STATE OF MAINE.

THIRTY-FOURTH ANNUAL REPORT

OF THE

INSURANCE COMMISSIONER.

AUGUSTA, February 14, 1902.

To the Honorable Governor and Council:

In compliance with the Statutes, I submit the Thirty-fourth Annual Report of this Department.

FIRE INSURANCE IN MAINE.

The risks written by fire insurance companies of other states and countries on Maine property and reported to this department for the year ending December 31st last amounted to \$138,884,002.19 and is \$5,694,995.70 in excess of the amount written during the year 1900 and the largest volume of business ever transacted in this State by that class of corporations. The premiums on these risks aggregated \$1,846,342.64, an increase of 73,641.02 over those collected during the previous year.

I exceedingly regret to be obliged to chronicle the fact that during the year just closed these corporations paid to the property owners of this State more for losses than they had ever been required to pay in a single year, such payments amounting to \$1,309,728.50 or 70.94% of the premiums received. This is the highest ratio since 1886, when on account of the conflagrations at Farmington and Eastport, the companies paid \$102 for every \$100 received.

The abnormal loss ratio last year was occasioned by conflagrations at Lisbon Falls and Oldtown and by a single fire in the city of Portland, which alone resulted in a property loss of more than \$280,000.

The loss ratio during 1901 was largely in excess of that of the previous year and represents a heavy loss to the fire insurance companies, as it is generally conceded that about 40% of the premiums are used in the payment of commissions and expenses incident to the business. But the State of Maine has not been the only unprofitable field, as it is apparent

from returns received that a very large majority of the companies sustained a loss on their entire underwriting account and the income from their invested assets has been their only source of profit.

During the year nineteen companies withdrew from the State. The capital stock of these companies amounted to \$4,500,000 and this loss will be severely felt by our citizens who are to-day unable to procure sufficient insurance in authorized companies.

The Maine business of the various fire insurance companies reporting to this department for the year ending December 31, 1901, may be summarized as follows:

RISKS WRITTEN.

Companies of other states and countries.....	\$138,884,002	19
Maine mutual companies.....	5,647,045	00
Special brokers	110,475	00
	<hr/>	
Total	\$144,641,522	19

PREMIUMS RECEIVED.

Companies of other states and countries.....	\$1,846,342	64
Maine mutual companies.....	*56,951	77
Special brokers	2,493	09
	<hr/>	
Total	\$1,905,787	50

LOSSES PAID.

Companies of other states and countries.....	\$1,309,728	50
Maine mutual companies.....	54,058	50
	<hr/>	
Total	\$1,363,787	00

The property loss from fire last year reached the enormous sum of \$2,170,024, an increase of \$283,424 over the previous year. The insurance loss on the same was only \$1,356,723.64, leaving a direct loss to the property owners of more than \$800,000. Any plan whereby the destruction of this vast amount of property can be checked or decreased is worthy of consideration.

The percentage of fires of "unknown" and "incendiary" origin for the several years since the enactment of the law for the investigation of fires has been as follows:

	Incendiary.	Unknown.
1895 (May 26 to December 31).....	8.64%	32.54%
1896	8.46%	31.59%
1897	4.81%	27.04%
1898	3.54%	20.58%
1899	2.76%	20.47%
1900	1.85%	19.37%
1901	1.51%	21.06%

* Includes assessments on premium notes.

The total number of fires reported for the year ending December 31st last was 1,657, of which 25 were of incendiary origin, against 35 for the year previous. The slight increase in the percentage of unknown fires may be attributed to the fact that all fires for which a definite cause cannot be assigned are classified as "unknown."

Defective chimneys and flues were responsible for 279 fires, exposing property to the value of \$584,972, damaging the same to the amount of \$225,328. These figures show a decrease during the past year and great credit is due the inspectors of buildings in several of the cities and towns for their faithful and efficient services.

In my last report I recommended that the law relating to the inspection of buildings and accumulation of combustible material be amended to apply to all municipalities of one thousand inhabitants and that a penalty be provided which would compel all cities and towns, to which the law applied, to require the Inspector of Buildings to perform the duties imposed by this statute. In view of the fact that the present law provides no penalty for failure to comply with the provisions thereof and that no one is charged with the enforcement of the same it has become a dead letter in many of the municipalities to which it was intended to apply.

I think it will be generally conceded that many of the fires now charged to defective chimneys and flues are really the fault of "defective construction" and that a large percentage of the fires which have originated from this cause during the past few years might have been avoided.

This statute was designed to provide against defective construction in new buildings and by frequent inspections to remedy inflammable conditions in those already constructed and to prevent the accumulation of combustible material near furnaces and heating apparatus and at other points where it was liable to endanger the property and no doubt would accomplish its purpose if it was enforced and I, therefore, again earnestly recommend such amendment of this statute as will put it in practical working effect, believing that it will reduce the losses in Maine, and eventually the premiums.

The tabulations relating to record of fires in Maine during 1901 are published herewith as compiled from the returns received at this office during the past year. Complete reports relating to the insurance paid in many cases is not obtainable in time for publication in the reports of this department.

MARINE INSURANCE.

The marine insurance written in Maine during 1901 by the companies reporting to this department was \$36,806,312.39, being an increase of \$6,398,884.39. The premiums on these risks amounted to \$397,555.61, an increase of \$51,412.73. The losses paid by this class of companies during the same period was \$201,629.09, an increase of \$2,168.15 over the payments of the previous year. The losses incurred were \$203,708.38, an increase of \$11,033.04.

LIFE INSURANCE.

The "Old line" or "Level premium" companies transacting business in Maine have had an exceptionally prosperous year, emphasizing again the confidence reposed in these institutions by our citizens and the benefits to be derived from such patronage cannot be over estimated. During the year 1901 these companies issued upon the lives of our citizens policies aggregating \$15,543,428.97, an increase of \$1,716,193.34.

December 31st last this class of companies had in force in Maine, insurance aggregating \$76,462,857.47, an increase of \$6,929,226.94 during the year. The premiums received on this insurance amounted to \$2,704,607.42, representing an increase of more than one-quarter of a million dollars over the premiums of the previous year. The losses and claims paid in Maine during 1901 by these companies were \$1,058,546.94.

MISCELLANEOUS COMPANIES.

The risks written by the miscellaneous companies, representing personal accident, employers liability, steam boiler, fidelity and surety, plate glass, health, etc., a separation of which will be found in the following tables, aggregate \$50,793,013.22, a very large increase over the business of the preceeding year. The premiums on these risks were \$253,692.39; the losses paid were \$86,764.99 and those incurred amounted to \$89,871.17.

ASSESSMENT INSURANCE.

During the past year there has been only one life insurance company transacting business in this State on the assessment plan, viz: The Mutual Reserve Fund Life Association of New York. The law relating to these companies was repealed by the last legislature and took effect January 1st of the present year. There are only three accident companies of this class now operating in the State, one domestic and two foreign.
