ANNUAL REPORT  
OF THE  
STATE BOARD OF BARBERS AND HAIRDRESSERS  
FOR THE FISCAL YEAR  
ENDING JUNE 30, 1953

---

The Maine State Board of Barbers and Hairdressers, the members of which are shown on page 4 of this report consists of two hairdressers, two barbers and the Director of Health, who *ex-officio*, is the Executive Secretary of the Board.

The duties of the executive secretary are outlined in the law as follows: "The executive secretary of said board shall keep a record of all proceedings, issue all notices, certificates of registration, and licenses, attest all such papers and orders as said board shall direct, make sanitary inspections at least once a year of shops and other establishments subject to license—, and perform such other duties as shall be designated by the board." For administrative purposes, these duties are delegated to the Chief Clerk of the Board who carries on these functions through the members of the staff under his direction.

Activities of the Board were more or less stabilized in comparison with previous years' activities.

The Board held three meetings during the year and gave examinations for barbers and hairdressers at both of the regular meetings established by law, *i.e.*, on the first Tuesdays of December and June; and at a special meeting held on September 23, 1952. A total of 74 hairdressers and 16 barbers appeared for examinations, as a result of which 71 hairdressers and 11 barbers were granted registration certificates. The balance of 3 hairdressers and 5 barbers failed to receive a passing grade. Most of these after additional training and experience may be expected to pass the examinations and receive registration certificates.

Practically all beauty parlors and barber shops have received at least two inspections during the year, and a substantial number have received additional inspections. Response has been made to all complaints, and all new beauty shops were inspected before a license was granted. A great many improvements have been made and the sanitary condition of all shops has been greatly improved during the period that this law has been in operation.

Important instructions were sent by a bulletin to all beauty and barber shops relating to the proper installation of temperature and pressure relief valves. Diagramatic sketches as well as tables were shown in the bulletin. In addition to the information furnished the shops on plumbing safety devices, another bulletin was sent to all beauty shops relating to the inflammability of hair spray lacquers.

Several bills were presented to the 96th Legislature and, out of this group, the following were enacted and made legal requirements:

1. Chapter 133, Public Laws of 1953, an act relating to the renewal of licenses for barbering, hairdressing and beauty culture changed the renewal license fee limitation of beauty shops from \$3 to \$5.

2. Chapter 138, Public Laws of 1953, an act relating to requirements for registration for hairdressing and beauty culture lessened the age of persons eligible to obtain a certificate of registration to practice hairdressing and beauty culture from 18 to 17 years of age.

3. Chapter 306, Public Laws of 1953, an act relating to apprentice barbers repealed the last paragraph of Section 210 of Chapter 22 of the Revised Statutes which previously stated in brief that persons practicing barbering in municipalities of the state having a population of 1,000 or less did not require a license.

Under the same act, Subsection 3 of Section 211 of Chapter 22 of the Revised Statutes was further amended and required the individual attending a school of barbering to complete a course of instruction of 1000 hours in not less than 6 months and a total experience as an apprentice over a period of at least 6 months under a licensed barber. The provisions of this act were to become effective January 1, 1954.

Chapter 321, Public Laws of 1953, relating to cosmetics, repealed the so-called cosmetic law to the extent that only cosmetics manufactured in Maine need to be registered by the State Department of Health and Welfare.

Respectfully submitted,

E. W. CAMPBELL, Dr.P.H.

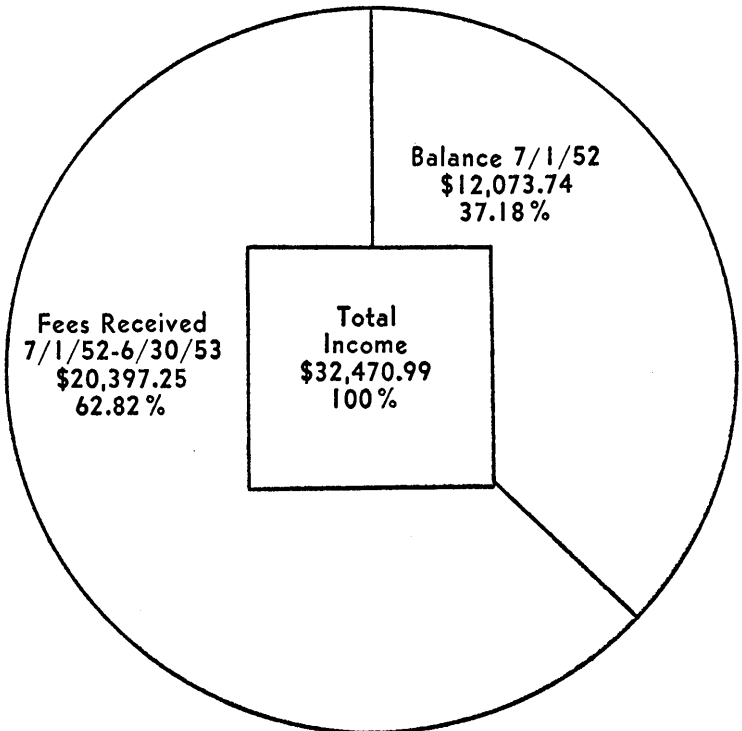

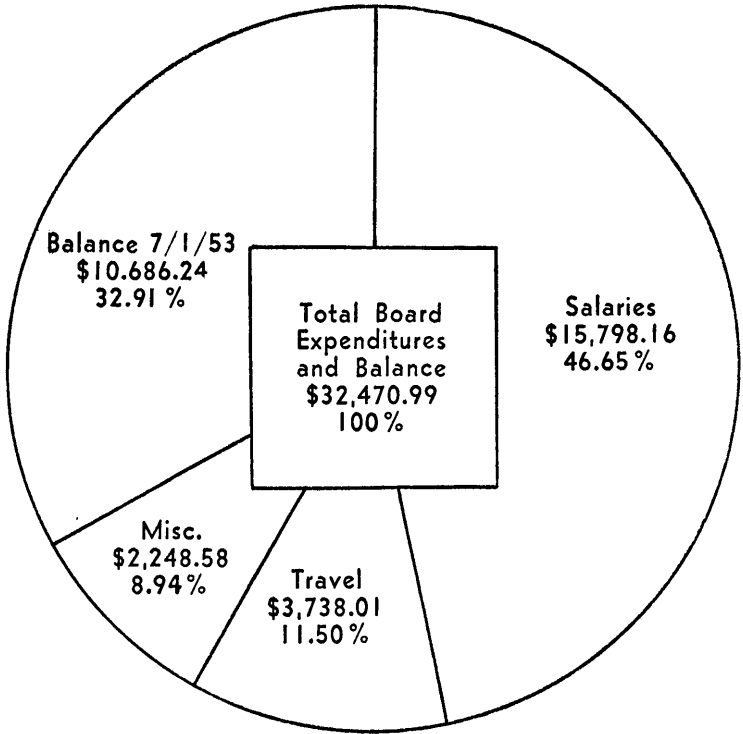

Chief Clerk

3. The floors, walls, ceilings, furniture, receptacles, implements and tools of each shop or establishment must be kept in a clean and sanitary condition at all times.

4. Every person in charge of a shop or establishment for the practice of hairdressing and beauty culture shall supply hot and cold water in such quantities as may be necessary to conduct said shop or establishment in a sanitary manner.

5. Such shops or establishments shall be provided with pressure tanks with running hot and cold water to a lavatory, with sewer connections when possible.

6. No owner or manager of a beauty parlor shall permit any person suffering from a communicable disease to work in said shop or establishment.

10. Every person engaged in a shop or establishment for the practice of hairdressing and beauty culture must thoroughly cleanse his hands immediately before and after serving each patron.

11. Open powder boxes must not be used in a reception room for patrons, and the powder must be in shakers or similar receptacles. The use of a brush for dusting powder is prohibited.

12. Lotions or fluids must be poured into a clean glass or other sterilized container and applied to patrons by means of cotton or sterilized applicator.
