## Augusta

November 14, 1951

To Governor Frederick G. Payne and
Members of the Executive Council
Gentlemen:
The accompanying annual report of the State Controller sets forth the condition of the several funds of the State as of June 30, 1951 and the result of operations for the fiscal year then ended.

This report is issued under the provisions of section 31, Chapter 14 of the Revised Statutes of 1944, which requires the State Controller to publish an annual report showing the financial condition of the several funds of the State, and their financial operations.

It furnishes detailed information of the newspaper report, which was published on August 30, 1951.

## GENERAL COMMENTS ON STATE'S OPERATING FUNDS

Three major funds are used for recording the normal operations of State government. All transactions, which are financed from general State revenues are handled through the General Fund. The Highway Fund, as the name implies, is used for those activities, which are financed wholly or in part, from the General Highway Fund, to which certain revenues are, by statute, credited. Other Special Revenue Funds represent functions of State government set up for specific purposes on a self-supporting basis.

A Consolidated Comparative Statement of Revenues and Expenditures of the three major funds with interfund items eliminated is shown on Page 13 of this report. This schedule lists the various revenues, by source, in comparison with those of the previous year. Expenditures are likewise shown on a comparative basis.

## OPERATING FUNDS

The high price level of our national economy was again reflected in the operations of our State government, during the past fiscal year. Combined expenditures of the three major Operating Funds increased approximately $\$ 3,600,000.00$ over those of the preceding year. Upward trends were shown in all categories, with the exception of debt service and administration of the Maine Employment Security Commission. Interest requirements were $\$ 51,172.50$ less than those of the 1949-50 year, while bond retirements required $\$ 200,000.00$ less. Administration expenses of the Maine Employment Security Commission decreased $\$ 91,883.22$ from those of the previous year, in line with the marked decline in benefit payments to the unemployed from the Maine Employment Security Fund.

Combined revenues likewise showed a substantial increase from \$61,210,062.00 for the 1949-1950 year to $\$ 64,759,415.00$ for 1950-1951. Although combined revenues were $\$ 692,496.00$ less than combined expenditures, a decided variation was shown in analyzing those of the individual funds. General Fund revenues were $\$ 34,273,058.00$, while expenditures were $\$ 35,829,300.00$, resulting in a revenue deficiency of $\$ 1,556,242.00$ for the year, an increase of approximately $\$ 1,060,500.00$ over that of the previous year. In contrast, Highway Fund revenues exceeded expenditures by \$751,322.00, compared with a revenue deficiency of $\$ 273,237.00$ for the previous year. A gain of $\$ 1 \mid 2,423.00$ was also shown in the Other Special Revenue Funds.

## Accounting Principles

A modified accrual basis of accounting is used to record State finances. The revenues, except interest, of all funds are set up on an accrual basis. Interest revenues, however, are recorded when actually received. Expenditures include all invoices applicable to the year's operations received through July 6. An encumbrance system is used, whereby funds are set aside for liquidation of commitments at the time the obligations are incurred. This method has worked out very satisfactorily and has corrected the situation of previous years, wherein outstanding purchase orders at the year end, in many instances, exceeded appropriation balances. At the end of the fiscal year, funds to liquidate commitments are reflected in the Reserve for Authorized Expenditures. Inventories and fixed assets are not set up as such, except those of certain Public Service Enterprises and Working Capital Funds.

## Bonded Indebtedness

The State's bonded indebtedness was further reduced by $\$ 1,544,000.00$ during the 1950-1951 year, leaving \$6,973,500.00 outstanding at June 30, 1951, which was the lowest since 1920. On July 1, 1951, the bonded debt was further reduced by retirement of $\$ 586,500.00$ of Highway bonds. No new bonds were issued during the year and none of those outstanding were subject to call.

## GENERAL FUND

All revenues not allocated for specific purposes by law are credited to the General Fund. The Legislature appropriates from the General Fund for all governmental activities not wholly financed by Federal funds, receipts from special groups or revenues earmarked for specific purposes. In many instances, appropriations are supplemented by certain revenues, which are credited to the appropriations. These revenues consist of Federal matching funds and other items of a similar nature.

## GENERAL FUND

## Revenues

Following the trend of the past several years, General Fund revenues continued upward. Those for the 1950-1951 year were $\$ 34,273,057.83$ compared to $\$ 32,254,359.36$ for the 1949-1950 year, an increase of \$2,018,698.47. Grants from the Federal Government were $\$ 1,024,878.39$ more than those of the previous year, the major portion of which was for assistance and relief. Revenue from Liquor and Beer increased $\$ 248,139.00$, Inheritance and Estate Taxes $\$ 214,961.00$ and Commissions on PariMutuels $\$ 211,063.00$. Nearly all other categories showed increases of various amounts. Decreases were shown, however, in earnings from Short Term Investments, Fines, Forfeits and Penalties and Contributions from Other Special Revenue Funds and Trust and Agency Funds.

## HIGHWAY FUND

The Highway Fund is used for recording all transactions relating to the Highway Department, the Motor Vehicle Division, the State Police and Motor Truck Carrier Division of the Public Utilities Commission. All activities of the Highway Department, the Motor Vehicle Division and $90 \%$ of the State Police Administration are financed from the General Highway Fund. The Motor Truck Carrier Division is financed from fees derived from the Motor Truck Carrier industry. By Law all revenues from the registration of motor vehicles, operators' licenses, gasoline tax and certain other items are credited to the General Highway Fund. The Legislature allocates the General Highway Fund to the various activities financed from it. The unappropriated general highway fund surplus may be apportioned by the State Highway Commission for certain limited purposes on approval of the Governor and Council.

Gasoline Tax figures as above represent gross assessments while the figures shown on Page 56 represent net revenue.
Automobile Registrations and Drivers' Licenses represent gross receipts for Registration and Drivers' Licenses only, while the revenues shown on Page 56 represent net receipts for Registration, Drivers' Licenses, Duplicate Certificates and Plates, Temporary Dealers' Plates, Transfer Fees, Reserve number fees, etc.

## MAINE EMPLOYMENT SECURITY FUND

Revenues accruing to this fund are derived from a payroll tax on employers and earnings of surplus funds deposited with the Federal Government. Net taxes collected are deposited with the Federal Government in a trust fund, on which interest is credited quarterly. This fund is used exclusively for the payment of benefits to eligible unemployed and amounts required for benefits are requisitioned from the trust fund when needed. The administrative expenses of the Commission are financed by Federal grants and are reflected in Other Special Revenue Funds.

During the 1950-1951 year, net payroll taxes on employers were $\$ 6,789,394.32$, fines, etc. were $\$ 7,497.60$ and earnings of the trust fund were $\$ 789,754.49$, making a total revenue of $\$ 7,586,646.41$. Net benefit payments were $\$ 5,549,417.48$, resulting in an increase of $\$ 2,037,228.93$ in the assets of the fund for the year.

## OTHER SPECIAL REVENUE FUNDS

Many separate activities are set up by law for specific purposes on a self-supporting basis. Other Special Revenue Funds are used to record transactions relating to these activities. Revenues are derived primarily from taxes, fees and service charges paid by special groups for development and conservation of natural resources, promotion of Maine products and protection of the public. State supervised projects financed by the Federal Government are also reflected in these funds. Revenues for each activity are earmarked for that specific purpose and are available for expenditures when allotted by the Governor and Council. Expenditures are made under the provisions of various governing statutes without the necessity of appropriations by each session of the Legislature.

## OTHER SPECIAL REVENUE FUNDS

Revenues
Total revenues of these funds for the fiscal year were $\$ 5,124,834.22$, compared to $\$ 5,187,946.65$ for the 1949-1950 year, a decrease of $\$ 63,112.43$. Increases were shown in Hunting and Fishing Licenses (\$83,739.90), Grants from the Federal Government $(\$ 124,051.50)$ and Other Revenues $(\$ 11,438.63)$. Decreases were reflected in the Maine Forestry District Tax and Service Charges for Current Services.

The Maine Forestry District tax was $\$ 137,225.6$ less than that of the previous year, due to the decrease in the rate of taxation. Other revenues of the District, however, were sufficient to reflect an increase of $\$ 42,628.34$ in its unexpended balance at the year end.

Expenditures
Expenditures from Other Special Revenue Funds were $\$ 7,976.69$ less than those of the previous year. Administrative Expenses of the Maine Employment Security Commission decreased \$91,883.22; Protection of Persons and Property declined \$51,941.82 and Contributions and Transfers to the General Fund were $\$ 2,141.65$ less. Increase of varying amounts were shown in all other activities.

## OTHER SPECIAL REVENUE FUNDS COMPARATIVE STATEMENT OF UNEXPENDED DEPARTMENTAL BALANCES JUNE 30

As the title implies, this fund is used to record all expenditures financed solely from proceeds of general bond issues. The use of Bond Funds is limited to expenditures for the purposes for which the bonds were issued. Interest requirements and retirement of the bonds are handled through regular appropriations.

The following schedules relate to the Maine War Bonds issued during 1940-1941 to carry out the purposes of the Military Defense Commission. These are the only Bond Funds in use at the present time.

## PUBLIC SERVICE ENTERPRISES

## Maine State Liquor Commission

Net sales of Liquor by state stores showed an increase of $\$ 738,160.78$ over those of the previous year. This gain in sales was in contrast to decreases shown for the past several fiscal years. Income from liquor licenses, malt beverage fees and taxes likewise increased somewhat. A net profit of $\$ 6,814,397.97$ from operations of the Commission was transferred to the General Fund. This represented $19.9 \%$ of the total General Fund Revenues.

## Toll Bridges

Revenues of the Deer Isle-Sedgwick and the Auqusta Toll bridges were more than those of the previous years. A decline of $\$ 16,412.81$ was shown in receipts from the Waldo-Hancock Bridge, thus reflecting the reduction in toll rates, which became effective January 1, 1950.

The bonded debt of the Waldo-Hancock Bridge was reduced by $\$ 45,000.00$ and $\$ 25,000.00$ of the Kennebec (Carlton) Bridge bonds were retired during the year. Repayments totalling $\$ 81,102.70$ were made from the Augusta Toll Bridge receipts to the Highway Fund Surplus during the year. Of this amount \$29, 102.70 represented interest charges and $\$ 52,000.00$ applied on the retirement of debt.

## TRUST AND AGENCY FUNDS

Net assets of these funds increased from \$15,416,089.71 at June 30, 1950 to $\$ 17,559,271.46$ at June 30, 1951. A gain of $\$ 2,021,337.00$ was shown in those of the Maine State Retirement Fund and Lands Reserved for Public Uses Funds increased \$67,361.17.

A minimum cash balance considered necessary to meet current obligations is maintained in these funds. All other monies are invested to yield income for the beneficiaries. Actual earnings in most instances are distributed to designated payees. There are, however, a few cases in which the rate of payment is fixed by statute making State appropriations necessary to supplement the income in order to meet the required payments.

The reader is referred to the following schedules relating to the status of these funds and detail of changes for the period of this report.
