T. T. Trott, Jr., Director

STATE OF MAINE

DEPARTMENT OF LABOR AND INDUSTRY

AUGUSTA

AUTHORIZATION

Section 2, Chapter 30, Revised Statutes of Maine 1954,
as amended: The department shall collect, assort and
arrange statistical details relating to . . . indust...
trial pursuits in the state. The Commissioner . . .
may. . . cause to be printed and distributed bulletins
. . . that shall be of public interest and benefit to
the state.

CENSUS OF MAINE MANUFACTURES - 1955

"HIGHLIGHTS"

VALUE OF PRODUCT REACHES A 1.2 BILLION DOLLAR RECORD HIGH IN 1955

In the year 1955, Maine manufacturing establishments reported a total production valued at 1.225 billion dollars--30 million dollars higher than the 1951 record of 1.195 billion and 86 million dollars higher than the 1954, 1.139 billion dollar total. Paper and Allied Products with a 42 million dollar gain, Leather and Leather Products with a 16 million dollar increment and Food and Lumber with 14 and 26 million dollar increases respectively, accounted for the gains which were partially offset by losses in Textiles (down 17 million dollars) and Fabricated Metal Products (down 11 million dollars). Only four of the Major Industry Groups reported declines in product value, Chemicals and Electrical Machinery which is into a leveling-off phase as predicted in 1954, being the other two.

PAPER AND ALLIED PRODUCTS NUMBER ONE AGAIN

Paper and Allied Products retained its position of top leadership with a total product value of 335 million dollars in 1955, 27.3% or well over one fourth of the state's grand total product value. Despite its 17 million dollar decrease, Textiles was still in second place with Food, Leather and Lumber following in that order. Textiles had a 1955 product value of \$203 million; Food, \$167 million; Leather \$165 million and Lumber \$136 million.

THIRTEEN COUNTIES GAIN IN 1955

With Cumberland county still in undisputed first position for total product value, thirteen of the 16 Maine counties reported gains in product value. The combined decreases recorded by Sagadahoc, Washington, and York counties amounted to 32 million dollars.

At 202 million dollars, Cumberland had 16.5% of the state's total production value, Penobscot, Androscoggin, Kennebec and York followed with 15.1%, 12.7%, 11.1% and 8.5% in that order.

THIRTEEN MINOR CIVIL DIVISION PRODUCE OVER 25 MILLION PRODUCT

Five minor civil divisions reported a product value in excess of 50 million dollars in 1955, eight more had a 25 million dollar or better value of product. These leading cities/towns are listed in order of the value of product: (in 000's)

| | | | |
|----------------|-----------|----------------|-----------|
| 1. Portland | \$ 92 405 | 7. Bath | \$ 46 017 |
| 2. Lewiston | 73 540 | 8. Rumford | 45 798 |
| 3. Westbrook | 56 405 | 9. Augusta | 43 490 |
| 4. Biddeford | 56 003 | 10. Madawaska | 35 151 |
| 5. Millinocket | 54 846 | 11. Waterville | 31 453 |
| 6. Auburn | 46 466 | 12. Winslow | 30 338 |
| 13. Lisbon | \$ 26 338 | | |

AVERAGE GROSS WAGES UP IN 1955

The average gross wage in Maine Manufacturing for 1955 was \$3,206--this figure represents two things: the first, a shift in level resulting from the methodology now used in computing average total employment; the second, a real increase in average gross wages resulting from fuller and steadier manufacturing employment. Based upon the newly adopted methods, 1954 average gross wages would have been approximately \$2,995 instead of the \$2,866 obtained by former methods.

Among the major industry groups--Paper with \$4,267 was highest, Transportation Equipment next with \$4,197. Lowest were Apparel with \$2,240, Miscellaneous Manufacturing with \$2,448 and Furniture with \$2,526. Food was fourth from the bottom, thus reflecting elimination of seasonal influences by the employment methodology adopted this year.

Areal distributions of average gross wages being paid by county and minor civil divisions reflected generally the industrial patterns with the highest average gross wage in York county (\$3,510) and the lowest in Washington county (\$2,554). Paper and Shipbuilding communities such as Bucksport (\$5,048), Madawaska (\$4,681), Jay (\$4,480), Winslow (\$4,407), Millinocket (\$4,351), Kittery (\$4,326), Rumford (\$4,323) and Bath (\$4,137) substantiated the respective industry highs.

UNIONS

In the 1955 Product and Employment Report, 161 firms or establishments 1/ reported total or partial organization of their work forces. The 161 reports showed a total employment of 55,368 of which 45,238 or 81.7% were organized. Of the number organized^{2/}, 37.4% were AFL, 24.3% were CIO, 15.3% Independent, and the remaining 23.0% were organized under some combination of the foregoing. The Value of Product for these firms was slightly over 664 million dollars or approximately 54% of the state's total product value, while the 45 thousand union workers represented 43% of the 1955, 105.8 thousand worker total.

1/ Portsmouth Naval Shipyard included except Value of Product

2/ Some of the differences between total employment and "organized" employment in the establishments reporting may be accounted for by the fact that total employment is a 12-month average while the number organized usually represents those workers covered by a union contract at the year's end when this report was filed. There will, however, in most instances be a small part of the work force not covered by a union agreement such as office staff, supervisors, etc.

MAINE WORK STOPPAGES IN 1955

1955 Maine work stoppages maintained the upward trend evidenced in 1954. The total mandays lost in All Maine Stoppages at 276,060 was almost seven times higher than the 1954 figure of 40,800. Total number of workers involved in 1955 was 11,390 compared with 2,400 in 1954—an approximate fivefold increase. Statistical tabulations with comparative information is shown in the table below:

| ITEM | PERIOD | NUMBER OF STOPPAGES | NUMBER OF WORKERS INVOLVED | NUMBER OF MANDAYS IDLE |
|---|--------|---------------------|----------------------------|------------------------|
| ALL MAINE INDUSTRY | 1955 | 18 | 11 390 | 276 060 |
| | 1954 | 22 | 2 400 | 40 800 |
| | 1953 | 16 | 5 000 | 28 600 |
| MAINE MANUFACTURING | 1955 | 4 | 9 780 | 259 210 |
| | 1954 | 11 | 1 670 | 33 760 |
| | 1953 | 6 | 3 000 | 9 000 |
| MAINE TEXTILES | 1955 | 3 | 9 680 | 259 000 |
| | 1954 | 4 | 700 | 14 580 |
| ALL MAINE STOPPAGES AS A PERCENTAGE OF NATIONAL STOPPAGES | 1955 | -- | .4 | 1.0 |
| | 1954 | -- | .2 | .2 |
| MAINE MANUFACTURING STOPPAGES AS A PERCENTAGE OF NATIONAL MANUFACTURING STOPPAGES | 1955 | -- | .5 | 1.4 |
| | 1954 | -- | .2 | .2 |

WORK STOPPAGES (continued)

While Maine stoppages accounted for the proportions of national totals shown in the table on the preceding page, Maine's share of the nation's employment in these two categories; all non-agricultural (all industry) and all manufacturing was .5% and .6% respectively, indicating a non-disproportionate share of the work stoppage totals.

NOTE: All work stoppages known to the Bureau of Labor Statistics and the Department of Labor and Industry, involving six or more workers and lasting a full day or shift or longer are included. Figures on workers involved and mandays idle cover all workers made idle for as long as one shift in an establishment directly involved in a stoppage. They do not measure the indirect or secondary effects on other establishments or industries whose employees are made idle as a result of material or service shortages.

MAINE MANUFACTURING EXPANDED AND MODERNIZED WITH A 56 MILLION DOLLAR INVESTMENT IN PLANT FACILITY IN 1955

According to reports filed with the annual product and employment report covering 1109 establishments which produced 88.8% of the state total product value in 1955, 56 million dollars was invested by the management of these establishments to expand and modernize their operating facilities. A fuller analysis of this may be found in Appendix E.

(In the several appendices are found special analyses and tabulations of census data such as;

Federal government contracts in Maine manufacturing, 1955
Census items tabulated by (a) Three Major Maine Rivers
(b) Shopping Areas and (c) Economic Areas.
Comparative data for the years 1952, 1953, 1954 by County and Industry.

| 1001 to 1500 | 6.1 | (9.4) | 5.8 | (11.3) | 5.8 | 6.6 |
| 1501 and Over C/ | 8.4 | (60.2) | 18.2 | (41.2) | 14.6 | 24.2 |
| Combined Reporting D/ | 17.9 | N.A. | 19.9 | N.A. | 17.6 | N.A. |
| Discontinued D/ | 1.9 | N.A. | 1.5 | N.A. | 1.8 | N.A. |

NOTE: () indicates decreases; N.A. indicates not available

A/ In view of the newly adopted methods of figuring employment, per cent of change data is not furnished for the employment series. Instead, the distribution in the two years 1954 and 1955 is furnished for comparative purposes.

B/ Less than .1%

C/ Portsmouth Naval Shipyard included except Value of Product

D/ These classifications were not used in 1954 so that comparable data for that year are not available. All comparisons should take into consideration the extended usage of "combined reporting" which would be spread throughout the entire size distribution.

CENSUS OF MAINE MANUFACTURES ~ 1955

APPENDIX ~ B

CENSUS OF MAINE MANUFACTURES - 1955

APPENDIX B-1: TECHNICAL NOTES AND DEFINITIONS

INDUSTRIAL CLASSIFICATION The Standard Industrial Classification system as compiled by the Executive Office of the President, Bureau of the Budget, was used to determine the industry title applicable to each establishment. Descriptions of major industry groups may be found in Appendix B-2. Each establishment has been classified according to its principal activity during 1955.

VALUE OF PRODUCT is the net selling price of all goods manufactured or processed during the calendar year. If industrial operations were on a contract basis, the total of amounts received for contract work or services performed has been included.

GROSS WAGES PAID shows total earnings during the calendar year of all employees, except executives, before deductions for Old-Age and Survivors Insurance, group insurance, withholding tax, defense bonds, union dues, etc. Pay for sick leave, holidays, vacations, and bonuses has been included. Owing to the exclusion of various fringe benefits, payroll taxes paid by employers, etc., this data should not be interpreted as representing total labor costs on the part of the employer.

NUMBER OF WORKERS is that reported in each month operated as of the payroll period ending nearest the 15th of the month--and averaged over the full twelve months. Inasmuch as this is the first year using this method of computation, much of the variations in employment may be purely mathematical and not reflective of absolute changes. Workers engaged in fabricating, processing, assembling, inspection, receiving, storage, handling, packing, warehousing, shipping, maintenance, repair, janitorial, watchmen services and product development are included as are working foremen and all other employees below the executive level.

AVERAGE GROSS WAGES is the figure obtained by dividing GROSS WAGES PAID by the TOTAL NUMBER OF WORKERS.

ESTABLISHMENT is defined as a single physical location where industrial operations are performed; it is, therefore, a place of business rather than a legal entity or company which may have units in many locations. In instances where separate records for each establishment were not kept, data have been included in the totals for the civil division in which the home office or principal place of business was located. In these cases the establishment count is allocated by civil division and the entire report classified by size as "combined." This practice will, of course, inflate the values at the main location.

CIVIL DIVISIONS are geographical units established for governmental purposes. Major civil divisions are counties; minor divisions are cities, towns, plantations and townships.

NOTE: Techniques of compiling data in the various special surveys included in the Appendices are generally covered in the texts.

CENSUS OF MAINE MANUFACTURES - 1955

APPENDIX B-2: INDUSTRY DESCRIPTIONS

Two-digit
SIC Code

- 20 Food and Kindred Products This major group includes establishments manufacturing foods and beverages for human consumption, and certain related products such as manufactured ice, chewing gum, and prepared feeds for animals and fowls.
- 22 Textile Mill Products This major group includes establishments engaged in performing any of the following operations, regardless of the type of fiber used: (1) manufacturing yarn, thread, cordage, and twine; (2) manufacturing woven fabric, carpets, rugs, braids, laces, knit fabric, knit garments, and other products from yarn; (3) dyeing and finishing fibers, yarn and fabric; and (4) coating, waterproofing, and otherwise treating fabric. This classification makes no distinction between the two types of organizations which operate in the textile industry; namely, the "regular or "inside" mill which purchases materials, produces textiles and related articles within the establishment, and sells the finished products, and the "contract" or "commission" mill which processes materials owned by others. Jobbers or converters who do no manufacturing but who assign materials to contract mills for processing are classified in non-manufacturing industries. Establishments primarily engaged in the sponging or shrinking of cloth for the trade, or in employing home workers for hand-knitting or hand-weaving of textile products are included in APPAREL AND OTHER FINISHED PRODUCTS. The rubberizing of fabrics is classified in the major group, RUBBER PRODUCTS.
- 23 Apparel and Other Finished Products Made From Fabrics and Similar Materials This major group, known as the cutting-up and needle trades, includes establishments producing clothing and related fabricated products by cutting and sewing purchased woven or knit fabrics. All types of textiles are utilized as well as leather, rubberized fabrics, fur, and other materials. This classification makes no distinction between the two types of organizations which operate in the apparel industry; namely, the "regular" or "inside" factory which purchases materials, manufactures clothing and related articles, and sells the finished products, and the "contract" factory which manufactures apparel from materials owned by others. Jobbers who do no manufacturing but assign materials to contract factories for fabrication, and custom tailors and dressmakers not operating on a factory basis are classified in non-manufacturing industries.
- 24 Lumber and Wood Products (except furniture) This major group includes logging camps engaged in cutting timber and pulpwood; merchant sawmills, veneer mills, lath mills, shingle mills, cooperage-stock mills, planing mills, and plywood mills engaged in producing lumber and wood basic materials; and establishments engaged in manufacturing finished articles made

APPENDIX B-2: (CONTINUED)

entirely or mainly of wood or wood substitutes. Certain types of establishments producing wood products are classified elsewhere. For example, furniture, and office and store fixtures are classified in the major group, FURNITURE AND FIXTURES; pianos, musical instruments, toys, and playground equipment, caskets and coffins in MISCELLANEOUS MANUFACTURING INDUSTRIES. Woodworking in connection with construction, in the nature of reconditioning and repair, or performed to individual order, is classified in non-manufacturing industries.

- 25 Furniture and Fixtures This major group includes establishments engaged in manufacturing household, office, public-building, professional and restaurant furniture, office and store fixtures, and window and door screens and shades, regardless of the materials used. Establishments primarily engaged in the production of millwork are classified in the major group LUMBER AND WOOD PRODUCTS. Woodworking to individual order or in the nature of reconditioning and repair is classified in non-manufacturing industries.
- 26 Paper and Allied Products This major group includes the manufacture of pulp primarily from wood, and from rags and other fibers; the conversion of these pulps into any kind of paper or paperboard into converted paper products such as coated paper, paper bags, paper boxes, cards, and envelopes. Certain types of converted paper products are classified elsewhere, such as abrasive paper in STONE, CLAY, AND GLASS PRODUCTS, carbon paper in MISCELLANEOUS MANUFACTURING INDUSTRIES, and photosensitized and blueprint paper in PROFESSIONAL, SCIENTIFIC, AND CONTROLLING INSTRUMENTS; PHOTOGRAPHIC AND OPTICAL GOODS; WATCHES AND CLOCKS.
- 27 Printing, Publishing and Allied Industries This major group includes establishments engaged in printing, publishing, and lithographing; and those performing services for the printing trades, such as bookbinding, typesetting, engraving, photoengraving, and electrotyping. This group also includes publishers regardless of whether or not they do their own printing. News syndicates are classified in service industries.
- 28 Chemicals and Allied Products This major group includes establishments producing basic chemicals, and establishments manufacturing products by predominantly chemical processes. Establishments classified in this major group manufacture three general classes of products: (1) basic chemicals such as acids, alkalies, salts, and organic chemicals; (2) chemical products to be used in further manufacture such as synthetic fibers, plastics materials, crude animal and vegetable oils, dry colors, and pigments; and (3) finished chemical products to be used for ultimate consumption such as

APPENDIX B-2: (CONTINUED)

drugs, cosmetics, and soaps; or to be used as materials or supplies in other industries such as paints, fertilizers, and explosives. The mining of natural rock salt is classified in mining industries. Establishments primarily engaged in manufacturing nonferrous metals and high percentage ferro-alloys are classified in the major group, PRIMARY METAL INDUSTRIES, silicon carbide in STONE, CLAY, AND GLASS PRODUCTS, baking powder, and other leavening compounds, and starches in the major group FOOD AND KINDRED PRODUCTS, and embalming fluids and artists' colors in the major group MISCELLANEOUS MANUFACTURING INDUSTRIES. Establishments primarily engaged in packaging, repackaging, and bottling of purchased chemical products, but not engaged in manufacturing chemicals and allied products are classified in the trade industries.

- 31 Leather and Leather Products This major group includes establishments engaged in tanning, currying, and finishing hides and skins, and establishments manufacturing finished leather and artificial leather products and some similar products made of other materials.
- 32 STONE, CLAY, and GLASS PRODUCTS This major group includes establishments engaged in manufacturing flat glass and other glass products, cement, structural clay products, pottery, concrete and gypsum products, cut-stone products, abrasive and asbestos products, etc., from materials taken principally from the earth in the form of stone, clay and sand. When separate reports are available for mines and quarries operated by manufacturing establishments classified in this major group, the mining activities are classified in the mining industries; when separate reports are not available, the mining activities are classified with the manufacturing operations and classified herein.
- 33 Primary Metal Industries This major group includes establishments engaged in the smelting and refining of ferrous and nonferrous metals from ore, pig, or scrap; in the rolling, drawing, and alloying of ferrous and nonferrous metals; and in the manufacturing of castings, forgings, and other basic products of ferrous and nonferrous metals.
- 34 Fabricated Metal Products This major group includes establishments engaged in fabricating ferrous and nonferrous metal products such as tin cans and other tinware, hand tools, cutlery, general hardware, nonelectric heating apparatus, fabricated structural metal products, metal stampings, lighting fixtures, fabricated wire products, and a variety of metal products not elsewhere classified. Certain important segments of metal fabricating industries are classified in other major groups such as ordnance in the major

APPENDIX B-2: (CONTINUED)

group ORDNANCE AND ACCESSORIES, machinery in major groups MACHINERY (EXCEPT ELECTRICAL) and ELECTRICAL MACHINERY EQUIPMENT AND SUPPLIES, transportation equipment under its own major heading, professional, scientific, and controlling instruments, watches and clocks in their own group, and jewelry and silverware in MISCELLANEOUS MANUFACTURING INDUSTRIES. The production of ferrous and nonferrous metals and their alloys, and basic products made of metal, are classified in the major group PRIMARY METAL INDUSTRIES.

- 35 Machinery (except electrical) This major group includes establishments engaged in manufacturing machinery and prime movers other than electrical equipment. Machines powered by built-in or detachable electric motors ordinarily are included in this major group, with the exception of household electrical appliances. Portable tools, both electric and pneumatic powered, are included in this major group, but hand tools are classified in the major group FABRICATED METAL PRODUCTS.
- 36 Electrical Machinery, Equipment, and Supplies This major group includes establishments engaged in manufacturing machinery, apparatus, and supplies for the generation, storage, transmission, transformation, and utilization of electrical energy. The manufacture of electrical household appliances is included in this group, but machinery and equipment powered by built-in or detachable electric motors is classified in the major group MACHINERY (EXCEPT ELECTRICAL).
- 37 Transportation Equipment This major group includes establishments engaged in manufacturing equipment for transportation of passengers and cargo by land, air and water. Important products produced by establishments classified in this group include motor vehicles, aircraft, ships, boats, railroad equipment, and miscellaneous transportation equipment such as motorcycles, bicycles, and horse-drawn vehicles.
- 38 Professional, Scientific, and Controlling Instruments; Photographic and Optical Goods; Watches and Clocks This major group includes establishments engaged in manufacturing mechanical measuring, laboratory, and scientific instruments; optical instruments and lenses; surgical, medical, and dental instruments, equipment, and supplies; ophthalmic goods; photographic equipment and supplies; watches and clocks. Establishments primarily engaged in manufacturing instruments for indicating, measuring, and recording electrical quantities and characteristics are classified in the major group ELECTRICAL MACHINERY, EQUIPMENT AND SUPPLIES.

39 Miscellaneous Manufacturing Industries This major group includes establishments primarily engaged in manufacturing products not classified in any other manufacturing major group. Industries in this group fall into the following categories: jewelry, silverware, plated ware; musical instruments; toys, sporting and athletic goods; pens, pencils, and other office and artists' materials; buttons, costume novelties, miscellaneous notions, fabricated plastics products; brooms and brushes; morticians' goods; and other miscellaneous manufacturing industries.

Not Elsewhere Shown A policy of the Department of Labor and Industry is not to reveal information on an individual plant basis. Industry groups which do not meet our standard minimum of three establishments each have been grouped under the heading NOT ELSEWHERE SHOWN. This title is not a part of the Standard Industrial Classification system but was originated to meet the needs of this Department.

CENSUS OF MAINE MANUFACTURES -- 1955

APPENDIX B-3: SURVEY COVERAGE

This survey, insofar as possible, is of universal coverage for Maine manufacturing establishments ranging from single proprietorships to large corporations. The laws of Maine require the filing of the annual Product and Employment report from which these data are taken.

Since December 1955 when the original mailing of 1942 schedules was made, reports have been received covering a total of 2117 establishments -- 1915 or 90.5% were usable of which 170 represented firms who discontinued activity in 1955 on either a permanent or temporary basis and filed reports of their partial operation during the year. The difference of 202 between total and usable reports represents primarily, those that were returned for correction or were initially received too late for inclusion in these tabulations, and on the basis of size and prior record would have less than 1% effect on the totals.

The more accurate count of physical locations (establishments) through the use of the "combined reporting" technique, accounts for a large portion of the increase from 1802 usables in 1954 to 1915 usables in 1955, there is however some increment in certain categories.

Taking into consideration the factors noted above, the data contained herein present a comprehensive statistical picture of the Maine manufacturing economy for the year 1955

T. T. Trott, Jr.
Director of Research

July 15, 1956

Total Usable Establishments:

| | | | |
|-------|------|---------|------|
| Year: | 1955 | Number: | 1915 |
| | 1954 | | 1802 |

| | 1952 | | 1764 |
| | 1951 | | 1691 |

CENSUS OF MAINE MANUFACTURES ~ 1955

APPENDIX ~ C

CENSUS OF MAINE MANUFACTURES - 1955

APPENDIX C: MAINE INDUSTRY FOLLOWS THE RIVERS

(This analysis, showing the concentration of Maine manufacturing along three major waterways in the state (the Androscoggin, Kennebec and Penobscot Rivers), has been made as a part of the regular Census publications since 1952 in view of the requests received for it. The text is that used in 1952.)

Manufacturing industries are traditionally heavy users of water for various plant and processing needs. Such industries, therefore, tend to locate near substantial water supplies; illustrative of this is the following tabulation of a five-mile area on either side of three major waterways in Maine, the Androscoggin, Kennebec, and Penobscot Rivers.

The breakdown for these three is shown below:

| <u>ITEM</u> | <u>PERIOD</u> | <u>ANDROSCOGGIN</u> | <u>KENNEBEC</u> | <u>PENOBCOT</u> | <u>TOTAL</u> |
|---|---------------|---------------------|-----------------|-----------------|--------------|
| VALUE OF PRODUCT (MILLIONS OF DOLLARS) | 1955 | 237 | 169 | 144 | 550 |
| | 1954 | 174 | 160 | 115 | 449 |
| | 1953 | 220 | 168 | 96 | 484 |
| | 1952 | 181 | 171 | 116 | 468 |
| GROSS WAGES PAID (MILLIONS OF DOLLARS) | 1955 | 63 | 44 | 32 | 139 |
| | 1954 | 61 | 41 | 27 | 129 |
| | 1953 | 64 | 42 | 23 | 129 |
| | 1952 | 52 | 43 | 27 | 122 |
| NUMBER OF WORKERS (IN THOUSANDS) | 1955 | 21 | 14 | 10 | 45 |
| | 1954 | 21 | 15 | 9 | 45 |
| | 1953 | 22 | 15 | 8 | 45 |
| | 1952 | 19 | 16 | 10 | 45 |
| NUMBER OF ESTAB- LISHMENTS | 1955 | 249 | 156 | 163 | 568 |
| | 1954 | 244 | 164 | 161 | 569 |
| | 1953 | 235 | 152 | 144 | 531 |
| | 1952 | 234 | 151 | 157 | 542 |

CENSUS OF MAINE MANUFACTURES - 1955

APPENDIX C: DISTRIBUTION OF MANUFACTURING CENSUS ITEMS BY SELECTED
"SHOPPING AREAS," 1955

By request, this division has made an analysis of the distribution of the census items from the Census of Maine Manufactures, 1955, by selected "Shopping Areas." These areas are described geographically rather than on any economic or market patterns, which are beyond our means. It is not a study of consumption or sales, but of the economic contributions of the manufacturing community to the area.

The composition of the "Shopping Areas" used in this study is as follows: All those minor civil divisions with reporting manufacturing establishments within a ten-mile radius of the points specified. These radii were drawn on the 1954 edition of the "Official Highway Map," published by the Maine State Highway Department, are subject to the limitations of that map and include only Maine towns and cities.

Area No. Description of the point of radius

A ten-mile radius drawn from a point (at):

- | | |
|----|---|
| 1 | Midway between Caribou and Presque Isle on Route #1 |
| 2 | Houlton |
| 3 | Eastport |
| 4 | Bangor (and including Old Town) |
| 5 | Waterville |
| 6 | Augusta |
| 7 | Lewiston-Auburn |
| 8 | Brunswick |
| 9 | Portland |
| 10 | Midway between Biddeford and Sanford |
| 11 | Midway between Skowhegan and Madison |
| 12 | Rumford |
| 13 | Midway between Rockland and Camden |

CENSUS OF MAINE MANUFACTURES - 1955

Distribution of Manufacturing Census Items by Selected "Economic Areas"

In the preceding pages a tabulation is presented on a basis called "SHOPPING AREAS" which are delineations based upon a 10-mile radius about an arbitrarily fixed point. Wishing to make this tabulation more meaningful, we have expanded this study to twenty-seven rather than thirteen areas which are now called "Economic Areas." The inclusion or exclusion of minor civil divisions in these areas was based on a graphic analysis of the 1950 populations. These tabulations are perhaps even more arbitrary than before, but are more logically selected by analysis rather than by chance circumscription. It is not intended to be the final answer but another tool in the analysis of our Maine economy, and unless the volume of requests for this data warrants differently this tabulation will replace the so called "Shopping Areas" in future issues of this publication.

In the pages following are a tabular presentation of the census data according to these "Economic Areas." The list of minor civil divisions contained in your area of interest may be obtained upon request. The areas will be revised as needs and further data warrant.

The selection of towns for identification purposes has been made upon the basis of manufacturing concentration in 1954 using the Total Employment as selective criterion.

CENSUS OF MAINE MANUFACTURES - 1955

APPENDIX - D

CENSUS OF MAINE MANUFACTURES - 1955

APPENDIX D: FEDERAL GOVERNMENT CONTRACTS IN MAINE 1955

According to reports filed by 64 Maine manufacturing establishments, federal contracts accounted for less than 6% of the total manufactured product value in the state for 1955. The largest portion of that amount was in the transportation equipment field in which 7 firms reported total contracts of 47 million dollars, the state grand total was just under 72 million dollars or 5.8% of the total 1955 product value of 1.2 billion dollars. The distribution of these contracts by industry and location is shown below.

| Item | Value of Contracts (000's) | Percent of Total Product Value | Number of Reporting Firms |
|--|-------------------------------|--------------------------------|---------------------------|
| <u>THE STATE:</u> | <u>71,625</u> | <u>5.8</u> | <u>64</u> |
| <u>INDUSTRIES:</u> | | | |
| Transportation Equipment <u>/1</u> | 47,469 | 86.2 | 7 |
| Electrical and Non-Electric Machinery and Ordnance | 19,095 | 37.6 | 12 |
| Stone, Clay and Glass Products | 2,559 | 19.3 | 4 |
| Fabricated Metal Products | 983 | 3.4 | 10 |
| Lumber and Wood Products | 424 | .3 | 10 |
| All others <u>/2</u> | <u>1,095</u> | <u>.1</u> | <u>21</u> |
| <u>COUNTIES:</u> | | | |
| Sagadahoc | 40,812 | 72.8 | 4 |
| Cumberland | 12,027 | 5.9 | 19 |
| York <u>/1</u> | 9,195 | 8.8 | 9 |
| Kennebec | 610 | .4 | 5 |
| Penobscot | 535 | .3 | 6 |
| Hancock | 313 | 1.3 | 4 |
| Androscoggin | 182 | .1 | 4 |
| All Others | <u>7,951</u> | <u>2.2</u> | <u>13</u> |

Note: These figures have not been verified with U. S. Government sources and may not be fully representative of all contracts operative within the state. They do represent all reports filed with this division and are not necessarily "defense" contracts. Items may not add exactly to total as a result of rounding.

/1 Portsmouth Naval Shipyard excluded

/2 Includes Food, Textiles, Apparel, Paper, Printing, Chemicals and Leather industries.

CENSUS OF MAINE MANUFACTURES - 1955

APPENDIX - E

CENSUS OF MAINE MANUFACTURES - 1955

APPENDIX E: INVESTMENT IN PLANT MODERNIZATION AND EXPANSION,
MAINE MANUFACTURING ESTABLISHMENTS

The current interest in industrial promotion and development in the state and the New England area /1 made it desirable to obtain some information on the amounts Maine manufacturers were spending to expand and modernize the production facilities. It is not felt that these figures are complete, but that they do represent the majority of such expenditure representing as they do, 1021 reports covering 1109 establishments in which 1.089 billion dollars or 88.8% of the state total product value for 1955 was manufactured, 302 million dollars or 88.9% of the 1955 manufacturing gross wages were paid and 92 thousand or 86.8% of the manufacturing workers were employed.

The tabulations show that 56 million dollars was put into expanded or modernized plant facility in 1955 plus 282 million dollars in the 1945-54 period----a grand total of 338 million dollars over the eleven years covered.

During the full period and especially during the 1955 period the Paper Industry invested the largest amounts with 56% of the 1945-54 total, 60% of 1955 and 57% of the 1945-55 grand totals. Textiles was next for the 1945-55 period with 13% of the grand total however, in 1955 Leather, Food, Transportation Equipment, Textiles and Lumber followed Paper in that order.

The county totals reflected the industrial patterns with areas heavy with paper industry showing the most intensive development.

The distribution of the investment figures by Industry, County and Size of Establishment are shown on the page following.
