REPORT OF INSPECTORS.

To His Excellency Governor Curtis and the Executive Council: We submit to you our annual report for the year ending November thirtieth, nineteen hundred and fifteen.

At the commencement of the prison year December first, nineteen hundred and fourteen, there were confined in the prison one hundred and sixty-nine (169) prisoners.

Warden Waterhouse has, we believe, displayed rare business ability in his management of the affairs of the institution, and has had excellent coöperation from the heads of the several departments. Toward the charges of the state he has been kind, but firm, securing the very best discipline and a marked degree of respect from the convicts. We believe Warden Waterhouse is doing a great work in an effort to impress on the minds of the prisoners that there is yet a chance to "come back." To be sure statistics show that any effort to reform ten per cent. of criminals is hopeless, but what of the other ninety per cent?

To sum up: under the Waterhouse rule of "humanity first," efficiency has improved, health has improved, discipline has improved.

EDUCATION.

We wish at this time to give our most cordial approval of the educational work at the prison. A few statements will illustrate the need of such work. Probably not over five per cent of the number in the prison are fitted to enter high school. Less than twenty per cent could solve a problem in common fractions. Of twenty-five men committed this fall two could not speak English at all and another only in a broken manner. Five did not know their letters, two more knew most of the letters but could neither read nor write, and another could not write English, though he could speak it fairly well and could read and write in his native language, (Italian). The remaining seventeen appear to have very limited learning so far as can be seen without test examination. In other words nearly four per cent are illiterate, and we believe not one among the twenty-five could earn a living by his education.

This is a fair illustration of the condition of the more than two hundred men at the prison.

The school work for these men has been increased several fold this summer. A room of suitable size has been set apart for school work. A number of desks have been purchased by the Warden, and more are soon to be added to the number. Regular sessions of school are held. Men are brought in in squads sufficient to fill the seats, and taught for an hour, then sent back to the shops and others brought in to fill their places. Nearly forty are now receiving lessons each week.

Nearly every man begins with the primer. The word method is used and the alphabet taught later. Very soon the men are given paper and pencil and taught to write the letters of the alphabet, and then words, and later to write letters to their families and friends. Six are now learning to write their letters themselves.

The men make very rapid progress since the school room was available. One man who did not know the letters, but could read in his own language (Albanian) has completed the primer in less than two months. Another, a Turk, who could not read in any language, is half through the primer after five weeks, and two others have done nearly as well.

Number work is taken up as fast as the men are fitted for it. Later on Geography and History of the United States will

be taken up. Almost every man is eager to learn. The school work is not compulsory.

An idea of the importance of such work may be had from a statement made by Ex-Warden Bridges, more than twenty years Warden of the Massachusetts State Prison at Charlestown. A regular course of study is arranged there and men complete it, but according to Mr. Bridges, of all those who have completed that course only three ever returned to the prison convicted of crime. It is the desire of the Chaplain who is also the teacher, that such a course be arranged for at Thomaston as rapidly as men are ready to take it, and your Board of Inspectors most earnestly recommend that one or more of the prisoners, competent to teach, be assigned to assist the Chaplain in carrying forward this great work among these men, in order that, when they again go forth, they may be better fitted mentally to become worthy citizens.

REPAIRS.

In the matter of repairs Warden Waterhouse has succeeded in getting the very best results from the means at hand. What he has accomplished suffices to show his qualifications in this direction.

He has painted the stable, cow shed, engine house and trimmings of the prison, also the interiors of the tenements owned by the State; built new platform on east side of paint shop, and between broom and old trimming shop; shingled one house entire and patched up a number of others; new floor of wash-stand of stable, also flooring in stalls; built a new greenhouse on south side of wall 12 x 25 feet; new yards to the hog pen; regraded the lawn, and painted fence around the same; rebuilt two chimneys, one a large one; installed steam heat in the tailor's shop; and renewed much of the underground run of water pipes; a new hot-water tank of several hundred gallons capacity; a new copper steam kettle in the kitchen; six new power winders in the broom department, thereby increasing the output more than twenty per cent; also a thorough renovation of the hospital.

Your Board of Inspectors refrain from making any recommendation for extensive repairs at this time, as, we believe that this should be left with the Commission who will have charge of the reconstruction of the prison.

For particulars relating to the several departments we would refer you to the tables and report of the Warden.

To the Warden, the Deputy, and to all heads of the several departments, who have rendered to this Board most courteous attention on our visits we wish to extend our most sincere thanks.

Respectfully submitted,

W. J. BRADBURY, J. W. MESERVE, J. E. FITZGERALD,

Inspectors of Prison and Jails.

WARDEN'S REPORT.

To His Excellency the Governor and the Honorable Council:

Gentlemen:—Following the custom of years, I beg to present to you the report of this prison for the fiscal year ending November 30, 1915.

On assuming the duties of warden, I found that it had not been the policy of my immediate predecessors to make any improvements or repairs; they believing that the prison would soon be moved elsewhere; consequently I have been forced to expend quite an amount of money in much needed repairs, not only to the prison, but to the buildings owned by the State attached to the prison. There now remain many repairs that should be made to place all the several properties on a safe footing.

Now that the Legislature has decided to have the prison remain here, it not only means that the funds already voted be expended on betterments, but that more money be appropriated to make the plant complete and thoroughly up to date.

Considering the manner in which the prisoners are fed and the attendant sanitary conditions, it is remarkable that the "sick" list for the past year has been so small. I urgently recommend that a mess hall be built at once, that proper sanitary arrangements be provided in each and every cell, and that the antiquated stone cells be supplanted by steel cages or brick cells with modern plumbing outfit.

Owing to the tremendous increase in automobiles throughout our state, the sale of carriages and sleighs, also harness has greatly decreased; and the time may come when it will not be to the advantage of the state to manufacture these goods. It will be seen that the manufacture of these products has decreased materially in the last year, and I recommend that the convicts here be employed largely in manufacturing brooms, which industry I believe can be made a paying one for the

state. Brooms can be made here in my opinion at a profit, and in this we would not be competing with any large invested interests elsewhere in our state.

The appropriation of 1915 of salaries for subordinate officers was entirely expended prior to December 1st, 1915 and consequently it was necessary for me to draw on my maintenance account the sum of \$1,747.33 in order to pay my men for the month of November; the same will be true in January when I pay my help for the month of December.

I place this matter before you fully that you may understand exactly what the situation is, and not consider me as responsible for what appears to be an error of bookkeeping, which in reality as before stated is due to the Committee on Appropriations of the last Legislature.

To the officers I express my thanks for their cordial and united support, and to Rev. Fr. Flynn more than thanks, for his devotion to the men of his faith, detained here.

Respectfully submitted,

E. H. WATERHOUSE, Warden.

REPORT OF ADVISORY BOARD IN THE MATTER OF PAROLES

To His Excellency Oakley C. Curtis, Governor of Maine:

In accordance with the provisions of Chapter 60, Section 14, of the Public Laws of 1913, the Advisory Board in the Matter of Paroles herewith respectfully submits its report to the year ending Nov. 30, 1915.

Under the provisions of the Indeterminate Sentence Law—P. L., 1913; Chap. 60—applications for parole were received from fifty-three convicts, inmates of the Maine State Prison at Thomaston.

Paroles were granted by the Board to thirty-five applicants, and fifteen applicants were refused the parole privilege.

Paroles were granted by the Governor to three applicants in whose cases he had exclusive jurisdiction under the law.

Each applicant was examined by the Board in relation to the circumstances attending his crime and each case was thoroughly investigated as to previous criminal history of applicant, if any, and as to conduct of applicant during his incarceration in the prison; the Board having access to all records relating to the several cases which are kept in the files in the Warden's office. The qualifications of all persons proposed to act as first friends and advisors to the prisoners applying for parole were investigated and in no case was a parole granted until the Board was satisfied as to the fitness of the person named to act in the capacity of such first friend and advisor. No parole was granted in any case without assurance being given to the Board that suitable employment would be provided to the applicant during his parole period.

It was decided by vote of the Board that, beginning with September, 1915, the parole periods of all prisoners paroled should be uniformly fixed at one year from date of release, unless the full term of sentence of prisoner would expire within a year

from date of release, in the event of which the parole period would extend to date of expiration of term of sentence.

At the April meeting of the Board it was voted to adopt a new rule, as follows:

Applications for parole of prisoners must be in the hands of the Board at least fifteen days prior to the date of the meeting of the Board at which said applications are to be considered.

Since the Indeterminate Sentence law became effective one hundred and five prisoners have been released on parole. Of this number twenty have violated the condition of their paroles. The one great weakness of the law is the inability to have those who violate their parole returned to the prison. Some effective means should be devised to accomplish this, for a parole should never be considered a pardon.

Following is a detailed report of the paroles granted within the year ending Nov. 30, 1915:

Following is a list of prisoners who have violated the conditions of their paroles since the Indeterminate Sentence law became effective:

Harry B. Carr, Wilfred Jacques, Charles P. Michaud, Jeremiah J. Wallace, Alexander Belongie, Raffael Folla, Frank H. Leonard, F. W. White, William Gabrial, Carmelo Pinia, Patrick Connolly, C. G. Hamilton, J. H. Fellows, Joseph Johnson, A. Ieriam, John Arnoldy, H. F. I.eonard, George Edwards, Paul Laurendeau, George Le Valley, Alvin Avallula, A. E. Smith, G. L. Taylor, J. F. Marrs, George Ells.

August H. Dehuller and Reuben T. Daily who were recorded in the 1914 report as having failed to make reports or fractional part of month prior to expiration of parole periods have been granted full discharges by vote of the Advisory Board, it having been shown to the satisfaction of the Board that the men believed their parole periods liad expired and that they did not intentionally violate their paroles.

The following table shows amounts earned and expended by paroled prisoners, monthly and total for 13 months ending Nov. 30, 1915, the month of November having not been included in the 1914 report:

	Earnings.	Expenditures.
Nov. 1914	\$630.47	\$401.50

ANNUAL REPORT OF PHYSICIAN TO MAINE STATE PRISON EXTENDING FROM FEBRUARY 1st TO DECEMBER 1st, 1915.

* 1

The only severe sickness involving a large number of inmates at any one period was an attack of lagrippe which prevailed during the months of February and March, and which in one form or another attacked seventy-five per cent of the male portion of the prisoners. As a rule the attacks were of a mild nature and yielded readily to treatment. Tonsilitis and bronchitis were the most frequent complications. Broncho-pneumonia was present in two elderly men, both of whom made good recoveries. Since the subsidence from the above named acute disease, the amount of real sickness has been small and there has been none of a severe nature. The number of days actually lost from work by any member, and by all members combined, have been so small I do not consider it necessary for me to compile them in this report. With one exception all the chronic invalids I found in the hospital or elsewhere incapacitated for labor, have completely recovered their health and returned to work. A few unavoidable surgical accidents of a minor character have received prompt and official attention. One appendectomy, one perineal section and some ten or a dozen other primary operations of a minor nature have been performed with perfect results. The present state of health among the prisoners is excellent, and the sanitary conditions are as good as can possibly be expected.

CHAPLAIN'S REPORT.

To the Honourable Governor and Council:

Gentlemen: I have the honour to present my fourth annual report as Chaplain of the Maine State Prison.

For the most part the work of the Chaplain has, during the year, followed the same lines as in former years, but with increase in nearly every line.

Religious services have been conducted in the Chapel as usual. We have missed the orchestra and leadership in singing greatly, but have done the best we could under the circumstances. It is with sincere regret that we report the illness of Rev. Fr. Driscoll whose ministrations were much enjoyed by all the men.

The removal of restrictions on the mail privileges has placed Maine in line with the progressive States in the matter of Prison Management, and, incidentally, has nearly doubled the work of the Chaplain in inspecting the same. At the present time the number of letters received by the men and written by them indicates a grand total for the year of 25,000 pieces of first-class mail matter.

In the letters received money is often enclosed for the men and this is placed to their credit with the Clerk. During the past year I have handled over \$900 that has come in this manner. This has come in sums ranging from five cents upward.

The number of papers received daily is as great as in a week three years ago. About fifty daily papers are taken, and many weekly papers. These are delivered each day instead of once a week as formerly.

In addition to this reading matter there is provided for the men a supply of magazines purchased by the State, which, in connection with those donated by friends, supply men with all this class of reading that they desire. These are changed once each week during the summer, and twice each week during the winter months.

We have a library of 3,200 books, to which additions are being made constantly, from which each man may draw two books each week. Nearly every man who can read takes advantage of this privilege. The care of this supply of reading is the work of the Chaplain.

Since the Parole Law went into effect the Chaplain has arranged with each man to receive the blanks used in making his application: Has helped most of the men to fill out their blank applications: Has arranged for First Friends for many, and has found or arranged for work for others, and, since the present Board of Paroles took office, has attended the meetings of the Board, giving information as to the men and the arrangements that have been made by them and for them.

Illiteracy is a condition of crime if not a cause of crime. Less than 1% of the men here have had college training. 1 doubt if 5% have completed a high school course, and a problem in fractions would be beyond the great majority of the men, while about 20% have not mastered the Primer when committed here.

This condition imposed a two-fold task on the Chaplain, who is preacher, teacher, librarian, mail man, errand boy, and general adviser to the inmates, first, to read letters received by men who can neither read nor write, and write the answer for them, and second, to teach them to read and write and do number work.

This work has been carried on in the past as well as possible with the limited accommodations provided. During the present year a room has been set apart as school room and desks have been purchased and regular sessions have been conducted. The plan followed is to send to the shops and have the men come in classes of six or eight in number and teach them for an hour. dismiss them and call another class until the list has been completed, then begin again. In this way each man has one session each week and those needing extra help often a second session. This seems very small, but the results are surprising. I have men that a year ago did not know a letter of the alphabet who now are writing their letters to relatives and friends. are 30 now taking lessons, and many of them are most interesting "Cases." It is a most encouraging thing to see men whose school privileges have been so limited trying by every means in their power to learn to read and write.

It is my ambition to gradually develop a regular course of study, such as is provided in the Charlestown, Mass., State Prison and widely copied in other states, and which has given splendid results in keeping men straight after leaving prison.

I am already giving number work to such as are ready for it, and shall add Geography and History as soon as the men have reached the point where they can take it.

Not a few of these pupils of mine come here unable to speak English or read or write in any language. These are as a rule, among the most eager to learn, and make rapid progress.

I have pupils who could not talk without an interpreter when they came here, but who can now dictate a letter for me to write for them, and will in a few months more be able to write for themselves. I regard this work as most important.

I have mentioned in this report some of the features of my work that seem most important. I have continued my effort to keep in touch with the men after their discharge. I have received letters from Dakota, Minnesota, Kansas, Florida, Michigan, several of the Canadian Provinces, many parts of New England, and two men have written me from the British Army in England where they were training for the front in the great war. I have given the best that was in me to this work, and have no excuses or apologies to make for the results.

Respectfully submitted,

EUGENE V. ALLEN,

Chaplain.

A BRIEF HISTORY OF THE MAINE STATE PRISON BUILT IN 1824.

Believing that the citizens of Maine who read this report may be interested somewhat in the history of this Institution, I have at some little pains secured some data which I believe will prove not only instructive, but interesting.

Prior to 1820 when Maine became a state by itself, all convicts sentenced from this section were confined at Charlestown, Mass. There can be no question as to the reason of the selection of Thomaston for the State Prison, because in the early part of the nineteenth century practically the only portion of Maine that was well populated was along the seacoast, and Thomaston was selected because it was equally distant between Kittery and Eastport.

A committee, consisting of Dr. Daniel Rose of Bootbay, Hon, Benj. Ames of Bath, and Hon. Thomas Bond of Hallowell, having been appointed to purchase a suitable site for a State Prison,—which the Legislature, on report of a previous viewing committee, had determined to locate in this town, and which was to be constructed under superintendence of Dr. Rose,met, Feb. 18, 1823, and, after inspecting the several localities of the place, decided, May 7th, in favor of "Limestone Hill." The site, consisting of ten acres of land, including the quarry of limestone so long used by the first proprietor and his successors, Wheaton, Knox, and others, and extending from Main Street to George's River, was purchased of Ex-Gov. King, at a cost of \$3,000.00, and the building, as far as its eaves, constructed for \$12,000.00. The contractors (from Quincy or Boston) had, by the middle of July, no less than fifty men employed on the ground, with two lighters, transporting the granite from St. George; and, after Gov. Parris and one of the Council had inspected the work, Oct. 15th, the contractors finished their job and left by Nov. 24th. Other contracts were

made: among which Jos. Berry was to cover the top of the prison with rock for \$500.00; which with the house for the warden was finished within the year. In June, 1824, all being in readiness, and Dr. Rose having been appointed warden, convicts began to arrive, fourteen having been brought by water from Charlestown, Mass., July 14th, making, with those previously received, a total of 35,—mostly employed in the lime quarry. In 1828, the western wing was enlarged by the construction of 20 additional cells. The original plan of the prison, by which the convicts were nightly let down through an opening in the stone floor to cells ill-ventilated, damp, and cold, not proving satisfactory, a great improvement on the side of humanity was made in repairing and remodelling it in 1843, by constructing three tiers of cells, one above another, substantially built of stone, entered by iron doors of open grates, secured by an iron bar running the whole length of each tier and simultaneously bolted. This alteration was planned and executed chiefly, we believe, by agency of Dr. B. F. Buxton of Warren, at that time one of the inspectors, at a cost of \$13,177.00,—the sanction and appropriation for which were greatly aided by Hons. A. H. Hodgman and B. Fales of the House together with J. L. Patterson of the Senate. The limestone got out by the convicts not meeting with sufficient demand. the hewing of granite, brought up the river from a quarry which the State purchased in St. George, was to a considerable extent substituted later. I large part of the prison having been destroyed by fire, Dec. 22, 1850, the warden took immediate measures for repair; and being visited Jan. 2, 1851 by Gov. Hubbard and Council, his doings were approved and \$5,500.00 appropriated to conclude the work. A main building of stone was erected, and nearly completed in May, 1851. The stone wall around the whole yard, in progress some years, was finished in 1854. In 1855 a guard-room was built on the south-east corner of the wall and a story added to the wheelwright's shop -\$3,000.00 having been appropriated. In 1858, the number of prisoners had so much increased (numbering 128) that there was a great want of room; and, though \$13,000.00 was appropriated in March of that year, nothing was done, in consequence of the sum being supposed insufficient for the plan proposed by the architect employed to make examination.

On May 14, 1863 Warden Richard Tinker of Ellsworth who assumed the duties of warden in 1861, on passing by the door of one of the shops was assailed by one Francis Spencer Couillard who struck him with a knife, in passing, on the right side of the throat, severing the carotid artery and producing death in a few moments. Couillard who was a short term man, was indicted for murder, plead guilty and received at Rockland, Maine, May 19, 1864, the sentence of death, and was hung in the Prison yard on June 24, 1864. Warden Tinker's death is the only one of any officer having been assailed by one of the convicts in the ninety-one years since the Prison was built.

The original gateway of the prison, over which are in large numbers, the date 1824, would today be considered very inadequate for the hauling in or out of goods: at the base of this gate is a mark of the U. S. Geological Survey, showing it to be 142 feet above high water.

With the advent of the Knox & Lincoln Railroad, the wharf which was originally built beside the Georges River, became unused and there are only a few relics of the wharf left standing, yet prior to the advent of the railroad all of the supplies incoming or outgoing were handled at this wharf.

In the ninety-one years since this prison was established, there have been seventeen different wardens, two of whom, Messrs. Wm. Bennett, and Thomas Hix served two terms with others serving between them. The names of the wardens from the start to the present time are as follows: Dr. Daniel Rose, Joel Miller, Wm. Bennett, John O'Brien, Benjamin Carr, Thomas Hix, Wm. Bennett, Thomas Hix, Richard Tinker, James E. Morse, George Tolman, Warren W. Rice, Gustavus S. Bean, Samuel Allen, Hillman Smith, Bernes O. Norton, Fred B. Wiggin, Frank J. Ham, and E. H. Waterhouse.

The last convict who was executed in this prison prior to the abolition of capital punishment, was Daniel Wilkinson who suffered the penalty of the law on Nov. 20, 1885. His grave is with the others in "God's quarter-acre," on the south slope of the prison, the only mark upon the stone, being convict "2695;" I mention this because on each and every other headstone are names and dates of death or execution, while that on Wilkinson's is the simple number "2695."

E. H. WATERHOUSE, Warden.

JAILS. 65

COUNTY JAILS.

To the Honorable Governor and Council:

GENTLEMEN: The jails throughout the state have been visited by one or more of the Board of Inspectors as often as the law directs. The largest jails comprise York, Kennebec, Androscoggin, Penobscot, and Cumberland. These have received our most careful attention. The average number of prisoners in each of these November 30th, 1014, was eighty-six (86), or a total of four hundred and thirty-three (433), namely York, sixty-three (63), Androscoggin, ninety (90), Kennebec, sixty-eight (68), Penobscot, one hundred (100), Cumberland, one hundred and twelve (112); and all the other jails in the state had on November 30th, 1914, an average of fourteen (14), or a total of one hundred and twenty-nine (129) as follows: Aroostook, forty-two (42), Hancock, five (5), Oxford, sixteen (16), Somerset, twelve (12), Washington, seven (7), Franklin, thirteen (13), Knox, eighteen (18), Piscataquis, nine (9), and Waldo, seven (7). The smaller jails with few exceptions are kept in good condition. In a few cases we were obliged to call special attention to jailers or turnkeys to the unsanitary condition of the beds and bedding; also to the ceilings and walls. On our later visits we found new beds and bedding, and a general spring house-cleaning and painting had taken place.

YORK COUNTY.

York County Jail is now in very good condition excepting the lighting and heating arrangements. We have called the attention to the County Commissioners and have their assurance that the matter of lighting is now under their special consideration, and they expect to have the same installed within a very short time. It is hoped that the Commissioners will soon see their way clear to install steam heat.

ANDROSCOGGIN COUNTY.

Androscoggin County Jail has been fully renovated, and today is in very good condition, having one of the best kitchens and dining rooms in the state. At our early visits we found it necessary to call attention to the unsanitary conditions of the beds and bedding, and we are pleased to report that our request for better conditions have been complied with.

KENNEBEC COUNTY.

We beg to commend the general satisfactory condition and numerous improvements that have been made. We note the improved sanitary conditions in the toilet rooms as the result of the installation of the new water system. This jail has all been thoroughly painted, and with its light and ventilation is one of the best in the state.

PENOBSCOT COUNTY.

We can only say what has been stated so many times, that the jail at Bangor is entirely unfitted for the burdens imposed upon it. The cell room is so limited that from three to five prisoners are confined in each for sleeping accommodations, necessitating unsanitary and insufficient ventilation, but we believe the officials are doing all within their power to relieve this stress, but until fundamental changes are made, the congested conditions must remain bad

CUMBERLAND COUNTY.

The jail is kept in the best possible state of cleanliness and order, the cells and corridors are scrupulous neatness, and the beds and bedding is far superior to many of the other jails in the state. The food appears to be of sufficient quantity, and of a fair variety. The discipline meets the requirements of the situation. Sheriff Pennell is the first to inaugurate the new system of jail labor on state highways, which is very beneficial not only to the state, but the health of the prisoners. Your Inspectors have made two visits to North Windham, where forty or more of the prisoners have been employed for nearly five months, building state roads, and we believe this is only the

beginning of a state wide system of building good roads throughout the state, and we hope that other large counties will follow in the footsteps of the officials of Cumberland County.

For a detailed report of the individual counties we must respectfully refer you to the official reports of the sheriff of the several counties.

Respectfully submitted,

WILLIAM J. BRADBURY, JAMES W. MESERVE, JOHN E. FITZGERALD,

Inspectors of Prison and Jails.

JAIL REPORT FOR ANDROSCOGGIN COUNTY.
