REPORT.

STATE ASSESSORS' OFFICE,
AUGUSTA, MAINE, December 1, 1906.

*To His Excellency, Wm. T. Cobb, Governor, and the Honorable
Executive Council:*

GENTLEMEN:—We herewith present the Sixteenth Annual Report of the Board of State Assessors for the year 1906, which includes the State valuation fixed by this board upon the real and personal estate of all cities, towns and plantations and unincorporated townships within the State, which valuation forms the basis for the assessment of State and county taxes for the years 1907 and 1908. Included in the report are tabulated statistics received from local assessors and schedules of all corporation taxes assessed by the Board during the present year.

The total valuation of the cities, towns and plantations of the State, as certified to this Board by the municipal assessors for the present year, 1906, is \$340,328,772. Compared with the valuation returned in 1905, the total increase is \$10,901,848. The gain in real estate amounts to \$8,501,726 and in personal estate \$2,400,122.

These figures represent the largest annual gain in taxable wealth that has been recorded during our history as a State.

The increase by counties is as follows:

| | |
|--------------------|-----------|
| Androscoggin | \$851,428 |
| Aroostook | 1,411,228 |
| Cumberland | 1,834,232 |
| Franklin | 286,922 |
| Hancock | 402,769 |
| Kennebec | 1,235,997 |
| Knox | 54,962 |
| Lincoln | 116,764 |
| Oxford | 480,089 |
| Penobscot | 1,910,805 |

| | |
|-------------------|---------|
| Piscataquis | 424,586 |
| Sagadahoc | 236,142 |
| Somerset | 473,883 |
| Waldo | 390,534 |
| Washington | 187,254 |
| York | 604,253 |

\$10,901,848

The total valuation of the twenty cities of the State for 1906 is \$152,320,750, an increase of \$4,289,571 over 1905.

The valuation of cotton mills is \$11,943,291, woolen mills \$2,646,615, pulp and paper-mills \$8,549,935, sawmills \$1,747,207, other mills, not classified, \$1,878,255, and machinery (assessed as personal property) \$2,125,523. The total increase in these classes of industrial property is \$1,886,038 above 1905. Railroad property subject to local taxation is assessed upon a valuation of \$3,817,796, an increase of \$234,307, and street railroad property \$817,030, a gain of \$79,050 over 1905.

Nearly every item of personal property shows an increase: Stock in trade is valued \$19,867,297, a gain of \$1,466,101; bank and trust company stock is assessed for \$9,153,397, a gain of \$56,777; stock in mills is valued \$3,532,719, an increase of \$366,779; logs, lumber and wood are valued \$3,463,501, a gain of \$229,018.

Live stock is valued \$14,445,024, an increase of \$330,802. There is a slight falling off in numbers from 1905, but the average values are higher.

The total taxes assessed upon property amount to \$7,102,821 and upon polls \$520,418. The average rate of taxation upon property in cities, towns and plantations is \$20.87 upon each \$1,000 valuation. The average rate in 1905 was \$21.03.

The total amount of municipal indebtedness reported is \$7,674,639, a reduction of \$327,919 from the amount reported in 1905. Two hundred and forty-four municipalities report that they have no public debt, several of them having a surplus in their treasury. A large majority of those cities and towns that have a public debt report a decrease from 1905. The tendency in this direction has been constant, even if not rapid, for several years past. In 1903 the total municipal debt was equal to \$27.30

for each \$1,000 of the total valuation. In 1904 the amount was \$26.00, in 1905 \$24.30, and for the present year it is \$22.22, or little more than one annual assessment at the average rate of taxation.

The total amount appropriated for public schools by the cities, towns and plantations for 1906 is \$1,349,193, an increase of \$139,176 over amount appropriated in 1905. The amount appropriated for maintenance of highways and bridges is \$1,280,160, which is a reduction of \$50,209 from 1905.

The total amount of corporation taxes assessed by this Board during the year is \$1,298,717.86, an increase of \$101,065.36 above the amount assessed in 1905. The following comparative table shows the amount assessed for the years 1905 and 1906 against the several classes of corporations:

CORPORATION TAXES.

| | 1905 | 1906 |
|--------------------------------|----------------|----------------|
| Railroads | \$439,607 84 | \$478,141 04 |
| Street Railroads | 15,843 39 | 15,977 78 |
| Telephone Companies | 25,030 33 | 33,094 91 |
| Telegraph Companies | 2,813 41 | 2,848 11 |
| Express Companies | 11,299 02 | 11,421 34 |
| Palace Car Companies | 1,172 87 | 1,193 92 |
| General Franchise Taxes | 120,230 00 | 144,650 00 |
| Savings Banks | 425,182 21 | 442,170 46 |
| Trust & Banking Companies... | 51,246 54 | 58,163 01 |
| Insurance Companies | 104,897 53 | 110,681 75 |
| Loan & Building Associations.. | 329 36 | 375 86 |
| | <hr/> | <hr/> |
| | \$1,197,652 50 | \$1,298,717 86 |

Acting as a board of equalization, we herewith report the ninth biennial valuation of the State, as fixed by the Board, as follows:

| | |
|----------------------------------|---------------|
| Cities, Towns & Plantations..... | \$357,138,611 |
| Wild Lands | 36,423,301 |
| Growth on the Public Lots..... | 1,136,078 |
| | <hr/> |
| Total | \$394,697,990 |

This valuation represents an increase of \$28,183,976 above the State valuation of 1904.

TAXATION IN OTHER STATES.

The past two years appear to have been a quiescent period regarding tax legislation in other states, no radical modification of any tax system being recorded.

The trend in all the older states of the Union is toward the abolition of direct property taxation for state purposes, and the collection of the necessary revenue from special taxes on franchises, privileges, inheritances, etc. This is a model system, and we, in this State, are making marked progress towards its attainment, the corporation taxes alone assessed for 1906 being forty per cent greater than the State taxes assessed upon the property of the whole State.

The states which have effected a complete or almost complete separation of their state and local revenue systems are New York, Pennsylvania, New Jersey, Connecticut and Delaware. Ohio has recently adopted a corporation tax law which has made it possible to reduce the rate of the general property tax for state purposes one-half.

Minnesota, Vermont, Wisconsin and Missouri have come so near eliminating the direct taxation of property for state purposes that only a small part of their revenue is raised by it.

Massachusetts and Tennessee raise more than one-half of their revenue by indirect taxes, Maryland two-thirds, and West Virginia three-fourths. Michigan is making progress in the same general direction.

In 1903 the legislature of Wisconsin enacted a law which resulted in the exemption of fifty millions of mortgages previously assessed. Governor La Follette, in his message in 1905, urgently recommended that such property be restored to the taxable class of property until such time as the legislature can see fit to enact a law for the taxation of incomes.

A distinguished authority proposes a scheme of segregation of taxes by which certain classes of taxation shall be for municipal expenditures; another for the county; and still another for the State; while the Federal government shall continue to derive its revenues from customs and excise taxes.

It is freely admitted that our taxing systems, throughout the country, contain many imperfections. That improvements should be made cannot be denied, and we may reasonably expect

that reform will be gradually effected. The forty-six states of the Union are at work, each in its own way, on this great ever-present problem, and their experience continually points the way to better results.

WILD LANDS.

As provided by the resolve of the seventy-second legislature, this board has attempted, under the direction of the governor and council, to secure a proper description of each parcel or tract of wild land in the unorganized townships, and has, in accordance with the provisions of the resolve, employed persons who have had many years experience in cruising timberlands to explore a portion of the wild lands for the purpose of ascertaining their present value. Very soon after entering upon the work it became evident that in order to obtain intelligent and proper descriptions it would be absolutely necessary to secure plans or maps of each unorganized township, showing the location of the individual ownerships, before the timberlands could be completely explored and the stand of timber upon each parcel or tract determined. In the past two years we have succeeded in securing, and now have in the office of the State Assessors, a complete set of maps of each unorganized or wild land township in the State. There are four hundred and thirty-five of these maps and they were made from the latest surveys obtainable and are of uniform scale. They are made upon cloth-backed paper, bound by counties in loose leaf binders, and indicate, in many instances, separate ownerships, as well as outlines of all lakes, ponds, rivers, streams or waterways, together with location of the public highways and tote roads, the knowledge of which is so essential in determining the value of timberlands.

Many of the surveyors, wild land cruisers and owners of timberlands throughout the State have kindly loaned the Board all plans and surveys in their possession, which has made it possible to make the plans from the latest explorations, and to their co-operation we owe, in a large measure, our success in the undertaking. The State now has, for the first time, a complete set of separate maps, of uniform scale, of each unorganized township, and they are undoubtedly of much value to the citizens of the State. While in many instances they are incomplete, owing to the fact that a number of unorganized townships have

never been explored and plotted, they form a basis to which can be added the information gained from explorations and surveys made in the future, and therefore will increase in value to the State as the work is extended. During the past two years we have had several townships cruised by the explorers before referred to, with the view of ascertaining the quality of the soil, the stand of timber on each township, the drivable condition of the waterways, the average distance required to haul the lumber to the landings on streams, ponds or lakes, and the acreage of the townships explored. The townships cruised were situated in Somerset, Oxford, Piscataquis and Penobscot counties, and their total acreage is 192,137 acres. The amount paid to the surveyors for making this exploration is \$1,753.87, or an average of a trifle under one cent per acre. It is only fair to state that these townships which we had explored are conveniently located and accessible, so that the expense is much less than would be the exploration of more remote townships. At this rate per acre, however, the expense to the State for making an exploration of the entire wild land area in the unincorporated townships would be approximately in round numbers \$94,000. The State valuation made by the Board this year on these townships, which was based on the information gained from the explorations, is \$909,420, or 42% in excess of the State valuation placed upon them two years ago, while the State valuation this year on the entire wild land townships has been increased 25½ per cent over the last State valuation of two years ago.

The total appropriation of \$5,000 made by the legislature to carry on this work for the years 1905-6 has been expended. A summarized statement of the expenditures for the present year will be found in the accompanying report and the account for 1905 in the annual report for that year.

CONCLUSION.

The personnel of this board has been the same for the past six years, and therefore we desire, at this time, for your information, to make brief reference to some of the changes in the State valuations and the amount of taxes assessed which have taken place in that period. The State valuation made in 1900 was \$336,699,649 and the State valuation made by the board this year is \$394,697,990, which shows a total increase during the six

years administration of this board of \$57,998,341, or 17.3 per cent. Of this increase in State valuation the cities have contributed \$14,259,450, or approximately 24½ per cent; towns and plantations in Aroostook county \$5,397,099, or 9½ per cent; manufacturing and summer resort towns \$17,593,715, or 30½ per cent; all towns and plantations in the fifteen counties outside of Aroostook in which the principal industry is farming and which are known as farming towns \$2,864,453, or 5 per cent; and the wild lands or unincorporated townships have contributed \$17,927,624, or 30½ per cent.

The State valuation on wild land townships has been increased in the past six years over the preceding valuation as follows: 1902, \$6,649,021, or approximately 33%; 1904, \$3,590,088 or approximately 13½%; 1906, \$7,688,515, or approximately 25½%, making a total increase, as above stated, of \$17,927,624, or more than 91 per cent.

It may be of interest to state here that in comparing the State valuation placed upon the timber lands in the unincorporated townships in 1898 with the present valuation we find an increase in the past eight years of \$20,805,685, or 125 per cent.

Comparing the State tax assessed in 1900 with that assessed in 1906, covering a period of six years, we find that the tax assessed upon the cities, towns and plantations of the State shows a decrease amounting to \$18,629.03, while the State tax assessed upon the wild lands for 1906 is \$28,852.24 more than that assessed in 1900.

We may also add that the total State tax assessed upon the farming towns and plantations outside of Aroostook county, which we have referred to, is approximately \$20,000.00 less in 1906 than that assessed upon the same towns in 1900.

The increase in the State valuation this year compared with that of two years ago is \$28,183,976, which will give an additional revenue to the State for the years 1906 and 1907, at the present rate of taxation, of \$140,919.88, and the total revenue, figured on the basis of present valuation, will yield at the present rate to the State for the next two years the sum of \$1,973,489.95.

The legislature has appropriated for expenses of State Assessors \$1,500 each year for the past six years, amounting in the total to \$9,000. Of this sum \$6,092.49 has been expended.

leaving a balance unexpended of \$2,907.51, which has reverted to the State treasury.

The tax assessed by the State Assessors against the various corporations in 1900 was \$716,111.71, and for the year 1906 it was \$1,298,717.86, which shows an increase in the past six years of \$582,606.15.

While the legislature in the past few years has increased the appropriations, due largely to additional aid rendered to cities and towns in the construction of highways, for schools and State beneficiaries, it will be seen that the tax levied against cities, towns and plantations has decreased since 1901 and the revenues required to meet the increased appropriations have been collected largely from the corporations. This plainly indicates that with the continuation of the marked prosperity of our State and Nation the time is not far distant when the bonded indebtedness of the State will be paid and cancelled and our State government entirely relieved from the burden of debt.

The duty which devolves upon assessors in placing valuation upon property for the purpose of taxation is not altogether a pleasant one. There never was a board of assessors of any city or town in this State or, in fact, any other state, which has been able to make a valuation entirely satisfactory to all the taxpayers, and probably none will be found in the future. In every municipality more or less controversy arises each year among the people regarding the valuations fixed by the local assessors. This condition exists, not because of lack of effort on the part of the assessors to value the real and personal estates on an equal and just basis, but largely on account of the conflicting ideas of the people as to the value of property. Men of equal judgment and knowledge of property, and who are classed as experts, owing to special knowledge, gained by many years of observation and study, will disagree to a marked extent as to the actual cash value of the different pieces of property in the classes of which they are supposed to have full and complete knowledge. This has been demonstrated many times in the past by expert testimony produced at hearings before courts of County Commissioners on petitions for abatement of taxes filed on the ground of over-valuation of property by local assessors. Therefore, when it is considered that the Board of State Assessors, in fixing a State valuation, is obliged to apportion and

assess equally, according to the just value thereof, the real and personal estates of 472 cities, towns and plantations with their diversified classes of property, as well as 437 unorganized townships, aggregating in the total a valuation of nearly \$400,000,000, it should be no special cause of surprise that the valuation placed on each city, town, plantation or tract of wild land does not, in every instance, meet with the unanimous approval of the taxpayers of the State.

We expect adverse criticism by those who have formed opinions with reference to the values of different classes of property, based apparently upon hearsay reports. To this class we have no explanation whatever to offer, but to those who may honestly differ from us, we will gladly submit the great mass of data and testimony we have collected relative to valuation, fully believing that after investigation on their part, they will arrive at conclusions very closely approximating our own.

We have no apologies to make. We simply state that we have conscientiously done our duty according to our best judgment, and have fixed this valuation the same as we have fixed those in previous years: Upon the best information obtainable.

In closing, we desire to express to your Excellency, and the Executive Council, to the heads and clerks of the various State Departments, to the County Commissioners, and to the city, town and plantation assessors, our thanks for the courtesy and kindness which have been shown us in all our relations, both official and personal.

Yours very truly,

F. M. SIMPSON,
OTIS HAYFORD,
GEORGE POTTLE.

STATE OF MAINE.

IN BOARD OF STATE ASSESSORS,
AUGUSTA, December 1, A. D. 1906.

We, the undersigned, being the Board of State Assessors for the State of Maine, do hereby certify that the following is a true statement of the amounts of the assessed valuation for each town, township lot or parcel of land not included in any township, after adjustment as provided in section 8, of chapter 8, Revised Statutes, together with the number of polls, aggregate amount of each county, and for the entire State, as fixed by said Board of State Assessors acting according to law as a Board of Equalization.

F. M. SIMPSON,
OTIS HAYFORD,
GEORGE POTTLE,
Board of State Assessors.

ANDROSCOGGIN COUNTY.
