ANNUAL CENSUS OF MAINE MANUFACTURERS - 1950

TECHNICAL NOTES AND DEFINITIONS

Industrial Classification - The Standard Industrial Classification system as compiled by the Executive Office of the President, Bureau of the Budget was used to determine type of industry title applicable to each plant. Descriptions of major industry groups may be found at the back of this bulletin. Each establishment is classified according to its major activity. In some cases where separate records for each establishment were not kept, all data has been included in the totals for the county in which the home office or principal establishment is located. Comparison with census figures for years prior to 1949, when the adoption of the Standard Industrial Classification system was made, is possible through the use of Table 20. This table presents product value, wages and employment in accordance with the classification arrangement formerly used by the Department of Labor and Industry.

Value of Product - is the net selling price of all goods manufactured or processed during 1950. If industrial operations were on a contract basis, the total of amounts received for contract work or services performed has been included.

Gross Wages Paid - shows earnings of all employees, except executive, before deduction for old age assistance, group insurance, withholding tax, bonds, union dues, etc. Pay for sick leave, holidays, vacations and bonuses has been included.

Employment - is that reported as an average or representative for the year 1950. Workers engaged in fabricating, processing, assembling, inspection, receiving, storage, handling, packing, warehousing, shipping, maintenance, repair, janitorial, watchmen services, product development are included as are working foremen and all other nonsupervisory workers (including leading men and trainees). Executives are excluded.

Arrangement and Coverage - Product value, wages and employment data are presented in the following ways:

1. By major industry groups for the State of Maine as a whole. (See Table 1)
2. By subordinate industry groups for the State of Maine as a whole. (See Table 2)
3. By counties for all manufacturing as a whole. (See Table 3)
4. By major industry groups for each county. (See Tables 4 through 19)
5. By former classification titles for the State of Maine as a whole. (See Table 20)
