GENERAL COMMENTS ON STATE'S OPERATING FUNDS

The normal operations of our State government are accounted for through three major operating funds. The General Fund includes those activities which are financed by general State revenues. The Highway Fund is used for transactions of the Highway Department and its allied activities. Other Special Revenue Funds represent functions of State government set up for specific purposes, each of which is financed by earmarked revenues for its individual project.

OPERATING FUNDS

Combined revenues of the three operating funds were somewhat higher than those of the previous year. During the 1952-1953 year no State Tax on Cities and Towns was available for operations of State government since by statute, it was retained by the Municipalities for Local purposes. This Loss, however, was more than offset by increases in other revenue sources. Total revenues for 1952-1953 were \$80,001,043.00, compared with \$78,571,693.00 for the 1951-1952 year, an increase of approximately \$1,429,000.00.

Combined expenditures of the three operating funds were \$78,531,246.00 for the 1952-1953 year, an increase of \$9,032,823.00 over those of the previous year. The major portion of this increase was shown in expenditures for highways and bridges, thereby reflecting the results of the accelerated highway program. For further detail and comments the reader is referred to the sections relating to the individual funds.

Bonded Indebtedness

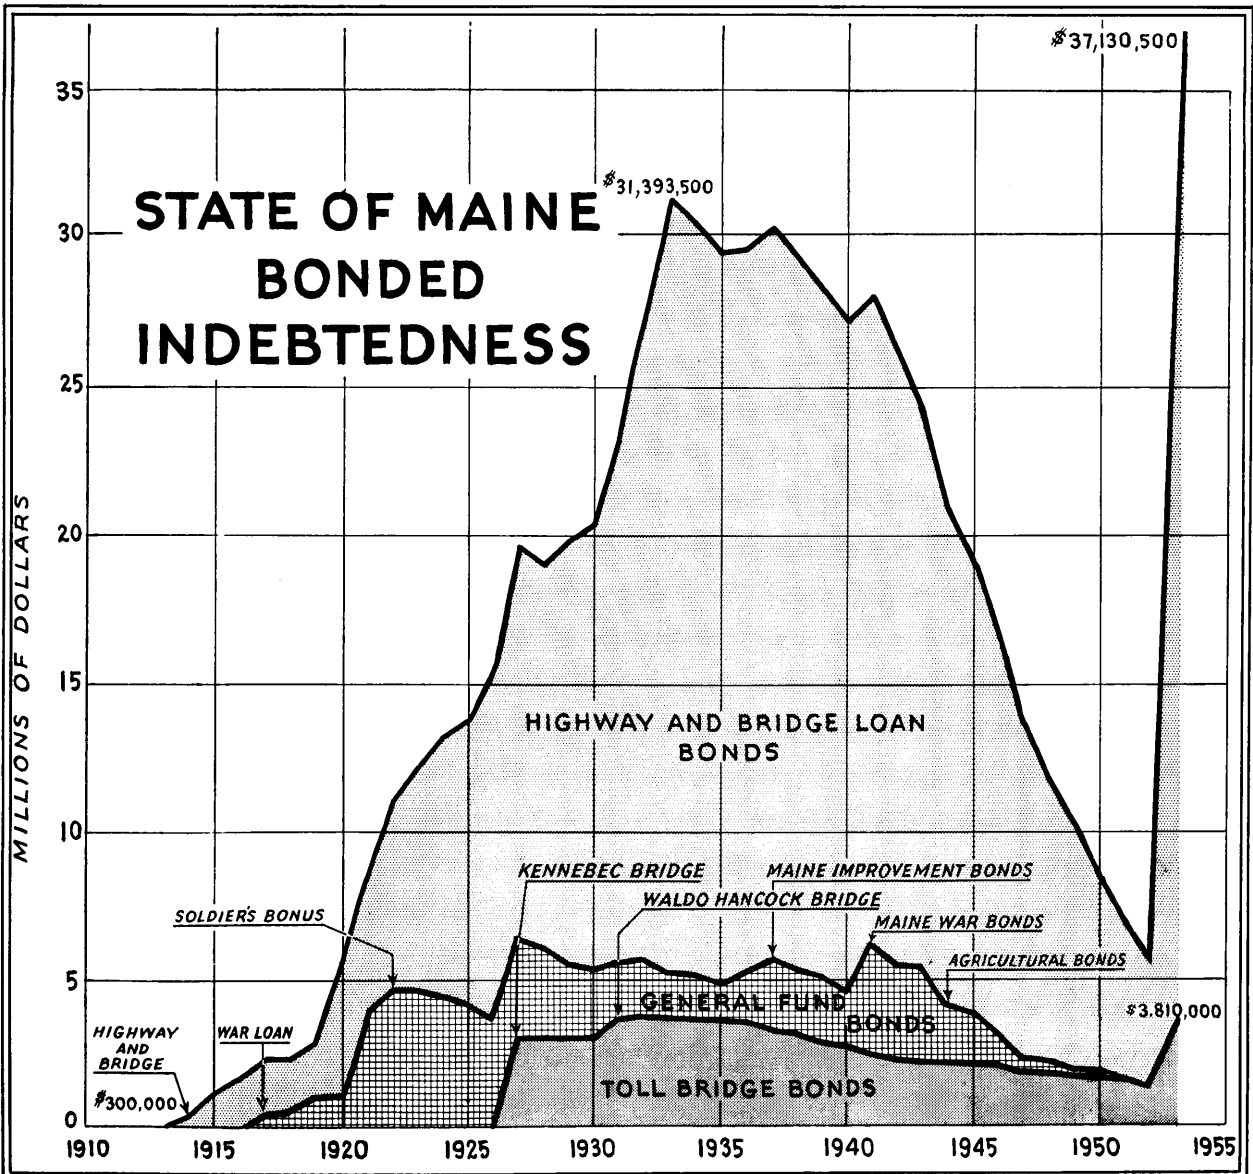

The State's bonded indebtedness was \$40,940,500.00 at June 30, 1953. Although \$1,114,000.00 of the bonded debt matured or were called during the year, new issues of \$36,500,000.00 were sold. Of these \$27,000,000.00 were for highways and bridges, \$7,000,000.00 for the Fore River Bridge and \$2,500,000.00 for the Bangor-Brewer Bridge. No General Fund bonds were issued during the year.

Accounting Principles

State finances are recorded on a modified accrual basis. The revenues, except interest, of all funds are set up on an accrual basis. Interest revenues, however, are recorded when actually received. Expenditures include all invoices applicable to the year's operations received through July 3. Inventories and fixed assets are not set up as such, except those of the Public Service Enterprises and Working Capital Funds. An encumbrance system is maintained whereby funds are reserved for liquidation of commitments at the time the obligations are incurred. At the end of the fiscal year any unliquidated items are included in the Reserve for Authorized Expenditures.

GENERAL FUND

All governmental functions, which are financed from general State revenues, are handled through the General Fund. All revenues not allocated for specific purposes by law are credited to this fund. Appropriations are authorized from the General Fund for all State services not wholly financed by receipts earmarked for specific purposes. In many instances appropriations are supplemented by Federal matching funds and similar items.

GENERAL FUND

Revenues

General Fund revenues for the 1952-1953 year were \$45,267,255.33 compared to \$46,078,765.98 for the previous year, a decrease of \$811,510.65. During the 1952-1953 year no State Tax on Cities and Towns accrued to the State, thereby reducing its revenues by \$5,576,922.00. Increases in other revenue sources, however, were sufficient to restore this loss with the exception of the \$811,510.65 mentioned above. The first full year of the Sales and Use Tax produced \$13,968,750.48 for general State purposes.

Expenditures

Expenditures from the General fund were \$39,053,039.82 for the 1952-1953 year, an increase of \$232,612.66 over those of the previous year. General Administration expenditures increased approximately \$450,000.00, the major portion of which was accounted for by the regular session of the Legislature. A decrease of \$405,979.00 was shown in the disbursements for Health, Welfare and Charities.

HIGHWAY FUND

All financial transactions of the Highway Department, the Motor Vehicle Division, the State Police and the Motor Truck Carrier Division of the Public Utilities Commission are handled through the Highway Fund. By statute, revenues from the registration of motor vehicles, operators' licenses, gasoline tax and certain other items are credited to the General Highway Fund. This fund is allocated by the Legislature for operation of the Highway Department, the Motor Vehicle Division and 90% of the cost of State Police administration. The General Highway Fund Surplus may be apportioned by the State Highway Commission for certain limited purposes on approval of the Governor and Council. The Motor Truck Carrier Division of the Public Utilities Commission is a self-supporting agency, financed by fees collected from the Motor Truck Carrier Industry.

MAINE EMPLOYMENT SECURITY FUND

The Social Security Program to provide benefits for the unemployed is handled through the Employment Security Fund. This fund is used exclusively for the payment of benefits to eligible unemployed and its revenues are derived from a payroll tax on employers and interest earned on surplus funds deposited with the Federal Government. Net taxes collected are deposited in a Federal Trust fund from which amounts required to pay benefits are requisitioned, whenever needed. Interest earnings are credited quarterly on the basis of the average balance on deposit in the trust fund. Administration expenses of the Commission are financed by Federal grants for that purpose. These are included in Other Special Revenue Funds in this report.

OTHER SPECIAL REVENUE FUNDS

This group includes a number of funds representing many separate activities set up by law for specific purposes on a self-supporting basis. These funds are used for the development and conservation of natural resources, promotion of Maine products and the protection of the public. Earmarked revenues are derived from taxes, fees and service charges paid by special groups for definite purposes. State supervised projects financed by the Federal Government are also included in these funds. Expenditures are made under the provisions of various statutes, after funds have been allotted by the Governor and Council, without the necessity of appropriations by the Legislature at each session.

PROCEEDS OF GENERAL BOND ISSUES

This fund is used to record all expenditures which are financed solely from the proceeds of general bond issues. The use of Bond Funds is limited to expenditures for the purposes for which the bonds were issued. Interest requirements and bond maturities are financed through regular appropriations.

The following schedules relate to the Maine War Bonds issued during 1940-1941 to carry out the purposes of the Military Defense Commission. These are the only Bond Funds in use at the present time.

TRUST AND AGENCY FUNDS

Many funds are held by the State as trustee or handled by the State as agent for the general public, cities, towns and counties. These are classified as Trust and Agency Funds and include the following:

Private Trusts

- Guarantee Deposits
- Public Administrators' Funds
- Receivers' Funds of Defunct Banks
- Financial Responsibility Deposits
- Funds of Committed Children
- Governor Baxter Trust Fund

Agency Funds

- Due Other Governmental Units
- Federal Social Security Fund

TRUST AND AGENCY FUNDS

Net assets of the Trust and Agency Funds were \$23,390,930.27 at June 30, 1953 compared to \$20,309,536.01 at June 30, 1952, an increase of \$3,081,394.26. Of this increase, \$2,401,272.95 was reflected in the funds of the Maine State Retirement System. Private Trusts were up \$611,356.54, while the Lands Reserved for Public Uses Fund showed a gain of \$73,689.16.

All monies of the Trust and Agency Funds not required for current operations are invested to produce income to carry out the purposes of the individual Funds. In most instances actual earnings are paid to the designated beneficiaries, although in a few instances the rate of payments are fixed by statute, thus making state appropriations necessary to supplement the income to meet the required payments.
