# REPORT

Bureau of Taxation — Property Division,

Augusta, Maine, December 1, 1938

*To His Excellency, Lewis O. Barrows, Governor, and the Honorable Executive Council:*

*Gentlemen:*

In accordance with the Statutes of the State, we herewith submit for your consideration the Forty-Eighth Annual Report of the Bureau of Taxation — Property Division, including tabulations of statistics returned to us by all municipal boards of assessors throughout the State, as made by them on April first, 1938, and lists of all corporations on which taxes have been assessed during the present year.

The total valuation of the cities, towns and plantations on April first, 1938, as made and returned by the local boards of assessors is \$578,512,841, representing a decrease of \$3,360,319, as compared with similar returns made on April first, 1937.

The following comparison is given of the counties in 1937 and 1938, exclusive of the unorganized townships:

## PROPERTY TAX DIVISION

*Municipal Unit*

Marked progress appears to have been made during the past two years in various activities in which we are engaged in the

Bureau of Taxation. Perhaps outstanding among our progressive movements is the establishment of a Tax Equalization Program which appears to be well founded, and while the equalization of values between the 510 municipalities of Maine and the various wild land owners, has been desirable and necessary for the proper allocation of the State Tax, the establishing of a proper equalization of values has been made more necessary than ever before by the passage of a substantial appropriation for the School Equalization Fund at the special legislative session of 1937.

This Equalization Fund is now in excess of \$300,000 and the allotment of this amount in the towns of lesser ability to pay, is tied in with the valuation of the community which may be affected. Therefore unless this Bureau can be reasonably sure of the accuracy of its valuation figures, some children may be deprived of the educational opportunity which the Legislature intended they should have. For this reason the Bureau, after consultations with various officials, has begun an appraisal program in the five hundred ten organized places of Maine and this necessary venture has required some increase in the personnel and office expense. Real estate transfer clerks are employed whose duty it is to visit Registers of Deeds and obtain from the records data as to sales of real estate and transfers for the use of the appraiser or appraisers who later view the property transferred and usually appraise other property in the community where the transfers have obtained. Final figures are only made after a thorough investigation by those who are in charge of the work.

There is also now employed in this Bureau a State Tax Engineer who is obtaining very valuable information for taxation purposes regarding the industrial plants located in the cities and towns of Maine, and business properties in the more thickly congested areas of many of the cities and larger towns and, in this manner, Maine is making a very definite start on a program which we hope will result in a more accurate distribution of the state tax load among the various municipalities within our borders and a more perfect allocation of the Educational Equalization Fund.

*Wild Land Unit*

The cruising of wild land continues to be one of our great problems inasmuch as ten million acres is a substantial area to cruise for the purpose of equalizing the tax load between the owners of this vast section, and it is only when we have before us the amount of timber available, as well as the type of land which produces this timber, that we can make a proper and accurate assessment. It is not good for either the tax payer or the tax assessor to guess at the valuation of any type of property. Such a program can only result in misunderstanding and errors.

Those charged with the duty of assessment must have some method of knowing what the property to be assessed is worth. The writer would respectfully call your attention to a similar report made in 1936 regarding this very important land cruising work. It is hoped by those who are said to be experts in this line of endeavor, that by further equalization of values we may be able to work out some program which will stimulate the desire of the land owners to hold for future productiveness, land which we now speak of as "stripped land."

*Gasoline Division*

This division administers the gasoline tax act and collects through its licensed gasoline distributors, a tax of 4c a gallon on gasoline used or sold in the state for any purpose except on sales to the United States government or sales which are wholly for export from the state. It also handles refund claims of 3c of the 4c paid on gasoline used for exempt purposes and is constantly combating evasions by investigation, inspection, audit and prosecution. Such collections are turned over to the State Treasurer for credit to the general highway fund. The total gross receipts for the fiscal period ending June 30, 1938 were \$6,161,419.84, of which \$214,574.34 was refunded. The administration expense incurred in the collection of the tax and the inspection of oils and gasoline has decreased each year since the so-called "Administrative Code" became effective, from seven tenths of one percent of the revenue received in 1931 to three tenths of one percent in 1937. This appears to be the lowest cost of collection maintained by any state on which we have ever been able to obtain data.

The result is particularly gratifying when one considers the tremendous area of Maine and the sparsely settled sections which are constantly contributing to the gasoline fund.

#### *Potato Tax Division*

This division is charged with the collection of a tax of one cent per barrel on potatoes for advertising and stabilizing the potato industry of the state. The tax is collected through licensed shippers, and turned over to the State Treasurer after the cost of collection and enforcements of the provisions of the act, are deducted. The law provides that a sum not to exceed 20% may be used for the purpose of investigating and determining better methods of production, shipments and merchandising of potato by-products, and the remainder of the fund, including any unexpended portion of the said 20%, shall be used for the general purpose of advertising Maine potatoes for food and for seed purposes. The cost of administering this act for the fiscal year ending June 30, 1938 was one and seven tenths per cent of the revenue received. The total amount collected for that period was \$112,615. This amount when broken down into a penny a barrel collection, must necessarily impress one with the great amount of work which is necessary for the collection of this tax and perhaps for this reason we may again call your attention to what appears to be a very low cost of collection. It is doubtful if this division will be able to continue this exceedingly low cost of administration unless we are fortunate in checking attempts to evade the tax.

It has been the privilege of the writer to participate in several tax meetings outside the state as well as within its borders. The tax situation has demanded the best thought of those who are engaged in revenue producing activities. It is comforting and stimulating to know that the people throughout the land are taking an unusual interest in taxation. During the past year the New England Association of Tax Assessing Officials designated Maine as its meeting place, and on October 6 and 7, Maine and the City of Bangor were hosts to this outstanding organization.

Much of interest was brought to the attention of the various tax administrators at this gathering, which was said to be one

of the best meetings ever held in the history of the association. Citizens of Bangor and surrounding towns, led by the officials of various communities as well as state officials, extended every courtesy possible to the visitors and it is the thought of the State Tax Assessor that probably Maine will profit substantially by the entertaining of this group.

### *Emergency Municipal Finance Board*

The usual routine of the office has been somewhat upset by the great increase of work brought about not only by the added duties imposed upon the Bureau from many sources, but particularly disturbing has been the tremendous task, as Chairman of the Emergency Municipal Finance Board, a newly formed unit. Seven towns have sought the care and guidance of this Board and unfortunately the nearest town to the governmental seat at Augusta, is about 200 miles away, while some of the others are considerably in excess of 300 miles.

Directing the governmental functions of these communities at such a distance has necessarily substantially increased the travel cost and office expense. The Legislature in passing the bill appropriated no money for its administration. Hence it has been necessary to absorb the costs inside the three departments which are effected by the passage of the bill, namely: the Bureau of Taxation, office of the Treasurer of State and the office of the State Auditor.

Added to this care and expense is the duty imposed by the last Legislature of directing and finally settling the affairs of those places which are surrendering their charters and reverting to wild land. Six former towns have failed to reorganize under any other type of local government, and require a substantial amount of attention from the State Tax Assessor. For this activity, no appropriation was made.

As the public appears to demand greater and more pronounced service, both personal and official, the work of the taxation group must grow in about the same proportion as does the service rendered. Citizens should not be unmindful of the fact that it is in the Bureau of Taxation that the greater part of the revenue, which is used in state activities, is produced through the medium

of assessment of taxes. Should the activities of government continue to be constantly increasing, there must necessarily result in this Bureau a substantial increase in personnel. However, thus far we have been able by making only meagre additions to our force, to render such service as seemed best at this time. This achievement could not have obtained, of course, without the complete and wholehearted cooperation of those who are employed in this Bureau, as well as outside employees, and it is to these people who give unsparingly and unselfishly of their time, that the State Tax Assessor acknowledges both personal and official gratitude.

Particular mention should be made of the two members of the Board of Equalization who whenever called into session by the State Tax Assessor, have assisted in guiding the affairs of this office by their advice and counsel, which has proven on various occasions to be most sound, probably because of the back-ground which has apparently fitted them for the services which they have rendered. Hon. Delmont Emerson, a member of the Board, having for a long period of years enjoyed an enviable reputation as a lumberman of wide experience, and Mr. Stephen Hegarty, a man of many years of experience in the real estate field and banking activities.

Respectfully submitted,

(Signed) FRANK H. HOLLEY,  
*State Tax Assessor*
