STATE ASSESSORS' OFFICE,

AUGUSTA, MAINE, December 1, 1924.

*To His Excellency, Percival P. Baxter, Governor, and the Honorable Executive Council:*

GENTLEMEN:

In accordance with the statutes of the State, we herewith submit for your consideration the Thirty-Fourth Annual Report of the Board of State Assessors, including tabulations of statistics returned to us by all municipal boards of assessors throughout the State, as made by them on April first, 1924, and lists of all corporations on which taxes have been assessed during the present year.

The local valuation of the cities, towns and plantations on April first, 1924, as made and returned by the local boards of assessors is \$630,056,858, representing an increase of \$16,285,821, as compared with similar returns made on April first 1923.

The following comparison is given of the counties in 1923 and 1924, exclusive of the unorganized townships:

The Board of State Assessors is a board of equalization, whose duty it is to equalize the state and county taxes among the several towns and unorganized townships in the state. By law, we are required to report to the Governor and Council annually; this report to contain a summary of the work for the year and must include a tabular statement of all statistics derived from the returns of the local assessors, with schedules of all corporations on which state taxes were assessed during the year.

In obtaining the information necessary to enable us to make an equitable distribution of the state and county taxes for the years 1925 and 1926, a careful investigation and study of conditions which affect property values has been made in nearly all taxing jurisdictions in the state. Absolute equality in the distribution of the tax burden is a dream which we never expect to see fully realized, but by a careful comparison of present conditions with those of the past, we are convinced that marked progress is being made. In accordance with the provisions of law, we have met and conferred with nearly all boards of assessors in the state, and from the information obtained from them and from a personal conference with tax payers and in an examination and comparison of property in certain cities and towns with that in other localities, we are assured that marked advance has been made in the attempt to equally distribute the tax burden.

We have been gratified to find that taxation officials and tax payers are meeting and trying to solve the new and serious problems that are continually arising, with determination to succeed and courage that is sometimes surprising. It convinces us that Maine people as a whole are loyal to Maine; that they believe in its future and in its possibilities. Present conditions relative to the ever increasing burden of taxation, and also regarding business conditions, especially in the rural sections, are not as encouraging as could be desired, yet the people as a whole and individually are meeting these conditions with a determination to accept their full share of these responsibilities. We have received the hearty cooperation and support of nearly all boards of local assessors. These boards are, as a rule, composed of men

well equipped for their work, who are devoting more time to the administering of public affairs than they can afford, at the salaries they are receiving.

The position of an assessor should be dignified by a sufficient tenure to justify him in giving full and complete service. It cannot be expected that an assessor who is underpaid and who will probably serve only one year will give the subject of valuations and methods, the time and attention necessary to enable him to do the best work. Complaints are sometimes made that some assessors are lax in their methods and careless and hurried in their work. We are sometimes insistent in demanding a dollar's worth of service for every dollar paid, forgetting, perhaps, that the assessor is justified in making the same demand for each dollar's worth of service given.

Maine has an area a little larger than all the rest of New England. We have about eight hundred thousand people in the state and comparatively little wealth. Since 1916, the valuation of the state has increased nearly two hundred million dollars, and during the same period the average tax rate has increased about forty per cent. After carefully going over and summarizing such data as we have, it seems evident that largely increased appropriations are to be asked from the state for the years 1925 and 1926, and if granted will require increased taxation. Either new sources of revenue must be found, or the property already taxed must bear the added burden.

As indicated above, it will be seen that the expenses of state and municipal governments have increased enormously in the past few years, and while we recognize the fact that the people of Maine want and expect to pay for those things which make for better conditions in Maine, still we are convinced that the tax payers in the state are beginning to realize that we must slow up in granting appropriations that will place a grievous burden upon those people least able to bear it. It is our opinion that we should adopt the "pay as you go" principle, and never in any instance (except in cases of great emergency) should we go beyond our ability to meet our obligations promptly in administering the affairs of state and municipal governments. No

government can exist without sufficient revenue to meet its legitimate expenses, and no government can continue to hold the confidence, respect and loyalty of its citizens unless the expense of its maintenance is divided among all its people on a fair and just basis and so administered that they are able to meet their obligations promptly and easily.

Our general property tax law was framed in accordance with Constitutional provisions, more than one hundred years ago. Many changes have been made from time to time, to meet changed conditions, and it would seem apparent that further changes are called for in order to be able to keep abreast of the progress and changed conditions of the present time. We, therefore, make the following recommendations to the Legislature of 1925, and respectfully urge their adoption.

That the Legislature consider the classification of intangible property for purposes of taxation.

The taxation of pulp wood, cord wood, logs and similar property, in the towns and organized plantations where they are located on April first.

The taxation of savings deposits in national banks on a basis similar to taxation of deposits in savings banks.

In the death of Hon. Wilbur F. Dresser, the state loses a man, whose knowledge of property values and whose unswerving integrity in endeavoring to equitably adjust and distribute the ever increasing tax burden made him invaluable to the department. In placing values upon property for purposes of taxation, he was never influenced by sentiment or locality. Those of us who were associated with him in administering the affairs of this department learned to appreciate the sturdy, stalwart characteristics of the man. We always found him a safe counsellor and a man who gave careful thought and study to the many and varied problems that confronted this Board while he was a member. He ever had an ideal in view and with honesty of purpose went forward toward its attainment. Mr. Dresser was appointed by Governor Curtis in 1915, and was in continuous service as a member of the Board until his death, which occurred on January 5th, 1924.
