I

# 1995 Highlights

- ✔ \$13.3 billion total value of product, up 7.3% from 1994, 48.2% from 1985
  - Paper industry \$4.6 billion, up 23.7% from 1994, 53.7% from 1985
  - Transportation Equipment \$1.5 billion, down 2.0% from 1994, up 96.3% from 1985
  - Lumber & Wood Products \$1.2 billion, down 4.5% from 1994, up 34.1% from 1985
  - Electronic Equipment (except computers) \$991.9 million, up 4.5% from 1994, up 31.3% from 1985
  - Food \$969.3 million, up 3.9% from 1994, up 26.7% from 1985
- ✓ 88,078 total manufacturing employment, down 1.4% from 1994, 16.8% from 1985
- ✓ 21,907 union employees, down 6% from 1994 and 31.6% from 1985
- ✔ \$29,056 average wage, up 3.2% from 1994 and 52.1% from 1985

4

#### PURPOSE

The purpose of the census is to provide economic data to track changes in the value of goods produced, foreign imports and exports, and capital expenditures by manufacturers in the state. The data is used by city and state planners, economic developers, economists, students, business owners and others who are interested in economic data.

#### AUTHORIZATION

Maine Revised Statutes 1964, Title 26, §§ 42, 43, 46: "The Bureau shall collect, assort and arrange statistical details relating to .... industrial pursuits in the State. He (the Director) may .... cause to be printed and distributed bulletins .... that shall be of public interest and benefit to the State."

#### COVERAGE

The annual survey covers all Maine manufacturing establishments. For the 1995 Census, reports were received from 2,395 establishments. Of these, 194 either did not operate or went out of business during 1995. Final tabulations, including any late reports which are not included in this Census, will appear as usual in the next Census.

The data contained in the <u>Census of Maine Manufactures 1995</u> represent a comprehensive and valid statistical analysis of the Maine manufacturing economy.

> Alan C. Hinsey Director Bureau of Labor Standards

#### CENSUS OF MAINE MANUFACTURES

#### 1995

The Research and Statistics Division of the Bureau of Labor Standards gratefully appreciates the contributions made by others toward this publication.

Thanks are due:

To Maine's manufacturing businesses for their cooperation in the collection of Census data, which makes this publication possible;

To the staff of the Department of Labor, Division of Labor Market Information Services for their cooperation in providing the employment and wage data herein.

The contents of this publication are considered to be in the public domain and may be reproduced without permission. We do request, however, that appropriate citation be made.

#### Maine Production Value

The product value is the primary measure of the state's manufacturing activity. It is the selling price of all goods manufactured or processed (including inventories) during a calendar year.

Maine has experienced four straight of growth. In 1995 the product value for Maine's manufacturing establishments increased 7.3% (\$899.2 million) to \$13.3 billion. Adjusting for inflation (using the Producer Price Index as a deflator), the constant dollar value of Maine manufactured product rose 2.6%. (See Appendix F for a discussion of actual and adjusted data.) See Figure 1.

Figure 1.

#### Value of Manufactured Product in Actual and Adjusted Dollars Maine 1985-1995

#### Durable Goods

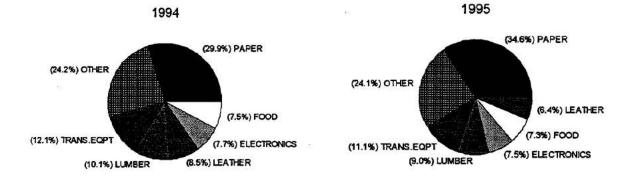

Durable goods are manufactured products designed to withstand wear and decay over time such as appliances, transportation equipment, and furniture. The gross value of durable goods in 1995 rose 0.8% (\$37.1 million) over 1994. Notable increases occurred in Electronic Equipment which increased 4.5% (\$42.4 million) and Fabricated Metals which increased 12.5% (\$42.3 million). The most notable decreases in durable goods occurred in Lumber & Wood Products which fell 4.5% (\$56.9 million) and Transportation Equipment which decreased 2.0% (\$30.5 million). Nondurable Goods

Nondurable goods are manufactured products that generally have a shorter life expectancy than durable goods (e.g., food, textiles, and paper goods).

The gross value for nondurable goods, as a whole, increased 11.4% in 1995, up \$862.1 million over 1994. The Paper industry had the largest percentage gain in product value with 23.7% (\$877.9 million) in 1995. Chemicals followed with an increase of 18.6% (\$48.0 million). Printing and Publishing had a 12.2% increase (\$51.0 million). Food and Textiles increased 3.9% (\$36.1 million) and 5.5% (\$27.0 million), respectively. Of the nondurable goods, only Leather decreased. This group fell 19.7% (\$206.8 million) in 1995. See Figure 2.

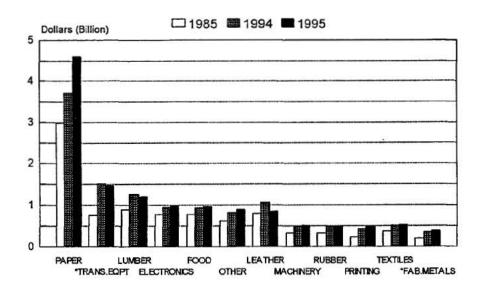

Value of Manufactured Product Percentage by Major Industry Group Maine 1994 & 1995

The manufacturing economy continues to be dominated by the Paper industry with a total product value of \$4.6 billion in 1995, up 23.7% over 1994. The Transportation Equipment group followed with a total product value of \$1.5 billion, a 2.0% decrease from 1994. The Lumber & Wood Products group was third with a \$1.2 billion value of product, a decrease of 4.5% from 1994. See Figure 3.

Figure 3.

- \* Transportation Equipment
- \* Fabricated Metals
- \*\* See Appendix B for descriptions of the major industry groups.

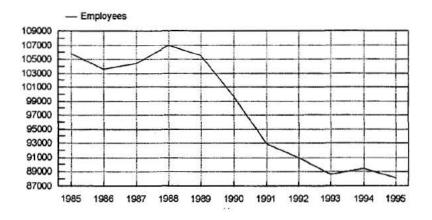

#### Manufacturing Employment

Employment in Maine manufacturing dipped 1.4% in 1995 to 88,078 workers. Employment in the durable goods industries overall remained unchanged from 1994 to 1995; although the Transportation Equipment group had 1,009 fewer employees in 1995, a decrease of 8.4%. The nondurable goods industries experienced a decline of 1,260 (2.6%) from 1994 to 48,105 workers in 1995. Several industries experienced significant drops in employment. The Paper industry was down 747 employees, a decrease of 5.0% and the Textiles industry was down 503 employees, a decrease of 9.4%.

The largest increases in employment occurred in the Electronic Equipment group which grew by 326 employees, an increase of 4.6%. The Machinery group increased by 244 employees, an increase of 6.6%. Following Machinery was the Chemicals industry which gained 240 employees, an increase of 19.0%. See Figure 4.

Figure 4.

#### Manufacturing Employment Maine 1985-1995

The Paper industry employed the largest work force in 1995 with 14,090 employees, a 16% share of the overall manufacturing employment. Transportation Equipment was the second largest employer in manufacturing with 11,073 (12.6%) workers followed by Lumber & Wood Products which employed 10,395 (11.8%) workers and the Leather industry which employed 9,219 (10.5%). See Figures 5 and 6.

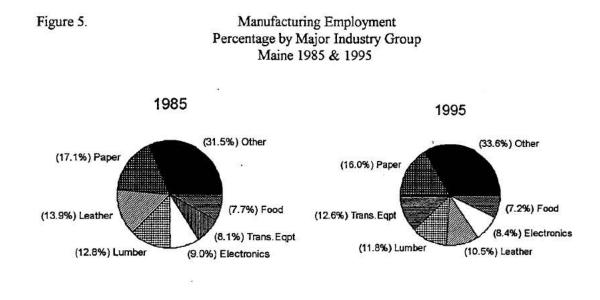

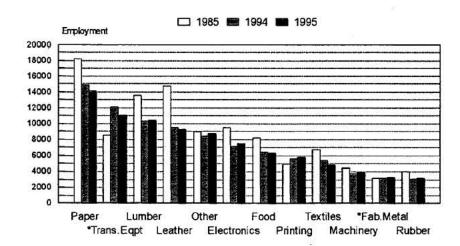

Figure 6.

Manufacturing Employment by Major Industry Group Maine 1985, 1994 & 1995

\* Transportation Equipment

\* Fabricated Metals

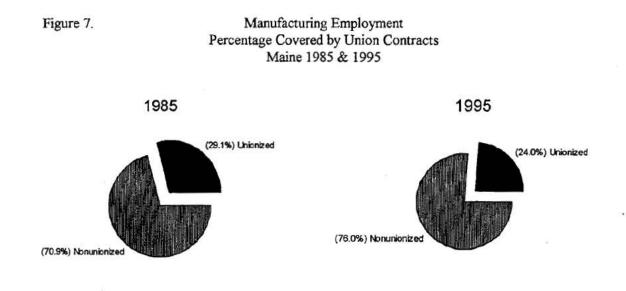

The breakdown of manufacturing employment by gender continued to change in 1995. Males made up 75.9% (66,829 employees) of Maine's manufacturing work force and females made up 24.1% (21,249 employees). Employment of males increased by 3.3% (2,139 employees) in 1995, while employment of females decreased 13.9% (3,422 employees).

The most notable changes in manufacturing employment between 1985 and 1995, as illustrated in Figures 5 and 6, were the decline of employment in the Leather industry and the increase in the Transportation Equipment. Employment has dropped in the Leather industry from 14,663 in 1985 to 9,219 (37.1%) in 1995. It has increased in the Transportation Equipment group from 8,539 in 1985 to 11,073 employees in 1995.

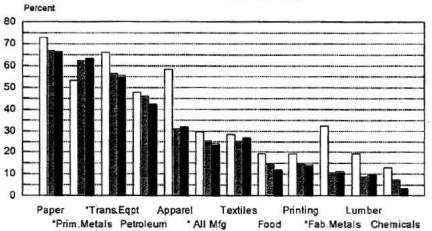

#### Union Coverage

In 1995, the number of unionized manufacturing employees in Maine dropped for the seventh year in a row to a total of 21,097 members. This was a drop of 6% from 1994 and 31.6% since 1985. The two largest decreases in union membership in 1995 were in the Transportation Equipment and Paper industries with drops of 674 (9.9%) and 524 (5.3%), respectively. The highest gains were in Lumber & Wood Products, up 97 union members (10.7%) and the Fabricated Metals group, up 22 members (6.5%).

In 1995, 24% of the manufacturing employment was unionized compared with 25.1% in 1994 and 29.1% in 1985. Forty-four percent of unionized manufacturing workers are employed in the Paper industry where over 66% of employees belong to unions. The Transportation Equipment and Textiles industries followed with 29% (6,117 employees) and 6.1% (1,297 employees) respectively, of all unionized manufacturing workers. See Figures 7 and 8.

🗀 1985 📾 1994 🔳 1995

- \* Fabricated Metals

#### Gross Wages

Gross wages in Maine manufacturing, as a whole, continued to increase in 1995; up 1.3% from 1994 to \$2.6 billion. The Paper industry accounted for 24.5% of all manufacturing wages in the state, paying out \$627.2 million in gross wages. Transportation Equipment paid \$392 in actual gross wages. Lumber and Wood Products paid \$233.7 See Figure 9.

#### Gross Manufacturing Wages in Actual and Adjusted Dollars Maine 1985-1995

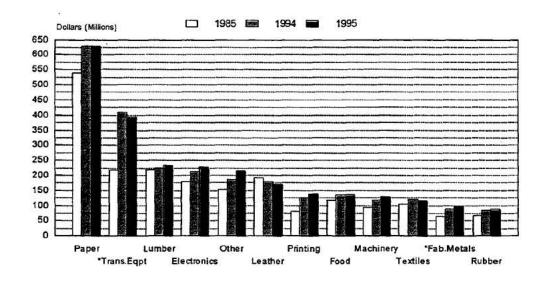

Five industries experienced decreases in gross wages during 1995. Transportation Equipment decreased \$16.2 million (4%) from 1994. Leather, Textiles, Apparel, and Paper decreased \$9.3 million (5.2%), \$6.6 million (5.5%), \$2.1 million (5.4%), \$.9 million (0.1%) respectively.

In 1995, the largest gains in gross wages occurred in Electronic Equipment which increased \$12.1 million (5.7%), Chemicals increased \$11.2 (26.8%), Machinery increased \$11.0 million (9.5%), Printing & Publishing increased \$9.9 million (7.8%), and Lumber & Wood Products increased \$9.8 million (4.4%).

See Figure 10.

Figure 10.

Gross Manufacturing Wages by Major Industry Group Maine 1985, 1994 & 1995

\* Transportation Equipment

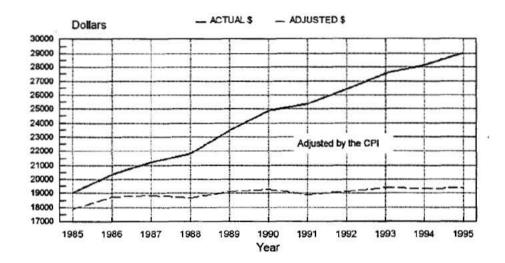

\* Fabricated Metals

#### Average Wages

In 1995, the average yearly wage for Maine manufacturing workers increased \$902 (3.2%) to \$29,056. In the same period the annual average Consumer Price Index, which measures the changes in the price of a fixed market basket of goods and services in a region, rose 2.9% (4.2 points). (See Appendix F.) As a result, Maine manufacturing workers experienced a 0.3% increase in buying power. See Figure 11.

Figure 11.

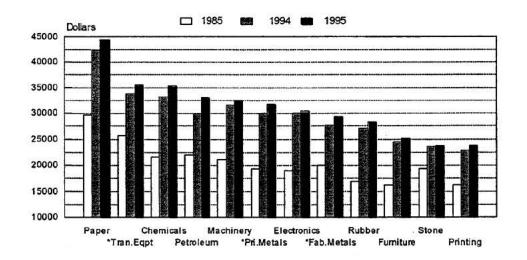

Average Manufacturing Wages in Actual and Adjusted Dollars Maine 1985 - 1995

Paper industry workers received the highest reported average wage. In 1995, Paper Industry employees in this industry were paid an average of \$44,516, which was 53.2% higher than the Maine manufacturing average for 1995. Apparel industry workers received the lowest average wage among manufacturers in 1995: earning an average of \$18,137 per year which was 62.4% of the overall average for manufacturing employees. The largest percentage increases in 1995 manufacturing wages were Petroleum & Coal Products which saw an increase of 10.3% or \$3,079; Apparel which increased 8.9% or \$1,476; Chemicals which increased 6.5% or \$2,150; and Fabricated Metals which increased 6.3% or \$1,747. The Leather industry was the only manufacturing group to experience a drop in average wages with a 2.8% decrease or a loss of \$533. See Figure 12.

#### Figure 12.

- \* Transportation Equipment
- \* Primary Metals
- \* Fabricated Metals

#### Capital Expenditures

Capital expenditures are those used for new structures or improvements to existing structures and money spent for new or used machinery and equipment. 1995 capital expenditures were up 60.4% (\$275 million) over 1994 for a total of \$730.7 million. Capital expenditures for durable goods were up 49.2% (\$94.2 million) with the Electronic Equipment group spending 120% (\$73.4 million) over what it spent in 1994. This increased spending was entirely for equipment. Lumber & Wood Products had the second largest capital expenditures with \$75.8 million. Three groups within the durable goods division had reduced capital expenditures. Fabricated Metals reduced capital spending by 36.5% (\$5.6 million), Primary Metals and Transportation Equipment reduced their spending by 24.3% (\$.8 million) and 15.6% (\$4.3 million) respectively.

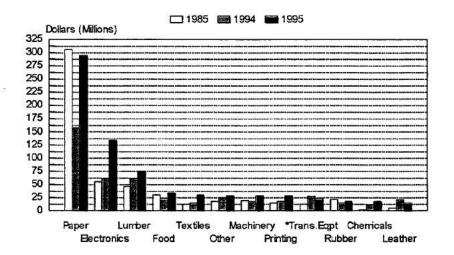

Capital expenditures for the nondurable goods division increased 68.4% (\$180.8 million). The Paper industry increased its capital spending by 88.3% (\$138.3 million). Textiles, Food, and Printing & Publishing had increases of 112.3% (\$16.1 million), 49.5% (\$11.4 million), and 48.6% (\$9.1 million) respectively. The Leather industry had the largest reduction in capital spending with a drop of 26.7% or \$5.6 million less than 1994. Petroleum & Coal Products reduced capital purchases by 18% or \$.2 million less than in 1994. See Figures 13 and 14.

#### Capital Expenditures in Manufacturing in Actual and Adjusted Dollars Maine 1985 - 1995

#### Capital Expenditures in Manufacturing by Major Industry Group Maine 1985, 1994 & 1995

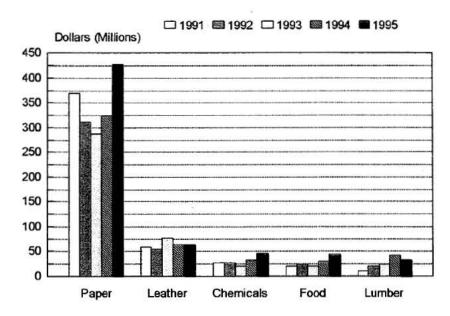

\* Transportation Equipment

#### Foreign Imports

In 1995, imports used in Maine's manufacturing process increased 21.3% (\$130.4 million) over 1994 levels. The largest increase in imported goods occurred in the Paper industry where spending was up \$102 million (31.5%). The largest decreases in import spending were in the Transportation Equipment group 50.3% (\$14.4 million) and in the Electronic Equipment group 36.5% (\$14.4 million). See Figure 15.

#### Imports Used in Manufacturing by Major Industry Group Maine 1991-1995

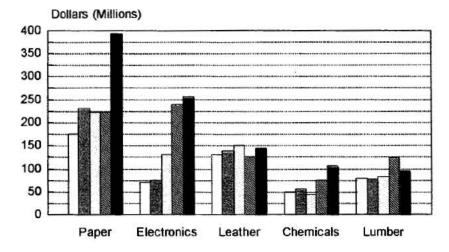

#### Foreign Exports

In 1995, manufactured goods exported to countries outside the U.S. were up 22.7% (\$235.9 million) over 1994. The Paper industry had the greatest dollar increase overall with \$169.8 million (76.4%) over 1994. The Chemicals industry increased its exports \$31.5 million (42.5%), the Leather industry increased \$18.3 million (14.6%) over 1994. The only decreases in exports of nondurable goods were in the Rubber & Plastics industry and the Miscellaneous group; they decreased \$7.1 million (15.8%) and \$0.1 million (3.2%), respectively.

In the durable goods division, Machinery increased \$42.8 million (83.8%) over 1994 and Electronic Equipment, increased exports by \$17.6 million (7.4%) over 1994. See Figure 16.

Figure 16.

Manufactured Exports by Major Industry Group Maine 1991-1995

□ 1991 📾 1992 □ 1993 📾 1994 🔳 1995

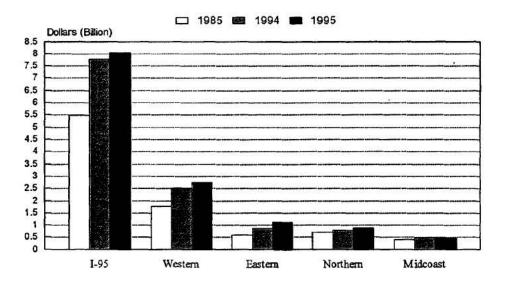

#### Value of Manufacturing Product by County Group

The state of Maine is divided into five county groups: I-95 Corridor, Eastern, Midcoast, Northern, and Western. (See Table 4 for listing.)

All five regions of the state increased their value of manufactured product in 1995. The I-95 Corridor continued to be the top producer with over \$8 billion dollars of manufactured product. York, Cumberland, Penobscot, and Androscoggin counties each produced over one billion dollars in manufactured product during 1995. The Western group of counties was a distant second with \$2.7 billion worth of manufactured product. The largest dollar gains were in Oxford, Hancock and Washington counties with increases of \$154.1 million (25.4%), \$141.7 million (29.1%), and \$136.5 (37%), respectively. The only decreases were in Piscataquis county which had a drop of \$32.7 million (16.5%) and Knox county which had a drop of \$4.1 million (1.5%). See Figures 17-19.

Figure 17.

Value of Manufactured Product by County Group Maine 1985, 1994 & 1995

- 16 -

The V.P. (value of product) Index is a measure of the rate of change in the manufacturing production beginning from a common base of 100. The Eastern area had the sharpest rate of change, up 34 points from 1994; next was the Northern area which was up 13 points. The Western area, I-95 corridor, and the Midcoast area all had small changes as illustrated in Figure 18.

#### APPENDIX A

#### **Technical Notes and Definitions**

ACTUAL DOLLARS (Real) are dollars that have not<sup>b</sup> been adjusted for inflation and reflect the actual value.

ADJUSTED DOLLARS (Constant) are a measure of the cost of goods or services with the effects of inflation removed.

AVERAGE GROSS WAGES is the figure obtained by dividing GROSS WAGES by the TOTAL EMPLOYMENT.

**DURABLE GOODS** are manufactured products designed to withstand wear and decay; e.g., furniture, metals, machinery, transportation equipment.

**EMPLOYMENT** is the number of employees reported in each month, as of the payroll period including the 12th of the month, averaged at the establishment level over the full twelve months.

**ESTABLISHMENT** is defined as a single physical location where industrial operations are performed; it is, therefore, a place of business rather than a legal entity or company which may have units in many locations. Where appropriate (e.g., logging operations) combined reports have been assigned to no specific civil division, merely to the county in which said principal location is found. A small number of multi-county operations report on a statewide basis.

**EXPENDITURES FOR PLANT MODERNIZATION AND EQUIPMENT** (or Capital Expenditures) is the actual amount spent during the survey year and planned for the two succeeding years for three categories: New Structures and/or Additions or Alterations to Existing Structures, Purchase of Existing Structures, and Purchase of New or Used Machinery or Equipment. Land costs are excluded.

**FOREIGN TRADE - EXPORTS** is the sales value of goods manufactured at an establishment that are shipped to foreign countries either directly or via out-of-state agents. **IMPORTS** is the cost of materials imported from foreign countries for use in the manufacturing process at an establishment.

**GROSS WAGES** shows total earnings during the calendar year of all employees before deductions, as reported to the Maine Bureau of Employment Security for Unemployment Insurance taxes. Before 1976, executives were excluded and wages were reported directly to the Bureau of Labor Standards. Because various fringe benefits such as payroll taxes, insurance, etc. paid by employers, are excluded, this data does not represent total labor costs on the part of the employer.

**NONDURABLE GOODS** are manufactured products that have a shorter life expectancy than durable goods; e.g., food, textiles, paper products, leather.

**SPECIAL STUDIES** from Census data are available upon written request to Alan C. Hinsey, Director, Bureau of Labor Standards, 45 State House Station, Augusta, Maine 04333-0045. The Bureau reserves the right to decline any request or to charge for costs incurred.

**STANDARD INDUSTRIAL CLASSIFICATION** (SIC) The Standard Industrial Classification system as compiled by the Executive Office of the President, Office of Management and Budget, is used to determine the industry title applicable to each establishment. Descriptions of major industry groups may be found in Appendix B. Each establishment has been classified according to its <u>principal</u> activity.

**VALUE OF PRODUCT** is the selling price of all goods manufactured or processed (including inventories) during the calendar year. If industrial operations were on a contractual basis, the total of amounts received for contract work or services performed has been included.

**WORKERS UNDER UNION CONTRACT** is the number of workers organized under a union contract and/or a collective bargaining agreement. It represents the number from one representative payroll period; the comparative figure for NUMBER OF WORKERS is an average for the year.

#### INSTRUCTIONS and EXPLANATION NOTES

GENERAL: If this establishment has been sold to others, or has gone out of business, return this form with the name and address of the successor, if any, and the date of such sale or discontinuance. This schedule must be filed to reflect manufacturing operations during the year even though addressed discontinued business during or after that year. **PARTIAL YEAR REPORTS ARE REQUIRED**. New firms organized or beginning operations during the year must also file.

The purpose of this report is to determine the condition of industry in the state for the calendar year under consideration and it is clear that the inclusion in our tabulation of reports for establishments filed under a fiscal year basis which do not reflect calendar year data can only operate to defeat this purpose. It is necessary therefore that this report be prepared to reflect calendar year operations, subject to this considerations. If, in the considered judgment of the reports be authority in the reporting manufacturer's organizations, the financial data called for in the schedule do not materially differ, whether on a calendar or fiscal basis, fiscal year figures will be accepted as representative of the calendar year operations. HOWEVER, THE NUMBER OF CONTRACT WORKERS AND COSTS SHOULD BE REPORTED ON A CALENDAR YEAR BASIS IN EVERY CASE.

ITEM I: List clites or towns in which the establishments are located. Also indicate the number of establishments or separate production units located at that city or town which are covered or included within this report. If any change has taken place in the name, address, or location please make the necessary changes on the address label.

ITEM II: Describe and list separately your products as fully as possible in column (A). In column (B) indicate the basic materials used to make each item, and in column (C) check whether the basic materials were produced in the same establishment. Indicate in column (D) the quantity produced and also the unit of measure (example: cubic feet, cords, thousand board feet, quarts, gallons, pounds). In column (E) state manufacturer's selling value at this establishment of all goods produced during the year whether sold or not. BO NOT consider your annual sales as representing your product value unless they are identical. Sub-item 7 is found principally in the textile finishing, apparel, logging, and kumbering industries where certain operations are performed on materials owned by others - total receipts for such work should be reported.

ITEM III: The purpose of this inquiry is to determine the amounts invested or to be invested in the physical productive capacity of the State's manufacturing industries. It is highly important that we have an indication of the planned investment as well as that which has aiready been effected. The figures are confidential and released only in summary form.

ITEM IV: A. Enter the estimated sales value of goods manufactured at this establishment that were shipped to foreign countries, cither directly or via out-of-state agents.

B. Enter the estimated cost of materials imported from foreign countries for use in the manufacturing process at this establishment.

PLEASE READ INSTRUCTIONS - If you have further questions, please contact this office.

BUREAU OF LABOR STANDARDS DIVISION OF RESEARCH AND STATISTICS 46 STATE HOUSE STATION AUGUSTA, MAINE 04333-0045 TELEFHORE No. 207-824-8446

#### PLEASE NOTE: THESE DATA ARE STRICTLY CONFIDENTIAL AND WILL NOT BE DIVULGED IN ANY WAY WHICH WILL REVEAL INDIVIDUAL INFORMATION. DATA ARE USED IN SUMMARY TABULATIONS ONLY.

According to law, the Director of the Borean of Labor Standards may furnish a written or printed list of interrogatories and require full and complete answers thereto under oath. Pursuant thereto: 1, the undersigned, have examined this report and to the best of my knowledge and belief it is a true and correct and complete return.

#### APPENDIX B

#### Major Industry Descriptions, 1987 SIC

#### THE DIVISION AS A WHOLE

The manufacturing division includes establishments engaged in the mechanical or chemical transformation of materials or substances into new products. These establishments are usually described as plants, factories, or mills and characteristically use power driven machines and materials handling equipment. Establishments engaged in assembling component parts of manufactured products are also considered manufacturing if the new product is neither a structure nor other fixed improvement. Also included is the blending of materials, such as lubricating oils, plastics, resins, or liquors.

The materials processed by manufacturing establishments include products of agriculture, forestry, fishing, mining, and quarrying as well as products of other manufacturing establishments. The new product of a manufacturing establishment may be "finished" in the sense that it may be "semi-finished" to become a raw material for an establishment engaged in further manufacturing. For example, the product of the copper smelter is the raw material used in electrolytic refineries; refined copper is the raw material used by certain electrical equipment manufacturers.

The materials used by manufacturing establishments may be purchased directly from producers, obtained through customary trade channels, or secured without recourse to the market by transferring the product from one establishment to another which is under the same ownership. Manufacturing production is usually carried on for the wholesale market, for interplant transfer, or to order for industrial users, rather than for direct sale to the domestic consumer.

20 FOOD AND KINDRED PRODUCTS: This major group includes establishments manufacturing or processing food and beverages for human consumption and certain related products, such as manufactured ice, chewing gum, vegetable and animal fats and oils, and prepared feeds for animals and fowls.

22 TEXTILE MILL PRODUCTS: This major group includes establishments engaged in performing any of the following operations: (1) preparation of fiber and subsequent manufacturing of yarn, thread, braids, twine, and cordage; (2) manufacturing broad woven fabric, narrow woven fabric, knit fabric, and carpets and rugs from yarn; (3) dyeing and finishing fiber, yarn, fabric, and knit apparel; (4) coating, waterproofing, or otherwise treated fabric; (5) the integrated manufacture of knit apparel and other finished articles from yarn; and (6) the manufacture of felt goods, lace goods, nonwoven fabrics, and miscellaneous textiles.

This classification makes no distinction between the two types of organizations which operate in the textile industry:

(1) the "integrated" mill which purchases materials, produces textiles, and related articles within the establishment, and sells the finished products; and (2) the "contract" or "commission" mill which processes materials owned by others. Converters or other manufacturing industries; establishments which assign materials to contract mills for processing (other than knitting) are classified in nonmanufacturing industries; establishments which assign yarns to outside contractors or commission knitters for the production of knit products are also classified in this Group.

23 APPAREL AND OTHER FINISHED PRODUCTS MADE FROM FABRICS AND SIMILAR MATERIALS: This major group, known as the cutting-up and needle trades, includes establishments producing clothing and fabricating products by cutting and sewing purchased woven or knit textile fabrics and related materials, such as leather, rubberized fabrics, plastics, and furs.

Included in the apparel industries are three types of establishments: (1) the "regular" or insider factories, (2) contract factories, and (3) apparel jobbers. The regular factories perform all of the usual manufacturing functions within their own plant; the contract factories manufacturing apparel from materials owned by others; and apparel jobbers perform the entrepreneurial functions of a manufacturing company, such as buying raw materials, designing and preparing samples, arranging for the manufacture of the garments from their materials and selling of the finished apparel.

Custom tailors and dressmakers not operating on a factory basis are classified in Retail Trade; establishments which purchase and resell finished garments but do not perform the functions of the apparel jobbers are classified in Wholesale Trade. 24 LUMBER AND WOOD PRODUCTS, EXCEPT FURNITURE: This major group includes logging camps engaged in cutting timber and pulpwood; merchant sawmills, lath mills, shingle mills, cooperage stock mills, planing mills, and plywood mills and veneer mills engaged in producing lumber and wood basic materials; and establishments engaged in manufacturing finished articles made entirely or mainly of wood or wood substitutes. Certain types of establishments producing wood products are classified elsewhere. For example, furniture and office and store fixtures are classified in Major Group 25; musical instruments, toys, and playground equipment, and caskets in Major Group 39. Woodworking in connection with construction, in the nature of reconditioning and repair, or performed to individual order, is classified in nonmanufacturing industries.

**25 FURNITURE AND FIXTURES:** This major group includes establishments engaged in manufacturing household, office, public building, and restaurant furniture; and office and store fixtures. Establishments primarily engaged in the production of millwork and wood kitchen cabinets are classified in Major Group 24; cut stone and concrete furniture in Major Group 32; laboratory and hospital furniture in Major Group 38; beauty and barber shop furniture in Major Group 39; and woodworking to individual order or in the nature of reconditioning and repair in nonmanufacturing industries.

**<u>26</u>** PAPER AND ALLIED PRODUCTS: This major group includes the manufacture of pulps from wood and other cellulose fibers and from rags; the manufacture of paper and paperboard; and the manufacture of paper and paperboard into converted products, such as paper coated off the paper machine, paper bags, paper boxes, and envelopes. Certain types of converted paper products are classified elsewhere, such as abrasive paper in Major Group 32; carbon paper in Major Group 39; and photosensitized and blueprint paper in Major Group 38.

ų,

**27 PRINTING, PUBLISHING, AND ALLIED PRODUCTS:** This major group includes establishments engaged in printing by one or more of the common processes, such as letter press, lithography, gravure, or screen; and those establishments which perform services for the printing trade, such as bookbinding, typesetting, engraving, photoengraving, and electrotyping. This major group also includes establishments engaged in publishing newspapers, books, and periodicals, regardless of whether or not they do their own printing. News syndicates are classified in Service Industrics, and textile printing and finishing in Major Group 22.

**28** CHEMICALS AND ALLIED PRODUCTS: This major group includes establishments producing basic chemicals and establishments manufacturing products by predominantly chemical processes. Establishments classified in this major group manufacture three general classes of products: (1) basic chemicals, such as acids, alkalies, salts, and organic chemicals; (2) chemical products to be used in further manufacture, such as synthetic fibers, plastics materials, dry colors, and pigments; (3) finished chemical products to be used for ultimate consumption, such as drugs, cosmetics, and soaps; or to be used as materials or supplies in other industries, such as paints, fertilizers, and explosives. The mining of natural rock salt is classified in mining industries. Establishments primarily engaged in manufacturing nonferrous metals and high percentage ferrous alloys are classified in Major Group 32; baking powder, other leavening compounds, and starches in Major Group 20; and artists' colors in Major Group 39. Establishments primarily engaged in packaging, and bottling of purchased chemical products, but not engaged in manufacturing chemicals and alled products, are classified in trade industries.

29 PETROLEUM REFINING AND RELATED INDUSTRIES: This major group includes establishments primarily engaged in petroleum refining, manufacturing paving and roofing materials, and compounding lubricating oils and greases from purchased materials. Establishments manufacturing and distributing gas to consumers are classified in public utilities industries, and those primarily engaged in producing coke and by-products in Major Group 33.

<u>30</u> RUBBER AND MISCELLANEOUS PLASTICS PRODUCTS: This major group includes establishments manufacturing from natural, synthetic, or reclaimed rubber, gutta-percha, balata, or gutta siak, rubber products such as tires, rubber footwear, mechanical rubber goods, heels and soles, flooring, and rubber sundries. This group also includes establishments primarily manufacturing tires, but establishments primarily recapping and retreading automobile tires are classified in Services. This group also includes establishments engaged in molding primary plastics for the trade, and manufacturing miscellaneous finished plastics products. The manufacture of elastic webbing is classified in Major Group 22; products made of elastic webbing and garments made from the rubberized fabrics in Major Group 23; and synthetic rubber in Major Group 28.

31 LEATHER AND LEATHER PRODUCTS: This major group includes establishments engaged in tanning, currying, and finishing hides and skins, and establishments manufacturing finished leather and artificial leather products and some similar products made of other materials. Leather converters are also included.

32 STONE, CLAY, GLASS AND CONCRETE PRODUCTS: This major group includes establishments engaged in manufacturing flat glass and other glass products, cement, structural clay products, pottery, concrete and gypsum products, cut stone, abrasive and asbestos products, etc., from materials taken principally from the earth in the form of stone, clay, and sand. When separate reports are available for mines and quarries operated by manufacturing establishments classified in this major group, the mining quarrying activities other than those of Minerals, ground or treated, are classified herein with the manufacturing operations.

If separate reports are not available for crushing, grinding, and other preparation activities of Minerals, ground or treated, these establishments are classified in Mining.

33 PRIMARY METAL INDUSTRIES: This major group includes establishments engaged in the smelting and refining of ferrous and nonferrous metals from ore, pig. or scrap; in the rolling, drawing, and alloying of ferrous and nonferrous metals; in the manufacture of castings and other basic products of ferrous and nonferrous metals; and in the manufacture of nails, spikes, and insulated wire and cable. This major group also includes the production of coke. Establishments primarily engaged in manufacturing metal forgings or stampings are classified in Major Group 34.

34 FABRICATED METAL PRODUCTS, EXCEPT MACHINERY AND TRANSPORTATION EQUIPMENT: This major group includes establishments engaged in fabricating ferrous and nonferrous metal products such as metal cans, tinware, hand tools, cutlery, general hardware, and nonelectric heating apparatus, fabricated structural metal products, metal forgings, metal stampings, ordnance (except vehicles and guided missiles), and a variety of metal and wire products not elsewhere classified. Certain important segments of the metal fabricating industries are classified in other major groups, such as machinery in Major Groups 35 and 36; transportation equipment, including tanks, in Major Group 37; professional scientific and controlling instruments, watches and clocks in Major Group 38; and jewelry and silverware in Major Group 39. Establishments primarily engaged in producing ferrous and nonferrous metals and their alloys are classified in Major Group 33.

35 INDUSTRIAL AND COMMERCIAL MACHINERY AND COMPUTER EQUIPMENT: This major group includes establishments engaged in manufacturing industrial and commercial machinery and equipment and computers. Included are the manufacture of engines and turbines; farm and garden machinery; construction, mining, and oil field machinery; elevators; metalworking machinery; special industry machinery; computer and peripheral equipment and office machinery; and refrigeration and service industry machinery. Machines powered by built-in or detachable motors ordinarily are included in this major group, with the exception of electrical household appliances.

**36** ELECTRONIC AND OTHER ELECTRICAL EQUIPMENT AND COMPONENTS, EXCEPT COMPUTER EQUIPMENT: This major group includes establishments engaged in manufacturing machinery, apparatus, and supplies for the generation, storage, transmission, transformation, and utilization of electrical energy. The manufacture of household appliances is included in this group, but industrial machinery and equipment powered by built-in or detachable electric motors is classified in Major Group 35. Establishments primarily engaged in manufacturing instruments for indicating, measuring, and recording electrical quantities are classified in Major Group 38.

37 TRANSPORTATION EQUIPMENT: This major group includes establishments engaged in manufacturing equipment for transportation of passengers and cargo by land, air and water. Important products produced by establishments classified in this major group include motor vehicles, aircraft, guided missiles and space vehicles, ships, boats, railroad equipment, and miscellaneous transportation equipment such as motorcycles, bicycles, and snowmobiles. Establishments primarily engaged in manufacturing mobile homes are classified in Major Group 24.

38 MEASURING, ANALYZING, AND CONTROLLING INSTRUMENTS, PHOTOGRAPHIC, MEDICAL, AND OPTICAL GOODS; WATCHES AND CLOCKS: This major group includes establishments engaged in Manufacturing instruments (including professional and scientific) for measuring, testing, analyzing, and controlling, and their associated sensors and accessories; optical instruments and lenses; surveying and drafting instruments; surgical, medical, and dental instruments, equipment, and supplies; ophthalmic goods; photographic equipment and supplies; and watches and clocks.

39 MISCELLANEOUS MANUFACTURING INDUSTRIES: This major group includes establishments primarily engaged in manufacturing products not classified in any other manufacturing major group. Industries in this group fall into the following categories: jewelry, silverware and plated ware; musical instruments; toys, sporting and athletic goods; pens, pencils, and other office and artists' materials, buttons, costume novelties, miscellaneous notions; brooms and brushes; caskets; and other miscellaneous manufacturing industries.

**NOTE:** More detailed definitions may be obtained directly from the Standard Industrial Classification Manual, 1987 Revision.

#### APPENDIX C

#### Geographic Definitions of Economic Areas

This publication has included a tabulation entitled "Economic Areas" since 1954. This series consists of thirty-one areas which were delineated on the basis of population and manufacturing employment cross-sectional evaluation. Only those towns with manufacturing businesses are listed below. A complete listing of the Maine Labor Market Areas can be found in the <u>1993 Maine Employment Statistical Handbook</u>. It can be ordered by mailing a request to Maine Department of Labor, Labor Market Information Services, Attn: Publications Unit Manager, 20 Union St., Augusta, ME 04330-6826 (phone 207-287-2271). There is a charge for the publication. In 1987, a major reorganization of the economic areas was completed. Care should be exercised in making comparisons of these thirty-one areas with the earlier areas as there have been changes made in almost all of the regions.

Civil divisions are geographical units of government. Major civil divisions are counties; minor civil divisions are cities, towns, plantations, and townships. The civil division with the largest population is in bold letters, and the civil division with the most workers employed in manufacturing is underlined. The minor civil division contained in the areas are as follows:

Area

1004

No.	Population	Town
1	49,200	Berwick, Eliot, Kittery, <u>N. Berwick</u> , S. Berwick, Wells, <b>York</b>
2	37,696	Acton, Alfred, Lebanon, Limerick, Sanford, Shapleigh. Waterboro
3	55,806	Arundel, Biddeford, Dayton, Kennebunk, Kennebunkport, Lyman, Saco
4	220,133	Buxton, Cape Elizabeth, Cumberland, Falmouth, Freeport, Gorham, Gray, Hollis, N. Yarmouth, Old Orchard Beach, <u>Portland</u> , Raymond, Scarborough, S. Portland, Standish, Westbrook, Windham, Yarmouth
5	25,152	Baldwin, <u>Bridgton.</u> Brownfield, Casco, Cornish, Denmark, Fryeburg, Hiram, Limington, Naples, Parsonfield, Porter
6	62,597	Arrowsic, <u>Bath</u> , Bowdoin, Bowdoinham, <b>Brunswick</b> , Durham, Georgetown, Harpswell, New Gloucester, Pownal, Topsham. West Bath, Woolwich
7	85,644	Auburn, Greene, Lewiston, Lisbon, Mechanic Falls, Poland, Sabattus
8	22,891	Boothbay, Boothbay Harbor, Bremen <u>Bristol</u> , Damariscotta, Edgecomb, Jefferson, Newcastle, Nobleboro, S. Bristol, Southport, Whitefield, Wiscasset
9	40,665	Appleton, Camden, Cushing, Friendship, North Haven, Owls Head <b>Rockland</b> , Rockport, St. George, S. Thomaston, Thomaston, Union, Vinalhaven, Warren, Washington, Waldoboro
10	27,576	Buckfield, Greenwood, Harrison, Hebron, Lovell, Minot, Norway, Oxford. Otisfield, Stoneham, Sumner, Sweden, Waterford, West Paris, Woodstock
11	10,029	Leeds, <u>Livermore Falls</u> , Turner
12	60.377	Augusta. Chelsea, Farmingdale, Gardiner, Hallowell, Monmouth, Pittston, Randolph, Readfield, Wayne, W. Gardiner, Windsor, Winthrop, Richmond
13	19,137	Adamstown Twp, Andover, Bethel, Canton, Dixfield, Hanover, Mexico, Newry, Parkertown Twp, Peru, Roxbury, <u>Rumford</u>
14	27,247	Avon, Beattie Twp, Carrabassett Valley, Carthage, Chesterville, Coburn Gore, Eustis, Farmington, <u>Jay</u> , Kingfield, New Sharon, New Vincyard, Phillips, Rangeley, Salem Twp, Strong, Temple, Wilton
15	52,867	Albion, Belgrade, Benton, China, Clinton, Mount Vernon, Oakland, Sidney, Unity Twp., Vassalboro, Waterville, Winslow

### APPENDIX C (Continued)

Area No.	1994 Population	Town
16	33,166	Belfast, Belmont, Brooks, Burnham, Frankfort, Islesboro, Liberty, Lincolnville, Monroe, Montville, Morrill, Northport, Palermo, Prospect, Searsmont, Searsport, Stockton Springs, Swanville, Thorndike, Troy, Unity, Waldo, Winterport
17	<b>44,33</b> 9	Aurora, Bar Harbor, Blue Hill, Brooklin, Brooksville, <u>Bucksport</u> , Castine, Cranberry Isles, Dedham, Deer Isle, <b>Ellsworth</b> , Franklin, Gouldsboro, Hancock, Lamoine, Mariaville, Mount Desert, Orland, Penobscot, Sedgwick, Sorrento, Southwest Harbor, Stonington, Sullivan, Surry, Swans Island, Tremont, Trenton, Winter Harbor
18	47,153	Anson, Athens, Bingham, Cambridge, Canaan, Caratunk Plt., Comstock Twp., Detroit, Embden, Fairfield, Harmony, Hartland, Highland Plt., Jackman, Madison, Moose River, New Portland, Norridgewock, Palmyra, Pittsfield, Pittston Academy Grant, Sandwich Academy Grant, St. Albans, <u>Skowhegan</u> , Smithfield, Solon, Starks, The Forks Plt., West Forks Plt.
19	21,791	Bradford, Carmel, Charleston, Corinna, Corinth, <u>Dexter</u> , Dixmont, Etna, Exeter, Garland, Newburgh, Newport
20	80,747	Bangor. Brewer, Eddington, Hampden, Herman, Holden, Kenduskeag, Old Town, Orono, Orrington, Veazie,
21	6,599	Bradley, Greenbush, Greenfield, Lagrange, Milford, Argyle Twp
22	28,151	Alexander. <u>Baileyville</u> . Baring Plt., Beals, Brookton Twp., Calais, Cherryfield, Columbia Falls, Cutler, Danforth, E. Machias, Eastport, Grand Lake Stream Plt., Jonesboro, Jonesport, Lubec, Machias, Machiasport, Milbridge, Pembroke, Perry, Princeton, Robbinston, Steuben, Topsfield, T36 MD, Waite, Wesley
23	2,223	Beaver Cove Pit, Greenville, Little Squaw Twp., Shirley
24	15,173	Abbott, Atkinson, Brownville, Dover-Foxcroft, <u>Guilford</u> , Milo, Monson, Parkman, Sangerville, Sebec, T7 R13, Wellington
25	12,660	Burlington, Chester, Enfield, Howland, Kingman Twp., Lee, Lincoln, Mattawamkeag, Passadumkeag, Prentiss Plt., Winn
26	10,548	East Millinocket, Grindstone Twp., Long A Twp., Medway, Millinocket
27	5,439	Crystal, <u>Island Falls</u> , Merrill, Oakfield, <b>Patten</b> , Sherman, Smyrna, Stacyville
28	11,705	Haynesville, Hodgdon, Houlton, Linneus, Littleton, Monticello, Orient, Reed Plt., Weston
29	8,110	Allagash Plt., Eagle Lake, Fort Kent, Frenchville, St. Agatha, St. Francis, St. John Plt., Wallagrass Plt., Winterville Plt., T11 R14
30	39.446	Ashland, Blaine, Bridgewater, Caribou, Connor Twp., <u>Easton</u> , Ft. Fairfield, Limestone, Mapleton, Masardis, Nashville Plt., Oxbow Plt., Perham, Portage Lake, <b>Presque Isle</b> , Wade, Washburn, Westfield
31	7,852	Hamlin Plt., <u>Madawaska,</u> Van Buren

**NOTE:** Population data is from the <u>1994 Maine Population Estimates</u>, by <u>Minor Civil Division</u> provided by the Maine Department of Human Services, Bureau of Health, Office of Data, Research and Vital Statistics.

## APPENDIX D

#### Census of Maine Manufactures by Major Industry Group, 1990-1994

#### APPENDIX F

#### Actual and Adjusted Data Comparisons, 1994-1995

The data on the following table has been adjusted using two major price indexes published by the U.S. Department of Labor, Bureau of Labor Statistics. The Value of Product data is adjusted by the Producer Price Index, (formerly the Wholesale Price Index) using a base year of 1982 = 100 unless noted. Wage data is adjusted by the Consumer Price Index for Urban Wage Earners and Clerical Workers and the base year is 1982-84 = 100. The adjustments made are based on the annual average for the respective index.

The Consumer Price Index is a monthly statistical measure of the average change in prices in a fixed market basket of goods and services.

The CPI is based on prices of food, clothing, shelter, fuel, drugs, transportation fares, doctors' and dentists' fees, and other goods and services that people buy for day-to-day living. The quantity and quality of these items is kept essentially unchanged between major revisions so that only price changes will be measured. Prices are collected from over 18,000 tenants, 24,000 retail establishments, and 18,000 housing units for property taxes in 85 urban areas across the country. All taxes directly associated with the purchase and use of items are included in the index.

Though the CPI is often called the "Cost-of-Living Index", it measures only price change, which is just one of several important factors affecting living costs.

#### CPI-W

#### 1994 Annual Average = 145.6 1995 Annual Average = 149.8

Producer Price Indexes measure average changes in prices received in primary markets of the United States by producers of commodities in all stages of processing. The sample used for calculating these indexes contains about 2,800 commodities produced in the manufacturing, agriculture, forestry, fishing, mining, gas and electricity, and public utilities sectors. The universe includes all commodities produced or imported for sale in commercial transactions in primary markets in the United States.

To the extent possible, prices used in calculating Producer Price Indexes apply to the first significant commercial transaction in the United States, from the production or central marketing point. Price data are generally collected monthly, primarily by mail questionnaire. Most prices are obtained directly from producing companies on a voluntary and confidential basis. Prices generally are reported for the Tuesday of the week containing the 13th day of the month.

Order Form for Special Reports						
The Department of Labor can produce special reports using the data elements listed in Appendix A. The ability to fill such requests is limited, however. There may be charges for reimbursement of costs.						
Tables 1,3,4, and 8 through 17 are available for 1995 for any of the following major industrial classifications:						
<ul> <li>Division A: Agriculture, Forestry and Fishing, SIC 01-09</li> <li>Division B: Mining, SIC 10-14</li> <li>Division C: Construction, SIC 15-17</li> <li>Division D: Manufacturing, SIC 20-39</li> <li>Division E: Transportation, Communications, Electric, Gas and Sanitary Services, SIC 40-49</li> <li>Division J: Public Administration, SIC 91-97</li> </ul>						
You may also request a special report that is customized to fit your data needs. You may request data for any specific SIC, occupation, nature, part of body, etc. Simply fill out this request or call 624-6447 for help in request- ing the data you need.						
I would like data on: for the years:						
Additional information that will help with the data selection:
