STATE OF MAINE  
ONE HUNDRED AND NINETEENTH LEGISLATURE  
FIRST REGULAR SESSION  
JOURNAL OF THE SENATE

In Senate Chamber  
Wednesday  
April 14, 1999

Senate called to order by President Mark W. Lawrence of York County.

Prayer by Reverend Iris Burnell of the Union Congregational Church in South Bristol.

**REVEREND BURNELL:** Let us Pray. Creator and creating God, we come before You, Your servants and the servants of the people who have sent us to this special place. We acknowledge that sometimes our burdens are easy but often they are heavy indeed. We ask not that our burdens be lifted but that You help us carry them. We gather this morning from towns and cities throughout our beloved Maine. Also we gather from the rough places in our personal lives, those concerns and problems in our hearts and homes, which always challenge us. Help us to discern Your will for us in both our personal and professional lives. We are a hopeful people God, so is our hope for the future which sustains us. Lead us to common ground as we face difficult issues which defy easy solutions. For we know that when we reach that special place, that common ground, there will You be welcoming us home. Amen.

Doctor of the day, Andrew Carey, M.D., Falmouth.

Reading of the Journal of Tuesday, April 13, 1999.

**THE PRESIDENT:** The Chair recognizes the Senator from Washington, Senator Cassidy, who requests unanimous consent to address the Senate on the record. The Senator may proceed.

Senator **CASSIDY:** Thank you Mr. President. Men and women of the Senate, it's a real honor today. I have some guests visiting us here in the Chamber. I have the Calais Lady Blue Devils who are the Class C State Girls Basketball Champions. I'm so pleased to have them here with us today and their coaches, Bob McShane, Lori Frost, and Brenda Batson. These girls have had quite a history here in the state. I think since the 90's I have heard them referred to as the Team of the 90's. They have won the Eastern Maine Championship seven times and they've won the State Championship four times. So we have four gold balls down there in the trophy case, which we're really pleased with. The other thing I must tell you is that over the years I've lost the odd lunch to Senator Michaud. Once in a while we run into a snag here. I've also had a few discussions with Senator Ferguson from Oxford, who actually has in his district the Dirigo girls team who we played the last four consecutive years in each split. So probably next year we'll probably see a rubber match. I want to mention we have two seniors out of the three seniors with us today. Elizabeth Churchill and Rachel Clark who have really entertained the community and offered a lot of spirit and worked very hard on the team. The thing that really always impresses me, and you folks who have gone to celebrations in your community, when the kids get back win or lose from the tournaments is to go and see the turnout of the community. Another thing that impressed me when I was there this February after the state tournament was that these kids were all academically on the honor roll and just tremendous all around kids. I think that's so important as well. The other thing, just to warn Senator Ferguson, we did have three Freshman on the starting team this year so I think you'll probably see them back there next year. I just want to congratulate them and ask you to

join me in welcoming them here to the Senate Chambers. Thank you.

**THE PRESIDENT:** The Chair recognizes the Senator from Oxford, Senator Ferguson.

**Senator FERGUSON:** Thank you very much Mr. President. Ladies and gentleman of the Senate, it is true that Dirigo has faced Calais in the last four tournaments and I believe they are split, 2 and 2 apiece. You should be humble in victory and gracious in defeat and I would like to offer my congratulations to the coach and the girls for a fine job. If you remember last year I did challenge Senator Cassidy to a small wager, a meal. He didn't take me up on it but I didn't approach the subject this year because it looked like I might be paying. I would like to once again offer my congratulations and I'm sure they will meet in the future. With three Freshman on the team I'm not going to be offering any challenges in the future. Thank you.

**THE PRESIDENT:** The Chair is pleased to recognize in the rear of the Chamber the Class C State Champions, the Calais High School Blue Devils. They are Elizabeth Churchill, Rachael Clark, Morgan Drew, Nancy Feck, Katie Frost, Lanna Martin, their coach Bob McShane, assistant coach Brenda Batson, JV coach Lori Frost, and their manager Paul Storey. Would they please all rise and accept the greetings of the Senate.

(In Senate, April 13, 1999, Reports **READ**.)

On motion by Senator **AMERO** of Cumberland, supported by a Division of one-fifth of the members present and voting, a Roll Call was ordered.

**THE PRESIDENT:** The Chair recognizes the Senator from Penobscot, Senator Ruhlin.

Senator **RUHLIN:** Thank you Mr. President. Ladies and gentlemen of the Senate, I point out to you this morning you have a choice before you, here and now. That choice is to be responsible, look at the need to exempt legitimately the wages equitably of some of the people that have worked for the State,

who have served as veterans and have worked for the Federal government. That Bill is not before you, that is a Bill that will come before you. I will limit my further comments on the item before us. It's an irresponsible, feel good proposal that carries with it a \$60 million cost tag that this state cannot support financially at this point. If you, in fact, want to provide responsible, equitable tax relief to those people who receive pensions, that have already been paid taxes on once in the State of Maine, such as were previously mentioned, you will have that opportunity. The Taxation Committee will be bringing that before you very soon. If you want to vote irresponsibly, this is your opportunity. I would ask you to please respond responsibly and follow the Ought Not to Pass Report of 11 bipartisan members of the Taxation Committee. Thank you.

**THE PRESIDENT:** The Chair recognizes the Senator from Cumberland, Senator Amero.

Senator **AMERO:** Thank you Mr. President. Ladies and gentleman of the Senate, I think we, as Senators, have today an opportunity to recognize people who want to retire and stay in the state of Maine. People who might want to retire from another state and come to the state of Maine. By offering them a break on the income taxes that they would have to pay on their pensions and retirement benefits. Now I ask you to look at all the Bills that we have already sent to the Appropriations Table that have very large price tags on them. Already we have accumulated over \$50 million in proposed new spending sitting on the Appropriations Table at this time. If this Bill is irresponsible then I think we ought to look at all the other irresponsible Bills that we've already sent to the Appropriations Table. I think that this Bill is more responsible than most that we've already talked about and most that we've already sent to Appropriations. I'd like to see us send this Bill to sit on the Appropriations Table with all those other Bills that have already passed for consideration. After all, we're talking about a large segment of the people of this state that we want to see stay in our state because Maine is, and should be, a great state to retire to. And it can be if we make it a little more attractive for people as far as the taxes that they have to pay after they retire. So I'd like to see us make a statement to the people across this country that Maine is a great state to retire to. Let's show the whole country that we want seniors in this state. We want them to stay. We want them to come to a crime free state with a great environment, with a lack of congestion. We want them to participate in other ways and spend their money in this state. We'll get it back one way or another. But allow them to keep part of their retirement income so they can buy their prescription drugs. We don't have to have all programs to cover everything for people if we allow them to keep their own income. So I say this Bill is as responsible as any other that we have sent to Appropriations and I would urge your support. Thank you Mr. President.

**THE PRESIDENT:** The Chair recognizes the Senator from Cumberland, Senator Harriman.

Senator **HARRIMAN:** Thank you very much Mr. President. Good afternoon ladies and gentleman of the Senate. On first blush I would have to say that my good friend from Penobscot, Senator Ruhlin, appears to make some sense that this Bill has such a high price tag to it that we'd want to end it's legislative life right here before going any further. But as I step back in my

mind's eye and put myself out in the private sector, in my real job if you will, my other job perhaps more appropriately, where I work with people with their retirement plans ladies and gentlemen of the Senate I have to tell you that because of our tax policy we are driving the people who have built our communities and our economy in ways that you can't imagine, to go claim residency in other states because our income tax policy is so onerous. These are folks who are entering into a phase of life where their income levels off and their expenses continue to rise. So what we do by our policies, we thank them for the efforts they've put in to build our communities and our economy. And we say thank you very much. Florida is but a three hour plane ride away and the tax savings that you can enjoy from changing your residence to Florida will pay for your airline tickets and your county club dues and presents sent home to your grandchildren and a little left over. If we have the courage to see this Bill as an opportunity to send a message to the people who have built our communities and our way of life, that we want you to stay. Not only that we want to be seen as a place that attracts people in their senior years, ladies and gentlemen of the Senate, this is the largest growing segment in our population in the entire country. They enter a phase of life where they don't affect the school system. They are not expecting more, and more services, rather they want to enjoy their lifestyle here. As my good friend from Cumberland, Senator Amero, was mentioning, our crime free neighborhoods, our state of the art telecommunications, pristine environment and so on and so forth. With the tax relief that this Bill would provide, it would free up the money to rest in their checkbook where they can pay their property taxes. Where they can pay for their prescription drugs. Where they can pay for their long term care needs and empower our citizens to make choices for themselves rather than sending their tax money to Augusta where we build a bureaucracy to send the money back in some form or fashion. This is a great opportunity to send a positive message beyond Maine's border that would be heard loud and clear around the country. That this is a great place to spend your retirement years. Not only is it a positive message, I suspect it would generate some unexpected revenues. We're losing not only income taxes, we're losing sales taxes on purchases that people make who are retired and who live in other states for six or more months out of the year. The excise taxes on their automobiles and yes, there are only two things that are certain in life, taxes and death, and at death you pay an estate tax where you reside. In fact, because of our tax policy, we are inviting people to claim residency in other states, where they are receiving the state taxes. I want to join Senator Amero from Cumberland, and hopefully many more in the Chamber here, in sending a strong positive message that we want to work with this Bill. I hope you will join me in defeating the pending motion. Thank you Mr. President.

**THE PRESIDENT:** The Chair recognizes the Senator from Oxford, Senator Ferguson.

Senator **FERGUSON:** Thank you very much Mr. President. Ladies and gentlemen of the Senate, I, too, would like to voice my opposition to the pending motion. I live in a small community

in Hanover, over in the western mountains. We have a population of 275 souls and a lot of my friends who are my age have just taken up residence in Florida. The reason they're doing that is due to the heavy tax burden that we have in this state. It seems to me that this is a good start and we should defeat the pending motion and go on and Accept the Minority Report. I was trying to come up with something catchy to say, and the other day we passed a Bill, Start Me Right, and what I think, a good catchy phrase for this would be "End Me Right". I would hope the members of the Chamber would join me in voting against the pending motion so we can go on and Accept the Minority Report and do something for the senior citizens of this state and I thank you very much.

**THE PRESIDENT:** The Chair recognizes the Senator from Waldo, Senator Longley.

Senator **LONGLEY:** President and colleagues in the Senate, I'll pick up the "End Me Right" and promote ending this Bill right now, because we do have a much more fiscally responsible Bill coming up. If the issue is to get the rights of senior citizens in these tax areas on the table, we have a vehicle. Last week when we were doing Start Me Right the issue was GPA and paying our bills and that's what I was hearing from the people who I suspect are going to be voting against this pending motion. I'm just saying that it's unfortunate that up until now it has felt for me, speaking for myself, that we've been working together pretty well and this one is feeling like it's getting partisan and we're playing games with the public's mind. We have a vehicle coming to address tax issues for senior citizens and it's a fiscally responsible Bill, I would prefer to be real with the public in terms of what we're willing to do. The same time we addressed the good Senator from Cumberland's point of getting this issue on the Table to be dealt with. Thank you.

**THE PRESIDENT:** The Chair recognizes the Senator from Lincoln, Senator Kilkelly.

Senator **KILKELLY:** Thank you Mr. President. Mr. President, may I pose a question through the chair?

**THE PRESIDENT:** The Senator may pose her question.

Senator **KILKELLY:** Thank you Mr. President. I must confess that many of these tax issues and pension issues are somewhat beyond my ready comprehension. I have a question. Would this Bill, in fact, cover pension plans where the dollars that go into the plan are tax deferred at that point? Which would mean, if they're tax deferred going in, and tax deferred coming out, we're creating a \$60 million hole, by some people paying no taxes at all on that money and shifting that to the working families who are maybe going to have to pay higher taxes to fix that. So I just would wonder, will this include those plans where there's no tax going in and this would mean there's no tax coming out?

**THE PRESIDENT:** The Senator from Lincoln, Senator Kilkelly poses a question through the Chair to anyone who may wish to answer. The Chair recognizes the Senator from Penobscot, Senator Ruhlin.

Senator **RUHLIN:** Thank you Mr. President. In response to the good Senator, I would say yes. The way the Bill is written, under State of Maine Tax Law, those people who presently take money

from their income, they may deduct it if they put it into say an IRA. That money is tax deferred under State of Maine law and Federal law until it's withdrawn as a pension. Usually, the reason for that is to allow the shelving of that money, if you will, when you're in a higher income tax bracket and then you withdraw it, at what is often thought to be a lower income tax bracket, you get that benefit. The way this Bill is written, you would now pay no State income tax on it whatsoever. I have further comments to make, if I may Mr. Chairman, beyond that.

**THE PRESIDENT:** The Senator may proceed.

Senator **RUHLIN:** Ladies and gentleman of the Senate, I want to talk to you about this Bill and it's interrelationship with the Committee process. The Taxation Committee this year has tried very hard to consider many of the weighty issues of almost 400 Bills coming before us. We have made a strong effort. I've never seen a stronger effort made in this entire building in my years here, to be bipartisan on as many issues as possible. You have deputized us, if you will, by the rules that you have, to become your experts in tax matters. To take the time, work the late hours, to take the energy and expend it, in understanding to do the homework. I assure you that is a Committee I'll put against any Committee in this building. They have done the homework. They have done the studies. They have applied themselves and they've done so in a bipartisan manner. If you will look at the Report, you'll find that 11 members of both parties examined the idea that is proposed here. While I agree with the good Senator from Cumberland, the problem exists. They recognized that it existed as well and made a proposal that is very workable, that is very fair, and it even has equality in its name. This is not the end of the subject. I hope that this is the beginning of the end for this particular proposal. Then we will go on in our future, I hope, to consider other bipartisan proposals. Worked together, for harmony, and a lot of work in the Taxation Committee brought and signed by all the members in this Body that serve on that Committee. I hope you'll take that into consideration as you vote today. Thank you.

Off Record Remarks

---

The President requested the Sergeant-At-Arms escort the Senator from Penobscot, Senator **MURRAY** to the rostrum where he assumed the duties as President Pro Tem.

The President retired from the Chamber.

The Senate called to order by President Pro Tem **ROBERT E. MURRAY** of Penobscot County.

**THE PRESIDENT PRO TEM:** The Chair recognizes the Senator from Somerset, Senator Mills.

Senator **MILLS:** Mr. President, men and women of the Senate, I rise to address a somewhat larger issue than what has so far been under discussion in regard to this Bill and I'd begin by saying I will vote with my Committee Chair out of respect to the Committee. Having said that, one of the things that has

disturbed me lately, and I don't know why it didn't disturb me 5 years ago when I first came down here, it's sort of grown on me as time passes, is the extent in which members on both sides of the aisle and Committees and policy Committees generally seem somehow content to delegate the essential work of this Legislature to a single Committee of 13 people called Appropriations. It seems to me we go about our business backward too often. If one were rational, and if one were running the State of Maine like a business, somehow, by some method at some point in March we would know, for instance, how much the Taxation Committee may have at its disposal for tax relief, or for revenue generation. But somehow these essential outlines of budget work would be done so that, by way of further example, when the Health and Human Services Committee wants to address a program called "Start Me Right" and is thinking about spending \$8 or \$9 million in order to fund it, that they have a budget. That they have the responsibility to decide on spending priorities within the area that they are responsible for, and that they live within the confines of that budget. That they find money as it may be appropriate to fund the programs and to adjust their own priorities. By the same token I see the Education Committee struggling, wildly speculating about how much money they may have at their disposal in order to create a rational School Funding Formula, and we have spreadsheets that are now down through K already, and it's April 14. We'll be down to double Z by June, and we still won't have a School Funding Formula and at least part of the reason is they have no idea how much money will be set into it. So we're working in the vacuum and in the same token the Taxation Committee, in reality, has no idea whether we will be directed in the final analysis to cut taxes or raise revenues or do some combination, but it's very, very difficult for a policy Committee whether it be Taxation, Human Services or Education. By way of example to policy, when you do not have the broad outline, or the budgetary constraints, in front of you to do your work. So, I must end by saying that I respect completely, the votes of those of you primarily from my caucus who may choose to send this tax cutting Bill down to the Appropriations Committee because it is just as fair game to send down a \$60 million tax then it is to send \$2 or \$3 hundred million of new spending down there from the policy Committees without any sense of where the money is coming from. Thank you.

**THE PRESIDENT PRO TEM:** The Chair recognizes the Senator from Cumberland, Senator Harriman.

Senator **HARRIMAN:** Thank you very much Mr. President. Ladies and gentlemen of the Senate, I rise a second time and I will be brief, to bring you the voice that I've heard from Main Street in my district. As like you, I've traversed time and time again, the neighborhoods, the meeting places and the coffee shops where you learn what's really important to Maine people. Over and over and over again I heard the people who told me about their friend or their parent who no longer claims Maine as their residence because of harsh tax policy. This past fall as I walked through neighborhoods, knocking on doors, I met person after person after person, who told me they don't vote here because they are a resident of another State. Or the "for sale" sign that was on the lawn of a number of places who said, "I've had it. My kids are out of school. I'm retiring to a different state." To me this is what this Bill is all about. An opportunity to address the economic drain that is leaving our state. People have finally reached a point in their life where they could look forward to a retirement. Those who have the choices, and that's what we're

talking about here, those who have the power of choice are choosing to leave our state and along with it, the tax revenues and the excise taxes, the sales taxes and other taxes that we would continue to receive. It is that voice that I'm rising today to speak for. I want to assure my good friend from Waldo, Senator Longley, that this is not partisan. This is not gamesmanship as I said at the onset of my remarks earlier. My first reaction was that of the good Senator from Penobscot Senator Ruhlin, that this is such a significant policy impact that it really isn't going to go very far. But you know, I see this as a great opportunity to really send a strong positive message to those who have the wealth, who could choose to stay here. I want to see if we can address that. I acknowledge up front now that if we have an opportunity to work with this policy that it's got to come from somewhere else. I'm prepared to keep an open mind as to how to do that but, I see this as an opportunity to help the people who want to retire. I see nothing wrong with creating the strong incentive for people to prepare for retirement and to live here in retirement. If our tax policy reflects that, I'm confident that we're going to see more people staying here than we currently see leaving. I suppose at the end of the day it boils down to this policy sending a message. Those who want to empower people and individuals to make their own choices to stay here and to live here, versus the policy of saying we can't afford to release the tax revenue, we can't release the grip of taxes, because we need them here in Augusta. That's a debate we'll have in a nonpartisan, good public policy way. When I first got elected to the Senate, Mr. President, I had the opportunity to serve with the former Senator from Washington, Senator Vose. Those of you who knew Harry Vose know he was quite a character and he was certainly a bright light and source of wit and humor from time to time in this Chamber. When we adjourned Sine Die, he was regaled because this was his last term and he was going to retire. After we adjourned I asked him what he was going to do. He said, well, I'm going to move to Florida, because the taxes are too high here. True story. My good friend from Washington, Senator Cassidy, mentioned to me that he got a letter from Senator Vose today from Crystal River Florida. I say let's take this piece of legislation, let's work with it in the Appropriations Committee and invite him back. Thank you Mr. President.

**THE PRESIDENT PRO TEM:** The Chair recognizes the Senator from Waldo, Senator Longley.

Senator **LONGLEY:** Thank you Mr. President. Colleagues in the Senate, I wish I was missing something here but I'm afraid I'm not. We have a Bill before us now that is 3 times as large to help the elderly as we had to help the early aged kids last week, and the same people who are now saying let's help the elderly, and we all want to help the elderly, and the same people who said we didn't have the money we had to pay our bills and the same people in my opinion that were pitting early age care kids, early younger kids with older kids with GPA and the need to fund that are now saying let's spend 3 1/3 times as much. I'm all for equal allocations elderly and young and this Bill is 3 times larger for the elderly than for the very young. If it were the same I think I could hear these arguments. It's not and I wish I didn't understand, I think I do and I'm sorry that this vote is going this way.

**THE PRESIDENT PRO TEM:** The Chair recognizes the Senator from Cumberland, Senator Amero.

Senator **AMERO:** Thank you Mr. President. Ladies and gentlemen of the Senate, I'd like to just speak briefly once more to this whole issue of where we are with the amount of spending being proposed in this state, and where we are with the amount of money being proposed for tax relief in this state. There are all kinds of proposals for spending at all levels for all kinds of programs. There are all kinds of proposals for different types of tax relief. They say we're going, why don't we put everything on the table and keep an open mind on where the monies are going to go for both spending programs, for both spending and tax relief. Remember, the Governor already has money in his budget for tax relief. I don't think we've had the debate yet on what's the best form of tax relief in the state. I'd like to see giving our senior citizens a tax break, being on the table for consideration along with everything else and that's why I would urge today that you vote in opposition to the pending motion so that we can put this proposal, which I think is a good idea well worthy of consideration, it's not a partisan proposal. Doing something for our senior citizens is, I think, something that people on both sides of the aisle want to consider doing. I would urge you to oppose the pending motion so that we can go on and vote for the Minority Report. Thank you.

**THE PRESIDENT PRO TEM:** The Chair recognizes the Senator from Cumberland, Senator Rand.

Senator **RAND:** Thank you Mr. President. Men and women of the Senate, I would urge you to accept the Majority Ought Not to Pass Report, for the simple reason that the money, the income that is being tax exempted here is being tax exempted twice. For those of us who have a number of constituents who are able to take advantage of financial instruments, such as IRAs, during their productive working years they are able to set aside extra money for their future, which is a wise and good thing for them to be doing and I wish all of our constituents could do it. That money, at the time that it's put aside is not taxed. We find this good tax policy. When a person retires and their income has leveled out and their cost of living continues to rise we then say, okay, you can use that money. You can draw that money out but at this particular time you have to pay a tax on it. This seems a fair and equitable thing and I don't believe anybody here could argue. What this Bill does, does not exempt just the pension and retirement benefits from the Maine Income Tax. What this does is protect a certain segment of our society with enough disposable income to put some aside for a rainy day, which we all approve and agree is a good thing to do. It exempts them from all taxes on that income ever. I find that blatantly and just preposterously unfair to the majority of Maine people who unfortunately, at this point in time, rely on Social Security in their retirement years. Which, by the way, is not taxed by the State of Maine. I would urge you to please do the responsible thing. Not the thing that looks like a politically popular thing. Then you can wave a Roll Call at the end of the day and say, see I voted to exempt your pension and retirement benefits from Maine Income Tax. This is blatantly unfair to the majority, the vast majority of all of our constituents who are going to have to pick up the slack and pay for this at the end of the day. We have heard that this particular issue is going to be addressed, and is presently being addressed by the Committee of jurisdiction. I would urge you please to do the responsible thing and vote with the Majority, eleven members, Ought Not to Pass. Thank you.

**THE PRESIDENT PRO TEM:** The Chair recognizes the Senator from Washington, Senator Cassidy.

Senator **CASSIDY:** Thank you Mr. President. Men and women of the Senate, I probably am really the difference between us having lunch and listening to this debate, so I'll be very, very short. This Bill, I just want to tell you for years, I think 30 years or so that I've been a member of the Calais Lions Club. Although, since I've been here I've been sort of a member-at-large because, as you know we're not there for the meetings in the winter. But the ironic thing that happens often when we look at projects and things that we're going to do there in the area for the community, often times if it's a real big project we'll say, well let's wait until the spring when the snowbirds get back. We have so many members of our club who have retired and moved to Florida who are also members-at-large. What's going on here is we're losing the taxes that we could generate for the communities in excise tax, registration of vehicles for the State and sales tax. I really think a Bill like this could help us generate more funds. It's not a cost that's going to go on forever, hopefully it's a cost that will reverse some of these revenues. The last thing I wanted to mention, this is so ironic to me when I think this price tag just happened to ring a bell when I heard \$60 million. Where did I hear that number before, I think it was the tax break we gave to Bath Iron Works 3 or 4 years ago. I'd kind of like to give \$60 million to the people of Maine. Thank you Mr. President.

**THE PRESIDENT PRO TEM:** The Chair recognizes the Senator from Hancock, Senator Goldthwait.

Senator **GOLDTHWAIT:** Mr. President, ladies and gentlemen of the Senate, briefly, I cast a vote, I think last week, which was one of the more difficult decisions I've had to make because of an issue similar to this. A Bill of some significance, a Bill of great value to a segment of the population in Maine, but a Bill which no one had been able to present a funding proposal for. My concern remains that simply backing up that dump truck full of Bills with fiscal notes and dumping it out on the Appropriations Table and saying let them sort it out, doesn't work for me. So it will be easier for me in this case to vote against exempting these pension benefits partly because the price tag is three times greater than the one on which I already did this. I have selected some Bills with some fiscal notes that I do support. They are fairly modest certainly in comparison to some of the proposals we've had. Finally I would just like to report the one phone call that I've gotten on this issue to date, that is from a gentleman that called and said, Senator Goldthwait I just heard about this Bill. It would be wonderful. I'm debating, can I stay in Maine? Should I go to a different state where they don't tax these benefits? I really hope you'll support this. Will you support this Bill? I said no, and he said you won't? I said no and he said why not? I said it's going to cost \$60 million and I don't know how to pay for it. He said \$6 million, that's a lot of money. I said, no, \$60 million. He said Oh, I'm sorry that I bothered you. I understand what you're saying, thank you very much. Thank you Mr. President.

**THE PRESIDENT PRO TEM:** The Chair recognizes the Senator from Penobscot, Senator Ruhlin.

Senator **RUHLIN:** Thank you Mr. President. Ladies and gentlemen of the Senate I assure you I'm also hungry, but there are a couple of comments that have been made I really am going to respond to. I feel that it is the responsibility of every

Committee that meets as a Joint Standing Committee of this Legislature to recognize its responsibilities to sort of pick and choose the fiscal demands of its policy area when it sends Bills forward to the Appropriations Process. To suggest willy-nilly sending everything with a fiscal note down to the Appropriations and let them sort it out is less than responsible. The other thing that I would point out to you as Senators is that you should take into consideration we already exempt in this state all Social Security Pension Plans. That is the largest amount most broadly based source of pension in the State of Maine. That is already done. That has been taken into consideration and calculated in a much more responsible measure that will be before you shortly. Thank you.

**THE PRESIDENT PRO TEM:** The Chair recognizes the Senator from Oxford, Senator Ferguson.

Senator **FERGUSON:** Thank you very much Mr. President. I have the Bill before me and I would like to make a couple of comments regarding the comments the good Senator from Cumberland, Senator Rand made. This does limit the exemption to \$25,000 per individual and \$44,000 per couple. So any couple making \$44,000 or less taxable income is certainly in the middle class categorize. I submit to you \$60 million is a lot of money. But if we have citizens that retire to Maine as a place of residence that we would generate probably 2 to 3 times that \$60 million that these folks come and settle into Maine and start registering their cars again and maybe taking up their residency in the state one more time. I would hope the Senate would join me in defeating the pending motion so we can go on and Accept the Minority Report. I won't talk any longer, I'm getting hungry also.

**THE PRESIDENT PRO TEM:** The pending question before the Senate is the motion by the Penobscot, Senator Ruhlin to Accept the Minority Ought Not to Pass Report. A Roll Call has been ordered. Is the Senate ready for the question?

The Doorkeepers secured the Chamber.

The Secretary opened the vote.
