## MAINE STATE PRISON.

THOMASTON, ME., December 1, 1902.

*To the Honorable Governor and Council:*

In compliance with the provisions of the revised statutes we have the honor to transmit herewith our annual report of the condition of the Maine State Prison for the year ending November 30, 1902.

At the commencement of the Prison year (December 1, 1901) there were confined in the Prison one hundred ninety-two prisoners (192); forty-seven (47) have since been received; fifty-five (55) have been discharged by expiration of sentence; four (4) have died. The largest number at any one time was two hundred eighteen (218); the smallest number, one hundred eight-one (181). The average number for the year has been two hundred (200).

Owing to the increased prices of all kinds of provisions it has cost two thousand dollars (\$2,000.00) more to feed the convicts in 1902 than it did in 1901. The raw material now costs thirteen and one-half cents (13½c) for each person per day and comprises an ample supply of good, substantial food. Great care is taken by Warden Smith to have everything properly cooked.

At each of our monthly inspections the cells, bedding, corridors and grounds have been found in a neat, cleanly condition. Good discipline has been maintained and punishments have been few. For the physical condition of the prisoners we refer you to the report of the prison physician, Dr. Smith, who has, we believe, taken most excellent care of the few who have come under his treatment. The chaplain and teacher (Rev. C. A. Plumer) continues his good work in spiritually advising all prisoners and imparting knowledge to those who will receive it; he devotes his whole time and efforts to the reformation and education of the unfortunate who are confined within the prison walls.

Steam heat has been put into the blacksmith shop under the supervision of Warden Smith; all labor was done by the prisoners and the small expense of material will be more than offset in the saving of fuel and by the increased comfort in the shop.

We are pleased to state that each of the manufacturing departments has made an exceptionally good showing by reason of the diligent and faithful labor of the convicts. A goodly number of carriages, harness and brooms have been produced which have been well sold and show much better results than in the average year; the transactions of the several departments will be found in the subjoined report. The overseers have been very painstaking in instructing the prisoners and attentive to all their duties, and to them much credit is due for the success of their several departments.

An appropriation will be asked for, and is required to pay for a sewer built during the year as well as for the running expenses during the years 1903 and 1904.

In our monthly inspections we have been accompanied usually by Hon. W. T. Haines, visiting member from the executive council, to whom we are indebted for many valuable suggestions.

For the very courteous treatment at all times received from the warden, deputy warden, clerk and all subordinate officers we extend our warmest thanks.

In closing we would refer to the fact that the annual meeting of the National Prison Association was holden at Philadelphia in September last, and was attended in behalf of this State by two members of the State Board of Inspectors, Chaplain Plumer of the Maine State Prison, and Hon. W. T. Haines, visiting member from the executive council. Nearly all the prisons and reformatories in the United States were represented and there also delegates from the Canadian Provinces. Questions relative to the management of prisons, jails and reformatories were ably discussed and the lessons drawn were,—perfect sanitation; absolute cleanliness of the person and quarters; perfect discipline; wholesome food; labor of some kind, either in shops or cells, for every prisoner; humane treatment; and the uplifting by education of convicts, so that when they are discharged and return to homes and friends, they may go as honest, sober, industrious, law-abiding and self-sustaining citizens.

Respectfully,

WHITMAN SAWYER,  
WILLIAM L. SCRIBNER,  
ALBION P. GORDON,  
*Inspectors of Prisons and Jails.*

## WARDEN'S REPORT.

---

*To the Honorable Governor and Council:*

I have the honor to herewith present for your consideration the following brief statement of the affairs of the Maine State Prison for the fiscal year ending November 30, 1902:

The health of the convicts during the past year has been exceptionally good and the amount of labor performed by them during the year has exceeded any previous year since I have been in charge of the institution.

The harness department has made 1,695 harness, beside repairs during the past year, which is more than was ever made before in the Prison in one year. The carriage department has made a most excellent showing the amount earned over and above expenses is not as large as in the harness department but the expense for overseers in the carriage department is sixteen hundred dollars more than in the harness department.

In the broom department the past year has been a successful one; the price of broom stock has been lower than for several years past, while manufactured brooms have sold during the past year at least 15% higher than the previous year, and furthermore all broom corn manufactured from December 1, 1901, to May 1, 1902, was bought and paid for before December 1, 1901, and should be largely credited to that year.

The legislature of two years ago appropriated for current expenses \$7,500 per year which has enabled us to discount our bills and keep out of debt, the same amount will be needed for the next two years and we trust the coming legislature will appropriate the amount required. I would respectfully ask that an appropriation of at least \$2,000 be given the Prison for repairs which are greatly needed. With a few of the men from the insane wing of the Prison and a number of the convicts who

have been unable to work in the shops on account of bodily infirmities, I have raised during the past year potatoes, vegetables, hay and grain for the use of the Prison, to the value of nine hundred and fifty dollars, nearly that amount is paid out every year for milk for the convicts. As a matter of economy the Prison should produce its own milk, which can be done at a small expense. Two thousand dollars paid out for a small farm near the Prison, where hay, vegetables and grain can be raised, all with convict labor, with a good pasture for cows, will produce in four years' time, enough to pay every dollar the farm cost, leaving it worth in the market at least twenty-five per cent more than the original cost.

The east wing of the Maine State Prison was built in 1824, the west wing a few years later, quarrying lime rock was what the early prisoners worked at, making an excavation inside the Prison yard about one hundred fifty feet in length, and sixty feet wide and from twelve to thirty feet deep. After a term of years the work of quarrying lime rock was abandoned, water soon found its way into this abandoned quarry, and during all these years a pool of filthy, stagnant water around which the several shops are situated where the men are employed, has stood as an eye sore to the officials of the Prison, as well as the hundreds of men and women who visit the Prison each year. Several months ago under the direction of the Prison Inspectors the contract was let for the drainage of this cesspool. The distance to the Georges river where this water had to be drained, is nearly eight hundred feet, and much of the way a depth of nearly forty feet was required through solid ledge. The work is very nearly completed and we trust our legislature will respond with an appropriation to pay for this work, which should have been done years ago.

The subordinate officers of the Prison have been faithful in the discharge of their several duties for which I desire to extend to them my sincere thanks and to the members of the Board of Prison Inspectors for their many valuable suggestions and earnest co-operation to the management of the Prison.

HILLMAN SMITH, *Warden.*

## PHYSICIAN'S REPORT.

---

*To the Honorable Board of Prison Inspectors:*

GENTLEMEN: I have the honor to submit to you my sixth annual report. It is a source of gratification to say that what I have recommended in my last reports is soon to be accomplished, the proper drainage of the shops and laundry, enabling us now to claim as near a perfect sanitary condition as the present circumstances will allow. The health of the prisoners has been most excellent, not one dying from any infectious or contagious disease. In April three deaths occurred from drinking wood or Mythyl alcohol. Thomas Corn and Wm. E. Coffin died April 24, and Morey Willey April 25. Had not this unfortunate affair occurred we would have rounded out the year without a death, which I consider remarkable, considering the class of people susceptible to tuberculosis and its ravages. I confess that I feel a certain amount of pride in stating that I believe no prison in this country is superior to ours in the health of its prisoners, not that it is due to any extra care on my part but to the good wholesome diet they receive, the clean, well ventilated cells and shops, and the labor they are allowed to do each day, and last but not least, the kindness shown the men by the warden and all his subordinate officers, which tend to make my duties lighter and pleasanter and for which I wish to thank the warden and officers for assistance rendered during the past year, and you gentlemen for the many courtesies shown. I have the honor to remain,

Your obedient servant,

ADDISON R. SMITH, M. D.,

*Prison Physician.*

## CHAPLAIN'S REPORT.

---

*To the Honorable Governor and Council:*

GENTLEMEN: I herewith submit my annual report of the work and interests committed to me as Chaplain of the Maine State Prison.

The courts have sentenced forty-seven persons to the Prison during the year ending November 30, 1902. Six of them could neither read nor write; two could read a little but could not write; twenty-two had attended the common schools a few or more number of terms; nine were graduates of grammar schools; four were graduates from high schools or academies; and four had completed a college course.

Forty-two were habitual users of tobacco, the other five had never used it. Twenty-six were occasional, moderate or inveterate drinkers of all kinds of intoxicating beverages, and twenty-one were total abstainers.

### PERIODICALS.

No change has been made in the regulations respecting the admission of papers. The weeklies are received and read carefully by all who can read. The privilege of receiving and reading the papers is a great incentive to acquire the knowledge needful that one may understandingly read. A copy of the Outlook, Zion's Herald, Christian Advocate, Independent, Congregationalist, Union Signal, Youth's Companion, or some other similar paper is furnished each one who can read each week, these papers being given by the friends of reform. Each week the men are given the reading of two magazines temporarily bound, one of recent date, the other an old number. These are passed from cell to cell so that each number is read by fifty or more men. For this purpose we take two copies of Munsey,

Frank Leslie, McClure and Strand. The old numbers are given by those interested in our work. We also receive two copies of Harper's, Century, New England and Cosmopolitan, which are permanently bound and catalogued in the library.

#### LIBRARY.

There are more than two thousand books and bound magazines in the library. They are selected from all classes of books so as to provide that which is interesting and instructive for all classes of readers. Those who come with a fondness for books are abundantly supplied, and many who seldom read a book before coming, have acquired a love for books and are edacious readers.

#### INSTRUCTION.

This part of the work committed to me has received thoughtful attention. The primary studies, beginning with the alphabet, receive our first and continued attention. The more advanced students are assisted as their requirements and our time demand. The progress of most has been unusually commendable.

#### CORRESPONDENCE.

The weekly letters passing between a large number of the inmates and their families, have aided in cultivating a love for home and a virtuous and honorable life. In the growth of such love the purpose has been formed to walk in manly and pure ways.

#### RELIGIOUS INSTRUCTION.

This work has not been neglected. In our personal association with the men as well as in the chapel services we have endeavored to cultivate a sense of one's relation to his Creator and his moral accountability; and to impart hope to all in the Bible truths that God loves the most sinful as truly as the most upright, and promises pardon and grace to all who turn to Him. We are encouraged to believe that our teaching has been blessed to the good of some.

With sincere thanks to your Honorable Body and each of the Prison officials for the assistance and encouragement given me, this report is respectfully submitted.

C. A. PLUMER, *Chaplain.*

November 30, 1902.

REPORT OF THE COUNCIL COMMITTEE ON  
STATE PRISON.

---

WATERVILLE, ME., December 30, 1902.

*To the Governor and Council:*

Having been appointed committee of the Council to visit State Prison, as required by statute, I have deemed it my duty to visit that institution, during the past year, once a month. These visits have generally been made in company with the Prison Inspectors. I have found Warden Smith and his assistants, as in the previous year, uniformly courteous and obliging.

The financial condition of the Prison is somewhat improved over the previous year. The report of the Warden shows it in detail.

The cost of subsistence, on account of increased price of provisions, has been somewhat increased, and more has been expended for equipment and repairs than in the previous year. There has also been a slight increase in the cost of the fuel. While on the other hand the industrial departments show a marked improvement over the previous year. The manufacture of brooms shows a net gain of \$3,002.74, as against a loss of \$2,818.23 for 1901. The departments of carriages, harnesses and furniture, each show an increase of net profits over the previous year, and in my judgment all these departments of industry in the Prison, during the past year, have been very well managed. The inspectors have paid special attention to this work; and the purchase of material, the management of the work, and the sale of the products, has been carefully looked after by them, in detail, and with most satisfactory results.

The sanitary condition of the Prison, during the past year, as in the previous year, has commanded a good deal of attention from the inspectors and the warden; and I have tried to give

them such assistance in this matter as in the end would lead to satisfactory results. In my former report I said, "The sanitary condition of the Prison has been, and is to be, much improved by draining the pit in the Prison yard known as 'the old lime quarry.'" At the time I made this report I thought the job of draining this old lime quarry was nearly completed, and I was quite proud of the undertaking; but before my report was printed the wall, which had been built in this pit to carry the drain pipe, for some cause which I am not able to state with certainty, crumbled or fell of its own weight. It now seems to be the opinion of experts that the lime rock, out of which it was built, was not strong enough to carry its own weight. This necessitated the changing of the plan, and the expenditure of a further sum of money in order to accomplish the result sought for; and it was finally decided to put the drain twenty feet deeper than first contemplated, and do away with the wall in the pit, and to give up the idea of filling the pit to any considerable extent, and to drain it near to the bottom. And a new contract was made to carry out this idea; and the work has progressed under this contract until the excavation has been completed and the pipe laid from the Gorges river into the quarry, a distance of about five hundred feet. This pipe has been laid in a trench which in one place was fifty-six feet deep, and quite a portion of this trench has been made through the solid lime rock. And the laying of the pipe through the old lime quarry to the buildings which it is designed to reach for sewerage, remains to be done.

The work is being pushed as fast as possible, and should be completed in the near future. When done this unsightly and filthy old cesspool, or pit as it is usually called, in the old lime quarry, will be practically drained of water, and a small amount of filling in the deepest place will complete the job; and where there has been a stagnant pool, which in any community would be considered a menace to health, may be made a lawn or garden, or upon which buildings may be erected, or it may be used for any other purposes for which it may be needed. In order to do this work it has been necessary for the warden to incur some indebtedness. In this he has had my advice, consent and approval, and also that of the inspectors. There has been but one opinion among us with regard to this work, and that was

that it must and should be done; and I believe that the people of Maine will approve of its being done, and that the legislature will appropriate money for the expense incurred for the same when they understand what will be accomplished by it. The contractors, who have done the job, will certainly make small profits on their work. By some it is thought they will sustain a loss. However this may be I can say that thus far they have cheerfully, although in rather a tardy manner, carried forward the work, and in accordance with their contract.

I spoke in my former report of the item of assets as shown in the warden's report as due from the Insane Department, of \$6,636.16, and explained how this item had grown up in the Prison account as a mere matter of book-keeping, and was in reality not an asset of the Prison.

The report of this year will show this item charged off, and no longer remaining as an asset of the Prison, which necessarily makes the net loss larger by that amount than it otherwise would have been. The legislature should make sufficient appropriation to take care of this net loss which is largely the outgrowth of the new sewer and drainage of the old lime quarry, and this item of book-keeping.

The health of the prisoners, during the past year, has been remarkably good, and the discipline and management of the prisoners, as heretofore, seems all that could be desired.

The Prison shops are old and in poor repair, and the equipment is not such as would be found in modern shops; yet they are used to the best advantage possible. At no far distant day, when the financial affairs of the State will admit of it, the legislature should make provisions for new and modern shops and equipment where work can be more advantageously done, and which in the end will result in more profit or economy to the State.

Respectfully submitted,

WILLIAM T. HAINES,

*Committee of the Council to Visit State Prison.*

## REPORT OF THE COMMISSION RELATING TO THE CRIMINAL, INSANE.

---

*To His Excellency, the Governor, and the Executive Council of  
the State of Maine:*

In conformity to the provisions of the Revised Statutes your Commission, in whose hands is placed the administration of that department of the Prison set apart for the insane, is able to report in commendable terms of what has come under its observation during the past fiscal year. Your Commission has reason to believe that all of its instructions have been fully and faithfully carried into execution by those having the immediate care of the department.

While the environments do not extend to its inmates such pleasant surroundings as would exist in a well equipped and modern hospital, yet, under such conditions, it does afford at all times sufficient ventilation, temperature, and sunlight, so essential to proper sanitation, and without which the inmates could not maintain that degree of health which has been so apparent during the entire year. The commission does not wish to be understood as advocating the present environments as ideal and, in fact, have advised, in previous reports, the erection of a suitable building in juxtaposition to one of the State hospitals for the care and treatment of this class. Notwithstanding this, the careful and stated observation by inspection each month by the full commission and by daily observation by one, or more, of its number reveals the fact that the inmates are being humanely supervised and good care is rendered under its present existing conditions and system of management. There are, however, cogent reasons why provisions should be made to maintain the criminal insane apart from the Prison and in connection with a hospital for the insane. It is a matter of record that on more than one occasion

since a wing of the Prison was set apart for the insane, the administration of the institution has been greatly embarrassed from insufficient room. This condition may occur again at any time and your commission is of the opinion that it would be wise to take some steps towards the erection of a suitable building, located as indicated above and sufficiently ample not only to administer to the wants of the criminal insane of the State, but in addition to provide for that class who are being ordered by the courts to the hospitals for observation. The Commonwealth of Massachusetts found it necessary some years since to make an appropriation for, and now maintains a distinct hospital for the criminal insane. Such necessities, however, are not obvious in the present numerical status of this defective class in Maine. There is not, and in all probability will not be for a long period, a sufficient number to warrant such a procedure as exists in our sister state, but, where provisions can be made to domicile this class without the necessity of increased administration, it is apparent that the financial burden for the State would not materially be affected.

Mr. Moody, who has had the immediate supervision of the department from its incipiency, suffered from a severe illness during the very early part of the year but has fully recovered and is now looking after the wants of the inmates with that tact and ability which has characterized his fitness for the position at all times and under all circumstances. He deserves much credit for attending so faithfully to his duties in such a trying and dangerous position. Aside from his arduous duties indoors he has had the oversight of quite a large number of the inmates in cultivating the institution's garden, and its products have not only been a source of profit, but the means of maintaining a proper and healthful dietary for both the inmates of this department and the convicts of the Prison as well.

At such seasons of the year when employment was not available in the garden much labor has been accomplished in the Prison yard, so that a large percentage are quite constantly employed throughout the year. Three of the inmates have worked quite regularly in the various workshops and all have been afforded the benefits of outdoor recreation in the sunlight, with the exception of two who have been and are still suffering from such apprehensive homicidal impulses, that for their own

safety and that of others, prudence has dictated that they remain in their cells.

The use of the institution's library has been extended to such of the inmates as have a disposition to read, and the chaplain has been prompt to aid in their correspondence and in imparting such moral and religious instruction as is suited to their needs.

In June last, the medical commission appointed by your authority to investigate into the mental condition of seven convicts of the Prison determined that five were unquestionably insane and they were subsequently transferred to the above department, by executive authority, so that its numbers have been materially increased.

We append a numerical status of the condition of this department.

Number remaining November 30, 1901.....	23
Admitted since .....	5
Whole number under treatment.....	28
Discharged since .....	1
Died since .....	1
Remaining November 30, 1902.....	26

Respectfully submitted,

BIGELOW T. SANBORN, M. D.,  
ADDISON R. SMITH, M. D.,  
HILLMAN SMITH, *Warden*,

*Commission Relating to Criminal Insane.*

Maine State Prison, Thomaston, Me., November 30, 1902.

## JAILS.

---

*To the Honorable Governor and Council:*

We have the honor to transmit our annual report of the condition of the jails in the different counties which have been visited at least once in every quarter as required by law :

*Androscoggin County*—The jail at Auburn under the management of Sheriff Huskins has at all times been found in a cleanly condition ; the sanitary arrangements good ; and discipline fairly well maintained. Nine hundred seventy-one (971) prisoners have been received during the year, of which number five hundred sixty-six (566) were sentenced for drunkenness. Four have escaped, three of whom were recaptured, and one is still at large. The labor is leased to the Standard Heel Company for the manufacture of heel stock.

*Aroostook County*—The jail at Houlton is modern in construction with steel cages. It has been found in good sanitary condition. November 30, 1902, there were forty-two (42) prisoners, with nothing to do. We would recommend that some employment be furnished by the county commissioners, believing that better discipline could be maintained and better results achieved thereby.

*Cumberland County*—The jail at Portland is the largest in the State and has at all times been found in a cleanly condition and its sanitary arrangements good. Discipline has been well maintained. Seventeen hundred fifty-two (1,752) prisoners have been received, of which number ten hundred sixty-seven (1,067) were sentenced for drunkenness. The female ward has been under the care of Mrs. Tolman. This is the only jail in the State where a matron is provided.

*Franklin County*—The jail at Farmington is small, but large enough to accommodate all offenders in the county. November

30, 1902, there was no one in confinement; there have been only fifty-five (55) committed during the year. It has always been found in good condition.

*Hancock County*—The jail at Ellsworth under the management of Sheriff Whitcomb has always been found with clean bedding, cells, corridors, etc. There have been thirty-seven (37) committed to this jail during the year. There have been three escapes by prisoners, all of whom are still at large.

*Kennebec County*—The jail at Augusta has always been found clean and neat with good sanitary arrangements. We are pleased to state that a workroom has been established for the manufacture of leather buttons, and the labor leased to John Horne. Five hundred ninety (590) prisoners have been committed during the year, four hundred twenty-five (425) being sentenced for drunkenness.

*Knox County*—The jail at Rockland has been managed with his usual ability by Turnkey Thomas and is always in cleanly condition. Number of commitments during the year, ninety-eight (98), of which number sixty-nine (69) were for drunkenness.

*Lincoln County*—The jail at Wiscasset has been taken as good care of as possible under existing conditions. The light and ventilation are very bad; sanitary arrangement a nuisance. The inspectors have made a strong effort to have the condition changed but with no avail. Some law should be enacted to give someone power in such cases.

*Oxford County*—The jail at South Paris is of recent construction. At the time it was built but one tier of cells was put in; during the year another tier has been added, eight in number, of steel, with a wash stand and seat in each cell, which makes it an up-to-date jail in all respects. Sheriff Tucker has kept it in perfect condition.

*Penobscot County*—The jail at Bangor under Sheriff Brown's last term of office has been kept up to that high standard which has characterized his entire administration, being a model of cleanliness and good discipline. The number of prisoners committed during the year was five hundred seventy-six (576), of which number three hundred sixty-five (365) were sentenced for drunkenness. The labor at the jail is leased to Nutter & Baker of New Hampshire, who make brooms and heel stock.

*Piscataquis County*—The jail at Dover is nearly new and is modern in every respect, with steel cages and perfect sanitary arrangements. There is an ample water supply and everything to make a first-class institution. It has been well kept by Jailer Knowles.

*Somerset County*—The jail at Skowhegan has been found in a good condition at all of our visits. The number of prisoners committed during the year was seventy (70).

*Waldo County*—The jail at Belfast has maintained its good reputation for cleanliness and discipline. Sheriff Norton has done most excellent work among the prisoners during his entire administration.

*Washington County*—The jail at Machias under the management of Jailer Gilson has been found at each of our visits in a neat and cleanly condition.

*York County*—The jail at Alfred has always been found in the pink of condition and ranks as one of the best managed jails in the State. The labor is leased to the Standard Heel Company for the manufacture of heel stock. There have been four hundred twenty-seven (427) prisoners committed during the year; two hundred three (203) of these commitments were for drunkenness.

#### SUMMARY.

There have been committed to the several county jails during the year, five thousand two hundred ninety-seven (5,297) prisoners, of whom five thousand and thirty-five (5,035) were males and two hundred sixty-two (262) were females. Three thousand one hundred ninety-three (3,193) of these commitments were for drunkenness. Further information relative to jails can be found in the reports of the sheriffs of the several counties. We earnestly recommend the commissioners of those several counties where there are no workshops to provide some method by which the prisoners can be employed at some kind of labor.

Respectfully submitted,

WHITMAN SAWYER,  
WILLIAM L. SCRIBNER,  
ALBION P. GORDON,

*Inspectors of Prisons and Jails.*

## ANDROSCOGGIN COUNTY JAIL—AUBURN.

County Officers—Seth Chandler, A. M. Penley, George Parcher, County Commissioners; George E. Huskins, Sheriff and Jailer; J. H. Soule, Turnkey; No regular physician; M. F. Pierce, Overseer of Workshop.

 Do prisoners labor? Yes.  
 Are prisoners leased? If so, to whom? To the Standard  
 Heel Company.  
 What kind of work done? Manufacture of heels and pancake.  
 Average number in workshop? 70.  
 Do prisoners receive religious instruction? Yes.  
 Do prisoners wear regulation suits? Yes.  
 Are your prisoners classified according to crime and age?  
 As far as possible.

John Morrison escaped, February 23, 1902, from the jail kitchen where he was at work, was retaken March 14, 1902, at Lewiston by Deputy Marshal W. B. Hopkins.

Joseph Vallier and Fred Soucier both escaped, May 15, 1902, from the jail workshop through the sink room. Vallier was retaken the same day in Auburn by Constable C. S. Stetson, Soucier was retaken, May 17, 1902, on the Minot road in Auburn by Michael Keefe and Arthur Gagnon, constables of Lewiston.

Joseph Vallier and Fred Soucier both broke jail, June 17, 1902, by taking up a small portion of the flooring in the bath room and dropped to the floor beneath and then by sawing a bar from the grated door leading to the workshop yard, then scaling the fence. Vallier was retaken, September 26, 1902, at Dover, N. H., by Deputy Sheriff J. H. Soule; Soucier is still at large.
