**READ** and **ADOPTED** in concurrence.

**Non-Concurrent Matter**

Bill "An Act To Define the Term 'Caucus Political Action Committee'"

(S.P. 654) (L.D. 1902)

Reports **READ** and the Bill and accompanying papers **COMMITTED** to the Committee on **VETERANS AND LEGAL AFFAIRS** in the House on March 3, 2020.

Came from the Senate with that Body having **INSISTED** on its former action whereby the Bill was **PASSED TO BE ENGROSSED AS AMENDED BY COMMITTEE AMENDMENT "A" (S-391)** in **NON-CONCURRENCE**.

Representative STEWART of Presque Isle **REQUESTED** a roll call on the motion to **RECEDE AND CONCUR**.

More than one-fifth of the members present expressed a desire for a roll call which was ordered.

The SPEAKER: The Chair recognizes the Representative from Monmouth, Representative Ackley.

Representative **ACKLEY**: Thank you, Madam Speaker, Members of the Maine House of Representatives. I rise to oppose the motion.

Just a few minutes ago, we started today with the Pledge of Allegiance, that ends with the phrase "with liberty and justice for all." We do that every day. It's a reference to the Declaration of Independence that says that all men, all people, are created equal. When we pass legislation in this Chamber, every citizen, every voter, every legislator, everyone is equal in the eyes of the law. The problem with the Senate's version, forgive me, the other Chamber's version of this bill is the sin of omission. Where is the equality? There's some very serious unintended consequences in the seemingly innocent language in this bill.

During the work session on this bill, a defect in the definition was discovered. As written, it would reserve the privilege of forming caucus PACs to only a majority of members of an organized party in this Chamber. Interestingly enough, the largest voting bloc in the State of Maine is unenrolled. Thirty-five percent of voters who register to vote deliberately do so as unenrolled. And that choice is just as legitimate as joining a party. The freedom of association can also be the freedom not to associate.

In 2017, there were two members in this House that were unenrolled. Today, there are seven. Who knows what future Maine Legislatures will bring? Under this bill, any unenrolled members would be prohibited from organizing a caucus PAC by law. Although we could have solved this problem in work sessions, there were two objections. One, that adding unenrolled members needed a public hearing and, two, the unenrolled caucus had never had a PAC before so, hey, why start now.

On the first point, last Tuesday, this body wisely requested a public hearing of the other body by supporting a motion to send this bill back to committee. Today, it seems we're at a loggerhead. The necessity of a public hearing is being ignored by the other body. As for the second objection, Madam Speaker.

The SPEAKER: The Representative will defer. The Chair will just remind the Representative, and all Representatives, please do not refer to the actions of the other body.

The Chair advised all members that it is inappropriate to refer to the potential action of the office of the executive or the other body in order to influence the vote of the House.

The SPEAKER: The Representative may proceed.

Representative **ACKLEY**: As for the second objection, Madam Speaker, we have a new status quo. Because under current law, any and every caucus is able to form a caucus PAC. For two weeks, there's been a caucus PAC registered with the Maine Ethics Commission formed by the House unenrolled caucus. Now, personally, I'm not a big fan of PACs. In fact, if we wanted to do away with every caucus political action committee tomorrow, we could convene the House Rules Committee and make it happen in a heartbeat. That would be something I would support. This new unenrolled caucus PAC, Madam Speaker, has a whopping \$25 in the account. It exists to raise the awareness that Maine's Independent citizens, Independent voters, and Independent legislators deserve equal treatment under the law.

So, there are currently five caucus PACs in existence; two in the other body, three in the House. For some time now in the House, we've had three caucuses in reality; the Democratic caucus, the Republican caucus and the caucus of Independents and Tribal Representatives. Since 2017, the Independents have been holding open caucuses before each session day where anyone is welcome to attend. Folks might not be aware that 43% of all Independent State Legislators in the United States come from the great State of Maine. Although we don't always speak with a consistent voice on policy matters, what unites our caucus, Madam Speaker, is our belief that we can learn from each other, that we can educate ourselves, and that we can agree to be disagreeable, forgive me; we can agree to disagree without being disagreeable. That should put the "dir" in "dirigo," Madam Speaker, and give a glimmer of hope to citizens who wish to see a future of civility in political conversations in Maine.

So, the unintended consequences of this bill would be to disqualify only the unenrolled PAC; the only one dedicated to supporting Independents. All other party PACs would remain. As we contemplate this next vote, Madam Speaker, I think each member should take a hard look at three very basic questions generated by this bill. Questions like; do we believe that in this chamber each member is equal under the law? Should unenrolled members have the same right of association as every other member of this House? Should a Legislator be penalized for being unenrolled?

Madam Speaker, the citizens of Maine look to us to lead the way, and liberty and justice for only some is no liberty and justice at all.

The **SPEAKER**: A roll call has been ordered. The pending question before the House is to Recede and Concur. All those in favor will vote yes, those opposed will vote no.

Subsequently, Representative **ACKLEY** of Monmouth moved that the House **INSIST**.

Representative **MOONEN** of Portland requested a roll call on the motion to **INSIST**.

More than one-fifth of the members present expressed a desire for a roll call which was ordered.

The **SPEAKER**: The Chair recognizes the Representative from Portland.

Representative **MOONEN**: Thank you, Madam Speaker. I want to clarify the position that we're in and then explain how I will be voting on this.

We in this chamber voted to send this bill back to committee. The other chamber has disagreed and has insisted on their disagreement. So, if we were to vote yes on this insistence, this bill would die between the bodies. I think that's a bad outcome because this bill came to us at the request of the Maine Ethics Commission, who felt that the law was not clear on what caucus political action committees are and that the law needed that clarity. I think it's really important that our voters understand what our campaign finance laws are, that we understand what our campaign finance laws are, and any time we can bring clarity to that, that's a good thing. And that is why I will be voting against insisting, because I think we should clarify our law and not let this bill die between the bodies. Thank you, Madam Speaker.

The **SPEAKER**: The Chair recognizes the Representative from Presque Isle, Representative Stewart.

Representative **STEWART**: Thank you very much, Madam Speaker, Ladies and Gentlemen of the House. Just to be clear on the position here, the other body can, and I know we're not supposed to be talking about the actions of the other body, but this is not the final outcome, there are other options available for folks if they sought to pursue them, one of which would, in fact, be to send it back to committee should there be a consensus around that. Thank you.

The **SPEAKER**: The Chair will clarify because I want to make sure that people understand what they are voting on and you have just seen a disagreement from the two corners. An insist motion and prevailing vote on the insist motion right now would mean that this bill does not continue to live beyond that vote. That is the result of a prevailing insist motion on this vote. The Chair recognizes the Representative from Bangor, Representative Schneck.

Representative **SCHNECK**: Thank you, Madam Speaker, Men and Women of the House. The committee put a lot of work into this. This is an ethics bill. It only defines what a political caucus is. So, I don't want this to die between the bodies, that might be where this is headed, but I hope you join me and follow my light; I will vote red.

The **SPEAKER**: The Chair recognizes the Representative from Monmouth, Representative Ackley.

Representative **ACKLEY**: Thank you, Madam Speaker. I appreciate the opportunity to speak to my motion and it's a

very simple reminder to the members of the body here that liberty and justice for only some is no liberty or justice for all.

The SPEAKER: A roll call has been ordered. The pending question before the House is to Insist. All those in favor will vote yes, those opposed will vote no.

The same Representative **PRESENTED House Amendment "B" (H-675)** which was **READ** by the Clerk.

The SPEAKER: The Chair recognizes the Representative from Knox, Representative Kinney.

Representative **KINNEY**: Thank you, Madam Speaker. I stand in opposition to the pending motion. As well-being as this thought may be, we're creating a solution to a problem that doesn't exist. We have food sovereignty in the State of Maine and what we found out in 2017 when we passed that law was that we were jeopardizing our custom slaughterhouses here in the State of Maine.

On the consent calendar today we have another bill, LD 1889, that is also trying to help protect food that is produced, meat that's mislabeled, in the State and making sure that that food can be consumed instead of being destroyed, as what has happened with a farmer this year. The pending motion offers the ability to save seeds and use them and barter them and exchange them. A lot of our seed companies here in the State of Maine have some issues with that language because trading seeds starts becoming a currency and these are products that are patented and our seed companies have an issue with this. The Farm Bureau came out in favor of some language that this amendment does not cover. The language they were in favor of included the right to save seeds but not the right to exchange or barter. To grow, raise, harvest, produce, and consume the food of their own choosing for their nourishment, sustenance, bodily health and wellbeing, as long as an individual does not commit trespass, theft, poaching, or other abuses of private property rights, public lands or natural resources in the harvesting of production of food.

For myself, personally, I applaud the effort that is attempted to be done with this bill, but it is a constitutional amendment, it does require two-thirds of both bodies in order

for this to occur, plus a vote of the people. Changing our constitution should never be taken lightly. The issues that I see with this that could go forward are immense. I would be more than happy to have had this be something that we put into statute rather than a constitutional amendment because we could easily fix statute if we were going to lose our custom slaughterhouses again.

So, I encourage people to please follow my light and let us revisit this maybe with some statutory language instead of constitutional language. Thank you.

Subsequently, **House Amendment "B" (H-675)** was **ADOPTED**.

Representative KINNEY of Knox **REQUESTED** a roll call on **PASSAGE TO BE ENGROSSED as Amended by Committee Amendment "A" (H-430) and House Amendment "B" (H-675)**.

More than one-fifth of the members present expressed a desire for a roll call which was ordered.

The SPEAKER: A roll call has been ordered. The pending question before the House is Passage to be Engrossed as Amended by Committee "A" (H-430) and House Amendment "B" (H-675). All those in favor will vote yes, those opposed will vote no.

The **SPEAKER:** The Chair recognizes the Representative from Old Orchard Beach.

Representative **GRAMLICH:** Thank you, Madam Speaker. Madam Speaker, Women and Men of the House, I rise today in honor and support of National Professional Social Work Month.

The primary mission of the social work profession is to enhance human well-being and meet the basic and complex needs of all people, with a particular focus on those who are vulnerable, oppressed, and living in poverty. Social work continues to be one of the fastest-growing professions in the nation. You can find social workers literally everywhere in our society. Chances are that you each know a social worker, present company included, and have had a social worker touch your lives as we are in federal, state and local government pushing for legislation and regulations to improve the quality of life. In fact, I am pleased to share that we have five social workers in this legislative body alone. We are the only profession that works to have a positive impact on the lives of individuals while simultaneously working to effect systemic change.

The services of social workers are needed now more than ever in Maine, as the Nation and Maine grapples with issues such as income inequality, the opioid epidemic, the climate crisis and our continued struggle for equal rights for all.

During Social Work Month, we hope that you will take time to learn more about our profession and the support of social workers by improving the lives of individuals and families in our society. To that end, we are welcoming to the State House tomorrow students from across our five schools of social work in the State of Maine. This will be a wonderful opportunity for our future social workers to learn firsthand about the critically important work we all do on behalf of the people of Maine. I hope you will join me in welcoming these students here tomorrow and, as a note, we will be having a mock session here in the Chamber and we look forward to working with you all. Thank you very much.

Subsequently, the Joint Resolution was **ADOPTED** and sent for concurrence.

**JOINT RESOLUTION COMMEMORATING THE FIRST STRIKE OVER WORKING CONDITIONS IN WHAT WOULD BECOME THE UNITED STATES**

WHEREAS, Richmond Island, Maine, a small 226-acre island off the coast of Cape Elizabeth in Saco Bay, was the site

of a permanent colonial fishing post owned by English merchant Robert Trelawny between 1633 and 1643; and

WHEREAS, Richmond Island has been listed on the National Register of Historic Places since 1978 for the significance of the fishing post's archaeological remains; and

WHEREAS, Robert Trelawny's fishing post employed between 40 and 60 fishermen, artisans, servants and farmers to support its operation exporting dried fish, cod liver oil, pipe staves and beaver skins to Europe; and

WHEREAS, workers on Richmond Island were bonded by their employer and forced to work off their debts before they could earn enough money to live independent lives; and

WHEREAS, fishermen at the Richmond Island post often risked their lives on stormy seas in 20-foot vessels with minimal shelter from the elements and worked long hours, day and night, 6 days a week, to the point of exhaustion; and

WHEREAS, in the spring of 1636, fishermen at the Richmond Island post ceased working and left the island to protest the withholding of their wages for over a year, marking the first labor strike over working conditions in what would become the United States of America; and

WHEREAS, the collective action of the Richmond Island fishermen in standing up for their rights to dignity and fair treatment is an inspiration to all Maine workers; and

WHEREAS, the Richmond Island strike deserves to be honored and remembered as part of Maine's long and proud tradition of working class struggles in this year of our bicentennial celebrations; now, therefore, be it

**RESOLVED:** That We, the Members of the One Hundred and Twenty-ninth Legislature now assembled in the Second Regular Session, on behalf of the people we represent, take this opportunity to recognize and honor the courage and resolve of the Richmond Island fishermen in furthering the cause of workers' rights.

**READ.**

The **SPEAKER:** The Chair recognizes the Representative from Winterport, Representative CUDDY.

Representative **CUDDY:** Thank you, Madam Speaker. Madam Speaker, in this the year of our bicentennial, I want to take a moment to recognize an act that took place over 380 years ago, before the formation of the United States and before Maine even existed. The fishermen at Richmond Island, whose wages were less than promised, who were bonded to work off debts before they were able to earn an independent living, and whose wages were withheld for a full year, decided to withhold their labor. It's the first recorded action of a group of workers protesting the conditions that they were working under.

Madam Speaker, these fishermen may have been from away, but they demonstrated a spirit that makes them Mainers. As Mainers, we don't tolerate this kind of treatment today, and these fishermen led the way hundreds of years ago. It's time we recognize their strength of character and collective action.

Thank you very much, Madam Speaker.

The **SPEAKER:** The Chair recognizes the Representative from Woolwich, Representative Hepler.

Representative **HEPLER:** Thank you, Madam Speaker. Actually, there's another trait that my students when I teach Maine history talk about with Maine, is their hardy individualism. And so, I was surprised and pleased to see this, the history of this early collective action, and I can't wait to add it to my Maine history class. Thank you.

Subsequently, the Joint Resolution was **ADOPTED** and sent for concurrence.

On motion of Representative HYMANSON of York, the following Joint Order: (H.P. 1534)

ORDERED, the Senate concurring, that the Joint Standing Committee on Health and Human Services shall report out, to the House, a bill to implement recommendations

of the Commission To Study Long-term Care Workforce Issues.

The SPEAKER: The Chair recognizes the Representative from York, Representative Hymanson.

Representative **HYMANSON**: Thank you, I wasn't fast enough. We in Health and Human Services have been reviewing many commissions and task forces on mental health, child mental health, and other issues, and we want to honor those commissions. The narrative I've heard before is that they lay on a shelf and after a lot of work has been put into them, and we've been trying to honor them with bills that come before us. And this is an example of one, with a Joint Order that's directly tied to the commission on long-term care workers. Thank you.

The SPEAKER: The Chair recognizes the Representative from Raymond, Representative Fay.

Representative **FAY**: I just wanted to say it's the Commission to Study Long-Term Care Workforce Issues. And I understand why the Representative from York, that was a long name. Thank you.

Subsequently, the Joint Order was **PASSED** and sent for concurrence.

Presented by Representative RECKITT of South Portland. Cosponsored by Senator MILLETT of Cumberland, Representative MORALES of South Portland, Representative KESSLER of South Portland.

On **OBJECTION** of Representative RECKITT of South Portland, was **REMOVED** from the Special Sentiment Calendar.

**READ.**

The SPEAKER: The Chair recognizes the Representative from South Portland, Representative Reckitt.

Representative **RECKITT**: Madam Speaker, Ladies and Gentlemen of the House, I rise today in honor of the South Portland AA Women's Basketball Team.

I want to say, as quickly as I possibly can, I have a lifetime bonding to basketball. I played ten years myself, believe it or not, at 5'5". But I played back when you could only bounce three times, and then I played when you could rove around the court and there were six of us still on the team, I was always a guard, I was never a shooter, and I'm sure that that is not the case with the South Portland AA Basketball Team.

I, myself, was inspired by women's basketball my entire life and I began to look at the field of disparate treatment that was given to girls playing basketball and it essentially was my entry issue into action on behalf of women in sports. And I was lucky enough to be around when Title IX of the Higher Education Act passed that gave girls a real place in sports and I'm pleased about that. But I'm particularly thrilled, even

though my team, the South Portland girl's high school basketball team, did not win the State Championship, but they did win the south championship, and they won way more games than I ever did in my entire career. And one of the things I learned playing sports and playing women's basketball is that it's okay to lose. It's not going to feel great, but it's okay to lose and you come back again. And some of you may regret that I've picked up that trait, but it's important that we learn to work together every way we can and sports is a wonderful way to do that and I am really thrilled at the success of the South Portland women's basketball team and I congratulate the team from the north who won the State Championship, but I am very proud of my team from the south, who won the South Championship, because it's an important thing. And I thank you again for your consideration of this.

The SPEAKER: The Chair recognizes the Representative from Kennebunk, Representative Babbidge.

Representative **BABBIDGE**: Thank you, Madam Speaker. I'm delighted to stand today. I've spent 43 years of my life in high school. The first four were at South Portland High School and it was a very special time. South Portland had been designated an All-America City, we had 1,725 students in the school my senior year. I've walked those halls, I spent a lot of time at Beal Gym, as these girls have. And, you know, from the 1970s, when gender equality in sports in this country became an awareness, more and more girls, of course, participated. But to win the State Championship in Maine in 2020, when thousands of girls are dedicated to the sport, is a huge accomplishment. I want these girls to also know that thousands of South Portland alumni are following them and wishing them well when they represent the school and I know that in all of the high schools I've been associated with, when somebody wins a State Championship, they're the talk of the town for a long time after, and these young women certainly deserve the accolades that they have been given. Thank you very much, Madam Speaker.

The SPEAKER: The Chair recognizes the Representative from Oxford, Representative Dillingham.

Representative **DILLINGHAM**: Thank you, Madam Chair. I also would like to congratulate the South Portland girls on their South Championship. In their State game, they played a hard game, they played with heart, and it was a wonderful match to watch.

And thanks to the good work of the Clerk's office here, with short notice we were able to get the memoriam done fast enough, and I very much appreciate that, and his family did also. I presented it Saturday at his service, at which the halls were lined with military, there were at least 75 people there. His Commanding Officer from Iraq came and spoke about what a fine young man Harold was, and I will close with that, but remembering what a fine young man he was. Thank you.

And I just really wanted to say to the committee that I appreciated their great work on this and in one of those moments that sort of buoys you of the great work we can do in this building, the bipartisan support that any of us that are lucky enough to return to this Chamber would work on a bill to make sure that we continue to further the employment rights of folks in the disabled community, and I just wanted to thank the committee for that and would appreciate them for their votes. **ENACTORS  
Emergency Measure**

An Act To Provide Critical Communications for Family Farms, Businesses and Residences by Strategic Public Investment in High-speed Internet and Broadband Infrastructure

(H.P. 136) (L.D. 173)  
(C. "A" H-698)

Was reported by the Committee on **Engrossed Bills** as truly and strictly engrossed.

The SPEAKER: The Chair recognizes the Representative from Bowdoinham, Representative Berry.

Representative **BERRY**: Thank you, Madam Speaker. Madam Speaker and Men and Women of the House, LD 173, if passed today, would be a groundbreaking move by the Legislature, at least by this body, to fund broadband for the first time with a little help from the General Fund and a little commitment going forward to do so.

This would give a signal to communities as well as private developers who are looking for some assistance to go the last mile to do so. I'm very pleased to have a unanimous report from the committee. I want to thank my counterparts on the other side of the aisle for their collaboration in this, and I think it really is a momentous day that we have agreed in a unanimous way, on our committee at least, and I hope here today, to taking this step forward. Thank you, Madam Speaker.

The same Representative **REQUESTED** a roll call on **PASSAGE TO BE ENACTED**.

More than one-fifth of the members present expressed a desire for a roll call which was ordered.

The SPEAKER: The Chair recognizes the Representative from Fort Fairfield, Representative McCrea.

Representative **McCREA**: Thank you, Madam Speaker, Ladies and Gentlemen of the House. I will be brief. This is a bill that I sponsored. A lot of people have had input on it. I don't claim to be an internet expert, but I do claim to understand how much it is needed, especially in the rural parts of our State. The EUT committee voted unanimously Ought to Pass. This seems to be their favored bill and for that I'm very grateful. Nearly everyone agrees in the State of Maine that we must expand access to high-speed internet, especially in the most rural and underserved regions of our great State.

Current state funding for Connect Maine is tied to a surcharge on landlines and, as everybody knows, landlines seem to be becoming a thing of the past. Everywhere you ask, how many people have given up their landlines, the number

decreases. Therefore, the funding source for this Connect Maine seems to be decreasing with it; obviously. As amended, this bill would be funded by 33% of the sales tax on internet sales. This is a relatively new source of income. It does not add to our tax burden, it would be dedicating a third of internet sales tax, which is kind of synergistic with internet sales and internet expansion. The source is directly tied to those internet sales and that's the very industry that this fund is intended to expand and, unlike landline usage, internet sales will certainly increase in the State of Maine in the coming years. Should this fund become unnecessary because the federal government decides to fund it or we put up 1,000 satellites to then do the job, the 131st Legislature will be certainly able to say we don't need this anymore, so, that's something we should consider.

Bluntly put, though, the longer Maine delays such a commitment, the farther behind the rest of the world we are destined to become. I thank you, Madam Speaker.

The SPEAKER: The Chair recognizes the Representative from Dover-Foxcroft, Representative Higgins.

Representative **HIGGINS**: Thank you, Madam Speaker, Ladies and Gentlemen of the House. A little history; in May of 2015, in my first session here, I sponsored a bill to provide funding for broadband and the bill passed here in the House 143 to 0, and we're still waiting to figure out how to fund that proposal. So, we've had a number of opportunities over the several years to do direct appropriations, bonds, etcetera, and we have not been able to find a revenue source or make the commitment to be able to do that with other competing interests as well. So, today, I am pleased to stand here, five years later, and support this legislation which will enable us to do what we voted in the 127th unanimously to do.

Thank you, Ladies and Gentlemen of the House. Thank you, Madam Speaker.

The SPEAKER: A roll call has been ordered. The pending question before the House is Passage to be Enacted. All those in favor will vote yes, those opposed will vote no.

This being an emergency measure, a two-thirds vote of all the members elected to the House being necessary, a total was taken.

The SPEAKER: The Chair will answer that, so, let me back up here. In order to, because we are a citizen legislature, the bar from abstention from a vote is whether it would benefit only the individual in question. Because this benefit would be applicable to teachers across the entire State, the Chair would deny the request to abstain from the vote.

HOUSE DIVIDED REPORT - Majority (10) **Ought to Pass as Amended by Committee Amendment "A" (H-717)** - Minority (2) **Ought Not to Pass** - Committee on **ENERGY**,

**UTILITIES AND TECHNOLOGY** on Bill "An Act To Require a Cable System Operator To Provide a Pro Rata Credit When Service Is Cancelled by a Subscriber"

(H.P. 1441) (L.D. 2031)  
TABLED - March 5, 2020 (Till Later Today) by Representative BERRY of Bowdoinham.

PENDING - Motion of same Representative to **ACCEPT** the Majority **OUGHT TO PASS AS AMENDED** Report.

Representative BERRY of Bowdoinham **REQUESTED** a roll call on the motion to **ACCEPT** the Majority **Ought to Pass as Amended** Report.

More than one-fifth of the members present expressed a desire for a roll call which was ordered.

The SPEAKER: The Chair recognizes the Representative from Raymond, Representative Fay.

Representative **FAY**: Thank you, Madam Speaker. I'm a florist and when I buy roses to sell, I have to buy a minimum of 25. And when a customer comes in and only wants one, I can't charge them for 25, actually, I could, but they probably would go to my competitor down the street. My constituents don't have a choice for high-speed internet or cable. They can't just go down the street.

When I hear from constituents, and I've heard from quite a few on this issue, I believe it's part of my job to try to address those concerns and I thank the EUT committee for hearing those concerns and doing their best to protect consumers from these poor business practices. Thank you, Madam Speaker.

The SPEAKER: The Chair recognizes the Representative from Camden, Representative Doudera.

Representative **DOUDERA**: Thank you, Madam Speaker. Madam Speaker, Men and Women of the House, I rise in support of this bill, which would require a cable system operator to provide a pro rata credit when service is canceled by a subscriber.

In the past, each cable company's bills were pro-rated, which meant that customers paid only for the services they used. If you canceled, you got your money back for the unused portion. But now some companies are saying that if you cancel early, tough luck, they are keeping your money, and that's patently unfair.

I work in an industry where people are often moving and they need to cancel their cable. Cable companies are telling them well, they should just cancel at the end of the month. But these people aren't always in control of when their closing on their property will take place and they can't always do it at the end of a billing cycle. And I'll tell you, for some people, this is a real hardship. It's a hardship for them to pay for something that they can't even use. Now, this is an important consumer protection bill that puts Maine cable customers first, and I urge you to follow my light and support it. Thank you.

The SPEAKER: The Chair recognizes the Representative from Kittery, Representative Rykerson.

Representative **RYKERSON**: Thank you, Madam Speaker. Madam Speaker, Women and Men of the House, it seems to be a simple consumer protection to prohibit a company from collecting from two people a service for the same service that neither of them receive. So, I support this bill. Thank you.

The SPEAKER: The Chair recognizes the Representative from Ellsworth, Representative Grohoski.

Representative **GROHOSKI**: Thank you, Madam Speaker. And thank you, Ladies and Gentlemen of the House, for considering this bill, LD 2031, "An Act To Require a Cable System Operator To Provide a Pro Rata Credit When Service Is Cancelled by a Subscriber."

Last summer, I was contacted by a constituent looking for help for his parents who had to move abruptly for health reasons. They are in their 80s and have lived in Lincoln for 59 years. Dealing with a broken hip hospitalization, ongoing dialysis, arthritis, infusions, and more issues than that, caused them to move to Brewer to be closer to their children and to medical care. Needless to say, they were overwhelmed when they received a \$525 bill for ending their cable service. Fortunately, my constituent was able to get a \$325 credit when he returned the equipment to Spectrum. However, they still owed the remaining \$200 for a full month of service for which they had used only four days.

Although billing this family the full \$200 was completely legal, it didn't seem like good customer service, so, I advocated on their behalf. It took almost three months of effort by the Public Advocate, the Charter Spectrum lobbyist, and myself to convince Spectrum to issue a refund. My constituent summarized the whole experience as follows: I found the way Spectrum treated my folks to be appalling. They did the right thing in the end by deciding to not make my parents pay for a full month, but it took months for them to do so. If not for the efforts of Rep. Grohoski, Public Advocate Barry Hobbins, and Melinda Kinney from Charter Communications, who was very helpful throughout the process and apparently talked some commonsense into her employer, I have no doubt we would still be fighting about that bill. I said early on the process that just because Spectrum could do something, doesn't make it right. To refuse to even consider a refund to my parents without pressure being put on them suggests to me that Spectrum is predatory, greedy and doesn't care a lick about their customers. If they went out of business tomorrow, it wouldn't be soon enough for me. That was what my constituent had to say.

In committee, we heard from others who were affected by this Spectrum policy change. One gentleman had to pay for an extra month of service beyond when he requested termination, I guess because it took until the next billing cycle for Spectrum to finally disconnect his service. Another person told us that whenever one person leaves an address and another moves in and starts a new service contract, Spectrum bills both people for the same service to the same location at the same time. But it gets worse. Like for a man who moved out of his apartment building when the roof collapsed, who couldn't get a partial refund.

I support this bill because it is about protecting Maine consumers against unscrupulous behavior by some members of the cable industry. Most of us in Maine only have one option for cable, TV, and internet service, so we cannot simply take our business elsewhere when we've been mistreated. Charter executives explained that they changed their policy to be more competitive with the Netflixes and Amazons of the world, which make customers pay for a full month of service. I hope you'll join me in considering how ridiculous that comparison is; Netflix is \$8-12 per month and can travel with you wherever you go. That's a far cry from \$200 per month plus \$325 of rented equipment to deal with, plus non-transferability when you move outside the company's service area. Perhaps good customer service and more affordable packages would be a better way to compete in this world. Thank you.

The SPEAKER: A roll call has been ordered. The pending question before the House is Acceptance of the Majority Ought to Pass as Amended Report. All those in favor will vote yes, those opposed will vote no.
