presently. Currently, "stalking" only pertains to one person stalking another single person. In contrast, when a potentially dangerous individual harasses or "stalks" a group of people such as cheerleaders or children of someone they have threatened or assaulted, there is no statute to hold that individual accountable for that act. Students, especially, can be put in harm's way without any means for law enforcement to intervene.

This exact scenario took place in my district last winter. After an individual sent many "threatening" letters to a school superintendent in which were mention of his family's activities, he began frequenting the child's school and following sports teams and cheerleaders to and from distant athletic events. Eventually, he was charged and incarcerated but only for other crimes he had committed. I would be happy to relate further circumstances about this case at your request.

In the days we are living with random acts of violence toward our citizens and especially our children, in my opinion, this addition to our statutes qualifies as an emergency.

I appreciate the Council's consideration of this appeal. As always, do not hesitate to contact me if you have any questions.

Sincerely,

David C. Burns State Senator

Senator Emily Ann Cain 3 State House Station Augusta, ME 04333-0003 (207) 287-1515

November 6, 2013

Dear Speaker Eves:

Please consider this correspondence as my formal request to appeal the Legislative Council's decision to not allow LR 2493, "An Act to Amend the Licensure Requirements of Advanced Practice Registered Nurses" to be considered in the Second Regular Session of the 126th Maine Legislature.

This legislation would assist Maine in meeting the new national standards for Advanced Practice Registered Nurses (APRNs) outlined in the Consensus Model for APRN Regulation (www.ncsbn.org/aprn.htm). The national target date to complete this important work is 2015. These standards will protect the public by ensuring uniformity of APRN regulation across all jurisdictions, and will increase the mobility of APRNs to provide increased access to health care, especially in rural and underserved areas.

Maine has over 1500 APRNs who work in a variety of settings including hospitals, clinics, and private offices. APRNs include certified nurse practitioners (CNPs), certified nurse midwives (CNMs), certified registered nurse anesthetists (CRNAs) and clinical nurse specialists (CNSs). APRNs are a highly valued and integral part of Maine's health care system. They have the necessary training, knowledge and skills to care for patients, and they greatly improve access to health care in Maine's rural areas.

There are over 260 CRNAs in Maine, who administer about a quarter of a million anesthetics per year in every setting in which anesthesia is delivered. In fact, Maine CRNAs are the only anesthesia providers in 80% of the state's rural hospitals. Granting CRNAs independent practice and prescriptive authority will allow nurse anesthetists to practice to the full extent of their education and training. Without prescriptive authority, CRNAs are often limited in their ability order medication that could improve the safety and comfort of patients during their anesthesia care. Lack of prescriptive authority can limit CRNAs from ordering tests (EKG, labs, X-rays, echo cardiograms) that may be necessary to ensure patients' safety during and after their anesthetic experience.

Findings from the Institute of Medicine (IOM) assert that expanding the role of nurses in the U.S. healthcare system will help meet the growing demand for medical services. The IOM report urges policymakers to remove policy barriers that hinder nurses—particularly advanced practice registered nurses such as CRNAs—from practicing to the full extent of their education and training. LR 2493 legislation will fulfill the recommendations of the IOM and allow Maine to meet 100% of the standards proposed in the APRN Consensus Model. Some 32 other states have passed or have current proposed legislation that complies with 80% or more of the standards recommended in the APRN Consensus Model.

I hope the above information will help you reconsider allowing LR 2493 to move forward for the 2014 session. I look forward to addressing the Council to further discuss this proposal.

Sincerely

State Senator Emily Cain

Speaker Mark Eves Chair, Legislative Council

November 6, 2013

Dear Speaker Eves,

I am writing to appeal the Legislative Council's decision not to advance my proposed bill, LR 2575, An Act to Allow a Producer or Wholesaler of Alcohol to Donate Alcohol to a Nonprofit Organization, to the Second Regular Session.

I respectfully suggest this makes this matter an emergency, particularly as the annual charity event session begins next summer and fall.

The current law as interpreted is cumbersome and does not incentivize donations for charity purposes, which is exactly what the original law intended to do.

The law has not worked entirely as intended however.

Breweries that want to support a nonprofit event must arrange for delivery of their product through their distributor and then make a cash donation to the nonprofit. The nonprofit must pay the distributor full price for the product (or the distributor must also agree to donate their profit in cash).

Our local breweries particularly are frequently asked to donate their product to charity dinners and events; many of our breweries are community oriented and would like to donate more. This bill would clarify the intent of the existing law by streamlining the donation process and would benefit Maine nonprofits, breweries, wineries, distilleries, and distributors.

Sincerely,

Michael E. Carey

RE: L.R. 2629, "An Act To Restrict Direct Repair Programs between Auto Insurance Companies and Auto Body Repair Businesses"

Dear Speaker Eves:

In light of my request, L.R. 2629, failing to receive the Legislative Council's approval for acceptance during the 126th Legislature's Second Regular Session, I am writing to appeal the said outcome in hopes that members will reconsider their initial action.

There has been an increasing push by insurance carriers to influence the decision of the party seeking repairs. L.R. 2629 is presented to review and restrict the current practice of "direct repair programs," meaning agreements between auto insurance companies and some auto body shops for benefits of doing business. These practices, directly or indirectly, imply a preference by certain auto insurance companies for specified auto body shops by association; thereby, establishing designated bays in particular body shops for the use of "estimating" costs for repairs by insurance customers, as well as "meeting space" for insurance customers to meet with insurance appraisers within the auto repair shop.

Current law discourages this practice, but not specifically enough to avoid larger entities from benefiting over smaller ones. Some have directly offered a cash benefit to clients for going to an auto body shop of the insurance company's choosing.

As this described situation appears to be growing rapidly and is adversely affecting many small auto body shops, especially in the continued tough economic climate, I believe L.R. 2629 is worthy of immediate and thorough consideration. With that said, I ask that the initiative be allowed to move forward, since protecting small businesses in Maine from unfair practices is everyone's concern.

Thank you for your time and consideration. I look forward to addressing Council members' related questions and/or concerns on November 21. In the meantime, if you wish to discuss the legislative request with me personally, I can be reached at home, 646-2118, or on my mobile phone at 468-9747.

HOUSE OF REPRESENTATIVES
2 STATE HOUSE STATION
AUGUSTA, MAINE 04333-0002

TTY: (207) 287-4469

(207) 287-1400

Dear Speaker Eves:

I would like to officially appeal the Legislative Council's decision not to allow my emergency bill, LR 2343, to go forward. This request was filed due to a critical flaw in the education funding formula that took dollars away from one school district as a direct result of adding millions to the overall applicable budget.

Being a supporter of increased dollars flowing to our schools, I am sure you will agree that legislators should not have to see their individual school districts lose money by reason of increasing local aid.

This proposal is emergency legislation, as it will return \$36,000 in withheld subsidy to the Easton School System this year. Local officials were told that they were going to get a certain amount, and consequently, the associated budget was based on that figure. As such, the administration should not have to resolve a decrease in monies attributed to adding money to the funding formula.

Thank you for your time and consideration. It is my desire to see this bill have a proper vetting and, at least, allow the public disclosure of reasons why one school district lost money while all other districts either gained appropriations or remained flat.

Respectfully,

Tyler Clark

State Representative

Comment

This bill would require the state health inspection program in the Department of Health and Human Services to include a program to train local health inspectors to perform limited inspections of restaurants and other licensed establishments for health and safety violations. Local health officers who have completed this training would have the authority to order the immediate and temporary closing of an establishment when health and safety violations pose an imminent threat to the public.

The Honorable Mark Eves, Chair Legislative Council 115 State House Station Augusta, ME 04333

Dear Speaker Eves:

I respectfully appeal the Council's rejection of LR 2237, An Act to Allow Local Health Inspectors to Inspect Restaurants and Other Licensed Establishments.

Recent changes in law require local health inspectors to be authorized by the state to enter and inspect restaurants and other local establishments. In addition, new regulations have made it difficult for local inspectors to receive state licensing.

These new certification requirements are driving experienced local inspectors out of business. State health inspectors must fill the gap left by the loss of these local inspectors and there are serious concerns that the state does not have the capacity to do so.

The state has set a goal of inspecting each eating establishment at least once every two years. Local health inspectors have years of experience and are well suited to fill the gap created by the limited number of state inspectors.

The new regulations are intended to align state policies with federal Food and Drug Administration standards. The state should work with local inspectors to make these changes incrementally rather than through immediate updates that force them out of business.

I look forward to addressing the Council on November 21 to discuss this proposal and its need for inclusion as emergency legislation for the upcoming session.

Sincerely,

Janice Cooper

The Honorable Mark W. Eves Chair of the Legislative Council 115 State House Station Augusta, ME 04333-0115

Dear Speaker Eves:

Please let this letter serve as a request to appeal the Legislative Council's decision on the following bill: LR 2464, "An Act To Conform Licensing Requirements for Real Estate Appraisers with Federal Law."

It was brought to my attention this fall by the Maine Association of Realtors that new federal regulations impacting real estate appraisers will require changes in Maine statute in order to bring Maine into compliance. If we do not address this issue in the coming session there is the real possibility that Mainers seeking to purchase a new home or refinancing of their existing loans will be severely impacted by a shortage of certified appraisers to handle the load of requests. While components of the proposed legislation have raised some concerns this does not negate the very real dangers of not giving the bill consideration in the coming session. I have heard from members of the banking community as well as the real estate community who stand ready to work with the Legislature on this issue so that we can continue to support those seeking to realize their goal of home ownership.

I appreciate the Council's consideration of this appeal. As always, do not hesitate to contact me if you have any questions.

Sincerely,

Andre E. Cushing III

AUGUSTA, MAINE 04333-0002

TTY: (207) 287-4469

(207) 287-1400

This bill was not submitted in the first session because the knowledge to create it did not occur until a conference on ocean acidification was held in Portland on July 31st/August 1st of this year.

It is of an emergency nature because ocean acidification has the potential to destroy many of our commercial shellfish fisheries, which are valued at over a billion dollar annually and provide over 10,000 jobs. The detrimental effects of ocean acidification are already being seen today.

I look forward to addressing the Council on November 21 to discuss this proposal and its need for inclusion as emergency legislation for the upcoming session.

Sincerely,

Michael Devin

Speaker Mark W. Eves, Chair Room 303, State House 2 State House Station Augusta, Maine 04333-0002

November 6, 2013

Dear Speaker Eves:

Please accept my appeal to the Legislative Council of its rejection of LR 2512, An Act to Improve Hospital-Based Acute Behavior Health Treatment.

This bill must be taken up in the second session because it is an urgently-needed technical clarification to a law that was never intended to apply to acute inpatient settings.

Because acute hospital units address dangerous, rapidly evolving behaviors needing immediate response, patient safety and best practice requires that they cannot wait for an administrative review of a response plan before acting.

In addition, hospitals are already highly regulated, including treatment modes such as seclusion and restraint, and must adhere to extremely high standards that are not in accordance with the current statute if applied to acute inpatient setting.

Finally, the law sets up a review committee of three people, none of whom are required to have training in the behavioral management of individuals with autism or intellectual disabilities. This bill would add one such expert to those committees.

Sincerely,

Richard Farnsworth State Representative

Re: LR 2325 - An Act To Help Recipients of Welfare Benefits To Transfer from Welfare to Work

Dear Speaker Eves;

I respectfully submit this appeal for a second session submission that was rejected at the Legislative Council meeting on October 30th.

The proposed legislation is LR2325, An Act To Help Recipients of Welfare Benefits To Transfer from Welfare to Work.

This bill would require that all job-ready applicants for benefits under the Temporary Assistance for Needy Families program or for a diversion program using alternative aid must present documented proof of job applications.

This bill, like the problem of welfare dependency that it seeks to cure, is absolutely an emergency. Each day that goes by without this reform is a day that hardworking taxpayers see their tax dollars misused, a day that another Maine family will slip into welfare dependency, and a day that our state budget does not realize the savings that it could.

I would like the opportunity to speak briefly on behalf of this appeal.

Thank you for the opportunity of reconsideration in this matter.

Sincerely,

Kenneth W. Fredette

Re: LR2406 Resolve, To Establish the Task Force on Independence from Welfare Dependency

Dear Speaker Eves;

I respectfully submit this appeal for a second session submission that was rejected at the Legislative Council meeting on October 30th.

The proposed legislation is LR2406, Resolve, To Establish the Task Force on Independence from Welfare Dependency

This resolve would create a task force on independence from welfare dependency.

This bill is an emergency because the underlying problem it seeks to cure is an emergency: welfare dependency. There are thousands of Mainers on welfare today and many of them are forced to turn down promotions or better jobs because they would lose all of their benefits if they did so. We cannot allow these disincentives to personal economic growth continue and must act now to improve Maine's economy and give people the opportunity to obtain the dignity of professional fulfillment.

I would like the opportunity to speak briefly on behalf of this appeal.

Thank you for the opportunity of reconsideration in this matter.

Sincerely,

Kenneth W. Fredette State Representative

Re: LR2497 An Act To Improve Participation in the ASPIRE-TANF Program

Dear Speaker Eves;

I respectfully submit this appeal for a second session submission that was rejected at the Legislative Council meeting on October 30th.

The proposed legislation is LR2497, An Act To Improve Participation in the ASPIRE-TANF Program.

This bill would eliminate two exceptions to the ASPIRE participation requirement and amend another. It was developed with the advice and support of DHHS.

This bill is most decidedly an emergency because the people on the front lines of our welfare system tell us it is. Every day, taxpayers and our safety net have to sustain another situation like that described above, where consequences are nowhere to be found and those who would abuse the welfare system are emboldened. This cannot continue if Maine is to achieve a healthy budget and a self-sufficient workforce.

I would like the opportunity to speak briefly on behalf of this appeal.

Thank you for the opportunity of reconsideration in this matter.

Sincerely,

Kenneth W. Fredette State Representative

Re: LR2509 An Act To Expand the Maine New Markets Capital Investment Program

Dear Speaker Eves:

I respectfully submit this appeal for a second session submission that was rejected at the Legislative Council meeting on October 30th.

The proposed legislation is LR2509, An Act To Expand the Maine New Markets Capital Investment Program

This bill would raise the maximum amount of a tax credit claim from \$20,000,000 to \$40,000,000 in the Maine New Markets Capital Investment Program.

This bill is an emergency because there are companies that are ready to invest in our state as soon as the Maine New Markets Capital Investment Program becomes available to them. Putting off a decision on this important economic development measure would put off countless jobs for at least another year.

I would like the opportunity to speak briefly on behalf of this appeal.

Thank you for the opportunity of reconsideration in this matter.

Honorable Mark Eves, Chair Legislative Council 115 State House Station Augusta, ME 04333

Dear Speaker Eves:

I respectfully appeal the Legislative Council's rejection of LR: 2582, An Act To Create Greater Cost Efficiency and Promote Better Health Outcomes by Integrating Improved Access to Dental Care for Adults in MaineCare's Care Management and Coordination Initiatives.

HOUSE OF REPRESENTATIVES
2 STATE HOUSE STATION
AUGUSTA, MAINE 04333-0002

TTY: (207) 287-4469

(207) 287-1400

This bill is designed to save MaineCare significant dollars by preventing unnecessary and costly emergency room services. The MaineCare Redesign Task Force estimated that MaineCare was providing over \$6 million in dental services annually in hospital emergency rooms. MaineCare currently does not provide an adult dental benefit and only pays for dental services when they have reached the point of an emergency. As a result, people on MaineCare do not seek dental care until they are in crisis and present themselves in a hospital emergency room. This is a very inefficient, costly and inhumane way to provide these important services.

This bill would create a limited dental benefit that would allow members to receive dental services in an outpatient, clinical setting if the member's existing care manager determines that the clinical services would prevent the utilization of more costly care.

I look forward to addressing the Council on Nov. 21 to discuss this proposal and its need for inclusion as emergency legislation for the upcoming session.

Sincerely,

Drew Gattine

(207) 287-1400

Since 2010, the use of heroin has been on the rise in Maine and is now the drug of choice on the street, according to Commissioner Morris, police chiefs from around the state and Governor LePage. It is both cheap and readily available. As such, any user is at risk from a potential overdose and fatality.

LR 2626 gives health care providers, pharmacists and public safety officials/first responders the means to address a person's overdose by administering a life-saving drug in a timely and responsible manner.

I look forward to discussing this with you on Nov. 21 and I thank you for your consideration.

Kind regards,

Sara Gideon

RE: LR 2380 An Act to Establish the Maine School of Marine Science, Technology, Transportation and Engineering

Dear Speaker Eves:

I was approached to submit this piece of legislation by the leadership of RSU 20. The Superintendent and his staff explained to me the need for the school and the emergency nature of the bill. Here in Searsport we have a rich heritage relating to the marine related industries. For the better part of the 19th century, we had thirteen different ship building yards that built over 200 sailing vessels and we continue to be one of three ports in Maine's three port development strategy.

The MTTE Academy will strive to develop literate, ethical and productive members of society empowered to meet the challenges of a global community by providing a rigorous focused academic environment with a core specialization in marine science and technology. Searsport's Academy of MTTE is a specialized high school developed around the marine and environmental science theme. MTTE is geared toward students who wish to concentrate their studies in the areas of math and science.

Students enrolled in MTTE engage in a rigorous academic course of study that thoroughly prepares for post-secondary higher education and satisfies all of the state requirements for high school graduation. Students will take college level courses for dual credit. The opportunity for participation in internships/ externships in laboratories, field work, and industry will be made available to students during their junior and senior years. Our superintendent reports that while preparing the curriculum for the MTTE he has been in contact with several post-secondary school including University of Maine Machias, University of Maine at Orono, and Maine Maritime Academy. The post-secondary institutions support the concept of this school. Students will be better prepared to enter these institutions. The nearest school of this type is located in Connecticut. On top of preparing students for hirer education in the related field they will offer three certificate programs for emerging industries in Maine.

The MTTE Academy is obliviously a school that will concentrate on STEM related courses. This school will operate within the existing Searsport High School building for classroom space. We are not looking for additional money for any construction. The legislation is necessary in order to accept students from out of the district and potentially from out of Maine and possibly international students. The emergency need for this legislation is the result of school year timing. In order to get the Board of Trustees selected and the curriculum finalized for the next school year we will need to have this bill before the legislature this session. The administration of RSU 20, the marine related industries, institutions of higher learning, and the residents of the Town of Searsport are all interested in seeing this school exist and succeed.

Respectfully submitted,

James Gillway District 41

AUGUSTA, MAINE 04333-0002

TTY: (207) 287-4469

(207) 287-1400

The Audit Accountability Bill should be passed without delay because it will lead to the correction of government processes that waste Maine financial resources and compromises future economic growth.

Millions of dollars are wasted every year because of inadequate systemic deficiencies that have been identified as audit findings year after year and still to this day remain uncorrected.

For example, the State is overpaying by about \$30,000,000 per year because it is not deducting the resident's share of costs when making a remittance to nursing homes or private non-medical institutions. Maine thus places an overreliance on State recovery efforts, hoping that the facility will pay it back.

This is an issue that has gone on far too long and causes unnecessary damage, especially during weak economic times. Citizens and businesses should be benefiting from reasonable taxes and medical care, a strong infrastructure, and, when needed, a reliable safety net. This cannot be done as effectively when the State wastes millions of dollars each year.

Sincerely,

Anne Graham

Speaker Mark Eves Legislative Council 115 State House Station Augusta, ME 04333

Dear Speaker Eves:

It is my intention to appeal the Council's rejection of the following bill request: LR: 2413 An Act To Clarify the School Budget Development Process in Certain Charter Municipalities

The importance of LR 2413 to the Town of Heron is significant. The Town Charter for the Town of Hermon clearly requires that "the Town Council approve the complete Town Budget including the School Budget" prior to it going to Town Meeting. The current statute eliminates the Town Council from the process of approving the budget for a Department of the Town and is inconsistent with the Town Charter. This create serious financial consequences for the Town since the Council is the overseer of the Town's overall finances, the School Department's share of the overall budget is 80% of the total Town budget, and the Town Council has no say. This would not be true if the Hermon Schools were part of an RSU or SAD, but Hermon Schools are still a department of the Town. A comparison could be made to the Governor preparing the State budget, and completely by-passing the Legislature and going directly to the citizens of the state. The complexity of budgeting has to be understood by those who are responsible for the overall financing of the entity. It cannot be left solely to the citizens or the parties of interest since the majority of them do not have the time or knowledge to understand the complexity of municipal or state financing.

The citizens of Hermon and many other Charter communities require their Council to approve all budgets for all departments. The exception for Hermon and other communities that have a Town Council form of government is the Town Council's decisions have to be ratified at Town Meeting. For that reason, I believe when the current statute pertaining to the approval of the school budget was approved, it was not the intent of the Legislature to remove authority granted by any municipal charter but to give the citizens a final say which the Town Council and Charter endorses.

I look forward to addressing the Council to discuss this proposal and to clarify its need for inclusion as emergency legislation for the upcoming session.

Speaker Mark Eves Legislative Council 115 State House Station Augusta, ME 04333

Dear Speaker Eves:

It is my intention to appeal the Council's rejection of the following bill request:

LR 2452: An Act To Extend Health Care Benefits to Certain Persons Aging out of Foster Care

Reasons for Appeal and why this is emergency legislation:

- 1. Title Incorrect: Should have been submitted as: "An Act To Extend Educational Benefits to Certain Persons Aging out of Foster Care."
- 2. Growing up in foster care is not easy. There are currently over seventy of these students in Maine's institutions of higher learning who have overcome major barriers to pursue their education. They are handicapped by lack of family support, lack of money, and lack of help as they plan for the future. The one thing they have in abundance is **determination**. One young woman now in her third year at UMaine works forty hours per week, holds down two jobs and still manages to have honor grades. Others are not so fortunate and are in danger of dropping out. At a small cost, we can insure that all these students who have started their lives with a major disadvantage can at the very least complete their education, benefiting both themselves as well as the rest of society.
- 3. The need of students aging out of Foster Care is urgent and ongoing. I have met with many of them and they are passionate, involved, articulate and concerned. We cannot afford to waste the talents of our determined young people.

I look forward to addressing the Council to further discuss this proposal and to clarify its need for inclusion as emergency legislation for the upcoming session.

Appeal of LR 2579

Dear President Alfond and Legislative Council Members,

I am appealing the failure of passage through legislative council of LR 2579: An Act to Help Joint Owners of Property Remain in Their Homes By Providing a Property Tax Exemption.

This is an emergency as people throughout the state are struggling to remain in their homes. With various home owner programs being cut throughout the years and costs of everything skyrocketing, I think any assistance we give that allows people to remain in their homes is valuable.

Additionally, if someone receives in home care rather than being in a long term care institution, it saves the state a significant amount of money as the property tax exemption would be a mere fraction of the cost of ONE MONTH in a long term care facility. We need to start helping Mainers who are sick remain in their homes as much as we possibly can rather than waiting until tomorrow because, as we all know, tomorrow never arrives.

Thank you for your consideration.

Representative Harlow

This bill would clarify that a superintendent is required to specify why the transfer of a student from one school administrative unit to another is not in the student's best interests only if that is the reason the transfer was denied.

11/8/2013 8:11:17 AM

To: President Alfond, Distinguished Members of the Legislative Council,

From: Representative Brian Hubbell, Bar Harbor

Date: November 4, 2013

Re: Appeal of Legislative Council decision on LR 2478: An Act To Correct an Inconsistency in the Process

Controlling the Transfer of a Student between School Administrative Units

Policy Background

Last session, via LD 530, the Legislature amended the statute regarding school superintendents' transfers of non-resident students. This change — which received a unanimous report from the Education Committee and was enacted under the hammer in the House and with unanimous roll call in the Senate — simply intended that superintendents document the reasons for their decisions regarding transfer requests in order to inform any subsequent process of appeals.

In our committee's policy discussion, no one advocated altering the threshold for valid non-resident student transfers. Therefore the amended statute deliberately retains this permissive language: *Two superintendents may* approve the transfer of a student if the transfer is in the student's best interest.

Inconsistent interpretation

However, following <u>guidance from the Department of Education</u>, apparently some are now reading the amended statute to require the approval of <u>all</u> transfer requests unless superintendents can explicitly prove that such a transfer is specifically <u>not</u> in the student's best interest

This interpretation represents an inconsistency between the long-established permissive language in the statute which allows certain flexibility in non-resident transfers based on specific circumstance and this new, much more stringent interpretation — which essentially <u>requires</u> a non-resident transfer or else a problematic proof of a negative.

Consequence to taxpayers and community schools

Should this newer, inconsistent interpretation prevail, the result seems likely to weaken local support for community schools as resourceful parents increasingly request to transfer their students to schools funded by adjoining towns while tolerating inadequate local funding within their own tax jurisdictions. At the same time, receiving schools will face increasing burdens for the wholesale education of non-resident students at their own expense.

The longer term consequence is likely to be increased inequality of educational opportunity for Maine students rather than overall improvement. This issue is an immediate concern to most local school boards and their taxpayers.

Emergency request

So, in order for our policy committee properly to review and rectify this issue, I ask that the Council allow this bill request for the upcoming session.

Representative Brian Hubbell, House District 35: Bar Harbor, Southwest Harbor, Cranberry Isles, Mount Desert

November 5, 2013

Mark Eves, Speaker of the House Chair, Legislative Council Revisor of Statutes 7 SHS Augusta, ME 04333

Dear Speaker Eves;

It is my intent to appeal the Legislative Council's rejection of the following bill request:

LR 2580, An Act To Fund the Maintenance of Veterans' Grave Sites

The unintended magnitude of the impact of LD 274, "An Act To Preserve and Protect Ancient Burial Grounds and Burial Grounds in Which Veterans Are Buried," recently came to my attention, and prompted me to submit this bill request. For example, the town of Waldoboro alone has 68 private ancient burial grounds comprising 36 acres that they may have to maintain to a strict standard as a result of this law. The title is perhaps unfortunate, because there are other ways of mitigating the impact of LD 274 on municipalities without directly funding the maintenance. I would see my proposed bill as a way of determining options that would clarify reasonable limits on the standards, and therefore the costs incurred by municipalities, at little or no cost to the state. The bill is an emergency because municipalities are facing potentially serious cemetery maintenance costs as a result of LD 274 this year.

Thank you very much for your attention to this matter. Please feel free to contact me if you have any questions concerning this bill. I look forward to seeing you on Appeal Day.

Very truly yours,

Senator Chris Johnson Senate District 20

Thibodeau	Yes			Fredette	Yes		,
Haskell	No		ý	McCabe	No		
Jackson	No			Berry	No		
Alfond	No			Eves	No		

Comment

This bill would require the court to consider during sentencing for a drug crime whether children were present when the crime was committed, whether the crime was committed in a residential neighborhood and the number of drug crimes committed at the same residence. It would clarify that a person who owns residential property and has knowledge of illegal drug trafficking occurring within that property is liable under existing accomplice laws.

It would require a study to assess the current criminal justice system for drug crimes and propose a long -term plan to document the impact of illegal drug activity and respond to the crisis of illegal drugs in this State. The study would include an assessment of existing studies and data and provide authority for the Joint Standing Committee on Criminal Justice and Public Safety to report out a bill relating to the study in the First Regular Session of the 127th Legislature.

Date: November 3, 2013

LR 2446 An Act to Enhance Drug Enforcement in Residential Neighborhoods

Problem: Illegal drug sales are expanding across the State of Maine. Some of the most serious and persistent activities are enabled by criminals from out of state who are encouraged to move their illegal activities to Maine by the lax penalties and benign enforcement environment in our state. The impact on our society and the safety of our citizens make this an urgent issue.

Solution: The proposed legislation is based on coordination with local law enforcement agencies that have field experience trying to combat these activities.

- Harboring Criminal Activity: This legislation would make the act of knowingly allowing criminal drug activity in houses or on property owned by an individual, a group of individuals or organizations subject to forfeiture.
- The provision of state aid: This legislation would prohibit the receipt of Maine benefits to include food stamps, housing aid and Maine Care for persons engaging in illegal drug activity including selling, using or harboring those who do. In order to eliminate the problem of drug users paying for their drug habit with food stamps all state provided benefit cards will carry the picture of the person the card is issued to. In the case of minor dependent children, benefit cards may not be issued to a parent or guardian found guilty of illegal drug activity.
- Penalties for the sale of drugs: This legislation will increase the jail penalties for the sale
 of illegal drugs to act as a serious deterrent for local and out-of-state criminals selling
 illegal drugs in Maine. Mandatory minimum sentences for the sale of selected drugs will
 be raised to deter the problem of out-of-state criminals moving to Maine to conduct
 illegal drug activity because of our benign enforcement environment.
- Long Term Response to Illegal Drug Activity: This legislation would require a study to
 assess the current system and propose a long term plan to document the impact of
 illegal drug activity and to respond to the crisis of illegal drugs in Maine. This study
 should include an assessment of existing studies and data and provide for the capability
 of the Criminal Justice Committee to submit additional legislation in the 127th
 Legislature.

An Act To Reduce Nuisance Marijuana Growing

 Total:	4	6	0	0	Out
	Yes	No	Abstain	Absent	
Katz	No			Willette	Yes
Thibodeau	Yes			Fredette	Yes
Haskell	No			McCabe	Yes
Jackson	No			Berry	No
Alfond	No			Eves	No

Comment

This bill would reduce nuisance medical marijuana growing by requiring the Department of Health and Human Services, after consultation with the Department of Environmental Protection, to adopt rules for medical marijuana cultivation and processing for registered caregivers and dispensaries that set standards for air filtration, ventilation, noise, odor, disposal of water, plant cultivation and processing waste. The bill would propose that the rules, which would be major substantive rules, would apply in municipalities and in the unorganized territories and that a violation of the rules would be a civil violation for which a fine of up to \$1,000 could be imposed.

Page 40 of 102 11/8/2013 8:11:17 AM

To: Speaker Eves, Chair Legislative Council

From: Representative Peter B. Johnson

Date: November 3, 2013

Re: LR 2447 An Act to Reduce Nuisance Marijuana Growing

Problem: The legal production of marijuana in residential areas is causing problems for neighbors and abutting landowners. The problems include: the noxious exhaust odors and the noise of vent fans. Additionally, neighbors expect that these businesses may lead to other illegal activities thus constituting an emergency requirement for the health and wellbeing for the citizens affected.

Solution: This legislation would require that the qualifications for the approval a license to produce medical marijuana and the procedures employed by a licensed producer include:

- The licensed producer of medical marijuana must comply with the following criteria in addition to those already reflected in statute:
 - o May not have a felony conviction.
 - The owner/operator must undergo strict background checks on individuals applying for any license to grow or receive marijuana. Past violations of the law should be weighed heavily by the agent before approval.
 - The place where marijuana is grown must be noted on application
 - Commercial growers may not grow marijuana in a residentially zoned area.
 - o Owner/operator must submit all employees for a police background investigation.
 - o Owner/operator must report all income IAW Maine law.
 - o Owner/operator must maintain a list of all sales available for inspection.
 - Owner/operator must maintain the business and records available for no notice inspection by state and local law enforcement agencies to insure conformance with Maine Law. Violations will result in loss of license.
 - o Unauthorized sale of marijuana to persons or organizations will result in the revocation of the license.
- If the production facility is located in a commercially zoned area the following criteria must be met:
 - o All growing operations must have filtration systems that effectively eliminate noxious odors (e.g. carbon filtration system) and the filtration system must be maintained to insure reliable operation.
 - o All growing operations must employ noise abatement procedures that eliminate substantial interference of personal inconvenience, discomfort, or annoyance
 - o If the property is zoned for residential use that zoning prohibits the production of legal marijuana at that location.
- Applicants to receive a card for personal use must comply with all noise and odor restrictions above.

To: Speaker Eves, Chair of the Legislative Council

From: Representative Peter B. Johnson

Date: November, 3, 2013

LR 2448 Resolve, Authorizing the Director of the Division of Parks and Public Lands in the Department of Agriculture, Conservation and Forestry To Convey the Chesuncook Community Church Building in Chesuncook to the Greenville Union Church

This legislation would correct the apparent lack of proper, documented conveyance of ownership of the Chesuncook Village Church building by Great Northern Paper Company.

Background:

According to historical records, the current Chesuncook Community Church building was the result of Great Northern Paper Company giving the town of Chesuncook a couple of its boom houses which were then disassembled, moved, and reassembled into the current church building. This was done in 1922-1923. At that time, the Town of Chesuncook did not have a preacher for the new church building. Reverend Vrooman of the Union Church in Greenville got the Congregationalist Society of Portland to provide oversight of the new church, organized the Christian Brotherhood Society and appointed one of the Chesuncook residents as leader and president. This collaboration continued until 1943 when the war interrupted many routines. The church then became deserted and sat unused for years.

In 1975, under the leadership of Robert Mayhew, the Greenville Union Church entered back into a collaboration and worked alongside the Village residents to restore the Chesuncook Community Church. At that time, the Greenville Union Church entered into a lease agreement with the Great Northern Paper Company for the Chesuncook Community Church. In 1975-76, the Greenville Union Church received 3 boomhouses from GNP Co. which they then put together to make a parsonage next to the Chesuncook Community Church. In 1975, GNP released some of its landing holdings in the Chesuncook Village area to the State of Maine. The land under both the Chesuncook Community Church and the parsonage was part of that deal. In 1982, a deed for the Chesuncook parsonage was drawn up for the Greenville Union Church but no deed for the Chesuncook Community Church seems to be in existence. The Bureau of Parks and Lands has searched its holdings and the Greenville Union Church has searched its files, but no formal deed has ever been located. Various other documents and exchanges seem to imply ownership of the Chesuncook Community Church by the Greenville Union Church but nothing can be proven. However, since 1975, the Greenville Union Church has held a lease with either GNP or the State of Maine for the operation of the Chesuncook Community Church. Also since that time, the Greenville Union Church has supplied guest ministers to the pulpit every summer and has provided them with a place to stay in the Chesuncook parsonage. Because of this longstanding history, the Greenville Union Church would like to finally become the documented owners of the Chesuncook Community Church. Documented ownership is needed because significant repair work is imminent and without ownership, responsibility for those repairs sits in limbo.

The Greenville Union Church has provided for and served the Chesuncook Community Church since 1975 and has every desire to continue its ecumenical summer ministry in the Chesuncook region. This emergency legislation is being brought forth because the Chesuncook church is historically significant and the foundation, which is lacking structural integrity, requires significant repair. This clarification of the Chesuncook church status will allow the Greenville church to raise funds to secure imminent repairs and provide funding for the future.

Dear Speaker Eves:

I respectfully appeal the Council's rejection of LR: 2354, An Act To Subject New Tax Expenditures to a Sunset Review.

This legislation creates the Tax Expenditure Sunset Review Committee to appraise tax expenditures and to make recommendations to the Legislature regarding their renewal or expiration. It is crucial to pass legislation this year so that by the 127th Legislature we can begin the appraisal of tax expenditures. If not we will have to wait two years in order to begin the process of reviewing the tax expenditures.

MaineCare rates for home health care services have not been increased since 1998 and Medicaid rates now cover less than half of the cost of providing services for MaineCare beneficiaries. This has created a crisis in which new health care delivery models need to rely more heavily on comprehensive home health care, but home health agencies have no capacity to invest in their services for MaineCare members.

I look forward to addressing the Council on November 21 to discuss this proposal and its need for inclusion as emergency legislation for the upcoming session.

Each summer and fall in Maine hundreds, if not thousands, of live animal prizes are awarded at fairs and festivals throughout the state. This legislation is necessary now to prevent this practice from happening next season. This is an issue that violates the humane treatment of animals and does not have a place in Maine. To be specific, the target is largely the widespread use of fish as prizes at fair booths.

I look forward to addressing the Council on Nov. 21 to discuss this proposal and its need for inclusion as emergency legislation for the upcoming session.

Subject: Appeal

APPEAL NOTICE

TO:

Speaker Mark Eves

Chair, Legislative Council

FROM:

Senator Roger Katz

DATE:

November 5, 2013

RE: Appeal on Bill Request for LR 2694: An Act to Prohibit Providers of Cloud Computing Services to Primary and Secondary Institutions From Processing Student Data for Commercial Purposes

I respectfully request reconsideration by the Legislative Council of its decision to exclude this bill from the special session.

Purpose:

The purpose of this proposed bill is to ensure that when a primary or secondary school uses cloud computing services, the school's cloud computing service provider does not use student data for commercial purposes, such as targeted advertising to students.

Background:

Cloud computing can mean a number of things, including remote storage and management of data, rather than local storage and management of data. Cloud computing is becoming one way to save money on data storage and management and businesses, individuals and schools are turning to cloud computing more and more as a cost saving measure.

Various providers of cloud computing services treat the data that they are storing and managing differently. While some cloud computing service providers strictly guard the privacy of this data, other cloud computing service providers mine this data and sell mined information to advertisers, who use this information to target advertisements to individuals.

This bill would prohibit cloud computing service providers from processing student data for commercial, for-profit activities.

Emergency Nature:

The use of cloud computing services expands everyday and this legislation is needed sooner rather than later to provide guidance those providing cloud computing services to Maine schools and to safeguard student data from commercial exploitation. This bill request should be approved by the Legislative Council so that this bill can be introduced during the Second Regular Session of the 126th Legislature.

Thank you for consideration of this.

Respectfully submitted,

Roger Katz State Senator

Dear Speaker Eves:

It is my intention to appeal the Council's rejection of the following bill request:

LR: 2269 An Act To Prohibit a Requirement for Annual Authorizations for Insurance Coverage for Phenylketonuria and Allied Disorders

PKU is a rare genetic metabolic disorder characterized by the inability to metabolize the amino acid phenylalanine (Phe). Treatment involves a strict Phe-restricted diet supplemented by a medical formula containing amino acids and other nutrients. Untreated PKU can lead to intellectual disability and a range of serious medical problems.

This spring, a constituent brought this issue to my attention. A mother of two children with PKU, her insurance policy had always covered the expensive formula that her children need, and will need for the rest of their lives. She was shocked when the insurance company notified her that they would now start requiring yearly reauthorization in order to continue covering the special formula. I put this bill forward to end this practice, and stop insurance companies from creating unnecessary barriers standing in the way of PKU patients receiving the formula they need to live.

I look forward to speaking with you in person to discuss this proposal and to clarify its need for inclusion as emergency legislation for the upcoming session.

Respectfully,

Colleen Lachowicz

Dear Speaker Eves:

It is my intention to appeal the Council's rejection of the following bill request:

LR: 2491 An Act Relating to Nursing Home and Hospice Patients and Medical Marijuana Use

The act would reverse the Maine Department of Health and Human Services recent change in rules regarding medical marijuana use that went into effect in December of 2012. The act strictly refers to non-smoked forms of medical marijuana, and it would allow patients in hospice care and nursing homes who are authorized to use medical marijuana for treatment to do so. When patients with cancer and other life-threatening and debilitating medical conditions are placed in hospice or nursing homes, they are there because they are in poor health, and are likely in pain. They should not be denied access to their medicine in times when they need it most.

I look forward to speaking with you in person to discuss this proposal and to clarify its need for inclusion as emergency legislation for the upcoming session.

November 6, 2013

The Honorable Mark Eves Chair of the Legislative Council 115 State House Station Augusta, ME 04333-0115

Dear Speaker Eves:

Please let this letter serve as a request to appeal the Legislative Council's decision on the following bill: LR 2320, "An Act To Ensure Equity in Teacher Retirement Costs for Private Academies."

As you know, a new mandate was included at the last minute in the two-year budget that requires public schools to pick up the teacher retirement costs for the so-called 60 percent private academies. My proposal would make it a shared cost between private academies and public schools.

Without this bill, an ongoing cost-shift of more than \$737,000 in retirement costs will continue to fall on the shoulders of public schools that tuition their students to private academies. Since this cost-shift was inserted in the budget with no discussion, public schools did not budget the cost.

The reason behind private schools picking up some of the costs is based on the fact that private schools not only take public school students, but they also accept private tuition students. Additionally, public schools do not negotiate private academy teacher salaries, which drive retirement costs.

The payment of that \$737,000 is a direct assessment on sending schools this year since it is not yet reflected in the average tuition rates. Moving forward, it will be in the rate, but it is my belief it should be reduced by having private academies pay a portion.

It is essential that the Legislative Council allow this bill to move forward so the Education Committee has the opportunity to debate this issue. It is only fair that a mandate of this significance have a public hearing, a hearing that was not afforded to those most affected earlier in the year.

Sincerely,

Brian D. Langley State Senator

November 6, 2013

The Honorable Mark Eves Chair of the Legislative Council 115 State House Station Augusta, ME 04333-0115

Dear Speaker Eves:

Please let this letter serve as a request to appeal the Legislative Council's decision on the following bill: LR 2436, "An Act To Enhance Comprehensive Early College Programs." This bill would provide up to \$1,000,000 for funding comprehensive early college programs for fiscal year 2014-15.

Last year, the original proposed amount in the biennial budget for the Bridge Year program was \$2 million. Through the appropriations process, that amount was decreased to \$1 million for the biennium - \$500,000 for each year. Much to my surprise as well as to the surprise of our caucus, the final enacted budget ended up appropriating \$500,000 total for one year only.

It was my understanding as well as the understanding of Senator Pat Flood that the Bridge Year program was to be funded for each year of the biennium and that \$1 million was to be appropriated. If a change was made to this agreement late at night without the full knowledge of the members of Education and Appropriations Committees, I believe that we should have a vehicle before us during the upcoming session to reconsider funding for the second year.

I appreciate the Council's consideration of this appeal. As always, do not hesitate to contact me if you have any questions.

Sincerely,

Brian D. Langley State Senator

Comment

This bill would require the Department of Labor, when it issues an employer the annual notice of contribution rate, to provide specific information about that employer's unemployment account activity for the prior year.

November 6, 2013.

The Honorable Mark Eves Chair of the Legislative Council 115 State House Station Augusta, ME 04333-0115

Dear Speaker Eves:

Please let this letter serve as a request to appeal the Legislative Council's decision on the following bill: LR 2449, "An Act To Require the Department of Labor To Provide Specific Information to Employers Regarding Their Unemployment Insurance Activity."

As you are aware, I have been a small business owner in Maine for more than 20 years. In my role of running a restaurant, I regularly deal with unemployment claims and employer reports. The current system does not have the capability for an employer to reconcile inputs and outputs or to produce this report. As a result, employer unemployment insurance rates may be negatively affected by mistakes included on the report. It is my belief as well as the belief of numerous other small business owners that employers are entitled to this information.

This bill would require the Department of Labor, when it issues an employer the annual notice of contribution rate, to provide specific information about that employer's unemployment account activity for the prior year. Since I recognize it will take time to reconfigure computers within the Department of Labor to be able to provide this information, I think the timing of debating the bill during the Second Regular Session of the 126th Legislature is appropriate.

I appreciate the Council's consideration of this appeal. As always, do not hesitate to contact me if you have any questions.

Sincerely,

Brian D. Langley State Senator

Brian Or langley

The Honorable Mark Eves, Chair Legislative Council 115 State House Station Augusta, ME 04333

Dear Speaker Eves:

I respectfully appeal the Council's rejection of LR 2466, An Act to Decrease the Rate of Truancy in Elementary and Secondary Schools.

Current state laws are insufficient to address the problem of student truancy in our schools. The Maine School Management Association (MSMA) is partnering with me to ensure both that this bill provides school administrators with the tools necessary to address this problem and that work on the bill can be completed within the time constraints of the short session.

In Lewiston, where my district is located, The Superintendent informs me that approximately 5 percent of its student population is truant. Many of these students are in elementary school. The Department of Education has warned of the snowball effect that takes place when young students have a high rate of school absences. Students with a high rate of truancy early in their education are at risk of failing to master important skills such as reading, which in turn hurts their chances of high school graduation.

Our future workforce relies on the success of our students. It is important that the Legislature consider this bill now so that schools can help get students who are currently at risk of truancy back on the path to success.

I look forward to addressing the Council on Nov. 21 to discuss this proposal and its need for inclusion as emergency legislation for the upcoming session.

Sincerely,

Nate Libby

Re: Appeal of L.R. 2268

President Alfond:

I would like to appeal the decision of the Legislative Council that rejected my bill, L.R. 2268, "An Act To Require Signs and Lighting on Boat Ramps," for admission into the Second Regular Session.

This bill would require that boat ramps on public property be equipped with signs and adequate lighting nearby so that drivers can easily see a potential hazard. I was prompted to submit this bill following a tragedy that occurred at the Rogue Bluffs boat ramp this past summer. In July, two women, one of them pregnant, accidentally drove their minivan down a boat ramp and into the ocean on a foggy night. The road abruptly ended at the ramp and lacked adequate signage or lighting. Sadly, both women drowned.

This bill cannot wait until the 127th Legislature for consideration. Two lives have already been lost this year due to inadequate signage and lighting and I believe we must act to prevent such a tragedy from reoccurring. Once again, this bill deals only with boat ramps on public property.

Thank you for your consideration.

Re: Appeal of L.R. 2489

President Alfond:

I would like to appeal the decision of the Legislative Council that rejected my bill, L.R. 2489, "An Act To Protect 'Fair Share' Workers from Unauthorized Withholding of Agency Fees."

This bill would prevent the forced withholding of union dues from state employees who are not members of the union. This bill was not considered in the First Regular Session. I had offered it as an amendment to a bill I sponsored, "An Act To Prohibit Mandatory Membership in a Union or Payment of Agency Fees as a Condition of Employment," but the amendment was never considered, nor was it afforded a vote in committee or on the floor of the House or Senate. This is a much narrower version of last session's bill.

This bill is an emergency because the state is currently withholding dues from non-members of the union and this practice should be ended now.

Thank you for your consideration.

Honorable Mark Eves, Chair Legislative Council 115 State House Station Augusta, ME 04333

Dear Speaker Eves:

I respectfully appeal the Council's rejection of LR: 2604 An Act To Improve the Process for Grading Public Schools and Public Charter Schools in the State.

HOUSE OF REPRESENTATIVES
2 STATE HOUSE STATION
AUGUSTA, MAINE 04333-0002

TTY: (207) 287-4469

(207) 287-1400

Based on slim statutory justification, the current administration will continue an annual exercise in issuing a single letter grade for K-12 public schools in Maine, on an A through F scale. The primary stated purpose of this exercise is to stimulate public debate on the quality of our public schools. Less prominently stated goals are to institute sanctions on lower performing schools, and in the extreme, to institute a system of State takeover of failing schools. The grading system relies predominantly on student scores on standardized tests, though other areas such as graduation rates are factored in.

The result has been not to foster public debate, but rather to decrease morale in schools that received low grades, bemused self-congratulation in school systems that receive higher grades, and a general show of indifference in the middle. Meanwhile, no meaningful help has been offered schools that received low grades, and no sanctions on lower performing schools under this system have been instituted. The result has been that the effort has seemed meaningless. At the same time it has damaged morale in many schools.

The situation constitutes an emergency since the administration will continue to issue A through F grades based on the flawed measures of student results on standardized tests, continuing to demoralize lower performing schools, deterring real progress in many schools, and fostering widespread cynicism based on the general public view that this is a meaningless and flawed exercise. We cannot afford to continue to mistreat our public schools this way.

LR 2604 would at a minimum propose:

- A complete change in the State A through F system to a more fine-tuned 100 point grading system.
- A review of available student achievement indicators
- The addition of results of a voluntary community-wide school satisfaction survey
- The addition of results of a voluntary student satisfaction survey
- The adoption of a school "Report Card" that reflects the distinct results of each of these initiatives

State Department rule-making would be required for some aspects. The legislation would put a moratorium on the school grading system until the new system is adopted.

I respectfully request that this legislation be allowed so that the Legislature can consider a new system of school grading that will not only prevent further damage done by the present system, but will also propose an alternative that could be beneficial to the schools, and to the public, in understanding how well we are doing in educating our students.

Sincerely,

Bruce MacDonald

(207) 287-1400

This bill would allow Maine to place United States citizens who were convicted of a sexual offense in another country and who are living in Maine on Maine's sex offender registry. I introduced this proposal after being contacted by a Department of Homeland Security Assistant Area Port Director stationed at the U.S.-Canada border crossing in Calais. He informed me that a United States citizen convicted in Canada of the sexual assault of a child under 16 was being deported back to the United States, but that state law enforcement agencies were not authorized to place him on the sex offender registry because his conviction occurred outside the country. The Director also stated that he had serious concerns about this, both as a member of Law Enforcement and as a parent of small children.

According to Maine Coalition Against Sexual Abuse, "In 2011, 49.5% of assaults reported to Maine's sexual violence service providers related to child sexual abuse." Those numbers most certainly constitute an emergency! It cannot be denied that in a day and age where new, high profile stories of abuse are coming to light almost daily, this is a serious problem facing Maine and America. Pennsylvania Governor Tom Corbet stated during the Penn State scandal, "We must keep in mind when it comes to the safety of children, there can be no margin of error, no hesitation to act."

If I can provide any additional information for you, please let me know. Thank you for your time.

Respectfully Submitted,

Jayre D. Maker

Re: LR 2335 Appeal to Legislative Council

Dear Speaker Eves;

I respectfully submit this appeal for a second session submission that was rejected at the Legislative Council meeting on October 30.

The proposed legislation is **LR 2335**, An Act To Encourage Communication Regarding Treatment of Persons with Mental Illness.

The bill seeks allow the inclusion of family members in the treatment plans for patients suffering mental illness.

The issue of confidentiality for patient medical records is very important. The doctor will remain the gatekeeper of these patient's records. This bill asks that policymakers balance confidentiality with the very important issue safety and well-being for patients and communities.

Why an emergency?

The issues associated with Riverview contribute to a concern that individuals in need of inpatient services will not receive them. We must consider all of the possible tools at our disposal, including enhanced participation of family members, to help manage the needs of these patients.

Please allow LR 2335 be presented for consideration in the second session of the 126th Legislature.

Thank you for your consideration on this matter.

Sincerely,

Richard Malaby

Speaker of the House Mark Eves

2 State House Station Augusta, Maine 0433

November 4, 2013

Re: LR 2581 Appeal to the Legislative Council

Dear Speaker of the House Eves;

I respectfully submit this appeal for a second session submission of proposed legislation that was rejected at the Legislative Council meeting on October 30.

The proposed legislation is **LR 2581**, An Act To Amend the Laws Regarding Involuntary Commitment. The bill seeks to address some of the legal challenges hospitals face when the state can not provide an inpatient psychiatric bed to a patient who needs such a bed. When the state can't meet its obligations the patient is often stuck in a hospital. Oftentimes in these circumstances, the hospitals must continue to hold these patients at the hospital because they are a threat to themselves or others. Amending the "holding" process is the primary goal of my bill. The Maine Hospital Association has retained the law firm of Kozak & Gayer to research this issue and craft the legislation. The issue was researched during this past year and the actual legislative language should be available prior to January 1st.

Why an emergency?

When Riverview has to "take beds offline" or has other challenges in providing inpatient psychiatric services there is an immediate and negative impact on our hospitals. Hospitals can't discharge a psychiatric patient located in its ED to Riverview if Riverview can't take the patient. The precarious situation at Riverview is the emergency that creates the urgency to make changes this session. Obviously, whether the solutions crafted by the hospitals are appropriate will be for the legislature to decide. The Legislature met in a special, emergency session this past August to help address the issues DHHS' encountered due to the situation at Riverview. There are other private organizations that face challenges due to the issues at Riverview. I believe we should give those organizations consideration similar to that we gave the state.

Please allow LR 2581 be presented for consideration in the second session of the 126th Legislature.

Respectfully,

Richard S. Malaby

November 5, 2013

Dear Speaker Eves,

I would like to appeal the decision of the Legislative Council that rejected my bill L.R. 2568, "An Act to Protect the Integrity of Funding for Harness Racing."

HOUSE OF REPRESENTATIVES
2 STATE HOUSE STATION
AUGUSTA, MAINE 04333-0002

TTY: (207) 287-4469

(207) 287 - 1400

This bill is a top priority for the 650 plus members of the Maine Harness Horsemen's Association to protect their funds in case of a track failure.

The bill is intended to protect the money that is statutorily put into harness racing purses from the racino and pari-mutuel wagering. Currently the funds are distributed to the two commercial tracks and the nine pari-mutuel fairs for use as purses paid to the horsemen that race at these venues. These funds at present are put into the tracks checking account along with their regular business deposits and distributed by them to the horsemen. The Maine Harness Horsemen's Association would like these funds deposited into a separate trust account to protect the money in the event a commercial track or fair goes out of business.

Scarborough Downs has seen a dramatic drop in revenue since the opening of Oxford Casino and there is concern they may not be able to continue to operate. In the event they close it's important to protect the purse account funds held by them so the industry can redistribute these funds to other racing venues and continue to race. At certain times of the year Scarborough could be holding \$1.5 million in purse money and these funds would be better protected in a trust account.

This bill would also allow for the redistribution of the funds as well as allowing a new track to open to replace Scarborough if they close. Currently a new track would have to wait two years to share in the commercial meet stipend fund and this bill removes that two year wait if a track closes. The industry is very concerned about the future of Scarborough Downs and they see this bill as a way to protect the purse money and the industry.

I would appreciate your support for this bill. Thank you for your consideration.

Regards,

State Representative

The Honorable Mark Eves, Chair Legislative Council 115 State House Station Augusta, ME 04333

Dear Speaker Eves:

I respectfully appeal the Council's rejection of LR 2243, An Act to Amend the Laws Regarding Beer Festivals.

This bill would eliminate unnecessary bureaucratic red-tape that currently hinders economic development events for an industry in Maine that is drawing state-wide attention and is rapidly growing.

Maine is currently considered a destination for craft beer but unclear and illogical regulations threaten Maine's reputation as a craft beer destination.

The current rules are discouraging brewfest organizers from coming to Maine and in turn hurting local businesses that benefit from venues to market their local brew.

I look forward to addressing the Council on Nov. 21 to discuss this proposal and its need for inclusion as emergency legislation for the upcoming session.

Sincerely,

Tim Marks

AUGUSTA, MAINE 04333-0002

TTY: (207) 287-4469

(207) 287-1400

I submitted this bill after hearing the concerns of a young adult with special needs. This individual depends on the use of a golf cart to stay involved on Frye Island each summer. The individual was told by police, however, that he needs a license to use the golf cart and his parents don't believe he would be successful in obtaining one.

This bill would create a special type of provisional license to address the needs of this individual and other Mainers like him. Power would be reserved to the police to revoke the license if misused.

I hope you will consider reversing your decision on this bill and support its acceptance into the Second Regular Session. Thank you for your time.

Sincerely,

Michael D. McClellan State Representative

Comment

This bill would establish restrictions on the sale and use of fireworks after examining various criteria, such as the level of fire danger in the area where the fireworks would be used and the presence of farm animals.

TTY: (207) 287-4469

(207) 287-1400

I submitted this bill after concerns were expressed to me by constituents regarding the need for restrictions on the use of fireworks. This bill examines the need to ensure safety from the fire risk caused by fireworks. It also creates a buffer zone between farm animal areas and where fireworks may be used. In addition, it requires that farms be notified of any firework shows being held in nearby areas.

I hope you will consider reversing your decision on this bill and support its acceptance into the Second Regular Session. Thank you for your time.

Sincerely,

Michael D. McClellan State Representative

Comment

This bill would allow a school administrative unit to invite a school employee who is qualified to carry a concealed handgun on school premises to become a part-time law enforcement officer. It would provide that the school administrative unit may enter into an agreement with a local law enforcement agency to commission a qualified school employee as a part-time law enforcement officer. Before becoming a part-time law enforcement officer, the school employee would have to successfully complete the Maine Criminal Justice Academy's training requirements for a part-time law enforcement officer.

November 5, 2013

The Honorable Mark Eves Chair of the Legislative Council 115 State House Station Augusta, ME 04333-0115

Dear Speaker Eves:

Please let this letter serve as a request to appeal the Legislative Council's decision on the following bill: LR 2431, "An Act To Allow Certain Employees of School Administrative Units To Become Part-time Law Enforcement Officers."

I know that our schools are committed to providing a safe environment for students, staff, and visitors. I believe legislators are also committed to that same goal. Unfortunately, once again, our educational institutions have been in the national spotlight with the recent shooting last month in Nevada in which a teacher was killed and some students were seriously wounded.

All bills introduced for the Second Regular Session needing the approval of the Legislative Council must be of an emergency nature. Ensuring the public safety of our students and teachers within our school districts throughout Maine, in my opinion, should always be treated as such. The proposal before you, which allows a school administrative unit to invite a school employee who is qualified to carry a concealed handgun on school premises to become a part-time law enforcement officer, should certainly have the opportunity to vetted by the Legislature and the public during the public hearing process to see if this is a tool that should be afforded to our schools as a public safety option.

I appreciate the Council's consideration of this appeal. As always, do not hesitate to contact me if you have any questions.

Sincerely,

Gary E. Plummer

November 6, 2013

Dear Speaker Eves,

I am writing to request that the Legislative Council consider an appeal to LR 2470"An Act to Allow Tenants to Remain in a Building for a Limited Time after That Building Has Been Declared Uninhabitable."

This legislation would give more time for people to move who live in a building that has been declared uninhabitable. In Augusta for example when a building is declared uninhabitable the tenants need to be out within 24 hours and oftentimes these people have no place to go or the place they end up going to is worse than where they were currently living. The housing situation in Augusta and other communities throughout Maine is getting worse not better and this legislation would help make sure that the tenants have a little more time to make the best decision on where to move and to actually find a place to live.

Thank you for considering this appeal. Please do not hesitate to contact me should you have questions on LR 2470.

Sincerely,

Matthew G. Pouliot State Representative

Dear Speaker Eves,

I am writing to request that the Legislative Council consider an appeal to LR 2472 "An Act to Require a High-validity Interest Test for a Person Applying for a Person Applying for Admission to Certain Postsecondary Institutions."

This legislation would require that all students applying to a University of Maine System School or Maine Community College take a High-Validity Interest Test. In Maine there are an estimated 230,000 individuals who have started but not completed college. Having to take a test that shows what field they may be best suited for would improve this number. This bill deserves to be heard at this point because if we can help one more person start their college career off on the right path and graduate it is worth it.

Thank you for considering this appeal. Please do not hesitate to contact me should you have questions on LR 2472.

Sincerely,

Matthew G. Pouliot State Representative

Speaker Mark Eves, Chair Legislative Council 115 State House Station Augusta, ME 04333

Dear Speaker Eves,

I respectfully appeal the Council's rejection of LR 2291 An Act to Eliminate Unfairness in the Payment of Retirement to Divorced Spouses.

The bill is an emergency because many Mainers are experiencing financial hardship because of the rules of administration of the State Retirement Program

One Mainer in particular was awarded her half of her ex-spouse's retirement benefit (State Retirement System) as part of her divorce settlement. Because her ex-spouse is choosing not to retire yet she is not allowed to collect her share even though she has reached retirement age.

If her spouse had participated in the Social Security retirement program she would have been able to file when she reached retirement age without waiting for her ex-spouse to retire.

This must be considered as an emergency measure in the second session to provide Mainers with some financial relief during these hard economic times.

Sincerely,

Jane Pringle

November 4, 2013

Speaker Mark Eves, Chair Legislative Council 115 State House Station Augusta, ME 04333

Dear Speaker Eves,

I respectfully appeal the Council's rejection of LR 2495: An Act to Fund the Maine HIV Education and Prevention Program within the Department of Education.

The reason this is an emergency is that this successful HIV prevention education program has just lost its funding this year. We only learned about it well after cloture for last session.

It has been operating since the 1990's and has been highly successful in preventing the incidence of new HIV infection in Maine teens. It also has had the secondary benefit of keeping the incidence of teen pregnancy and teen STD infection much lower than the national average.

If the program stops Maine can expect that its costs to Medicaid for treatment of new HIV infected persons will rise and the number of pregnant teens enrolling in Medicaid will increase.

The return on the small investment in this program each year saves 4-7 times the cost in other programs.

Sincerely,

Jane Pringle

State Representative

Maine needs an educated, skilled workforce. Unfortunately, Maine has the lowest education levels in New England and, nationally, we have the oldest workforce. Research shows that 90 percent of high-growth, high-wage jobs created over the next decade will require education beyond a high school diploma.

For Mainers looking to advance their careers through adult education, advising and counseling services are important first steps that help them to select training or education programs that will help them to compete in the 21st century workforce.

Since the introduction of LD 1229 last year, several important things have occurred that have led up to the election last night, and genuinely made this immediately arrissue.

Last night, 67 percent of voters in Portland, in an unusually high turnout election, voted to legalize the possession of up to 2.5 ounces of marijuana for adults over 21 within city limits.

In August, the US Department of Justice – the highest law enforcement agency in the country – released a set of eight guidelines under which states may move forward with regulating cannabis for responsible, adult consumption. Washington State and Colorado have been working through their implementation phase of setting up the proposed regulatory structure, providing us clear lessons on how to approach the policy.

Finally, Gallup released a poll just recently showing that 58 percent of Americans support replacing prohibition with regulation, including 62 percent of independents. In contrast, that's 2 percent shy of the percentage of Americans who want every member of Congress to be voted out at once.

The question of whether to legalize or not has largely been settled; the question now is how we do it. I am working to craft a bill to regulate marijuana responsibly, set up a youth prevention task force and tax it in a similar manner to what Colorado voters approved just last night. The issue is no longer coming; it's here and responsible lawmakers must address it once and for all.

I look forward to addressing the Council on Nov. 21 to discuss this proposal and its need for inclusion as emergency legislation for the upcoming session.

Sincerely,

Diane Russell

The Honorable Mark W. Eves, Chair Legislative Council C/O Office of Revisor of Statutes Room 108, State House Augusta, Maine 04333-0007

RE: Notice of Appeal of Council's rejection of L.R. 2510, "An Act to Further Protect Patient Access to Safe Medical Marijuana by Allowing Dispensaries to Purchase Excess Marijuana from Other Dispensaries"

Dear Speaker Eves,

Please consider this letter my appeal of the Council's rejection of L.R. 2510 on October 30th by a vote of 5 to 5. Whereas I understand and respect your commitment to accepting only a limited number of new pieces of legislation in order to complete the legislature's work in the shortest period of time, this bill is vital to the success of Maine's Medical Marijuana Program and ensuring safe access to medicine for the approximately 10,000 patients being served. At first glance L.R. 2510 may appear as a minor issue regarding the regulated access to excess medicine at the dispensary level. However, given Maine's unique program that only allows dispensaries to cultivate their own medicine (and not to purchase it from regulated growers as in other states), improving the law is a necessary step to immediately allow dispensaries to develop options in the case of crop failure, damage to supply, or some other catastrophic event that causes an extended inventory supply interruption.

Thousands of Maine people now have relief from a host of debilitating medical conditions thanks to Maine's 8 medical marijuana dispensaries. These dispensaries are all small not-for-profit Maine businesses, run by professionals in patient-centered settings, and with missions dedicated to providing safe and clean medical cannabis to the patients they serve. One hundred percent of their product is Maine-grown, and their operations are strictly regulated by the State of Maine.

Should even one of these dispensaries experience an inventory supply interruption, caused by a crop failure or a roof cave-in or theft, thousands of patients would be without access to their medicine and forced to either go without or attempt to find a new provider quickly – a difficult task for many of the unique populations Maine's dispensaries serves such as older individuals or those with severe health problems.

Allowing dispensaries in Maine to purchase excess medicine from each other in the cases of extended inventory supply interruption would allow these small businesses to set-up contingency plans to perform purchases in a limited and regulated capacity with only other licensed, Maine dispensaries.

For the sake of the thousands of patients currently being served by Maine's medical marijuana program, I urge you and the Council to reconsider your rejection of L.R. 2510.

Thank you,

This bill would remove the authority of the Commission on Governmental Ethics and Election Practices to adjudicate campaign finance complaints and replace that authority with a process similar to that in Rule 80K of the Maine Rules of Civil Procedure. It would also create a process by which any person or entity could submit a request for an investigation to the commission staff; but only the staff would have standing to file an actual complaint.

Honorable Mark Eves, Chair Legislative Council 115 State House Station Augusta, ME 04333

Dear Speaker Eves:

I respectfully appeal the Council's rejection of LR: 2477, An Act To Restore Confidence in Maine Campaign Finance Laws.

It is time to restore the confidence in the Maine Campaign Finance Laws by removing the Ethics Commission's authority to adjudicate campaign finance complaints. In doing so we would allow the courts to determine the penalties and administer the law as it was intended and not allow violators to get off by saying they didn't understand or didn't know.

This needs to become law now so that clean election candidates and their treasurers are held accountable and not wasting taxpayer dollars.

I look forward to addressing the Council on Nov. 21 to discuss this proposal and its need for inclusion as emergency legislation for the upcoming session.

Sincerely,

Robert Saucier

November 5, 2013

The Honorable Mark Eves 2 State House Station Augusta, ME 04333

Dear Speaker Eves:

l am appealing the decision made by Legislative Council on the following bill request: LR 2480, An Act To Require an Earlier Implementation Date for Maine's Stewardship Program for Architectural Paint if Certain Conditions Are Met.

Last session we passed LD 1308, An Act to Establish a Stewardship Program for Architectural Paint. LR 2480 would allow this program to go into place earlier as long as everything was up and running properly. The earlier this program can begin operating, the easier it will be on constituents of yours and mine to properly dispose of their paint. By properly disposing of paint we are preventing these hazardous materials from entering Maine's landfills.

Thank you for considering this appeal. I plan to be at the Council Meeting when appeals will be discussed and can speak further to my request for allowing LR 2480 through.

Sincerely,

Tom Saviello State Senator

November 5, 2013

The Honorable Mark Eves 2 State House Station Augusta, ME 04333

Dear Speaker Eves:

I am appealing the decision made by Legislative Council on the following bill request: LR 2516, *An Act to Reflect the Replacement of the Circuitbreaker Program in Poverty Abatement Law.*

When the state budget was enacted in June, the Circuitbreaker program was terminated and the property tax fairness credit created in its place. Unfortunately, there were several areas in law where the Circuitbreaker program is referenced and was made an integral part of other important programs, but the budget bill did not address those cross references. One of those areas involved the local option authority to implement property tax relief programs, and Representative Carey's bill (LR 2249) has been admitted by the Council to address the issues created by the state budget in that area of law. Another area of law which was inadvertently disconnected when the state budget terminated the Circuitbreaker program is addressed in my bill, LR 2516, An Act to Reflect the Replacement of the Circuitbreaker Program in Poverty Abatement Law.

State law governing the abatement of property taxes for reasons of hardship or poverty allowed the municipal officers to recognize an applicant's receipt of benefits under the Circuitbreaker program and potentially "set off" the poverty abatement by the value of the Circuitbreaker benefit. The Circuitbreaker program was terminated in 2013 and replaced with the Property Tax Fairness Credit, to become available on and after January 1, 2014 as part of the personal income tax code. Because the property tax fairness credit effectively replaced the Circuitbreaker benefit, this bill re-establishes the authority of the municipal officers to recognize the receipt of the refundable credit in their calculation of an applicant's eligibility for a poverty abatement, just as they could formerly recognize the Circuitbreaker benefit. This bill does nothing more than correct an inadvertent disconnection created by the state budget. It is not fair to the municipal community that the public policy supporting the pre-existing law gets repealed by legislative accident.

Thank you for considering this appeal. I plan to be at the Council Meeting when appeals will be discussed and can speak further to my request for allowing LR 2516 through.

Sincerely,

Tom Saviello State Senator

The Honorable Mark W. Eves Chair of the Legislative Council 115 State House Station Augusta, ME 04333-0115

Dear Speaker Eves:

Please let this letter serve as a request to appeal the Legislative Council's decision on the following bill: LR 2474, "An Act To Provide an Exemption for Religious Purposes to the Requirement That Hunters Wear Hunter Orange Clothing."

I was recently in contact with members of the Amish community from Aroostook County. I learned from meeting with them that they would like to participate in Maine's hunting season. However, the Amish community is held back from participating because their religion will not allow them to wear hunter orange. Other states with significant Amish populations, have adopted legislation to allow hunters the option to wear red instead of the hunter orange.

It is my hope that this bill will be allowed to be vetted by this legislature. I have obtained copies of adopted legislation from other states and look forward to sharing this information with the Inland Fisheries and Wildlife Committee. If this legislation is approved, the Amish community could look forward to hunting like other Maine families in 2014.

I appreciate the Council's consideration of this appeal. As always, do not hesitate to contact me if you have any questions.

Sincerely,

Roger L. Sherman State Senator

November 5, 2013

The Honorable Mark W. Eves Chair of the Legislative Council 115 State House Station Augusta, ME 04333-0115

Dear Speaker Eves:

Please let this letter serve as a request to appeal the Legislative Council's decision on the following bill: LR 2475, "Resolve, To Study the Effectiveness of Maine Revenue Services Regional Offices."

Recently, the Houlton Regional Office for Maine Revenue Services was closed to consolidate and reduce state spending. This was not a new proposal; it has surfaced before and been rejected. Part of the reason the office remained opened was due to staff productivity and effectiveness of the Houlton office. While I strongly believe in reducing state spending, I am concerned that actions like closing regional offices can negatively impact the local community and the state as a whole. The Legislature should take a closer, in-depth look to find out if closing our regional offices outside of Augusta is a smart reduction in state spending.

It is my hope that this legislature will consider reviewing regional offices before more rural offices are closed. It is important that we fully understand the impact to the local communities and the state workforce when closures are ordered.

I appreciate the Council's consideration of this appeal. As always, do not hesitate to contact me if you have any questions.

Sincerely,

Roger L. Sherman State Senator

Honorable Mark Eves, Chair Legislative Council 115 State House Station Augusta, ME 04333

Dear Speaker Eves:

I respectfully appeal the Council's rejection of LR: 2432, An Act To Require Reimbursement under MaineCare for Hearing Aids.

House of Representatives 2 STATE HOUSE STATION AUGUSTA, MAINE 04333-0002

TTY: (207) 287-4469

(207) 287-1400

The addition of hearing aids to the list of things that covered by MaineCare is an emergency.

Good hearing helps us to remain safe. It warns us of potential dangers and also alerts us to someone else's distress. The inability to hear also leads to medical issues, due to the feeling of isolation and depression.

Many people in Maine suffering from hearing loss simply can't afford the cost of hearing aids. A quality pair of hearing aids will run upwards of \$3,600. There are people currently on MaineCare who are either going without hearing aids or are using hearing aids of very low quality.

I believe that this bill meets the definition of an emergency due to the safety risk and the medical issues that may stem from the lack of a quality set of hearing aids.

I look forward to addressing the Council on Nov. 21 to discuss this proposal and its need for inclusion as emergency legislation for the upcoming session.

Sincerely,

Conly 3 Shata

Page 83 of 101 11/8/2013 9:45:37 AM

Speaker Mark Eves, Chair Maine Legislative Council c/o Office of the Revisor4 of Statutes State House Station #7 Augusta, ME 04333-0007

Dear Mark,

I am requesting an appeal hearing for my proposed emergency legislation, LR 2601, An Act to Reclassify the Lower Presumpscot River from Class C to Class B.

This is a stretch of river that runs through Downtown Westbrook to Casco Bay, going through Falmouth and Portland. Two years ago, this river was placed on the waiting list to be considered for re-classification. However, this past year that avenue to reclassification was eliminated and there is no longer any process within the DEP to review and upgrade rivers as there had been in the past. Legislative action now appears to be the best and most direct way the reclassification of the Presumpscot from C to B can be considered.

This is being submitted as an emergency bill because the stronger protections of the B classification are both critical and timely for a number of reasons:

- For the first time in over a hundred years fish are able to pass Cumberland Mills Dam with the new fish passage which opened there in May of this year. By May 2015, due to a Federal Energy Regulatory Commission order, fish passage must be effective one mile upstream at Saccarappa Falls. To secure the greatest migratory fish numbers (including the native fisheries of shad, alewife, striped bass, sturgeon and American eel) water quality is critical.
- Today, the Lower Presumpscot already meets Class B standards other than at times of high stress. A reclassification would assure a continued stabilization and future betterment of the Presumpscot's water quality.
- Upstream from Saccarappa, the Presumpscot River is a strong class B. In order for fish passage to be ordered on upstream dams, fish counts must be met. Water quality is a strong supporting factor in meeting those counts.
- At this critical time, re-classification to B will support initiatives to add recreational opportunities to the public through downtown Westbrook, and as the Presumpscot River flows around Portland and Falmouth into Casco Bay. These include fishing, swimming, hiking and paddle boating.
- This reclassification has long been sought and is highly desirable. While this is in no way directed toward any specific project, the potential for further downstream degradation must be averted in order to continue the rebounding of this river's once abundant fishery.

Thank you for your careful reconsideration of this modest proposal that will have an immediate and ongoing positive impact on economic development and the quality of community life up and down the Presumpscot River corridor. In a very real sense, it will declare that the Presumpscot is open for business. It will bring back the fish and bring out the people.

The Honorable Mark W. Eves Chair of the Legislative Council 115 State House Station Augusta, ME 04333-0115

Dear Speaker Eves:

Please let this letter serve as a request to appeal the Legislative Council's decision on the following bill: LR 2301, "An Act To Replace the Municipal Revenue Sharing Program with an Increased and Fully Funded Homestead Exemption."

During the First Regular Session of the 126th Legislature, revenue sharing, homestead exemptions, and property taxes were regular topics. I believe the concerns surrounding these issues have not gone away simply because the Legislature passed a budget. These issues need additional review and conversations. The Homestead Exemption is a great program for Mainers who are trying to afford staying in their own home here in Maine. This program does not benefit non Maine residents.

This legislature still has an opportunity to work towards finding solutions. I would greatly appreciate a bill to fully fund the Homestead Exemption be considered and properly vetted by this legislature.

I appreciate the Council's consideration of this appeal. As always, do not hesitate to contact me if you have any questions.

November 5, 2013

The Honorable Mark W. Eves Chair of the Legislative Council 115 State House Station Augusta, ME 04333-0115

Dear Speaker Eves:

Please let this letter serve as a request to appeal the Legislative Council's decision on the following bill: LR 2400, "An Act Concerning Patients' Choice for Emergency Care."

This summer I was contacted by constituents about experiences they had involving emergency transportation and care. Their family members were in need of transportation by ambulance to local hospitals for emergency care. When the ambulance arrived, the patients were loaded and headed to the hospital. Unfortunately due to their past experiences, they did not want emergency care from the particular hospital the ambulance was going to. They voiced their objection to the ambulance staff but they did not listen to their wishes. These families would have preferred to travel to another local hospital for care; in one instance, the hospital they preferred was actually miles closer than the one they were being brought to. I believe if a person has such strong feelings about where they want to have their medical treatments that they should have the right to choose where the ambulance drops them off.

Everyday citizens are in need of emergency transportation. If they hold such strong beliefs, as my constituents do, then I truly believe they should have the right to have their wishes respected. For this reason, I believe this bill should be considered by the 126th Legislature.

I appreciate the Council's consideration of this appeal. As always, do not hesitate to contact me if you have any questions.

Sincerely,

Doug Thomas State Senator

Comment

This bill would allow prostitution convictions to be expunged from a person's criminal record when that person was a victim of human trafficking.

TTY: (207) 287-4469

Speaker Mark W. Eves Chair, Legislative Council 115 State House Station Augusta, ME 04330

November 4, 2013

Dear Speaker Eves,

I would like to request an appeal of the Legislative Council's decision to reject LR 2514, "An Act To Assist Victims of Human Trafficking." The aim of this bill is to provide victims of human trafficking with the ability to vacate prostitution and/or drug convictions, thus allowing them to get their lives back on track. It is my belief that if there is even one person whose life could be changed for the better by this legislation, then it is an emergency.

The issue was brought to my attention through an article in the *Bangor Daily News* which cited a report by The Polaris Project, a national group that works to combat human trafficking. The Polaris Project, in studying human trafficking laws, cited Maine's lack of a law to vacate convictions for victims of human trafficking as an area of concern. As designated by the Polaris Project's annual report, Maine ranks as a state with weaker human trafficking laws. Though it may not be oft-discussed, and though we may not know the full breadth of the issue, one person falling victim to human trafficking is one person too many.

Thank you for considering my appeal of LR 2514. Please do not hesitate to be in touch should you have any questions.

Sincerely,

Amy F. Volk

Dear Speaker Eves:

In response to the Legislative Council's non-consent in allowing L.R. 2242 to be deliberated during the Second Regular Session of the 126th Maine State Legislature, I am appealing the final verdict on the basis that this matter is indeed an emergency. Affected parties being taxed twice on their retirement every month is unjustifiable. We need to pursue policies that will encourage in-migration and promote Maine as a place for retirees to permanently settle without undue taxation.

Thank you for your time and consideration. I look forward to addressing Council members' related questions and/or concerns on November 21. In the meantime, if you wish to discuss the legislative request with me personally, I can be reached at home, 363-4641, or on my mobile phone at 351-5782.

Comment

This bill would enact a comprehensive package of statutory changes designed to promote prosperity in the State, subject to approval by the citizens at referendum in November 2014. Some of the proposed changes would include expanding Medicaid coverage beginning January 1, 2015; enacting comprehensive tax reform effective January 1, 2016; incremental increases in the minimum wage; a prohibition on the collection of union dues from certain workers; reducing automobile excise tax rates; increasing the gasoline tax; adjusting the laws governing pensions for state retirees; requiring the inclusion of a "global education budget" in the Governor's budget proposal; providing a needs-based grant to students attending an institution of higher learning in the State; eliminating the higher cost of tuition paid by out-of-state students at public universities and colleges in the State; public funding of pre-kindergarten; increasing the funding to the Maine Technology Institute and the small business assistance programs within the Finance authority of Maine; and increasing the cap on seed capital investment incentives.

Re:

LR 2691 – An Act to Promote Maine Prosperity

This is to appeal the decision of the legislative council to reject LR2691, An Act to Promote Maine Prosperity. As you know, LR2691 proposes a comprehensive redesign of many areas of public policy in the state, including health care, education, retirement, economic development, taxation and budgeting. At its core, LR2691 is about repairing the structural foundations of Maine's public policies, so that we can deliver on what we promise, while at the same time freeing resources for the most critical investments of a more prosperous future economy.

The need for LR2691 is urgent. Over the last decade, the structural imbalance in the state budget has perpetuated and grown to a degree that is no longer transitional or solvable without comprehensive policy reform. It is a destructive imbalance, particularly over the long-term, because it prevents productive investment in areas we need to spend more, like pre-K education and post-secondary workforce development, and because it erodes public confidence in government. Having watched five Appropriations Committees negotiate biennial budgets, I would characterize the process as one of prioritizing unmet intentions from the past, as opposed to investing in greatness for the future. For Maine to thrive economically in the years ahead, the 2015 legislature needs a better underlying policy framework from which to begin its work.

The policy areas covered by LR2691 would normally be considered in isolated bills. LR2691 integrates them into one package, because an integrated approach is our best chance to get past the perpetual over-promising that happens within silos, as well intentioned as it may be. The education reforms recast Maine's commitment to education across the full continuum of human development from birth to rewarding jobs. The pension reforms honor our commitments to employees for service already completed, while reducing new pension accruals to levels that better reflect current longevity and population demographics. The tax reforms are designed to promote economic growth, and to take account of Maine's unique population demographic, while providing net tax relief to residents. The health care reforms accept federal funding for Medicaid expansions, while avoiding long-term cost risks to the state. I'm not wedded to any of the specific components of LR2691; indeed, I look forward to the legislative process that will shape them and improve them.

Finally, LR2691 proposes to advance these policy reforms by public referendum, rather than by direct legislative enactment. This is important too, because it will jump-start a focused public discussion of Maine's most serious economic and policy challenges, as well as its overcommitments in current policy. Because the reforms are significant, the referendum process is also important in generating public legitimacy for any plan-of this magnitude.

I believe this is the single most important bill that the legislature could take up in the 2014 session. Thank you for your consideration.

The Honorable Mark Eves Chair of the Legislative Council 115 State House Station Augusta, ME 04333-0115

Dear Speaker Eves:

I respectfully request to appeal the Legislative Council's decision on the following bill: LR 2397, "An Act To Criminalize Sexual Contact between Clergy and Their Congregants."

If one were to ask if it is acceptable for a physician, therapist, or attorney to have a sexual relationship with a patient or client, the answer almost always would be no. Society's expectation of these caregivers is that they will attend to the needs of those in their care and that boundary should never be crossed. Many states have laws on the books prohibiting this type of relationship.

The relationship between a cleric and one of his or her parishioners should not be treated any differently. Clerics often times play the role of counselor and confidant to our most vulnerable populations. They are usually a first choice for those seeking emotional assistance because those looking for guidance feel it is a safe option for them. It is critical that a proposal be considered by the Legislature during the upcoming session that seeks to prohibit this type of inappropriate contact.

I appreciate the Council's consideration of this appeal. If you have any questions, please do not hesitate to contact me.

Sincerely

Edward M. Youngblood

State Senator

November 5, 2013

The Honorable Mark Eves Chair of the Legislative Council 115 State House Station Augusta, ME 04333-0115

Dear Speaker Eves:

I respectfully request to appeal the Legislative Council's decision on the following bill: LR 2398, "An Act to Require the Primary Siting Authority for an Expedited Wind Energy Development Project To Make Findings Regarding the Energy-and Emissions-related Benefits of the Project."

As the title states, this proposal would require the primary siting authority for an expedited wind energy development project to make additional findings regarding the manner and extent to which the development provides energy- and emissions-related benefits.

This proposal does nothing to change the permitting process of wind power, nor does it change the expedited process set in place. What it does is add back to Maine law a brief statement that was a part of the original wind power proposal established years ago, a condition that was supported during the public hearing process. It requires that there needs to be specific tangible benefits to the people of Maine, and not just to investors or companies, before a project may move forward. I have heard from constituents around my district and throughout the state who strongly agree with this stipulation.

With multiple permits waiting to be acted upon in the near future, time is of the essence. The Legislature should have the opportunity to address this issue during the Second Session before any more projects are approved that may have a negative impact on the community in which they are located, increased charges to ratepayers, and no tangible benefits to the people of Maine.

I appreciate the Council's consideration of this appeal. If you have any questions, please do not hesitate to contact me.

Sincerely,

Edward M. Youngblood

State Senator

CRIMINAL JUSTICE AND PUBLIC SAFETY

CRIMINAL PROCEDURE BAIL AND RECOGNIZANCE

LR: 2494

Sponsor: Senator Cain of Penobscot

Title:

An Act To Increase Safety for Victims of Domestic Violence

Comment:

This bill would require that some preconviction criminal investigation reports be released to high-risk response teams. This bill would also address the issue of abusers who, while being held over for judicial review

of bail, intimidate victims or witnesses.

CRIMINAL PROCEDURE FEES AND SURCHARGES

LR: 2322

Sponsor: Representative Willette of Mapleton

Title:

An Act To Increase the Amount of Funds Available to Counties for

Witness Fees and Prosecution Costs

Comment:

Current law requires forfeited bail to be paid into an account maintained by each prosecutorial district for the purpose of paying expenses related to extradition of fugitives from justice. The maximum amount that may be retained in that account is \$20,000. This bill would increase the amount that may be retained to \$40,000 and allow the funds to be used to pay for fees or expenses, including witness fees, incurred by the district attorney in

a criminal prosecution.

FIRE SAFETY FIRE DEPARTMENTS

LR: 2345

Sponsor: Representative Parry of Arundel

Title:

An Act To Amend the Laws Governing Firefighter Absence for

Emergency Response

Comment:

Current law prohibits an employer from discharging for absence an employee who is a volunteer firefighter and who responds to a fire in that capacity. The law does not pertain to a person who belongs to a municipal fire department. This bill would amend the definition of "firefighter" to

include a member of a municipal fire department.
