REPORT OF COUNCIL COMMITTEE

To his Excellency the Governor, and the Executive Council.

The undersigned the Visiting Committee to the State Prison have made frequent visits to the institution, for the purpose of becoming thoroughly familiar with the discipline, treatment, sanitary conditions, and business management of the several departments connected therewith; it is undoubtedly true in the opinion of the Committee that the increasing demand for, and use of the automobile has rendered the profitable operating of the carriage department more difficult than formerly, but the excellence of the work has enabled the Warden to maintain a fairly good trade, the Broom Department, Blacksmith Shop, and Painting Department, are still carried on as usual, much custom repair work being carried on, but the Harness Department the most important of all shows a gratifying and decided growth; taken by the present management when it was at a very low ebb, with no orders and very few sales being made, the first eleven months showed an aggregate business of about thirty nine thousand dollars which during the present year has been increased to about sixty thousand dollars showing the confidence of the trade in the product of this shop. Your Committee believe that the Trustees of the various State Institutions which require merchandise of the character of the product of any of the departments of this institution should so far as possible purchase their supplies which are manufactured here on equal or better terms of course, thus giving employment to this class of unfortunate inmates, securing we feel sure merchandise fully up to the commercial standard and at rates as low or even less than in the open market, thereby securing to the State the advantage in both ways. In this connection we

wish to say that the health of the inmates has been good and the death rate very low as compared with many former years. The Warden has the good will of the men in a remarkable degree, which is manifest in the regularity with which they perform their allotted tasks and the small amount of friction found in the several departments, which has been a source of gratification to your Committee as well as to all others officially connected with the institution.

Respectfully submitted,

ALFRED S. KIMBALL,

CHARLES L. TURGEON,

Committee.

MAINE STATE PRISON.

To His Excellency, Governor Plaisted, and the Executive Council:

We submit to you our annual report for the year ending November 30th, 1912.

At the commencement of the prison year, December 1st, 1911, there were confined in the prison two hundred and twenty (220) convicts; received from December 1st, 1911, to November 30th, 1912, seventy-eight (78); discharged at expiration of sentence seventy-four (74); pardoned by Governor and Council five (5); died three (3); transferred to Insane Hospital six (6); escaped two (2); making a total remaining in prison, December 1st, 1912, two hundred and eight (208).

Warden Fred B. Wiggin has displayed rare business ability in his management of the affairs of the institution. Toward the charges of the State in his care he has been kind, but firm, securing the very best of discipline and co-operation from the heads of the departments and a marked degree of respect from the convicts. Warden Wiggin has strengthened the work of the institution all along the line, morally and commercially. He has succeeded in getting the very best results from the means at hand. What has been accomplished in the matter of repairs suffices to show his qualification in this direction. The Legislature appropriated but five hundred dollars (\$500) for repairs at the prison. In addition to this he has expended two thousand dollars (\$2000) of the prison revenues. New windows and sills have been added to the stable; a new piggery has been built with second-hand bricks and lumber of first class quality, obtained at a great bargain; the Main Street repository has been placed in first class condition with three new floors, new timbers for walk from wood shop to house, a new end to shed, front and back, and a shoring-up of that building; the house

on Wadsworth Street, owned by the State and occupied by Mr. Bagley, has been given a new end, new windows and sills; the house on the same street, occupied by Mr. Morton, has received a general overhauling, including new sills and floors; the house occupied by Mr. Adams has been generally repaired, and a good foundation has been placed under the barn; general repairs have been made to the ice house in addition to an extension of twelve feet; and the damage to the engine house, caused by the falling of the flag staff, has been repaired; and the exteriors of all buildings owned by the State have received a coat of paint.

Warden Wiggin's attention was also given to the large consumption of coal and he discovered that the piping and the packing of the heating apparatus were defective, and he caused repairs to be made at a very small expense. The difference in the consumption of coal, as a result, is measured by the saving of more than twenty (20) per cent. in the amount of coal used during the nine months, ending with November, 1912, as compared with the nine months, ending with November, 1911.

In the harness department we also find the result of Warden Wiggin's efficient administration of the prison. During the prison year ending December 1st, 1910, two thousand and thirty-nine (2039) harnesses were made at the prison. During the corresponding year of 1911, one thousand eight hundred and twelve (1812) harnesses were made. During the prison year just closed, two thousand six hundred and seventy-three (2673) harnesses have been made. The sales of the harness department of the prison show the gratifying increase, an aggregate of sixty thousand seven hundred ninety-five dollars (\$60,795) for the year ending December 1st, 1912, as compared with thirty-nine thousand seven hundred and one dollars (\$39,701) for the preceding year ending December 1st, 1911, and thirty-eight thousand eight hundred and twenty-eight dollars (\$38,828) for the year ending December 1st, 1910.

We also call your attention to the report of the Warden on the large increase in the output of the carriage department. The various heads of the departments have worked in complete harmony and show very gratifying results.

We wish to express our appreciation of the painstaking and conscientious manner in which Warden Wiggin is administer-

ing the affairs of the prison. His ability, his kindliness and his steady attention to details have resulted in efficient management for the good of the State and for the good of the charges of the State so unfortunate as to be prisoners.

Archie G. Bucklin, who had served efficiently and faithfully in the harness department, succeeded to the Deputy Wardenship in June 1912, and has demonstrated the wisdom of his appointment. Mr. Bucklin is courteous, tactful and firm with the prisoners, respected and obeyed by them with very little resorting to the harsher extremities of enforcing obedience. Mr. Bucklin is co-operating with Warden Wiggin to make the prison an efficient institution.

After many years of conscientious effort, Rev. C. A. Plumer resigned as prison chaplain, teacher and librarian. Rev. Eugene V. Allen was appointed as Mr. Plumer's successor. In the short time Mr. Allen has been at the prison he has met the many demands made upon him in a manner which demonstrates his entire fitness for the place.

Harriet M. Sanfrey, prison matron, continues to demonstrate a natural adaptability for the responsibilities of that position. Pleasing in personality, she inspires confidence while her mild firmness commands respect and obedience.

Mr. James A. Levensaler, who is still serving as clerk under the present administration, is a gentleman perfectly capable of filling this important position.

Dr. J. E. Walker, prison physician, has filled this position for the past fifteen years most acceptably.

Rev. Father Flynn of Rockland continues as one of the visiting clergy and always has the best of advice to give and his calls are appreciated by a large number.

The heads of the departments are efficient and courteous. We have found them at all times co-operating heartily with Warden Wiggin for efficiency in administration which not only means maximum financial returns with minimum costs to the State, but a broadening of the views of life so much now a part of prison reform.

In conclusion we would emphasize the need of certain improvements to the prison plant. The boilers and engines are now located under the work shops. Should by accident an explosion take place during work hours a considerable loss of

life would probably result. The boilers and engines should be located in a separate fire-proof building. We would recommend to the next Legislature that a new brick blacksmith shop be constructed. In cold weather those who work in the present old wooden building suffer because of its poor condition.

There is great need of a commodious and well ventilated kitchen. The one now in use is altogether too small and too antiquated to be a part of a modern institution.

Experience has shown that a general dining-room in prison work brings good results. When men, whether fortunate or unfortunate, whether free or confined, can sit at table to eat their fare, though that fare may be limited, so as to look in one another's eyes and touch elbows under a disciplined comradeship,—that association tends to uplift in marked contrast to the eating of food in a prison cell. We urge the early construction of a general dining-room for the prisoners.

The hospital facilities are not what they should be at the prison. The most is being made of what there is in the shape of hospital conveniences. There are some suspected cases of tuberculosis among the prisoners and present conditions do not afford the care which those cases demand. With adequate hospital accommodations the separation and the care so much needed could be given these afflicted prisoners.

To the warden, the Deputy, and to all heads of the several departments, who have rendered to this Board most courteous attention on our visits we wish to extend our most sincere thanks.

Respectfully submitted,

W. J. BRADBURY,

J. W. MESERVE,

A. A. BISHOP,

Inspectors of Prison and Jails.

WARDEN'S REPORT.

To the Honorable Governor and Council:

GENTLEMEN:—I have the honor to submit herewith the reports of the State Prison for the fiscal year ending November 30, 1912.

Speaking generally, the conditions have continued very much the same as heretofore, and perhaps as good as can reasonably be expected under the physical limitations of the plant.

I believe the average health of the inmates is fully as good as last year, and there has been only one death due to an infectious disease. In all there have been three deaths, one due to old age, one to a heart trouble of long standing, and one to progressive tuberculosis. While all men showing symptoms of tubercular trouble are domiciled in one wing, thus reducing the exposure of others as much as possible, I earnestly hope the Legislature will see its way clear to authorize the erection of a separate ward for such subjects, and a hospital room.

The manufacturing reports and tables show in detail the record and operations of the several departments. The results in the manufacturing departments show in the aggregate practically the same as for several years past; the harness department showing a substantial increase, while the broom department shows a considerable falling off, due to the very unsettled broom corn market throughout nearly all the year.

The expenses of our maintenance and supply departments have increased somewhat because of the very general increase in the cost of nearly every line and quality of supplies.

Recent executive actions in other states, pertaining to Prison matters, have attracted very sidespread attention, and drawn the public mind to a fuller thought of general prison conditions. This state may well congratulate itself that the feature of prison life that is being now so generally condemned—the Con-

tract and Lease System—has had no place in our State Prison for a great many years; and of the three methods for confined employment—The Contract, The State Use, and The State Account Systems—it is generally agreed that the last named, which has been in use in Maine for nearly fifty years, is the freest from abuse and criticism, and it truly can be said that Maine's prison policy has not been such as to cause any citizen to feel ashamed of it.

Many of the states have enacted the indeterminate sentence with a parole privilege, and at a recent Congress of the American Prison Association in Baltimore, I made particular inquiry of officials of the various states where it had been adopted concerning the results. The concensus of the the replies showed that between eighty and ninety per cent. of paroled men had made good; that is, observed the conditions of their parole and justified the application of the principle. The parole system, which puts a man on his honor and also under the fear of return in case he violates it, is, in my judgment, a distinct step forward, and I respectfully and earnestly recommend its enactment in our laws.

The Wardens' Association of the United States, embracing officials from every jurisdiction including the Federal Wardens, on motion of one of the latter unanimously passed a resolution urging the passing by Congress of a law giving the privilege of parole to federal life prisoners after fifteen years of good record. Such a bill has already passed the House of Representatives, and is now pending in the Senate. The Wardens' Association contains many men of several years' experience, and their unanimous endorsement of the parole system is entitled to great weight.

It will be noticed in the accompanying table, showing the age tabulation of commitments during the past year, that more than twenty-five percent. were under twenty years of age, and more than fifty per cent. were under twenty-five years. With such a large percentage of youthful offenders, it would seem to be worthy the attention of the Legislature to consider the wisdom of some arrangement that would permit the classification and segregation of convicts, so that younger men, who through some weakness or environment have made a misstep, may not be thrown in contact with older and hardened criminals. Un-

doubtedly association has much influence in determining character in young men. The limitations of our Prison plant here will not permit such treatment, but reformatory work is receiving increasing attention in many of the states, and has already been adopted into the penal system in many of the jurisdictions.

Our State School for Boys does not receive any over sixteen years of age, and in cases of any above that age committing a felony, there is no place for them excepting either a county jail or the State Prison, and none of them at best is a reformatory.

I respectfully invite attention to the conditions under which a discharged convict leaves the Prison. The law says that he shall be decently clothed, and given a sum not exceeding ten dollars. That sum will not in all cases pay his expenses of return to his home, and oftentimes he finds himself with the serious handicap of a prison record, and in sore distress for the immediate necessities of life. Unless he has relatives or friends to assist him, he is compelled to lie, beg or steal within a short time. It is an unfortunate situation in which such a man finds himself, and some system of compensation for his labor, either to himself directly or his dependent family, which sometimes has the heavier end of the burden to bear, would seem to be both economic and just. The State certainly does not want to provide conditions that compel a free man to resort to such expedients, and the Compensation System, where it has been tried, meets with general approval.

Under the provisions of a law passed in the last Legislature, I prepared and submitted to the State Auditor an estimate of the prison's requirements for the ensuing two years. They covered only consideration of our present plant, and improvements within our walls. The purposes therein mentioned, the building of a tubercular ward and hospital, a separate power plant, and a fireproof blacksmith shop, are, in my judgment, vitally necessary for the health and safety of the inmates, as well as for the economic operation of the prison's activities.

The State now owns an acre, more or less, of land outside the prison walls, as, evidently, it was originally intended that all labor should be done inside, but we receive a good many men, who through disregard of the conditions of proper living, or other causes, come in impaired health, and unsuited for work indoors. If the State owned some land in the immediate vicin-

ity of the Prison, I believe agricultural work could be carried on profitably to the Institution, and beneficially to the men.

I will repeat my recommendation of last year concerning our system of accounting. I think the installation of a new and modern method would be of very great advantage, and as a business proposition soon justify itself.

I beg to express my appreciation of the assistance and helpful suggestions I have received at the hands of the visiting committee, and for the similar treatment and co-operation of the Board of Prison and Jail Inspectors.

Respectfully submitted,

FRED B. WIGGIN,
Warden.

Thomaston, December 20, 1912.

PHYSICIAN'S REPORT.

To the Honorable Governor and Council:

GENTLEMEN:—Herein my annual report of the medical department of the Maine State Prison, I respectfully submit.

During the year there have been five (5) convicts removed to the Insane Hospital at Augusta. Three deaths have occurred, one from Pulmonary Tuberculosis, and two from Heart Disease.

Since convicts, who are tuberculous, have been kept in one corridor, and have been doing out door work, the death rate from that disease has been reduced much. Convicts do not acquire the disease here as a rule, but are tuberculous on their arrival. Each man on entering the institution is carefully examined, and if there are signs or symptoms of tuberculosis, he is put at work out of doors and segregated from the healthy prisoners as much as possible under the present conditions. As I have said in previous reports, I would recommend that a small building be built for the care of tuberculous convicts. The food has been of good quality at all times, wholesome, well cooked and of sufficient quantity, the corridors are well ventilated and heated.

To you gentlemen, the warden, deputy warden and all subordinate officers I wish to extend my thanks for the many courtesies shown me.

Very respectfully,

JOHN E. WALKER,

Prison Physician.

CHAPLAIN'S REPORT.

To the Honorable Governor and Council:

GENTLEMEN:—Since my service as Chaplain in the Maine State Prison is brief, many things desirable in a report of this department must be omitted.

It has been my ambition to maintain the standard of efficiency so long held by my predecessor, Rev. C. A. Plumer. To undertake this has meant long hours and continuous labor, but, I trust, some measure of success.

I am indebted to Chaplain Plumer for assistance in becoming acquainted with the duties of my office, and to the officers of the Prison who have extended to me uniform courtesy, and valuable assistance. The opportunities that are here afforded for doing good have come to me as a revelation. The work of teaching the men, most of whom are eager to learn, has been a pleasure, marred only by the fact that the numerous lines of work required of the Chaplain give scant time for the best results.

The Chapel services have been full of interest, and the close attention given by the men has been an inspiration to the speaker.

Some changes have been made, which have served to lighten the burdens, necessarily heavy, of the men. They have been permitted to join in the singing of one hymn in each Chapel service. While this seems a trifle to the man who has his freedom, it is no trifle to men who love to sing and who hardly know the sound of their voice, so long has it been unused.

It has seemed to me an appalling fact that the men dread the Sundays and holidays. The reason is perfectly plain to those who are familiar with prison life. To be locked in the cells during a long day is indeed hard, the only relief being an hour at Chapel, and to men not interested in religious subjects, the chapel hour may easily be a burden instead of a relief.

I have felt that the Sunday should be here as elsewhere, the "Day of all the week the best," and it is my ambition to make it so. The giving of the privilege of singing in the chapel service is helping in this direction. I am also trying to break the monotony of the afternoon by giving the men a concert in the corridors. While it is, perhaps, too early to declare the results of this departure, the heartiness with which the men join in the vocal selections, the quiet they maintain after the close of the concerts, and the pleasure and gratitude they show, all give promise that the results will be good.

In closing this report, I would say that I have found the work a pleasure, and pledge my best efforts to make good.

Respectfully submitted,

EUGENE V. ALLEN,

Chaplain.

COUNTY JAILS.

To the Honorable Governor and Council:

GENTLEMEN:—The members of this Board have made their regular visits to the several Jails in the different Counties in the State during the past year and have worked in harmony with the officials, whom we have found always agreeable and ready to do all in their power to keep their jails up to a high standard.

We feel that there has been good improvement over previous years, especially in the jails at Augusta, Bangor, Portland, Auburn and Alfred. The prisoners in these jails are employed in the work-shops connected therewith, and are in better health and seem to show more interest in life than prisoners in the smaller jails where many are necessarily allowed to spend their time in idleness. A few of the jails have wood-yards in which prisoners are put at work, but only a very limited supply of wood is furnished. If some arrangement could be made to have the prisoners in these smaller jails employed on the high-ways, in which our State is so much interested at the present time, it would not only be a financial benefit to the State, but at the same time have a tendency to cut down the number of commitments, as many of the hardened criminals evidently plan to spend most of their time loafing in our jails at the expense of the State.

There have been but few escapes during the year. The jailors and turnkeys have cautiously guarded those committed to their care.

We have called the attention of and made suggestions to jailors and their aids as to what is expected of them, and in most cases these suggestions have been complied with.

For the number of commitments, the offences and other jail statistics, we refer to the annexed reports of the respective Sheriffs of each of the Counties of the State to December 1st, 1912.

Respectfully submitted,

WILLIAM J. BRADBURY,

JAMES W. MESERVE,

ASA A. BISHOP,

Inspectors of Prison and Jails.

REPORT OF ANDROSCOGGIN COUNTY JAIL.

County Officers—County Commissioners, W. W. Farrar, John L. Cummings, Harry E. Atwood; Sheriff, H. M. Lowe; Jailer,; Turnkey, F. L. Knapp; Physician, H. S. Sleeper; Overseer Workshop, Edgar Larrabee.
