REPORT OF THE INSPECTOR GENERAL.

LEWISTON, MAINE, January 1, 1916.

From: The Inspector General, Lewiston, Maine.

To: The Adjutant General, State of Maine.

Subject: Annual report.

I beg to submit herewith my report for the year 1915.

Reports in detail have already been forwarded you as the various commands have been inspected by me. To endeavor at this time to include in this report the results of inspections would be but useless repetition. I shall therefore confine myself to a general report on the condition of the National Guard as it exists at this time.

ARMORIES

There have been no changes worthy of mention in the armory conditions from those described in prior reports. It might be said, however, that Legislative action has been taken whereby a committee has been appointed by the Legislature to inquire into the feasibility of the State constructing an armory to be located at Lewiston. It is sincerely to be hoped that the commission may deem it wise to make a favorable report to the next Legislature and that favorable action may be taken on this proposition.

COAST ARTILLERY CORPS

All the companies of this regiment were found to be below the required enlisted strength at the time of inspection with the exception of the 11th Company organized April first of this year.

SECOND INFANTRY

Lack of enlisted strength has also been noted in this regiment. For this reason as well as for the further reason of failure to maintain the required standard of efficiency, Company A of Pittsfield was disbanded May 27, 1915, by General Orders No. 11. Inspection of this company as well as those of Companies H, L, and M revealed unsatisfactory conditions.

NAVAL RESERVE

A more lively interest seems to obtain in this branch of the service than that displayed in other branches. For that reason the Naval Reserve is in good condition and has made a substantial and praiseworthy advance along lines of efficiency.

ANNUAL TOURS OF DUTY

The annual tour of duty of the Second Infantry was held at Augusta. The program for this tour was arranged by Lieut. Francis H. Farnum, U. S. A., Inspector-Instructor and was along the same lines as that of the two preceding tours.

Beside the customary and battalion drills in camp, fire problems were held on the rifle range and a practice march with field problems was worked out. Excellent improvement was noted as a result of this tour especially in field work.

Appended herewith is a table designed to show the enlisted strength of the various organizations at the time of inspections together with the percentage of attendance and also, for the purpose of comparison, the same information for the previous year.

REPORT OF THE CHIEF COMMISSARY.

NATIONAL GUARD OF THE STATE OF MAINE

QUARTERMASTER CORPS

AUGUSTA, MAINE, December 15, 1915.

From: Major Blaine Owen, Quartermaster Corps.

To: The Adjutant General.

Subject: Annual Report, 1915.

In accordance with Section 22, The Military Law of the State of Maine, the following report is submitted showing the transactions of this office during the present calendar year.

Pursuant to S. O. 96, A. G. O., dated August 10, 1915, and in accordance with Section 27, The Military Law, proposals for bids were advertised in the Kennebec Journal 10 days previous to opening for furnishing subsistence and quartermaster stores for the annual encampment of the Second Infantry, held at Augusta, August 16-25, 1915. Following is shown a list of successful bidders and the prices of stores furnished by each:

Geo. L. Weeks & Son	10 74

Total	<hr/> \$2,869 81

In order to show the cost of ration the following deductions should be made from the above total:

Forage account,

Hay	\$139 20	
Straw	62 99	
Oats	165 00	
	<hr/>	\$367 19

		<hr/>
Total deductions		434 83
		<hr/>

Total cost of ration properly chargeable to units as of money value \$2,434 98

During the 1915 tour of the Second Infantry, there were issued 7,534 rations at a cost as shown by above figures of .32319 c. per ration.

Company officers under orders established messes with their respective organizations and it is believed the companies profited immensely by this method. It gave officers a very intimate knowledge of the company kitchen conduct which is absolutely necessary for the satisfaction of the enlisted men. It is recommended that this practice be continued.

If the Second Infantry tour for the year 1916 is held in the state as a joint maneuver camp, it is urged that supplies be issued by the Regular Army Quartermaster to the regiment as a unit and not to the individual companies as was done in the joint maneuver camp held at Augusta in 1914. This will allow the supply department of the regiment to exercise every function and to gain the knowledge necessary for the proper conduct of the department in the field. As stated in the report of this office for the year 1914, the system used by the Regular Army Quartermaster did away entirely with the duties of the regimental quartermasters and commissaries. It is considered that these officers and men are of extreme importance to the regi-

ment and should receive all the instruction and practice to which their several details entitle them.

Under special orders I was detailed as subsistence officer at the annual small arms competition at the State range at Auburn, Maine, in September, 1915. Bills for subsistence stores were certified for payment through your office.

REPORT OF CHIEF SURGEON.

NATIONAL GUARD OF THE STATE OF MAINE.

MEDICAL DEPARTMENT.

NATIONAL SOLDIERS' HOME, Jan. 1, 1916.

From: Chief Surgeon.

To: The Adjutant General.

Subject: Annual Report:

The following is submitted herewith as the annual report upon the work of the Medical Department for the year ending December 31, 1915:

During the year the following changes have occurred in the personnel of the Medical Corps:

Capt. Harry W. Sampson, relieved from duty with the 2nd Infantry and assigned to the office of the Chief Surgeon at State Headquarters July 3rd, in conformity with Table I, Tables/or Organization, Organized Militia, 1914.

1st Lieut. Delbert M. Stewart, promoted to Captain June 17th.

George L. Pratt, M. D., commissioned First Lieutenant, M. C., June 8th and assigned to 2nd Infantry.

Carl H. Witherell, M. D., commissioned First Lieutenant, M. C., August 10th and assigned to 2nd Infantry.

The following have received commissions as First Lieutenants, Medical Reserve Corps, to fill vacancies caused by resignations, etc.:

Wyvern A. Coombs, M. D., Westbrook, May 7th.

Merlon A. Webber, M. D., Portland, July 13th.

Harold W. Stanwood, M. D., Rumford, October 20th.

Camp of Instruction, Tobyhanna, Pa., June 19-26, 1915.

The school for Medical Officers conducted by officers of the regular establishment and attended by the Medical Officers of all the New England and several other States was highly appreciated by our Corps, all of whom with one exception were present.

The course of instruction commenced with the work of a private in the Hospital Corps and was distinctly progressive. Between lectures and field maneuvers we were kept thoroughly busy. The lectures were concise, up to date and very instructive. The field demonstrations consisted in the transportation and setting up of the new field hospital, and the work of an ambulance company in the field including the establishment of a first aid station, first aid to the wounded on the field, transportation to the field hospital.

I understand that it is the intention to continue these schools and that the instruction given will be graded and progressive. I consider that it is of vital importance to our Medical Officers that they be permitted to attend each and every stated session.

Correspondence School for Medical Officers.

The correspondence school for Medical Officers of the National Guard instituted by the government and under the immediate care of our Inspector-Instructors became effective in the fall of 1914. It is arranged to cover a progressive course of four years. Four of our Medical Officers completed the work for 1914. The 1915 school is now in operation and all of our Corps are enrolled.

Field Service School for Medical Officers.

Major John G. Towne, M. C., attended the 1915 session of the school at Fort Leavenworth, Kansas, and received his certificate.

The instruction given is of extreme importance and I believe our Medical Officers should be encouraged in every way possible to attend the course. At present an officer receives his expenses only and he suffers a personal loss in time and money. I would recommend that officers attending this school be allowed regular pay as is done by nearly all other States.

Line Officers School, Augusta, June 21-25, 1915.

As this school was in session at the time our Medical Officers were attending the course at Tobyhanna, Pa., I directed 1st Lieut. John E. Brooks, M. R. C., to report to the camp

commander as medical officer. His work was entirely satisfactory.

State Shoot, Auburn, September 12-18, 1915.

Capt. Harry W. Sampson, M. C., was assigned to duty as sanitary officer. Capt. Sampson is an experienced officer and both his work at the camp and report were much appreciated.

Inspection, Encampment C. A. C., and 2nd Inf.

Inspection of the C. A. C. at Fort Williams and of the 2nd Inf. at Augusta showed a continuation of the improvement being made in the personnel of these commands. The men are also better clothed and it is rare to see a man in a soiled and ill fitting uniform so common in former years. The food was excellent and abundant and water all that could be desired.

Sanitation at Fort Williams was of necessity good and the report of the surgeon indicates but little sickness.

No sick report has been received from the surgeon of the 2nd Infantry but from personal observation the sanitary conditions were well handled. The additional water pipes erected in the rear of each company for washing purposes made a marked change for the better in the vicinity of the kitchen.

I believe it would be of advantage to make use of the "Post Hole" supplied with a proper cover and to be located near the wash bench to care for the waste water.

A sufficient supply of fly netting should be on hand at the grounds when the regiment arrives at camp in order that proper protection may immediately be given the food supplies.

A suitable cold storage should be provided that meats can be immediately cared for when received in camp.

Typhoid Prophylactic.

I believe that the use of Typhoid Prophylactic in the Guard is of extreme importance and should receive much more attention than is given it at present.

The following quotation is taken from the report of the Surgeon General, U. S. A., 1915:

"Notwithstanding the fact that it has been clearly demonstrated that immunization from typhoid fever by the use of typhoid prophylactic is a thoroughly practical measure for the prevention of this disease, that it is unattended by bad results, and that its protected value is very probably equal to that

afforded against small-pox by vaccination, there appears to be much reluctance in some States against taking it, —————it is believed the time has arrived for the State authorities to take hold of this important matter and handle the same as any precaution inaugurated for the health of the community.”

Early in July I applied for and received twelve hundred c. c. of serum from Washington. Much of this was delivered to the medical officers of the two regiments while at their encampment, with the direction that they make every effort to extend its use and advised that at least one dose be given each man while the troops were in camp, also that sufficient serum be sent to the Medical Reserve Corps Officers located at the home stations to continue the treatment of those who had commenced immunization but from what I can learn very little was accomplished. It can readily be understood that the many changes each year in the personnel of the Guard makes the work difficult, but if undertaken systematically and with the willing help of company officers, it could be done and not only would it give our men protection against a disease that is always serious and often fatal, but would also act as an object lesson to our State at large.

I earnestly recommend that the use of typhoid prophylactic be made obligatory with all members of the Guard who have not had typhoid fever.

Discipline.

I find a certain lack of discipline among the sanitary troops of both regiments, due to familiarity between the officers and men. This is easily explained from the fact that in their home stations they are often close friends. A few words from the senior officers will show the requirements of the service both in army and camp.

Non-effectives.

Although in examination of recruits we follow the requirements of the Government yet from time to time an officer or man is found who by reason of inaptitude, vicious habits or intercurrent disease or injury has become permanently non-effective. It is more than useless to spend the time and money for his instruction and I believe this class of men

should be searched out and after an impartial examination, if found defective, they should be dropped in a proper manner.

Property Accountability.

I would again recommend that the senior medical officer of each sanitary detachment assume all Government property in the hands of the detachment, giving proper receipts for same to the organization commander who is now held accountable. This would be in conformity with regulations.

Reassignment of Sanitary Troops.

I would recommend that the officers and men comprising the sanitary troops attached to the C. A. C. and the 2nd Inf. be transposed. The sanitary personnel attached to the C. A. C. have had but little practical experience in sanitation for some years and I believe they should be given equal benefit with the personnel now on duty with the 2nd Inf. of the more exacting work required in the field.

FRANK E. DRAKE,
Captain, 2nd Infantry.
Statistical Officer.

This event was a most successful camp, and in my opinion, gave more value for the money expended than ever before.

The scores of all the teams entered will be found in Appendix B.

At this time the State Rifle Team was chosen, and this event itself aroused much interest. The members were chosen by the chief ordnance officer. The manner of selecting will be found in the section of this report dealing with the State Rifle Team.

3. STATE OF MAINE RIFLE TEAM. After the Divisional Matches of 1914, to which Maine did not send a team it was rather definitely decided that Maine would not send a team in the National Matches of 1915. Congress, however, at its last session appropriated money for the transportation of State Teams to State Camp, Florida (twelve miles south of Jacksonville), and Maine's proportion would pay all the travelling expenses of a team. Accordingly, The Adjutant General, after conference with the Chief Ordnance Officer, decided to send a team to the National Matches; and it was further decided to eliminate all those guardsmen who had ever shot in a National Match; and it was still further decided that the fifteen high men in the Company Team and the Company Tyro Team matches at the Annual State Small Arms Competition should compose the team; opportunity was given those in the service who were not members of either of their company teams, to apply and be squadded in order that their scores might be compared with scores made in the Competition. Certain rules of eligibility were made by the War Department which were complied with.

The following table shows all the data used in choosing the team. War Department regulations required that to be a member of the team a guardsman must have been in service for a year, and have performed 75% of duty during that year.

This team was not chosen till September 15th, and went to Florida October 5, for ten days' preliminary practice before the matches. This year for the first time in the history of the National Matches, free targets were assigned to each team at all ranges, and the team members worked faithfully under the direction of the Team Captain and 1st Lt. Sumner C. Hill, 6 Co., C. A. C., who volunteered his services on the team, to the time of the National Individual Match, in which the members competed. In this match there were 756 entries.

Among themselves the State of Maine Rifle Team members ranked as follows in the National Individual Match, and the twelve highest were made the shooting members of the team—the others were made alternates.

12 high men team aggregate 3,826.

In this connection it is not amiss to record that Corp. Wesley H. Woods, Co. B, 2nd Inf., made 33rd place among the 756 entrants in the National Individual Match. This placed him among the prize winners, a thing seldom accomplished by a "tyro."

The individual scores of team members will be found in Appendix B.

4. In closing this report I desire to ask your attention to the stimulus the annual competitions and the choosing of a State of Maine Rifle Team has on small arms practice in the Guard, especially when an entirely new State team, as was the case this year, is chosen. All these matters are educational, and the greater number of new men interested the greater the benefit. I hope the—for Maine—big series of matches and a State of Maine Rifle Team to the National, if not to the Divisional Matches, is to become a permanent event.

GILBERT M. ELLIOTT,
Major Ordnance Department
Chief Ordnance Officer
and Inspector Small Arms Practice.

P.

SPECIAL REPORTS.

HEADQUARTERS SHIP'S CO., NAVAL MILITIA,

PORTLAND, MAINE, September 1, 1915.

From: The Commanding Officer.

To: The Adjutant General.

Subject: Annual cruise, Maine Naval Militia.

The Ship's Company, 1st, 2nd and 3rd Divisions fell in for muster at 1.00 P. M., August 14, 1915.

A relayed radio sent on from U. S. S. Kentucky the day before reached Headquarters at 2.00 P. M., August 14th, saying the ship would be in Portland August 15th, but stated no time. Liberty was given men of the 3rd Division until 11.00 P. M., while men of the 1st and 2nd Divisions were to report at 8.00 A. M., August 15th.

Petty officers, men detailed to do Beach Patrol, and men who could not reach Portland at an early hour if needed, were quartered in armory with men of 3rd Division and fed at Metcalf's Restaurant. Officers who did not reside in Portland were quartered at Falmouth Hotel.

Embarked on U. S. S. Kentucky at 11.00 A. M., August 15th. Ten officers and one hundred and thirty-one men sailed at once for Newport, R. I. Very foggy. Arrived at Newport, August 16th.

Rhode Island Naval Militia embarked with thirteen officers and one hundred and forty odd men.

Sailed for New Haven, August 17th. Embarked the Connecticut Naval Militia, about three hundred officers and men, making about eight hundred men on board ship. Sailed for Tangier Sound, Va., on evening of August 17th and arrived there August 19th at 1.25 P. M.

Target practice was held in which Maine stood good second, 18 hits out of 45 shots, with Rhode Island first with 22 hits.

We sailed for Portland on the 23rd, at 6.00 P. M. and arrived at 12.05 on August 26th.

The cruise was the most beneficial to officers and men of any which I have been on. Every officer was assigned to some duty and expected to do it, as also were the men.

We had all kinds of drills and instruction which we should have, and which we would have if we were in the regular service.

The trip was marred by an accident to a boat being hoisted and one Connecticut Naval Militia man lost his life and one of Maine's, the 3rd Division, was badly hurt but is recovering all right at present time.

Officers and men of the U. S. Kentucky were very courteous and painstaking in their instruction to officers and men.

The comments which I would make on cruise are:

1st. Too many Naval Militia on ship to get through instruction and also so crowded as to be uncomfortable on board ship.

2nd. Tangier Sound, Va., is too hot a place to take men from Maine in summer months.

3rd. That one day liberty should be given men at a place away from home, as it is a big incentive for enlistments to have that liberty day held out for an attraction.

One man was discharged at Newport on account of chronic seasickness and sent home. His discharge from the Naval Militia will also be recommended.

REUBEN K. DYER,
Lieutenant Commander.

NATIONAL GUARD OF THE STATE OF MAINE.

MEDICAL DEPARTMENT,

NORWAY, MAINE, July 11, 1915.

From: The Chief Surgeon.

To: The Adjutant General.

Subject: The Tobyhanna School for Medical Officers.

The course of instruction covered the period June 21, to noon on the 26, and was very interesting, consisting of lectures and practical demonstrations in the use of the new field hospitals, first aid and dressing stations. These units we saw taken down, packed, transported, unpacked and set up in proper manner and under simulated service conditions. The latest field hospital is completely changed as regards tentage, the tents are larger and are not provided with flies, materially reducing the weight in proportion to capacity. The change in equipment of the hospital corps seems to be of great advantage, in place of the present pouch supplied the privates and orderlies there are to be issued a wide web belt, provided with pockets, these to contain about the same supplies as the pouches. I understand that a special belt and equipment will be issued the surgeons.

One important addition to the infirmary supplies is a bag to be attached to the pack saddle of the outfit which will carry some 10 to

12 gal. of water, this is copied after the new water bags to be supplied the command.

I would recommend that in the future all non-commissioned officers of the hospital corps be sent to these schools as the instruction will be of special advantage to them in their instruction of the men. I heard a good deal of criticism from various officers to the effect that in their opinion they should not be asked to spend their time in litter and first aid work, that is in the several methods of removing wounded from the field, yet the same men showed a decided lack of these important subjects. Personally I heartily approve of the whole course, and am sure that every one of the officers from Maine, myself included, needed just this instruction.

BIAL F. BRADBURY,

Major, M. C., N. G. S. M.
