SIR:—Following is a report of the Division of Vital Statistics which I have to submit for the year ending December 31, 1921. This includes also the thirtieth annual report upon the Births, Marriages, Divorces and Deaths for the year ending December 31, 1921.

REPORT OF DIVISION OF VITAL STATISTICS

ROUTINE OFFICE WORK

The shipments of report transcripts to the Census Bureau were as follows:

Births, 17,799

Deaths, 10,672

Seven thousand, nine hundred and thirty-four letters and abstracts have been sent out during 1921. Four thousand, eight hundred and eighty-seven received. Dunning letters to delinquent clerks, frank letters to doctors, undertakers and ministers for more complete records, and a large number to parents to secure the Christian names of children whose birth record came in before the child was named.

The number of requests for information and copies of records of births, marriages, divorces and deaths increases each year.

Requests: From State School for Girls, Hallowell; New England Home for Little Wanderers, in Waterville, and throughout New England; Children's Home Society; Red Cross; State Labor Department; State Charities and Corrections; also many other charitable organizations in other States. We have sent records in answer to requests from individuals in nearly every State, also throughout Canada and England.

We have many calls from Insurance Companies, people making Sanitary Surveys, also Societies of Child Hygiene and other Public Health workers, for special birth and death tabulations.

Requests from Librarians of other States for our yearly report are referred to the State Librarian. The first of every month during 1921 we have forwarded to Congressmen, Carroll L. Beedy, W. H. White, Jr., and John A. Peters, the names and addresses of all mothers in their districts giving birth to children during the preceding month, that they might receive the Child Welfare Literature, published by the U. S. Government.

The work of copying the old records on the form now used, is now completed. Work on the divorce and marriage index and filing records has been carried on when time could be spared from the routine work. Each year we have over thirty-five thousand birth, marriage, and death records to sort and put into their permanent file. We receive reports from five hundred and twenty cities, towns, and plantations in Maine, which records have to be corrected, sorted and filed by this department monthly. This work could be greatly facilitated by prompt and properly filled out records from City and Town Clerks.
