DEPARTMENT OF HEALTH AND WELFARE  
BUREAU OF HEALTH

---

Augusta, Maine, December 12, 1939

*To His Excellency, Lewis O. Barrows, Governor, and the Honorable  
Executive Council:*

Sirs:

I have the honor of submitting to you the forty-seventh annual report upon the Births, Marriages, Divorces and Deaths for the year ending December 31, 1938.

Respectfully,

ROSCOE L. MITCHELL, M. D.,  
*Registrar of Vital Statistics*

DIVISION OF VITAL STATISTICS

*State Registrar, Roscoe L. Mitchell, M. D.*

*Division Director, P. B. Stinson*

*Roscoe L. Mitchell, M. D., Director of Health and State Registrar  
of Vital Statistics:*

Sir: Following is a report of the Division of Vital Statistics for the calendar year 1938. This includes also the forty-seventh report upon the Births, Marriages, Divorces and Deaths in the State of Maine for the year ending December 31, 1938.

Respectfully,

PARKER B. STINSON,  
*Division Director*

REPORT OF DIVISION OF VITAL STATISTICS  
CALENDAR YEAR 1938

---

Mailings of transcriptions of Vital Records to the Census Bureau were as follows:

Births 15,103. Stillbirths 515. Deaths 10,437.

Transcriptions of births and deaths of non-residents, 355. These reports are not identical with the births, deaths and stillbirths reported hereafter under the tables for 1938.

Letters mailed 6,901.

Calls for records 19,189. Birth notifications issued 13,599.

Corrected birth notifications 911.

GENERAL STATISTICS FOR MAINE, 1938

Live births recorded 15,227 (136 fewer than for 1937). These include 171 twin births and 3 triple-births (in each plural birth, at least one child was born alive). There were 539 stillbirths. The number of marriages was 7,818 (193 more than in 1937). The number of deaths was 10,495 (1,007 fewer than in 1937). The number of divorces was 1,506 (446 fewer than in 1937).

POPULATION

By official census, the population of Maine

in 1910 was 742,371

in 1920 was 768,014

in 1930 was 797,423

For this Annual Report, the population of the State is estimated as 845,000. The U. S. Census Bureau estimates 856,000. This difference of 11,000 makes a variation of 0.1 in rates per 1,000 population, i. e., the 1938 death rate is 12.4 or 12.3 according to which number is used as a base.

*Allocations*

Beginning with 1935, births and deaths have been assigned to the place of usual residence. Deaths in the tuberculosis hospitals at Hebron, Fairfield, and Presque Isle (if within five years as inmates) are charged to the place of former residence. In addition, deaths at the State Hospitals at Bangor and Augusta, the State Welfare Home, "Willowcrest," at Pittston, and the Pownal State School are also charged to the place of former residence.

In general, deaths are assigned to the town or city of usual residence.

## INTERPRETATION OF TABLES

1. This report concerns itself only with residents of Maine.
2. Residence is determined by stay of one year.
3. The residence of an infant is that of its mother.

## RATES

Following the practice of the Bureau of Census, births, deaths and marriages are rated as so many per one thousand of population. It is to be understood that the marriage rate is based on the number of marriages rather than of the number of persons marrying. Infant mortality is the number of deaths under one year for each thousand live births. The puerperal (or maternal) death rate is the number of such deaths for each 10,000 live births. Specific rates, those reckoned for separate death causes, are reckoned as so many per each 100,000 inhabitants.

## OLD RECORDS

Sections 38 and 39 of Chapter 72, 1930 Revised Statutes, provided for filing of old birth, death, and marriage records by town clerks. At this time, a separate file of such records contains upwards of 370,000 received since the law became effective, July 15, 1927. Part of these records are in form to be acceptable for proof of age and citizenship in qualifying for pensions and Old Age Assistance.
