STATE OF MAINE.

BANKING DEPARTMENT,

AUGUSTA, December 1, 1917.

To the Honorable Carl E. Milliken, Governor, and the Executive Council of the State of Maine:

I have the honor to submit the sixty-first annual report of the Banking Department for the fiscal year ending November 30, 1917.

In view of the unusual market depression and disturbances incident to the world war in which this country is now engaged, it is gratifying to report that the combined resources of the institutions under the supervision of this department have increased \$13,964,801.95 during the past year. This is, with one exception, the greatest gain in banking resources in the history of the department.

The number, classes and assets of the institutions under the supervision of this department, as compiled from the annual returns of September 30, 1916, and September 29, 1917, respectively, are as follows:

SEPTEMBER 30, 1916.

48 Savings Banks	\$107,784,149	47
46 Trust Companies	} 89,462,322	23
19 Trust Company Branches

38 Loan and Building Associations		
3 Loan Companies	677,670	27
<hr/>		
156 Total	\$204,361,420	43

SEPTEMBER 29, 1917.

In making a comparison of the total resources of savings institutions for the past two years, it is important to bear in mind that the statement of September 30, 1916, includes the returns of 48 Savings Banks, while the statement of September 29, 1917, includes the returns of only 45 Savings Banks. During the past year three savings banks ceased to do business as savings institutions and are now operating under Trust Company charters. The combined resources of these three savings banks on September 30, 1916 amounted to \$1,215,135.15. The total resources of the 45 savings banks now doing business amounted to \$106,569,014.32 on September 30, 1916, as against \$105,872,386.86 on September 29, 1917. It is therefore appar-

ent that the actual decrease in resources of savings banks during the year ending September 29, 1917 amounted to \$696,627.46.

This decrease of a little rising six-tenths of one per cent is readily accounted for by the liberal and patriotic manner in which our citizens responded to the Government's call to invest in Liberty Bonds.

All other classes of institutions under the supervision of this department show a material increase in resources during the year. This is especially true in the case of Trust Companies which have gained three in number and \$15,437,817.92 in resources.

During the past year there has been a voluntary liquidation of four National Banks and their resources have been taken over and their liabilities assumed by Trust Companies. Although there has been this decrease of four in the number of National Banks, the total resources amounted to \$89,325,000 on September 11, 1917, as compared with \$82,674,000 on September 12, 1916. The combined resources of State institutions and of National Banks located in Maine amount to \$307,651,222.38, as compared with resources amounting to \$287,035,420.43 one year ago. This shows a net gain in resources during the year amounting to \$20,615,801.95. In order to determine the exact amount of banking resources in the State, it would be necessary to make some small deduction to cover the sums deposited by the various institutions in other banks within the State. For the purpose of comparison, however, such deductions are not necessary as the duplicated items are carried in the totals of each year.

In considering the foregoing comparative statement it is important to bear in mind that during the past year three savings institutions, the Camden Savings Bank, South Berwick Savings Bank, and the Wiscasset Savings Bank, have merged into Trust Companies, organized for the purpose of taking over these savings institutions. Consequently the resources and liabilities of such merged savings banks are not included in the 1917 side of the above statement, but are included in the 1917 trust com-

pany statement, hereinafter set forth. For the purpose of ascertaining the increase or loss of deposits and reserve during the past year it is important that we should deduct from the statement of September 30, 1916, the amount of the returns of the three institutions that are no longer classified as savings banks.

The following, therefore, is a statement of the deposits, reserve fund and undivided profits of the forty-five institutions classified as Savings Banks on September 29, 1917, as compared with the returns of the same Savings Banks on September 30, 1916:

September 30, 1916.		September 29, 1917.
\$98,411,982 54	Deposits	\$97,578,024 26
5,582,153 24	Reserve funds	5,688,693 17
20,848 83	Special reserve funds	14,496 16
2,529,529 71	Undivided profits	2,564,673 27

It is apparent from the foregoing that on September 29, 1917, the date of the last annual returns, the deposits of all the Savings Banks were only \$833,958.28 less than the total deposits of the same institutions one year previous. This shrinkage of considerably less than one per cent was indeed small in view of the fact that during this period the Federal Government put out the first Liberty Loan of two billion dollars.

It would be unfair to accept the recent abnormal market quotations as a guide in appraising securities held for permanent investment. Neither the quotations of an abnormally high market nor of a depressed market indicate the intrinsic value of the securities, or what will be realized at their maturity. The securities held by savings institutions were not purchased for speculative purposes. Therefore the holders should not be effected by temporary market conditions, except to the extent that it might become necessary to dispose of securities to meet withdrawals. Depressed market conditions are no indication of what would be realized even in the event of involuntary liquidation, as it is not at all probable that the courts would allow a sale of securities under such conditions. The Department, therefore, has not required the banks to charge down investments unless the intrinsic value of the securities has been effected. Provision will be made for permanent depreciation, should there appear to be occasion for such action later.

It is obviously the duty of our banking institutions to do everything possible to keep high grade securities off the present market. The bankers of Maine are entitled to much credit for their generous and effective assistance in floating the recent Government loans, but it is also important that the public be made to realize that it helps the country relatively little if the purchasers pay for their Liberty Bonds by selling other investments or drawing on their accumulated savings accounts. Such savings are already at work and cannot be made available for financing the war without serious injury to business. We cannot emphasize too strongly the wisdom of buying Liberty Bonds on the installment plan and paying for them out of current and future savings.

There are now thirty-eight loan and building associations doing business in this State. While there has been no change in the number of associations during the past year there has been an increase of \$233,960.33 in the total resources and \$225,585.89 in accumulated capital. There has also been a gain of 375 in the number of shareholders and 3,057 in the number of shares outstanding.

"BLUE SKY LAW".

At the present time there are 188 dealers and 223 salesmen or agents licensed under the provisions of this Act. The dealer in securities pays a registration fee of twenty-five dollars and five dollars for the license of each salesman or agent. The annual renewal fee for dealers or salesmen is five dollars. During the past year these fees amounted to \$3,042. The statutes provide that such fees shall be paid over to the State Treasurer, and no appropriation was made by the last Legislature for the enforcement of the provisions of this Act. The purpose of this Act was to prevent the sale of worthless securities

to that class of investors who are so often the victims of unscrupulous promoters dealing in "wild cat" schemes. The sale of such securities often means a loss not only to the investor, but also to the banking institutions which might otherwise receive such funds on deposit.

Funds should be available for more thorough investigation and to give greater publicity as to the nature of the dealer's license. In the absence of such publicity, the uninformed investor easily may be led to believe that the Banking Department, in issuing a dealer's license, thereby approves of the securities handled by such dealer. Such is far from being the case. The Commissioner cannot pass upon the desirability of such securities for investment purposes. He passes upon the good repute of the dealer and decides whether all pertinent facts have been disclosed, or if fraudulent and misleading statements have been made. In the latter event the Commissioner may prohibit the sale of such securities or revoke the dealer's license.

In placing promotors and dealers in speculative securities under the supervision of the Banking Department, the "Blue Sky Law" has given them prestige that they have not previously enjoyed. But since they have been placed under the Banking Department, it would seem imperative that they should receive most careful supervision, and that at least a part of the licensé fees received under this Act should be made available for the following purposes:—

- (1) For the more thorough investigation of applications for registration.
- (2) To enable the Department to investigate the financial statements, circulars and advertisements of licensed dealers as often and in all such cases as may seem advisable. (The statute provides for such an examination in order that the Department may ascertain whether the offerings are honestly made and disclose pertinent facts sufficient to enable purchasers to form an opinion as to the nature and value of the securities offered.)
- (3) To give publicity to the provisions of the law, and provide for the circulation of printed lists of licensed dealers among those who are likely to come in contact with unlicensed dealers.

VERIFICATION OF SAVINGS DEPOSITS.

During the past year the Banking Department has verified the savings accounts of eighteen Trust Companies and Branches, and of eight Savings Banks. The Department actually verified 23,209 of the total 69,523 savings accounts of the banks visited. The average percentage of accounts verified was thirty-three and one-third per cent, which is three and one-half per cent greater than that of the preceding year. If funds permitted, the work could be made much more effective by following up the accounts of depositors who failed to make any returns to the department.

LOAN AGENCIES AND INDUSTRIAL BANKS.

The 1917 Legislature passed a much needed Act regulating the business of making small loans. The Act provides that no person, co-partnership or corporation shall engage in the business of making any loan of money, credit, goods or choses in action, in the amount or to the value of three hundred dollars, or less, whether secured or unsecured, and charge or receive a greater rate of interest than twelve per cent per annum, without first obtaining a license from the Bank Commissioner. The Act applies to pawn brokers as well as small loan agents.

Applicants for a license are required to pay an annual license fee of fifty dollars and file a bond in the sum of one thousand dollars, with one or more sureties to be approved by the Commissioner. Upon receipt of the required fee and a satisfactory bond, the Commissioner is required to issue a loan agency license. He may, however, in his discretion, upon notice to the licensee and opportunity to be heard, revoke such license if satisfied that the licensee has violated any provision of this Act or any existing statute.

Such licensees are authorized to make loans of three hundred dollars or less and charge interest thereon at a rate not to exceed three and one-half per centum per month, but shall make no other charge for commission or expenses except lawful recording fees. While at first thought such a rate may seem excessive it should be borne in mind that the loans are small and usually for a short period of time.

Eighteen licenses have been issued since the Act went into effect July 7, 1917. The statute provides for the appointment of a loan agency examiner, whose salary and traveling expenses shall be paid out of the Loan Agency fees received by the Department. As the fees collected have been insufficient to provide for such an examiner, the work has thus far been carried along in connection with the regular work of the Department.

The last legislature also passed an Act providing for the establishment of "Industrial Banks." While these banks are in no sense philanthropic institutions, they are intended to accommodate the small but worthy borrower who has no banking credit or whose needs are not sufficiently large to interest the average banker. The Department has not yet received any application for authority to organize under this Act.

RECEIVERSHIPS.

Appended hereto you will find copies of the reports of Receivers having charge of banks now in process of liquidation. Also final report of the Receivers of the Saco Savings Bank, showing a balance of unclaimed deposits amounting to \$9,878.44, which has been paid over to the State Treasury. It is pleasing to record at this time that there have been no failures during the past year.

In view of the recent Council order requesting that all departments, owing to unusual conditions, abridge their reports in so far as practicable, I would suggest to your Excellency that it would be feasible to omit the detailed lists of certified securities and Savings Bank investments from the printed report. A complete list of such securities is a matter of record at this office and accessible to all interested parties.

Respectfully submitted,

FRANK L. PALMER,

Bank Commissioner.

Soon after our report of November 20, 1916, the balance of the assets in our hands were disposed of and application was made to the court for permission to make payment of dividend to depositors.

By decree of the court April 12, 1917, the receivers were ordered to pay a final dividend of 32 3-4 per cent making four dividends with a total of 99 5-12 per cent as follows: No. 1, 25 per cent, No. 2, 25 per cent, No. 3, 16 2-3 per cent, and No. 4, 32 3-4 per cent.

A further report was made to the Court that the amount of deposits uncalled for was \$9,878.44 and on September 6, 1917

the Court ordered the payment of \$9,878.44 to be paid to the State Treasurer with a statement giving the names of such depositors and amount due each depositor in accordance with Section 55, Chapter 52, of the Revised Statutes.

This amount has been paid to the State Treasurer and final report so made to the Court and by decree of the Court October 16, 1917, the final account was approved and the receivers are no further charged with the possession of any assets of the bank.

Very truly yours,
