STATE OF MAINE.

AUGUSTA, MAINE, December 1, 1919.

*To the Honorable Carl E. Milliken, Governor and the Executive Council of the State of Maine:*

In accordance with the provisions of section 60 of chapter 52 of the Revised Statutes of Maine, I herewith submit the sixty-third annual report of the Banking Department for the year ending November 30, 1919.

At the close of business September 27, 1919, there were one hundred and thirty-nine banking institutions and twenty-five Trust Company Branches and Agencies, having combined resources amounting to \$241,059,944.97, under the supervision of this Department. The resources of the foregoing institutions have increased \$16,944,410.34 during the past year. This is approximately three times the growth of the preceding year and is, with one exception, the greatest gain in banking resources in the history of the Banking Department. There have been no bank failures during the year.

The number, classes and resources of the institutions under the supervision of this Department as compiled from the annual returns of September 28, 1918, and September 27, 1919, respectively, are as follows:

SEPTEMBER 28, 1918.

45	Savings Banks .....	\$104,097,100 77
52	Trust Companies .....	} 111,854,613 75

SEPTEMBER 27, 1919.

44	Savings Banks .....	\$107,463,361	59

1	Industrial Bank .....	134,595	27
<hr/>			
164	Total .....	\$241,059,944	97

You will note from the foregoing summary that there has been a very material growth in the resources of all the foregoing classes of banking institutions. During the year the Fairfield Savings Bank was merged in forming the Fairfield Savings and Trust Company, thereby decreasing the total number of Savings Banks to forty-four and resulting in an increase of one in the number of Trust Companies.

Since the filing of the returns of September 27, 1919, the York County Trust Company was organized to take over the assets and assume the liabilities of the York County National Bank, thereby making the present total of fifty-four Trust Companies.

The following table shows the increase in resources of the Savings Banks, Trust Companies, and Loan and Building Associations during the past twenty years:

This shows a net gain in banking resources during the year amounting to approximately \$29,400,000 as compared with a gain of approximately \$4,360,000 during the preceding year.

## SAVINGS BANKS.

On September 27th, 1919, there were forty-four Savings Banks doing business in Maine, with total resources amounting to \$107,463,361.59, as compared with forty-five institutions having resources amounting to \$104,097,100.77 one year previous. During the year there has been an increase of \$3,550,576.07 in the total amount of Savings Bank deposits. In this connection it should be borne in mind that the Fairfield Savings Bank changed to a Trust Company during the year, and consequently its deposits are not included in the 1919 Savings Bank summary. As the Fairfield Savings Bank had deposits amounting to \$685,156.95 at the time the 1918 summary was made, said sum should be deducted from the total 1918 deposits for the purpose of determining the actual increase in amount of deposits of the existing forty-four Savings Banks. Taking into consideration this fact, the actual increase in deposits of the forty-four Savings Banks doing business on September 27, 1919 amounted to \$4,235,733.02.

The foregoing comparative statement shows an increase of 1,903 in number of depositors, but as the 1918 statement included 1,958 depositors of the Fairfield Savings Bank which are now included in the Trust Company summary, the actual increase in the number of depositors of the forty-four Savings Banks doing business on September 27, 1919 amounted to 3,861. From the foregoing it will be seen that the mutual Savings Banks have made a very substantial increase not only in amount of deposits but also in the total number of depositors.

## DIVIDENDS.

The following table gives the rate and amount of dividends paid by the Savings Banks during the year ending September 27, 1919, and a comparison with those of the previous year:

1918.		RATE OF DIVIDENDS.	1919.

		3.89% average rate, 1918.		
		3.94% average rate, 1919.		

The dividend rates paid during the past ten years are shown by the following table:

	1910.	1911.	1912.	1913.	1914.	1915.	1916.	1917.	1918.	1919.

Average rate.....	3.81	3.92	3.89	3.91	3.91	3.89	3.82	3.78	3.89	3.94

During the past year the average rate of dividends paid has increased from 3.89% to 3.94%, due to the fact that several Savings Banks increased their rate from 3½% to 4%. The average rate of dividends now paid by Maine Savings Banks is higher than at any period since 1893. This increase in average rate of dividends is undoubtedly due to the general trend toward higher interest rates. While we appreciate the importance of maintaining a satisfactory rate of dividend in order to retain and increase the deposits, nevertheless we must not overlook the fact that the conservative investment of the depositors' funds and adequate provision against future losses are of first importance. We feel that an attempt on the part of any banking institutions to pay dividends in excess of four per cent would be unwise and detrimental to the general banking situation. The individual savings institution is but a part of one system, and the future prosperity of each institution depends in a very large measure upon the future of that system.

The last legislature very properly and wisely reduced the tax burden of Savings Banks, thereby placing the Maine tax rate more on a par with the rate existing in other states. Such legislation, however, was intended to enable the banks to charge down their securities and maintain their present rate of dividend rather than to make possible any further increase in dividend rates.

## INVESTMENTS.

The following table shows the several classes of investments held by Savings Banks, the amount of each class and its percentage to the whole, and a comparison with the same classes of one year and ten years previous:

The outstanding features of the foregoing comparative statement is the remarkable increase in amount of United States bonds, and the decrease in amount of Municipal bonds held by the banks. The Savings Institutions of this State now have 17.42% of their total resources invested in government bonds, having increased their investments in government obligations nearly eleven million dollars during the past year. This great increase in the amount of United States bonds held by Savings Banks is the result of very liberal Liberty Loan subscriptions on the part of the banks and the exchange of Municipals for Government bonds. The Savings Banks now have 10.11% of their resources invested in Municipals as compared with 17.23% one year ago. The exchanging of Municipals for United States bonds has resulted in a very material increase in income and a considerable reduction in the amount

of tax paid by Savings Banks. Approximately 50 per cent of the total Savings Bank resources are investments in Maine, including cash on hand and on deposit. Of the remaining resources, 17.42 per cent are Government securities and 33.39 per cent represents all other investments outside of Maine.

#### SAVINGS BANK LIQUIDATIONS.

On March 5, 1919, the Trustees of the Fairfield Savings Bank and the Bank Commissioner petitioned the Supreme Judicial Court praying for authority to liquidate the affairs of said institution. The purpose of this action was to consolidate the affairs of the Fairfield Savings Bank and the National Bank of Fairfield by forming the Fairfield Savings and Trust Company to take over the assets and assume the liabilities of both institutions. It was felt that the new institution could better serve the needs of the community than the two separate banks. On May 7, 1919 the Trustees of the Fairfield Savings Bank transferred its assets to the Fairfield Savings and Trust Company and said Trust Company assumed all liabilities due from the Savings Bank to its depositors or to any other persons, firms or corporations. On May 10, 1919, the Justice of the Supreme Judicial Court issued a decree approving said action and dissolving the Fairfield Savings Bank.

In view of local conditions it seemed inexpedient to continue the Tremont Savings Bank of Tremont, Maine, as a separate banking institution. On October 28, 1919 the Trustees of said Bank joined with the Bank Commissioner in presenting a petition to the Justice of the Supreme Judicial Court praying for authority to liquidate the affairs of the Savings Bank. The Justice of the Supreme Judicial Court issued his preliminary decree on November 26, 1919, and arrangements have been made with the Union Trust Company of Ellsworth, subject to the approval of the Court, whereby said Trust Company will take over the assets of the Tremont Savings Bank and assume all its liabilities. The said Trust Company is establishing an agency at Tremont, which will afford commercial banking accommodations as well as facilities for savings depositors.

### "BLUE SKY LAW."

During the present year the Department has registered 175 Dealers in Securities and 300 Salesmen. The fees received from such registrations amounted to \$3,720.

In the future this branch of the Banking Department will be self-supporting as a result of amendments of the last legislature, increasing the registration fees and making them available for the enforcement of the Act. Further amendments were also made which will in the future enable the Department to more effectively check the sale of fraudulent and worthless securities. During the present year four salesmen were convicted of selling securities in violation of the statutes and several cases are still pending in court.

### SMALL LOAN AGENCIES.

There are nineteen small loan agencies operating under the provisions of chapter 298 of the Public Laws of 1917, as compared with twenty-six agencies doing business during the

preceding year. Several agencies found it unprofitable to operate under the strict provisions of this Act and ceased doing business last year. All the existing agencies are complying strictly with the provisions of the Statute and the regulations of the Banking Department.

Accompanying this report you will find statistics and reports of annual examinations of the institutions under the supervision of this Department, and also copies of the reports of the receivers having charge of the banks now in process of liquidation.

Respectfully submitted,

FRANK L. PALMER,

*Bank Commissioner.*
