# REPORT.

STATE ASSESSORS' OFFICE,

AUGUSTA, MAINE, December 1, 1916.

To His Excellency, Oakley C. Curtis, Governor, and the Honorable Executive Council:

GENTLEMEN:—In accordance with the statutes of the State, we herewith submit for your consideration the Twenty-Sixth Annual Report of the Board of State Assessors, including tabulations of statistics returned to us by all municipal boards of assessors throughout the State, as made by them on April first, 1916, and lists of all corporations on which taxes have been assessed during the present year.

There is also included as required by statute, the state valuation of the real and personal estate of all cities, towns and plantations, and the real estate of all unincorporated townships within the State, as fixed by this Board, as the basis on which state and county taxes are to be computed during the years 1917 and 1918.

The total valuation of the cities, towns and plantations on April first, 1916, as made and returned by the local boards of assessors is \$456,567,068, representing an increase of \$8,854,946 as compared with similar returns made on April first, 1915.

The following comparison is given of the counties in 1915 and 1916, exclusive of the unorganized townships:

Amount of taxes assessed on polls, 1916, \$557,570. Average amount assessed on each poll, \$2.67. Amount of taxes assessed on property, in the different cities, towns and plantations for state, county and local purposes in 1916, \$10,938,515. Average rate of taxation on each \$1,000 is \$23.95.

In view of the fact that taxes assessed for all purposes in the various cities, towns and organized plantations, during 1916, amounted in the aggregate to \$10,938,515, with an average tax rate of \$23.95, it seems an opportune time to urge the limitation of public expenditure, as well as a better system of municipal accounting, it being of vital importance that the same care be brought to public affairs, which makes for success in the private business of the individual, it being more than a possibility in many cases, that good return is not being made for moneys expended, through carelessness in making appropriations, or a lack of sound business system in expenditure and accountancy. This condition exists in other states, and in many cases is already receiving serious consideration from both state and municipality.

## CORPORATION TAXES.

	1915.	1916.

	<hr/>	<hr/>
	\$2,296,124 05	\$2,134,863 27

The material decrease in corporation taxes during 1916, was anticipated in part, as the railroad tax which shows the greatest shrinkage, is based on the gross transportation receipts for one year ending June thirtieth next preceding the assessment of

the tax on April first, annually, and this coming on June thirtieth, 1915, covered a period of time when railroad business was depressed, whereas the tax of 1917, and 1918, will be based on periods of time when such business has been materially better, hence substantial increase in this class of taxes may be confidently expected during 1917 and 1918.

Chapter 321 of the Public Laws of 1915, giving greater exemption from taxation of securities held by savings banks, became operative July first, 1916, and as anticipated, the aggregate amount of taxes paid by savings banks decreased to the extent of \$16,013.12 during the second period of 1916.

#### STATE VALUATION.

As a Board of Equalization, we report the thirteenth biennial valuation of the State as follows:

Real estate of cities, towns and plantations ...	\$364,793,753

The policy adopted in 1915, of holding a larger number of meetings with local assessors than in former years has been continued, and is without doubt productive of good results, as closer acquaintance with men and conditions is thus brought about. This may also be responsible for a larger aggregate attendance of assessors than ever before, and in all ways the friendly relations existing between this Board and the local assessors has been plainly apparent.

In passing we wish to express our sincere appreciation to all of the assessors of Maine, and the public in general as well, for numberless favors and courtesies shown us during the past year.

Impressed with the vast importance of the subject of taxation, and the great opportunity of doing good, or ill, by those who may have charge of the assessment of taxes, we venture to repeat certain suggestions made in our report for 1915, as this brief part of our work seemed, in part at least, to meet with popular approval.

In connection with the future valuation of all classes of property, we wish to remind those who may do this work, that under the law no basis of value is contemplated, other than just, true value of property, determined by careful use of all recognized factors which go to make value in the particular locality where the property is situated, bearing in mind the fact that the valuation of property at any point below that named, but tends to make higher tax rates, which is a question to be carefully considered from the view point of the possible purchaser, or those who may be interested in industrial development, and who may view with apprehension excessive tax rates.

In view of the fact that during the past twenty years, the increase in volume of all personal estate has been about 50%, real estate approximately 68%, wild land 200%, while intangible personal property, consisting of money at interest and taxable bonds and stocks, exclusive of bank and trust companies stock, has increased but about 29%, seemingly out of proportion to the probable real gain in this class of property, it seems well at this time to bring emphatically to the attention of all local assessors, the duty incumbent on them, under existing laws, of treating this class of property as seriously, and in the same manner as the home, farm, stock in trade or timber lands of

the state, leaving to legislators, who now have the authority, under our amended Constitution, the changing or not, the method of taxing this class of property.

Realizing the many perplexing problems involved in taxation, we urge the taxpayer to frankly meet the assessor at all times, should the shadow of doubt or discontent enter the mind, as the supposed grievance may prove to be merely a misunderstanding, and in the same spirit, and for the same purpose, urge all assessors to come to us, as doubt and discontent should be cleared away if possible, leaving instead, confidence and content.

Believing the matter of taxation is possibly the most vital one to be met by city, town and state at the present time, and that citizen and tax official should spare no effort in frankly and fully meeting, and considering the different situations developing from time to time, in order to produce substantial and lasting results for the common good, which can only come from united and harmonious effort, we urge tax officials, and the public as well, to come to us freely at all times, for the discussion of matters of taxation, not feeling we may be able to solve all problems in this great work, but wishing to contribute the best we have to give, for the benefit of a common cause.

Recognizing the fact that the general property tax law of Maine was framed in accordance with the Constitution adopted nearly one hundred years ago, and while many changes have been made in our tax laws from time to time, still it would seem plainly apparent that in order to keep pace with changing conditions, and abreast with the progress of the present time, it is vitally important that serious consideration be given our tax system in general, making modifications without hesitation where needed.

We make the following suggestions and recommendations to the Legislature of 1917, and respectfully urge their serious consideration:

- (1) Legislation requiring the filing of the annual cut of timber on all unorganized towns.
- (2) The appropriation of \$10,000 for each of the years 1917 and 1918, to continue the examination of "Wild Lands."

- (3) Such legislation as may be deemed expedient, in order that interest bearing deposits in national banks may be treated on a basis similar to deposits in savings banks and trust companies.
- (4) Legislation for the classification of intangible personal property, for purposes of taxation.
- (5) A uniform rate of poll tax.
- (6) Determination of site of taxation of transmission lines of electric light and power companies.
- (7) Increase in salary of chief clerk in this department to \$1,500 annually.
- (8) Taxation of pulp wood, cord wood, logs and similar property, in all organized towns and plantations, in the town or plantation where located on April first.
- (9) Compulsory listing of all taxable property.
- (10) Change in date of assessment.
- (11) Authority for this Board to employ assistance outside of local assessors, if deemed necessary in case of reassessment.
- (12) Make more definite the taxation, or exemption, of such personal estate as farming utensils, mechanics' tools and any similar property.
- (13) Legislation giving this Board specific power to tax all improvements, such as hotels, camps or other buildings having material value, on leased land in unorganized towns.
- (14) Provision for the taxation of personal estate, by the state, in unorganized towns.

The following table shows the amount of intangible property of different kinds taxed in 1915:

The state valuation as made in 1914, as the basis on which state and county taxes have been assessed in 1915 and 1916, was \$498,487,849, while the valuation of the cities, towns and incorporated plantations, as made by local boards on April first, 1915, plus the valuation of wild lands and timber and grass on public lots, amounted to \$496,519,920, being only \$1,967,929 less than the total state valuation, whereas the amount of the local valuation as made on April first, 1916, plus the valuation of wild lands and timber and grass on public lots, amounted to \$505,374,866, or \$6,887,017 in excess of the total state valuation.

This shows conclusively that the state valuation, being made for a two year period, would all the time be many millions below the local valuation, unless reasonable additions were made, as provided by statute, by the Board of State Assessors, in anticipation of growth through new property and local read-

justment, it being necessary to make the state valuation late in the year next preceding each legislative session, while local boards make two valuations after that, and during the same period to which the state valuation applies.

#### NEW ENGLAND TAX CONFERENCE.

The Sixth Annual Conference of the Association of New England State Tax Officials, was held at the State House, Hartford, Connecticut, on December 7 and 8, 1916.

This Conference, like those of previous years, was attended by tax officials from all of the New England States, and New York, also by many students of taxation from various sections.

Each session was fully attended, and much interest manifested in the various subjects assigned for discussion, it being the unanimous opinion, that so much of common interest exists in a group of states with conditions so closely identified, that much good must necessarily result.

One feature worthy of particular notice, was the dinner given the members of the Conference, on the evening of December seventh, by the Manufacturers Association of Connecticut. This gathering was memorable in bringing together tax officials, and representatives of the great manufacturing corporations of Connecticut, at a meeting where full and frank discussion of matters of taxation could but bring about a better understanding in regard to matters of particular importance in a great manufacturing state like Connecticut.

#### WILD LANDS.

With an appropriation of \$10,000 in 1916, as in 1915, for the purpose of examining timberlands, the work has been carried on along the same lines this year as last, with the same supervision, practically the same force of cruisers, and the same general methods in use.

The "strip method" has been principally used, and such conditions as topography as affecting logging and the driving of streams, improvements consisting of hotels, farms, etc., area, lines and corners, soil conditions and character of growth, burnt and waste lands, cuttings showing age and condition, also whether cut for saw logs, pulp, or both, and stumpage values if definitely known, have been reported by cruisers.

The reports in regard to this work, also maps accompanying them, are on file in this office, and will be gladly shown timberland owners, or other interested parties, at all times.

Thirty towns have been examined during 1916, having approximately 690,000 acres, making in round numbers 4,280,000 acres explored since this work was first undertaken in 1905.

The following towns were cruised in 1916:
