# State of Maine

OFFICE OF STATE AUDITOR.

AUGUSTA, February 1, 1909.

*To the Honorable Senate and House of Representatives, in  
Legislature Assembled:*

In accordance with the provisions of Section 7, of Chapter 147, of the Public Laws of 1907, the Auditor begs to submit to the Legislature a full and accurate statement of the financial condition of the State and of the financial transactions thereof for the two years ending with the Thirty-first day of December, 1908.

The Act which created the office of State Auditor was approved and took effect upon March 26, 1907. On June 12, 1907, appointment was made by the Governor and on June 28, 1907, the undersigned qualified for the discharge of the duties of State Auditor as prescribed by that law.

The succeeding three months were devoted to a close examination of the laws governing state expenditures, and while many vexatious legal problems arose none were of sufficient importance to delay the immediate operation of the law.

At the request of the Auditor the Governor and Council issued the following order, viz:

## STATE OF MAINE.

In Council, October 1, 1907.

ORDERED: That all accounts and demands against the State including all matters requiring the payment of money from the State Treasury, be hereafter presented to the State Auditor for audit and approval before payment, as prescribed by an act, Chapter 147, of the Public Laws of 1907, establishing the office of State Auditor.

All state officers, heads of departments, institutions, commissions, boards of trustees, and other branches of the government, will take notice hereof and be governed hereby.

(Signed) BURNS.

In Council, October 1, 1907.

Read and passed by the Council, and by the Governor approved.

(Signed) A. I. BROWN,

*Secretary of State.*

Upon the passage of the above order the task was undertaken, not with a view to impede or impair the necessary financial

operations of the state, but to give the fullest effect to the law upon a broad and liberal interpretation of the same.

Gradually it was made to embrace all departments and state institutions until at the close of the year 1908 only the Maine State Prison at Thomaston, State School for Boys at Portland and University of Maine at Orono were being conducted as heretofore. Only the lack of clerical assistance at this time prevented bringing the three last named institutions within the scope of the law.

It is a well recognized principle of commercial practice that it is useless to "audit" a bill after it is paid, and that to be effective the audit must be made before payment, that erroneous charges may be eliminated.

Thereupon the Auditor required that all bills should proceed through the Auditor's office that payment might be made direct from the State Treasury.

Many of the departments were then holding balances of funds which had been placed at their disposal for the purpose of meeting current liabilities, and these have been so far as possible applied as intended or later returned to the Treasury.

The change from the old method to the present one of auditing bills as presented, has involved the examination of a vast amount of detail, as well as the work of reorganization of the various departments and institutions upon the new basis, which, once completed, will not arise again, and this with only fifteen months to complete the work ordinarily covering a two years period.

#### REFERENDUM.

The Auditor believes that the constitutional amendment adopted at the election in September last and known as the "Referendum" has a very important bearing upon the fiscal affairs of the State, and that to secure the best results it would be well to change the termination of the fiscal year from December 31st, to June 30th.

This would allow the Legislature ample time to consider all financial legislation and provide for its requirements, and at the same time not interfere with the regular routine work of the various departments which is, temporarily at least, suspended pending the enactment of appropriation bills and other financial measures.

Again it would make it possible for the various departments, after the close of the fiscal year, to prepare their reports and have them in readiness for the following session of the Legislature.

#### AUDITOR'S REPORT.

Section 7, of Chapter 147, of the Public Laws of 1907, provides, "He (the Auditor) shall, on or before the first day of February biennially submit to the Legislature a report, in print or otherwise."

This report of necessity involves the accumulation of a vast amount of detail and, if withheld until the first of February when the legislative and department printing is taxing the capacity of the public printer to the utmost, the delay incident to its completion will make it valueless for the purposes of the Legislature. Under the present circumstances it is a practical impossibility for the Auditor to close his accounts on December 31st, and have anything like a satisfactory statement of the State's affairs for the Legislature assembling immediately thereafter.

#### SUGGESTED CHANGES IN LAWS.

The last part of Section 5, reading thus, "And he (the Auditor) shall not approve any bill or account against any appropriation, unless said bill or account was incurred during the time for which such appropriation was made," should be modified so as to permit payments for expenses incurred during a previous period, provided such expenses are clearly shown in an itemized statement embodied in the Auditor's report of such expenditures. It is manifest that all of the expenses incurred during the last month of any year cannot possibly be paid before the appropriation lapses, and such expenses by the terms of the Act must be carried over, sometimes more than a year, for report to the next Legislature. Creditors of the State rightfully complain of the injustice which may be equitably eliminated by a modification of this clause.

Provision should be made by express statute that all appropriations not otherwise specifically provided should lapse at the end of the fiscal year. This would allow a modification of the appropriation bills which now permit the Governor to draw his warrant for the amounts only between specified periods.

The Auditor would suggest a law providing that where the salaries of state officers and clerks are fixed by law and appropriation conforming thereto provided for the same, such officers and clerks should not be permitted to draw from other appropriations for services manifestly within the scope of the duties of the office for which the salary is provided.

The Auditor would also suggest the abandonment of general appropriations like salaries of public officers, printing, binding, postage, stationery, transportation of documents, etc., and of limiting to each department and setting aside therefor the amount required by each department. It is frequently the case that one department will provide for its requirements very early in the year out of such appropriations to an extent which will prevent some other department whose necessities are not so early apparent from providing itself with the actual necessities of conducting its affairs.

Where these general appropriations exist, and all departments are drawing from them, it involves duplicate reporting of the same to show the actual expenditure of the appropriation and again to show the same expenditure grouped under the department so as to show its gross expenditure.

Where appropriations have been provided for specific purposes, it has been required that all payments for such work should be applied against such specific appropriations, notwithstanding they involved general appropriations like postage, printing, stationery, etc., and in so far as this was possible it has relieved these last named appropriations, some of which must otherwise have shown a deficit.

We believe it would be good practice, where gifts and bequests are made in favor of any state department or institution for its future use and benefit, that such gifts and bequests, if in the form of invested securities, should be in the custody of the State Treasurer there to be held subject to the terms of such gift or bequest.

#### EXAMINATION OF TREASURER'S ACCOUNTS.

Below is shown in full the report of the Auditor upon the examination of the State Treasurer's accounts after the close of the year 1907.

It should be borne in mind that this examination was previously conducted by a committee appointed by the Governor, and were paid from the "Contingent Fund of the Governor and Council." Since the close of the year 1907, the change in the method of drawing and paying warrants has to a considerable extent reduced the labor incident to such an examination. The Auditor hopes to modify the procedure so as to further eliminate unnecessary detail, and consequent delay in this examination.

AUGUSTA, March 31st, 1908.

*To His Excellency, the Governor, and the Honorable Executive Council:*

In accordance with the provisions of Section 6, of Chapter 147, of the Public Laws of 1907, the Auditor submits the following report of an examination of the accounts of the State Treasurer as they existed at the close of business, December 31, 1907.

CASH.

On January 1, 1908, the cash on hand at the office was found to be as follows:

Coin and Currency .....	\$864 27
Checks .....	193,180 27
	<hr/>
Total .....	\$194,044 54

The balances due from National Banks and Trust Companies aggregated \$285,422.92 and these have since been carefully verified and reconciled with the accounts of the several banks.

It will thus be seen that the total Cash Balance of the Treasury on December 31, 1907, was \$479,467.46.

RECEIPTS AND EXPENDITURES.

The total receipts of the Treasury from various sources for the fiscal year amounted to \$3,306,733.24, and this with the balance on hand at the beginning of the year of \$597,971.02, made an aggregate sum of \$3,904,704.26 available to meet the current expenses of government.

The detail of the receipts are briefly and correctly set forth in the report of the Treasurer.

The detail of the expenditures is also briefly and correctly set forth in the report of the Treasurer and was found to be \$3,425,236.80, leaving a balance on hand of \$479,467.46.

All payments were properly supported by Warrant of the Governor, or Council Order, except \$173.06.

This amount is made up of the following items:

State Tax 1905, % N $\frac{1}{2}$ 3, R. 4, W. K. R. Som.....	\$17 28
1906, % R. L. 4, R. 13, W. E. L. S. Pisc.....	5 15
County Tax Piscataquis, % R. L. 4, R. 13, W. E. L. S.	3 30
County Tax Somerset, % N. $\frac{1}{2}$ 3, R. 4, W. K. R.....	9 33
Tax on Corporations 1907 .....	15 00
Dog licenses % Clifton .....	3 00
New Corporations .....	120 00

Of the receipts above mentioned \$15,967.54 was credited to and thus increased the State's liabilities upon funds held in trust, while \$563.00 was realized from the sale of Islands by the Land Agent and should be held as a fund to liquidate the public debt as provided by Chapter 339, of Resolves of 1850.

Of the expenditures above mentioned \$380,000.00 was charged to and thus reduced the bonded debt of the State to \$713,000.00, while \$2,080.00 was charged to and thus reduced the fund held in trust for the Passamaquoddy Tribe of Indians.

#### RESOURCES OF THE STATE.

The cash in the treasury was \$479,467.46. The amount actually due upon State Taxes and uncollected is not easily determined and the Auditor is not yet ready to subscribe to the accuracy of the amount stated in the Treasurer's report.

The securities held in trust for fraternal and beneficiary organizations were examined and compared with the records.

#### LIABILITIES OF THE STATE.

The bonded debt of the State so far as it relates to the principal of the same is correctly stated in the Treasurer's report. There is yet outstanding, however, a considerable amount of the unpaid coupons on former issues of bonds, and while the records of these are probably accurate I am not able at this time to state the exact amount now unpaid.

Several of the funds held in trust and upon which interest is paid by the State are known to be inaccurately stated in the Treasurer's report, notably the funds of the Indian Tribes, "Lands Reserved for Public Uses" and the "Permanent School Fund."

The development of the correct figures and balances of these funds will require much more time in research than the Auditor has been able to devote to it up to this time.

Three of the principal items in the bonded debt statement represent liabilities incurred upon trust funds which have not been stated as such for a long time in the reports of the Treasury, viz: \$118,300.00 issued to the Maine State Agricultural College upon the sale of its U. S. Land scrip and \$100,000.00 issued to the Maine State Agricultural College upon payment of the Coburn bequest in favor of that institution in 1887, and \$50,000.00 issued to the Maine Insane Hospital upon payment of the Coburn bequest in favor of that institution in 1887.

The Treasury reports for some years back have failed to show that these items are held against trust fund obligations of the State.

The bond of \$50,000.00 issued to the Maine Insane Hospital is lodged with the Treasurer of that institution.

#### DESTRUCTION OF REDEEMED BONDS.

The repeal of Section 77, of Chapter 2, of the Revised Statutes by Chapter 147 of the Public Laws of 1907 leaves no prescribed method of destruction of redeemed and cancelled bonds and such as have been redeemed during the past fiscal year still remain in the custody of the Treasurer, as the Auditor finds no authority for any other disposition of them.

The Auditor regrets that the exacting duties attending the establishment of a new department and the lack of appropriation for the necessary assistance have precluded an earlier and more exhaustive report upon the State's finances and its accounts in general.

Respectfully submitted,

CHARLES P. HATCH,

*State Auditor.*

Below is shown in full the report of the Auditor upon the examination of the State Treasurer's accounts as they existed at the close of the year 1908.

AUGUSTA, MAINE, February 1, 1909.

*To His Excellency the Governor and the Honorable Executive Council:—*

In accordance with the provisions of Section 6, of Chapter 147 of the Public Laws of 1907, the Auditor begs to report that he has examined the accounts of the State Treasurer as they existed at the close of business on December thirty-first, 1908.

The cash balance was found to be as follows:—

Coin and currency .....	\$3,073 28
Bank deposit balances .....	565,461 16

Total .....	<u>\$568,534 44</u>
-------------	---------------------

The bank balances have all been reconciled and verified. All expenditures for the fiscal year were found to be supported by warrant from the Governor and Council.

The trust funds in the custody of the Treasurer were also examined and found correct.

The bonds redeemed have been cancelled and are still held in the Treasury, there being no authority for any other disposition of them. The accounts of receipts and expenditures have been carefully compared and are correctly stated.

There has been no temporary loan negotiated during the last fiscal year.

Respectfully submitted,

CHARLES P. HATCH,  
*State Auditor.*

## TRUST FUNDS.

The Treasurer's Trust Fund Ledger shows two open credits of One Thousand Dollars each, in favor of School District No. 2, Madison, only one of which is in effect.

It also shows a credit of One Hundred Thousand Dollars in favor of the Union Mutual Life Insurance Company, which was set up June 1, 1864, by the deposit of State of Maine Bonds of the same amount, and which credit was never cancelled after the retirement of the bonds on deposit.

Authority by Special Resolve or otherwise should be given the Auditor or Treasurer to set up the ascertained or true balances after careful examination of all the facts in relation to them, so the accounts thereafter may show the true balances.

## PENOBSCOT INDIAN FUND.

Having completed an exhaustive examination of the Treasurer's account of the Penobscot Indian Trust Fund, so many discrepancies appeared which seem to make corrective legislative measures imperative, we have appended the full results hereto.

TABLE, SHOWING GROWTH OF THE PENOBSCOT INDIAN FUND FROM ITS BEGINNING TO DECEMBER 31, 1872.

YEAR.	Receipts from sales pine timber and townships. Res. Mar. 5, 1830.	Receipts from leases.	Credited account of interest.	Total credits.	Paid from fund.	Net increase Dec. 31.	Net decrease Dec. 31.	Balance each year. Dec. 31.

AUDITOR'S REPORT.

\* This includes \$50,000, proceeds of sale of two townships.

a. Includes \$360.00, interest on notes of A. M. Roberts, et al. given for pine timber sold.

b. No interest was credited for 1845, but it appears to have been entered in the following year, and thus successively until 1849, when two years' interest was credited, to December, 1849.

c. This is interest from May 1, 1851, to December 31, 1852, and there appears to have been no credit for the interest for the period between December 31, 1850, and May 1, 1851. This would amount to \$1,167.13.

d. \$175.00 of this amount was not accounted for in the "general settlement" of the treasurer for 1858 or 1859. The entry in the fund ledger shows it was paid the agent by C. E. Dole, at Brewer, in 1858.

e. The actual amount received as shown by the treasurer's books and the "general settlement" of the treasurer was only \$1,070.00.

f. The books of the treasurer show that \$275.00 was received for leases.

g. Beginning with 1860, and thereafter, interest on the fund was appropriated and paid to the agent of the tribe. There have been no drafts upon the funds except for such interest.

h. The books of the treasurer show \$37.00 more received on account of leases.

i. The books of the treasurer show \$17.00 more received on account of leases.

j. The books of the treasurer show \$432.00 more received on account of leases.

k. The books of the treasurer show \$45.00 more received on account of leases.

l. The books of the treasurer show that only \$145.00 was received on account of leases.

m. This balance was brought forward in the trust fund ledger, December 31, 1859, as \$50,593.44, or \$1,000.00 larger than it should have been. The final balance shown at the foot of this column is just \$1,000.00 less than the amount shown by the treasurer's reports since 1872.

n. In 1867 the appropriation for the Penobscot Indians was over-expended to the extent of \$172.69, which sum has not been deducted from the fund.

As the items marked e, f and l practically offset in amount, they are omitted from the computations in arriving at any balance which might be due on account of this fund to and including December 31, 1908. Had the difference in interest been credited as it accrued, the fund would be \$15,763.96 larger than it shows on December 31, 1908 by the Treasurer's accounts, or \$89,592.44. Had the interest for the four months between December 31, 1850, and May 1, 1851, been properly credited the fund would have been increased \$1,754.89 on December 31, 1859. From this amount should be deducted the error of \$1,000.00 in bringing forward the balance, thus showing that there was due on the fund on that date \$754.89 more than the reports of the treasurer indicated. This amount was augmented from time to time up to December 31, 1869, when the difference between the amount reported and the actual balance due upon the fund was \$1,727.69. If only simple interest were allowed on this amount to December 31, 1908, it would require an appropriation of \$4,770.48 to bring the fund up to \$78,598.96. It would seem, however, that there having been no fault on the part of the beneficiaries under this fund, but the fault being wholly on the part of the agents or representatives of the State, it would be manifestly the proper course to place this fund at the amount it should rightfully be on December 31, 1908, or \$89,592.44.

#### REMARKS.

In the tabulations which follow hereinafter, the Auditor has adopted those figures shown by the State Treasurer's reports prior to 1908.

Reasonable provision should be made by an appropriation to enable the Auditor to procure extra assistance to review the several funds, as well as to secure a proper audit of the accounts of departments, institutions and commissions formerly entrusted with the expenditure of public moneys.

None of the expenditures during 1907 were certified by the Auditor until Nov. 12, and subsequently where expenditures were not certified they are so shown.

It has not been possible up to this time to arrange all of the information relating to expenditures in satisfactory form for the printer, but it will follow promptly as an appendix to this report.

The following tabulations show the Resources and Liabilities of the State on January 1, 1907-1908 and 1909 and comparative tables of receipts and expenditures for the fiscal years 1907 and 1908.

## RESOURCES.

	Jan. 1, 1907.	Jan. 1, 1908.	Jan. 1, 1909.

RECONCILEMENT OF BALANCES OF GEORGE H. HUNT, AGENT.

		CREDIT.	
	Amount overpaid on account of interest on tribe's fund	-	\$460 57
	Amount overpaid on account of salary of agent	-	400 00
	Amount overpaid on account of salary of Priest	-	125 00
	Total		\$985 57
		DEBIT.	
	Balance of spring dividends unexpended	\$12 75	-
	Shore rents,	66 16	-
	Annuity,	25 00	-
	Bounty on crops,	9 50	-
	Incidental expenses of schools, unexpended	67 87	-
	Total		\$181 28
	Net balance due George H. Hunt, agent		\$804 29

NOTE. When remittance is made to the agent on account of interest on tribe's fund and other 1907 appropriations he will have a credit balance unexpended of \$19.13, which amount added to his other balances unexpended will make \$200.41. This amount plus the net amount now due the agent of \$804.29, equals \$1,004.70, the amount unpaid on account of 1907 appropriations.

Claims not approved by the Auditor and reported to the Governor and Council, as provided in Section 5, of Chapter 147, Public Laws of 1907.

Action of the Governor and Council thereon is shown by Council Orders following.

STATE OF MAINE.

---

OFFICE OF STATE AUDITOR,

AUGUSTA, December 10, 1907.

*To His Excellency the Governor, and the Honorable Executive Council:*

I hereby certify that I have not allowed to the several parties upon the schedule hereunto annexed the sum set against each name, which would otherwise be chargeable to the appropriations under which they appear, and amounting in the aggregate to \$1,622.55. The reasons for such action is stated briefly under each item in the accompanying schedule in compliance with Section 5, of Chapter 147, of the Public Laws of 1907.

(Signed)

CHARLES P. HATCH,  
*State Auditor.*

APPROPRIATION FOR "FINES AND  
LICENSES FOR THE PROTEC-  
TION OF GAME."

Maine Central Railroad Co., Portland.....	\$120 00	
Chapter 32, Section 56, Revised Statutes,	_____	
Total .....		\$120 00

The foregoing claim was disallowed upon the ground that, as presented, it was not capable of proper audit. It is a well recognized fact that the purchase of a mileage book does not entail a liability for expense incurred; that only the use of such mileage book by the removal of its coupons involves an expense for which the State is properly chargeable. The bill was returned to the department from which it originated and the chairman of the commission later informed that unless it was shown when, how and by whom used it could not be allowed.

APPROPRIATION FOR "SALARY OF  
CLERK IN INLAND FISHERIES  
AND GAME OFFICE."

Myrtle H. Hodgdon, Augusta.....	\$250 00	
Chapter 84, Section 2, Public Laws 1905,	_____	
Total .....		\$250 00

Under the provisions of the law quoted above, it is clear that the amount of salary to be paid to such clerk is limited to seven hundred and fifty dollars per year, and as that amount has already been paid during the year 1907, I have not seen fit to certify this amount for payment before referring same to the Honorable Governor and Council. There is an appropriation for \$1,000.00 provided in Chapter 447, P. & S. Laws 1907.

The above amount is for salary for October, November and December, 1907.

APPROPRIATION FOR "SALARY OF CLERKS IN BANK EXAMINER'S OFFICE."

Miss Iva Pierce, Augusta.....	\$42 00	
Sybil H. Minot, Augusta.....	6 25	
William G. Ellis, Gardiner.....	375 00	
Miss Claridel Bradstreet, Augusta.....	200 00	
Miss Belle E. Gay, Augusta.....	36 00	
Chapter 115, Resolves 1891,		<hr/>
Total .....		\$659 25

The above Resolve, being the only authority for the appointment of such clerks, limits the expense thereof to the State to \$1,000.00 under the following: "\* \* provided, however, that the expense to the State for such clerk hire shall not exceed the sum of one thousand dollars in any one year, &c."

While there is an appropriation of \$2,500 provided in Chapter 447, of the P. & S. Laws of 1907, there has already been paid on account of such clerks more than one thousand dollars during the year 1907. The above amounts are for salaries for October, November and December, 1907, and special services rendered to the Bank Examiner.

APPROPRIATION FOR "CONTINGENT FUND OF STATE TREASURER."

Pascal P. Gilmore, Treasurer, Augusta.....	\$43 30	
Chapter 2, Section 69, Revised Statutes,		<hr/>
Total .....		\$43 30

The above bills are for newspapers, and the Auditor does not feel that he can properly approve them as a legitimate expense of the department.

APPROPRIATION FOR "SALARY OF  
STENOGRAPHER AND TYPE-  
WRITER."

Miss Adelaide M. French, Augusta.....	\$250 00
No law authorizing payment,	<u>                    </u>
Total .....	\$250 00

The person named above is the stenographer to the Governor and there is no law which the Auditor can quote, as required to by Chapter 147, of the Public Laws of 1907, which grants any authority for the appointment, or fixes the compensation of such stenographer. The appropriation above referred to, though it is believed was intended to cover the compensation of such a person, does not state that it is for the Executive Department, or any other.

While there has been no bill presented for this amount, I have included it for your consideration.

APPROPRIATION FOR "SALARY OF  
PUBLIC OFFICERS."

Ivan E. Lang, Augusta.....	\$300 00
Chapter 159, Public Laws 1905,	<u>                    </u>
Total .....	\$300 00

The annexed "copy" of the appointment of said Lang as Deputy Insurance Commissioner appears to lack in some particulars the essentials of a statute appointment and the question arises is the incumbent a "Public Officer," and entitled to draw his compensation from that appropriation?

There has been no bill presented to me, but believing it a proper matter for your determination, I submit it.

Total amount not allowed.....	<u>                    </u>	\$1,622 55
-------------------------------	-----------------------------	------------

Not approved,  
(Signed)

CHARLES P. HATCH,  
*State Auditor.*

## STATE OF MAINE.

IN COUNCIL, December 31, 1907.

*Ordered,* That the State Auditor certify to the Governor and Council for payment, the salary of the clerk in the Inland Fisheries and Game office, as the same becomes due and payable not exceeding the appropriation therefor.

This order is effective until December 31, 1908.

(Signed) C. F. DAGGETT.

*Ordered,* That the State Auditor certify to the Governor and Council, for payment, the salaries and compensation of clerks in the Bank Examiner's office as the same become due and payable, not exceeding the appropriation therefor.

This order is effective until December 31, 1908.

(Signed) C. F. DAGGETT.

*Ordered,* That the State Auditor certify to the Governor and Council for payment, the bill of Pascal P. Gilmore, Treasurer, hereto annexed for newspapers and amounting to forty-three dollars and thirty cents (\$43.30) charging same to Contingent Fund of the State Treasurer.

(Signed) C. F. DAGGETT.

*Ordered,* That the State Auditor certify to the Governor and Council for payment, the salary of the stenographer and typewriter to the Governor as the same becomes due and payable, not exceeding the appropriation therefor.

This order is effective until December 31, 1908.

(Signed) C. F. DAGGETT.

*Ordered,* That the State Auditor certify to the Governor and Council for payment, the salary of the Deputy Insurance Commissioner as the same becomes due and payable charging the appropriation for "Salary of Public Officers."

This order is effective until December 31, 1908.

(Signed) C. F. DAGGETT.

IN COUNCIL, December 31, 1907.

Read and passed by the Council, and by the Governor approved.

A. I. BROWN, *Secretary of State.*

A true copy,

Attest:

(Signed)

A. I. BROWN, *Secretary of State.*

## ERRATA.

---

On page 31 of preliminary report, on the 13th line below column headings, "Permanent School Fund \$522.16" should add to "Lands Reserved for Public Uses." See page 24 for correct figure.

On page 51 Appendix, Part I, Detail No's 285 and 286 should read:  
285 Central heating and lighting plant..... 45,000 00  
286 General appropriation for maintenance..... 65,000 00

On page 143 Appendix Part I, read "Detail No. 110" instead of "Detail No. 62."

On pages 271 to 288 inclusive of Appendix Part I, the headings should read: "Detail of expenditures by Charles A. Rolfe, Agent of Passamaquoddy Indians."

On page 393 Appendix Part I, amount shown as "unexpended balance" of appropriation for "Free High Schools" should read: "Paid Pascal P. Gilmore, Treasurer, on Warrant No. 35 to be paid on Council Order in 1908."

On page 396 Appendix Part I, Detail No. 253, should read: "Paid Pascal P. Gilmore, Treasurer." This amount was not drawn on Warrant 35 to be paid on Council Order in 1908, but was paid during 1907.

On page 432 Appendix Part I, Detail No. 287, second line from bottom, should read: "1906" not "1907".
