### MAINE STATE PRISON.

To His Excellency, the Governor, and the Executive Council:

We submit to you our annual report for the year ending November 30, 1908.

At the commencement of the prison year December 1, 1907, there were confined in the prison two hundred and two convicts; ninety-seven have been received during the year; fifty-two have been discharged by expiration of sentence; three have been pardoned by Governor and Council; three United States prisoners transferred to Atlanta, Ga.; five have died; nine insane prisoners transferred to the Insane Hospital at Augusta; total remaining in the prison December 1, 1908, two hundred and twenty-seven.

The largest number of prisoners at any one time during the year was two hundred and thirty-one. The smallest number in the prison during the year was one hundred and ninety-six. The daily average for the year was two hundred and seventeen. The total cost of running the departments and the maintenance and care of the prison and prisoners amounts to \$30,628.92, while the profits of the departments have amounted to \$25,079.-31, making the net cost to the State for running the Institution \$5,549.61.

We began the year with a financial depression which has lasted to the present time. The executive ability of Warden Norton has been demonstrated by the remarkable financial showing he has been able to make under the circumstances, considering, as we must, that during this period it has not been an easy matter to dispose of merchandise. The fact that there has been no accumulation of stock, shows ability in the important position of salesman. The goods entering into construction have been well bought, the book accounts been carefully

looked after, that there be no bad debts, the stock taken at conservative valuation, thus making the very desirable combination in one man of financier, buyer and salesman, as well as Warden. He has called around him, as heads of the different departments, men of ability and judgment. The present method of feeding the men, the perfect ventilation, the clean condition in and around the institution show Warden Norton to be a humane man as well as a financier.

Arthur F. Brown, Clerk of both prison and inspectors is a gentleman, capable and well equipped to fill the position he occupies in the most acceptable manner.

The physical condition of the men cannot be too highly spoken of, under the care of Dr. J. E. Walker. Everything is done that skill, ability, experience and careful attention can give to those requiring a physician, as evidenced by the report.

The State certainly should congratulate itself in having a Chaplain like Rev. C. A. Plumer, a friendly, fatherly man, full of sympathy, whose one aim in life is to do good. The spiritual condition of any community must improve by his having lived in it. His report speaks for itself.

The Rev. Father Flynn of Rockland is a frequent visitor, who exerts a most remarkable influence over the men in whom he is interested, giving them good counsel, the effect of which is noticed by all the prison officials. He is a welcome visitor.

Hon. T. S. Burns, Visiting Member of the Executive Council, who has taken so much interest in the Prison, seems never to weary in doing all in his power to improve the conditions of Prison affairs. One of the prompt officials that can always be depended upon to be there and act. His counsel has been valuable.

The special appropriation of \$5000 made by the last legislature is still in the Treasury, not a dollar having been used.

Since the last report, it has been deemed wise to secure the services of a matron for the Women's department. This extra expense, since last March has been paid out of the earnings of the Prison. We would suggest that an adequate amount be appropriated by the Legislature to defray this expense.

Owing to the increase of forty-seven convicts in the past two years, it seems absolutely necessary there should be two additional guards, one on duty by day, the other by night. We

would suggest that the Legislature authorize an additional appropriation to the salary account of the officials to cover this expense.

The food furnished is nourishing, of good quality, well cooked and plenty of it. Not a man leaves the table without having all he wishes. The clothing is comfortable and kept in good condition. We are pleased to report that fourteen of the criminal insane have been transferred to their new quarters in Augusta, and we trust those remaining will very soon be cared for in that institution.

In the past year the buildings have been painted and necessary repairs made. This applies also to the houses owned by the State, two of which have been connected with the sewer leaving but one more to be connected.

We would recommend a new fire-proof building to replace the present one known as the harness shop and repository. This is lightly constructed of wood and contains from forty to fifty thousand dollars' worth of merchandise as a minimum. In case of fire it is not alone the money loss to the State, which must necessarily be large but also the earning power of the convicts during reconstruction, and the trade that naturally drifts away under such circumstances, which may take much time and money to reinstate. We believe it would be a wise investment.

C. A. LEIGHTON,
E. P. MAYO,
F. H. HARGRAVES,
Inspectors of Prison and Jails.

#### WARDEN'S REPORT.

To his Excellency, the Governor, and the Executive Council.

GENTLEMEN:—I respectfully submit to you the annual report of the Maine State Prison for the year ending November 30, 1908.

The business depression which has been so strongly felt throughout the country during the past year has affected but little the industries of the Maine State Prison. While certain lines of work have been curtailed by lack of custom and lower prices, other lines have made up the deficit so that the earnings of the various departments have been but very slightly less than in 1907. The cost of maintaining the expense departments has somewhat exceeded that of last year, but this is not traceable to any particular account, and is rather the natural increase along all lines of expense necessitated by the large increase in the number of convicts. The average daily number of convicts from whom some labor might be expected has exceeded that of last year by thirty-four, and this addition into shops already full has made them so overcrowded, that much of the convict labor has been productive of little profit.

The financial condition of the institution is excellent. There is a nice balance in the bank; a large amount of good accounts on the books; and the outstanding bills are small. We have been able throughout the whole year to take advantage of every discount for cash. The special appropriation of five thousand dollars which the last Legislature voted has not been drawn, and the whole of it will revert into the State Treasury.

The innovations of last year, the system of ventilation and the change from feeding the convicts in the cells to seating them at the tables, have proven highly satisfactory and are still in operation. This year there has been little change in the general routine, and only small repairs have been made on the shops and State houses, as nothing elaborate has been needed. For the needs of the institution in 1909, I would respectfully call your attention to the accompanying report of the Board of Prison and Jail Inspectors, which fully sets forth our requirements. However, there is one recommendation that the Inspectors have made to which I would call your attention and especially endorse. This is in relation to the fire-proof building, which is undoubtedly needed, and which would be a permanent improvement and safeguard. I trust this matter will meet with serious consideration.

Another matter which will probably come before the next Legislature will be a bill in favor of the overseers and officers of the Maine State Prison who have served the institution for a period of twenty-five years. The object of this bill will be for the retirement of such overseers and officers at half pay at the end of twenty-five years of service. I heartily endorse this measure, and believe it would work for the good of the institution as well as of the officials.

For all information as to business transactions of the year, etc., etc., permit me to refer you to the appended tables, which I believe to be a clear and concise report of the year's work.

I would take this opportunity to thank that member of your honorable body, Hon. T. S. Burns, who has been your visiting member, and who has so ably and conscientiously assisted in the prison affairs. My thanks are also due to the Board of Inspectors, and to all overseers and officers of the institution for their hearty co-operation and support.

Very respectfully,

BERNES O. NORTON, Warden.

## PHYSICIAN'S REPORT.

To the Honorable Governor and Council:

Gentlemen:—I beg to submit my annual medical report of the Maine State Prison.

During the year there have been no epidemics and but few accidents. There have been three deaths during the year within the prison proper and two in the insane department.

The food has been good and well cooked and the clothing warm. Excellent ventilation and sanitary conditions have been maintained about the whole institution.

In conclusion permit me to thank the Warden, Deputy Warden and all the subordinate officers for the many courtesies extended me during my official duties.

Very respectfully,

J. EDWIN WALKER,

Prison Physician.

# CHAPLAIN'S REPORT.

To the Honorable Governor and Council:

GENTLEMEN:—I have the pleasure to submit to you, and through you to the public, a report of the work committed to me as Chaplain of the Maine State Prison.

Within the past twelve months ninety-seven persons have been committed to the prison. Eighteen of them could neither read nor write the English language; three could read a very little but could not write; two had acquired what knowledge they had in a Reform School; two could read and write but had never attended school; thirty-nine had been trained in the common schools of their respective states and counties; twenty-one were graduates of grammar schools; eight completed the high school course of study; four have had a seminary training.

Fifty-six of them were accustomed to the use of intoxicating drinks, a few using the lighter drinks moderately, the others using the heavier drinks habitually. The other forty-one in number, profess to have been total abstainers from all intoxicating drinks. Eighty-four of them used tobacco in one or both ways of its common use. A large number of the younger men were cigarette smokers.

The library continues to be an invaluable source of pleasure and profit to the men. Many of the old and worn volumes have been discarded. These numbers have been replaced and the number of volumes largely increased by purchase and gift. In behalf of all interested I express our sincere thanks to all, and especially to those having the care of the Maine State Library, who have so generously contributed magazines and bound volumes to the prison library.

The privilege of letter writing weekly has been appreciated by nearly all of the inmates. Six thousand two hundred and fifty-

nine letters have passed inspection and been sent out. A larger number have been delivered to the men for each can receive as many proper letters as may be sent to him, while the men are limited to one letter per week to be sent out.

We have continued the same method of instruction as in previous years being fully persuaded that amid the conditions of prison life the best results are secured by personal instruction.

The Sabbath religious services have been conducted as here-tofore. The third Sabbath of each month the Roman Catholic Priest conducts the service from nine to ten A. M. The other morning services and the afternoon service with the women prisoners are conducted by the Chaplain. Religious instruction is not limited to these services for we endeavor to be with the men as a religious teacher but in a manner so as not to make religious conversation offensive. It is a service of seed sowing, the results are only fully known to Him "Whose we are and whom we serve."

With sincere thanks to you, the Prison Inspectors, the Warden and each official for kind consideration, appreciative words and helpful service this report is respectfully submitted.

C. A. PLUMER, Chaplain.

# REPORT OF THE COMMISSION RELATING TO THE CRIMINAL INSANE.

To His Excellency, the Governor, and the Executive Council of the State of Maine:

When your committee who have in charge the immediate care of the criminal insane, presented its fiftenth annual report, for the year ending November 30, 1907, we had reason to believe that several months earlier than this the criminal insane building upon the hospital grounds of the Maine Insane Hospital, would have been completed and occupied. We are unable to express the disappointment that has arisen by this delay, from the management of the prison, in as much as a dire necessity has existed throughout the year for further accommodations in consequence of the increased number of convicts sentenced to the prison by the various courts of the State. Nor is the management of the prison alone disappointed in this delay, occasioned by the neglect in completing and making ready the structure where the criminal insane are to be domiciled, and placed under the management of the Maine Insane Hospital. The committee who have charge of the construction, have been disappointed at every turn by the apparent inability of the contractor, in obtaining this or that material designed to enter into construction, and now we foresee the delay must necessarily extend into a few months of another year, before the structure will be ready for its intended use. The structure as at present arranged will accommodate about thirty patients. It is located upon a commanding site upon the former Arsenal grounds, which a few years ago was passed over to the Maine Insane Hospital for charitable purposes. building designed for the care of this class of mental disease, is being very strongly constructed, and due regard has been paid to the strengthening of the walls, window-guards and the doors

for each individual apartment, where the patients are expected to spend a greater portion of their time.

All construction has been made as convenient as possible, in order to facilitate and render supervision practical, and all fixtures are arranged in a very substantial manner, in order that opportunities for obtaining material to use as weapons may be reduced to the minimum.

Each patient will occupy a room alone, well lighted, heated and ventilated and of ample size. The method of heating the entire structure is by indirect radiation.

A day-room is arranged where those that can exercise proper self-control can mingle, under suitable supervision. The change from the environments of the prison department where this class has been domiciled since 1893, to that of Hospital supervision will be experimental, but with the stronger construction of the wing, where their future home is to be, and the large amount of study which has been given to all of the details of the structure by the architect and the management of the hospital, and having made a minute investigation of institutions in other states designed for like purposes, we predict that this new method of caring for the criminal insane, will be made practical and successful. The hospital management were very glad to be able to accede to the wishes of the officers of the prison, when a few months ago it became so crowded, and received for care and treatment fourteen of the inmates of the insane department of They were among the most mild that could be selected, and with the exception of one or two instances when more or less violence was exhibited; they have been fairly manageable, and no accidents thus far have occurred in consequence of their mingling with our other patients. It may be said however that two or three of the most violent have been kept apart in isolated rooms. It is with much satisfaction that during all of the years since 1803 when the Legislature created a department for this class, there have been no complaints of a serious character made to any of the committee, by the relatives of the inmates or by the public, and but one serious accident has occurred, involving life, and which unavoidably happened during the past year, when one of the inmates secreted a piece of iron and dealt a blow upon one of his associates sufficient to cause

death. Neither has the quality or quantity of food been citicised, nor want of proper sanitation been complained of.

After fifteen years of constant service in the duties of the committee entrusted with this peculiar care, and in which the non-resident member has not failed to visit the department as often as once each month, and when the labors of the members are evidently about to be dissolved, it is with a degree of pride, that we believe we are able to conscientiously report to the executive and his council, that we have, in some degree been able to mitigate the suffering of this unfortunate class, that have been placed under our immediate care. And now as we retire from these exceptional and exacting duties, we wish to give expression to our feelings of no little satisfaction in being able to conduct this department so many years with so few accidents, and with exceptionally few criticisms. For that support and kindly consideration which we have always received from the Executive and his Council, we wish to give expression to our sense of profound obligations. We herewith append a tabulated statement of the changes during the past year, and the numerical condition of the inmates at the present date.

BIGELOW T. SANBORN, M. D.,	
J. EDWIN WALKER,	

Commission relating to the Criminal Insane.

Maine State Prison, Thomaston, Me., November 30, 1908.

B. O. NORTON.

# REPORT OF COUNCIL COMMITTEE OF STATE PRISON.

To His Excellency the Governor and Executive Council:

Each month during the past year I have visited and carefully inspected the State Prison.

I have found the Institution clean in every part, the discipline all that could be desired, and the health of the prisoners excellent. The present plan of feeding at common tables has proven very satisfactory. The convicts at all times during my visits have been supplied with an abundance of well cooked food. In all probability a large majority of them are better cared for in many ways than before entering the prison.

Notwithstanding the general depression of business the past year, the prison made a most satisfactory financial showing.

In all which constitutes a first class disciplinarian and business manager, Mr. Norton, the Warden, has few equals and no superiors.

The Clerk, Deputy Warden and Overseers, have worked well and faithfully for the best interests of the Institution.

A number of the criminal insane have been transferred to Augusta, and it is desirable that the remainder may soon be cared for at the same place.

When the State's finances will permit, a new prison should be built either in Thomaston, or in some place nearer the center of the State. There should be fire-proof work shops constructed in the near future. Until this is done, they, together with the store houses and stock, should be kept well insured.

The Prison is fortunate in having such an able Board of Inspectors.

If the number of convicts continue to increase it will be necessary before long to have more room; this can be done by extending the wing where the criminal insane now are.

This is my last report as Chairman of the Prison Committee on the part of the Council, and I wish to express thanks to the Inspectors, Warden and his assistants for the courtesy shown me on all occasions when visiting the Institution.

Respectfully submitted,
THURSTON S. BURNS,
Chairman.

# COUNTY JAILS.

The condition of the county jails remains much the same as at the time of our last report. We are able, however, to record improvements, in that one county has a good workshop which has been built and put into operation during the year, much to the welfare of all concerned, and another has bought land and built a building for that purpose.

The inspectors have used their best efforts, without going to the extremity of the law, to induce those counties which have not provided for the employment of their prisoners to arrange for so-doing, but have been met, in most cases by what appears to be a lack of interest. Back of this indifference of county commissioners is the widespread lack of knowledge and interest of the people of the state regarding this important subject, the treatment of those committed to our jails, whether from a disciplinary, reformatory or human point of view.

In a few of the jails we are sorry to record, the prisoners are mixed indiscriminately, during the day, in enforced idleness, the old in crime with the novice, and after weeks and months of this degrading intimacy they go out into the world again more debased, mentally and morally, than when they were committed. Such jails instead of being a means of correction and reform are rather breeding schools of crime.

In the larger jails, which are all provided with workshops, and the smaller ones where an effort is made to keep the prisoners employed, the cells and corridors are unoccupied during the day and are easily kept clean, and are in a cleanly and wholesome condition. The sanitary conditions in most of the jails are good, and in all fair. The food rations, while not as well balanced as they should be, are of good quantity and well cooked, and the condition of the prisoners shows them to be sufficiently nourished.

In all of the larger jails we strongly recommend that they follow the example of the State Prison, and serve the meals on tables in the corridors, as being more economical and cleanly than the present system of putting the food in the cells. The table service could be installed with very little expense.

The discipline in the jails, especially where employment is provided, is generally found to be good.

We are pleased to note that the sheriffs and jailers who are in close touch with the prisoners are always in sympathy with any reasonable and sensible interest in their welfare, and always ready to assist in any needed reform.

A serious feature of many of our jails is the lack of room. Many of them were built years ago, and although substantial and well constructed are too small for present conditions.

# Androscoggin.

This jail has been overcrowded the entire year. It has had 1,271 commitments, more than 400 over the previous year. They have had 61 prisoners from other counties in addition to their own, and the condition of the jail has been crowded to the extreme. While this jail is well run it is sadly in need of some very substantial repairs to meet the present needs of this fast growing county. Something ought to be done to safeguard the women prisoners. We have called attention to the hazardous location of their quarters in case of fire and a petition has been sent to our board praying for better accommodations for the female prisoners in the way of opportunity of daily exercises, etc., etc. The best discipline cannot be maintained in the jail that is constantly overcrowded as is this one.

#### Aroostook.

The number of commitments in this jail was 192—17 more than last year, when the number reached the low water mark for a number of years. This jail is uniformly kept in good condition. The prisoners manufacture a large lot of merchantable stove wood that finds a ready sale at good prices. The sheriff thinks that a small farm could be profitably worked by the prisoners in the summer time when there is no wood for them to work upon.

### Cumberland.

There have been a large number of commitments at this jail the past year, 1812—1025 of them for drunkenness. An average of 90 have been employed in the workshop. Fully 50% of those committed for drunkenness should have been sent to a farm for chronic inebriates. Sending them to a jail to be turned out at the end of their short sentences has no reformatory effect upon them. It simply deprives their families of their labor for a given length of time. As we have already suggested, this jail was built many years ago, and is far from modern in its present condition. Among the requirements of today are a dining room where the prisoners can be fed from a table, at a great saving from the present ancient custom of giving each man a given portion to be taken to his cell and eaten in solitude and with great wastefulness.

## Franklin.

This county has under discussion a new location for her jail, and when it is settled a workshop is promised. The present jail and its location would sell readily and a much more desirable location can be had where there would be ample room for a model set of county buildings. As it is at present there is no place for working the 134 prisoners that were committed there last year, 44 of them were committed for drunkenness and 81 for liquor selling. We hope soon to be able to put Franklin in the right column on the workshop matter.

#### Hancock.

This jail is increasing its inmates each year, having had 33 commitments the year just passed. If this condition of things continues it will certainly be necessary to employ these men in some way. Today they are only used in keeping the county buildings in order, which is hardly enough to give them good exercise. The jail is kept in good physical condition.

#### Kennebec

This county has made very marked improvement in its county buildings expending a very large sum of money the last two

years. A new steam heating plant with electric lights are among the material improvements at the jail, \$3,500 having been expended for this work. These improvements were much needed and are greatly appreciated. Kennebec now has a modern jail in all its appointments, and is particularly well conducted. 876 prisoners were committed last year, the majority being for drunkenness and liquor selling. The workshop here is out of commission at the present time owing to the failure of the contractor to meet his engagements but it is expected that work will soon be resumed.

#### Lincoln.

Although there were but 47 men committed to this jail last year there was a lot of valuable road material manufactured for the streets of Wiscasset. Sheriff Rafter and Jailer Dow keep this ancient bastile in as good condition as it is possible.

# Oxford.

The officials of this county have seen a new light, and a good substantial stone yard is ready for business when the officials secure a competent person to take charge of it. If the right man is engaged there will be a great falling off in the prisoners at this jail in the very near future. Last year there were 202 commitments, the greatest number ever known. These figures can be materially reduced when the new shop gets into practical operation. Jailer Farrar had a narrow escape for his life last summer, when a desperate attempt to escape was made by three bound over men, who are now in the State Prison for the attack upon Officer Farrar.

#### Knox.

There seems to be nothing new to report concerning the jail in this county over that of last year, conditions remaining the same. The number of commitments in this jail was 102, an increase of 17 over the last report.

#### Penobscot.

Here is another jail that is overcrowded nearly all the year. In addition to 871 men of its own it was obliged to take 22 prisoners from other counties, and 94 from the United States courts, making an aggregate of 987 for the year. Nearly half of that number were committed for drunkenness, 68 for liquor selling and 309 for non-payment of fines. Like Cumberland, Penobscot needs a farm for chronic inebriates to relieve the crowded condition of the jail. This jail has been uniformly kept in as good condition as possible, considering the crowded condition. We would strongly recommend table service in this county.

# Piscataquis.

Here is one of our newest and smallest jails that is uniformly well kept. An unusual occurrence marred the daily routine life the past year. There was a serious assault upon the sheriff by a prisoner, who was doubtless urged to do the deed by older convicts. Fortunately Sheriff Knowles escaped with serious but not fatal injuries, and the perpetrators are at State Prison. A more complete classification of prisoners might possibly have averted this offense.

#### Somerset.

The prisoners here are given altogether too much freedom in the corridors. A workshop has been promised by the county commissioners but has not yet materialized. It should be furnished at once. There is an ideal spot adjoining and west of the jail, and it was on this location that the commissioners agreed to erect a shop several months ago. There were 108 prisoners committed last year. The food served here is of good material and sufficient in quantity.

## Waldo.

Here is an old style jail but it has been greatly improved in general appearance and is very comfortable. It has no regular workshop but a good sized wood yard where much labor is performed. There were 96 commitments the past year, 13 of them for drunkenness and ten for liquor selling.

# Washington.

This county is to be congratulated upon erecting a modern and commodious wood or stone yard. It is ample for the needs of the county for a good many years to come. This jail has long been notorious as an easy lodging place for easy workers. The prisoners have had the range of the corridors by day and far into the evening, the cells only being used for sleeping purposes. A new order of things is already established, and the prisoners are now at work or are kept in their cells. We predict that the new shop is going to reduce the inmates of the jail very materially. Last year there were 142 commitments, 89 being for drunkenness. The county commissioners are to be commended for the business like manner in which they provided ample quarters for working prisoners.

#### York.

This jail has been well administered. There have been 543 commitments for the year, 269 being for drunkenness, and 28 for liquor selling. A well equipped work shop is one of the interesting features of this jail. It is well conducted, and an average of 40 men are employed there. Jailer Rankin, who has been a faithful official retires from the position at the close of the present year.

#### REPORT OF ANDROSCOGGIN COUNTY JAIL.

County Officers—George L. Parcher, A. B. Nealy, J. L. Cummings, County Commissioners; D. R. Hastings, Sheriff and Jailer; Zephriam Vincent, Turnkey; H. S. Sleeper, Physician; F. M. Furbush, Overseer Workshop.
