1888.

TWENTIETH ANNUAL REPORT
OF THE
Insurance Commissioner.

PART FIRST.
FIRE AND MARINE INSURANCE.

To the Honorable Governor and Council:

The Insurance Commissioner presents Part First of the Twentieth Annual Report of the Insurance Department of the State of Maine, in compliance with law.

MAINE INSURANCE COMPANIES.

The Maine stock companies received in premiums in 1886, for Marine and Inland Insurance, \$271,279.20, and paid in losses, \$205,685.75, leaving a balance of \$65,593.45. The ratio of losses paid to premiums received was 86.14 per cent in 1885, \$72.66 in 1886 and 75.82 in 1887. These companies are the Merchants' Marine and the Union of Bangor, and the Ocean of Portland. They were each examined by the Commissioner in February of 1888, and their annual returns for the year 1887 were verified.

Marine Insurance business has not been profitable as a rule in New England for the year past. The Merchants' and Union of this State did a very fair year's work. The Ocean

had an exceptionally hard year, its ratio of losses paid to premiums received being 101.58 per cent. Early in the year certain of its stockholders applied to the Insurance Commissioner for an appraisal of the real estate owned by the company and carried on the books among its assets at \$75,000. The commissioner caused the property to be carefully examined by Hon. Franklin J. Rollins of Portland, who placed a valuation thereon of \$49,819, making the reduction from the former valuation \$25,181. This valuation of real estate was adopted by the directors, and appears in the return of the company and in its published statement for the current year in this volume. This large reduction in the valuation of real estate with a slight shrinkage in the market value of securities and the exceedingly heavy losses of the year, caused an impairment of its capital, bringing it below the legal standard.

In view of this, the directors called a stockholders' meeting, and the capital stock was reduced twenty per cent, as provided by law, making the capital \$112,000, instead of \$140,000, as heretofore. This brings the impairment of the capital within the statute limit, and the company continues in business, confident that with the assets reduced to a cash basis, being under careful management, the company will continue to maintain its high standing in the State.

Twenty-eight mutual fire insurance companies of Maine made returns for the year ending December 31, 1887. These companies received in premiums and assessments \$46,891.37, and paid for losses \$27,841.07, during the year.

One company, the York County Patrons', is closing up its business. The policies issued by the company, excepting those held by the directors, have been cancelled, assessments sufficient to pay the adjusted losses have been made, and as soon as these collections are made and the losses paid, the company will cease to exist.

The Greene and Leeds Mutual Fire Insurance Company was incorporated by special act of the legislature approved

March 10, 1887, but has failed to make any return to this office.

One company, the Dresden Mutual Fire, was organized in February of the present year, for the insurance of property in the town of Dresden, and has commenced business.

These companies make annual statements upon blanks furnished by the Insurance Commissioner. The tabulation of these statements and the publication of this tabulation in the annual report, with the licensing of such agents as they employ, is the extent of the supervision by law required of the Commissioner over these companies, and he cannot really give an adequate idea of their condition or standing. I believe, however, they are conducted honestly, by men who stand high in the communities where they operate, and serve a good purpose in the economy of insurance in the State. It will be seen by table No. 8, that the transactions of some are exceedingly limited, while others do a fair amount of business.

FOREIGN COMPANIES.

The year 1886 was an exceptionally unfortunate year for fire companies in Maine. The two great fires, Eastport and Farmington, were the great cause of this bad showing. The ratio of losses paid to premiums received was 102. The year 1887 was a very favorable year for fire underwriters in Maine, the ratio of losses paid to premiums received being but 51.83 per cent, the lowest rate recorded in this State since 1875. The ratio of marine losses was not so favorable, being 76.39 per cent in 1887, against 72.66 in 1886.

Nearly all of our cities, and many of our larger villages, are now supplied with approved systems of water works, with hydrants for fire purposes, and the number will be increased each year. No considerable village can afford to do without the very best water supply obtainable, and our municipalities are fast becoming convinced that this is the fact. It is for the interest of all property owners and of all lines of legiti-

mate business in the State that every means be used to keep the fire losses down to the lowest possible figure, and thus make the State a desirable field for insurance. The legitimate effect of this will be more favorable rates, and at the same time greater security to property.

At the close of the year 1887, there were eighty-four fire, fire-marine and marine insurance companies of other states and countries authorized to transact business in Maine, of which eighty-one were stock and three mutual companies. Three companies, the American Fire of New Jersey, the Liberty Fire of New York, and the Traders and Mechanics' Mutual Fire of Massachusetts, entered the State during the year, and one, the Washington Fire and Marine of Massachusetts, went out of business by re-insuring its risks. The Sterling Fire of New York, did not make application for renewal of license July 1st, 1887.

COMPANIES AUTHORIZED.

The following tables show the fire, fire-marine and marine insurance companies authorized to do business in Maine at date of this report.

SPECIAL BROKERS.

Under the law of 1887, providing for the appointment of special brokers for the placing of surplus lines of insurance in unlicensed companies, four licenses were issued prior to December 31st, to the following named agents: Charles C. Burrill, Ellsworth; Griffin & Wentworth, Skowhegan; William Allen, Jr., Portland; and Milliken & Campbell, Cherryfield. Since that date one other, George W. Fiske, Ellsworth, has been licensed.

For the fraction of the year 1887, between the dates of the authorization of these brokers and December 31st, an average of eight months, the aggregate of risks written by these brokers was \$87,183.32, and the premiums received thereon \$2,436.99; less than one-tenth of one per cent of the fire risks written in the State for the year by licensed companies.

This cannot be said to have affected the business of licensed companies, but it is hoped it has had a tendency to reduce the amount of underground insurance transacted in the State during the year. One year is not sufficient time by which to judge of the workings of any law, especially a new law relating to insurance.

It has been somewhat difficult to find companies that have \$200,000 capital and can enter this and other states by paying the license fee and taxes on net premiums, that are anxious to do this kind of underwriting, while there may be good sound companies with a capital of \$100,000 or \$150,000 to whom the business is desirable. Companies with the smaller capital, that will do this line of business, can be found in New England and the Middle States, while the \$200,000 capital companies that will do it, are found largely in Southern and Western States, in some of which the conditions for sound companies do not appear to be so good. An amendment of our law to this end would admit of these risks being placed in companies nearer home than now, and be a move in the direction of greater security to the owners

of the property. This business should also be restricted to companies that have an established rating in the reports of the insurance departments of their respective states.

I would further suggest that the law be amended so that these surplus lines may be placed with Mutual Companies of other states having net cash assets amounting to \$100,000; and that the tax on premiums be placed at one per cent gross instead of two. This would be fully equivalent to the tax of two per cent net now paid by licensed companies. There is no justice in the business refused by these companies, being required to pay double the tax that first class insurance business is required to pay.

UNAUTHORIZED FIRE INSURANCE.

It is the opinion of many who are well situated to know, that the past year has been remarkably free from underground fire insurance, or from underwriting in the State by unauthorized companies. The information received at this office bears out this claim, with the exception of the business done by the companies known as the "Mill Mutuals." These companies are unauthorized by Maine statutes, take out no licenses, employ no licensed agents and pay no tax. Their business, with the exception of the work of their inspectors, is done at the home offices outside of this State; the blanks for application being forwarded from these offices, and the policies written there and forwarded by mail to the insured.

As a matter of justice and fair dealing to companies that comply with the laws of the State, and contribute to its revenues by the payment of an annual tax on premiums received in the State, the business transacted by "Mill Mutuals" should be required to bear its proportion of the public burdens if it can be made to do so legally. These corporations have the benefit of our laws and the protection of our courts, and ought in equity to be required to help pay for these benefits.

If the State cannot oblige these companies to take out licenses because the business is not done on its territory, it certainly has authority to enact a law requiring the inspectors employed by them to inspect property in the State, to take out licenses, and it must be competent for the State to provide for the taxation of this business, as well as any other line of insurance or any other class of business.

This matter is certainly worthy the attention of the legislative branch of our government, and I trust it will receive it.

BUSINESS OF 1887.

Table No. 1 shows the capital, surplus or impairment of capital, on the 31st day of December, 1886, the difference between the income and expenditures, with ratio of expenditures to income, and of losses paid to premiums received, for the year ending December 31, 1887, of fire, fire-marine and marine insurance companies transacting business in this State.

Table No. 2 shows the nature of the assets on the 31st day of December, 1887, of fire, fire-marine and marine insurance companies transacting business in this State.

Table No. 3 shows the nature of the liabilities on the 31st day of December, 1887, of fire, fire-marine and marine insurance companies transacting business in this State.

Table No. 4 shows the nature of the income during the year ending December 31, 1887, of fire, fire-marine and marine insurance companies transacting business in this State.

Table No. 5 shows the nature of the expenditures during the year ending December 31, 1887, of fire, fire-marine and marine insurance companies transacting business in this State.

Table No. 6 shows the risks in force, risks written, and premiums received thereon, and losses paid, of fire, fire-marine and marine insurance companies transacting business in this State, for the year ending December 31, 1887.

Table No. 7 shows the business transacted in Maine during the year ending December 31, 1887, by fire, fire-marine and

marine insurance companies. This table also shows the amount of tax on premium receipts paid by the several companies.

Table No. 8 shows the assets, risks in force, risks written, premiums received and losses paid during the year, of Maine mutual fire and fire-marine insurance companies.

Table No. 9 shows business transacted by special brokers, with amount of tax paid by each.

Annexed to this report, and forming a part of it, will be found abstracts of the several annual statements made to this department in accordance with law, showing the condition of the several companies on the 31st of December, 1887.

After the abstracts may be found the names of the licensed agents and brokers authorized to do business in this State.

Respectfully submitted.

JOSEPH O. SMITH,

Insurance Commissioner.

SKOWHEGAN, March 10, 1888.

LICENSED BROKERS AND AGENTS.

LICENSED BROKERS AND LICENSED AGENTS OF FIRE, FIRE-MARINE
AND MARINE INSURANCE COMPANIES AUTHORIZED TO
TRANSACT BUSINESS IN THE STATE OF MAINE.

SECTIONS 73 AND 74, CHAPTER 47, REVISED STATUTES OF MAINE.

'Section 73. No person shall act as agent of an insurance company until there has been filed with the commissioner a duplicate power of attorney from the company, or its authorized agent, empowering him to act, or a certificaté from the company setting forth that such person has been duly appointed and authorized as agent thereof. Upon filing such power or certificate the commissioner shall issue a license to him, if the company is a domestic company or has received a license to do an insurance business in this state; and such license shall continue until the first day of the next July, and may be renewed from year to year on producing a certificate from the company that his agency is continued. For each such license or renewal, the commissioner shall receive one dollar. And if any person solicits, receives, or forwards any risk or application for insurance to any company, without first receiving such license, or fraudulently assumes to be an agent, and thus procures risks and receives money for premiums, he shall be punished by a fine not exceeding fifty dollars or imprisonment not exceeding sixty days for each offence, but any policy issued on such application binds the company if otherwise valid. Agents of duly authorized insurance companies may place risks with agents of other duly authorized companies when necessary for the adequate insurance of property.

'Section 74. Any person may be licensed by the commissioner as a broker to negotiate contracts of insurance, and to effect insurance for others than himself for a compensation, and by virtue of such license he may place risks or effect insurance with any company of this state, or with the agents of any foreign company who have been licensed to do business in this state, but with no other. For such license he shall pay five dollars authorizing him thus to act until the first day of the next July; and on the payment of a similar fee, his license may be renewed from year to year, ending on the first day of each July. Whoever, without such license, assumes to act as such broker, shall be punished by a fine not exceeding fifty dollars, or by imprisonment not more than sixty days for each offense, and licenses of insurance agents and brokers may be revoked by the commissioner upon conviction for the violation of any of the provisions of this and the preceding section.'
