## REPORT.

STATE ASSESSORS' OFFICE,

AUGUSTA, MAINE, DECEMBER 1, 1912.

*To His Excellency, Frederick W. Plaisted, Governor, and the Honorable Executive Council:*

GENTLEMEN:—In accordance with the statutes of the State, we herewith submit the Twenty-Second Annual Report of the Board of State Assessors, including the valuation of all real and personal estate of the cities, towns and plantations, and of the real estate of all unincorporated townships in the state, as fixed by this Board, as the basis on which to compute the state and county taxes for the years 1913 and 1914.

We also include tabulations of statistics returned by all municipal assessors, as made up by them on April first, 1912, with lists of corporations on which taxes have been assessed during the present year.

The total valuation of the cities, towns and plantations on April first, 1912, as returned to this Board by the municipal assessors, is \$416,891,264, showing an increase, since April first, 1911, of \$12,493,613.

The increase in real estate is .....	\$9,880,977
The increase in personal estate is .....	2,612,636
	<hr/>
	\$12,493,613

The increase in valuation this year is substantial, and indicates not only healthy conditions in the state, but a tendency on the part of local assessors to bring all property more closely to a basis of just value for purposes of taxation.

The following is a comparative statement of the valuation of the counties in 1911 and 1912, exclusive of the unorganized townships.

This represents an increase above the state valuation of 1910 amounting to \$26,411,925, as follows:

On real estate of cities, towns and plantations .....	\$20,767,843
On personal estate of cities, towns and plantations .....	3,993,094
On unorganized townships .....	1,612,313

## SEPARATION OF LAND AND BUILDING VALUES.

Chapter 174, Public Laws of 1911, provides as follows:

“The assessors shall ascertain as nearly as may be, the nature, amount and value of the estate, real and personal, for which in their judgment the owner is liable to be taxed, and shall estimate and record separately the land value, exclusive of buildings, of each parcel of real estate.”

This law was not applicable until 1912. The municipal assessors in making the separation of land and building values, in

the different cities, towns and plantations, returned as follows:

Value of buildings .....	\$190,064,718
Value of land .....	139,549,284
	\$329,614,002

We again call attention to the large amount of deposits now escaping taxation in the savings departments of national banks, and in fairness to all, would respectfully suggest to the next Legislature, that these deposits be treated in some manner similar to savings banks, and the interest bearing deposits of trust and banking companies.

We would also suggest investigation, and legislation if deemed expedient, for a classification of property for purposes of taxation.

During the year the Board has held sessions in all the counties as required by law, holding several meetings in many of them, at which all of the cities and most of the towns and plantations have been represented.

The relationship between the Board of State Assessors and the local assessors has been very friendly, and to many of them we are under great obligations in many ways.

We have made many visits to cities and towns where we have investigated different properties and conditions, and sought to bring about, so far as possible, some adjustment of any inequality which came to our attention. In some cases, this has to be brought about gradually, but by patient and continued effort necessary reforms can be brought about, and we feel that to some degree, at least, we have made advancement during the past year.

#### JAMES PLUMMER.

We feel it a duty to say a few words in regard to the late James Plummer, who was connected so closely with the work of the Board of State Assessors, as its Secretary during nearly all the lifetime of the Board.

Being particularly adapted by ability and taste for the peculiar duties of this position, Mr. Plummer filled it during nearly twenty years with credit to himself and satisfaction to every one.

Genial and courteous to all, and with a broad conception of the great subject of taxation, which he studied closely for many years, giving the closest attention and study to every detail, he held the friendship of all who came in contact with him.

We pause to give these few words showing our sincere appreciation, and can truly say, "A good man has gone to rest."

#### WILD LANDS.

By chapter 212, resolves of 1911, the Legislature appropriated the sum of \$10,000.00 to continue the examination of wild lands during 1911 and 1912.

In 1911 twelve townships were explored in Aroostook, Washington and Somerset Counties, at a total expense of \$4,565.96, as shown in the report of 1911.

In 1912 the Board adopted different methods in part, selecting ten townships for exploration, and used the balance of the appropriation for securing general information from all the wild land sections of the state.

Many of the towns explored and surveyed have shown an increase in acreage, amounting to many thousands of acres since this work was first commenced several years ago.

We have made the new valuation for 1913 and 1914, in all cases, according to the best information given us, and have increased, or decreased values, as justice to all parties seemed to require, taking into consideration the many different conditions which surround this particular class of property.

The total cost of wild land work in 1911 was \$4,565.96, leaving a balance unexpended of \$434.04 on January first, 1912. The total cost of wild land work in 1912 was \$5,072.87, showing a deficit of \$72.87, but leaving unexpended \$361.17 of the \$10,000.00 appropriated for the years 1911 and 1912.

We earnestly recommend that an appropriation of \$10,000.00 be made by the next Legislature for continuing this work in 1913 and 1914.

Respectfully submitted,

B. G. McINTIRE,

W. J. THOMPSON,

E. M. JOHNSTON,

REPORT OF THE DELEGATES TO THE SIXTH  
ANNUAL CONFERENCE OF THE INTERNATIONAL  
TAX ASSOCIATION.

---

DECEMBER 28, 1912.

*To the Honorable Governor and Council:*

By virtue of chapter 91 of the Resolves of 1911, the following delegates were appointed in 1911 to represent the State of Maine at the Conference of the International Tax Association in 1911 and 1912: O. Gardner of Rockland, Edward W. Wheeler of Brunswick, and W. R. Pattangall of Waterville.

Mr. Pattangall was unable to attend the Conference of 1912, and W. J. Thompson of China was appointed in his place.

The delegates submit the following report:

The International Tax Association is a permanent organization of tax officials and persons interested in taxation. Annual meetings have been held at various places since its organization at Columbus, Ohio, in 1907.

The sixth annual session was held at Des Moines, Iowa, September 3-5, 1912. The Conference was largely attended, representatives from a majority of the states and from every section of the country being present.

Hon. Lawson Purdy, President of Department of Taxes, New York City, presided. The papers read were by able and eminent tax officials and students of taxation, and covered a wide range of subjects, both from the legislative and administrative side. These papers were freely discussed by all, which made them of practical value. While opinions differed widely on most subjects, there seemed to be an expression of agreement,

**First:** That an inheritance tax law is desirable, and that these laws should be practically uniform in different states, so that the residents of the person would not largely effect the amount of tax, and also that the same property would be taxed in but one state. This is to simplify the administration of the law, and in justice to the individual. It is very gratifying to note that since this matter has been taken up in discussion by the Association, that New York and Massachusetts have passed similar inheritance tax laws.

**Second:** That states, that have not already done so, should amend their constitutions, so as to allow legislatures to classify personal property for the purposes of taxation, to the end that intangible property might be taxed at a uniform rate, lower than the rate on other property. The present high and varied rate causes this class of property to shift from one municipality to another or more often to escape all together.

Five volumes of the proceedings of this Association have been published and the sixth, covering the Conference of 1912, will appear soon. These volumes represent the best collection of up to date practical literature on state and local taxation now available. The contributions are from able and experienced men, and we recommend the book to all who are in any way interested in the subject of taxation.

We believe these Conferences to be of great practical value and trust that the State of Maine will continue to provide for representation at future Conferences.

Respectfully submitted,

(Signed)

EDWARD W. WHEELER,  
W. J. THOMPSON,
