REPORT OF THE COUNCIL COMMITTEE OF THE  
MAINE STATE PRISON FOR 1911.

---

*To His Excellency, the Governor and Executive Council:*

Your committee have made official visits to the State Prison, as required by law, some of these visits being quite extended, in the endeavor to become as familiar as possible with existing conditions. The Warden and Deputy Warden were new to the business; and the duties were therefore difficult for the first few weeks till they became acquainted with the institution and its requirements; but we are pleased to be able to report that they seemed to adapt themselves readily to the conditions by which they were surrounded, maintaining good discipline, made easy by acquiring the good will and respect of the inmates, which is an important factor in enforcing it in this as well as in other institutions. Out of door exercise so far as possible in the prison yards has been given to the men, and health conditions have been so materially improved as to be noticed by the monthly visitor. The financial condition of the prison will be found in the reports of the Warden and Prison Inspectors. It should be noticed, however, that the present Warden entered upon the discharge of his duties two months subsequent to the period covered by the 1910 report, and the inventory of the prison assets as taken by experts at the time Warden Wiggin took charge, to wit: February first, 1911, showed a loss of considerable more than fourteen thousand dollars from the one returned by the Inspectors as of November thirtieth, 1910, this discrepancy being largely accounted for by the difference in value placed upon the manufactured and unmanufactured stock, by the experts selected by advice of the Governor and Council, and that returned by the inspectors in the preceding November. From a careful examination it is easy to see a marked improvement during the past eleven months in some of the departments,

notably so in the harness shop. We feel that we have an efficient board of inspectors, and that the Warden and Deputy Warden have shown by the result of their work that they are the right men in the right place, and with the aid of faithful subordinate officers success seems to have crowned their efforts.

Very respectfully submitted,

ALFRED S. KIMBALL,

*Chairman.*

## MAINE STATE PRISON.

---

*To His Excellency, the Governor, and the Executive Council:*

We submit to you our annual report for the year ending November 30, 1911.

At the commencement of the prison year, December 1, 1910, there were confined in the prison one hundred and ninety-five (195) convicts; ninety-eight (98) have been received during the year; sixty-two (62) have been discharged at the expiration of sentence; five (5) have been pardoned by the Governor and Council; there have been six (6) deaths. Total remaining in prison, December 1, 1911, two hundred and twenty (220).

The largest number of convicts at any one time during the year was two hundred and twenty-four (224); the smallest number in the prison during the year was one hundred and eighty-four (184); the daily average of the year was two hundred (200).

Warden Fred B. Wiggin has displayed signal ability in his administration of affairs at the prison. Not only has he given close and competent attention to the business side of the institution but he has manifested a kindness and a firmness toward the prisoners which has merited and won the friendship of the unfortunate under his charge as well as their respect. The report of Warden Wiggin enters into a detailed recital of the condition of the prison departments which affords whatever information in that direction that may be required.

Deputy Warden True C. Hayford deserves a word of commendation in this report. Mr. Hayford possesses a rare combination of tact and talent which enforces obedience to orders and regulations without requiring the execution of harsh measures to attain that degree of discipline so necessary in an institution of the kind, if the prison is to be punitive and reformatory. Gentle and firm, Mr. Hayford, like Warden Wiggin, seems to understand the problems with which they are both so imminently connected and, jointly, the warden and the deputy

warden are solving those problems with praiseworthy success.

Rev. C. A. Plumer, prison chaplain, has been devoted to the work of chaplain, teacher and librarian for many years. With experience has grown efficiency to meet the many demands made upon him. In his accompanying report is contained detailed information regarding the work of his office.

Last June Harriet M. Sanfey was appointed as prison matron. She has demonstrated a natural adaptability for the responsibilities of that position. Possessing a pleasing personality, which inspires confidence, and a dignity, which commands respect and obedience, Mrs. Sanfey is rendering splendid service to the State and to the wards of the State with whom she is in daily contact.

Mr. James A. Levensaler, who is serving as clerk under the present administration, is filling that office very acceptably. His books are neatly kept and he is prompt in his work.

Dr. J. E. Walker, prison physician, submits an accompanying report which briefly tells the story of the demands made upon him to heal the sick. Dr. Walker has practiced medicine many years and he is acknowledged as a successful physician. Under his supervision the general health of the prisoners has been improved during the year.

The Rev. Father Flynn of Rockland has continued during the past year to hold religious services at the prison. He is devoted to the spiritual welfare of the prisoners and we are pleased to commend him and to acknowledge the influence for good which he exerts over those inmates in whom he is specially interested.

The prison buildings are in fair condition. During the year the electric wiring has been overhauled and put in first-class order.

With regret we report that it was found advisable to discontinue the serving of meals at tables and to return to the former plan of feeding the prisoners in their cells. There can be no question as to the need of abolishing the out of date system of feeding prisoners in their cells, but the accommodations at the prison are not sufficient to make the experiment a success. The tables, on account of a lack of room, were placed in the corridors under the cells. The frequent sweeping, even with the utmost care, made the tables unsanitary. In addition,

the necessary division of time to permit the prisoners and the guards separate periods for eating cut so short the time for meals that increased sickness, especially among the older prisoners, was the penalty. We gave a careful consideration to this question of the best way to feed the prisoners and there was no lack of evidence to convince us that, if in our prison the better plan is to be followed instead of the antiquated and archaic depositing of each prisoner's fare in his cell, there must be provided an adequate dining-room for the purpose. We believe that there should be a commodious, well ventilated and well lighted dining-room for the prisoners. Such a change is in line with prison reform, and it is justified by trial in other states.

C. A. LEIGHTON,  
W. J. BRADBURY,  
J. W. MESERVE.

## WARDEN'S REPORT.

---

*To the Honorable Governor and Council:*

GENTLEMEN:—I have the honor to submit herewith the reports of the State Prison at the close of the fiscal year, November 29, 1911.

When I assumed the office of Warden the 20th of last January, Colonel Leighton, Chairman of the Board of Prison Inspectors, at once called my attention to the mortality and health records and conditions here, the report for 1910 showing six deaths and seven transfers from the prison to the insane hospital, and, although this year's report shows six deaths, three of these occurred in December, 1910 and January of this year before I assumed office, and emphasized the importance and need of immediate consideration of methods or measures to improve them.

We at once made some changes in the dietary, and later on changed the method of feeding from tables to the cells, and segregated the tubercular suspects in a wing by themselves, with the result that within the past ten months there have been but three deaths, and the only transfer to the Insane Hospital was the return of one man sent here from that institution a few weeks before.

It must not be assumed that the reference to these, or any other matters or changes, is meant as a criticism of the preceding administration for that is not my purpose or inclination, but is made solely that the conditions under which we have worked may be known.

Apropos of the general conditions of health here now it may not be amiss for me to quote from a voluntary letter I have just received from one of the inmates:

"I weighed myself last Wednesday and found that I have gained seventeen pounds in the past year. I now tip the scales at 159. From observation and what other men have told me of their gains in weight,

I think that those of the men who have been here some little time before 1911 and are yet here—about 100—have gained at least one thousand pounds.

Now I do not really know whether the public at large would consider these extra pounds of convict flesh and blood as assets or liabilities, but they explain what must appear in your report as increased expenses for subsistence."

The grim humor of measuring a penal institution's condition or usefulness by commercial standards will be appreciated. The changes in the dietary together with the higher cost of food supplies show a per diem sustenance cost per man, including tobacco, of 10 79-100c against 9 97-100c last year.

We have observed the legal holidays by closing the work shops and have had some entertainment either in the chapel or in the open air as weather conditions would permit.

The change in the method of feeding is covered in the report of the Board of Inspectors and the segregation of tubercular suspects and the physical examination of inmates at the time of entrance is told in the report of Doctor Walker, the Prison Physician.

While all the inmates are required to work (unless certified as being ill by the doctor) we have, broadly speaking, endeavored to so treat and care for them as to qualify them to become useful and law abiding citizens at the expiration of their sentences or when freedom is given them.

"Think kindly of the erring, do not thou forget

However darkly stained by sin, he is thy brother yet.

Heir of the self same Heritage, child of the self same God,

He hath but stumbled in the path, that thou in weakness trod."

At the time of my appointment and by advice of the Governor, we had an inventory taken as of February 1st by two disinterested parties, Capt. L. B. Keen of Rockland and Charles E. Shorey of Thomaston. They are both gentlemen of wide and varied experience in business and their only instructions were, to make a true and correct valuation of the stock. They had access to all of our invoices, etc., and made personal examination and record of all of the stock, and at the conclusion of their work the books were closed and balanced, and the inventories returned by them, brought forward as the balances of the several departments at the beginning of our administration, so that the following reports, in so far as pertain to the business

transactions of the prison, cover the ten months from February 1st.

As will be seen by the summary, the departments here have been a little better than self-supporting; the results in our operative departments showing an aggregate gain of \$18,714.05 while the total net cost of the expense departments was \$18,114.90, making a net departmental gain of \$599.15.

The sanitary and hygienic conditions of the institution are, I believe, as good as possible, having in mind that the plant was erected nearly one hundred years ago; but I hope ere long the Legislature may authorize the building of a separate power house, a ward for tubercular subjects, and a brick fire-proof blacksmith shop.

I beg to call your attention to the method of accounting now in vogue here. It is in many respects somewhat antiquated and, I believe, the installation of a new and modern method would, as a business proposition, be of great advantage.

In conclusion I beg to express my appreciation of the assistance and helpful suggestions I have received at the hands of your visiting committee, Messrs. Kimball, Turgeon, and Patch, and to Colonel Leighton and Messrs. Hargraves, Bradbury, and Meserve, the Board of Prison and Jail Inspectors.

Respectfully submitted,

FRED B. WIGGIN,

*Warden.*

Thomaston, December 10th, 1911.

## PHYSICIAN'S REPORT.

---

*To the Honorable Governor and Council:*

GENTLEMEN:—Herein is the annual report of the medical condition of the Maine State Prison.

During the year there was an epidemic of influenza—some eighty cases. There have been six deaths, five from tuberculosis and one from intestinal obstruction.

By my advice, after due deliberation with the inspectors, the visiting committee from the council and the warden, the plan of feeding the convicts at tables was abandoned, and the men are now fed in their cells; the change was made because we believed that it was much more sanitary for the convicts to take their food in the cells than to eat from the tables set up in the corridors, because of the dust, which necessarily arose from the sweeping and cleaning of the cells. Strange though it may seem, every convict preferred to eat in his cell.

Since August of this year, with the consent of the Warden I have adopted the plan of examining every prisoner on his entrance to the institution. I think that every prisoner held for trial in jails, should be examined, lest a latent tuberculosis develop, on account of vitiated atmosphere, lack of exercise, depressing psychological influence of confinement, homesickness and worry.

Perhaps some may be below par, underfed, or weakened by exposure and as a result may contract tuberculosis from consumptive fellow prisoners while in jail.

As far as we have been able under the present condition, we have segregated the tuberculosis convicts. In my opinion some arrangement should be made, by which those men suffering from tuberculosis should be kept wholly apart from the others, both in living quarters and work, and that their work should be out of door. There is no gainsaying, that the ideal occupation for the tuberculous prisoner is agricultural or garden work.

The food has been of excellent quality, the clothing comfortable and clean, and the general surroundings of the prison sanitary.

To the Warden, Deputy Warden, and all subordinate officers I wish to express my thanks for the many courtesies extended me in the exercise of my official duties.

Very respectfully yours,

J. EDWIN WALKER,

*Prison Physician.*

## CHAPLAIN'S REPORT.

---

*To The Honorable Governor and Council:*

GENTLEMEN:—In compliance with an established and reasonable custom I submit this report of the work of the Chaplain in the Maine State Prison.

Within the twelve months ending this day, November thirtieth, ninety-eight persons have been committed to the prison for crimes against person and property with sentences varying from one year to life.

In educational acquirement these persons are classified as follows: fourteen could neither read or write; two could read a little but could not write; two could read and write but had never attended school; one had been educated in a private school; one in a reform school; thirty-four in the common schools; twenty-seven had completed a grammar school course of study; thirteen had attended a high school; but not all of them had completed the course of study; one had had academical advantages and three had matriculated in college, one pursuing the studies for two years, the others completing the course of studies and graduating.

Ninety-one of this number were users of tobacco and fifty-six were accustomed to the use of intoxicating drinks, some drinking occasionally, some regularly but in moderate quantity, the others classed themselves as hard drinkers; several of them were also users of opium.

The work of instruction has been continued as in the previous years of my service. With a very few either from lack of interest or an unwillingness to exert what mental power they possess the advance has been slow, but with most the advancement has been satisfactory and in some instances highly commendable.

Additions have been made to the library from three sources, a few volumes by purchase, some by gift from private individuals, but mostly by gift from the State Library of books which had been but were no longer to be used in the so-called Traveling Libraries. The library now contains twenty-nine hundred books and six hundred bound magazines.

The privilege of writing one letter each week and an extra letter each holiday has been continued and is appreciated by the inmates who have sent out six thousand three hundred and fifty-three letters, an average of one hundred and twenty-two each week. A much larger number of letters have been received for they are allowed all suitable letters sent to them. This privilege is of inestimable value as a means of culture in strengthening home ties and the purpose of a true citizenship.

The moral and spiritual needs of the men have received thoughtful and prayerful attention. The Sabbath morning chapel service has been continued without interruption. Frequent conversations upon Bible themes, facts and passages and respecting many vital points of Christian experience and living have been enjoyed by the Chaplain, and I think by some of the men. A larger number than heretofore are systematically studying the Bible. Rev. J. A. Flynn and his assistant of the Roman Catholic Church have been helpful in this work as they have held a monthly service and visited the men of their faith. The harvest truly is great and we sow with the expectation, "The pleasure of the Lord shall prosper in his hand. He shall see of the travail of his soul and shall be satisfied."

In closing this report it is a pleasure to speak of the desirable sanitary condition and the excellent discipline in the institution.

With thanks to your Honorable Body, the Board of Inspectors, the Warden, the Deputy Warden, and each of the subordinate officers, I remain your fellow worker.

C. A. PLUMER,  
*Chaplain.*

## COUNTY JAILS.

---

We are able to record no changes of importance during the year among the County Jails.

Plans outlined for the betterment of jail conditions still remain in outline only. As affirmed in our last report it was only by the "most persistent effort backed by the full authority of the law" that the inspectors were able to make any progress in changing undesirable conditions, so deep-set is the apathy and indifference concerning jails and their occupants. With the passing of that effective section of the law, by its repeal, further progress seems blocked and the crowded and unsanitary conditions of some of our largest jails will undoubtedly continue, and the value of future inspection service reduced to the minimum.

Thanks to the efforts made during the life of the amendment workshops were added to several of the jails and changes made for the reasonable well being of the prisoners in the most deserving cases. The larger jails, however, are, with one exception, still in urgent want of more cell room, better sanitary conditions, infirmaries and other needed reforms.

### ANDROSCOGGIN

Many necessary changes had been completed at the time of our last report in the Auburn jail and workshop, so that outside of limited cell room, poor sanitation and the need of an infirmary, the status of the jail is unusually good. The women's department, dining room and kitchen are a great improvement over affairs of two years ago.

The cells, bedding, and clothing are well kept and show careful attention on the part of those who have them in charge.

The prisoners appear to be in good health. The food, although as in many jails of not great variety, wholesome. The discipline is all that is required.

#### AROOSTOOK.

We have only words of commendation regarding the upkeep and cleanliness of this small jail.

The prisoners are worked in the wood yard to advantage, are under good discipline and their appearance indicates that they have enough food of wholesome variety.

The clothing, bedding and cells show attention and all conditions may be given as good.

#### CUMBERLAND.

It is hard to conceive that the County of Cumberland with a city of nearly 70,000 inhabitants, even if of the highest morale, can accommodate its percentage of criminality within the walls of the present jail. The fact that the jail was built fifty years ago, and that no changes of consequence have been made during the time that has elapsed, calls most urgently for attention to, and correction of, its serious deficiencies in meeting present demands.

There are periods when its cell room is absolutely inadequate to respond to the demands upon it. The sanitation is abominable and the need of an infirmary is very great. Some of the minor, but necessary needs are, better lighting in parts of the building, heavy screening at some of the windows and a fence around the exposed part of the kitchen yard to guard against escape.

The jail is being kept in the best possible state of cleanliness and order. The cells, corridors, bedding and the clothing show particular care. The women's department, the jail rooms and the kitchen show scrupulous neatness and attention. The food appears to be of sufficient quality and of fair variety. The discipline meets the requirements of the situation.

## FRANKLIN.

The prisoners in the jail at Farmington receive, it would seem, all the attention that they deserve. The present official keeps the jail building, corridors, and cells in an orderly and cleanly condition, serves wholesome food and in good quantity, and employs all those whom he is allowed. The County has furnished a large percentage of desperate criminals which has required cell confinement. The discipline is very good.

## HANCOCK.

The jail at Ellsworth has no workshop and but few commitments. With no employment and few commitments jail discipline is oftentimes hardly in accordance with a sentence to prison life, and in the jail at Ellsworth more attention should be given, we think, to this phase of a prison sentence. The condition of cells, bedding and clothing is fairly good.

## KENNEBEC.

The plan and minor arrangement of the jail at Augusta give it an easy lead over others in the State. It has plenty of cell room, is well lighted and ventilated and has very good sanitation.

It has an admirable workshop addition where the prisoners are worked under contract. The jail and the out buildings and grounds are well cared for, and details show careful and competent attention.

## KNOX.

While this County is provided with a good work room, very little use is made of it a great part of the year, and the discipline is what is to be expected under the circumstances. The sanitary and heating conditions are good.

## LINCOLN.

It would seem from appearances, protected by the present law against attacks by modern and humane ideas, that the old

stone jail of Wiscasset, sturdy relic of an earlier century, bids fair to weather the storms of another one hundred years backed by the kindred sentiment of the County this grim old bastille will doubtless continue in the future, as in the past, to bid defiance to the advance of civilization. It stands by itself and has no equal in the United States as an antique.

#### OXFORD.

Oxford jail conditions at South Paris are much the same as at the time of our last report. A new and commodious kitchen has been built and the foundation for a workshop addition has been laid. Work on the foundation of the workshop was suspended, and the prisoners are still herded within the narrow limits of the jail corridors and passing their time in vicious and slothful idleness; the veritable school of crime.

#### PENOBSCOT.

We can only repeat what has been stated so many times, that the jail at Bangor is entirely unfitted for the burdens imposed upon it. The cell room is so limited that from three to five prisoners are confined in each for sleeping accommodations, and that with crude sanitary conditions and insufficient ventilation. As there is no infirmary a crowded cell often times has a sick occupant to add to the misery of the situation. The officials do all within their power to relieve the stress, but until fundamental changes are made the conditions must remain intolerably bad.

#### PISCATAQUIS.

The small jail of Piscataquis, at Dover, is one of the best arranged in the State. The sanitary conditions are unusually good, the cells being supplied with plenty of water and comparatively modern equipments. The jail and cells are clean and in order and the food is of reasonable variety and wholesome. The present turnkey utilizes the ground back of the jail for a large garden and all share in its products. The prisoners are exceptionally well treated but under good discipline. The jail lacks only means for the regular employment of the prisoners.

## SAGADAHOC.

This County sends its prisoners to jails in other counties to serve their sentences. Many of them are sent to the Augusta jail, where they can be well accommodated and employed. The providing of a jail for the County has been considered by its officials but as long as they can be committed to other Counties it is safe to say advantage will be taken of it.

## SOMERSET.

The Sheriff of Somerset County has the reputation of being one of the best law enforcers and jailers in the State. The jail at Skowhegan has a new workshop addition which is used to good advantage. The jail building, the cells and the bedding and clothing are kept up to a high standard of order and cleanliness. The food is of good quality and quantity, and the long term prisoners appear well and healthy. The discipline is good.

## WALDO.

The jail at Belfast is one of the older ones. It has plenty of cell room, but the locks and furnishings are not as good as they should be. New locks should be provided and changes made in the interior for convenience. The prisoners are allowed considerable freedom, rather more, perhaps, than is consistent with good discipline and, possibly, safety. This jail has a wood yard for employment.

## WASHINGTON.

This is one of the best kept of the small jails in the State. The cells, bedding and clothing are clean and in prime order. The discipline is excellent, and this is the more noticeable from the fact that although the jail has a workshop it has at the present time no work, and a lack of employment in the most of cases results in a slackening of discipline.

## YORK.

The jail at Alfred serves one of the largest Counties in the State and until recently has been pushed to its utmost to meet

the requirements of the population. A change to per diem pay in the case of policemen has resulted in a sudden drop of from fifty to seventy-five per cent. in the number of commitments. If the welfare and protection of society are being safeguarded by a present proper enforcement of the laws the inference is plain regarding the past, and other Counties may well take notice. The jail is in need of improvements. It could be conveniently and cheaply heated by steam and do away with stoves in the corridors, which are a cause of dust and uncleanness, and are unusual in a jail of its size and standing. A new cement floor should be laid in the first story and room provided for feeding the prisoners. The cells are kept remarkably clean and well painted, and the building and details, show attention and care by those in charge.

## REPORT OF ANDROSCOGGIN COUNTY JAIL.

*County Officers*—County Commissioners, .....  
 Sheriff, H. M. Lowe; Jailer, F. L. Knapp; Turnkey, .....;  
 Physician, H. S. Sleeper; Overseer Workshop, Howard Strout.

Number of prisoners in jail November 30, 1910, 126. Number of prisoners in jail November 30, 1911, 83. Number of prisoners in jail November 30, 1911, for this county, 83. Number of prisoners in jail November 30, 1911, for other counties, 0. Number of prisoners in jail November 30, 1911, for the United States, 0. Number of prisoners committed for the year ending November 30, 1911, 1139. Number of prisoners committed for this county, 1135. Number of prisoners committed for other counties, 4. Number of prisoners committed for the United States, 0. Number of prisoners committed for drunkenness, 952. Number of prisoners committed for selling liquors, 29. Number of prisoners committed for non-payment of fines, 825. Number of prisoners committed for safe keeping by police officers and taken out by them and no return made of trial or sentence, 0. Number of prisoners, males, 1084. Number of prisoners, females, 55. Number of prisoners, poor debtors, 14. Number of prisoners, tramps, 36. Number of prisoners, foreign birth, 62. Number of prisoners, escaped, 4. Number of prisoners, retaken, 2. Number of prisoners under 15 years of age, 0. Number of prisoners between 15 and 21 years of age, 15. Number sentenced for one month or less, 14. Number sentenced for two months or less, over one month, 71. Number sentenced for three months or less, over two months, 10. Number sentenced for six months or less, over three months, 16. Number sentenced for nine months or less, over six months, 3. Number sentenced for one year or less, over nine months, 7. Number sentenced for two years or less, over one year, 0. Number sentenced to State Prison, 12. Number pardoned by Governor and Council, 0. Number of deaths during year, 0. Price of board per week, \$2.00. Amount expended for repairs during year,..... Do prisoners labor? Yes. Are prisoners leased? Yes. If so, to whom? F. M. Furbush. What kind of work done? Making heels. Average number in workshop, 54. Do prisoners receive religious instruction? Yes. Do prisoners wear regulation suits? Yes. Are your prisoners classified according to crime and age? Yes as well as we are able.

HEWITT M. LOWE, *Sheriff*.

## REPORT OF AROOSTOOK COUNTY JAIL.

*County Officers*—County Commissioners, Samuel C. Greenlaw, Chairman, Lewis E. Jackman, Patrick Therriault; Sheriff, Elmer G. Bryson; Jailer, Elmer G. Bryson; Turnkey, Henry D. Smart; Physician, W. B. Gibson; Overseer Workshop, Henry D. Smart.

Number of prisoners in jail November 30, 1910, 14. Number of prisoners in jail November 30, 1911, 39. Number of prisoners in jail November 30, 1911, for this county, 39. Number of prisoners in jail November 30, 1911, for other counties, 0. Number of prisoners in jail November 30, 1911, for the United States, 0. Number of prisoners committed for the year ending November 30, 275. Number of prisoners committed for this county, 273. Number of prisoners committed for other counties, 2. Number of prisoners committed for the United States, 17. Number of prisoners committed for drunkenness, 78. Number of prisoners committed for selling liquors, 62. Number of prisoners committed for non-payment of fines, 90. Number of prisoners committed for safe keeping by police officers and taken out by them and no return made of trial or sentence, 0. Number of prisoners, males, 263. Number of prisoners, females, 12. Number of prisoners, poor debtors, 23. Number of prisoners, tramps, 12. Number of prisoners, foreign birth, 20. Number of prisoners, escaped, 3. Number of prisoners retaken, 3. Number of prisoners under 15 years of age, 0. Number of prisoners between 15 and 21 years of age, 30. Number sentenced for one month or less, 160. Number sentenced for two months or less, over one month, 20. Number sentenced for three months or less, over two months, 9. Number sentenced for six months or less, over three months, 13. Number sentenced for nine months or less, over six months, 0. Number sentenced for one year or less, over nine months, 1. Number sentenced for two years or less, over one year, 0. Number sentenced to State Prison, 2. Number pardoned by Governor and Council, 0. Number of deaths during year, 1. Price of board per week, \$2.25. Amount expended for repairs during year, \$100. Do prisoners labor, they do. Are prisoners leased? No. What kind of work done? Sawing wood. Average number in workshop, 14. Do prisoners receive religious instruction? They do. Do prisoners wear regulation suits? They do. Are your prisoners classified according to crime and age? They are not.

ELMER G. BRYSON, *Sheriff*.

## REPORT OF CUMBERLAND COUNTY JAIL.

*County Officers*—County Commissioners, James H. McDonald, Jason C. Meade, Wm. F. Pillsbury; Sheriff, Lewis W. Moulton; Turnkey, Ansil G. Sawyer; Physician, Neal W. R. Straw; Overseer Workshop, Anthony A. Frates.

Number of prisoners in jail November 30, 1910, 144. Number of prisoners in jail November 30, 1911, 114. Number of prisoners in jail November 30, 1911, for this county, 108. Number of prisoners in jail November 30, 1911, for other counties, 0. Number of prisoners in jail November 30, 1911, for the United States, 6. Number of prisoners committed for the year ending November 30, 1911, 1640. Number of prisoners committed for this county, 1556. Number of prisoners committed for other counties, 0. Number of prisoners committed for the United States, 84. Number of prisoners committed for drunkenness, 1057. Number of prisoners committed for selling liquors, 68. Number of prisoners committed for non-payment of fines, 424. Number of prisoners committed for safe keeping by police officers and taken out by them and no return made of trial or sentence, 789. Number of prisoners, males, 1561. Number of prisoners, females, 79. Number of prisoners, poor debtors, 48. Number of prisoners, tramps, 152. Number of prisoners, foreign birth, 535. Number of prisoners, escaped, 3. Number of prisoners, retaken, 2. Number of prisoners under 15 years of age, 0. Number of prisoners between 15 and 21 years of age, 106. Number sentenced for one month or less, 272. Number sentenced for two months or less, over one month, 355. Number sentenced for three months or less, over two months, 170. Number sentenced for six months or less, over three months, 36. Number sentenced for nine months or less, over six months, 2. Number sentenced for one year or less, over nine months, 1. Number sentenced for two years or less, over one year, 0. Number sentenced to State Prison, 17. Number pardoned by Governor and Council, 2. Number of deaths during year, 0.
