Census
of
Maine
Manufactures
1992

John R. McKernan, Jr Governor

Charles A. Morrison
Commissioner

William A. Peabody

Director

DEPARTMENT OF LABOR Bureau of Labor Standards Research & Statistics Division

AUTHORIZATION

Maine Revised Statutes 1964, Title 26, §§ 42, 43, 46: "The Bureau shall collect, assort and arrange statistical details relating to industrial pursuits in the State. He (the Director) may cause to be printed and distributed bulletins that shall be of public interest and benefit to the State."

COVERAGE

This survey, insofar as possible, is of universal coverage for Maine manufacturing establishments ranging from the single proprietorships to the largest corporations. Reports covering 2,371 establishments were received since the original mailing in March of 1993. Of these, 111 either did not operate or went out of business during 1992. Final tabulations, according to major breakdown, will appear as usual in the next Census. These tabulations will include any late reports which are not included in this Census.

Taking into consideration the nature of the Maine economy and the extent of coverage in this survey, the data contained in the <u>Census of Maine Manufactures 1992</u> represent a comprehensive and valid statistical analysis of the Maine manufacturing economy.

CENSUS OF MAINE MANUFACTURES

1992

The Research and Statistics Division of the Bureau of Labor Standards gratefully appreciates the contributions made by others toward this publication.

Thanks are due:

To Maine's manufacturing businesses for their cooperation in the collection of Census data, which makes this publication possible;

To the staff of the Bureau of Employment Security's Division of Economic Analysis and Research for their cooperation in providing the employment and wage data herein.

Prepared by:

Research & Statistics Division

Barbara A. Chenoweth, Statistician

Robert W. Leighton, Statistician

Maine Production Value

Maine's gross value of manufacturing product increased 2.9 percent to \$11,130.3 million in 1992, making a small recovery from its downward trend in 1991. Adjusting for inflation (using the Producer Price Index as a deflator), the constant dollar value of Maine manufactures rose 2.0 percent in 1992 after three straight years of decline. (See Appendix F.)

Figure 1. Value of Manufactured Product in Current and Constant Dollars

Maine 1982–1992

Durable Goods

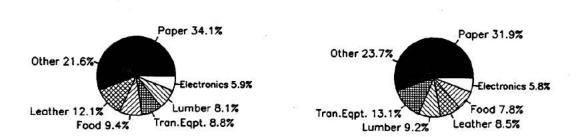

The gross value of manufacturing product for durable goods rose \$256.9 million (6.7%) over 1991. Notable increases occurred in the Transportation Equipment group which gained \$132.7 million (10.0%) and in the Lumber & Wood Products group which increased \$75.8 million (8.0%). Of the nine industry groups making up durable goods, only two recorded a decrease in 1992. The Electronic Equipment group dipped 3.4 percent or \$22.9 million. The Precision Instruments group decreased 2.5 percent or \$1.3 million.

Nondurable Goods

The gross value of product for nondurable goods increased 0.9 percent in 1992, up \$60.7 million from 1991. The Leather group increased 13.4 percent or \$110.7 million in 1992. The Textiles group was up 25.0 percent or \$91.6 million from 1991. The Miscellaneous group recorded an increase of 25.3 percent or \$10.1 million in 1992. Of the ten industry groups making up nondurable goods, only two recorded a decrease in 1992. The Paper group fell 5.6 percent or \$209.0 million. The Rubber & Plastics group dipped 1.9 percent or \$6.7 million.

Figure 2. Value of Manufactured Product, Percentage by Major Industry Group Maine 1982 & 1992

1982

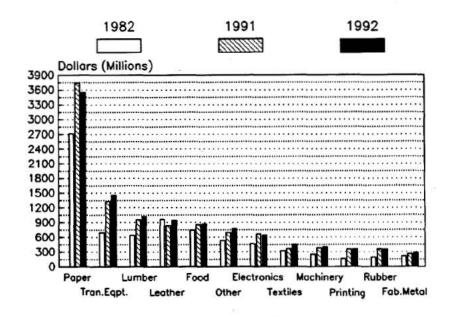

1992

The Paper industry continued to dominate the State's manufacturing economy with a total product value of \$3,546.7 million in 1992. The Transportation Equipment group followed with a value of \$1,462.1 million which was a 10.0 percent increase over 1991. The Lumber & Wood Products group was third in 1992 with a \$1,025.9 million value of product which was 8.0 percent higher than 1991.

In sharp contrast to 1991, only four industries recorded a decrease in product value in 1992. Those industries were the Paper group (-5.6%), Electronic Equipment group (-3.4%), Precision Instruments (-2.5%) and Rubber & Plastics (-1.9%).

Figure 3. Value of Manufactured Product by Major Industry Group Maine 1982, 1991 & 1992

Manufacturing Employment

Employment in Maine manufacturing decreased for the fourth consecutive year but at a slower rate than 1991. Employment in manufacturing establishments dipped 2.1 percent to 90,965 workers. Employment in industries producing durable goods decreased 2.3 percent to 40,840 employees. Employment in industries producing nondurable goods dipped 2.0 percent to 50,125 workers in 1992. The largest loss was in the Paper group with a decrease of 971 employees (-5.9%). Following Paper was the Electronic Equipment group with a decrease of 833 employees (-10.9%).

There were no notable gains in employment in any of the manufacturing industries during 1992. The largest increases were in the Miscellaneous group which gained 154 employees (22.4%), the Food group which gained 133 employees (2.0%) and the Transportation Equipment group which gained 100 employees (0.7%).

Figure 4.

Manufacturing Employment Maine 1982–1992

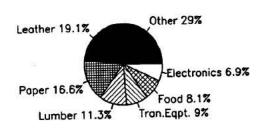

The Paper industry had the largest workforce in 1992 with 15,598 employees which is a 17.1 percent share of the overall employment in manufacturing. Transportation Equipment employed 13,837 workers (15.2%) followed by Lumber & Wood Products which employed 10,340 workers (11.4%) and the Leather group which employed 9,791 (10.8%).

Manufacturing Employment, Percentage by Major Industry Group Maine 1982 & 1992

1982

1992

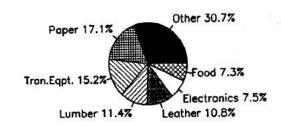

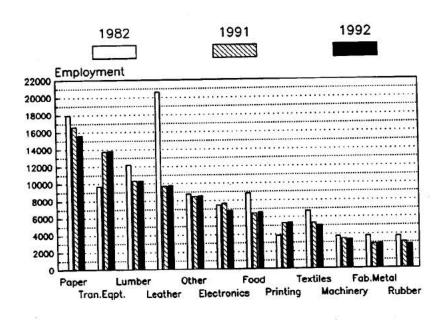

Figure 6.

Manufacturing Employment by Major Industry Group Maine 1982, 1991 & 1992

The percentage breakdown of employment by gender was basically unchanged from 1991. Males made up 70.1 percent (63,799 employees) of Maine's manufacturing work force and females made up 29.9 percent (27,166 employees). Employment of females decreased in 1992 by 3.7 percent (1,057) while employment of males decreased 0.9 percent (574).

As illustrated in Figure 5, the most notable difference in manufacturing employment between 1982 and 1992 was the decline of employment in the Leather industry. This industry employed the highest number of workers in manufacturing. This share of employment has fallen from 19.1 percent in 1982 to 10.8 percent in 1992.

Union Coverage

The number of unionized manufacturing workers in Maine fell for the fourth straight year to 24,516 members (-10.3%) in 1992. Union membership within the Paper industry dropped by 1,613 workers (-13.2%). The Textile group suffered a decrease of 610 union members (-45.5%) and the Transportation Equipment group was down by 594 union members (-7.9%). The only substantial increase was in the Lumber & Wood Products group with a gain of 343 union members (25.3%).

The percentage of unionized manufacturing workers declined in 1992 to 27.0 percent of the overall manufacturing employment.

Of all unionized manufacturing workers in the state, 43.3 percent were in the Paper industry. This industry also had the highest reported proportion of unionization with 68.0 percent of all paper workers covered.

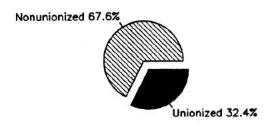

The Transportation Equipment and Lumber & Wood Products groups followed with a 28.2 percent (6.914 employees) share and a 6.9 percent (1.701 employees) share, respectively, of all unionized manufacturing workers.

Figure 7.

Manufacturing Employment Percentage Covered by Union Contracts Maine 1982 & 1992

1982

1992

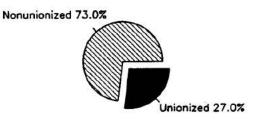

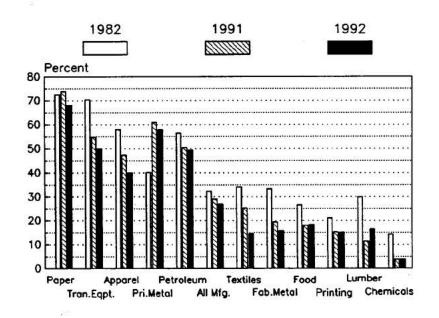

Figure 8.

Manufacturing Employment by Major Industry Group, Percentage Covered by Union Contracts Maine 1982, 1991 & 1992

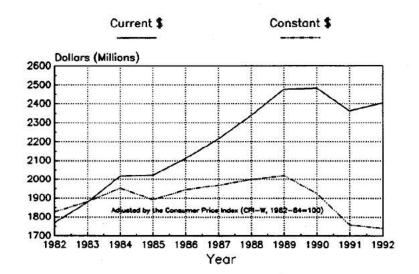

Gross Wages

Gross wages in Maine manufacturing increased 1.8 percent from \$2,361.9 million in 1991 to \$2,404.2 million in 1992. The Paper industry accounted for 25.9 percent of all manufacturing wages in the state, paying out \$623 million in gross wages. This was the highest of any manufacturing industry in 1992. The Transportation Equipment group and Lumber & Wood Products group followed with \$413.8 million and \$206.2 million paid, respectively.

Figure 9.

Gross Manufacturing Wages in Current and Constant Dollars Maine 1982–1992

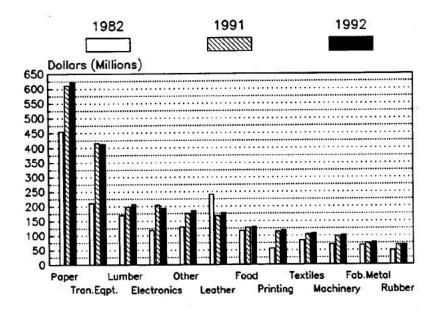

Of the five industries that experienced a decrease in gross wages in 1992, the Electronic Equipment group recorded the only significant change, falling 5.7 percent.

Large increases in gross wages in 1992 occurred in the Paper industry which increased \$12.8 million (2.1%) and in the Leather industry which increased \$9.3 million (5.7%).

Figure 10.

Gross Manufacturing Wages by Major Industry Group Maine 1982, 1991 & 1992

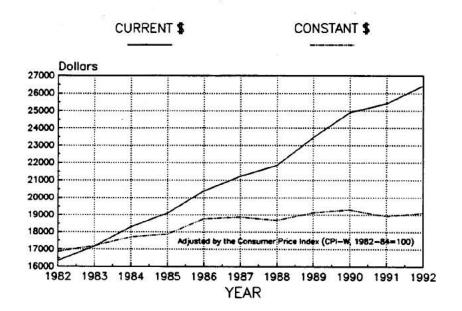

Average Wages

The average yearly wage for Maine manufacturing workers increased by \$1.017 (4.0%) to \$26,430 in 1992. By comparison, the annual average Consumer Price Index rose 2.9 percent between 1991 and 1992. (See Appendix F.) As a result, Maine manufacturing workers had a 1.1 percent increase in buying power.

Figure 11.

Average Manufacturing Wages in Current and Constant Dollars Maine 1982-1992

Paper industry workers again received the highest reported average wage in 1992. Employees in this industry were paid \$39,939, which was 151.1 percent of the Maine manufacturing average for 1992. Apparel industry workers received the lowest average wage in 1992. Workers in this industry were paid \$15,814, which was 59.8 percent of the overall average. The largest percentage increases in average wages for 1992 occurred in the Apparel.

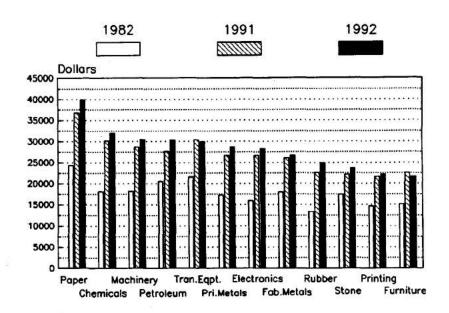

Rubber & Plastics and Petroleum & Coal Products groups which rose 10.2 percent (\$1,460).

10.2 percent (\$2,295) and 9.7 percent (\$2.693), respectively.

Only three industries experienced a decrease in average wages. They were the Miscellaneous group, down 7.6 percent (\$1,317); the Furniture group, down 3.8 percent (\$863); and the Transportation Equipment group, down 1.4 percent (\$431).

Figure 12.

Average Manufacturing Wages by Major Industry Group Maine 1982, 1991 & 1992

Capital Expenditures

Capital expenditures were down 0.9 percent in 1992 to \$458.6 million which is a decrease of \$4.1 million from 1991.

Capital expenditures for durable goods decreased 7.5 percent in 1992 to \$118.7 million.

Major reductions in spending were recorded in the Electronic Equipment group and the Transportation Equipment group with decreases of \$91.0 million (-24.0%) and \$5.5 million (-14.4%) respectively.

Notable increases in capital expenditures were seen in most of the durable goods industries. The Precision Instruments group and the Machinery group experienced the highest percentage increases of 58.6 percent (\$0.3 million) and 43.8 percent (\$3.4 million), respectively. Industries with the largest expenditures for capital in durable goods were the Transportation Equipment group, \$32.7 million, and the Lumber & Wood Products group, \$30.1 million.

Capital expenditures for nondurable goods increased 2.1 percent to \$341.5 million in 1992. The Leather group recorded the largest dollar increase of \$7.5 million (64.7%). Other substantial increases were in the Printing & Publishing group, the Food group, and the Textiles group with increases of \$5.4 million (65%), \$4.9 million (19.4%) and \$3.1 million (29.2%), respectively.

The only decrease in spending for capital expenditures in the nondurable goods category were in the Paper group, \$10.9 million (-4.4%), and the Chemical group, \$7.5 million (-45.5%).

Figure 13.

Capital Expenditures in Manufacturing in Current and Constant Dollars Maine 1982–1992

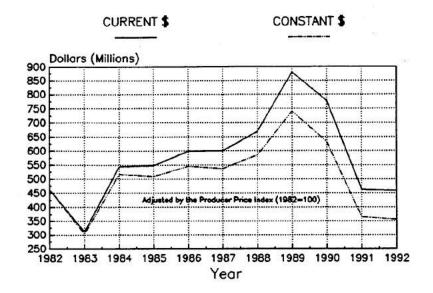

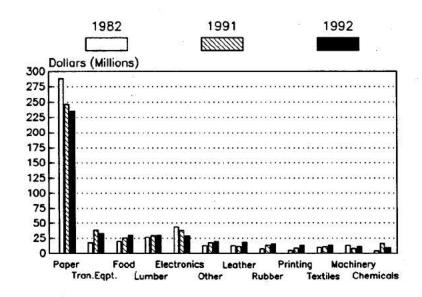

Figure 14.

Capital Expenditures in Manufacturing by Major Industry Group Maine 1982, 1991 & 1992

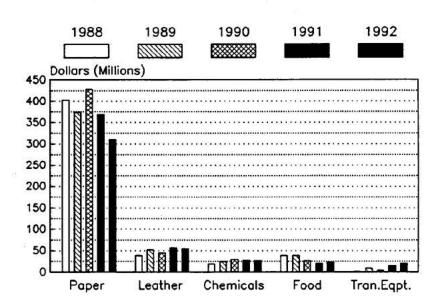

Foreign Imports

Imports used in the manufacturing process in 1992 decreased 13.7 percent (\$80.2 million). The largest decrease was in the Paper group, which spent \$58.8 million less than in 1991. Other major reductions occurred in the Electronic Equipment group and the Textiles group where spending was down \$22.5 million (-83.1%) and \$11.8 million (-2.0%), respectively.

The largest increase in import spending were in the Lumber group, \$9.1 million (87.6%), the Transportation Equipment group, \$5.3 million (34.9%), and the Food group, \$2.4 million (12.4%).

Figure 15.

Imports Used in Manufacturing by Major Industry Group Maine 1988–1992

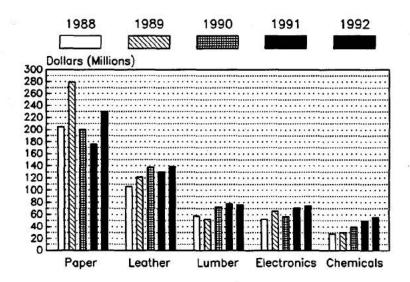

Foreign Exports

Manufactured goods exported to countries outside the U.S. in 1992 decreased by \$122.3 million (-13.5%). The Durable Goods exports were \$214.9 million less than 1991. This decrease of 44.5 percent was, in large part, due to the \$211.8 million (-91.2%) decrease in the Transportation Equipment group. The Furniture group experienced a \$4.7 million (-90.6%) decline in its exports. The Machinery group was down by \$6.6 million (12.2%). The Primary Metals group increased its exports by \$10 million (122.3%) and was one of only three groups in durable goods to experience an increase.

Exports of nondurable goods increased \$99.4 million (23.4%) in 1992. The largest increase was in the Paper group which increased its exports by 53.4 million (30.4%). The Food group followed with an increase of \$25.5 million (91.1%). The Chemicals group increased its exports by \$5.7 million (11.7%) in 1992. Figure 16 illustrates a five year history of exports for the leading industries in 1992.

Figure 16.

Manufactured Exports by Major Industry Group Maine 1991-1992

Value of Manufacturing Product by County Group

The I-95 Corridor continued to be the top producer of manufactured product. In 1992 this area recorded a \$281.2 million (4.2%) increase in value of product. (See Table 4.) York, Cumberland, and Penobscot counties all recorded over one billion dollars in manufactured product. York County increased its production value by \$190.8 million (12.7%). Cumberland County recorded an increase of \$170.6 million (11.8%). Penobscot County experienced a decrease of \$87.4 million (-5.9%).

The Western group of counties was the second leading area with a \$2.29 billion and only a negligible decrease in value of product. The Eastern area, \$68.4 million (8.9%) and Midcoast area, \$29.3 million (8.6%) both experienced increases in 1992. The Northern area, however, experienced a \$60.4 million (-0.7%) decrease in 1992.

APPENDIX A

Technical Notes and Definitions

AVERAGE GROSS WAGES is the figure obtained by dividing GROSS WAGES by the TOTAL EMPLOYMENT.

CIVIL DIVISIONS are geographical units of government. Major civil divisions are counties; minor civil divisions are cities, towns, plantations, and townships.

ECONOMIC AREAS are defined in Appendix C.

EMPLOYMENT is the number of employees reported in each month, as of the payroll period including the 12th of the month, averaged at the establishment level over the full twelve months.

ESTABLISHMENT is defined as a single physical location where industrial operations are performed; it is, therefore, a place of business rather than a legal entity or company which may have units in many locations. Where appropriate (e.g., logging operations) combined reports have been assigned to no specific civil division, merely to the county in which said principal location is found. A small number of multi-county operations report on a statewide basis.

EXPENDITURES FOR PLANT MODERNIZATION AND EQUIPMENT (or Capital Expenditures) is the actual amount spent during the survey year and planned for the two succeeding years for three categories: New Structures and/or Additions or Alterations to Existing Structures, Purchase of Existing Structures, and Purchase of New or Used Machinery or Equipment. Land costs are excluded.

FOREIGN TRADE - EXPORTS is the sales value of goods manufactured at an establishment that are shipped to foreign countries either directly or via out-of-state agents. **IMPORTS** is the cost of materials imported from foreign countries for use in the manufacturing process at an establishment.

GROSS WAGES shows total earnings during the calendar year of all employees before deductions, as reported to the Maine Bureau of Employment Security for Unemployment Insurance taxes. Before 1976, executives were excluded and wages were reported directly to the Bureau of Labor Standards. Because various fringe benefits such as payroll taxes, insurance, etc. paid by employers, are excluded, this data does not represent total labor costs on the part of the employer.

SPECIAL STUDIES from Census data are available upon written request to William A. Peabody, Director, Bureau of Labor Standards, State House Station #45, Augusta, Maine 04333-0045. The Bureau reserves the right to reject any request or to charge for costs incurred.

STANDARD INDUSTRIAL CLASSIFICATION (SIC) The Standard Industrial Classification system as compiled by the Executive Office of the President, Office of Management and Budget, is used to determine the industry title applicable to each establishment. Descriptions of major industry groups may be found in Appendix B. Each establishment has been classified according to its <u>principal</u> activity.

VALUE OF PRODUCT is the net selling price of all goods manufactured or processed during the calendar year. If industrial operations were on a contractual basis, the total of amounts received for contract work or services performed has been included.

WORKERS UNDER UNION CONTRACT is the number of workers organized under a union contract and/or a collective bargaining agreement. It represents the number from one representative payroll period; the comparative figure for NUMBER OF WORKERS is an average for the year.

APPENDIX B

Major Industry Descriptions, 1987 SIC

THE DIVISION AS A WHOLE

The manufacturing division includes establishments engaged in the mechanical or chemical transformation of materials or substances into new products. These establishments are usually described as plants, factories, or mills and characteristically use power driven machines and materials handling equipment. Establishments engaged in assembling component parts of manufactured products are also considered manufacturing if the new product is neither a structure nor other fixed improvement. Also included is the blending of materials, such as lubricating oils, plastics, resins, or liquors.

The materials processed by manufacturing establishments include products of agriculture, forestry, fishing, mining, and quarrying as well as products of other manufacturing establishments. The new product of a manufacturing establishment may be "finished" in the sense that it may be "semi-finished" to become a raw material for an establishment engaged in further manufacturing. For example, the product of the copper smelter is the raw material used in electrolytic refineries; refined copper is the raw material used by certain electrical equipment manufacturers.

The materials used by manufacturing establishments may be purchased directly from producers, obtained through customary trade channels, or secured without recourse to the market by transferring the product from one establishment to another which is under the same ownership. Manufacturing production is usually carried on for the wholesale market, for interplant transfer, or to order for industrial users, rather than for direct sale to the domestic consumer.

20 FOOD AND KINDRED PRODUCTS: This major group includes establishments manufacturing or processing food and beverages for human consumption and certain related products, such as manufactured ice, chewing gum, vegetable and animal fats and oils, and prepared feeds for animals and fowls.

22 TEXTILE MILL PRODUCTS: This major group includes establishments engaged in performing any of the following operations: (1) preparation of fiber and subsequent manufacturing of yarn, thread, braids, twine, and cordage; (2) manufacturing broad woven fabric, narrow woven fabric, knit fabric, and carpets and rugs from yarn; (3) dyeing and finishing fiber, yarn, fabric, and knit apparel; (4) coating, waterproofing, or otherwise treated fabric; (5) the integrated manufacture of knit apparel and other finished articles from yarn; and (6) the manufacture of felt goods, lace goods, nonwoven fabrics, and miscellaneous textiles.

This classification makes no distinction between the two types of organizations which operate in the textile industry:

(1) the "integrated" mill which purchases materials, produces textiles, and related articles within the establishment, and sells the finished products; and (2) the "contract" or "commission" mill which processes materials owned by others. Converters or other manufacturing industries; establishments which assign materials to contract mills for processing (other than knitting) are classified in nonmanufacturing industries; establishments which assign yarns to outside contractors or commission knitters for the production of knit products are also classified in this Group.

23 APPAREL AND OTHER FINISHED PRODUCTS MADE FROM FABRICS AND SIMILAR MATERIALS: This major group, known as the cutting-up and needle trades, includes establishments producing clothing and fabricating products by cutting and sewing purchased woven or knit textile fabrics and related materials, such as leather, rubberized fabrics, plastics, and furs. Included in the apparel industries are three types of establishments: (1) the "regular" or insider factories, (2) contract factories, and (3) apparel jobbers. The regular factories perform all of the usual manufacturing functions within their own plant; the contract factories manufacturing apparel from materials owned by others; and apparel jobbers perform the entrepreneurial functions of a manufacturing company, such as buying raw materials, designing and preparing samples, arranging for the manufacture of the garments from their materials and selling of the finished apparel.

Custom tailors and dressmakers not operating on a factory basis are classified in Retail Trade;

establishments which purchase and resell finished garments but do not perform the functions of the apparel jobbers are classified in Wholesale Trade.

APPENDIX B (Continued)

- 24 LUMBER AND WOOD PRODUCTS, EXCEPT FURNITURE: This major group includes logging camps engaged in cutting timber and pulpwood; merchant sawmills, lath mills, shingle mills, cooperage stock mills, planing mills, and plywood mills and veneer mills engaged in producing lumber and wood basic materials; and establishments engaged in manufacturing finished articles made entirely or mainly of wood or wood substitutes. Certain types of establishments producing wood products are classified elsewhere. For example, furniture and office and store fixtures are classified in Major Group 25; musical instruments, toys, and playground equipment, and caskets in Major Group 39. Woodworking in connection with construction, in the nature of reconditioning and repair, or performed to individual order, is classified in nonmanufacturing industries.
- 25 FURNITURE AND FIXTURES: This major group includes establishments engaged in manufacturing household, office, public building, and restaurant furniture; and office and store fixtures. Establishments primarily engaged in the production of millwork and wood kitchen cabinets are classified in Major Group 24; cut stone and concrete furniture in Major Group 32; laboratory and hospital furniture in Major Group 38; beauty and barber shop furniture in Major Group 39; and woodworking to individual order or in the nature of reconditioning and repair in nonmanufacturing industries.
- 26 PAPER AND ALLIED PRODUCTS: This major group includes the manufacture of pulps from wood and other cellulose fibers and from rags; the manufacture of paper and paperboard; and the manufacture of paper and paperboard into converted products, such as paper coated off the paper machine, paper bags, paper boxes, and envelopes. Certain types of converted paper products are classified elsewhere, such as abrasive paper in Major Group 32; carbon paper in Major Group 39; and photosensitized and blueprint paper in Major Group 38.
- 27 PRINTING, PUBLISHING, AND ALLIED PRODUCTS: This major group includes establishments engaged in printing by one or more of the common processes, such as letter press, lithography, gravure, or screen; and those establishments which perform services for the printing trade, such as bookbinding, typesetting, engraving, photoengraving, and electrotyping. This major group also includes establishments engaged in publishing newspapers, books, and periodicals, regardless of whether or not they do their own printing. News syndicates are classified in Service Industries, and textile printing and finishing in Major Group 22.
- 28 CHEMICALS AND ALLIED PRODUCTS: This major group includes establishments producing basic chemicals and establishments manufacturing products by predominantly chemical processes. Establishments classified in this major group manufacture three general classes of products: (1) basic chemicals, such as acids, alkalies, salts, and organic chemicals; (2) chemical products to be used in further manufacture, such as synthetic fibers, plastics materials, dry colors, and pigments; (3) finished chemical products to be used for ultimate consumption, such as drugs, cosmetics, and soaps; or to be used as materials or supplies in other industries, such as paints, fertilizers, and explosives. The mining of natural rock salt is classified in mining industries. Establishments primarily engaged in manufacturing nonferrous metals and high percentage ferrous alloys are classified in Major Group 33; silicon carbide in Major Group 32; baking powder, other leavening compounds, and starches in Major Group 20; and artists' colors in Major Group 39. Establishments primarily engaged in packaging, repackaging, and bottling of purchased chemical products, but not engaged in manufacturing chemicals and allied products, are classified in trade industries.
- 29 PETROLEUM REFINING AND RELATED INDUSTRIES: This major group includes establishments primarily engaged in petroleum refining, manufacturing paving and roofing materials, and compounding lubricating oils and greases from purchased materials. Establishments manufacturing and distributing gas to consumers are classified in public utilities industries, and those primarily engaged in producing coke and by-products in Major Group 33.
- 30 RUBBER AND MISCELLANEOUS PLASTICS PRODUCTS: This major group includes establishments manufacturing from natural, synthetic, or reclaimed rubber, gutta-percha, balata, or gutta siak, rubber products such as tires, rubber footwear, mechanical rubber goods, heels and soles, flooring, and rubber sundries. This group also includes establishments primarily manufacturing tires, but establishments primarily recapping and retreading automobile tires are classified in Services. This group also includes establishments engaged in molding primary plastics for the trade, and manufacturing miscellaneous finished plastics products. The manufacture of elastic webbing is classified in Major Group 22; products made of elastic webbing and garments made from the rubberized fabrics in Major Group 23; and synthetic rubber in Major Group 28.
- 31 LEATHER AND LEATHER PRODUCTS: This major group includes establishments engaged in tanning, currying, and finishing hides and skins, and establishments manufacturing finished leather and artificial leather products and some similar products made of other materials. Leather converters are also included.

APPENDIX B (Continued)

32 STONE, CLAY, GLASS AND CONCRETE PRODUCTS: This major group includes establishments engaged in manufacturing flat glass and other glass products, cement, structural clay products, pottery, concrete and gypsum products, cut stone, abrasive and asbestos products, etc., from materials taken principally from the earth in the form of stone, clay, and sand. When separate reports are available for mines and quarries operated by manufacturing establishments classified in this major group, the mining quarrying activities other than those of Minerals, ground or treated, are classified herein with the manufacturing operations.

If separate reports are not available for crushing, grinding, and other preparation activities of Minerals, ground or treated, these establishments are classified in Mining.

- 33 PRIMARY METAL INDUSTRIES: This major group includes establishments engaged in the smelting and refining of ferrous and nonferrous metals from ore, pig. or scrap; in the rolling, drawing, and alloying of ferrous and nonferrous metals; in the manufacture of castings and other basic products of ferrous and nonferrous metals; and in the manufacture of nails, spikes, and insulated wire and cable. This major group also includes the production of coke. Establishments primarily engaged in manufacturing metal forgings or stampings are classified in Major Group 34.
- 34 FABRICATED METAL PRODUCTS, EXCEPT MACHINERY AND TRANSPORTATION EQUIPMENT: This major group includes establishments engaged in fabricating ferrous and nonferrous metal products such as metal cans, tinware, hand tools, cutlery, general hardware, and nonelectric heating apparatus, fabricated structural metal products, metal forgings, metal stampings, ordnance (except vehicles and guided missiles), and a variety of metal and wire products not elsewhere classified. Certain important segments of the metal fabricating industries are classified in other major groups, such as machinery in Major Group 35 and 36; transportation equipment, including tanks, in Major Group 37; professional scientific and controlling instruments, watches and clocks in Major Group 38; and jewelry and silverware in Major Group 39. Establishments primarily engaged in producing ferrous and nonferrous metals and their alloys are classified in Major Group 33.
- 35 INDUSTRIAL AND COMMERCIAL MACHINERY AND COMPUTER EQUIPMENT: This major group includes establishments engaged in manufacturing industrial and commercial machinery and equipment and computers. Included are the manufacture of engines and turbines; farm and garden machinery; construction, mining, and oil field machinery; elevators; metalworking machinery; special industry machinery; computer and peripheral equipment and office machinery; and refrigeration and service industry machinery. Machines powered by built-in or detachable motors ordinarily are included in this major group, with the exception of electrical household appliances.
- 36 ELECTRONIC AND OTHER ELECTRICAL EQUIPMENT AND COMPONENTS, EXCEPT COMPUTER EQUIPMENT: This major group includes establishments engaged in manufacturing machinery, apparatus, and supplies for the generation, storage, transmission, transformation, and utilization of electrical energy. The manufacture of household appliances is included in this group, but industrial machinery and equipment powered by built-in or detachable electric motors is classified in Major Group 35. Establishments primarily engaged in manufacturing instruments for indicating, measuring, and recording electrical quantities are classified in Major Group 38.
- 37 TRANSPORTATION EQUIPMENT: This major group includes establishments engaged in manufacturing equipment for transportation of passengers and cargo by land, air and water. Important products produced by establishments classified in this major group include motor vehicles, aircraft, guided missiles and space vehicles, ships, boats, railroad equipment, and miscellaneous transportation equipment such as motorcycles, bicycles, and snowmobiles. Establishments primarily engaged in manufacturing mobile homes are classified in Major Group 24.
- 38 MEASURING, ANALYZING, AND CONTROLLING INSTRUMENTS, PHOTOGRAPHIC, MEDICAL, AND OPTICAL GOODS; WATCHES AND CLOCKS: This major group includes establishments engaged in Manufacturing instruments (including professional and scientific) for measuring, testing, analyzing, and controlling, and their associated sensors and accessories; optical instruments and lenses; surveying and drafting instruments; surgical, medical, and dental instruments, equipment, and supplies; ophthalmic goods; photographic equipment and supplies; and watches and clocks.
- 39 MISCELLANEOUS MANUFACTURING INDUSTRIES: This major group includes establishments primarily engaged in manufacturing products not classified in any other manufacturing major group. Industries in this group fall into the following categories: jewelry, silverware and plated ware; musical instruments; toys, sporting and athletic goods; pens, pencils, and other office and artists' materials, buttons, costume novelties, miscellaneous notions; brooms and brushes; caskets; and other miscellaneous manufacturing industries.

NOTE: More detailed definitions may be obtained directly from the Standard Industrial Classification Manual, 1987 Revision.

APPENDIX C

Geographic Definitions of Economic Areas

This publication has contained a tabulation entitled "Economic Areas" since 1954. This series consists of thirty-one areas which were delineated on the basis of population and manufacturing employment cross-sectional evaluation. Only those towns with manufacturing businesses are listed below. A complete listing of the Maine Labor Market Areas can be found in the 1992 Maine Employment and Earnings Statistical Handbook. In 1987, a major reorganization of the economic areas was completed. Care should be exercised in making comparisons of these thirty-one areas with the earlier areas as there have been changes made in almost all of the regions.

The civil division with the largest population is in bold letters, and the civil division with the most workers employed in manufacturing is underlined. The minor civil division contained in the areas are as follows:

Атеа <u>No.</u>	1991 <u>Population</u>	Town
1	48,228	Berwick, Eliot, Kittery, N. Berwick, S. Berwick, Wells, York
2	36,471	Alfred, Lebanon, Limerick, Newfield, Sanford, Shapleigh, Waterboro
3	56,005	Arundel, Biddeford, Dayton, Kennebunk, Kennebunkport, Lyman, Saco
4	215,927	Buxton, Cape Elizabeth, Cumberland, Falmouth, Freeport, Gorham, Gray, Hollis, N. Yarmouth, Old Orchard Beach, <u>Portland</u> , Raymond, Scarborough, S. Portland, Standish, Westbrook, Windham, Yarmouth
5	24,850	Baldwin, Bridgton , Brownfield, Casco, Cornish, Denmark, <u>Fryeburg</u> , Hiram, Limington, Naples, Parsonfield, Porter
6	60,495	Arrowsic, <u>Bath</u> , Bowdoinham, Brunswick , Durham, Georgetown, Harpswell, New Gloucester, Pownal, Topsham, West Bath, Woolwich
7	86,959	Auburn, Greene, Lewiston, Lisbon, Mechanic Falls, Poland, Sabattus
8	21,996	Boothbay, Boothbay Harbor, <u>Bristol</u> , Damariscotta, Edgecomb, Jefferson, Newcastle, Nobleboro, S. Bristol, Southport, Whitefield, Wiscasset
9	38,600	Appleton, Camden, Cushing, Friendship, North Haven, <u>Rockland</u> , Rockport, St. George, S. Thomaston, Thomaston, Union, Vinal Haven, Warren, Washington, Waldoboro
10	25,783	Buckfield, Greenwood, Harrison, Hebron, Lovell, Minot, Norway, Oxford, Paris, Stoneham, Sumner, Sweden, Waterford, West Paris, Woodstock
11	9,804	Leeds, Livermore Falls, Turner
12	63,644	<u>Augusta</u> , Chelsea, Farmingdale, Gardiner, Hallowell, Litchfield, Monmouth, Pittston, Randolph, Readfield, Wayne, W. Gardiner, Windsor, Winthrop, Richmond
13	20,786	Andover, Bethel, Canton, Dixfield, Hanover, Hartford, Magalloway Plt., Mexico, Newry, Parkertown Twp, Peru, <u>Rumford</u>
14	26,840	Avon, Carrabassett Valley, Carthage, Chesterville, Coburn Gore, Eustis, Farmington , <u>Jay</u> , Kingfield, New Sharon, New Vineyard, Phillips, Rangeley, Strong, Temple, Wilton
15	52,191	Albion, Belgrade, Benton, China, Clinton, Mount Vernon, Oakland, Sidney, Vassalboro, Waterville , Winslow
16	27,496	<u>Belfast</u> , Belmont, Brooks, Freedom, Islesboro, Liberty, Lincolnville, Monroe, Montville, Morrill, Northport, Palermo, Prospect, Searsmont, Searsport, Stockton Springs, Swanville, Thorndike, Troy, Unity, Waldo

APPENDIX C (Continued)

Area No.	1991 <u>Population</u>	Town
17	43,427	Bar Harbor, Blue Hill, Brooklin, <u>Bucksport</u> , Castine, Cranberry Isles, Deer Isle, Elisworth , Franklin, Gouldsboro, Hancock, Lamoine, Mariaville, Mount Desert, Orland, Penobscot, Sedgwick, Sorrento, Southwest Harbor, Stonington, Sullivan, Surry, Swans Island, Tremont, Trenton, Winter Harbor
18	46,861	Anson, Athens, Bingham, Cambridge, Canaan, Caratunk Plt., Comstock Twp Detroit, Embden, Fairfield, Harmony, Hartland, Highland Plt., Jackman, Madison, Moose River, New Portland, Norridgewock, Palmyra, Pittsfield, Pittston Academy Grant, Rockwood Strip, St. Albans, Skowhegan, Smithfield, Solon, Starks, The Forks Plt., West Forks Plt.
19	18,362	Bradford, Carmel, Charleston, Corinna, Corinth, <u>Dexter</u> , Newburgh, Newport, Stetson
20	81,416	Bangor, Brewer, Eddington, Hampden, Holden, Kenduskeag, Old Town, Orono, Orrington, Veazie, Winterport
21	6,436	Bradley, Edinburg, Greenbush, Greenfield, Lagrange, Milford
22	26,825	<u>Baileyville</u> , Baring Plt., Beals, Calais , Cherryfield, Columbia Falls, Cutler, Danforth, E. Machias, Eastport, Jonesboro, Jonesport, Lubec, Machias, Machiasport, Milbridge, Pembroke, Perry, Princeton, Steuben, T36 MD, Topsfield, Waite, Wesley
23	1,908	Greenville
24	14,861	Abbot, Brownville, <u>Dover-Foxcroft</u> , Guilford , Milo, Monson, Parkman, Sangerville, Sebec, T7 R13, T7 R15, Wellington
25	12,814	Burlington, Chester, Enfield, Howland, Kingman Twp., Lee <u>Lincoln</u> , Mattawamkeag, Passadumkeag, Prentiss Plt., Springfield, Winn,
26	10,887	East Millinocket, Grindstone Twp., Long A Twp., Medway, Millinocket
27	5,152	Crystal, Island Falls, Oakfield, <u>Patten</u> , Sherman, Smyrna, Stacyville
28	9,346	Haynesville, Houlton, Linneus, Monticello, Orient, Reed Plt., Weston
29	9,459	Allagash Plt., Eagle Lake, <u>Fort Kent</u> , Frenchville, St. Agatha, St. Francis, St. Johns Plt., Wallagrass Plt., T11 R14, T14 R15
30	35,701	Ashland, Blaine, Bridgewater, Caribou, Easton, Ft. Fairfield, Mapleton, Masardis, Nashville Plt., Perham, Portage Lake, <u>Presque Isle</u> , Wade, Washburn, Westfield, Woodland
31	7,924	<u>Madawaska</u> , Van Buren

NOTE: Since the 1991 population data is unavailable for some unorganized townships, the area population in some instances may be slightly understated. Population data is from the 1991 Maine Population Estimates. By Minor Civil Division, provided by the Maine Department of Human Services, Bureau of Health, Office of Data, Research and Vital Statistics. (1992 census data is unavailable at this time.)

APPENDIX D

Census of Maine Manufactures by Major Industry Group, 1987-1991

Industry	Year	Number Reporting	Value of Product (Thousands)	Gross Wages (Thousands)	Average Wages	Total Employment

APPENDIX F

Raw and Adjusted Data Comparisons, 1991-1992

The data on the following table has been adjusted using two major price indexes published by the U.S. Department of Labor, Bureau of Labor Statistics. The Value of Product data is adjusted by the Producer Price Index, (formerly the Wholesale Price Index) using a base year of 1982 = 100 unless noted. Wage data is adjusted by the Consumer Price Index for Urban Wage Earners and Clerical Workers and the base year is 1982-84 = 100. The adjustments made are based on the annual average for the respective index.

The Consumer Price index is a monthly statistical measure of the average change in prices in a fixed market basket of goods and services.

The CPI is based on prices of food, clothing, shelter, fuel, drugs, transportation fares, doctors' and dentists' fees, and other goods and services that people buy for day-to-day living. The quantity and quality of these items is kept essentially unchanged between major revisions so that only price changes will be measured. Prices are collected from over 18,000 tenants, 24,000 retail establishments, and 18,000 housing units for property taxes in 85 urban areas across the country. All taxes directly associated with the purchase and use of items are included in the index.

Though the CPI is often called the "Cost-of-Living Index", it measures only price change, which is just one of several important factors affecting living costs.

CPI-W

1991 Annual Average = 134.3 1992 Annual Average = 138.2

Producer Price Indexes measure average changes in prices received in primary markets of the United States by producers of commodities in all stages of processing. The sample used for calculating these indexes contains about 2,800 commodities produced in the manufacturing, agriculture, forestry, fishing, mining, gas and electricity, and public utilities sectors. The universe includes all commodities produced or imported for sale in commercial transactions in primary markets in the United States.

To the extent possible, prices used in calculating Producer Price indexes apply to the first significant commercial transaction in the United States, from the production or central marketing point. Price data are generally collected monthly, primarily by mail questionnaire. Most prices are obtained directly from producing companies on a voluntary and confidential basis. Prices generally are reported for the Tuesday of the week containing the 13th day of the month.

PERIODIC PROFILES

Upon request, The Research & Statistics Division will develop short work injury and illness profiles for specific industries or occupations. Private Sector profiles currently available include:

	SIC 50	Wholesale Trade
_	SIC 23	Apparel and Other Finished Product
	SIC 581	Eating and Drinking Places
-	SIC 531	Department Store
	SIC 203	Canned, Frozen, Preserved Fruit & Vegetables & Food Spec.
	SIC 82	Educational Services
	SIC 2499	Wood Products, Not Elsewhere Classified
	SIC 27	Printing, Publishing & Allied Product
	SIC 22	Textile Mill Products
	SIC 16	Heavy Construction other than Building

Occupational Safety and Health Newsletter

The Bureau of Labor Standards has started a quarterly newsletter, entitled, <u>Safety and Health Monitor</u>. The Newsletter will contain articles on Occupational Safety and Health topics, safety and health tips, statistics, and information on upcoming training. If you wish to receive the newsletter, we need:
