## BOARD OF TRUSTEES.

---

### *President.*

EDWARD B. WINSLOW, Portland.

### *Treasurer.*

ROSWELL C. BRADFORD, Portland.

HENRY W. SARGENT, Sedgwick; THOMAS P. SHAW, Portland;  
HARRY E. PLUMMER, Lisbon Falls.

### *Principal.*

ELIZABETH R. TAYLOR.

### *Educational Department.*

MARY L. DIVINE, 1st Assistant.  
L. ISABEL HARRIS, Teacher.  
ESTELLA M. DRAPER, Teacher.  
ANNIE L. PATRICK, Teacher.  
MABEL J. LIBBY, Teacher.  
MARTHA M. TAYLOR, Teacher.  
KATE E. HAY, Teacher.  
MARGARET J. WORCESTER, Teacher.  
MARIA A. ROGERS, Teacher.  
FANNIE P. KIMBALL, Teacher.

### *Teacher of Gymnastics.*

GRACE M. CLIFFORD.

### *Teacher of Drawing.*

GRACE A. GORSLINE.

### *Physician.*

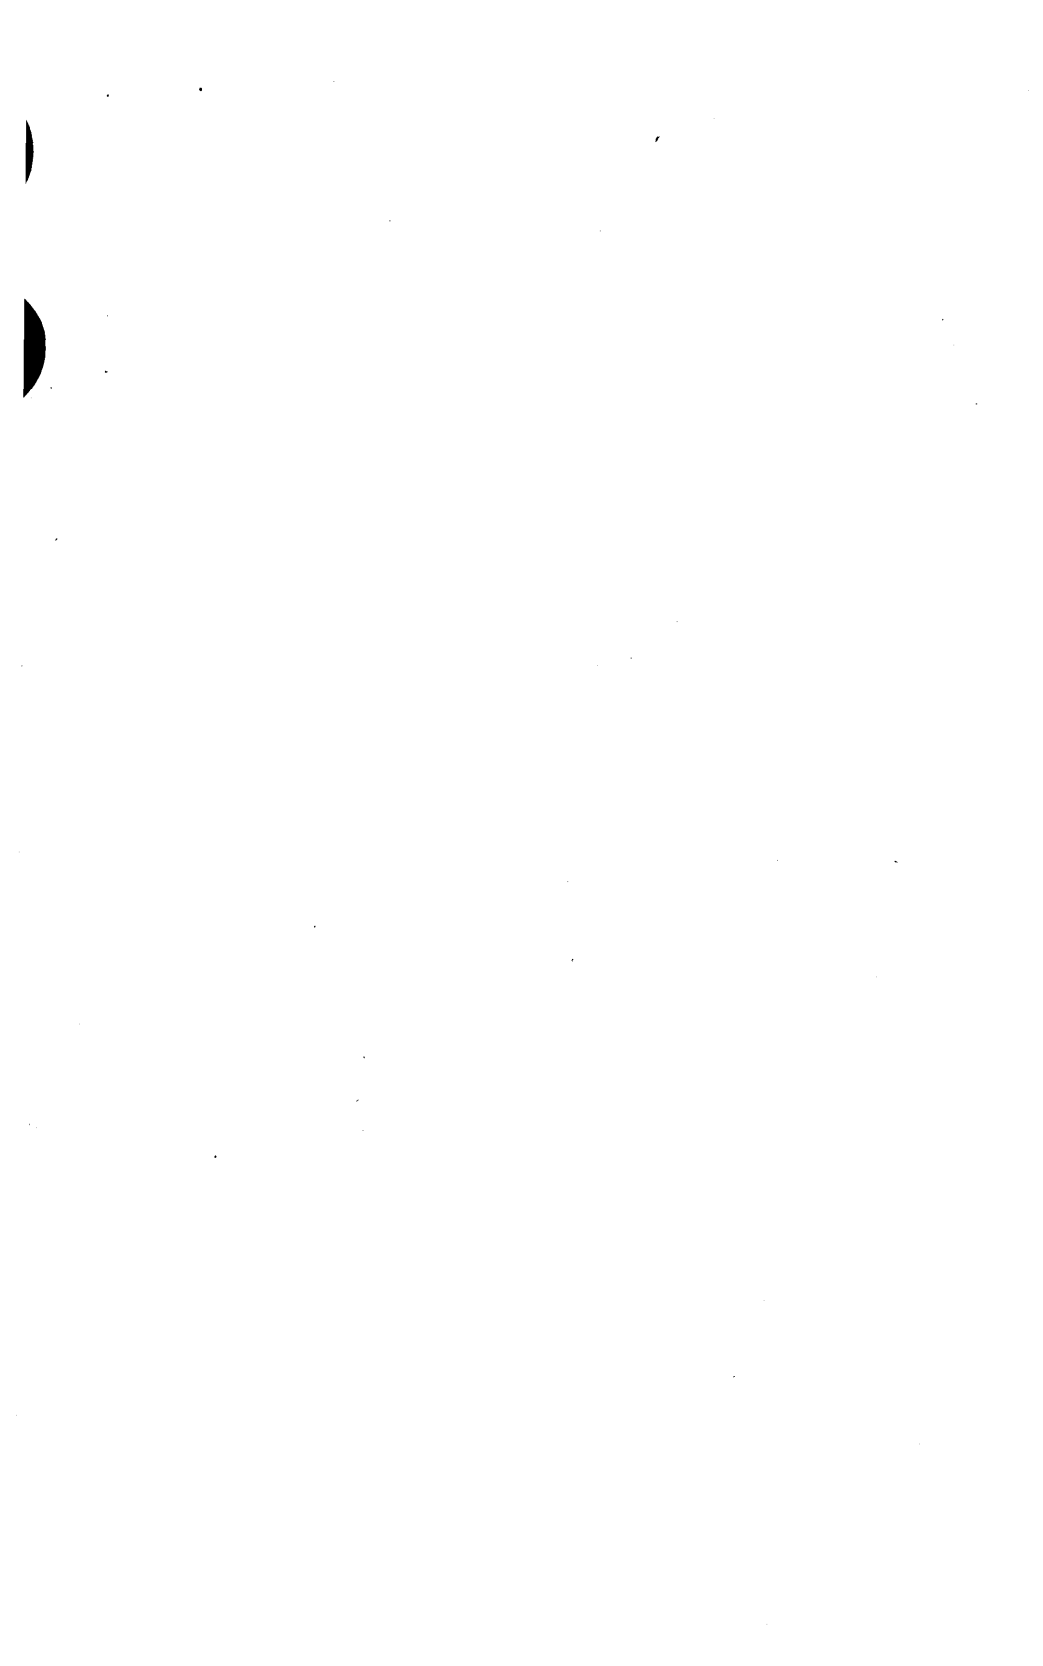

RICHARD D. SMALL, M. D.

### *Industrial Department.*

ESTELLA M. DRAPER, Teacher in Charge.  
FRANK M. NELSON, Teacher of Printing.  
WM. H. LIBBY, Teacher of Carpentry.  
GRACE A. GORSLINE, Teacher of Sloyd.  
ANNIE S. MANDELL, Teacher of Cooking.  
CARRIE W. GIRDLER, Teacher of Sewing.  
LUCY J. HADLEY, Teacher of Domestic Science.  
RUTH HARDING, Teacher of Domestic Art.

### *Household Department.*

ANNIE S. MANDELL, Matron.  
CARRIE W. GIRDLER, Supervisor of small girls.  
LUCY J. HADLEY, Supervisor of large girls.  
JOSEPHINE M. HODGKINS, Supervisor of small boys.  
CHARLES H. CLEAVES, Supervisor of large boys.  
CARL H. LUFKIN, Engineer.

## STATE OF MAINE.

---

IN THE YEAR OF OUR LORD ONE THOUSAND EIGHT  
HUNDRED AND NINETY-SEVEN.

---

AN ACT Establishing the Maine School for the Deaf.

*Be it enacted by the Senate and House of Representatives in Legislature assembled, as follows:*

Sect. 1. The Maine School for the Deaf is hereby established to be devoted to the education and instruction of deaf and dumb children.

Sect. 2. Said school shall be located at Portland, in the county of Cumberland, and the governor and council are hereby authorized, on behalf of the State, to accept a conveyance from the city of Portland of the school lot, building and fixtures now used as a school for the deaf in said Portland upon the condition that the State shall hereafter assume the entire charge, responsibility and expense of maintaining said school.

Sect. 3. The government of said school is hereby vested in a board of five trustees, to be appointed by the governor with the advice and consent of the council, to hold office for a term of five years, except, however, that the trustees first appointed shall hold office, one for one year, one for two years, one for three years, one for four years and one for five years.

Sect. 4. The trustees shall have charge of the general interests of the school and see that its affairs are conducted in accordance with law and such by-laws as they may adopt; they may adopt by-laws which shall be valid when sanctioned by the governor and council; they may employ a principal and such teachers and other employees as they may deem advisable, and fix the compensation of the same subject to the approval of the governor and council; they may from time to time prescribe the system of education and course of study to be pursued in the school and shall be allowed for their services their actual expenses and two dollars a day when actually employed.

Sect. 5. With the consent of its parent or guardian the trustees may admit to said school, for a term not exceeding twelve years, any deaf or dumb child residing in this State and not less than five years of age, who shall not be withdrawn or discharged from said school, except with the consent of the trustees or the governor and council, and the sums necessary for the support and instruction of such children while attending said school shall be paid by the State.

Sect. 6. Deaf and dumb children residing in other states may, at the discretion of the trustees, be admitted to said school upon the payment by their parents or guardian of a reasonable compensation, to be fixed by the trustees.

Approved by the Governor March 15, 1897.

## TRUSTEES' REPORT.

---

*To His Excellency, Frederick W. Plaisted, and the Honorable Executive Council:*

The trustees for the Maine School for the Deaf herewith submit the reports of the institution for the years 1909 and 1910.

The period covered by this report has been a most successful one. There were 106 pupils in 1909, and 113 in 1910, coming from cities and towns widely scattered throughout the State. Everything possible has been done to increase the standard of work, and graduates are yearly going out ably equipped to make highly respected citizens. The trustees and faculty have aimed to make the life at the home pleasant as well as instructive, and are pleased to report that it would be hard to find a happier gathering than the students of the Maine School for the Deaf. The students have from time to time held various entertainments and dances, and the school has been represented by some very creditable athletic teams.

The buildings and grounds have been kept in the best of condition, and while no important additions have been made, all necessary repairs have been attended to.

There have been a number of changes in the faculty, and also a number of additions to take care of new departments and increased attendance. Miss Elizabeth R. Taylor has continued as principal, and as in the past has attended to the details of management in her usual able manner. Too much praise cannot be given to Miss Taylor and the faculty for the steady advancement at the school.

A severe loss has been suffered since the last report, in the death of William H. Brownson, who was the President of the Board of Trustees. Mr. Brownson was greatly interested in

the school, and gave much of his valuable time to its affairs. One of the foremost men in the educational field in Maine, he was extremely well fitted to guide its course, and his progressive ideas were always in evidence in its management. Not only did the school lose one of its valuable assets, but the trustees, faculty, and scholars, a true friend.

Mr. Brownson's place was taken by Mr. Harry E. Plummer of Lisbon Falls. Mr. Plummer has proved himself a most able and interested trustee.

At any institution which is having a rapid growth, there are always a great many wants of more or less importance. Such is the case of the Maine School for the Deaf. Among its numerous needs, there is one which has ceased to be a need, but a necessity—an infirmary for the isolation of contagious disease. At the school at the present time, there are no proper facilities for attending to such cases. Not only do the more serious diseases make this need most imperative, but the age of the students makes them very susceptible to children's diseases, and it is with the greatest difficulty that epidemics have been averted. The lack of a proper ward is a constant source of worry to all, and it seems as if something must be done at once to relieve this condition.

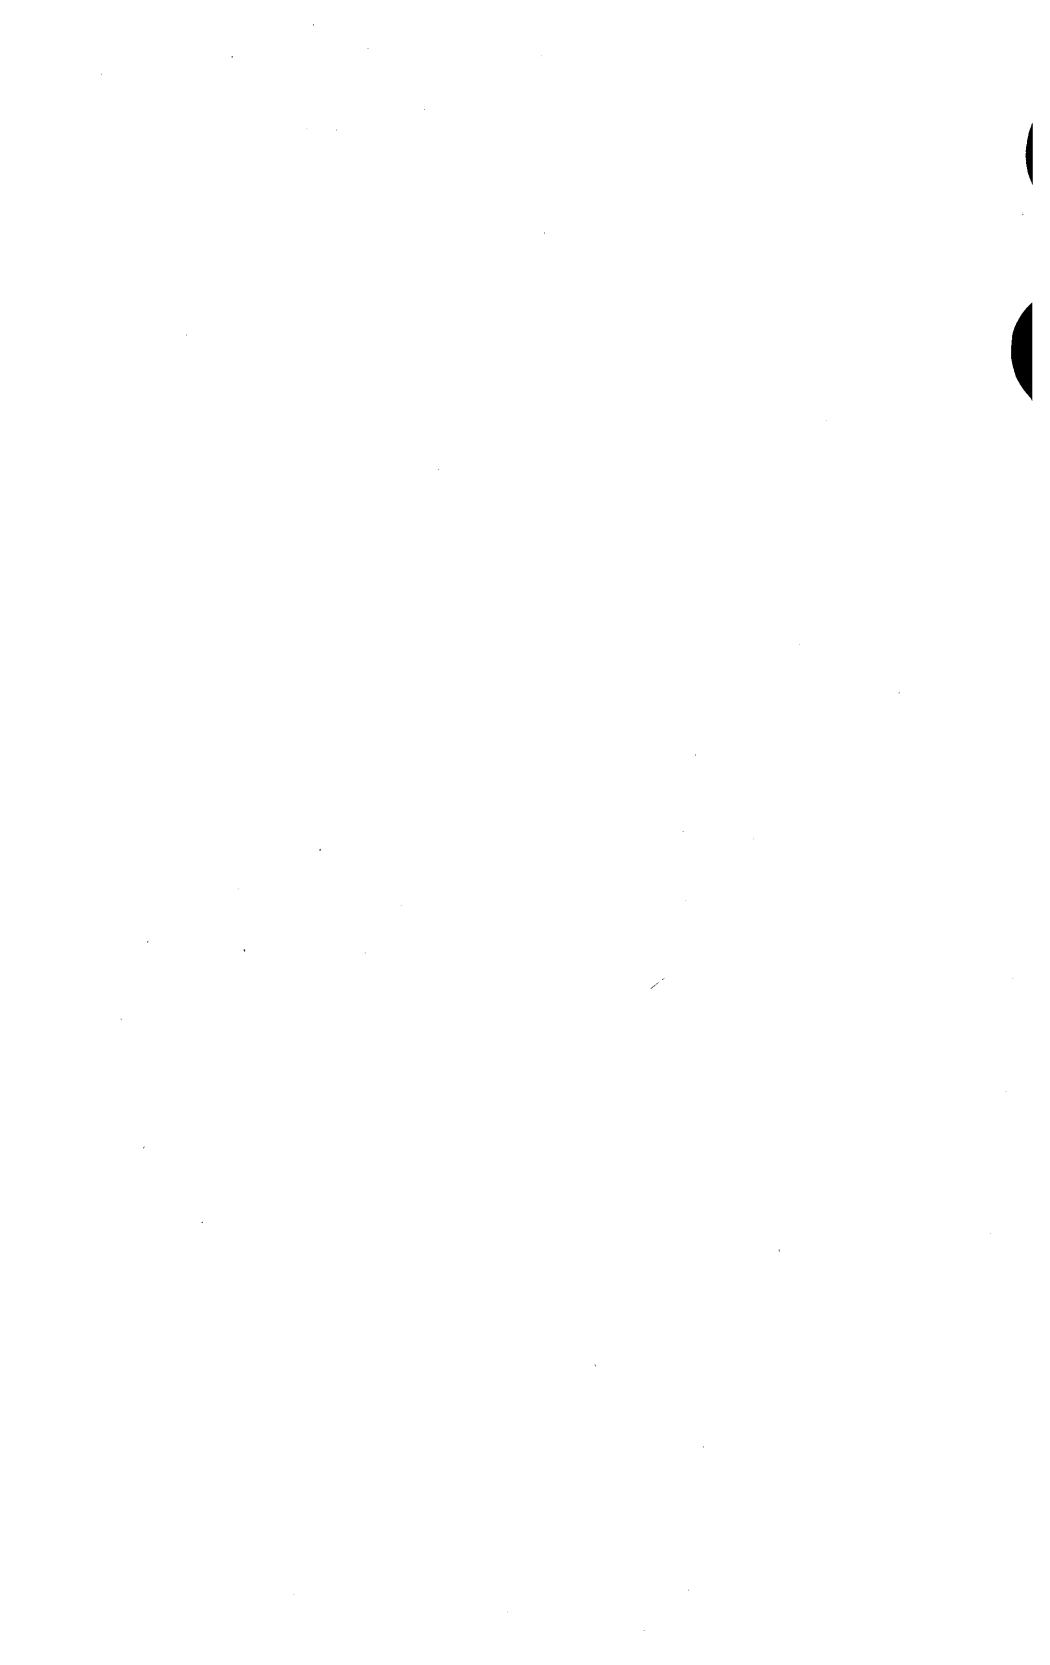

The trustees feel especially proud of the work done during the past two years, and feel that no state appropriation is expended in a more worthy cause.

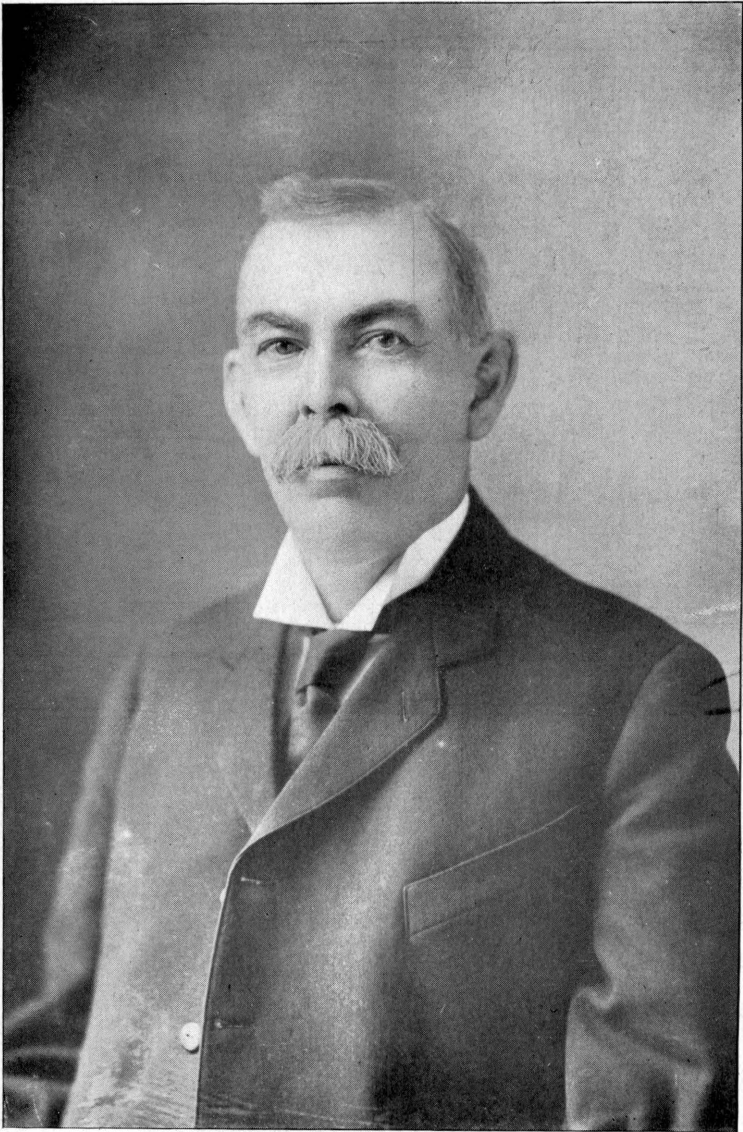

For the Trustees,

EDWARD B. WINSLOW,

*President of Board of Trustees.*

Wm. H. Brownson

## RESOLUTIONS.

---

At a meeting of the Board of Trustees of the Maine School for the Deaf, on Tuesday, September 14th, 1909, the following resolutions were adopted:

*Whereas*, The sad event of the death of William H. Brownson, our esteemed associate and President of the Board of Trustees of the Maine School for the Deaf, has come to us; appreciating the earnest, conscientious and enthusiastic efforts and interest he has always put forth and the proud and efficient condition of the school today:

*Resolved*, That in the death of William H. Brownson, we, his associates, feel that the Maine School for the Deaf, which will always remain a monument to his character and ability, has suffered an irreparable loss; those so afflicted as to benefit by its advantages, a sincere friend; the State, a wise conservator of its interests; and the city, a valuable citizen whose influence was always to uplift.

*Resolved*, That we, his associates, feeling keenly the loss that has come to us in our associated interest and knowing his high character and the conscientious devotion he gave to every duty, join with the many friends in sympathy to his wife.

EDWARD B. WINSLOW,  
HENRY W. SARGENT,  
ROSWELL C. BRADFORD,  
THOMAS P. SHAW,  
HARRY E. PLUMMER.

## PRINCIPAL'S REPORT.

---

*To the Board of Trustees of the Maine School for the Deaf:*

GENTLEMEN:—During the biennial period just passed the work of the school has progressed favorably, the attendance being larger than at any previous time, allowing more uniform grading in the various classes.

### ATTENDANCE, 1909.

	Boys.	Girls.	Total.
Enrollment January 1, 1909.....	63	41	104
Admitted during the year.....	7	8	15
Total enrollment for the year.....	70	49	119
Left during the year.....	8	5	13
Enrollment December 31, 1909.....	62	44	106

### 1910.

Enrollment January 1, 1910.....	62	44	106
Admitted during the year.....	8	13	21
Total enrollment for the year.....	70	57	127
Left during the year.....	9	5	14
Enrollment December 31, 1910.....	61	52	113

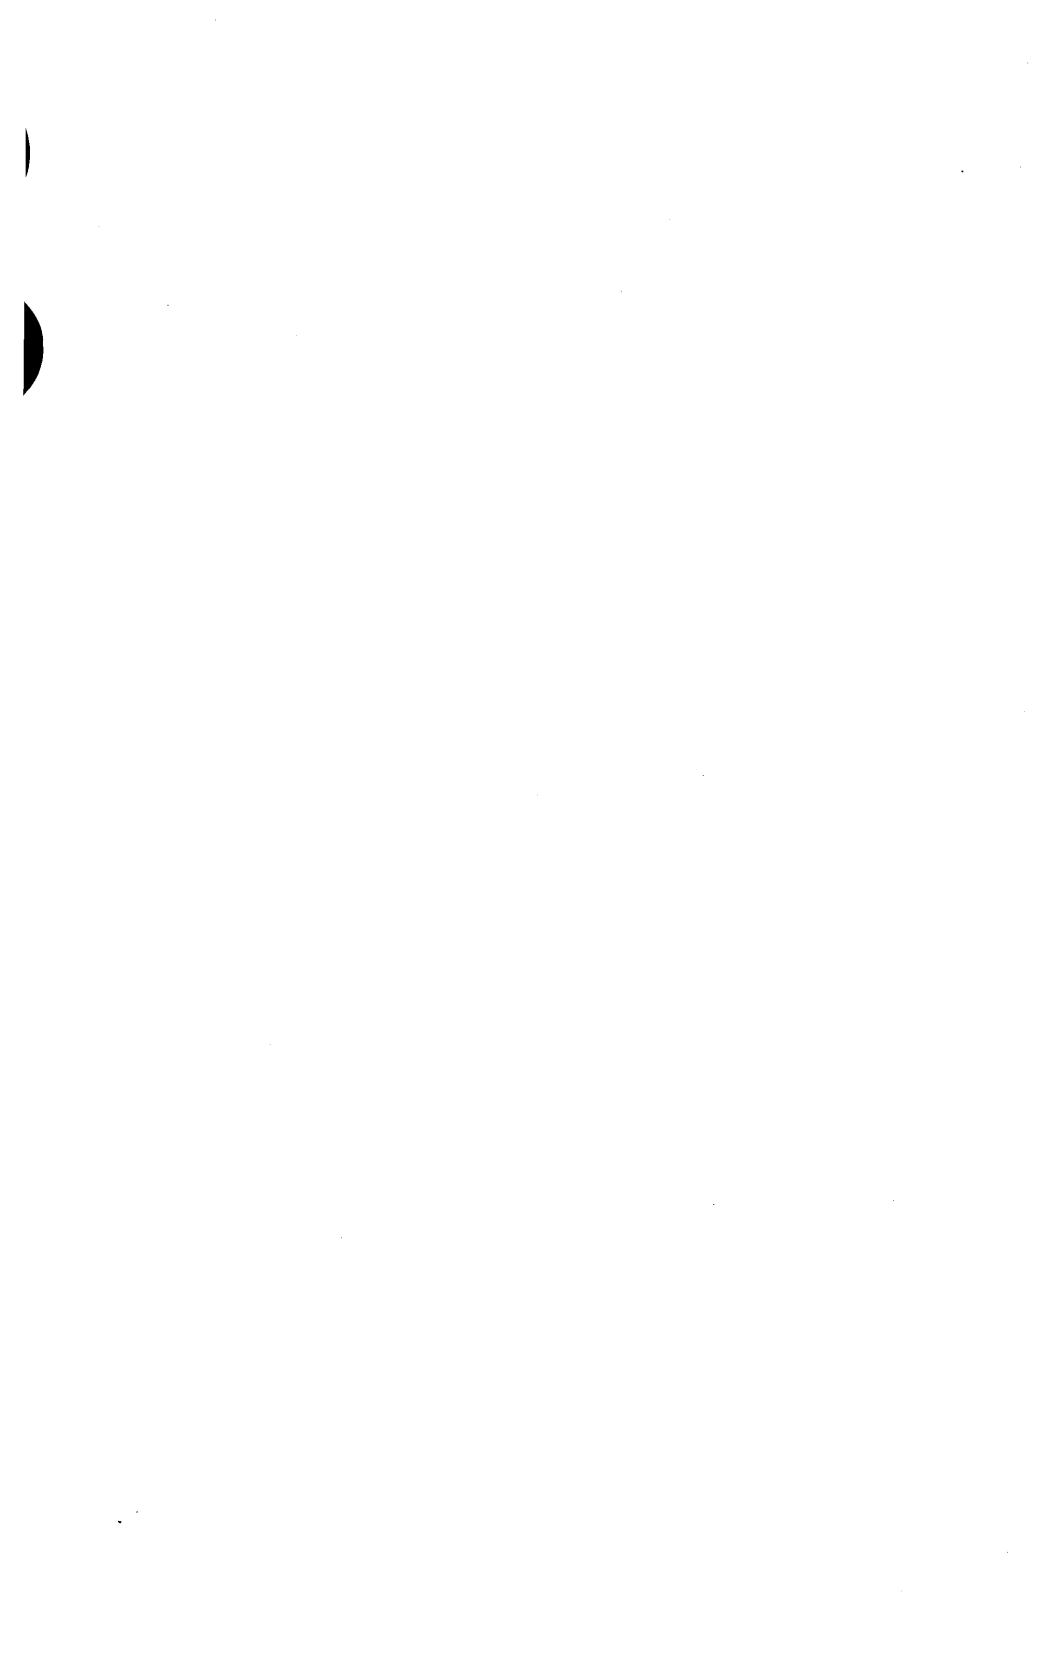

Of the 36 new pupils admitted the following causes of deafness were given:

Born deaf .....	12
Spinal meningitis .....	7
Measles .....	4
Scarlet fever .....	3
Abscesses in throat .....	2
Gatherings in head .....	2

A Class in Cooking

Erysipelas .....	I

HEALTH.

The general health has been good. The usual minor ailments and a protracted illness from rheumatism and one from typhoid fever responded to the skill of the attending physician, Dr. Richard D. Small. A case of appendicitis and a fractured arm were also successfully treated and the patients made good recovery.

We are indebted to Dr. Willis Bean Moulton and Dr. Philip P. Thompson for prompt response to calls and services cheerfully rendered during the absence of Dr. Small from the city.

In the spring there was an epidemic of chicken-pox. It is to be regretted that hospital facilities affording complete isolation are not available. Several years ago a child with scarlet fever and at another time one with diphtheria were immediately removed from the house and no other cases developed, while with measles, mumps, chicken-pox and similar diseases no child who is not immune escapes. Besides the discomfort to the child and the loss of valuable time from the school-room, the anxiety and expense attendant on the care of 20 or 30 sick children could in many cases be averted by the complete isolation of the first child affected.

In October of this year a small boy, stricken with infantile paralysis, was admitted to the Children's Hospital because of the contagious character of the disease and our inability to isolate the patient. After remaining over-night, he was returned to the school with no explanation. The Board of Health of the city of Portland refused admittance to the Isolation Hospital and there was no alternative but to place the child in a room next a dormitory where others were sleeping. The conditions were hazardous and it would seem imperative that immediate action be taken to provide and equip a hospital building so that the danger and solicitude from which we have suffered should no longer be allowed to exist.

Two deaths are to be reported, both occurring while the children were at home. March 28, 1910, Aura Jessie Owen, an attractive little girl six years of age, was taken suddenly ill while preparing for school on Monday morning. Bronchitis developed and after two weeks painful illness, she succumbed to the disease.

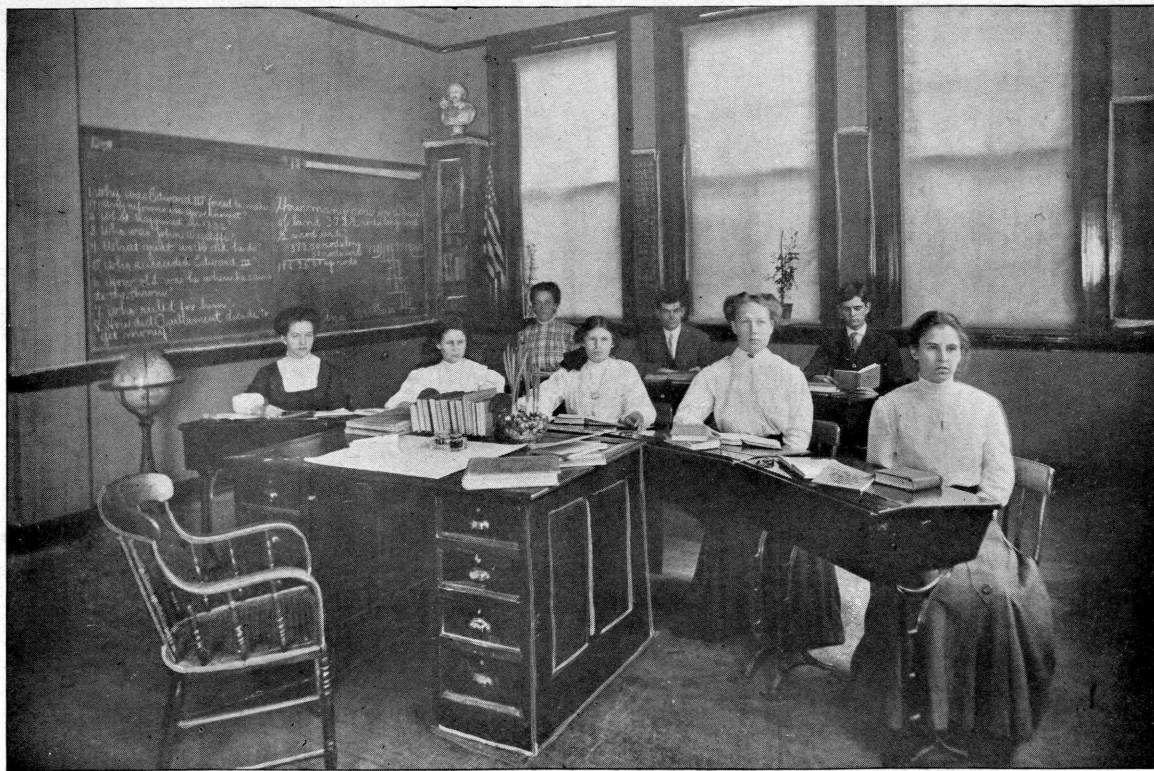

September 20, 1910, Ray Winfield Johnson, a robust boy of ten years, died of typhoid fever. These children were attended by the loving ministrations of parents and home-friends and it was with sincere sorrow their teachers and school-mates learned of their death.

#### EDUCATIONAL DEPARTMENT.

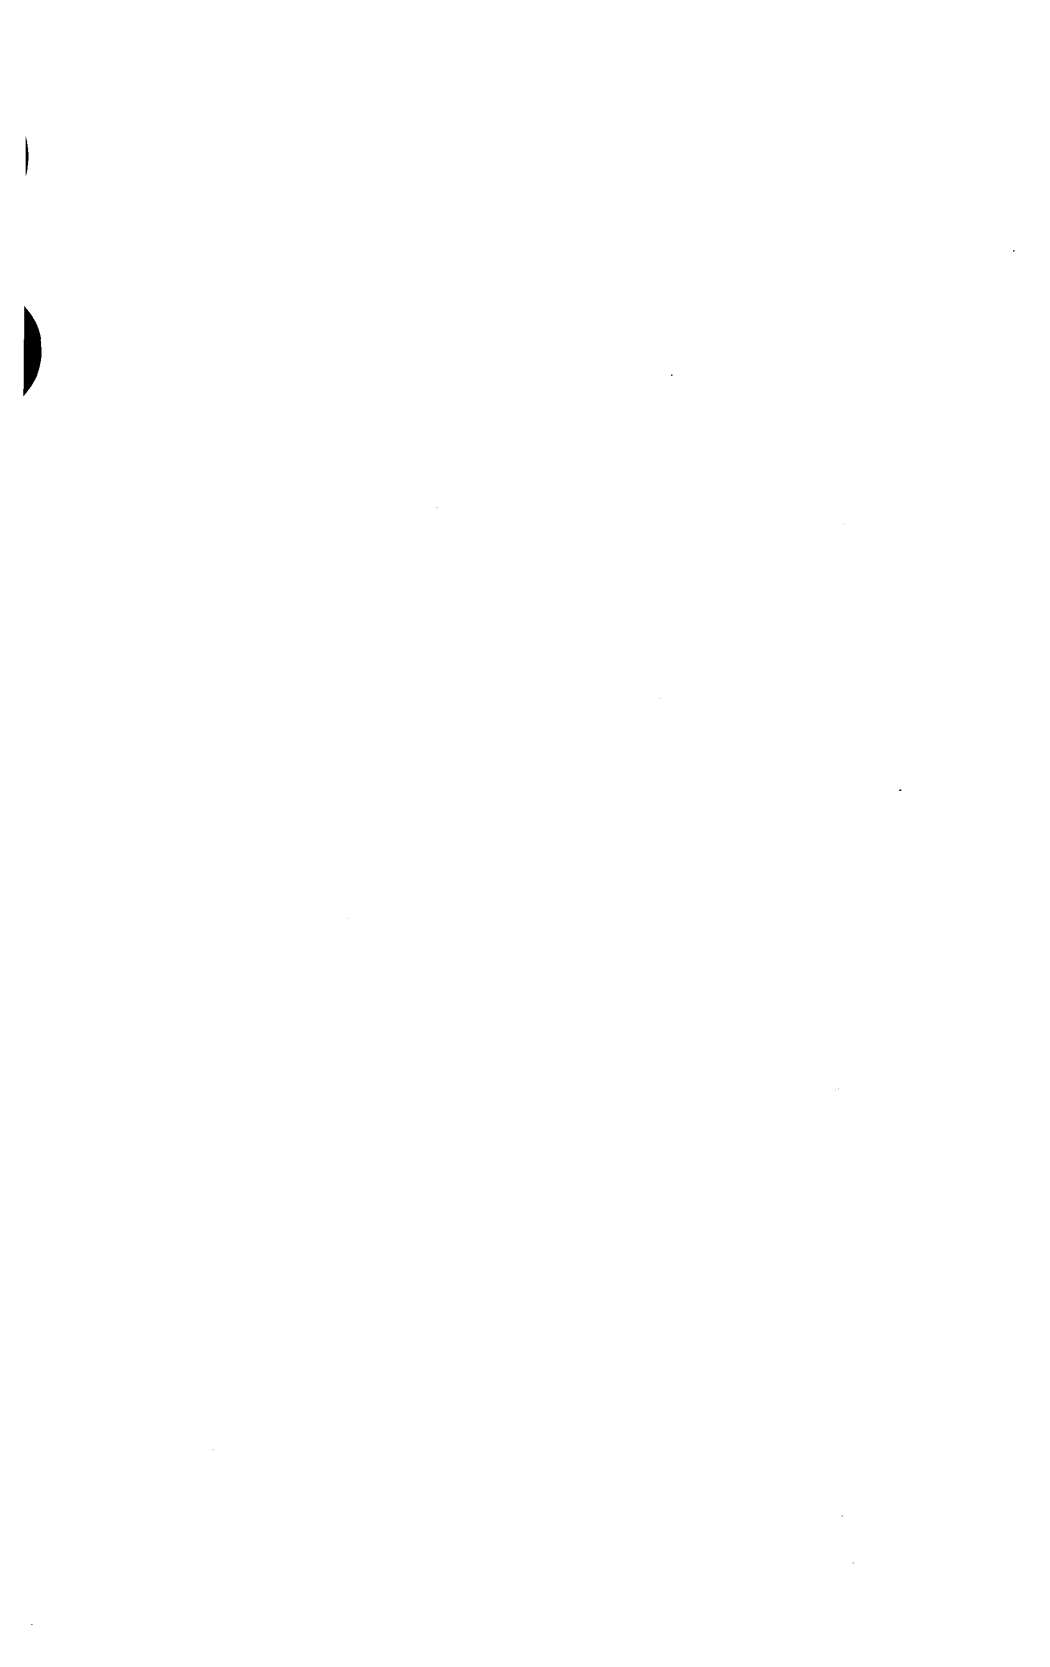

Our school is an important factor in the educational system of the State and should be classed with purely educational institutions.

The deaf child is entitled to an education as well as his hearing brother and with the mechanical training received while at school is enabled to go out with faculties alert and strengthened and frequently takes equal or even higher place in life than the otherwise more fortunate members of his family.

During the two years just passed no changes have been made in the teaching force of this department. Skilled teachers are at a premium and it is gratifying to state that with one exception every teacher in the school has had seven or more years experience in the special work of educating the deaf, the average length of service being fifteen years.

The High Class

Teachers and pupils have shown unity of purpose, aiming to carry on the work with greater enthusiasm and interest, and the results attained have been most satisfactory.

It is hoped the attention of the Legislature will be called to the law now in force which may debar from further attendance a deaf child of seventeen, who is wholly dependent upon the school for mental development, while no limit is placed upon the school-life of a normal child whose education is continuous and may be gained even from the conversation he hears about him.

#### HOUSEHOLD DEPARTMENT.

The increased cost of all household supplies has materially increased the per capita cost of maintenance and it is only by the most rigid economy in the expenditure of funds and the disbursement and use of materials that we have been enabled to live within our income and avoid a deficit.

The children have been provided with well-prepared, well-cooked food of the best quality and many additions and improvements have been made in the kitchen and culinary arrangements to lighten the labor of preparing the food and to promote cleanliness; among these may be mentioned a new copper boiler of 100 gallons capacity; a Victoria potato paring machine; new bread-mixers; zinc-covered table for bread-cutter; zinc-lined bread-drawers; a slate sink and drain-table; a tiled hearth; and a cold storage-room which permits the purchase of supplies in larger quantities.

It may be well to state that the cold storage-room was fitted up by the engineer with the assistance of some of the larger boys and that they have made all repairs on furnaces and plumbing for the past two years, saving considerable expense to the school and giving to those who assist valuable knowledge of another branch of industry.

#### INDUSTRIAL DEPARTMENT.

Miss Estella M. Draper, for many years the only instructor of Manual Training, has been appointed "Teacher-in-Charge" of the Industrial Department and under her wise supervision a number of changes and innovations have been made.

Miss Grace A. Gorsline, a graduate of the Primary Kindergarten Course and Manual Training Course of the Oswego

State Normal and Training School, has charge of the sloyd work in this department and during the morning session spends two hours in the class-rooms teaching drawing.

Mr. Wm. H. Libby, a carpenter of experience, has a class of older boys in cabinet-making and repairing.

Mr. Frank A. Nelson, who has been teacher of printing, for the past five years, continues the work, many lesson-papers being printed for the classes and "The News" published weekly.

Miss Lucy J. Hadley, a graduate of Simmons College, has had charge of Domestic Science for the past two years, and Miss Ruth Harding, a graduate of Pratt Institute with six years teaching experience, was appointed in September teacher of Domestic Art.

The classes in cookery are still under the capable direction of the matron, Mrs. Annie S. Mandell.

Miss Carrie W. Girdler has charge of the beginning class in sewing. For thirteen years Miss Girdler has taught each girl who has entered the school how to thread a needle and to wear a thimble, and through her patient guidance the first efforts in sewing and needlework are made.

#### GYMNASIUM.

Miss Grace M. Clifford, a graduate of the Boston Normal School of Gymnastics, has had charge of the gymnastic work for the past two years and under her efficient instruction the pupils have developed physically, consequently inducing better work mentally and improving the moral tone.

Miss Clifford has taken a special course in Orthopedics and at the beginning of the term a thorough physical examination of each pupil is made and the instruction given tends to the correction of defects.

A piano has been added to the gymnasium furnishings and much enjoyment has been derived from aesthetic dancing and the more active pleasures of basket-ball, volley-ball, etc.

#### IMPROVEMENTS.

The buildings have been kept in good condition, all minor repairs being made by the boys and their instructors in the Industrial Department.

The Manual Training Room

During the summer months the entire plant was overhauled and many repairs and improvements made. During the two years just passed the exterior of the buildings have been painted; in the kitchen, dining-room and all sleeping and living rooms used by the pupils and attendants electric lights have been installed, the woodwork and walls painted and ceilings tinted. In Brownson Hall two new sky-lights in the hall-ways and transoms over the doors of the bath-rooms and dormitories furnish additional light and better ventilation. There have been also new treads and risers on the stairways, an iron grating over an area-way into the cellar, an iron gate-way and a storm door at the boys' entrance. A wire netting fence 11 feet high protects, in a measure, our neighbors in the rear and on the side from the annoyance of balls, etc.

Copper rain conductors have taken the place of galvanized iron on the different buildings and considerable work was found necessary on the roof and gutters of the Industrial Building, involving an expenditure of several hundred dollars.

With the appropriation granted for the purpose by the last Legislature we were enabled to purchase much needed type for the printing office; all necessary tools and benches for the carpenter shop; two sewing-machines and a darning-machine for the sewing-room and a stitching-machine for the shoe-shop, all of which aid in the work and facilitate progress.

The valuable library of the late Wm. H. Brownson, which consists of some 400 volumes, was purchased at a cost of \$250.00.

A magic lantern and reflectoscope, which affords instruction and amusement, was purchased and electric attachments made at a cost of \$222.71. We are indebted to Mrs. H. S. M. Knight for a donation of \$50.00 for the purpose and additional money was taken from the Annie Emery Daveis' Memorial Fund to complete the amount.

#### NEEDS.

A separate building which will allow complete isolation of contagious diseases is our most imperative need and requires immediate attention.

A modern, well-equipped laundry where the work can be done under the personal supervision of the matron is a most pressing necessity.

At present the clothing of the entire household is sent to a public laundry and may at any time come in contact with infection. When the smallpox was epidemic in Portland a case was discovered over the laundry in which the clothing of the school had been washed. Although assured that this tenement had no connection with the laundry, it was deemed advisable, as a precautionary measure, for the clothing to remain in the open air a week and afterward fumigated and so avert the liability of contagion. This occurred several years ago, but the anxiety is ever present and a recurrence may be expected at any time. The school cannot longer afford to do without a laundry.

Increased sleeping accommodations for the girls is a most urgent need. We have an attendance of 52 girls, 29 of whom with four adults live in a dwelling house arranged to accommodate a half dozen persons.

Six and eight beds are crowded into an ordinary bed-room and even store-rooms in the attic have been utilized as sleeping apartments.

In conclusion accept my sincere thanks for the cordial support and encouragement that has been accorded me. The school owes much of its prosperity to the fidelity and watchful care with which its affairs have been administered by the members of your Board. Each member has given of his time and advice unstintingly and the concerns of the school have been treated as a personal trust. In the death of William H. Brownson the school suffered the loss of a sincere friend, a judicious counselor and staunch supporter. Mr. Brownson answered promptly and cheerfully every call that was made for counsel or assistance. From the time the school became a State institution Mr. Brownson acted as President of the Board of Trustees and under his wise and conservative management from a school of less than forty pupils it has grown to its present proportions.

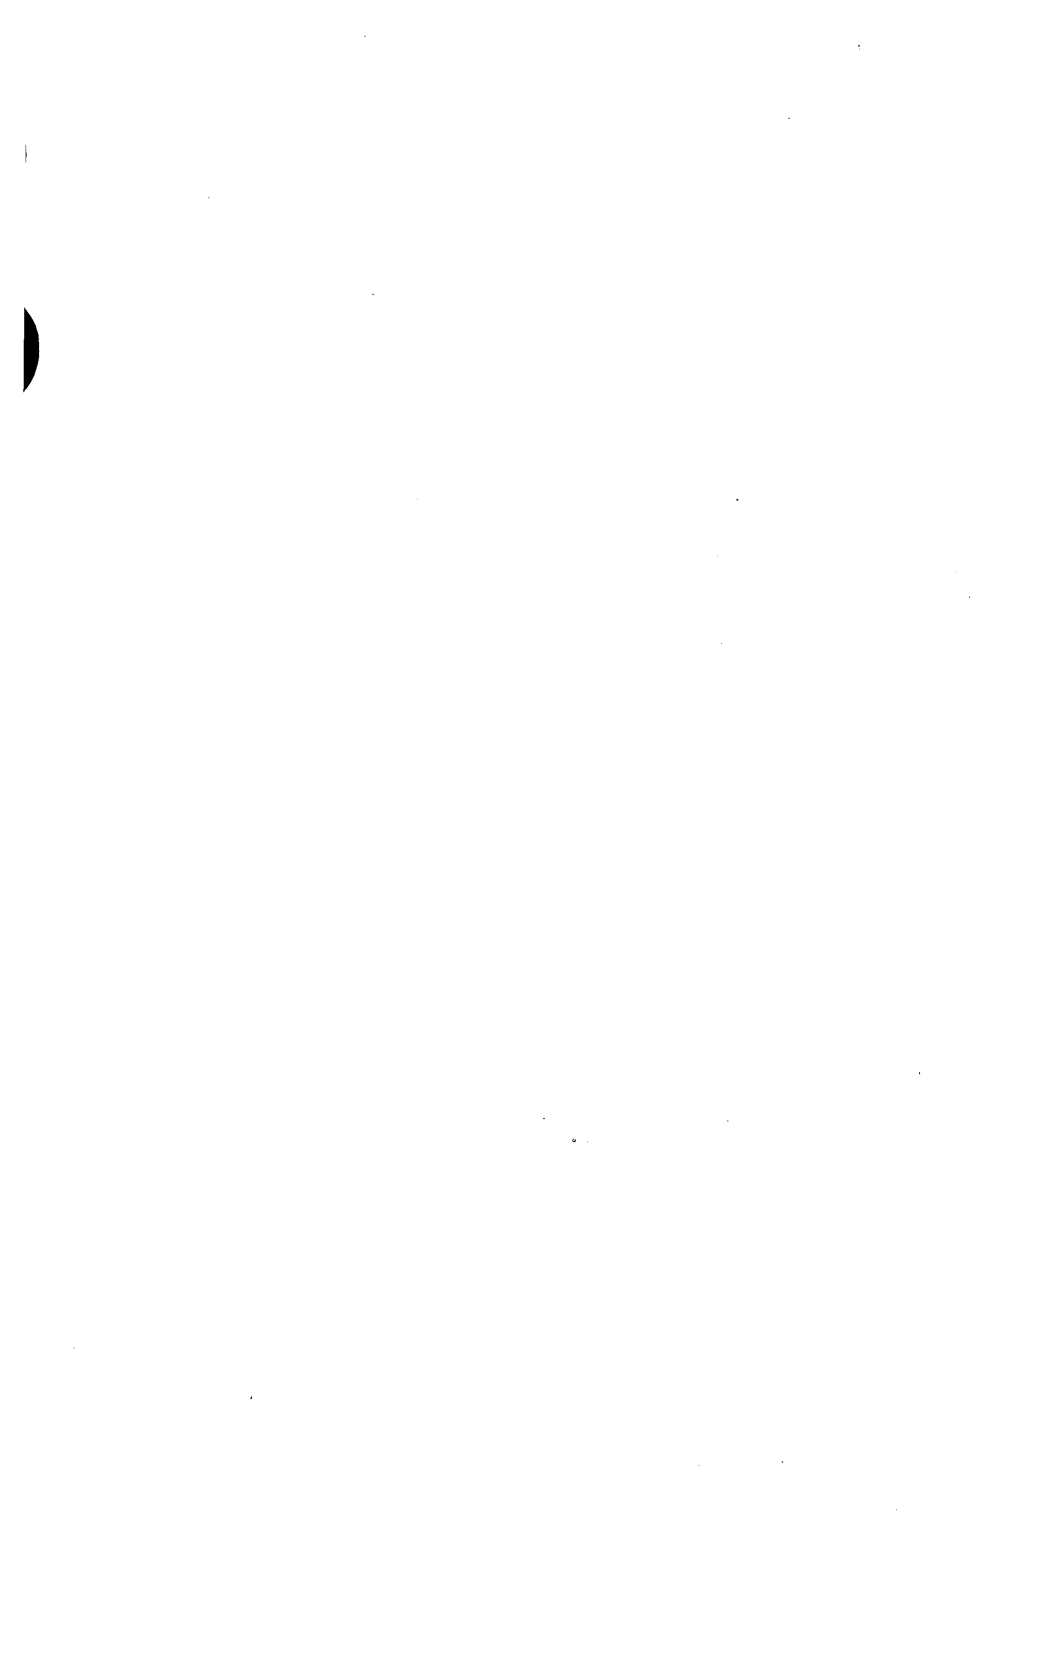

Pupils, parents, teachers and officers will ever hold in grateful and affectionate remembrance the name of William H. Brownson, to whom more than to any other one man, the Maine School for the Deaf owes its existence, its growth and its prosperity.

Respectfully submitted;

ELIZABETH R. TAYLOR.

The Printing Office

## ACKNOWLEDGMENTS.

---

We gratefully acknowledge the many kindnesses we have received from friends. Invitations to theatres, lectures and other entertainments have instructed and amused, breaking the monotony of school-life. Members of the Board of Trustees and other friends have contributed money with which equipment has been purchased for athletic sports and also made happy the holidays of those who were too far from home to enjoy its Christmas pleasures.

To the press of Portland and "the little paper family" of the profession we are also indebted.

Gifts of lumber, granite, clothing, mittens, fruit, nuts, candy, toys, books, magazines and periodicals have contributed in their various ways to our profit and pleasure.

We are also indebted to the Maine Eye and Ear Infirmary for care and attention given a pupil who returned in the fall with a serious affection of the eye.

We appreciate the reduced rate granted the pupils by the Maine Central, Bangor and Aroostook, Boston and Maine, Somerset and the Grand Trunk R. R., and also by the Eastern Steamship Co., and for the courteous attention received by the pupils en route.

The school has lost two generous and sincere friends in the death of Mrs. Gilman Daveis and Mrs. Wm. H. Conant. Each Christmas for a number of years the supply of candy was assured and in many ways these benevolent ladies have shown their interest in the welfare and advancement of the school and the happiness of the children.

## TO PARENTS OF DEAF CHILDREN.

---

The Maine School for the Deaf is a public school designed for the instruction of children whose hearing is so seriously impaired as to be incapable of receiving instruction in the common schools.

It is sustained by the State and is open to all deaf children in the State of Maine. The combined system of instruction, which includes all known methods of teaching the deaf, is used, especial attention being given to speech and lip-reading. The course of instruction includes all the English branches and every pupil is given industrial training while in attendance.

Applicants for admission must be between the ages of five and twenty-one years, and free from any constitutional malady that may render them incapable of receiving instruction.

The school term is from September 10 to June 15, with one week's intermission at Christmas.

Further information will be given on application to the principal of the school, at 85 Spring street, Portland, Maine.
