MAINE STATE PRISON.

INSPECTORS' OFFICE,
THOMASTON, ME., December 1, 1901.

To the Honorable Governor and Council:

In accordance with the provisions of the Revised Statutes we have the honor to submit herewith our report upon the condition of the Maine State Prison and the several county jails for the year ending November 30, 1901.

At the beginning of the prison year, December 1, 1900, there were confined therein one hundred seventy-one (171) convicts. During the year eighty-three (83) have been admitted, fifty-four (54) have been discharged by reason of expiration of sentence, six (6) pardoned by the Governor and Council, and two (2) have died. Number in confinement at the present time, one hundred ninety-two (192). Average for the year, one hundred eighty-three (183). This number does not include the insane of which there have been twenty-three (23).

The prison has at all times been in a cleanly condition and good discipline has been maintained. There have been no complaints of the food made to the inspectors, and our observation has shown that ample quantity and good quality has been served.

The prison physician, Dr. A. R. Smith, will report on the physical condition of the convicts, and Chaplain Plummer will inform you as to their spiritual and educational condition.

More than the average amount of products have been turned out and sold from the manufacturing departments. The gain on carriages and harness has been quite satisfactory. The broom department shows a decided loss, owing in part to fluctuations in the price of broom corn. Quite a quantity of the latter has been purchased during the autumn months at prices lower than the present quotations and we hope to make a more favorable report on this department next year.

Owing to insufficient sewerage, the sanitary arrangements at some of the workshops, has been growing from bad to worse until it seemed wise as a preventive of epidemics, to have the nuisance remedied. It being impossible to enter the town sewer on account of the grade, a competent civil engineer was employed (P. H. Coombs of Bangor), who, after a survey, advised as the most feasible and the cheapest way was to start with a ten inch pipe at a point near the southerly corner of the main building used for the wood, paint and broom shops, and from thence running across the quarry pond, through the wall and into the Georges river; something more than seven hundred (700) feet. Plans and specifications presented by the engineer were adopted and proposals for bids advertised in papers throughout the State. Bids were received from six contracting firms. Sawyer's of Bangor being the lowest, received the contract. The work is progressing well and will probably be completed before January 1, 1902. There being no funds available for the prosecution of the work, it was deemed by the inspectors to be for the best interest of the State to procure it at a low rate of interest, trusting that the next Legislature would make provision for this obligation.

In most of our visits to the prison we have been accompanied by Hon. W. T. Haines, visiting member from the Executive Council, whose counsel and advice has been of exceeding value.

To the warden, his deputy, Chaplain Plummer, Dr. Smith, and all subordinate officers, we feel grateful for the courteous treatment always manifested.

WHITMAN SAWYER,

W. L. SCRIBNER,

A. W. GILLMAN,

Inspectors of Prison and Jails.

WARDEN'S REPORT.

THOMASTON, December 1, 1901.

To the Honorable Governor and Council:

GENTLEMEN: Herewith I have the honor to submit my annual report for the fiscal year ending November 30, 1901.

For the past year the conduct of the prisoners serving sentence at the Maine State Prison has been good, and with few exceptions, the health of the men has been excellent, nothing in fact has taken place to mar the thorough discipline which exists at the Prison; brutal force and profanity are strictly forbidden, firmness tempered with kindness is the rule for the government of the whole Prison family. C. S. Porter the Prison commissary devotes his whole time to the welfare of the convicts, seeing that they have wholesome, clean food, well-cooked and seasoned, their beds kept clean and free from vermin. The last legislature appropriated money enough to put the Prison on a sound financial basis, so that we have been able to purchase all material for the Prison for cash, thereby saving a liberal discount which has amounted for the past eight months to \$678.19.

During the past year fifty-three convicts have been discharged, six pardoned and two have died; eighty-three have been sentenced to the Prison during the past year, making the average Prison population one hundred and eighty-two, to one hundred and eighty-three for the year 1900. The harness and carriage departments have made a good showing, the broom department shows a loss, caused by having a large amount of broom corn on hand unmanufactured. I am under obligations to Hon. Wm. T. Haines of the Prison committee from the Governor's Council, the Prison Inspectors and the subordinate officers of the Prison for their confidence and support.

HILLMAN SMITH.

CHAPLAIN'S REPORT.

To the Honorable Governor and Council:

GENTLEMEN: Another year has passed and again it is my duty and pleasure to report my work.

The courts have sent eighty-three persons to the Prison within the year, nine of whom could neither read nor write, three could read a little but could not write, forty had attended the public schools some two or three terms and others a few years, fifteen had completed the grammar school course of study, ten the high school course, and six had enjoyed academical and collegiate advantages.

Seventy-three used tobacco in one or both forms of its use, and ten had never used it. Forty-one were either occasional, moderate, or inveterate users of intoxicating drinks, the others, forty-two in number, replied to the question respecting the drink habit that they were teetotalers.

PERIODICALS.

The men are allowed the use of the weekly newspapers, some subscribing for them and others receiving them through the kindness of their friends. I have furnished weekly each man who can read a copy of some religious paper or the Youth's Companion, these papers being donated by the friends of our work.

We continue the weekly distribution of magazines, furnishing to each man one late and one old magazine bound together. These old numbers are given by friends. These are passed from cell to cell so that each number is read by from fifty to seventy men. In this manner I have distributed many papers and magazines a half century old.

LIBRARY.

There are two thousand and sixty-two books and bound magazines in the library. It includes reading of nearly every class and thus provides that which is interesting and instructive to each class of readers. Many of the best books have been in constant use a long time and should be replaced with new volumes.

INSTRUCTION.

The work of instruction has received careful attention as heretofore. The progress of the students has been commendable in most instances. The primary studies receive first attention, and the more advanced students are helped as their needs and the time at the disposal of the chaplain demand.

CORRESPONDENCE.

The weekly letters exchange between a large number of the men and their family friends are an important factor in the cultivation and strengthening of home ties, and the development of a purpose to devote the coming years of freedom to the comfort of their friends, which ties and purposes are an inspiration to a noble and pure life.

RELIGIOUS INSTRUCTION.

This work is not neglected. It is not confined to the Sabbath services. It is not forgotten when attention is given to other duties. All other service is considered preparatory and helpful to this the most important. While much of this instruction is seed sowing for a later harvest, messages from some who have been discharged and from their pastors and Christian friends encourages us with the thought that some lives have been redeemed to virtue and piety.

With sincere thanks to your honorable body, the officers of the Prison and to all who have assisted me in my work, I submit this report.

C. A. PLUMER, *Chaplain.*

November 30, 1901.

REPORT OF PHYSICIAN.

November 30, 1901.

To the Honorable Board of Prison Inspectors:

GENTLEMEN: I herewith submit to you my fifth annual report for the fiscal year ending November 30, 1901. There have occurred but two deaths during the year, while the general health of all prisoners have been exceptionally good. There were a number of major surgical operations performed with perfect recovery in each case.

George Knight died December 9, 1900, aged 89 years, of old age. He had been a prisoner 44 years and in good health up to within a month of his death.

Nearly a year elapsed before another death occurred when William J. Boobar died of consumption November 25, 1901. The sanitary conditions are being very much improved by the connections of all the workshops with the sewer. Permit me to thank you, gentlemen, and the officers of the Prison who have assisted me in my work.

ADDISON R. SMITH, M. D.,
Prison Physician.

REPORT OF THE COUNCIL COMMITTEE ON
STATE PRISON.

WATERVILLE, ME., December 24, 1901.

To the Governor and Council:

I have visited the State Prison during the past year, monthly, in company with the inspectors, with whom I have advised concerning the conduct and administration of the affairs of the Prison. I have found the warden and his assistants always courteous and obliging; ready at all times to furnish any information required.

The financial standing of the Prison is shown by the report of the warden and inspectors. The appropriations made by the last legislature provided for paying off a large part of the indebtedness of the Prison which had been in accumulation for a number of years past.

The sanitary condition of the Prison has been and is to be much improved by draining the pit in the Prison yard known as "the old lime quarry." This has been for years an open pool of stagnant water into which much sewage necessarily escaped. Upon the first visit I made to the Prison I tried to find out why this had been allowed to remain in this condition for so many years; and the only answer any one could make was that the management had never had the funds with which to drain it. I also found that only a part of the Prison buildings were provided with any drainage, or provision for sewerage; and that no sewers whatever were in a part of the buildings. Upon a further and more careful investigation it seemed to me that this condition of things had remained long enough, and I earnestly advised the inspectors and the warden to proceed at once to have plans and specifications made for the draining of this open cesspool, and to provide for further drainage of the Prison building.

And in accordance with this idea the inspectors and warden have now completed the establishment of a ten inch drain which will take the water from the "old lime quarry" and will furnish further and complete drainage for all the Prison buildings.

The contract which has been made for the laying of the pipe which drains this pit, also provides in part for filling the pit, the completion of which can be accomplished from time to time—largely by Prison labor—from stone which can be excavated from the high walls surrounding the pit, and from debris from the Prison workshops; and in a few years, at small cost, what is a very unsightly, and in my judgment unhealthy and dangerous pool of stagnant water, can be made a beautiful lawn or garden inside of the Prison walls, and which will greatly add to the comfort and respectability of the Prison surroundings. In order to do this work the warden has had to contract a small indebtedness which I have no doubt the next legislature, when it understands the circumstances that called for it, will heartily approve of and provide for.

The work, which is done by the prisoners in the various shops at the Prison, I have watched with some interest. I fully appreciate that this work is not carried on, primarily, for profit, but it seems to me that all of these shops, under good management, should pay some profit. The carriage and harness shops during the past year, as shown by the financial report of the warden, have both proved to be profitable to the State, whereas, the broom department seems to have made a loss, as has also the furniture department, although the latter has been very small. Heretofore, I understand, the manufacture of brooms has been profitable, and I am unable to understand why the loss of \$2,818.23 in that department should have been sustained during the last year. In fact it seems to me that the manufacture of carriages, harnesses and brooms at the Prison ought to pay for the subsistence and clothing of the prisoners, that is, for the provisions which are eaten by the prisoners and the clothing they wear, which amounted in the last year to \$6,904.37 for food and \$1,657.19 for clothing, a total of \$8,561.56.

It costs between nine and ten cents a day for food per prisoner, and yet the provisions are ample and wholesome, and the clothing item is very small per prisoner, and it does seem to me that

these prisoners should earn, to use an old expression, "their board and clothes."

It is due to the present management, however, to say that many of the prisoners are short termed men, hence there is a large crew in each shop all of the time who are learning a trade; and the net value of their services cannot be compared with that of skilled mechanics. But on the other hand all of the labor which goes into the making of carriages, harnesses or brooms, except that of the overseers, costs nothing, and for that reason, I say, these departments should show some reasonable profit as an offset to this Prison labor.

The reports of the several departments, which are published as a part of the warden's report, show a detailed statement of the financial condition of each. The financial report of the warden also shows the assets of the Prison property, in which is included as due from the insane department, \$6,636.16. I have advised the warden before publishing his report to deduct this item from the amount of assets of Prison property, because it is a mere matter of book-keeping. There is, in fact, nothing due to the Prison from the insane department. This item came about in this way: Commencing in 1893, since the time of the fitting up at the Prison of a department for the insane, it has been the custom of the warden to charge to the insane department for board of the insane prisoners and for the salaries of the supervisor and night attendant, \$4 per week per person, and to send bills accordingly once a quarter to the Governor and Council. The Governor and Council instead of honoring these bills as presented have drawn warrants at the rate of \$3 per week, leaving a balance due the Prison on this account of \$1 per week. The warrant should have settled the account in each case.

On the contrary the warden has kept his account showing the balance thereof still due the Prison, which, increasing quarter by quarter, now amounts to the sum above stated. Soon after my first visit to the Prison I instructed the warden to make his bills in the future at the rate of \$3 per week per insane prisoner so as to stop increasing this account upon his books, which was done. And the Governor and Council have each quarter drawn the warrant for that amount. Before I recommended this change there had been an increase in this bill of \$79.28 over the amount shown by the last warden's report which was then

\$6,556.88 and it now is \$6,636.16. A detailed statement of the warden's report will show the manner in which this has been treated.

The discipline at the Prison seems good, and the food is wholesome and sufficient, and the welfare of the convicts is properly provided for in each case.

Respectfully submitted,

WILLIAM T. HAINES,
Committee of the Council to Visit State Prison.

REPORT OF THE COMMISSION RELATING TO THE CRIMINAL INSANE.

*To His Excellency, the Governor, and the Executive Council of
the State of Maine:*

Since the enactment of the law of 1893 whereby a department was created for the criminal insane at the Maine State Prison the Maine Insane Hospital has been relieved of the embarrassment involved in caring for this dangerous element and all such persons were forthwith removed there for care and treatment. Additional to this, the convicts of the State Prison and county jails who are adjudged insane by a commission of physicians, appointed by the Governor and Council, are removed to this department, hence, the jails as well as the hospitals have been fortunate in being relieved of this incompatibility of association and embarrassment of administration.

The statutory requirements devolving upon the commission appointed to provide for the proper care and treatment of this class have been scrupulously carried into execution. A majority of the commission have made monthly investigations into the condition of its inmates and have examined carefully into the physical and mental wants of the patients in the direction of proper ventilation, heat and general hygienic and dietetic necessities. The prison physician and warden, during the interim of the stated monthly visitations, have been prompt in attending to the daily requirements of the department.

It is a source of gratification to the commission to find that it has been able to retain the services of Mr. Moody, the supervisor. He was selected because of his previous experience in this special line of work which antedated the creation of this department and because of his natural aptitude for this particular vocation. With the exception of very short intervals for rest he has been at

his post in the immediate supervision of the inmates by day. It is incumbent upon the general night-watch of the Prison to attend to the wants of this department during the night, so that every person is under constant observation and supervision.

A few years since, the dietary for the department was carefully investigated and the bill of fare was printed in a former report. Its suitability to the physical wants of the patients is demonstrated when it is taken into consideration that no deaths have occurred during the past two years and when there has been observed, with a very few exceptions, entire freedom from critical illness. Unusual physical vigor has prevailed throughout the year when we regard the fact that we are dealing with diseased nervous states and conditions which often play such havoc upon the various physical organs, particularly the digestive tract and the heart and its appendages, which supplies and maintains nutrition.

The proper physical exercise of the inmates which is so essential for the bodily and mental welfare and which confers to the individual the maximum amount of comfort has been well looked after. The daily record of the department shows that nine out of the thirty inmates have labored almost constantly throughout the year in the shops and in the garden and that the remainder have been afforded the privilege of daily exercise in the Prison yard whenever suitable weather permitted and extending throughout the larger portion of the day.

The intellectual and spiritual wants are well considered by the chaplain and to such inmates as are appreciative the benefits of the religious services of the Prison are extended. They also, through the same channel, enjoy the opportunity of access to the institution's library.

The report to the commission of any insubordination is exceedingly rare and no accidents of any importance have occurred. No complaints have been made by the inmates of lack of proper food or inattention of supervision. Your commission is able to assure the solicitude of relatives that the utmost kindness and deference is extended towards the unfortunate members of their families and that as much liberty is afforded as is consistent with the conditions that necessitate, for a longer or shorter period, such environments.

We append in a tabular form the numerical status of the department during the past year.

Number remaining November 30, 1900.....	23

Respectfully submitted,

BIGELOW T. SANBORN, M. D.,

ADDISON R. SMITH, M. D.,

HILLMAN SMITH, *Warden,*

Commission Relating to Criminal Insane.

Maine State Prison, Thomaston, Me., November 30, 1901.

JAILS.

Androscoggin County—The jail at Auburn has been found at all times in good condition. The sanitary arrangements have been well looked after, cells and bedding kept in a cleanly condition, the prisoners well fed, and discipline properly maintained. The labor at this jail is leased to John Horne for the manufacture of heel stock.

Aroostook County—The jail at Houlton is of modern construction with steel cells and good sanitary appointments. It has been properly cared for during the year.

Cumberland County—The jail at Portland under new management has maintained the standard of excellence reported from year to year. The average number of prisoners during the year has been about one hundred thirty (130). The labor at this jail is leased to John Horne, who manufactures heel stock.

Franklin County—The jail at Farmington is one of the smallest in the State, but large enough for the needs of the county. The institution is well kept under the management of Jailer Fowler.

Hancock County—The jail at Ellsworth has always been found in a good, cleanly condition.

Kennebec County—The jail at Augusta has been well managed, as has been the case during Sheriff McFadden's administration. We are of the opinion that it would be better for the prisoners and of pecuniary benefit to the county to establish a workshop, so that the fifty or more prisoners usually confined here might have something to keep mind and body employed.

Knox County—The jail at Rockland has been ably managed by Deputy Thomas. Many tough customers are brought to this institution, but find a master in the jailer.

Lincoln County—The jail at Wiscasset is an old time affair, having been built in 1808. It is poorly lighted, illy ventilated,

and the sanitary arrangements of the crudest kind. Unless these matters are speedily remedied, law breakers should be sentenced to jails in other counties.

Oxford County—The jail at South Paris under the care of Sheriff Tucker has been found a model of neatness and good order.

Penobscot County—The jail at Bangor is always found in fine condition under the able management of Sheriff Brown. More attention is paid to the cleanliness of cells and bedding at this institution, than any other in the State. Perfect discipline is maintained. Heel stock and brooms are manufactured by the prisoners whose labor is leased to Nutter and Baker.

Piscataquis County—The jail at Dover has been finished and occupied since our last report. It is up to date in every point, with steel cells and perfect sanitary arrangements having a water-closet in each cell with plenty of water.

Somerset County—The jail at Skowhegan is of modern construction with steel cells and good sanitary conditions. We are sorry to report that it has not always been found in as cleanly condition as desirable; the cells and bedding have not been properly looked after.

Waldo County—The jail at Belfast, while being an old time affair, answers the needs of the county. During Sheriff Norton's administration (several years) it has always been found in fine condition.

Washington County—The jail at Machias under the care of Jailer Gilson has been well managed. Cells and bedding have been found clean and neat.

York County—The jail at Alfred changed management January 1, 1901. The new jailer, Mr. Rankin, seems to be the right man for the place. On account of so many tramps infesting this jail it has been one of the hardest in the State to keep clean, but under Rankin's administration it has at each of our visits, been found neat, and the cells and bedding well cared for.

Nearly the same bill of fare is found in all the jails, viz: Breakfast, bread and tea; dinner, soups, stews, chowders and baked beans; supper, bread and tea. We believe the quantity furnished to be ample. Nearly all of the jails have regulation suits for the prisoners. We deem it advisable for all the jails to adopt them.

Five thousand two hundred seventy (5,270) law breakers have been sent to the several county jails during the year, of which two hundred fifty-eight (258) were women, and two thousand eight hundred fifty were sentenced for drunkenness. For fuller statistics relating to the jails we refer you to the reports of the sheriffs of the different counties.

WHITMAN SAWYER,

W. L. SCRIBNER,

A. W. GILLMAN,

Inspector of Prison and Jails.

ANDROSCOGGIN COUNTY JAIL—AUBURN.
