ORDERS

On motion of Representative McGOWAN of Canaan, the following Joint Resolution: (H.P. 452) (Cosponsors: Representatives BOTT of Orono, MOHOLLAND of Princeton and Senator CAHILL of Sagadahoc) (Approved for introduction by a majority of the Legislative Council pursuant to Joint Rule 35)  
 JOINT RESOLUTION MEMORIALIZING THE CONGRESS OF THE UNITED STATES TO INCREASE THE SPEED LIMIT TO 65 M.P.H. ON RURAL INTERSTATE HIGHWAYS  
 WE, your Memorialists, the Senate and House of Representatives of the State of Maine in the First Regular Session of the One Hundred and Thirteenth Legislative Session, now assembled, most respectfully present and petition the Members of the United States Congress as follows:  
 WHEREAS, a 55 M.P.H. speed limit was federally imposed to combat shortages and rising prices during the threat of the 1973 Arab oil embargo; and  
 WHEREAS, that serious energy conservation effort accomplished its purpose and now should be modified to meet a more realistic level of compliance for modern day travel; and  
 WHEREAS, improved technology in auto safety and highway construction has led to the decline of highway fatalities since 1946 and that technology continues its advance; and  
 WHEREAS, the Symms amendment to the Federal-Aid Highway Act of 1987 is a modest proposal to increase the national speed limit to 65 M.P.H. on rural interstate highways; and  
 WHEREAS, this reasonable proposal has the support of the Legislature as it will remove a widespread contempt for a law which no longer serves the public interest and which denies the State much needed federal highway aid; now, therefore, be it  
 RESOLVED: That we, your Memorialists, do hereby respectfully urge the Members of Congress of the United States to raise the national speed limit on rural interstate highways to 65 M.P.H., a reasonable level which Maine motorists can drive safely and comfortably with, considering the level of technology that exists today; and be it further  
 RESOLVED: That suitable copies of this Memorial, duly authenticated by the Secretary of State, be transmitted to the President of the Senate and to the

Speaker of the House of Representatives in the Congress of the United States and to each Member of the Maine Congressional Delegation.

Was read and adopted and sent up for concurrence.

SENATE PAPER

The following Joint Order: (S.P. 224)  
ORDERED, the House concurring, that when the House and Senate adjourn, they do so until Monday, March 9, 1987, at 10 o'clock in the morning.

Came from the Senate, read and passed.  
Was read and passed in concurrence.

(Off Record Remarks)

The Chair laid before the House the following matter: Bill "An Act Establishing Peer Review

Immunity for Licensed Psychologists" (S.P. 217) (L.D. 584) which was tabled earlier in the day and later today assigned pending reference in concurrence.

On motion of Representative Paradis of Augusta, was referred to the Committee on Judiciary in non-concurrence and sent up for concurrence.

Representative McGowan of Canaan moved that the House reconsider its action whereby (H.P. 452) Joint Resolution Memorializing the Congress of the United States to Increase the Speed Limit to 65 M.P.H. on Rural Interstate Highways was adopted.

The SPEAKER: The Chair recognizes the Representative from Canaan, Representative McGowan.

Representative MCGOWAN: Mr. Speaker, Ladies and Gentlemen of the House: Just to tell the members of the House why I am doing this -- Representative Stanley had told me that he intended to hold the bill to speak on it Monday so to speed the process up, I felt that Representative Stanley should be allowed to offer his opinion on this Resolution and have moved reconsideration to give him that opportunity.

The SPEAKER: The Chair recognizes the Representative from Cumberland, Representative Stanley.

Representative STANLEY: Mr. Speaker, Ladies and Gentlemen of the House: Thank you Representative McGowan. I would like to request a Division on this Resolution.

I have asked to have an opportunity to speak on this issue because I believe that conservation of oil is still a major issue in this country. I think raising the speed limit to 65 miles per hour means that we will be driving 75 and 80 miles per hour in the State of Maine. I think that will cause increased deaths on our highways and I think that Maine has an opportunity to stay resolved on conservation matters in this state, which I think, are very important to our economic development.

I would request that you vote no on this Resolution.

The SPEAKER: The Chair recognizes the Representative from York, Representative Rolde.

Representative ROLDE: Mr. Speaker, Ladies and Gentlemen of the House: A couple of weeks ago, at a meeting of the Natural Resources Council of Maine, U.S. Senator George Mitchell was there and spoke about this particular issue. He happens to be one that is opposed to raising the speed limit to 65. He will be part of the Conference Committee that will try and iron out the House's position, which is opposed and the Senate's position, which is in favor of this.

I can't remember exactly how many people he told us would die as a result of this -- somebody else here may have that figure -- but that is why I am going to vote against it because I feel that when it is raised -- when it was 70, people were going 90; when it is 65, people will be going 85, and there will be considerable deaths as a result of it.

The SPEAKER: The Chair recognizes the Representative from Canaan, Representative McGowan.

Representative MCGOWAN: Mr. Speaker, Ladies and Gentlemen of the House: I truly do appreciate Representative Stanley's argument about energy conservation but do offer the fact that, since the oil embargoes of the 70's and early 80's, that the energy efficiency in our automobiles has improved greatly. In fact, the consumption of oil has decreased and would decrease steadily even with a 65 mile an hour speed limit.

I do take a little bit of exception to the argument offered by the Representative from York,

Representative Rolde, about the safety issue. I would pose one question to Representative Rolde or anybody who would care to respond to it. If 55 miles per hour is a safe speed and 55 miles per hour is the speed limit on a four lane super-engineered highway that runs north to south with very few curves, bumps, hills or frost heaves, then what would be safe corresponding speed limits 40 yards from my house, U.S. Route 2, which is close to that 55 miles an hour, at this time? I would say that, probably, the safe speed would be about 35 miles per hour and that argument is, in fact, a fallacy in that those people that would be killed would be killed on probably secondary roads where the 55 mile an hour speed limit has been left the same as it is on a super highway system designed for an 80 mile an hour speed limit. I think that the frustrations the people are seeing from day to day -- I drove home from Augusta, two weeks ago, and went 55 on one of the first trips that I ever made at 55 and I think I was passed by about every car on the interstate. Over 50 percent of our population in the state of Maine is ignoring the 55 mile an hour speed limit on our highway system. If that is, in fact, a true figure, then we, in fact, have a law that people ignore in the state of Maine.

I would suggest to members of the House that we make laws that are acceptable and the people of our state can live with. I would ask you to adopt this Resolution and maybe we will see some legislation later on that you can help promote to tell Washington that we do, in fact, believe that we should have our choice in a rural state on our interstate system to increase our speed limit.

The SPEAKER: The Representative from Canaan, Representative McGowan, has posed a question through the Chair to anyone who may respond if they so desire.

The Chair recognizes the Representative from Augusta, Representative Paradis.

Representative PARADIS: Mr. Speaker, Men and Women of the House: I would like to take the opportunity to respond to my friend from Canaan and add something to what the good Representative from Cumberland and the Representative from York have just said. What they have said is true and what the Representative from Canaan is asking is that most of our highways today, at least our interstate system, was designed when 70 miles an hour was the speed limit so the curves, the grades, and the increments are all for that speed limit; however, the cars, since 1975-76 have downgraded and anyone who is familiar with highway safety will tell you that these cars are not built for 65, 70 or 75 miles an hour, they are built for far lesser speeds than that and they will not withstand, in any way, with any amount of safety, a higher speed limit that our roads can take because they were designed in the 60's with engineers using higher speed limits. Our cars have been downgraded because of the fuel crisis, they are smaller and they are not as safe as these huge cars, these huge dinosaur cars, so called, of the 50's and 60's.

Highway safety is still an issue and, as a member of the Highway Safety Committee, we are still concerned that the higher speed limit, especially not wearing seat belts, will mean an increase in fatalities and severe injuries and will be a drain on hospitals and on our courts.

I would hope that you would vote against the adoption of this Resolution. Representative Rolde of York requested a roll call vote.

The SPEAKER: The Chair recognizes the Representative from South Portland, Representative Anthony.

Representative ANTHONY: Mr. Speaker, Men and Women of the House: I believe that one of our tasks in this body is to try to promote a rule of law and the respect for law. We have a situation now where we do not have very consistent regard for the 55 mile an hour limit. In fact, I would be willing to wager that, if we polled ourselves as to how many of us in fact do drive under 55, we would find a very small percentage. It seems to me in light of this, that changing the speed limit to be that which has become the custom in this state on the rural interstates, makes good sense as a way of promoting added respect for law and making our laws consistent with our own practices as well as the practices of the people of this state.

The SPEAKER: The Chair recognizes the Representative from Madawaska, Representative McHenry.

Representative MCHENRY: Mr. Speaker, Ladies and Gentlemen of the House: I think we are sending the wrong message to Washington when we tell them we are going to go from 55 to 65. There are states in the west that 80 is very safe and I don't think that we should send them the message of 65. I believe that Washington — these Resolves, they have a special basket to put them in, file 13.

The SPEAKER: A roll call has been requested. For the Chair to order a roll call, it must have the expressed desire of more than one-fifth of the members present and voting. Those in favor will vote yes; those opposed will vote no.

A vote of the House was taken and more than one-fifth of the members present and voting having expressed a desire for a roll call, a roll call was ordered.

The SPEAKER: The pending question before the House is the motion of the Representative from Canaan, Representative McGowan, that the House reconsider its action whereby H.P. 452 was adopted. Those in favor will vote yes; those opposed will vote no.
