STATE OF MAINE.

EDUCATIONAL DEPARTMENT,

AUGUSTA, December 30, 1913.

*To the Governor, William T. Haines, and the
Honorable Executive Council:*

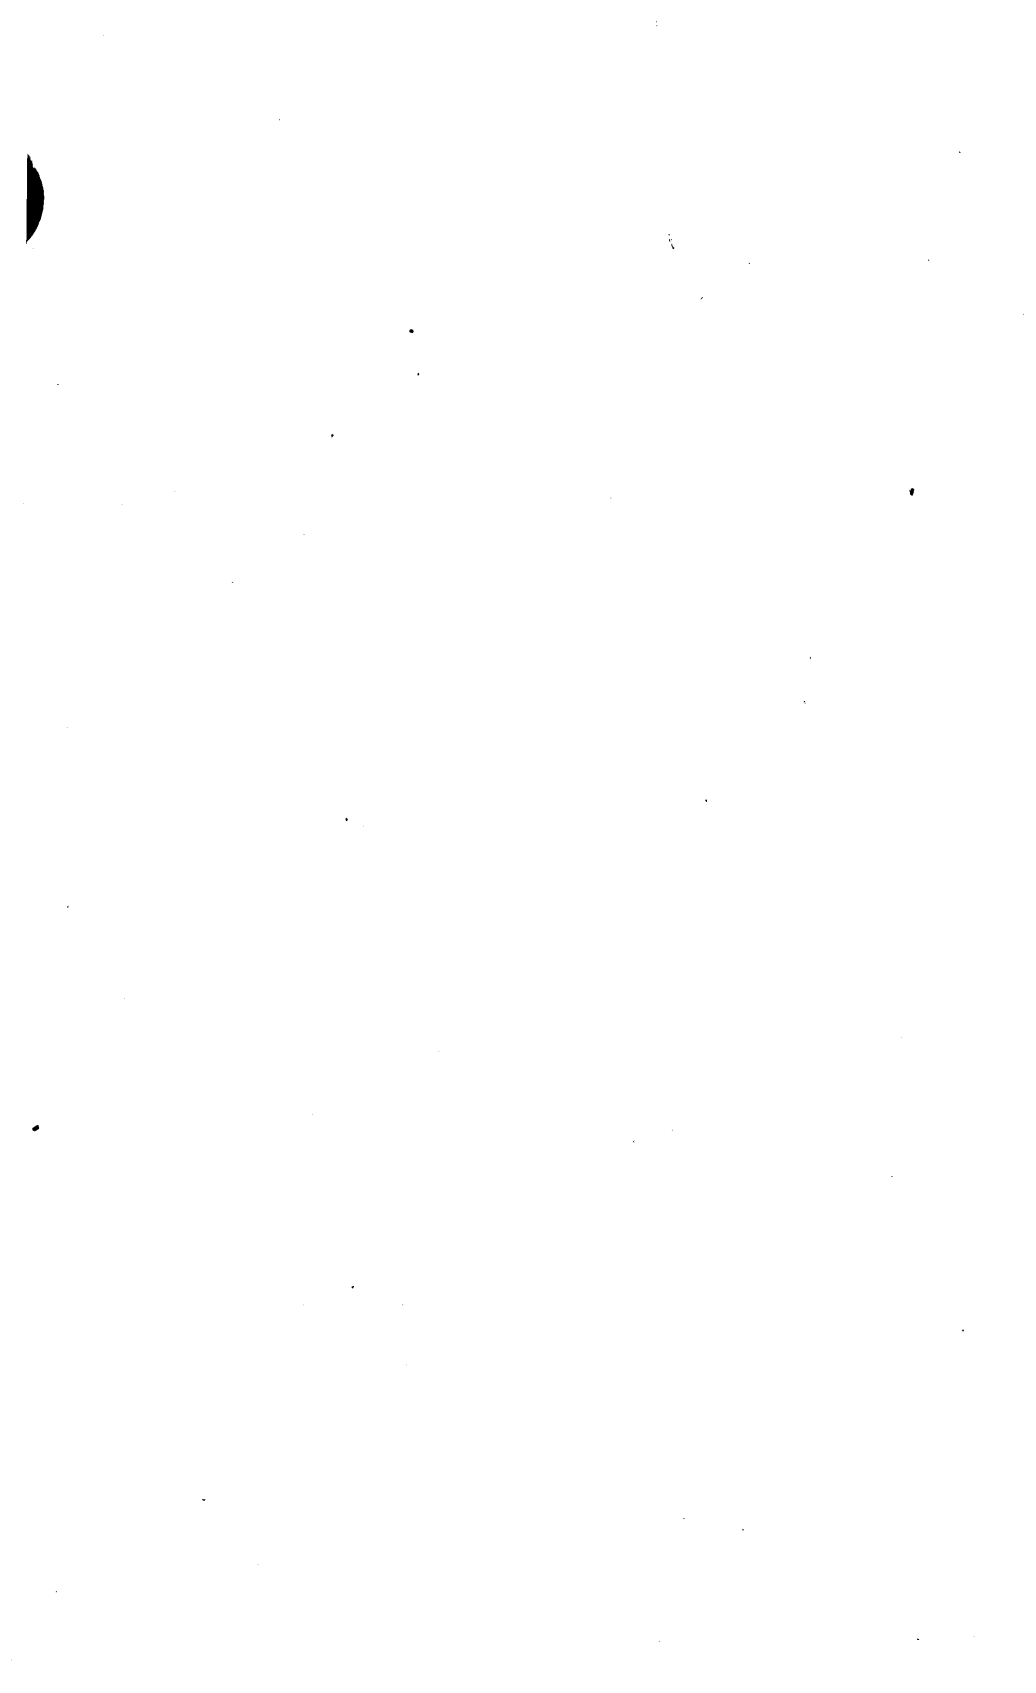

GENTLEMEN:—In accordance with the requirements of chapter 7 of the Resolves of 1895, I respectfully submit the following report of the condition, progress and needs of the public schools of Maine.

Very respectfully,

Your obedient servant,

PAYSON SMITH,

State Superintendent of Public Schools.

CONTENTS.

I. OF THE REPORT.

CHAPTER I.

Report of Educational Progress. .

Records and Statistics	I-4
Rural Education	4-14
Secondary Schools	14-21
Schools in Unorganized Townships.....	22-25
Teachers' Institutes	25-27
Castine Conference	27-30
State Meeting	31-39
State Examinations	39-41
Summer Schools	42-46

CHAPTER II.

Reports of the President of the University of Maine and the Principals of the State Normal Schools and Training School.

Special Financial Report of the University of Maine.....	47-50
Farmington State Normal School	51-53
Eastern State Normal School	53-56
Western State Normal School	56-59
Aroostook State Normal School	60-61
Washington State Normal School.....	62-64
Madawaska Training School.....	64-65
Normal Schools and Training School—Fiscal Statement.....	66-68

II. OF THE APPENDIX.

Table Number I:

Common School Statistics Showing Attendance and Registration and Summary by Counties.....	2-28
---	------

Table Number II:

Common School Statistics Showing Distribution of Pupils in Common Schools. Summary by Counties.....	29
---	----

Table Number III:	
Common School Statistics showing Distribution Regarding Teachers in Common Schools and Summary by Counties..	30-55
Table Number IV:	
Common School Statistics Showing Statistics Regarding Schools and Summary by Counties	56-81
Table Number V:	
Common School Statistics showing Statistics Regarding School Buildings and School Property and Summary by Counties	82-107
Table Number VI:	
Common School Statistics Showing Appropriations and Expenditures out of State and Local Funds for Common Schools and Summary by Counties	108-135
Table Number VII:	
Common School Statistics Showing Comparison of Certain Items in School Reports Between the Years 1912 and 1913	136
Table Number VIII:	
Common School Statistics Showing Comparison of Certain Items in School Reports Between the Years 1903 and 1913	137
Table Number IX:	
Secondary School Statistics Showing Facts Regarding Attendance and Teachers in Free High Schools.....	138-145
Table Number X:	
Secondary School Statistics Showing Enrollment by Classes and Courses in Free High Schools and Academies. Summary by Counties	146
Table Number XI:	
Secondary School Statistics Showing Receipts and Expenditures in Free High Schools	147-153
Table Number XII:	
Secondary School Statistics Showing Amounts Expended by Towns Contracting with Academies and Attendance of Resident Pupils	154-155
Table Number XIII:	
Secondary School Statistics Showing General Statistics of Academies	156-157
Table Number XIV:	
Secondary School Statistics Showing Statistics Regarding Teachers in Academies	158-159
Table Number XV:	
Secondary School Statistics Showing Permanent Assets, Current Income and Expenditures of Academies.....	160-163
Table Number XVI:	
Secondary School Statistics Showing Payments Made by Towns not Maintaining Standard Secondary School Courses for the Tuition of Pupils.....	164-167

Table Number XVII:	
Secondary School Statistics Showing Approved Secondary Schools	168-169
Table Number XVIII:	
Secondary School Statistics Showing Comparison of Certain Items of the Years 1912 and 1913.....	170
Table Number XIX:	
Showing Cities and Towns Employing Supervisors of Drawing	171
Table Number XX:	
Showing Cities and Towns Employing Supervisors of Music	172-173
Table Number XXI:	
Showing Statistics of Kindergartens.....	173
Table Number XXII:	
Showing School Statistics, Unorganized Townships.....	174-177
Table Number XXIII:	
Industrial Education—Showing Statistics of Courses in Manual Training	178
Table Number XXIV:	
Industrial Education—Showing Statistics of Courses in Domestic Science	179
Table Number XXV:	
Industrial Education—Showing Statistics of Evening Schools	180
Table Number XXVI:	
Industrial Education—Showing Apportionments of State Aid for Industrial Courses and Evening Schools.....	181-182
Table Number XXVII:	
Medical Inspection—Showing Cities and Towns Reporting Employment of School Physicians.....	183
Table Number XXVIII:	
Showing Results of Sight and Hearing Tests. Summary by Counties	184
Table Number XXIX:	
Showing Results of Examination for State Teachers' Certifi- cates and State Superintendence Grade Certificates.....	185
Table Number XXX:	
Summary of Wages Paid to Teachers in Public Schools....	186-187
Table Number XXXI:	
Showing Statistics on State Aided Supervision of Schools..	188-191
Table Number XXXII:	
Showing Statistics for Teachers' Conventions.....	192
Table Number XXXIII:	
Showing Resources and Expenditures Connected with the General Support of Schools and Summary by Counties..	193-240
Table Number XXXIV:	
Showing Amounts Due Towns in Aid of Common Schools out of the School and Mill Fund, Common School Fund and Equalization Fund and Summary by Counties.....	241-268
Index	270-279

CHAPTER I.

REPORT OF EDUCATIONAL PROGRESS.

RECORDS AND STATISTICS.

Returns of school statistics as required by law have been made by the municipal and school officers of the several cities, towns and plantations. These statistics have been distributed in the several tables of the appendix so as to show in exact detail the various educational and financial facts for the different municipalities of the State. Tables VII and VIII furnish comparative summaries of school statistics.

The following statement is a compilation of figures from all tables and from the reports of state institutions to show the annual receipts and expenditures for educational purposes within a year. Since the fiscal years of the State, of the various towns and of the several institutions do not begin and end on the same date this table does not cover exactly the same period. It does, however, show with the closest approximation possible the appropriations and expenditures from public sources and for current expenses for the period of one year.

SUMMARY OF ALL PUBLIC APPROPRIATIONS AND EXPENDITURES FOR CURRENT EXPENSES OF SCHOOLS FOR FISCAL YEARS TERMINATING WITHIN THE TWELVE MONTHS ENDING JULY 1, 1913.

RESOURCES.

Amount available from towns for common schools (for fiscal year 1912-13)	\$801,135
Amount available from State for common schools— School and Mill Fund, Common School Fund and Equalization Fund (apportioned for year 1913)	1,474,449
Amount available from local funds for common schools (for fiscal year 1912-13)	53,238
Amount available from towns for school supervision and school committee expenses (for fiscal year 1912-13)	88,086

Amount available from State for school supervision (annual appropriation 1913)	60,000
Amount available from towns for free text books (for fiscal year 1912-13)	122,577
Amount available from towns for repairs, insurance, apparatus and appliances (for fiscal year 1912-13)	255,250
Amount available from towns for industrial educa- tion (for fiscal year 1912-13)	15,796
Amount available from State for industrial educa- tion (annual appropriation 1913)	40,000
Amount available from towns for secondary schools —direct support, contracts, and tuition (year end- ing July 1, 1913)	439,654
Amount available from State for aid to secondary schools (annual appropriation 1913)	148,000
Amount available from towns for miscellaneous school expenditures—compulsory education, medi- cal inspection, rent, light, etc. (for fiscal year 1912-13)	21,867
Amount available from State for support of normal schools (annual appropriation 1913)	85,000
Amount available from State for support of Univer- sity of Maine (annual appropriation 1913)	110,000
Amount available from State for schools in unorgan- ized townships (annual appropriation 1913)	23,000
Amount available from interest and taxes for schools in unorganized townships (for year ending July 1, 1913)	2,197
Amount available from State for summer schools and teachers' meetings (annual appropriation 1913)	3,500
Amount available from State for support of Maine Industrial School for Girls (annual appropriation 1913)	25,000
Amount available from State for support of State School for Boys (annual appropriation 1913) ...	36,000
Amount available from State for support of Maine School for Deaf (annual appropriation 1913) ...	22,000
Amount available from State for education of the blind (annual appropriation 1913)	8,000

Amount available from State for public instruction in forestry (annual appropriation 1913)	4,000
<hr/>	
Total amount available from public funds and ap- propriations for current school expenses	\$3,838,749

EXPENDITURES.

For common schools (for fiscal year 1912-13)	\$2,137,842
For school supervision and school committee ex- penses (for fiscal year 1912-13)	156,162
For text books (for fiscal year 1912-13)	122,477
For repairs, insurance, apparatus and appliances (for fiscal year 1912-13)	233,144
For industrial education (for fiscal year 1912-13)	51,265
For secondary schools (for year ending July 1, 1913)	593,983
For miscellaneous school expenditures—compulsory education, medical inspection, rent, light, etc. (for fiscal year 1912-13)	21,353
For support of normal schools (year ending July 1, 1913)	81,545
For support of University of Maine (from state appropriation only)	110,000
For schools in unorganized townships (year ending July 1, 1913)	20,916
For summer schools and teachers' meetings (year ending July 1, 1913)	3,319
For support of Maine Industrial School for Girls (from state appropriation only)	25,000
For support of State School for Boys (from state appropriation only)	36,000
For support of Maine School for Deaf (from state appropriation only)	22,000
For education of the blind (for year ending July 1, 1913)	7,508
For public instruction in forestry (for year ending July 1, 1913)	2,517
<hr/>	
Total expenditures from public funds and appropri- ations for current school expenses	\$3,625,031

It is gratifying to observe the much improved condition that obtains throughout the State in the matter of collecting and reporting school statistics. The new forms employed by the state department for collecting these appear to have eliminated very considerably the duplication of figures that had become apparent. The system of keeping individual attendance records approved by the National Education Association and by the United States Bureau of Education, together with a new form of teachers' register, will be in general use beginning with the opening of the school year in the fall of 1913. The adoption of improved methods of gathering and reporting school statistics will be increasingly reflected each year in the more accurate reports that can be made on all the items of public interest relating to educational progress.

RURAL EDUCATION.

Out of a total common school enrollment of 127,045 reported for the year ending July 1, 1913, 48,633 were registered in country schools. 47,128 other children were reported as registered in village schools. Many of these children, enrolled in village schools, are getting their education under school conditions that are similar in most respects to those that obtain in strictly country schools. Undoubtedly a majority of the children of Maine are in schools which reflect for the most part rural conditions.

No more than a statement of these figures should be sufficient to emphasize the important place held by the country school in the Maine school system and the necessity of giving to it every possible consideration that will increase its usefulness. The considerable space herewith given in this report to the needs of country schools is justified by the prominence of the position they should hold in public attention.

The Country School and Agricultural Progress. No one at all familiar with the principles underlying the economic welfare of the people would fail to place agriculture as one of the great basic industries. The prosperity not only of the countryside, but of the towns and cities as well, depends upon the prosperity of those industries that are productive. The rapid movement of the population from the country to the city may well be regarded in some measure as an unfortunate symptom

in the industrial life of any people. The present tendency to counteract this movement and the growing interest in the development of agriculture promises favorably not only for the rural interests, but for the centers of population as well.

The situation of Maine with its favorable location in reference to markets, together with its enormous areas not yet brought to full productivity, would indicate that our State may take a leading position in the rural life movement which has unmistakably begun. Our people need to bear in mind, however, that this growth and development of our rural interests cannot come in full measure unless the educational opportunities to be offered country children are as good as those offered children elsewhere. One strong reason for the movement toward the city already mentioned is undoubtedly to be found in the belief among country parents that they can improve the educational privileges of their children by removing from their farm homes to the villages and cities. Both for the benefit of those who have remained in the country and to attract to our rural sections a desirable population it is imperative that the rural schools be made equal to every reasonable educational demand.

The Financial Problem. Foremost in any discussion relative to the improvement of schools must come the consideration of ways and means. It requires only the most casual survey of figures to show that the per capita cost of education in the country is much greater than in the city. Take, for example, the cost of instruction and we find that the per capita cost of teaching ten or twelve children, even at the meagre salary rate of \$9 or \$10 a week, is much larger than the per capita cost of the same item when thirty-five or forty children are taught by the city teacher receiving a salary fifty per cent or more higher. Herein we find at once the reason for one of the chief deficiencies of the country school, that which results from the constant loss of the better prepared teachers to the larger villages and cities. Again the charges for transportation add to a greater or less extent to the cost of school support. The State has already recognized in a measure, through its three mill tax and the method of distributing the funds obtained therefrom, this disadvantage of the country schools as compared with those found in the cities. By means of these funds

the centers of population are already contributing largely to the support of education in the more sparsely settled communities. The Equalization Fund created by the legislature of 1911 and considerably increased by that of 1913 aims to provide still further relief to a group of towns, which despite a heavy rate of taxation for schools, find it impossible or difficult to keep them up to a reasonable standard of efficiency. In further solution of the financial problem citizens of rural towns should scan carefully their resources to see whether or not larger appropriations may not be made without distress or hardship. As a matter of fact an examination of the statistics returned by the municipal officers and printed in the appendix of this report would indicate that there are a large number of towns which are very far indeed from having reached the limit of their possibilities in the matter of school support. It should be noted that while the cost of education rests more heavily upon these communities yet there are other items of municipal expense from which they are relatively free. Other reforms in the direction of a reduction of certain school charges or in the more economic expenditure of funds now available are quite possible in many towns. In many instances there is an evident lack of care in the oversight of school property, including text-books and equipment as well as buildings, and this neglect is the cause in the aggregate of no little financial waste. Transportation, which is legitimate and proper in every necessary case, is not seldom given to appease noisy and unreasonable claimants. Again while the one room country school must continue to occupy a large place in the rural school system of the State yet there are undoubtedly very many cases where local opinion ought to yield to the arguments for better school privileges and assist in the reasonable consolidation of the smaller schools.

School Board Management. It is apparent that many citizens are not familiar with the large powers held by members of the superintending school committee. This committee is charged by the law with having full control and management of the public schools of its town within the specifications and requirements of the statutes. These powers are not given by the town and cannot be modified to any considerable extent by town action. The arrangement of courses of study, the care of buildings, the selection of text-books, the approval of the choice

of teachers, the discipline of pupils, the expenditure of school funds and the adjustment of the numberless details of school management come within the power and influence of this committee. There is no other officer elected at a town meeting whose position is more important than that of the person who is elected to school committee membership, yet it is not at all infrequent for citizens to give large prominence and pay considerable attention to the choice of other officers and to pay small heed to the choice of this officer whose voice must be so influential in the largest public interest of the town, that of education. Unfortunately members thus elected frequently fail to understand the importance of the positions they have been called to fill. It has been found even that in not a few towns the school committees have neglected to hold regular meetings often settling important educational matters by telephone communication or roadside conference without the deliberation incident to regularly called and properly conducted committee meetings. In the matter of school management the fact ought to stand out clearly in the minds of citizens that in the last analysis they are accountable for its quality in the care they give to the choice of members and in holding them accountable for the full discharge of their duties.

On the other hand it should be borne in mind that these persons have responsibilities laid upon them by the law which they are bound by oath to discharge. The enforcement of various laws in respect to education is in their hands and in this enforcement they should be sustained by the people and not subjected to the petty criticisms and fault findings so often unjustly visited upon faithful officers.

The Rural Teacher. In a very high degree the success of rural education must depend upon the quality of the teaching force employed for the rural schools. The teacher of a rural school must be skilled as an instructor not alone in the subjects of a single grade, but in a wide range of studies covering several grades and frequently embracing the entire common school curriculum. She must be able through her own powers to govern successfully. She is expected to be familiar with the wishes and interests of the community, acting in some sense as the leader in the educational activities of the place wherein she is employed. It is not too much to say that the

demands of a country school are greater than those of a city or village school and that these can be met only by the employment of superior teachers. It is unfortunate that the impression has prevailed even among many country people that any one can teach a country school. If there are to be any low standards in respect to preparation and training these certainly should not obtain in a position where the teacher will be expected to meet so many demands upon her knowledge and skill as will be made in a rural school. This conclusion implies that in respect to her wages the country teacher should not suffer in comparison with the teachers of other schools. If the country school as a whole is to be supplied with a teaching force adequate to its demands there must be greater consideration in the matter of salary, freedom from criticism on minor points of personal and professional conduct and larger hospitality to progressive methods in education. A factor which is responsible for much waste of educational effort in rural schools is to be found in the custom, still followed in many towns, of employing teachers for the period of the single term. The frequent changes that result from this policy are disastrous to the progress of pupils and make difficult the successful issue of any plan that contemplates more careful system and organization, both of them ends greatly to be desired for rural education. There should be a more general acceptance of the practice of making teaching contracts for the school year ending the first of July.

School Buildings and Equipment. Hardly second in importance to the teacher as an element of educational influence is the school building and its surroundings. It would be impossible to estimate the extent of the influence exerted upon the youth by environment. Our children spend many hours of the day in the schoolroom. Not only are their minds and characters being molded and formed by the influences of their schools, but their physical welfare is likewise in large measure determined by schoolroom environment. Every school child is entitled to school surroundings which are clean, wholesome, safe and morally uplifting and no town or community has discharged its obligations to its children until all the school buildings and surroundings meet these specifications. It is not possible for the best work to be accomplished in a schoolroom which

is improperly heated, inadequately ventilated or lighted and badly furnished. Contrary to a prevalent opinion the changes that are necessary to put all school buildings in a reasonably decent condition in respect to these things need not be unduly expensive. The re-arrangement of the windows, the provision of a ventilating stove, an equipment of modern desks, decent outhouses: these are all within the means of any community. Small appropriations combined with local interest and effort would give to all of our rural schools attractive interiors, pictures and small school libraries. Notwithstanding the considerable improvement that recent years have brought in the extension and beautification of school grounds and the construction of suitable outbuildings there still remains very much to be accomplished in the direction of further improvement. It certainly should not be necessary for the children now in school to suffer the discomfort and the unfortunate influences consequent upon the neglect of towns to provide adequate buildings, school grounds and equipment. It is an imperative duty of the school authorities of each town to lay before its citizens an exact estimate of the things that need to be done to put their school buildings and surroundings in good condition together with an accurate estimate of the cost of the work. There should be no delay in affirmative action on these recommendations.

The Course of Study. The chief function of any common school is to teach thoroughly the fundamental subjects that are necessary to the acquirement of other education. The duty of the common school in the country is not radically different from that of the common school of the village or city. It is not any part of the business of this school to teach scientific agriculture any more than it is a part of the business of elementary schools of the cities and towns to address themselves primarily to vocational education. It is, however, in accord with the best educational procedure to bring the educational process as closely as possible in contact with the actual experiences of the child in his every day life and conduct. With this principle in mind it is not difficult to see that the country school has frequently been misled into laying too much emphasis upon experiences remote from rural life. The subjects taught in the country schools need not be radically dif-

ferent from those which have been associated with the common school curriculum for many years and yet be made more efficient instruments for leading the child into a sympathetic understanding of his surroundings. Reading, arithmetic, geography and all the other subjects of the country school may be so taught as to make use of the material which comes within the scope of the child's experience and understanding. The statement that the country school should not be given over to courses in scientific agriculture is not to be implied as a criticism of school and home gardens and nature study. So far as these branches are to be defined as elementary agriculture thus far is elementary agriculture justified in the schools. By means of the school garden, boys' and girls' agricultural contests and similar means the ambition of our country youth will be awakened, their interests quickened and their educational advantages improved. It is well, however, at a time when extensions of the course of study are being widely advocated to reiterate the importance of devoting the energies of elementary education to the end of providing that fundamental equipment without which the thorough acquirement of other education is difficult. The reform of the country school curriculum is not to be made through an elimination of reading, arithmetic, geography, history, civics and other time approved subjects, but rather through the direction of these towards the experiences of rural children. Problems in arithmetic are not less valuable when they deal with farm experience and needs than when they take the form of a more remote mercantile application. The program of the country school in common with that of the city school ought to recognize more fully the part in education played by the child's physical activities. Beginning with the smallest children and continuing through the course there should be constant opportunity for the child to make application of the theoretical principles he studies. The opportunity for this application in the country school is vastly greater than in the city school and this advantage should be utilized in full measure. By means of manual training and household arts courses the country school can become immeasurably more useful to the children who attend it and hence to the communities where they will live. These courses again should not be constructed without due consideration to the varying circum-

stances which obtain among different communities. A formal course in manual training, when not related to the daily experiences and needs of the youth, is quite as absurd and leads to as disastrous educational results as any other course similarly arranged. The theory that the so-called practical courses have some educational value when their practical application is not made is fallacious. Briefly then the principal need of rural education in respect to the subjects of the course of study is that these shall be fundamental, thoroughly taught and related so far as possible to the interests and experiences of the child.

The School as a Community Center. Within a few years there have been many advocates of the extension of the uses of public school buildings. These advocates have spoken for the opening of school buildings for public lectures, debates, political discussions, entertainments and community meetings of all kinds. This extension of the influence of the school is not a new thing in rural communities. It is indeed curious, however, that this phase of the usefulness of the school has been permitted to decline at a time when it is coming into recognition in the city. The frequent opening of the country schoolhouse as a neighborhood center for purposes of common community interest is something greatly to be desired not only on account of its beneficial results to the community, but also on account of its reaction upon the primary uses of the school. Any community which makes frequent use of its school building for these larger ends is certain to have a more active and intelligent interest in the education of its youth. Through the medium of the School Improvement League, Parent-Teacher Associations and similar organizations an aggressive effort should be made to restore the country school to its former position as an active force in the larger educational program of the people.

Community Interest and Responsibility. No other institution in our country is more truly representative than the public school. One can say with entire truth that the schools of any community cannot average much better than the public sentiment of the community as a whole will endorse and they cannot remain permanently inferior provided this public opinion demands improvement. It is erroneous to suppose that the public schools of any town or community can be improved

only by legislation and by main force of official action. There must be an alert and sustained interest of the people if a high measure of efficiency is to be secured and maintained. High educational standards are not insured either by liberal appropriations alone. It is necessary that there should be sympathetic coöperation and active support. These will insure permanent progress.

Past Improvement. The foregoing observations on rural education are not to be construed as a conclusion that country schools have generally deteriorated. There is little evidence to sustain such a premise. School buildings have in many towns radically improved. There are towns where one cannot find school buildings and surroundings that do not meet reasonable standards. The school year has been very considerably lengthened so that the country children of Maine now enjoy an extent of privileges very greatly increased over those afforded even a decade ago. The qualifications of teachers are shown by the returns to be steadily improving, many normal graduates are employed in country schools, larger numbers of rural teachers are found in attendance at institutes and summer schools, while it has become the exception for school officials to employ as new teachers in rural schools those who have not at least completed their secondary school courses. Every year the net local appropriation for schools is increased. In respect to the supervision and administration of rural education there has been perhaps greater advance in the past decade than in any other one phase of educational effort. In all respects there is reason to feel encouraged with the outlook for rural education. However, one cannot deny the fact that there are still many communities and not a few towns wherein it will be necessary to formulate and to pursue an aggressive program of educational reconstruction before it can be claimed that rural education will realize the fullness of its opportunity. The interest in this part of our educational system should by no means be confined to the people who live in the country. The prosperity of all the people depends very considerably upon the social, educational and industrial conditions of the countryside. The new era of enlarged industrial activities to which the entire State looks forward with so great confidence cannot be fully realized unless there shall in some way be insured rural educational opportunities not inferior to those of the villages and cities.

Necessary Steps. The things that need to be done to improve the quality of rural schools may be summarized as follows:

1. A recognition by the people that rural prosperity depends on the quality of the educational facilities offered.
2. More liberal financial support for common schools.
3. The immediate adoption by each town of a program of school building improvement so that no country child need attend any school that does not meet reasonable standards with respect to heating, lighting, ventilation, sanitation, grounds and outbuildings.
4. The consolidation of schools wherever this is possible without undue physical hardship.
5. Extreme care in the selection of school committee representatives.
6. Regularly held and properly conducted school committee meetings for the transaction of school business.
7. The employment of trained superintendents.
8. Better salaries and higher professional standards for rural teachers.
9. The employment of teachers on the basis of the full year rather than the single term.
10. The granting of conveyance only on the basis of necessity for such conveyance.
11. Proper supervision of school wagons, their equipment and drivers, that the safety and comfort of pupils may be reasonably assured.
12. Required supervision of school children by the teacher or other responsible adult during the noon intermission and throughout the school day.
13. A regular course of study providing for the thorough mastery of the common school branches, related at every possible point to the experiences of country children.
14. Extension of hand work, including both manual training and household arts.
15. A school library for the use of both pupils and the community. The rural school as a distributing branch library in every town supporting a public library.
16. School gardens and boys' and girls' agricultural clubs under school direction.

17. The frequent use of the schoolhouse for neighborhood purposes.

SECONDARY SCHOOLS.

The availability of secondary school privileges to the youth of the State was effectively demonstrated in the annual report of 1910. It was shown that slightly more than five thousand persons of school age, five to twenty-one, lived more than ten miles from standard secondary schools. The extent to which the youth of the State are availing themselves of the schooling opportunities may be shown by several comparisons.

Using as a basis the total registration in secondary schools for the current year and the population of the State according to the last census it appears that one person out of each 43.5 is enrolled in a secondary school. This is equivalent to saying that twenty-three persons out of every thousand are in such schools. Using the school census, persons between five and twenty-one, as a basis, seventy-seven to each thousand are in secondary schools and for each thousand enrolled in common schools 135 are registered in the secondary schools.

Of those persons under twenty-one years of age not attending elementary schools one in each 5.3 or 189 to each thousand are to be found in the high schools and academies of the State. This ratio does not take into account the young men and women registered in colleges, normal schools and other educational institutions representing work in advance of the common schools. When it is borne in mind that the average limit for secondary school students is approximately eighteen it is evident that a very large proportion of the youth within the ages of thirteen and eighteen are in schools beyond the elementary grade.

Qualifications of first year students. In connection with the inspection of the secondary schools for the past year special attention has been given to the preparation of the pupil of the first year class. Inquiry was made in a large number of instances of principals and of teachers who had these classes in charge as to the thoroughness of this general preparation and the subjects in which there was marked weakness. It was difficult to secure results that would admit of tabulation. However, the information was sufficiently complete to furnish a basis for inference and recommendation.

The opinion was so generally expressed as to be almost unanimous that classes were entering the secondary schools better fitted than formerly to go on with the courses offered. This evidence of general improvement comes from schools in large well organized systems and from those in which a large number of pupils are drawn from rural communities which have not the advantage of expert supervision and careful organization. Exceptions are frequent but the tendency is distinctly toward more thorough work in the elementary schools as evinced by the ability of the pupils to go forward with the work of the higher school.

It would appear that the fundamental gain is in power of application, resulting from more systematized work in the grades, better teaching and more attention to training in habits of study.

Inquiry as to deficiencies among entering classes brings out two subjects in which there is general complaint in respect to the qualifications. These subjects are English and mathematics. The range of these criticisms is limited to two principal defects, the lack of accurate knowledge of subject matter studied in the grades and lack of power to apply and to "think." For the latter defect the elementary schools are responsible only in part.

In many instances secondary school teachers, especially those of limited experience, fail to make accurate estimate of the mental development of first year students. They are apt to credit them with an ability to do sustained and logical thinking which the stage of mental growth does not warrant. However the inability of many pupils to give the attention necessary to follow an explanation or to fix certain points in the lesson may properly be taken as the basis of criticism for the lower schools. It would appear a proper function of these schools to begin in an effective manner the development of habits of study and of right mental attitude in the class. It is not to be assumed that such training can be carried to its completion in the grades. The secondary school must stand ready to carry on the training in an effective manner. Their marked failure to do this weakens the force of the criticism in respect to the lower schools.

From every point of view it is vitally important that training in correct habits of thought and study should form an essential

part of the education of the child through upper years of the elementary school and in the high school.

The lack of accurate knowledge in the subjects of English and arithmetic may be looked upon as a failure of the common schools to do this work well. In English it appears in the apparent failure on the part of pupils to recognize and define grammatical forms and the inability to use simple constructions correctly. Here again it is possible that teachers are expecting too much and that the wretched confusion in grammatical terminology is responsible for seeming ignorance. The statement was so frequently made that the pupils "could not tell the parts of speech," "could not distinguish the subject and predicate," "did not know the meaning of 'declension' or 'conjugation'" and the like, that a marked weakness in elementary knowledge of English grammar would appear to exist. Technical grammar, formal analysis and synthesis comprise subject matter which should find a distinct place in the high school English work and should be continued throughout the course. The elementary schools may however be properly charged with the task of teaching thoroughly definitions, the correct forms of common speech and the mechanical parts of grammar. They may leave the peculiarities, the idiom and advanced analysis to more mature minds. Less frequently, though with quite as much propriety, the criticism was made that the pupil had little power of clear expression, that recitations were carried on in monosyllables, that they could not read understandingly. Taken as a whole few first year students read well. In many instances the reading of classes in general is extremely poor. Pupils stumble over words, read without expression and without appreciation. They are seldom able to express their ideas in sentences of more than the briefest extent. With due allowances it would appear that many first year pupils do not meet the reasonable tests that high school work provides with respect to knowledge of grammar, ability to read and power to give expression to ideas.

In mathematics, inability to work accurately and rapidly in the fundamental processes and to use common fractions correctly is the prime weakness. Power to see reason for certain procedure may not be within the ability of pupils at this age but mechanical accuracy and familiarity with fundamental pro-

cesses may be acquired in the lower schools. It is proper to say that in many instances the high school teachers fail to correlate closely the algebra with the arithmetic. Such correlation would in some measure recall the students' arithmetical knowledge and at the same time make the new subject of less mystery to the student.

It will appear that these subjects are practically the only ones in which the students undertake advanced work in the high school. Here and there weakness in geographical knowledge appears and pupils frequently lack adequate background or method of study for history.

Tuition examination. Another source of information throws some light upon the preparation of the first year students. During the past year the results of the examinations for tuition certificates have been tabulated showing the approximate number examined, the number of failures and the number of failures by subjects. No account has been taken of the few cases in which a second examination was given. The tabulation includes all the pupils examined during the year from June to the following April. Two sets of papers served as the basis.

Entire number examined	1102
Number granted certificates	797
Number not certificated	305
Per cent not certificated	27.7

Number of failures in	Per cent of number examined:	
Arithmetic	302	27.9
History, U. S.	237	21.5
Geography	267	24.1
Spelling	177	16.
Grammar	244	22.1
Physiology	145	13.2
Reading	46	4.2

It should be noted that the grading of the papers is wholly in the hands of the local superintendent and that considerable variation in passing marks exists. The results show that considerably more than one-fourth of those examined failed to secure certificates. This percentage is not high but shows fair discrimination on the part of the examiners. The closest marking appears in the subjects which appear less satisfactory

in the high school and the number of failures may show that in spite of the excessive stress that is placed upon arithmetic in many schools there is a failure to secure concrete results. Grammar has received less attention but occupies a prominent place in the elementary school curriculum. It will be noted that there is an almost negligible number of failures in reading. While this may be due to the character of the tests applied it would seem that less emphasis is placed upon this subject. In the light of the later work of these pupils it would seem that ability to read should be regarded as an important factor in determining the qualifications of a pupil for work of a higher grade.

Permanency in the Teaching Force. In respect to the teaching force as a whole there exists a condition so vital to the welfare of the schools as a whole as to call for special attention, namely, the frequency and extent of the changes in the teaching staff. The returns filed at the beginning of the fall term 1912 show the changes between the close of the school year in June and the opening of the new year. These returns while not complete are approximately correct and adequate to serve as a basis for discussion. Data is available upon 226 secondary schools. Of this number 94 opened in the fall of 1912 with a new principal, this is 41.6 per cent of the schools. Of a total of 526 assistant teachers in these schools 221 or 42 per cent were new to their positions. A total of 315 teachers began work in new positions in the secondary schools with the opening of the year. It appears that 45 schools opened with an entirely new staff of teachers. Of this number 24 belonged in class B or C, but 21 were standard schools. Surprising as it may seem 158 schools changed at least 50 per cent of the teaching force. Deducting 23 sub-standard schools it appears that in 60 per cent of the standard schools at least half of the teachers were in a new position.

Considered from another point of view it is found that 59 of the new principals and 101 of the new assistants had previous secondary school experience showing that at least this number were changing their positions from one school to another. With due allowance for real promotion there would appear to be something radically wrong with a system in which 42 per cent

of its employees are in new positions at the beginning of the year and in which at least 20 per cent of its experienced men and women are seeking positions in another part of the system.

Such a condition cannot fail to work a hardship to the schools. It means almost without exception distinct loss in the first half of the term succeeding the change. In the 135 standard schools where at least half the teachers were unacquainted with the school, the pupils and the community the extent of the loss cannot be estimated. The high percentage of changes results in many instances from a short-sighted financial policy. In others lack of good common sense on the part of school officials or teachers or the community at large or of all three is responsible for the change. In any case the pupils must suffer. Every town should have funds available for the increase in salaries sufficient to retain the services of a teacher for a period of years. Great care should be exercised in the selection of teachers and communities should be in a position to pay salaries adequate to command the services of competent men and women.

Union Schools. There is an increasing tendency to open schools of class B and C in communities where the actual attendance is small, and to advance the grade of these schools as rapidly as possible. Efforts in either of these directions when earnestly made receive every encouragement. There is accumulated evidence that such schools stimulate to more advanced work and tend to increase the number of pupils who attend standard secondary schools and higher institutions. The ability of these schools, as well as many of the smaller standard schools, to render the best service is considerably limited by lack of funds for securing and retaining competent teachers and for providing necessary appliances for school work. The increasing demands for a diversified program of studies offering strong practical arts courses places greater burdens upon these schools. In several localities a possible solution may lie in a union school suitably located. A group of towns may unite under the contract relation to maintain a high school. On this plan each town would be reimbursed upon the same basis as if it maintained a school of similar grade. The advantages accruing would arise from a larger and better qualified teaching force, a broader

course of study and more extensive equipment. The number of pupils would make it practicable to offer special courses in domestic science and mechanic arts, agriculture or business. Such schools would provide the opportunities for legitimate school activities which are denied to many of the small schools.

The success of the centralized school has been so marked in certain sections of the country as to make the plan worthy of careful consideration in localities where geographical relations are in any degree favorable. Adjoining towns with a natural center and those served by steam or electric railway connections offer such an opportunity. The distance traveled by the pupils in the aggregate would probably be no greater than attendance at the local schools would entail. The principal difficulty in the establishment of such a school would be probably found in overcoming local sentiment. But where conditions are favorable for the organization of a strong school the interests of the boys and girls should rise above purely local considerations. The value of coöperative measures is being tested successfully in many inter-community enterprises. The high school may well profit by such efforts.

The popular demand for more practical training in secondary schools impels the study of a practicable solution of securing such instruction in the smaller communities. There appears but little question that a group of towns entering heartily into a plan to provide the fullest opportunities for their youth of high school age would be able to maintain a school of very great value to its patrons. Such an attempt would of necessity be in the nature of an experiment but one that would appear to be based on sound principles of economy and efficiency.

Increasing the Efficiency of Secondary Schools. Continued study of conditions in these schools leads to certain conclusions as to methods of increasing their efficiency. Briefly summarized they may be described as follows:

1. The course of study must be formulated so as to serve the real educational needs of the community but within the limits prescribed by the teaching force and equipment of the plant. More than can be done well should not be undertaken.

2. To provide for more extensive courses within reasonable per capita expenditure union schools are recommended where geographical relations make the plan practicable.

3. Improvement in the teaching force is essential in respect to:

- (a) Special fitness for teaching certain groups of kindred subjects.
- (b) Professional training in secondary school pedagogy and administration as measured by a secondary certificate of professional grade.
- (c) Special training resulting from summer school courses, private instruction and travel.

4. Permanency of the teaching force is essential and may be secured by:

- (a) Increase in salaries conditioned in part upon definite efforts at self improvement during term of service.
- (b) Expert, sympathetic supervision.
- (c) Community interest and coöperation.

5. Better organization of outlines and syllabus of work in various subjects will give aim and definition.

6. In many instances it is imperative that more attention be paid to buildings, especially as regards adequate heating and ventilating systems, correct and ample lighting and proper sanitary arrangements.

7. Equipment adequate to supplement the class room teaching in all respects should be available. It should include:

- (a) Apparatus sufficient for effective science work in all the subjects offered.
- (b) Maps, charts and other appliances and illustrative material according to needs.
- (c) A reference library of at least one hundred well selected books which really supplement the text-books together with an encyclopædia of recent date and dictionaries.

The presence of one or more of these factors in efficiency in any school will be regarded as evidence of specific efforts for improvement. Any school which is really serving its constituency must make constant growth. Its efficiency will be conditioned in large measure by the success which school officials meet in securing the coöperation of citizens in carrying out these suggestions.

SCHOOLS IN UNORGANIZED TOWNSHIPS

The work in the schools of the unorganized townships has been carried on along essentially the same lines as those followed last year. Efforts have been directed principally toward securing the best available teachers and then using every influence to bring them into the closest possible relationship with the State, to the end that a greater uniformity of the whole system may be obtained. It becomes increasingly evident that these schools must, on account of the great variety of conditions surrounding them in the communities where they are located, be treated to a considerable degree as individual units rather than as mere cogs to be fitted together to form a standardized machine. While it is possible to bring about much greater unity of procedure through having the results desired more clearly indicated and then providing the necessary tools for securing these results, there still remains to be considered the fact that the success or failure of these schools for any given period of time depends most vitally upon the personality of the teacher in charge of the school and her ability to realize in a practical way the need of that particular community in which she is working. On account of the size of the territory over which these schools are scattered the direct supervision of their work must necessarily be limited and a great many details of management must be left in the hands of the teachers.

Throughout the year the systematic inspection of the schools has been continued and the reports filed have shown in detail the condition of each school with recommendations for its improvement. In addition many sidelights on the general community life have been included which should prove of value in outlining the work to be carried out in the school for that particular group of children.

Books and supplies have been constantly added to the equipment until there are now only a very few schools which are not furnished with charts, from two to five good maps, a globe and a certain amount of busy work for the use of the smaller children, in addition to regular text-books, a number of books for supplementary work, and the nucleus for a well selected school library. In fact the general equipment of these schools has now reached the point at which it may be safely said that they

compare favorably in this respect with the better class of rural schools throughout the State.

Several changes and additions of text-books are known to be desirable and it is probable that these needs can be at least partially met during the current year. As soon as these additions are made a more satisfactory organization upon the basis of a regular course of study can be effected. A great degree of elasticity in this respect is necessary to meet the greatly varying conditions and special consideration must be given to local interests and the probable outlook of the pupils upon life after leaving school. So far as possible teachers have received instructions to make their work look toward this end. In several instances where pupils were very much over age and but slightly advanced directions have been given to place great emphasis upon essentials so that in the short time left to these pupils they might be given a solid foundation in the fundamental processes of reading, writing, spelling and arithmetic without much regard for other subjects.

There is, however, a growing tendency, especially among the schools of longer establishment, for pupils to take advantage of their opportunity to attend a secondary school and teachers are instructed to encourage this worthy ambition.

A typical example of the valuable work which these schools are doing for the general advancement of citizenship in the State is found in one township which has had the advantages of a local school for some fifteen years, or ever since the legislation making it possible was enacted. The generation of young people which grew up in this community before the establishment of the school shows almost universal inability either to read or to write. Today there are no children in the settlement who are not well advanced in elementary subjects in proportion to their age and there are two pupils in the school who have passed examinations for entrance to high school and who will soon take up their advanced studies.

Detailed statistics relative to the schooling of children in all of the unorganized townships are shown in table XXII. From these statistics in comparison with those of last year it appears that there has been an increase of two in the total number of townships for which school privileges were provided. Of this total there was an increase of six in the number from which

children were schooled outside the township and a decrease of four in the number having local schools, while the number of schools actually maintained shows a decrease of one.

There is noted a considerable decrease in the number of persons between the ages of five and twenty-one years as reported for April 1, and a corresponding decrease occurs in the number of different pupils registered in the schools for this year. This difference is accounted for by the fact that township Number 3, Range 1, in Somerset county, known as Long Pond, was organized into a plantation just before the school year began on April 1. Three schools had been maintained by the State in this township during the previous year and the total enrollment was eighty-three pupils which is the approximate difference in the total enrollment in all schools for the two years.

With practically the same number of teaching positions there is shown a decrease of twelve in the number of different teachers employed. Other things being equal, this fact indicates a marked gain in efficiency. It is almost always true that a school in which a change of teachers is frequently made does not show as uniform progress as one in which the same teacher remains for a longer period. Lack of permanency in the teaching force has been one of the weak spots in the organization of this part of the school system and therefore any gain in this particular is especially gratifying. Whether or not this gain can be made a permanent one is a question which cannot with safety be answered in the affirmative until there has been an opportunity to judge from the figures of several years. The peculiar conditions surrounding a part of these schools make the length of time that a teacher will remain an uncertainty. There seems to be, however, enough evidence of a favorable nature to warrant the hope that, in a majority of the schools at least, there will not arise the necessity of making changes within the period of a year.

Approximately one-third of the teachers employed had received some professional training and twelve were graduates of normal schools. The actual number of those teachers who had had previous experience shows a decrease of one but when this fact is viewed in the light of the much greater proportionate decrease in the total number of teachers it is seen that the percentage of experienced teachers is actually increased. Still fur-

ther it appears that the average number of terms experience is more than doubled.

The poor accommodations provided by many of the townships in the matter of school buildings constitute an element of weakness in the efficiency of these schools. Physical conditions have much to do with determining the quality of any school and the past year has shown a marked interest in several communities looking toward the betterment of these surroundings. While the State cannot undertake the construction of school buildings on account of the necessity of employing whatever increased appropriation may be available for the purpose of securing better trained teachers and to lengthen the school year, nevertheless it is possible to expend a small amount upon furnishings when the enterprise of a community assures a new or thoroughly repaired schoolhouse. The proposed increase in the number of weeks of the school year makes more important than heretofore the presence of a suitable building because it will prove necessary to continue the sessions considerably further into the season of cold weather. With the encouragement which the State is offering in various ways and the interest which has already been aroused it seems reasonable to assume that the time is not far distant when there will be a very notable advance in the physical environment of those schools at least which are located in fairly permanent settlements.

TEACHERS' INSTITUTES.

Teachers' institutes have been held during the year as provided by Section 89 of Chapter 15 of the Revised Statutes. Table XXXII shows in detail statistics of these several institutes and of the convention of the Maine Teachers' Association. Addresses on the subjects named were given at the county meetings by the following persons not residents of the the counties wherein the conventions were held:

Dr. A. E. Winship, Boston, Mass.:

“Making Boys Manly.”

J. B. V. Bridges, Principal of Fredericton Normal School:

“The New Brunswick School System.”

Hon. H. C. Morrison, State Superintendent of Public Instruction for New Hampshire:

- “Three Periods in the Development of the Child Mind.”
Lincoln Wirt, Former Territorial Superintendent of Instruction
for Alaska:
“The Conquest of the Arctic.”
- Frank Palmer Speare, Dean of School of Commerce and
Finance, Boston, Mass.:
“The Business of Education.”
- Miss Mary McSkimmon, Pierce School, Brookline, Mass.:
“The Test of a School’s Efficiency.”
“Foundation of Language Training.”
- Miss Luella Dickerman, Concord, N. H.:
“Personal Initiative in Teaching.”
- Principal W. G. Mallett, Farmington:
“The School and Public Sentiment.”
“Rural School Inspection.”
“Some Phases of Education.”
- Principal A. F. Richardson, Castine:
“The Essentials of the Recitation.”
- Principal W. E. Russell, Gorham:
“Testing the Efficiency of Schoolroom Work.”
- Principal W. L. Powers, Machias:
“Training for Efficiency.”
- President Robert J. Aley, University of Maine:
Address.
- President A. J. Roberts, Colby College:
Address.
- Professor Arthur J. Jones, Orono:
“The Opportunity of the Rural School Teacher.”
“Methods of Making School Work Real to the Child.”
“The Need of a Definite Aim in High School Work.”
- Professor James McConaughy, Brunswick:
“Habit and Memory among School Children.”
- E. H. Harlacher, State Director of Manual Training:
“Forms of Manual Training Adapted to Village School
Systems.”
- Miss Marion C. Ricker, State Director of Household Arts:
“Household Economics in Rural Schools.”
- A. A. Heald, Scout Commissioner of Maine:
“How the Boy Scout Movement is Affecting Education.”

- Superintendent Farnsworth G. Marshall, Augusta:
 "Teachers' Pensions."
- Superintendent L. W. Gerrish, Skowhegan:
 "The Teaching of Arithmetic."
- Mr. H. E. Congdon, Auburn:
 "Penmanship."
- Miss Maude Andrews, Portland:
 "A New Standard of Reading for Grammar Grades."
- Miss Lillian I. Lincoln, Farmington:
 "Some Possible Improvements in Rural School Work."
 "Montessori Methods."
- Miss Florence M. Hale, Presque Isle:
 "How the Rural Teacher May Improve Her Advantages."
 "The Use of the Margin."
- Miss Mary L. Hastings, Castine:
 "The Psychology of the Drill."
- Miss Mary Bills, Castine:
 "Methods of Teaching Reading."
- Miss Helen M. King, Portland:
 "Practical Child Study."
- J. W. Taylor, State Inspector of High Schools:
 "Lines of Secondary School Advance in Maine."
 "Collegians or Citizens?"
 "The Advantage of the General Course."

CASTINE CONFERENCE.

The first conference for superintendents of schools was held at Castine in the summer of 1909. This was one of the first conferences of the kind to be held in this or any other State and demonstrated immediately the advantages that might accrue to the schools through the occasional meeting of the officers who are so largely responsible for educational progress in the various communities of the State. That the conference has now fully demonstrated its efficiency is shown by the recognition given it by the legislature of 1913 in an amendment to the union supervision act by the terms of which the conference becomes permanent. Following is the program for the fifth annual conference which opened on Monday evening, June 30, and closed on Thursday afternoon, July 3:

GENERAL SESSIONS.

MONDAY EVENING.

Music.

The Relation of Roads to School and Home—Miss Alice Davies, Dept. of Public Roads, Washington, D. C.

Music.

TUESDAY MORNING.

Measuring the Efficiency of Schools.

A. How to Measure the Efficiency of Supervision—Prof. George D. Strayer, Teachers' College, Columbia University.

Questions and Discussion.

The Opportunity of the Superintendent for Community Service—Mr. A. A. Heald, Waterville.

WEDNESDAY MORNING.

Measuring the Efficiency of Schools.

B. The Accomplishments of Children—Professor Strayer.
Questions and Discussion.

WEDNESDAY EVENING.

Music.

The Promotion of Pupils—Supt. James H. Van Sickle, Springfield, Mass.

Music.

Questions and Discussion.

THURSDAY MORNING.

Social Problems of the Public High School—Principal W. B. Jack, Portland.

Questions and Discussion.

School Instruction in Sex Hygiene—Supt. H. J. Chase, Gardiner.

Questions and Discussion.

SESSIONS FOR SUPERINTENDENTS OF LARGER TOWNS AND CITIES.

TUESDAY AFTERNOON.

Practical Experience with the Eight Grade System and its Adaptability to Maine—Supt. Frank McCouldrick, Fort Fairfield, Supt. E. L. Palmer, Bar Harbor.

Discussion.

Frequent Promotions and Other Means of Reducing the Disadvantages of Rigid Grading—Supt. H. H. Randall, Auburn.

Discussion.

WEDNESDAY AFTERNOON.

The School Report of a Large Town or City, Form and General Arrangement, What Should be Included, What Omitted?—Supt. F. G. Marshall, Augusta.

School Records and Accounts—Harold A. Allan, State Education Department.

THURSDAY AFTERNOON.

Vitalizing the Courses in Manual Training—E. H. Harlacher, State Director of Manual Training.

Questions and Discussion.

Practical Evening School Courses—W. Stanwood Field, Director of Evening Schools, Boston, Mass.

Questions and Discussion.

SESSIONS FOR SUPERINTENDENTS OF SMALLER TOWNS.

TUESDAY AFTERNOON.

The Preparation of Teachers for Rural Schools—Principal W. G. Mallet, Farmington Normal School.

Discussion.

The Noon Intermission in Country Schools—Mrs. Bertha H. Burrage, Machias.

WEDNESDAY AFTERNOON.

Forms of Manual Training Adapted to Country Schools—E. H. Harlacher, State Director of Manual Training.

Questions.

Forms of Household Arts Easily Adapted to Country Schools
—Miss Marion C. Ricker, State Director of Household Arts.
Questions.

THURSDAY AFTERNOON.

The Arrangement of a Country School Program—Miss Lillian I. Lincoln, Farmington.

Questions and Discussion.

The School Report of a Small Town—Form-Arrangement-Content-Statistics—Superintendent F. G. Wadsworth, Hallowell.

SESSIONS FOR SECONDARY SCHOOL PRINCIPALS.

TUESDAY AFTERNOON.

Vocational Guidance in the Secondary School.

A. How May the Secondary Schools Assist the Student in Choosing His Vocation?—Prin. C. L. Smith, Rumford.

B. How May the Work of the Secondary School be Adapted to Meet the Needs of Students whose Purpose Beyond the Secondary School Must Remain Indeterminate?—Prin. Ernest M. Libby, Presque Isle.

WEDNESDAY AFTERNOON.

Round Table Conference with General Discussion.

General Topic: College Entrance Requirements.

A. Uniform Entrance Requirements for Maine Colleges.

B. Extension of credits to subjects not now recognized for college entrance: commercial branches, manual training, household arts, mechanical drawing, music.

C. Should there be a "free margin" leaving an option of extra work in all courses with college entrance credit for the same?

THURSDAY AFTERNOON.

Educating the Individual—Principal W. M. Harris, Good Will High School.

A Broader Aim for Commercial Courses—Principal George H. Larrabee, Bangor.

Questions and Discussion.

STATE MEETING.

The Maine Teachers' Association met in Portland, October 24th and 25th, 1912. The attendance was by far the largest in the history of the association, 3,559 persons registering as members. President William Howard Taft was the guest of the Association.

Following is the program:

WEDNESDAY EVENING, 8.00—FALMOUTH HOTEL.

Meeting of Maine Schoolmasters' Club with banquet. Addresses by Miss Mary S. Snow, Supervisor of Household Arts, Chicago, and Rev. M. Joseph Twomey, Portland.

THURSDAY MORNING, 9.30.

Departments of Superintendence and Secondary School Administration, joint session, Assembly Room, High School Building.

"Transition of Pupils from the Grammar to the High School"—Miss Mary S. Snow, Supervisor of Household Arts, Chicago.

"Transition of Pupils from Maine High Schools to the University of Maine"—Robert J. Aley, President of the University of Maine.

Business.

Round Table Conference on Teachers' Pensions. Discussion opened by F. G. Marshall, Chairman of Association Committee on Teachers' Pensions.

THURSDAY AFTERNOON, 2.00—GENERAL SESSION, AUDITORIUM,

CITY HALL.

Organ Prelude—Will C. Macfarlane, Municipal Organist, Portland.

Prayer.

Music—Chorus of the Gorham Normal School.

"Some Rights of Maine Children"—Payson Smith, LL. D., Litt. D., State Superintendent of Public Schools.

Business.

Music—Chorus.

Address—Miss Mary S. Snow, Supervisor of Household Arts, Chicago.

Music.

Address—President William Howard Taft.

Organ Postlude—Mr. Macfarlane.

THURSDAY EVENING, 8.00—GENERAL SESSION, AUDITORIUM,
CITY HALL.

Overture—Orchestra of the Portland and Deering High Schools.

“Teachers’ Pensions”—Walter I. Hamilton; Agent of Massachusetts Board of Education.

Music—Orchestra.

“The Whole Boy and the Whole School”—Henry Turner Bailey, North Scituate, Massachusetts.

Music—Orchestra.

FRIDAY MORNING, 9.30—GROUP SESSIONS.

A—Elementary School Group, Auditorium, City Hall.

Organ Prelude—Will C. Macfarlane, Municipal Organist, Portland.

Duet.

Music.

“Educational Efficiency”—Frank Palmer Speare, Dean of School of Commerce and Finance, Boston.

Music—Miss Ricker.

Duet.

“Beauty in Common Things”—Henry Turner Bailey, North Scituate, Massachusetts.

B—Secondary School Group, Vestry, Chestnut Street Church.

“The Meaning of Secondary Education”—Charles H. Judd, Ph. D., Dean of School of Education, University of Chicago.

“The Professional Training of Secondary School Teachers,” Hon. David Snedden, Commissioner of Education for Massachusetts.

C—College Group, First Parish Church.

“Some Current Educational Fallacies”—Arthur T. Hadley, LL. D., President of Yale University.

Discussion by President Robert J. Aley, President George C. Chase, President Arthur J. Roberts, Professor Alfred W. Anthony, Professor Clarence H. White, Professor George D. Chase, Professor James L. McConaughy, and others.

FRIDAY AFTERNOON, 2.00—DEPARTMENT SESSIONS.

I—Department of Rural Schools, Auditorium, City Hall.

“Education Toward the Home”—Miss Louisa I. Prior, Dean of Nasson Institute, Sanford.

“Agricultural Nature Study in Rural Schools. Why? What? How?”—Wallace E. Mason, Principal of State Normal School, Keene, N. H.

“Some Rural School Problems”—Robert J. Aley, President of the University of Maine.

II—Departments of Primary Schools and Kindergartens, Joint Session, Second Parish Church.

“The Montessori Method and Its Application”—Miss Mary Jackson Kennedy, Miss Wheeler's School, Providence, Rhode Island.

(Adjournment of Kindergarten Department to meet with Primary Department).

“Language in the Primary Grades”—Miss Mary McSkimmon, Principal of Pierce School, Brookline, Massachusetts.

III—Department of Grammar Schools, Vestry Chestnut Street Church.

“A Practical Course in English. a—What it comprehends. b—The methods I would suggest. c—Obstacles and limitations met. d—The bearing of inadequate English in general work”—John A. Cone, Superintendent of Schools, Brunswick.

“The Teacher's Personality from the Standpoint of the Grammar School—Some Factors Considered”—Rev. Dorr A. Hudson, Westbrook.

“The Essentials of the Grammar School Course and Their Relative Importance and Bearing”—Herbert J. Chase, Superintendent of Schools, Gardiner.

IV—Department of English, Chestnut Street Church.

“The Value of Travel to the Teacher of English”—Miss Carrie N. Potter, Brunswick High School.

“The English Teacher's Equipment”—K. C. M. Sills, Dean of Bowdoin College.

Readings from Shakespeare, James Plaisted Webber, Phillips Exeter Academy.

“Newspaper English”—Harry M. Bigelow, Editor of Portland Press.

"English in the Secondary School"—Henry K. White, Superintendent of Schools, Newcastle.

"What High School Boys and Girls Are Reading"—John A. Cone, Superintendent of Schools, Brunswick.

V—Department of History, Rooms E and F, High School Building.

"A Knowledge of State History, Valuable for Citizenship"—Hon. John Francis Sprague, Dover.

"The Work of the Maine Historical Society"—Hon. James Phinney Baxter, President of the Maine Historical Society.

"Ways of Interesting Young People in State History"—Mrs. Charlotte M. Houghton, President of Colonial Dames of Maine.

General Discussion—"The Feasibility of Giving Some Instruction in State History in the High Schools."

Business.

VI—Department of Science and Mathematics, Assembly Hall, High School Building.

"Science in the Springfield Technical High School"—E. H. Goodrich, Technical High School, Springfield, Massachusetts.

Discussion.

"Physiography in the Small High Schools"—Herbert I. Allen, Principal of Deering High School, Portland.

Discussion.

"Why Do We Study Mathematics?"—Herman H. Stuart, Principal of Cony High School, Augusta.

Discussion.

Business.

VII—Department of Classics, Room M, High School Building.

"Commemorative Issues of Roman Coins"—George D. Chase, University of Maine.

"Preparation Needed by the Classical Teacher"—Opened by F. E. Woodruff, Bowdoin College.

"The Golden Age in Legend and Literature"—George M. Chase, Bates College.

"The Greek Professor's Dream"—Clarence H. White, Colby College.

Further General Round Table Discussion.

VIII—Department of Modern Languages, High School Building.

"The Amount and Character of Modern Language Instruction in the State of Maine." A Report Based on Statistics Collected by the Secretary.

"How Can We Improve and Advance the Work in Modern Languages in our State?" Discussion based upon the report. Opened for the Colleges by A. N. Leonard, Bates College, and R. J. Ham, Bowdoin College. For the Secondary Schools by Miss Augusta Prescott, Edward Little High School, Auburn, and Miss Annie Torrey, Morse High School, Bath.

General Discussion.

IX—Department of Commercial Branches, High School Building.

Talks on subject, "Efficiency in Business," by the following business men of Portland: Mr. James E. Marriner, with the Burgess Sulphite Fibre Company; Mr. A. L. T. Cummings, with the E. T. Burrowes Company; Mr. E. H. McDonald, with the Porteous, Mitchell & Braun Company; Mr. Frank Plummer, with the Plummer's Insurance Agency.

Business.

X—Department of Public School Music, High School Building.

"Rote Songs"—N. L. Mower, Supervisor of Music, Auburn.

Discussion.

"Music Appreciation in the High School"—Miss Bertha J. Lattie, Assistant Supervisor of Music, Portland.

Discussion.

XI—Department of Libraries, First Parish Church.

I—High School Library Conditions:

"High School Students and Books"—Robert J. Aley, President of the University of Maine.

"Library Conditions in the Secondary Schools"—J. W. Taylor, State Inspector of High Schools.

Discussion: Open discussion of any question suggested by the above papers or by the following questions: 1—Do high school students need instruction in the use of a library and reference books? 2—What are some of the opportunities of the high school librarian?

II—Relation of the Elementary School and the Library:

"Co-operation of School and Library in Auburn"—J. L. Hooper, Principal of Grammar School, Auburn.

"What Can the Library Do for the School?"—Miss Mary Caswell, Waterville Public Library.

Discussion: Open discussion of any question suggested by the above papers or of the following questions: 1—What can the school do for the library? 2—What does a teacher need to know about a library in her own town? 3—What can a school do if there is no library in the town?

III—Children's Literature:

"How to Interest Pupils in Outside Reading"—Miss Nellie F Harvey, Eastern State Normal School, Castine.

Symposium of Favorite Books for Children:

"'The Story Girl,' by L. M. Montgomery"—Miss Florence M. Hale, Aroostook State Normal School, Preque Isle.

"Wonderful Adventures of Nils"—Miss Gertrude L. Stone, Western State Normal School, Gorham.

"'In Days of Giants,' by Abbie Farwell Brown"—Miss Lillian J. Lincoln, State Normal School, Farmington.

"'Child's Garden of Verses,' by R. L. Stevenson"—Mrs. Bertha Burrige, Washington State Normal School, Machias.

Explanation of Exhibit.

Business.

XII—Department of Manual Training and Drawing, Aldermen's Room, City Hall.

"Place and Power of Drawing in Public Education. Its Utilitarian, Educational and Aesthetic Phases"—Henry Turner Bailey, North Scituate, Massachusetts.

"Efficiency"—E. H. Harlacher, State Director of Manual Arts.

Discussion, opened by George H. Babb, Supervisor of Manual Training, Portland.

Questions for General Discussion.

XIII—Department of School Committee Members, Council Chamber, City Hall.

"Tendencies in Modern Education"—Charles H. Judd, University of Chicago.

"What Are the Duties of School Committee Members, Other Than Those Prescribed by Law?"—Robert J. Aley, President of the University of Maine.

Discussion.

XIV—Department of Home Economics, High School Building.

Home Economics in Maine Schools:

Grammar Schools: Cookery—Miss Katherine M. Lynch, Teacher of Domestic Science, Lewiston. Sewing—Miss Ethel R. Piper, Teacher of Sewing, Bath.

High Schools and Academies: Miss Lura Wakefield, Maine Central Institute, Pittsfield.

Normal Schools: Miss Marion C. Ricker, State Supervisor of Household Arts.

University and College: Miss Cornelia Palmer, University of Maine, Orono.

Hospitals: Miss Nellie Sargent, Bangor.

Summary and Outlook—Payson Smith, State Superintendent of Public Schools.

XV—Department of Secondary School Agriculture, High School Building.

Business.

“Teaching of Soils,” discussion opened by L. B. Boston, Madawaska Training School, Fort Kent.

“Text-book Needs of Secondary Schools”—Roland H. Verbeck, Principal of Parsonsfield Seminary.

“How to Teach Animal Industry”—Herbert S. Hill, Principal of Wells High School.

FRIDAY AFTERNOON, 3.00.

XVI—Department of Kindergartens, Vestry Second Parish Church.

Reopening of meeting after adjournment of joint session with Department of Primary Schools. (See II for program of joint session).

Music.

“Froebel and Montessori Compared”—Jenny B. Merrill, Pd. D., Principal of the Kindergarten Normal Department of the Scudder School, and former Supervisor of Kindergartens, New York City.

FRIDAY AFTERNOON, 2.00.

Maine Branch of American School Peace League, Vestry, First Baptist Church.

“The Preservation of Life the Truest Patriotism”—Rev. E. S. Ufford, Rockland.

Greetings from societies engaging in the work of international peace.

Original song written for the occasion by the late Julia Harris May, Auburn.

"Teaching Peace in the Schools"—Alpheus Baker Hervey, former President of St. Lawrence University.

"Peace from a Moral Standpoint"—Rev. J. M. Arters, Portland.

"Peace from a Civic Standpoint"—Mrs. George F. French, Portland.

"What the Club Woman Can Do to Interest the Schools in Peace"—Mrs. Byron Stevens, Portland.

"Special Peace Music for Hague Day"—Miss Margaret Bakeman, Bath.

Music.

Brief addresses by officers of the Maine School Peace League.

"How the Maine Schools Observed Hague Day"—Miss Alice May Douglass, Bath.

Business.

Singing—"America."

FRIDAY EVENING, 8.00—GENERAL SESSION, AUDITORIUM, CITY HALL

Organ Prelude—Will C. Macfarlane, Municipal Organist, Portland.

Business.

Music—Mr. Macfarlane.

Address—Booker T. Washington, A. M., LL. D., Tuskegee, Alabama.

"America"—Convention with Organ Accompaniment.

OFFICERS OF THE ASSOCIATION—1911-12.

President—LORENZO E. MOULTON, Auburn.

Vice President—WILLIAM F. COAN, Houlton.

Secretary—HAROLD A. ALLAN, Augusta.

Assistant Secretary—MISS JULIA ANNIS, Camden.

Treasurer—WILLIAM B. ANDREWS, Westbrook.

Auditor—HERBERT C. LIBBY, Waterville.

Executive Committee—The President, Vice-President, Secretary, Treasurer.

DEFOREST H. PERKINS, Portland—1912.

MISS LILLIAN I. LINCOLN, Farmington—1913.

KENNETH C. M. SILLS, Brunswick—1914.

STATE EXAMINATIONS.

This report of state examinations given and state certificates issued includes:

1. Examinations given at the summer schools of 1912.
2. The regular annual examinations of August, 1912.
3. The semi-annual examinations of February, 1913.
4. The examinations of candidates for certificates of superintendence grade in January and July, 1913.
5. Record of special certificates granted from September 1, 1912 to July 11, 1913, at which date the provisions of law under which examinations had been held and certificates granted heretofore ceased to be operative by reason of the new law of 1913 becoming operative. It does not include, therefore, as in past reports, the certificates issued to normal school graduates of 1913.

The whole number of candidates taking examinations for state teachers' certificates as above was 443, of which number 325 attained ranks required for certification. At the examinations for superintendence grade certificates 18 candidates reported and 17 of these received certificates. The number of special certificates granted to graduates of normal schools was 41. In addition to the certificates granted as above 144 of those heretofore issued which had ceased to be valid by expiration of terms for which issued, were reissued. The aggregate number of certificates of all sorts issued during the year was therefore 527.

Detailed statistics of examinations given and certificates granted during the year as reported will be found in table XXIX in the appendix.

As shown by the report of last year 3442 certificates of all grades previously issued were in force at the beginning of the year here reported. Of these 513 ceased to be valid during the year. Making the necessary additions and deductions, there appears to have been in force when the provisions of the new law became operative, 3456 of the certificates issued in the sixteen years during which the provisions of the old law continued in force. It is not to be understood, however, that 3456 of the actual teachers and superintendents of the Maine schools are holding state certificates at the beginning of the operation of the new law. Many of these are held by those who have gone into the schools of other states; many doubtless are held by those who have ceased to be active in school work, and in many cases those to whom they were issued are no longer living.

The final enactment of the law requiring all teachers in public schools to hold state certificates came as the result of a long series of efforts looking to such requirement as one of the things essential to the highest efficiency of those schools. It may not be out of place, therefore, to sketch briefly these efforts.

In 1869 State Superintendent Johnson secured legislation providing that certificates issued by county supervisors, conductors of state teachers' institutes, and principals of normal schools, might be accepted by local school boards and made valid by indorsement in lieu of certificates issued by them. These provisions proved short lived ceasing to be effective by the abolition of county supervision in 1872 and of state institutes in 1874, though the authority conferred upon normal school principals continued in force and was exercised to a greater or less extent till 1897.

State Superintendent Corthell in his report of 1877 advocated the granting of state certificates by a board of examiners, one from each county. In 1878 he secured the report of a bill by the committee on education of the legislature of that year providing for such a board defining its authority and prescribing its duties. That bill failed of passage in either branch. The time was not ripe for it. Local school boards looked askance upon its provisions as limiting their authority. Teachers with few excep-

tions stood opposed to it. School district agents saw in it an assault upon their vested rights to put their favorites into the schools as teachers with small regard to tested fitness.

Superintendent Luce while advocating both incidentally and specifically in his reports some form of state certification of teachers as one of the changes in school management of vital importance to the betterment of the schools, seems to have considered it as something consequent upon the other reforms and made no definite effort to secure it. In his view the abolition of the school district system and reorganization of local supervision were among conditions precedent to any attempt to secure this reform.

It stands to the credit of State Superintendent Stetson to have formulated and secured the enactment of a law providing for state teachers' examinations. That he made the taking of such examinations optional with teachers and at first left it optional with school boards to accept the certificates granted as the results of examinations, as legal evidence of fitness to teach, were wise provisions of his scheme. The taking of the examinations thus took on the nature of a privilege conferred; and the holding of a state certificate evidence of special professional interest as well as scholastic and professional fitness. And so during the sixteen years during which these optional examinations were periodically and regularly conducted, teachers, school boards and the people became thereby gradually prepared to accept compulsory state examination and certification as a thing of course.

Bills for the general certification of all public school teachers have been considered by several recent legislatures. These have been in similar terms to that finally enacted by the legislature of 1913. These bills have had each year the increasing support of school officers and of citizens. Especially important among the favoring influences has been that of the constantly growing professional ideals and standards of the teachers of the State.

The terms of the new act provide the means of applying reasonable tests of the qualifications of teachers and for gradually upbuilding higher standards for entrance to the profession of teaching as rapidly as these standards may be adopted without harmful disturbance. With careful administration the act should prove one of the most beneficial to the educational interests of Maine of any adopted in recent years.

SUMMER SCHOOLS.

Following are the reports of the directors of the several summer schools for teachers as authorized by section 100 of chapter 15, Revised Statutes:

FARMINGTON, MAINE, August 1, 1913.

To the State Superintendent of Public Schools, Augusta, Maine:

DEAR SIR:—I have the honor to report statistics for the summer school held at the Farmington Normal School July 7-18, 1913. The courses and the statistics were as follows:

Director and Teacher of School Management and School Law, Conferences, W. G. Mallett.

English Grammar, Geography and History, Virginia A. Porter.

Public School Music, Music Appreciation, Arithmetic, Franca Camp.

Primary Methods, Drawing, Handwork, Gertrude E. Richardson.

Total number registered	54
Average age	24 years
Average teaching experience	145.7 weeks
Teachers who have had only elementary school education	7
Graduates of secondary schools.....	42
Graduates of normal schools.....	5
Number without teaching experience.....	7
Number of Maine teachers.....	47
Number from other states.....	0
Teachers in rural schools (one room).....	27
Teachers in village schools.....	14
Teachers in city schools.....	8
Teachers in secondary schools.....	1

Respectfully submitted,

W. G. MALLETT, *Director.*

CASTINE, MAINE, July 19, 1913.

To the State Superintendent of Public Schools, Augusta, Maine:

DEAR SIR:—The state summer school for teachers held at the Eastern State Normal School, Castine, opened July 7 and closed July 18 under the instruction of the following teachers:

Albert F. Richardson, director and teacher of School Management and School Laws.

Edward E. Philbrook, Music, Geography and History.

Mary C. Richardson, Methods in Arithmetic and Grammar.

Helen M. King, Primary Methods.

Austin Alden, Manual Training.

Number teaching in secondary schools.....	0
Number who have taught.....	29
Average teaching experience.....	10 terms
Number who have never taught.....	2
Others who attended for a short period, but did not register	15

The work of the school was planned for rural school teachers, but only half as many came from rural schools as came from

village and city schools. Nearly half were normal graduates. Most of those who had not had manual training and domestic science asked to have these subjects taught next year, and I believe enough work could be done in each department to enable teachers to take up these subjects in rural schools. There are many normal graduates in Maine who finished their courses before domestic science and manual training were introduced. Many such would like to supplement their former training by short courses in the newer subjects. In manual training, we have outfit enough for fifteen pupils to work at once, and equipment enough in domestic science for ten pupils working at once. If these subjects could be offered next year, manual training in the forenoon and domestic science in the afternoon, I believe that many teachers would come for these two courses alone.

Respectfully submitted,

WM. L. POWERS, *Director.*

FORT KENT, MAINE, September 1, 1913.

To the State Superintendent of Public Schools, Augusta, Maine:

DEAR SIR:—The Summer School for teachers held at the Madawaska Training School, opened July 21, and continued two weeks.

The instructors were Miss Mary P. Nowland, Fort Kent, Director; Miss Matilda B. Doland, Fitchburg, Mass.; Miss Alice Jones, Somerville, Mass.; Miss Helen King, Portland; Miss Alice Nowland, Berkeley, California.

The branches taught were: School Management, School Law, English Grammar, Geography, Language, Primary Methods, United States History, Writing and Music.

Ninety-six were in attendance.

Respectfully submitted,

MARY P. NOWLAND.

CHAPTER II.

REPORTS OF THE PRESIDENT OF THE UNIVERSITY OF MAINE AND THE PRINCIPALS OF THE STATE NORMAL SCHOOLS AND TRAINING SCHOOL.

The following are the reports of the president of the University of Maine and the principals of the state normal schools and training school:

SPECIAL FINANCIAL REPORT OF THE UNIVERSITY OF MAINE.

ORONO, MAINE, September 1st, 1913.

To the State Superintendent of Public Schools, Augusta, Maine:

DEAR SIR:—In accordance with the provisions of section 82 of chapter 15 of the Revised Statutes, I am enclosing a copy of the treasurer's report and the other statistics asked for for your annual report.

Very truly yours,

ROBERT J. ALEY, *President.*

REPORT OF THE TREASURER OF THE UNIVERSITY OF MAINE FOR THE FISCAL YEAR ENDED JUNE 30, 1913.

FARMINGTON STATE NORMAL SCHOOL.

FARMINGTON, MAINE, June 30, 1913.

To the Trustees of the State Normal Schools:

GENTLEMEN:—I have the honor to submit the following annual report of the Farmington Normal School for the year ending June 30, 1913. The attendance for the year has been as follows:

Number entering	98
Number registered in the fall term	173
Number registered in the winter term.....	200
Number registered in the spring term.....	159
Number of different pupils registered.....	236
Number in the graduating class.....	66

The teachers for the year have been: Principal, Wilbert G. Mallett, A. B.; assistant principal, Arthur M. Thomas, A. M.; assistants, Hortense M. Merrill, Katherine E. Abbott, Virginia A. Porter, Florence C. Walker, A. B., Edna M. Havey, Franca Camp, Marion C. Ricker, Cora J. Chase. Supervisor of training school and critic teacher, Lillian I. Lincoln; assistants, Louise W. Richards, Saidee W. Curtis, Ruth Allen, Marie E. Elwell, H. Mildred Watts. Secretary, Mildred S. Gay.

The class which was recommended for graduation and which received diplomas was as follows:

Ethel M. Baird, Hartland; Grace Blaisdell, W. Auburn; Ruth L. Budge, Newport; Cada S. Burnham, S. Warren; Belva L. Bush, Athens; Alma Clark, Farmington; Annie F. Coffin, Brunswick; N. Edwina Coffin, Harrington; Cleora M. DeCoster, Buckfield; Ruth H. Doughty, Portland; Marion C. Dyer, Hanover; Mildred F. Edwards, Topsham; Mary G. Flint, Farmington; Marguerite Fox, Athens; Ella M. Fullerton, Monticello; Clara B. Getchell, Gardiner; Lela H. Goodall, Sanford; Alice V. Gould, Milo; Mina E. Greely, S. Paris; Bertha L. Harlow, Auburn; Julia E. Hayden, Canton Point; Fannie E. Holley, Farmington; Margarette L. Holt, Waterville; Carolyn W. Howard, Winslow; Mabelle A. Hutchins, Phillips; Beulah M. Hutchinson, Hebron; Elva E. Jewett, Dexter; Ellen E. Kitchin, New Sharon; Ruth M. Kitchin, New Sharon; S. Margaret Knowlton, Vassalboro; Helen M. Leland, Sangerville; F. Belle Libby, Farmington; Geneva Little, Monmouth; Susie E. Luce, Liver-

more Falls; Katherine L. Melcher, Brunswick; Alice B. Merrill, Turner; C. Louise Merry, Madison; Freda E. Mitchell, Strong; Annie F. Moore, Bangor; Florence I. Murray, Orono; Flora T. Norton, Taunton, Mass.; Grace M. Packard, Norridgewock; Eunice L. Penley, Rumford Centre; Herberta A. Penley, Rumford Centre; N. Malo Plummer, Weld; Iva B. Richardson, Waterville; Madeline J. Rines, Portland; Lillian H. Robinson, Palmyra; M. Emma Russell, Rangeley; Eula M. Skinner, Port Clyde; Ada G. Smith, Phillips; Sara G. Sprague, Foxcroft; Helen F. Sutton, Orono; Helen M. Sullivan, Rockland; Maude D. Thompson, Vanceboro; Avis M. Watson, Cambridge; Bessie E. Webster, Strong; Nellie C. Weeks, Mexico; Mildred E. Wentworth, Appleton; Evangeline L. Woodman, Waterville; Marion E. Woodward, Amesbury, Mass.; Martha M. Young, Solon; Charles E. Clark, Biddeford; J. Herbert Gould, Camden; Orett F. Robinson, Warren.

The significant feature regarding the normal school work for the past year has been the demand for graduates of the school in all grades of school work. The demand from the rural schools for graduates has far exceeded the ability of the school to supply and is far in excess of previous years. The pay offered graduates for the rural schools was never so large. The demand, also, from the elementary schools increases each year.

The work has gone steadily along with an excellent record of punctuality on the part of pupils, and a well nigh perfect record of attendance by the teachers. Miss Walker, however, the manual training teacher, took a half year's leave of absence for a foreign trip beginning in February. Her place was ably filled by Miss Edna Havey for the remainder of the year.

Our course in Household Arts has already outgrown its accommodations in the cottage house provided for it. One of the next needs to be considered in improving the efficiency of this school will be a building that will properly take care of this department in a manner worthy the dignity of the State and the work the department is doing. It was found necessary the past year to employ an assistant teacher for this department and Miss Cora J. Chase, a graduate of the three year course in the Framingham, Mass. Normal School, was chosen for that work and will continue the following year.

The provision for a new dormitory made by the last legislature will supply a very urgent need and it is hoped that in another year we shall be using the new building.

Respectfully submitted,

W. G. MALLET.

EASTERN STATE NORMAL SCHOOL.

CASTINE, MAINE, June 24, 1913.

To the Trustees of the State Normal Schools:

GENTLEMEN:—I respectfully submit my 25th annual report of the Eastern State Normal School.

TEACHERS.

The teachers have been Albert F. Richardson, A. M., principal; assistants, Edward E. Philbrook, M. D., Nellie F. Harvey, Kate S. Russell, Mary C. Richardson, A. B., Mabel P. Ridley, Mary L. Hastings, Hattie A. Wiggin, Mary S. Coombs, A. B., Mary B. Bills, Beth M. Jellison, Myra A. Fitch and Nellie M. Douglass. Miss Hastings has done the work of critic teacher, and taught psychology; Miss Wiggin has had charge of manual training; Miss Coombs of domestic science; Misses Bills, Jellison and Fitch have had charge of the model training schools in the normal school building and Miss Douglass of the village grammar school, where the pupils of the normal school practice. The principal has had the loyal and enthusiastic support of the assistant teachers.

No mistake was made in the selection of Miss Coombs, who was so highly recommended by Prof. Chapman of Bowdoin College, and who is a graduate of Mt. Holyoke College.

Miss Myra A. Fitch has done fine work during her first year here and is a very efficient teacher.

ATTENDANCE OF STUDENTS.

Number entering the school	40
Number attending the fall term	82

Number attending the winter term	121
Number attending the spring term.....	116
Total enrollment for the year.....	319
Number of different pupils	181
Number young men	15
Number of young ladies	166

AGRICULTURE.

We have continued the study of agriculture and, as usual, have planted a "school garden," except that for a change it has been a corn field this year. The principal has had charge of this branch of study.

More efficient work ought to be done in this department and it would be better to have a teacher who knows more about the subject. I recommend a special teacher for one term at least.

MANUAL TRAINING.

The students continue to enjoy the work of this department and the teacher knows the subject well and understands how to interest the pupils. All the normal students take this branch except during their last term, and all the pupils in the model training schools have its advantages, except the lowest grade. The village grammar school pupils also enjoy the privilege of doing the work here.

DOMESTIC SCIENCE.

This is our second year since domestic science was made a subject of study here, and it has certainly added much to the interest of the school. The classes in cooking and sewing have been earnest and enthusiastic and fine work has been done. The pupils of the village grammar school have also enjoyed the advantages of this subject, grades seven and nine taking cooking, and grade eight sewing.

THE LIBRARY.

The value of the library is constantly increasing. New books are being added and the pupils are learning each term how to use it as they become better acquainted with library methods.

THE NEW DORMITORY.

Every room in the dormitory has been occupied during the whole year and the students who have secured board there have had special advantages in many ways.

It would have been impossible to secure suitable board in the village for those who have attended the school this year.

STANDARD OF ADMISSION.

The raising of the standard of admission to the requirement of the completion of a secondary course, (A grade), has reduced our attendance and may continue to do so for some time to come, located as we are among rural towns, but the advantages of this step are already felt in this school and there can be no question but what this advance will be a great benefit to the rural schools as well as to the normal schools, giving us, as it surely will, a better grade of teachers for our common schools.

The acts passed by the last legislature relating to education will be very helpful to the normal schools as well as to the common schools, especially that relating to state certification of teachers.

SUMMARY.

The friends of this school have reason to be greatly encouraged by the advances made all along the line in the last few years. Among the best things for us are the new dormitory, the establishment of courses in agriculture, manual training, and domestic science, the raising of the standard of admission and the consequent changes in the course of study, the various acts relating to education passed by the last legislature, and the action of the State College in allowing the two years of a normal course to count in the work at the University of Maine.

I recommend that diplomas be granted the forty-two persons whose names appear below: Calista E. Andrews, Fryeburg; Mabel H. Arnold, Orono; Katie L. Blackwell, E. Corinth; Helen M. Brown, Lincolnville; Ellen G. Carr, Frankfort; Anna E. Coffin, Ashland; Sara R. Coffin, Ashland; Margie R. Colby, Bucksport; Hazel F. Copeland, Warren; Sadie E. Corliss, Paten; Mildred A. Crafts, Foxcroft; Grace E. Day, E. Eddington; Marietta H. Dority, Sargentville; Florence E. Edgett, Passa-

dumkeag; Lillas A. Ford, Park; Jessie F. Gray, E. Holden; Olive A. Gushee, Appleton; Grace E. Hanson, Whitman, Mass.; Anzelia Harriman, Stockton Springs; Bessie W. Joyce, Atlantic; Anna F. Laing, Passadumkeag; Tressie M. Lewis, Forest City; Ethel C. Lovejoy, Fairfield; Minnie MacDougal, Millinocket; Hazel MacGown, Ellsworth; Marguerite McKenney, Lincolnville; Carl W. Maddocks, Nicolin; Alice L. Mansir, Richmond; Myrtress I. Nason, LaGrange; Pauline Pretto, Bangor; Eva M. Rafford, Ashland; Agnes C. Smith, Ellsworth; Goldie F. Staples, Atlantic; Ruth E. Staples, Atlantic; Leroy E. Sweeney, Tremont; Ruby H. Taylor, Vassalboro; Gladys E. Tibbetts, Palermo; Ethel C. Warden, Lower Cabot, Vt.; Emma C. Wardwell, Castine; Clara E. West, Bar Harbor; Wava E. Winchenbaugh; Marguerite Wyman, Thorndike.

Respectfully submitted,

ALBERT F. RICHARDSON.

WESTERN STATE NORMAL SCHOOL.

GORHAM, MAINE, June 18th, 1913.

To the Trustees of the State Normal Schools:

GENTLEMEN:—I hereby submit the following annual report of the Gorham State Normal School for the year ending June 18th, 1913.

I. The faculty of the school consisted of thirty-two members distributed as follows: Principal, 1; teachers devoting their entire time to normal school students, 6; teachers devoting the major part of their time to the normal school students and the remaining part to the practice school students, 6; teachers devoting their entire time to practice schools, 18; on leave of absence, 1. Their names are as follows: Teachers employed by the State, principal, Walter E. Russell, A. B. (Group 1) Richard H. Schmidt, A. B.; Viola M. White; Katharine Halliday; Gertrude L. Stone, A. M.; Grace Marchant, A. M.; Jessie L. Keene, Ph. B. (Group 2) George A. Brown, Emma S. Daggett, Mrs. Ida M. Brown, Frances A. Speakman, B. M., one-half year; Pamela C. Ware, one-half year; Eugene H. Harlacher. (Group

3) Cora B. Dillingham, Katherine C. Aageson, Maud G. Parsons, Edith M. Pitts. The other 14 were teachers of schools in Westbrook in which members of the graduating class did practice work. M. Grace Fickett, A. M., spent her year of absence at the Teachers' College, Columbia.

Of the teachers employed by the State all taught in the normal school building except Edith M. Pitts who had charge of the rural school at West Gorham. The other officers of the school consist of R. Estelle Bradbury, secretary and librarian; Mrs. Addie I. Andrews, matron at Robie Hall; Melville B. Alley, caretaker of the normal school building, and James Cullen, engineer at the dormitories.

II. The student enrollment for the year was as follows:

Whole number of pupils present during the year.....	235
Number of new pupils entering.....	137
Number attending during the first half year.....	232
Number attending during second half year.....	212
Number of graduates.....	81
Average attendance.....	222

These 235 pupils were classified as follows:

Graduates of standard high schools.....	226
Non-graduates of standard high schools.....	9

The 81 members of the graduating class were classified as follows:

Graduates of standard high schools.....	75
Non-graduates of standard high schools.....	6

Of the 137 members of the entering class only one was admitted by examination, the other 136 were graduates of grade A high schools.

The practice school students consisted of approximately 729 distributed as follows: Number in normal school building, 146; number in West Gorham school, 23; number in Westbrook, 560.

Each member of the graduating class taught for at least seven weeks either in the Gorham or Westbrook schools and observed for a day or more at the rural school at West Gorham.

III. The expenses of the normal school are met by the State. The expenses for the practice schools are borne in part by the State, in part by the town of Gorham, and the State pays a bonus to the teachers of the schools used in Westbrook.

IV. Two regular courses of study were offered (a) a two years course for teachers in elementary schools (b) a course which is now fixed at two years for teachers and supervisors of manual training.

V. The 81 young women whose names and addresses are given below constituted the class on whom the State conferred normal school diplomas: Mary E. Barnett, Woodfords; Amy L. Blanchard, Springvale; Marjorie M. Blanchard, Springvale; Gertrude E. Blossom, Boothbay Harbor; Alice M. Briggs, Portland; Eva M. Clarke, 200 Congress Street, Portland; Fanny N. Chapman, So. Paris; Adelaide E. Corridon, 54 Sheridan Street, Portland; Frances M. Davis, Sanford; Evelyn G. Dill, Chestnut Street, Gardiner; Sarepta C. Eaton, W. Buxton; Sara E. Emery, Buxton Center; Lucy J. Everett, W. Paris; Helen M. Feeney, 167 Pearl St., Portland; Sophie Mae Fisk, 134 Cumberland Street, Cumberland Mills; Florence A. Foster, 15 Crescent Street, Portland; Frances W. Foster, 15 Crescent Street, Portland; Hildred D. Foster, Belgrade; Inez E. Fowler, 16B Gilman St., Portland; Lena L. Franck, Round Pond; M. Louise Glines, No. Bridgton; Bernice I. Goddard, 210 Winter Street, Auburn; Violet E. Gooch, 35 Redington Street, Waterville; Harriet E. Greaney, 33 Redington Street, Waterville; Carrie W. Greenlaw, 60 Barker Street, Calais; Alice P. Guptill, Lubec; Nellie Gustin, Gorham; Bertha O. Hackett, Bowdoinham; Lucetta D. Howard, E. Andover; Eunice E. Huff, No. Edgecomb; E. Mildred Hughes, 57 Lawrence Street, Portland; Margaret V. Hughey, 984 Washington Ave., Portland; Bertha M. Hunnewell, Gorham; Emma H. Jack, Bowdoinham; S. Louise Libby, Gorham; Mildred E. Little, 126 Danforth Street, Portland; Mary E. Lynch, 219 Hancock Street, Bangor; Adelaide MacAchor, 114 Water Street, Eastport; Lillian M. MacDonald, 309 Ocean Avenue, Woodfords; Celia F. McCobb, Wiscasset, R. F. D.; Ellie B. McLaughlin, Waldoboro; Kathleen M. McVay, 30 Franklin Street, Calais; Isabel E. Monahan, 3 Richardson Street, Woodfords; Grace M. Monk, Goshen, Mass.; Mearle Moody, Gardiner, R. F. D.; Evelyn E. Murch, 265 Spring Street, Portland; Mable T. Murray, Boothbay Harbor; Etta R. Nash, Pemaquid Falls; Bertha M. Newcomb, Scarboro; Florence A. Nichols, Round Pond; Mary J. O'Connell, Shawmut Street, Lewiston; Louise A. O'Connor, 30 Otis Street, Bangor; Flor-

ence M. Osborne, Rochester, N. H.; Leona M. Parker, Gorham; Marian C. Peabbles, So. Portland; Helene H. Perkins, Ogunquit; Ethel M. Pierce, 186 Park Avenue, Portland; Gretchen L. Pierce, 76 Melbourne Street, Portland; Elizabeth Pinkham, Berwick; Ruth C. Plummer, Springvale; Addie M. Poland, New Harbor; Julia Reed, 60 Franklin Street, Rumford; Mary F. Robie, Gorham; Lelia M. Robinson, Dover; Marian L. Rogan, 26 Highland Lane, Bangor; Gertrude A. A. Rowe, 596 Westbrook Street, So. Portland; Ruth C. Rowe, 596 Westbrook Street, So. Portland; Ethel A. Sawyer, Round Pond; Elizabeth L. Scribner, Bolsters Mills; Hazel G. Smith, Oakland; Ruth H. Smith, Hollis Center; Evelyn F. Spence, Berwick; Helen M. Spencer, Bethel; Hazel T. Stackpole, Auburn; Alice F. C. Staples, 3 Sherman Street, Portland; Elizabeth I. Sullivan, 38 Brattle Street, Portland; Adelaide Sweeney, Cornish; Margaret I. Timberlake, Lancaster, N. H.; Bessie F. Tolman, Thomaston; Ethel E. Walker, Gorham; Sylvia E. Weare, York Beach; Harriet B. Webster, Gray.

VI. The present number of bound volumes of the school library is 1601. The library is in constant use for the largest part of every school day.

VII. Both the recitation building and the two dormitories were over crowded during the past year. An appropriation made by the legislature of 1913 for the partial building of a new dormitory gives promise of increased dormitory facilities. Appropriations should be made for enlarging the recitation building as soon as possible.

Respectfully submitted,

W. E. RUSSELL.

AROOSTOOK STATE NORMAL SCHOOL.

PRESQUE ISLE, MAINE, June 12, 1913.

To the Trustees of the State Normal Schools:

GENTLEMEN:—I have the honor to submit to you the following report of the Aroostook State Normal School for the year ending June 12, 1913.

Number registered the fall term.....	44
Number entering the fall term	15
Number registered the winter term	73
Number entering the winter term.....	12
Number registered the spring term.....	50
Number entering in the spring term.....	1
Average enrollment	55 2-3
Number of different pupils registered.....	82
Number in the graduating class	29

Our school has been strengthened this year by the addition of a course in domestic science which has been eagerly and faithfully pursued by all of the students. The ample kitchen, dining room, and serving rooms of the principal's house were utilized for kitchen and laboratories and have proven very satisfactory. Miss Alida A. Barrows of Augusta has been at the head of this department and has proven a very efficient and able teacher. In addition to her regular work she has taught classes at the training school. Under her direction the girls of the ninth grade made their graduation dresses at a cost of \$1.50 each.

The teachers for this year have been: San. Lorenzo Merri- man, A. B., Principal; Wm. B. Hall, A. B., Assistant Principal; Ardelle M. Tozier, Nellie W. Jordan, Ida M. Folsom, Gertrude T. Morrell, Alida A. Barrows, Mabel H. Rich, Assistants.

Florence M. Hale, Principal Training School; Elizabeth Jen- kins, Assistant Critic Teacher; Jennie M. Ferguson, Doris Pride, Alice Coffin, Myrtle Haley, Laila Scott, Edna Sutherland, Alta Nichols, Assistants.

Mary A. Kelly, Matron; H. A. Dunn and D. F. Donnelly, Janitors.

The following students have completed the prescribed course and are recommended for graduation: William E. Barnum, Woodland; Dora E. Beckwith, Presque Isle; Bernice Bradstreet, Bridgewater; Maudist Campbell, Ashland; Mary E. Cashman,

Presque Isle; Leila Christie, Vanceboro; Willard O. Chase, Presque Isle; Grace Coady, Patten; Mildred Coffin, Ashland; Carrie Cooper, Patten; Catherine Daigle, Fort Kent; Linnie Durgin, Washburn; Blanche Ginn, Presque Isle; Julia Hews, Ashland; Margaret Keirstead, Presque Isle; F. Bernice McElwee, Houlton; Zula McGlinchey, Chapman; Ferol Mooers, Presque Isle; Elfrida Neilander, Woodland; Rilla M. Ramsay, Fort Kent; Edith Thenser, Caribou; Alice M. Treadwell, Acton; Myrtle Umphrey, Washburn; Bernice Vance, Caribou; A. Linwood Varney, Bradford, N. H.; Harriet C. Vincent, Houlton; Jessie Webster, Fort Fairfield; Marion Wilkins, Presque Isle; Florence Wright, Presque Isle.

Respectfully submitted,

SAN LORENZO MERRIMAN.

REPORT OF SUMMER TERM.

The fourth annual summer term of the Aroostook State Normal School opened Tuesday, July 22, and continued for six weeks, closing Friday, August 29.

Number registered	51
Number entering	33

Teachers employed: William D. Hall, Director; Ernest M. Libby, Ardelle M. Tozier, Gertrude T. Morrell, Ida M. Folsom, and Mary E. Cashman, Assistants.

The majority of the students in the summer term and the entire number in the entering class were high school graduates so that the quality of the work done was exceptionally good. In one of the English branches the results obtained were much better than the average. About 85% of the students signified their intention of returning at some future date. The school was fortunate in securing the services of Prin. Ernest M. Libby of Presque Isle High School as an assistant in the summer term. The work of the other teachers was entirely satisfactory and the summer term was, in my opinion, a credit to the school and of considerable benefit to the county and to the State.

Respectfully submitted,

WILLIAM D. HALL, *Director.*

WASHINGTON STATE NORMAL SCHOOL.

MACHIAS, MAINE, June 27, 1913.

To the Trustees of the State Normal Schools:

GENTLEMEN:—I have the honor to submit to you the third annual report of the Washington State Normal School. The attendance for the part year has been as follows:

Number registered in the fall term, 1912.....	48
Number registered in the winter term, 1913.....	51
Number registered in the spring term, 1913.....	49
Number graduated in June, 1913.....	26

The teachers for the year 1912-13 were as follows: William L. Powers, Principal; Thomas C. Chaffee, Assistant Principal; Ella B. Quinn, Martha M. Tobey, Genevieve Dwinal, Annie B. Frost, Mary Sterritt, Ethel Duffy, Assistant Teachers. Bertha H. Burrige, Superintendent of Training and Critic Teacher. Florence Vose, Carrie Wight, Anne Adams, and Dora Owen, Model Teachers. George F. Grafton, Janitor.

The illness of Annie B. Frost during the fall term '12 necessitated a change of teachers in the drawing and manual training departments, and Miss Ethel Duffy, formerly teacher in Madawaska Training School took the place left vacant by Miss Frost. Miss Duffy is a person fitted by training, experience, and natural endowments for such a position and she has given entire satisfaction.

JANITOR.

I wish to speak in highest commendation of our janitor, Mr. George F. Grafton. He has three qualifications rarely found in any man:—neatness, dispatch, and eagerness to serve.

MODEL SCHOOL.

One hundred and fifty town pupils are educated in the model school free of all expense to the town of Machias. During the past year, we have had our full number divided about equally into nine grades. Our first 9th grade finished their work in the model school today and all will enter the Machias High School

in September. The pupils who were graduated from the 9th grade today have enjoyed for three years all the advantages offered by the model school; these advantages are:—music daily in the school, drawing, manual training, and domestic science. Domestic science includes both sewing and cooking, while manual training includes mechanical drawing, bench work, and elementary book binding.

AGRICULTURE.

The plans made two years ago for our school garden have been followed and today we have an up-to-date school garden absolutely free of weeds and growing finely. The various grains and grasses planted last year are still continued under cultivation and all the vegetables required for the domestic science department during the school year to begin in September, 1913, have been planted, and give promise of a bountiful harvest. The experimental plots mentioned in my report last year are being continued.

The Babcock Milk Tester has been used by the students and careful analysis made of all samples of milk brought to the school. This work is proving of real value to the farmers of Machias.

LIBRARY.

About 500 books for our new library have already been received. A room will be fitted up with chairs, shelves, library and magazine tables, and reading lamps. We expect to have the room open for the summer school next month. By the opening of the fall term we hope to have the books cataloged and marked and everything in working order for the normal school students.

DORMITORY.

Plans are being made for a dormitory. Such a building completed and equipped will aid materially in the upbuilding of the Washington Normal School. Our students find it difficult to secure boarding places, and dormitory life in itself is a great educator.

THE WING.

The normal school building, for lack of funds, was not completed as originally planned. Small as the school is, we are handicapped for want of room. A wing costing \$15,000 would provide better facilities for the school as it is at present and afford opportunity for future growth.

Respectfully submitted,

WILLIAM L. POWERS.

MADAWASKA TRAINING SCHOOL.

FORT KENT, MAINE, July 1, 1913.

To the Trustees of the State Normal Schools:

GENTLEMEN:—I have the honor of presenting to you the report of the Madawaska Training School for the year ending June 11, 1913.

ATTENDANCE.

Number of new pupils	42
Number attending autumn term.....	125
Number attending winter term	127
Number attending spring term	111
Number graduating	16

The teachers for the year have been: Miss Mary P. Nowland, Principal; May Brown, Katharine L. Lawlis, Lawrence B. Boston, Sara H. E. Doone, Eleanor F. Welch, Martha B. Greene.

Mr. Boston, the instructor in Agriculture, severed his connection with the Training School at the close of the winter term, leaving Fort Kent to accept what seemed to him a better position elsewhere. Mr. Boston's earnestness and enthusiasm and his untiring efforts to interest the pupils and their parents in the subjects that he taught made his loss one to be felt.

Mr. Boston's place was filled during the spring term by Mr. Maurice A. Peabody.

Some much needed improvements and additions were made to the buildings during the late summer and autumn.

Commodious and well lighted toilets were placed in the school building and the library enlarged, making a larger and much needed class room.

Paper and paint made some of the rooms in the dormitory more comfortable and presentable.

The names of the graduating class are as follows: Edith M. Bouchard, Fred T. Bouchard, Caroline Cyr, Louise A. Cyr, Eugenie Daigle, Iva G. Daigle, Phebe Dow, Robert B. Dow, Léonide J. Guy, Alice M. Hebert, Délie Lang, Clara M. Mills, Gladys M. Mills, Catherine Michaud, Mildred E. Noble, Damase A. Robichaud.

Respectfully submitted,

MARY P. NOWLAND.

TABLE No. VII.
COMMON SCHOOL STATISTICS.
Comparative Statement A—Annual.
Showing Comparison of Certain Items in School Reports
of the Years 1912 and 1913.

ITEMS.	1913.	1912.
Whole number of persons of school age.....	217,592	214,348
Number of different pupils registered in common schools.....	127,045	127,612
Number registered in rural schools.....	48,633	49,766
Number registered in village schools.....	47,128	45,559
Number registered in city schools.....	31,284	32,287
Number conveyed at expense of town.....	7,183	7,111
Average daily attendance for year.....	98,152	97,113
Average length in days of school year.....	164	163
Number of persons of compulsory school age not attending school regularly.....	2,614	2,687
Number excused by school authorities from regular attendance.....	1,292	1,368
Number of different males employed as teachers in common schools.....	503	562
Number of different females employed as teachers in common schools.....	6,435	6,309
Number continued in the same school for the entire year.....	2,664	2,638
Number having had previous experience.....	5,962	5,749
Number who are graduates of normal or training schools.....	2,074	1,853
Number holding State certificates.....	2,305	2,014
Number who attended teachers' meetings.....	4,329	4,216
Number attending summer schools.....	482	672
Average wages of male teachers per month.....	\$55 12	\$49 90
Average wages of female teachers per week.....	\$10 06	*\$9 99
Number of common schools in State.....	4,582	4,602
Number of one room, rural or suburban.....	2,392	2,459
Number of rural schools in buildings of more than one room.....	156	133
Number located in villages.....	1,251	1,228
Number located in cities.....	783	793
Number of graded schools.....	2,982	2,821
Number not using a course of study.....	827	856
Number having branches of the S. I. L. M.....	650	659
Number having libraries.....	1,036	997
Number of public school buildings in the State.....	3,777	3,797
Number of new school buildings during year.....	42	37
Cost of same.....	\$348,322	\$221,483
Estimated value of all school property.....	\$8,878,397	\$8,404,385
Number of schoolhouses in good condition.....	3,127	3,205
Number supplied with flags.....	2,883	2,880
Amount common school money available from town treasuries.....	\$801,135	\$717,319
Amount available from State treasury.....	\$1,474,449	\$1,483,285
Amount available from local funds.....	\$53,238	\$52,584
Total amount available, common school purposes exclusively.....	\$2,328,822	\$2,253,188
Total expenditures for common school purposes exclusively.....	\$2,137,842	\$2,038,215

* Corrected figure.

TABLE No. XVII.
SECONDARY SCHOOL STATISTICS.
Showing Approved Secondary Schools for the Year
Ending July 1, 1913.
HIGH SCHOOL.

SCHOOL.	Class.	ADDRESS.	SCHOOL.	Class.	ADDRESS.
Abbott	A	Abbot.	Fairfield	A	Fairfield
Albion	A	Albion.	Farmington	A	Farmington.
Alfred	A	Alfred.	Flagstaff	C	Flagstaff.
Andover	B	Andover.	Fort Fairfield	A	Fort Fairfield.
Ashland	A	Ashland.	Frankfort	A	Frankfort.
Auburn	A	Auburn.	Franklin	A	Franklin.
Augusta	A	Augusta.	Freeport	A	Freeport.
Baileyville	C	Woodland.	Gardiner	A	Gardiner.
Bangor	A	Bangor.	Garland	C	Garland.
Bath	A	Bath.	Gorham	A	Gorham.
Belfast	A	Belfast.	Grand Lake Str'm	C	Grand Lake Str'm.
Belgrade	A	Belgrade.	Greenville	A	Greenville.
Berwick	A	Berwick.	Guilford	A	Guilford.
Biddeford	A	Biddeford.	Hallowell	A	Hallowell.
Bingham	A	Bingham.	Harmony	B	Harmony.
Boothbay	C	Boothbay.	Hollis	A	Hollis Center.
Boothbay	B	East Boothbay.	Houlton	A	Houlton.
Boothbay Harbor	A	Boothbay Harbor	Island Falls	A	Island Falls.
Bowdoinham	A	Bowdoinham.	Islesboro	A	Islesboro.
Bradford	A	Bradford.	Jay	A	Jay.
Brewer	A	Brewer.	Jonesboro	B	Jonesboro.
Bridgton	A	Bridgton.	Jonesport	A	Jonesport.
Bristol	A	Bristol.	Kennebunk	A	Kennebunk.
Brooklin	A	Brooklin.	Kennebunkport	A	Kennebunkport.
Brooks	B	Brooks.	Kingfield	A	Kingfield.
Brownfield	B	Brownfield.	Kingman	A	Kingman.
Brownville	A	Brownville.	Lewiston	A	Lewiston.
Brownville	C	Brownville Jct.	Liberty	C	Liberty.
Brunswick	A	Brunswick.	Limestone	A	Limestone.
Buckfield	A	Buckfield.	Lisbon	A	Lisbon Falls.
Buxton	A	Buxton Center.	Lisbon	B	Lisbon.
Calais—Red Beach	B	Calais.	Lubec	A	Lubec.
Camden	A	Camden	Machias	A	Machias.
Canaan	C	Canaan.	Madison	A	Madison.
Canton	B	Canton.	Mattawamkeag	C	Mattawamkeag.
Cape Elizabeth	A	Cape Elizabeth.	Mechanic Falls	A	Mechanic Falls.
Caribou	A	Caribou.	Mexico*	A	Mexico.
Carthage	C	Carthage.	Milbridge	A	Milbridge.
Casco	B	Casco.	Millinocket	A	Millinocket.
Castine	A	Castine.	Milo	A	Milo.
Clinton	A	Clinton.	Monroe	B	Monroe.
Columbia Falls	A	Columbia Falls.	Moose River	B	Moose River.
Cornish	A	Cornish.	Mt. Desert	A	Northeast Harbor.
Cumberland	C	Chebeague Island.	Mt. Desert	C	Mt. Desert.
Danforth	A	Danforth.	Mt. Vernon	A	Mt. Vernon.
Deer Isle	A	Deer Isle.	Newburg	C	Newburg.
Denmark	C	Denmark.	New Gloucester	A	New Gloucester.
Dennysville*	A	Dennysville.	Newport	C	Newport.
Dexter	A	Dexter	New Portland	A	New Portland.
Dixfield	A	Dixfield.	New Portland	C	N. New Portland.
East Livermore	A	Livermore Falls.	New Sharon	A	New Sharon.
East Millinocket	B	East Millinocket.	Norridgewock	A	Norridgewock.
Easton	A	Easton.	North Berwick	A	North Berwick.
Eastport	A	Eastport.	North Haven	B	North Haven.
Eden	A	Bar Harbor.	Norway	A	Norway.
Eliot	A	Eliot.	Oakland	A	Oakland.
Ellsworth	A	Ellsworth.	Old Orchard	A	Old Orchard.
Enfield	B	Enfield.	Old Town	A	Old Town.
Eustis	C	Stratton.	Orono	A	Orono.
Exeter	A	Exeter.	Oxford	A	Oxford.

*Classification undetermined.

TABLE No. XVII—Concluded.

SCHOOL.	Class.	ADDRESS.	SCHOOL.	Class.	ADDRESS.
Paris	A	South Paris.	Stockton Springs.	C	Stockton Springs.
Paris	B	West Paris.	Stonington	A	Stonington.
Pembroke	C	Pembroke.	Strong	A	Strong.
Phillips	A	Phillips.	Sullivan	A	West Sullivan.
Plymouth	C	Plymouth.	Surry	B	Surry.
Porter	A	Kezar Falls.	Thomaston	A	Thomaston.
Portland	A	Portland.	Topsham	A	Topsham.
Portland (Deering)	A	Portland.	Troy	C	Troy.
Presque Isle	A	Presque Isle	Unity	A	Unity.
Princeton	A	Princeton.	Union	C	Union.
Rangeley	A	Rangeley.	Vanceboro	A	Vanceboro.
Reed Plantation	B	Wytopitlock.	Vinalhaven	A	Vinalhaven.
Richmond	A	Richmond.	Waldoboro	A	Waldoboro.
Rockland	A	Rockland.	Warren	A	Warren.
Rockport	A	Rockport.	Washburn	A	Washburn.
Rumford	A	Rumford.	Washington	C	Washington.
St. Agatha	C	St. Agatha.	Waterboro	C	Waterboro.
St. George	A	Tenant's Harbor.	Waterville	A	Waterville.
Sanford	A	Sanford.	Wayne	C	Wayne.
Sangerville	A	Sangerville.	Webster	A	Sabbatus.
Scarboro	A	Scarboro.	Weld	B	Weld.
Searsport	A	Searsport.	Wells	A	Wells.
Shapleigh	C	Shapleigh.	Westbrook	A	Westbrook.
Sherman	A	Sherman.	West Forks	B	West Forks.
Skowhegan	A	Skowhegan.	Windham	A	South Windham.
Solon	A	Solon.	Winslow	A	Winslow.
Southport	B	West Southport.	Winter Harbor	A	Winter Harbor.
South Portland	A	South Portland.	Wintertport	A	Wintertport.
South Thomaston	C	South Thomaston.	Winthrop	A	Winthrop.
Southwest Harbor	A	Southwest Harb'r.	Woodstock	A	Bryant Pond.
Standish	C	Standish.	Yarmouth	A	Yarmouth.
Stetson	A	Stetson.	York	A	York Village.
Steuben	C	Steuben.			

ACADEMIES.

Anson Academy	A	North Anson.	Higgins Classical Institute	A	Charleston.
Aroostook Central Institute	A	Mars Hill.	Leavitt Institute	A	Turner Center.
Berwick Academy	A	South Berwick.	Lee Normal Acad.	A	Lee.
Bluehill-G e o r g e Stevens Acad.	A	Bluehill.	Limerick Acad.	A	Limerick.
Bridge Academy	A	Dresden Mills.	Limington Acad.	A	Limington.
Bridgewater Classical Institute	A	Bridgewater.	Lincoln Academy	A	Newcastle.
Bridgton Academy	A	North Bridgton.	Litchfield Acad.	A	Litchfield.
Calais Academy	A	Calais.	Maine Central Inst.	A	Pittsfield.
Cherryfield Acad.	A	Cherryfield.	Maine Wesleyan Seminary	A	Kents Hill.
Coburn Classical Institute	A	Waterville.	Mattana w o o k Academy	A	Lincoln.
C o r i n n a Union Academy	A	Corinna.	Monmouth Acad.	A	Monmouth.
East Corinth Acad.	A	East Corinth.	Monson Academy	A	Monson.
Eastern Maine Institute	A	Springfield	N. Yarmouth Acad.	A	Yarmouth.
East Maine Conference Seminary	A	Bucksport.	Oak Grove Sem	A	Vassalboro.
Erskine Academy	A	South China.	Parsonsfield Sem.	A	Parsonsfield.
Foxcroft Academy	A	Foxcroft.	Patten Academy	A	Patten.
Freedom Academy	A	Freedom.	Pennell Institute	A	Gray.
Fryeburg Acad.	A	Fryeburg.	Ricker Classical Institute	A	Houlton.
Good Will High School	A	Hinckley.	St. Joseph's Acad.	A	Portland.
Gould's Academy	A	Bethel.	Somerset Acad.	A	Athens.
Greeley Institute	A	Cumberland Ctr.	Thornton Acad.	A	Saco.
Hampden Acad.	A	Hampden.	Traip Academy	A	Kittery.
Hartland Acad.	A	Hartland.	Washington Acad.	A	East Machias.
Hebron Academy	A	Hebron.	Westbrook Sem	A	Portland.
			Wilton Academy	A	Wilton.
			Wiscasset Acad.	A	Wiscasset.

TABLE No. XVIII.
SECONDARY SCHOOLS—Comparative Statement.
Showing Comparison of Certain Items of Secondary School
Statistics of the Years 1912 and 1913.

HIGH SCHOOLS.

ITEMS.	1913.	1912.
Number of free high schools receiving State aid	185	182
Number of towns maintaining free high schools	178	177
Number of different pupils registered	12,899	12,223
Average attendance	11,211	10,655
Number of weeks schools were maintained	6,385	6,305
Number of resident pupils	11,620	11,144
Number of non-resident pupils	1,279	1,079
Number of different persons employed as teachers, males	250	256
Number of different persons employed as teachers, females	420	401
Average wages of male teachers per month	\$104 68	\$101 19
Average wages of female teachers per week	\$14 98	\$14 59
Amount available for high school purposes	\$505,071	\$478,658
Amount expended for instruction	\$420,784	\$388,126

CONTRACT TOWNS.

Number of towns contracting with academies	34	35
Number of different pupils registered	1,695	1,640
Average attendance	1,493	1,446
Amount available for secondary school purposes	\$52,442	\$51,389
Amount expended for instruction	\$49,853	\$47,771

ACADEMIES.

Number reporting	50	49
Number of different pupils registered	4,287	4,244
Average attendance	3,681	3,630
Average number pursuing secondary school studies	3,743	3,658
Number of weeks school were maintained	1,783	1,787
Number of different persons employed as teachers, males	111	102
Number of different persons employed as teachers, females	178	170
Average wages of male teachers per month	\$109 93	\$110 20
Average wages of female teachers per week	\$12 97	\$12 85
Amount of permanent assets	\$2,968,148	\$2,840,201
Amount of current income	\$290,411	\$294,478
Amount expended for instruction	\$164,216	\$155,646
Amount expended for all purposes	\$293,086	\$252,691

PAYMENTS FOR TUITION MADE BY TOWNS NOT MAINTAINING STANDARD SECONDARY SCHOOL COURSES.

Number of towns reporting	157	174
Number of pupils for whom tuition was paid	1,409	1,552
Amount expended for tuition	\$36,525	\$34,647

CLASSIFICATION OF SCHOOLS

Number of high schools and academies approved in Class A	182	177
Number of high schools approved in Class B	21	22
Number of high schools approved in Class C	30	33
Number of high schools classification undetermined	2	—

TABLE No. XIX.
Showing Cities and Towns Employing Supervisors
of Drawing.

TOWNS.	Number of teaching positions.		Grades in common schools in which drawing is taught.	Classes in high schools in which drawing is taught.	Cost of special instruction in drawing for year ending April 1, 1913.

*School privileges provided in schools outside of townships.

Summary of Statistics, Unorganized Townships.

I. NUMBER, SCHOOL POPULATION, ETC., OF TOWNSHIPS.

Number of townships for which school privileges were provided.....	70
Number of persons between five and twenty-one years of age, April 1.....	868
Number of townships in which schools were maintained.....	49
Number from which children were schooled outside the township.....	21
Number of schools maintained within the townships.....	62

II. SCHOOL ENROLLMENT AND ATTENDANCE.

Number of different pupils registered from all townships.....	758
Number of different pupils registered in schools maintained within the townships.....	685
Number of different pupils attending schools in outside towns.....	73
Number of above attending secondary schools.....	14
Aggregate attendance in schools within the townships.....	66,060
Average daily attendance in schools within the townships.....	484
Average length in days of the school year.....	119

III. TEACHERS.

Number of teaching positions.....	62
Number of different teachers employed.....	90
Number having previous experience.....	73
Average number of terms experience of all teachers.....	11
Average weekly wages, including board.....	\$9 83

IV. SPECIAL SCHOOL CONDITIONS.

Number of pupils not absent one-half day.....	363
Number of cases of tardiness.....	1,387
Number of citizens visiting schools.....	488

V. FISCAL.

Amount paid for wages and board of teachers.....	\$14,791 95
Amount paid for transportation of pupils.....	1,017 40
Amount paid for board and tuition of pupils.....	2,391 41
Amount paid for fuel and janitor.....	1,018 30
Amount paid for books and supplies.....	463 57
Amount paid agents for services and expenses.....	1,988 16
Total.....	\$21,670 79
