Communication

Mr. Maxwell of Franklin presented the following Joint Resolution pursuant to Joint Rule 11-A and with the approval of the majority of the Committee on Reference of Bills:

Joint Resolution

Joint Resolution Memorializing Congress Recommending Full Development of Electric Power Potential of Passamaquoddy Bay and Upper Saint John River.

We, your Memorialists, the Senate and House of Representatives of the State of Maine in the One Hundred and Second Legislative Session assembled, most respectfully present and petition your Honorable Body as follows:

WHEREAS, the people of Maine throughout the years have support-

ed the concept of developing Passamaquoddy Bay for electric power purposes as indicated by a great number of favorable and sometimes unanimous Acts of the State Legislature, and earlier by a state-wide referendum that favored Quoddy by nearly ten to one; and

WHEREAS, the need for vast quantities of reasonably priced power to satisfy the future needs of Maine, the Northeastern States, and the Eastern Provinces of Canada has been established without question; and

WHEREAS, development of electric power from the upper Saint John River and Passamaquoddy Bay can be very valuable as peaking power and for base load power; and

WHEREAS, other substantial benefits such as increased numbers of tourists, increased recreational uses of the Bay and River, down stream power benefits on the Saint John River, flood control benefits, and much needed construction job opportunities in the site areas will result, now, therefore, be it

RESOLVED: That the 102nd Legislature recommends the full development of the electric power potential of Passamaquoddy Bay and such supplemental development of the electric power potential of the Upper Saint John River as may be recommended as economically feasible by studies now under way by the Department of the Interior without substantial destruction of the recreational and industrial advantages now recognized as existing in the Saint John River area, and that necessary interconnecting transmission facilities be provided between the projects and the load centers of the Northeast to provide the optimum benefits to the United States and Canada; and be it further

RESOLVED: That this 102nd Legislature respectfully asks that required action be taken to start the projects at the earliest possible time in the most economic and practical sequence of development; and be it further

RESOLVED: That a copy of this Memorial, duly authenticated by the Secretary of State, be immediately transmitted by the Secretary

of State to the Senate and House of Representatives in Congress and to the members of the said Senate and House of Representatives from this State. (S. P. 408)
