*To the Honorable Louis J. Brann, Governor, and the Executive Council of the State of Maine:*

I have the honor to present herewith the seventy-second report of the Banking Department for the two fiscal years ending June 30, 1936, as required by sections fifty-eight, eighty-five and one hundred twenty of chapter 57 of the Revised Statutes, 1930, as modified by section 7 of chapter 3.

There has been a substantial improvement in banking conditions. The rise in security prices has been an important factor. Appreciation in the value of bond port folios has resulted in greatly strengthening the capital positions of all institutions, this in turn has benefitted substantially many loans that might have been classified as slow or doubtful.

With the steady improvement in conditions in general, we look to the future with confidence.

The names, location, and active executives of the individual institutions June 30, 1936, are as follows:
