Marion A. Kilby, Clerk and Stenographer.....	Augusta, Maine
Dollina Hashey, Stenographer at Office of Resident Auditor,	Orono, Maine

# STATE OF MAINE

Office of State Auditor,

January 18, 1927.

*To the Honorable Senate and House of Representatives of the Eighty-third Legislature:*

The law requires that on or before the first day of February the State Auditor shall render to the Legislature a report on the finances of the State and in pursuance of the statute I herewith present my report.

## STATE ACCOUNTING

There has been much discussion in the past two years relative to a simpler and more concise manner of reporting the State's financial transactions. There has been some criticism of the great amount of detail contained in the reports of both the Treasurer of State and the State Auditor. However, until changes are made in our statutes these reports will probably continue to be published in nearly their present form. The Treasurer is required in the Constitution to publish at the commencement of the session of the Legislature "a regular statement and account of the receipts and expenditures of all public money." The State Auditor is required to submit to the Legislature a report "showing a full and accurate statement of the financial condition of the state for each of the two preceding years. . . . Said report shall contain a statement of the receipts by and payments from the state treasury and a statement of the receipts by, appropriations for, and expenditures of each department, institution, commission and board of trustees, for each of the two preceding years; the latter statement shall be so made that it will show a separate statement in detail of each department, institution, commission and board of trustees, for each of said years. All salaries and other general charges and appropriations shall likewise appear in said report; no expenditure exceeding five hundred dollars shall, if it is composed of separate items, be included under one indefinite head. Said report shall also contain a particular statement of all transactions affecting any funds belonging to or held in trust by the state, including any and all new investments which may have been made of any portion of said funds during each of the two preceding years, and of the disposition and expenditure of any and all funds applicable to educational purposes."

It will be observed that this requires a detailed report. There has been a constant effort to reduce the size of the report. The last one printed contained 568 pages, while the first report, published in 1909,

contained 1231 pages. Perhaps the attention of the Legislature might well be directed to a consideration of a change in both the Treasurer's and Auditor's reports. It might be thought well to have the Treasurer's report deal more with the cash receipts, giving in more detail the sources of the receipts, while the Auditor's report could state the detail of expenditures and not itemize the receipts in detail. It is apparent that there is at present considerable duplication, with the Auditor being required by law to keep the appropriations separately by years, while there is no such provision governing the Treasurer.

In January, 1926, I was directed by the Governor and Council to prepare a digest of the financial laws and suggest changes in same and will soon make my report. Such material in that report as may be considered worth while will probably be made available for your consideration a little later in the session.

For the year ended June 30, 1926, I am presenting a different form of balance sheet. Investments made by the State from the Lands Reserved Fund have not before been listed as assets in previous balance sheets.

#### INVESTMENT OF TRUST FUNDS

Following out the provisions of Chapter 303, Public Laws of 1917, relative to investing the Lands Reserved Fund, I submit the following to show the total investments from this fund on June 30, 1926:

Invested in War Bonds, issue of 1917.....	\$20,000.00
First mortgage farm loans.....	144,341.00
Invested in State Highway Bonds, issue of 1925	342,000.00
	<hr/>
Total .....	\$506,341.00

The total of this fund on June 30, 1926, was \$658,640.04, thus leaving \$152,299.04 remaining to be invested, and available for farm loans.

I have asked the Treasurer of State to invest the following amounts, as required by Chapter 222, Public Laws of 1923:

Balance of State School Fund carried to Per- manent School Fund since July 1, 1923.....	\$25,205.79
Passamaquoddy Indian Fund, accrued since July 1, 1923 .....	11,228.30
	<hr/>
Total .....	\$36,434.09

If it is considered, however, that the Passamaquoddy Indians should be charged with the amount required to care for them in addition to the annual interest on their fund, which interest we have regularly paid

to them, the account would be on the other side of the ledger and the tribe would be owing the State a large amount in addition. I ask that legislation be passed defining the position of the State to both the Passamaquoddy and Penobscot Indians. We must, of course, carefully follow out the treaty stipulations entered into by Massachusetts with these Indians and to which we bound ourselves in the articles of separation in 1820, but I think there can be no doubt that this State, certainly in recent years, has far more than fulfilled all its obligations in these matters. The total amount of these funds as now carried on our books are for the Passamaquoddy Indian Fund, \$124,670.07, and for the Penobscot Indian Fund, \$88,092.44.

A recommendation in my last report that there be legislation relative to the Permanent School Fund was unheeded. This fund as now carried on our books is \$547,527.86.

As shown in another place in this report the three funds above set out are considered as funded, the State paying interest on same at the rate of six per cent. In case of the two Indian funds the State is making a contribution for the support of these tribes of approximately \$40,000.00 annually, in addition to the interest on their funds.

The trustees of the Maine State Sanatorium Association have sent to the Treasurer of State \$2,874.72, the same being the balance of funds in their hands at the time the State took over what is now the Western Maine Sanatorium in 1916. The Governor and Council have passed an order requiring the Treasurer of State to invest this as trust funds are required to be invested under the provisions of Chapter 222, Public Laws of 1923.

#### GASOLINE TAX

The last Legislature amended the gasoline tax law, increasing the tax from one cent to three cents a gallon. As this is a sales tax and is levied on gasoline "sold or used," this office took the ground that all stocks in the hands of dealers on July 11, 1925, the date on which the amended act took effect, were subject to the additional tax of two cents a gallon. In only two instances has this ruling been questioned and we have collected and made available for the construction of our highways \$16,653.89 on such inventories on hand when the amended law became effective.

Having reason to believe that this law was being violated, this office asked the Attorney General for assistance and Mr. Louis Lachance, Jr., a special agent of that department, was assigned to this office and conducted an investigation which resulted in uncovering amounts due on gasoline taxes from some eighteen firms and individuals in this State aggregating \$28,869.44. In all these cases the parties were purchasing gasoline from out of State concerns which did not hold distributors' certificates under our law and they were failing to make returns to this office as required by law. The penalty for failure to do so subjects such

person to a fine not exceeding \$2,000.00 and in all cases these have been referred to the various county attorneys. The greater part of the amount due has now been collected. There has also been collected from these same firms and individuals \$44,144.59 since the date on which they have taken out distributors' certificates, under which monthly returns are now being made to this office. It is safe to say that the investigation so instituted, together with the inventory tax has resulted, or will soon result, in the collection of some \$90,000.00, which otherwise the State would not have received.

#### DIVISION OF MUNICIPAL ACCOUNTS

This branch of the office has for the past two years continued its service to the cities and towns of the State, having to date installed the new uniform system provided for by Chapter 161, Public Laws 1923, in one city and eighteen towns. Nearly all of the towns which have installed the system have asked for an annual examination of their accounts, which has in all cases been promptly given. We have endeavored to assist local officers in the proper conduct of their offices in all cases where our assistance has been sought and have freely given advice in an endeavor to promote efficiency in the conduct of municipal affairs.

With the constant change of public officers in our towns and cities continual supervision is becoming more necessary as the uniform system is more widely adopted. We are willing and anxious to extend the uniform system as rapidly as possible, believing that by uniform accounting methods only can comparisons be made, and if comparisons are made a spirit of healthy emulation will surely ensue with a resulting saving in money and more efficiency in administration. There is no surer way to reduce taxes than to keep taxes down.

Beginning May 1, 1926, we have, at the request of the Mayor and City Council of Biddeford, audited the accounts of that city for a period of five years and have installed there the uniform system of accounting. As the audit proceeded it became evident that grave irregularities on the part of some of the former city officials had occurred. As a result several indictments have been brought and four convictions have been made by the County Attorney, Perley H. Ford. A number of other cases, among them four civil suits for the recovery of money, are still pending. Great credit is due Mr. Ancel W. Reeves, of this office, for the ability he has shown in conducting this audit.

I plan to submit to you as a separate publication statistics relative to the financial affairs of cities and towns in which the uniform system has been installed. Section 8, of Chapter 161, Public Laws 1923, authorizes the publication of such statistics.

## CLAIM AGAINST THE UNITED STATES

I request that if it is deemed of sufficient importance that an act be passed ratifying my action in taking from the files of this office the original vouchers on which certain payments were made during the World War, such original vouchers being forwarded to Washington where they are now on file in the General Accounting Office of the War Department in support of the State's war claim against the United States. This claim originally amounted to \$22,235.73. The Comptroller General, J. R. McCarll, disallowed it and relief was then asked from Congress through a special bill introduced by Mr. Hale, one of our United States Senators. This bill is still pending before the Senate Committee on Claims and as revised amounts to \$12,763.43. It includes amounts paid out by the State of Maine for the following:

Services and expenses of special constables in enforcing the Selective Service Act, 1917-1918..	\$3,770.74
Auxiliary water supply at Camp Keyes, Augusta	1,482.42
Medical and other supplies for the 56th Pioneer Regiment .....	7,510.27
	<hr/>
Total .....	\$12,763.43

It is believed that this act may be passed at the present short session of Congress. The claim had no standing before the War Department until the original vouchers were filed in Washington and I took the responsibility of taking them from our files and transmitted them to the Adjutant General, who forwarded them to Washington.

## SOLDIERS' BONUS BOARD

A member of the Soldiers' Bonus Board I submit the following information, furnished by James W. Hanson, the Adjutant General:

Total number of soldiers' bonus claims paid to June 30, 1926 .....	32,221
Total number of soldiers credited to Maine by the War Department .....	32,087
(A considerable number of Maine men entered the service in other states.)	

## Claims denied:

Non-residents .....	573
Not honorably discharged .....	38
Reported for duty after Armistice.....	27
Serving in Allied Armies.....	8
Conscientious objectors, aliens, etc.....	10
Applications never completed .....	28

Civilian employees, bonus paid in other  
states, etc., etc. .... 123

807

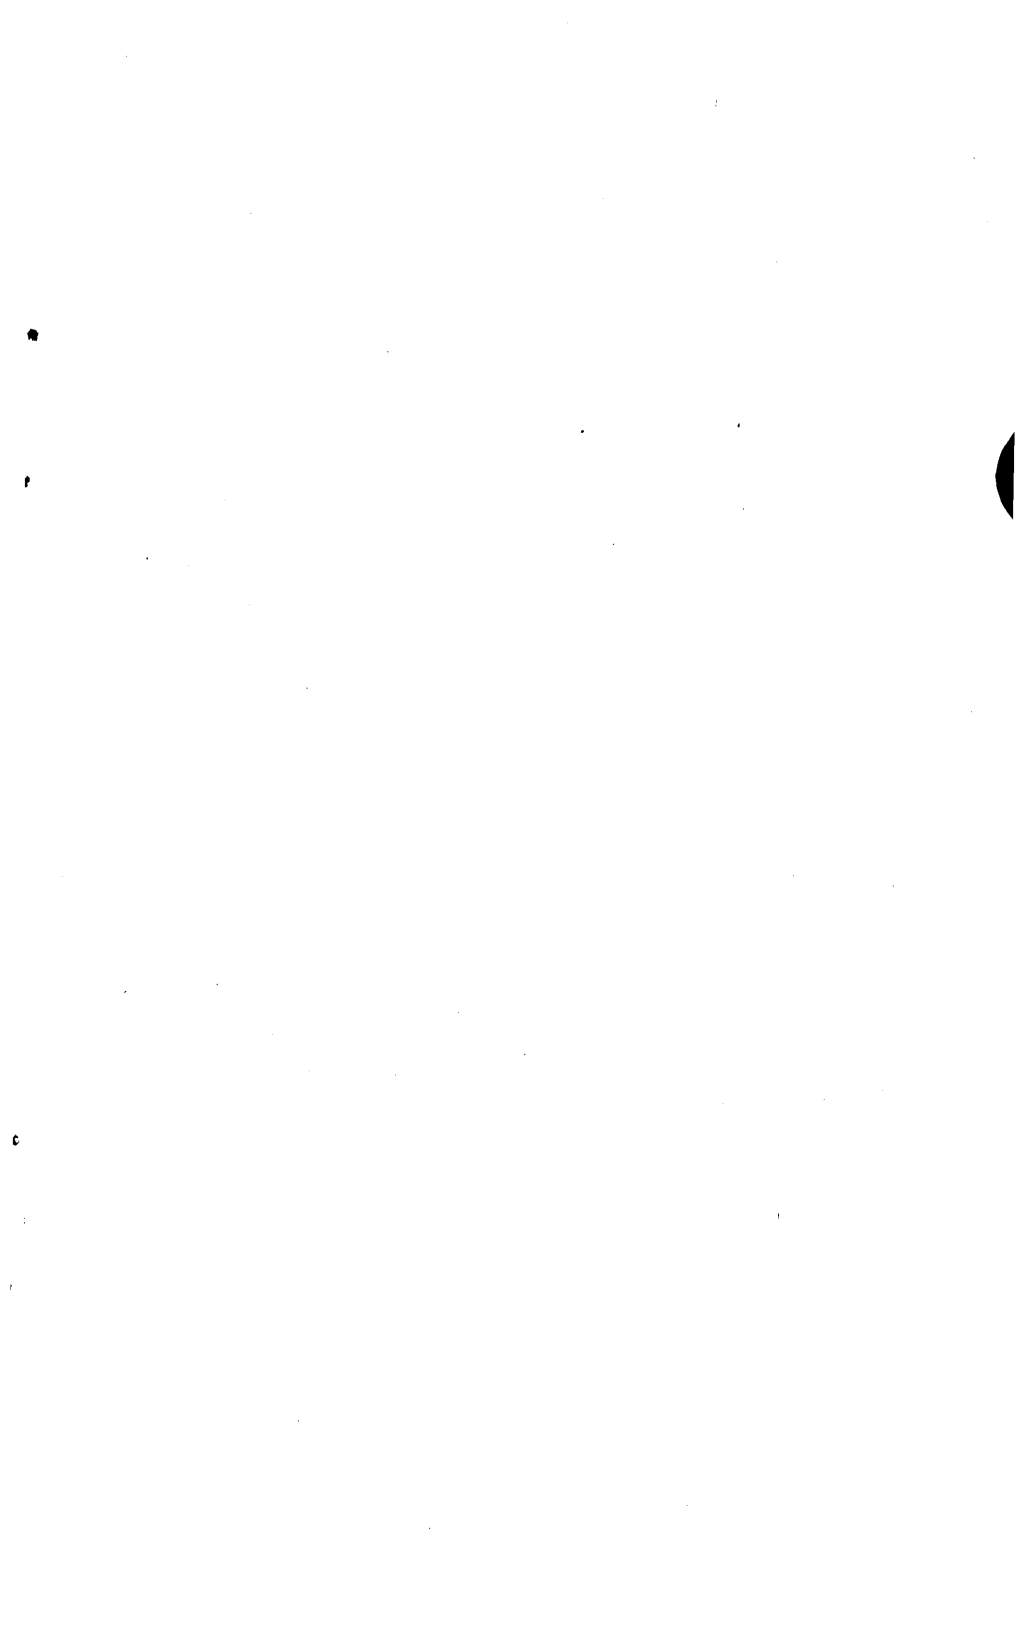

## TRAFFIC BUREAU

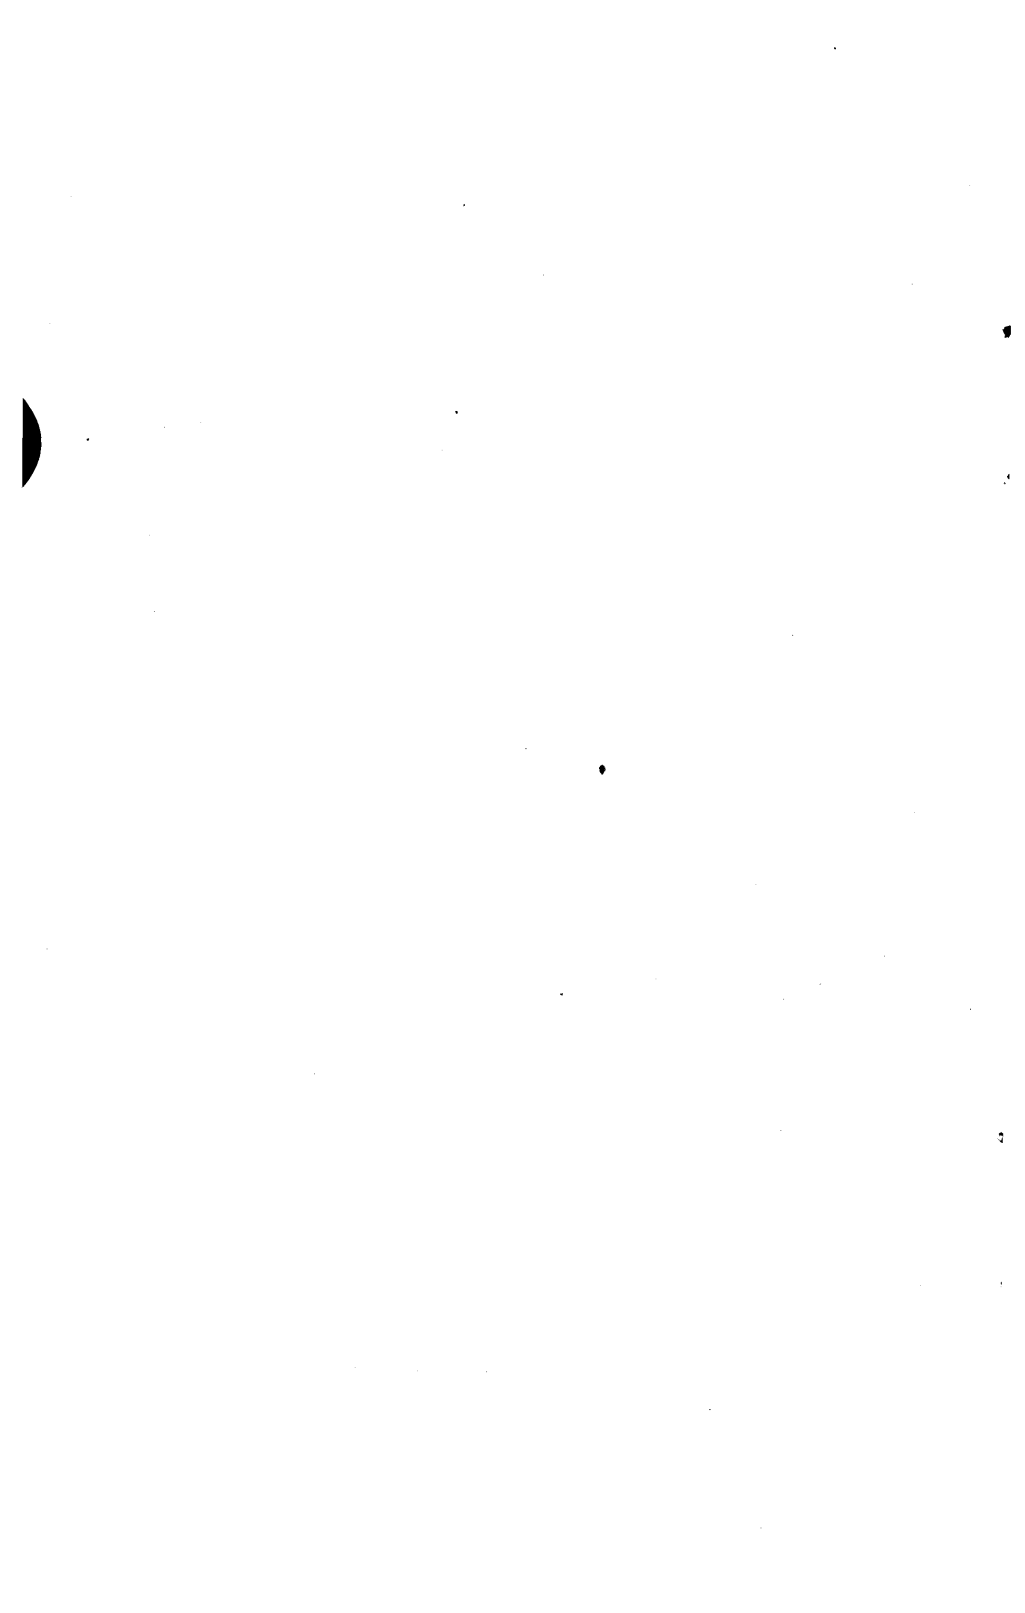

The continued co-operation of this office and the Public Utilities Commission in the checking of freight bills and the adjustment of rates has resulted in a saving of freight charges to the State in the two years ended June 30, 1926, of approximately \$7,600.00.

## STATE PIER AT PORTLAND

The actual income of the State Pier for the year ended June 30, 1926, was \$157,858.66. Of this amount the State of Maine furnished \$45,880.00 for interest on bonds; \$11,225.80 for refunds provided by three resolves of the last Legislature, and \$864.43 for compensation for injuries to employees of the State Pier. In addition to this the State paid \$1,860.55 for additions to the Pier from the appropriation provided in 1923 for rebuilding steamship sheds, making a total of \$59,830.78 as the net cost of the State Pier to the State for the last fiscal year. The net earnings of the Pier from operations amounted to \$95,260.37, which together with the increase in the inventory and plant, brings the total to \$157,858.66. The net operating profit of the State Pier, exclusive of the amount paid by the State was \$8,145.43. The net increase in the surplus from July 1, 1924 to June 30, 1926, was \$13,754.00.

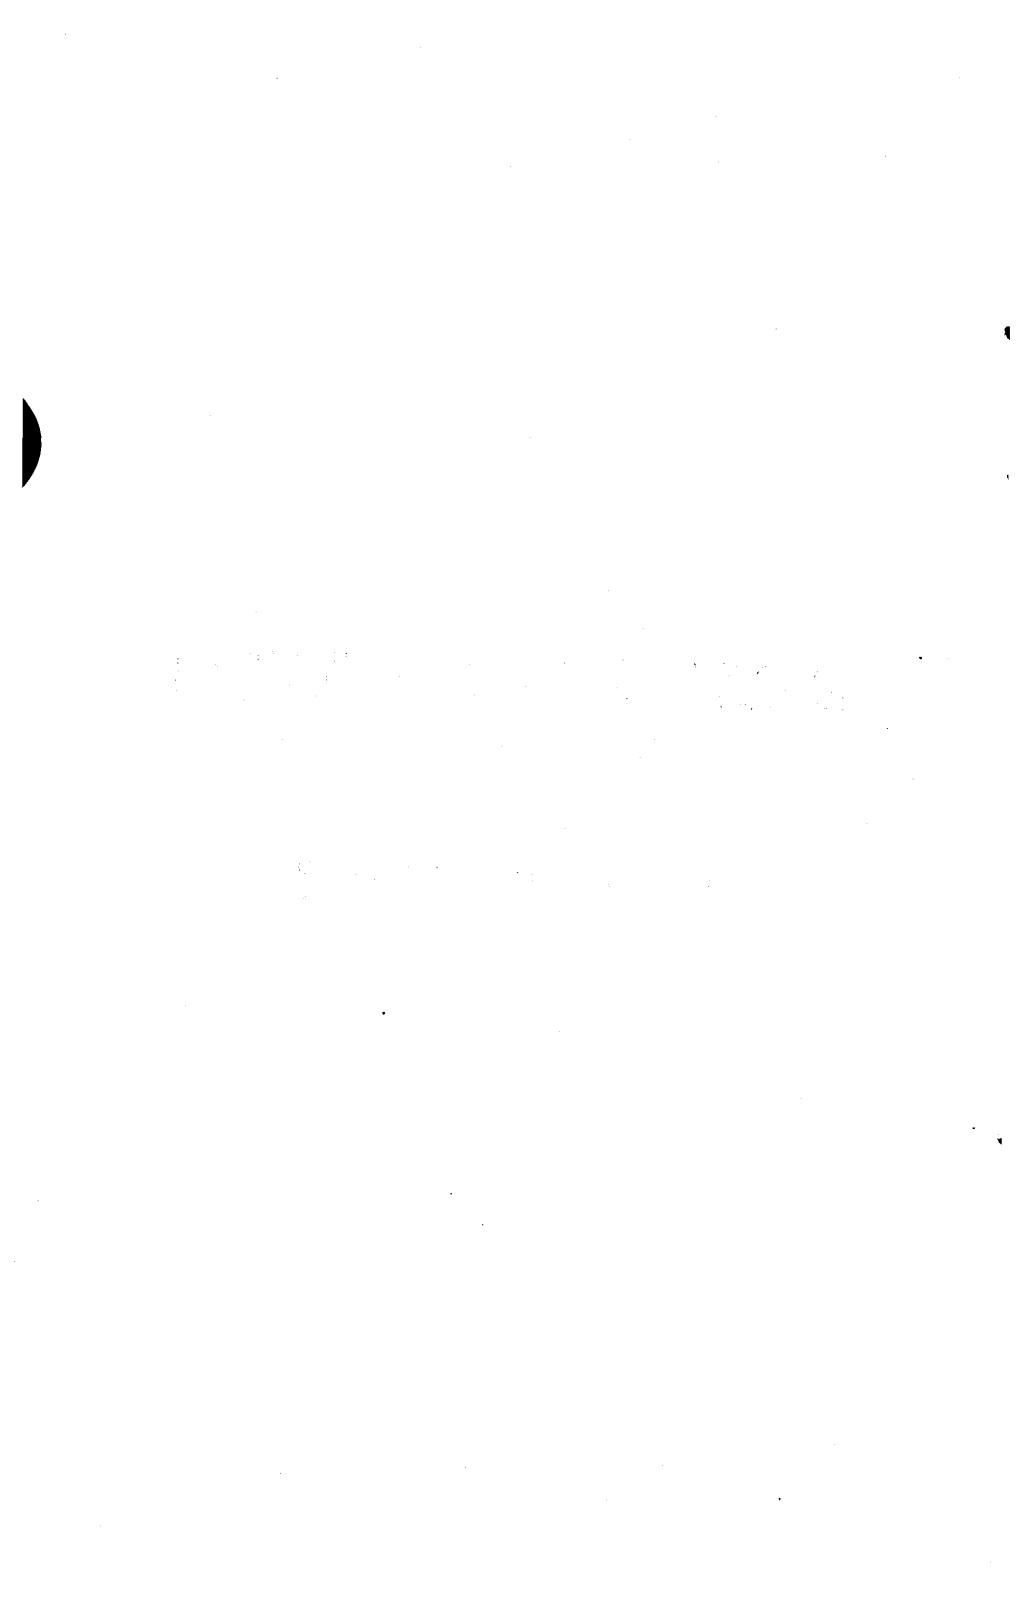

ELBERT D. HAYFORD,  
*State Auditor.*

STATE TAX BY TOWNS AND TOTAL AMOUNT RECEIVED  
BY TOWNS FROM STATE DURING FISCAL YEAR

JULY 1, 1924 TO JUNE 30, 1925

The following statement includes 1925 apportionments to Towns account of State Aid Highways and Third Class Highways, which may not have all been paid to Towns during fiscal period of this report, as these apportionments are made for the calendar year.

Where special resolves for Highways have been made for more than one town, the expense has been divided equally between the towns.

## STATE AUDITOR'S REPORT

The amount shown as State Tax is the tax payable on or before December 1st, 1924.

STATE TAX BY TOWNS AND TOTAL AMOUNT RECEIVED  
BY TOWNS FROM STATE DURING FISCAL YEAR

JULY 1, 1925 TO JUNE 30, 1926

The following statement includes 1926 Apportionments to Towns account of State Aid Highways and Third Class Highways, which may

not have all been paid to Towns during fiscal period of this report, as these apportionments are made for the calendar year.

Where special resolves for Highways have been made for more than one town, the expense has been divided equally between the towns.

The amount shown as State Tax is the tax payable on or before December 1st, 1925.
